I. Introduction

The New York State Department of Health (herein referred to as the Department) AIDS Institute, Division of HIV and Hepatitis Health Care, Bureau of Community Support Services announces the availability of New York State funds to support the provision of comprehensive legal services to people living with HIV/AIDS.

The intent of this Request for Applications (RFA) is to **allocate \$2,750,000 annually for five (5) years for a total of \$13,750,000 in New York State funds.** Up to \$315,000 annually is available to providers in New York City, Long Island, and Hudson Valley. Up to \$215,000 annually is available to providers in the rest of the state (Central New York, Finger Lakes, Northeastern New York, and Western New York).

A. Background/Intent

HIV is closely tied to social and economic inequalities. Retention in medical care and adherence to antiretroviral therapy are essential for achieving sustained viral load suppression. However, many individuals with HIV face significant challenges in maintaining this viral suppression. For instance, in New York State (NYS) 52% of people with HIV live in households at or below the poverty level, and a significant number experience homelessness, confront issues such as HIV stigma, depression, addiction, and food insecurity. Black/Brown, Indigenous, and People of Color (BIPOC) who are already disproportionately impacted by the HIV epidemic, are also more likely to be impacted by health harming legal needs.

To eliminate disparities in health outcomes, there is a need to understand and address the relationship between unmet legal needs and social determinants of health (SDOH) that may impact People Living With HIV/AIDS' (PLWHA) ability to achieve and maintain viral load suppression and affect health outcomes. Research show that these and other SDOH contribute to approximately 60% of a person's health outcomes and significantly impact a person living with HIV's ability to manage their illness and preserve their health. These entrenched and formidable SDOH barriers cannot be addressed through medical treatment alone.¹ Though many of these barriers can be addressed and eliminated through legal advocacy, most patients and their medical providers are unaware that these barriers to healthcare are related to legal rights violations or can be prevented with proactive legal representation. Improved availability and access to comprehensive legal services can help PLWHA overcome these barriers and improve access to care and health outcomes.²

To ensure legal services are aligned with the needs of these populations and identify emergent legal needs and service gaps across different regions of New York State, the Department of Health AIDS Institute implemented provider surveys, conducted literature reviews, and coordinated meetings with the New York City Department of Health and Mental Hygiene. The information gathered was crucial in identifying the emergent legal needs in New York State and played a vital role in the design of the legal services model identified in the RFA.

¹ Medical-legal partnerships: An integrated approach to advance health equity and improve health outcomes for people with HIV. Omar Martinez, et al., *Frontiers in Reproductive Health*, August 2022

² Health Harming Legal Needs Identified by people with HIV: Data from a medical legal Partnership Study to improve HIV care Continuum Outcomes. Samantha J. Morton et al., *The Journal of Medicine, Law and Public Health*, Jan. 30, 2025

In New York State, the HIV epidemic disproportionately affects Black/Brown, Indigenous, and People of Color (BIPOC), especially among young people, non-Hispanic Black/African American women, and members of the LGBTQ+ community, including gay, bisexual, transgender, and gender-nonconforming individuals, as well as men who have sex with men (MSM). In 2025, Black individuals made up 39% of new HIV diagnoses, even though they represent only 14.7% of the state's population. While 77% were connected to healthcare, only 54% achieved viral suppression, compared to 77% of white individuals.³ Consistent medical care is key to achieving viral load suppression and lowering transmission risk. On average, low-income individuals face two (2) to three (3) unmet civil legal needs that can greatly impact their food security, access to stable and affordable housing, benefit stability, and overall safety. Addressing these issues for people living with HIV can greatly enhance their ability to stay engaged in their healthcare.⁴

This RFA seeks to support innovative and comprehensive legal services that address the SDOH affecting the health outcomes of People Living with HIV/AIDS (PLWHA), prioritizing the most disproportionately impacted populations such as BIPOC. Such legal services cover a wide variety of civil legal issues including but not limited to benefits, income maintenance, housing, individual rights, education, employment, health, advance directives and family matters. This model promotes an integrated approach that fosters collaborative partnerships with community-based organizations, law schools, medical providers, and federally qualified health centers. Such collaboration will effectively address the unmet legal needs of PLWHA and their families.

NOTE: Legal services funded under this RFA are restricted to civil, non-criminal matters.

