Billing Instructions For
Part 816 OASAS Certified Chemical Dependency Detox

Reimbursement for inpatient chemical dependency detox services provided by Office of Alcoholism and Substance Abuse Services (OASAS) certified general hospitals transitioned to a per diem rate methodology effective 12/1/2008. New billing rate codes were established to accurately calculate per diem payments for 2 clinically distinct levels of care: a higher intensity Medically Managed Detox (MMD) level of care, and a lower intensity Medically Supervised Inpatient Withdrawal (MSIW) level of care. The detox rate code payment logic includes recognition of observation days (OBS) to be paid at the higher MMD payment rate, and length of stay (LOS) reductions in payment for stays exceeding 5 days, applicable to both levels of care, as required by statute. Following are the billing instructions effective for services provided 1/1/2010 forward.

DETOX PER DIEM RATE CODE REVISIONS EFFECTIVE 1/1/2010:

Effective 1/1/2010, the operating cost component of the MSIW rate of payment was reduced to 75% of the prevailing operating cost component of the MMD rate of payment. However, capital costs in the MSIW rate continue to be included at 100% of the allowable detox capital cost per day. This MSIW operating cost specific reduction in payment, coupled with the requirement that OBS bed days (up to 48 hours) be reimbursed at the higher MMD payment rate, required changes to the initially established detox rate code construct to implement. To assure accurate payment for MSIW stays when OBS days are included in the stay, the following revised and expanded detox per diem rate codes, and related payment logic, became effective for claims with dates of admission 1/1/2010 forward:

1. **Rate Code 4800:** MMD (operating cost) with or without OBS Days
2. **Rate Code 4801:** MSIW (operating cost) without OBS Days
3. **Rate Code 4802:** MSIW (operating cost) with 1 OBS Day
4. **Rate Code 4803:** MSIW (operating cost) with 2 OBS Days
5. **Rate Code 4804:** Inpatient Detox Capital Cost Per Diem ***(add-on rate code only)***

Claims are to be submitted on a per discharge basis using the rate code that corresponds to the level of care rendered to the patient on day 3 of the admitted stay, or the level of care determined on the day of admission if the LOS is less than 3 days. Though we recognize there may be instances where a patient transitions through multiple levels of care during a given stay, systems limitations do not allow for the development of more refined billing parameters to address such situations. Day 3 is the first day after the maximum allowable OBS period and is deemed to fairly represent the overall clinical status of the patient's stay for reimbursement purposes. LOS reductions based on the total number of days for the stay continue, with the detox service begin date typically determining the first day for the LOS calculations. If the patient was initially admitted to another unit in the hospital (e.g., Intensive Care Unit or Medical Surgical Unit) to address urgent medical care needs prior to being transferred to the Detox Unit for ongoing care, the admission date to the hospital is the begin date for determining the LOS reductions in payment for the detox unit stay. It is noted that, in such cases, a separate payment for the medical stay (DRG case payment rate) is permissible in addition to payment for the detox unit stay.

Appendix I provides a detailed presentation of the detox per diem billing rate codes and payment logic. ***Please note that rate code 4804 is not a billing rate code (i.e., will not be include on the claim form for submission)***, but is necessary from a systems standpoint to be retrieved and added to the calculation for the final payment to be inclusive of capital cost. The schematic presented in Appendix I assumes that the rates posted to the various rate codes are fixed amounts, when in fact they will change from time to time as rates are revised. The programming logic does indeed recognize that detox rate codes 4800-4804 can have different rate amounts that need to be selected and applied based on the dates of service included in the stay, and will select the applicable rate amount based on the service date.

OTHER DETOX REIMBURSEMENT RELATED ISSUES

Detox Unit Overflow:

Part 816 OASAS certification is specific to hospital site/address location and number of beds approved for the unit. On occasions where the OASAS certified detox unit is at full capacity and another patient in need of detoxification services must, consequently, be admitted to a medical surgical bed at the same location, the hospital is to bill for such "overflow" detox unit patients using the detox per diem rates. Presumably, such overflow admissions to a medical surgical bed will be short term until a bed in the detox unit becomes available. From a clinical perspective, such patients are detoxification unit patients and their treatment plan will follow Part 816 OASAS program regulations. Hence, the detox per diem rates, rather than the hospital's DRG case payment rate, are the appropriate rates to use for determining reimbursement for the inpatient detox service provided such patients.

Detox Scatter Bed Reimbursement for Non-OASAS Certified Hospitals:

The detox per diem rate methodology applies only to general hospitals certified by OASAS to operate a Part 816 Detoxification Program. As this certification is specific to hospital site/address location, the detox per diem rates are loaded only to the locator code site that corresponds to the OASAS certified site. The per diem rates do not apply to inpatient detoxification services provided in general hospitals that do not have OASAS certification, or to non-certified hospital sites of OASAS certified general hospitals (e.g., hospital entities, such as mergers, that operate multiple acute care inpatient sites at different physical plant locations, not all of which have OASAS certified detox units). Such general medical "scatter bed" inpatient detox services continue to be reimbursed through the DRG rate methodology.

APPENDIX I

Inpatient Chemical Dependency Detox Fee-For-Service Rate Codes

Effective for Admissions On and After 1/1/2010

Rate Code Legend:

1. RC 4800 – MMD (operating cost) w/or w/o OBS Days

NEW YORK STATE | Department of Health | Office of Health Insurance Programs

Payment of Sterilization During Delivery for Fidelis Enrollees

(PUB_IP_MA_HMO_Acute_Col 13)

Effective for dates of service beginning December 1, 2009, hospitals providing newborn delivery services combined with a sterilization procedure for enrollees of the New York State Catholic Health Plan, a.k.a. Fidelis Care New York, ***may bill Medicaid fee-for-service for the sterilization, only*** . The plan will continue to be responsible for payment of the newborn delivery.

