HOW TO FIND HOUSING IN YOUR AREA:

Visit <https://otda.ny.gov/programs/housing/providers/> and click on *Housing Opportunities for Persons with AIDS* to find your area's program provider.

*Homelessness = Living on the street, in a shelter, in a single-room-occupancy hotel, or in a car.

[†]People of Hispanic or Latino origin can be of any race.

[‡]Interpret with caution due to count of <30 people.

All percentages are weighted percentages. A total of 1,197 adults with diagnosed HIV were sampled for the New York State and New York City Medical Monitoring Project from 2018-2020. Of those sampled, 117 reported being homeless.