The following billing instructions are valid for delivery and sterilization services provided to Medicaid managed care and Family Health Plus (FHPlus) enrollees of Fidelis. The billing hospital must participate in Fidelis' provider network or be otherwise approved by the health plan to provide delivery services to the enrollee.

Claims for the sterilization component of a combined delivery/sterilization inpatient stay may be submitted beginning April 22, 2010 and must include:

- Rate code 2290 Sterilization During Delivery
- APR-DRG 541
- A sterilization procedure code as primary or secondary (sterilization procedure codes are: 6621; 6622; 6629; 6631; 6632; 6639; 664; 6651; 6652; 6663; 6669; 6692; 6697)
- Date of admission as the date of service (must be a one day claim)
- Primary diagnosis of birth/delivery and secondary diagnosis of sterilization

Stays for combined delivery and sterilization services for enrollees of all other Medicaid managed care and FHPlus plans will continue to be billed to the health plan.

Additional information is available at www.emedny.org.

Questions on billing procedures should be directed to the eMedNY Call Center at 800-343-9000.

Questions on managed care should be directed to the Bureau of Managed Care Program Planning & Implementation at 518-473-0122.

Pursuant to the authority vested in the Commissioner of Health by section 2807-c(35) of the Public Health Law, Subpart 86-1 of Title 10 of the Official Compilation of Codes, Rules and Regulations of the State of New York, is amended by adding a new section 86-1.21 effective December 1, 2009, to read as follows:

Section 86-1.21. Outlier and transfer cases rates of payment.

(a)(1) High cost outlier rates of payment shall be calculated by reducing total billed patient charges, as approved by IPRO, to cost, as determined based on the hospital's ratio of cost to charges. Such calculation shall use the most recent data available as subsequently updated to reflect the data from the year in which the discharge occurred, and shall equal 100 percent of the excess costs above the high cost outlier threshold. High cost outlier thresholds shall be developed for each individual DRG and adjusted by hospital-specific wage equalization factors (WEF) and increased by the Consumer Price Index from the base period used to determine the statewide base price and the rate
(2) A non-public, not-for-profit general hospital which has not established an ancillary and routine charges schedule shall be eligible to receive high-cost outlier payments equal to the average of high-cost outlier payments received by comparable hospitals, as determined using the following criteria:
(i) downstate hospitals;
(ii) hospitals with a case mix greater than 1.75;
(iii) hospitals with Medicaid revenue greater than $30 million of total revenue; and
(iv) hospitals with a proportion of outlier to inlier cases greater than 3.0 percent.
(b) Rates of payment to non-exempt hospitals for inpatients who are transferred to another non-exempt hospital shall be calculated on the basis of a per diem rate for each day of the patient's stay in the transferring hospital, subject to the exceptions set forth in paragraphs (1), (2) and (3) of this subdivision. The total payment to the transferring facility shall not exceed the amount that would have been paid if the patient had been discharged. The per diem rate shall be determined by dividing the DRG case-based payment per discharge as defined in section 86-1.15(b) of this Subpart by the arithmetic inlier length of stay (LOS) for that DRG, as defined in section 86-1.15(o) of this Subpart, and multiplying by the transfer case's actual length of stay and by the transfer adjustment factor of 120 percent. In transfer cases where the arithmetic inlier LOS for
(1) Transfers among more than two hospitals that are not part of a merged facility shall be reimbursed as follows:
(i) the facility which discharges the patient shall receive the full DRG payment; and
(ii) all other facilities in which the patient has received care shall receive a per diem rate unless the patient is in a transfer DRG.
(2) A transferring facility shall be paid the full DRG rate for those patients in DRGs specifically identified as transfer DRGs.
(3) Transfers among non-exempt hospitals or divisions that are part of a merged or consolidated facility shall be reimbursed as if the hospital that first admitted the patient had also discharged the patient.

(4) Services provided to neonates discharged from a hospital providing neonatal specialty services to a hospital reimbursed under the case payment system for purposes of weight gain shall be reimbursed and assigned to the applicable APR-DRG upon admission or readmission.

NEW YORK STATE | Department of Health | Office of Health Insurance Programs

Office of Medicaid Management - Medicaid Model Contract Section 3.11
Inpatient Hospital Stop-Loss Insurance for Medicaid Managed Care (MMC) Enrollees

a) The Contractor must obtain stop-loss coverage for inpatient hospital services for MMC Enrollees. A Contractor may elect to purchase stop-loss coverage from New York State. In such cases, the Capitation Rates paid to the Contractor shall be adjusted to reflect the cost of such stop-loss coverage. The cost of such coverage shall be determined by SDOH.
b) Under NYS stop-loss coverage, if the hospital inpatient expenses incurred by the Contractor for an individual MMC Enrollee during any calendar year reaches $100,000, the Contractor shall be compensated for eighty percent (80%) of the cost of hospital inpatient services in excess of this amount up to a maximum of $250,000. Above that amount, the Contractor will be compensated for one hundred percent (100%) of cost. All compensation shall be based on the lower of the Contractor's negotiated hospital rate or Medicaid rates of payment.
(Note: "Medicaid rates of payment' interpreted to be the Managed Care rates (not FFS rates.)