Addressing Health Equity and the Social Determinants of Health

The Department of Health AIDS Institute is committed to ensuring funded programs and partners are equipped with the knowledge, skills, and expertise to adequately address health equity and the social determinants of health. Health equity means everyone has a fair and just opportunity to be healthy, where no one is limited in achieving optimal health because of who they are or where they live. In a world where health equity is the norm, everyone has fair and just access to these conditions, and therefore, has a fair and just opportunity to achieve optimal health. The social determinants of health include socioeconomic status, education, employment, housing, transportation, food/nutrition, health literacy, social supports, and stigma/discrimination.

The Department of Health AIDS Institute is committed to the implementation of new and tailored approaches to address the challenges faced by communities with a disproportionate burden of disease, including people who use drugs and the LGBTQ+ community, Black/Brown, Indigenous, and People of Color (BIPOC) communities, and all people impacted by HIV, Hepatitis C, and sexually transmitted infections. Programs are expected to deliver services in accordance with the following health equity principles:

- Be explicit when identifying targeted communities and populations facing inequities.
- Identify evidence-based, tailored solutions and approaches.
- Create an internal organization-wide culture of equity.
- Respect and involve impacted communities.
- Measure and evaluate progress in reducing health disparities.

Ending the AIDS Epidemic (ETE) & Eliminating Hepatitis C in New York State

In June 2014, New York State announced a three-point plan to end the AIDS epidemic in NYS. This plan provided a roadmap to significantly reduce HIV infections to a historic low by the end of 2020, with the goal of achieving the first ever decrease in HIV prevalence. The plan also aimed to improve the health of all HIV positive New Yorkers and was the first jurisdictional effort of its kind in the U.S. The ETE Blueprint (BP) continues to guide all ETE efforts. The ETE Addendum Report is a written report that provides an overview of the past five (5) years of New York State's ETE initiatives, as well as a summary of the community feedback sessions that were conducted in 2020 to assist in identifying areas of focus for ETE beyond 2020.

The ETE Blueprint and the ETE Addendum report are available on the Department of Health website at: https://www.health.ny.gov/diseases/aids/ending_the_epidemic/

In November 2021, NYS released its https://www.health.ny.gov/diseases/communicable/hepatitis/hepatitis_c/docs/hepatitis_c_elimination_plan.pdf as a public health problem in NYS by 2030. To achieve the goal of hepatitis C elimination, concerted efforts are needed to ensure access to timely diagnosis, care, and treatment for all people with hepatitis C. This RFA specifically addresses eliminating hepatitis C by addressing the social determinants of health. Additional relevant resources include the National HIV/AIDS Strategy (NHAS) and the NYS Prevention Agenda. The NHAS is a five-year plan that details principles, priorities, and actions to guide our collective national response to the HIV epidemic. The NHAS is available at: [National HIV/AIDS Strategy for the United States 2022–2025](#).

The NYS Prevention Agenda is the blueprint for state and local action to improve the health of New Yorkers in five (5) priority areas. A key focus of the Prevention Agenda is reducing health disparities. To achieve this, the Prevention Agenda prioritizes evidence-informed interventions that address disparities and inequities across racial/ethnic, socioeconomic, geographic, and other characteristics. The NYS Prevention Agenda is available at: health.ny.gov/prevention/prevention_agenda/2025-2030.

- If funding remains available after the maximum number of acceptable scoring applications is awarded to each region, the Department of Health AIDS Institute reserves the right to exceed the maximum number of awards.
- The Department of Health AIDS Institute reserves the right to revise the award amounts as necessary due to changes in availability of funding.

Should additional funding become available, the Department of Health AIDS Institute may select an organization from the pool of applicants deemed not funded, due to limited resources. If it is determined that the needed expertise/services are not available among these organizations, the Department of Health AIDS Institute reserves the right to establish additional competitive solicitations.

Current Contractors: If you choose to not apply for funding, the Department of Health AIDS Institute highly recommends notifying your community partners of your intent. This will ensure community members and providers are aware of the discontinuation of the program and services.

III. Project Narrative/Work Plan Outcomes

A. Program Model Description

Programs funded through this RFA must deliver services as outlined below and in accordance with the **Work Plan: Attachment 6**. Funded applicants are expected to create a comprehensive model of legal services that address a wide range of civil legal issues affecting PLWHA, effectively removing legal barriers that impact social determinants of health, which will ultimately enhance access to care.

The applicant should demonstrate that the proposed program model is based on a recent assessment of the unique legal needs of people living with HIV/AIDS, HIV-affected families, and populations most impacted by HIV/AIDS including Black/Brown, Indigenous, and People of Color (BIPOC) within the Department of Health region selected. Applicants should evaluate the HIV-related legal needs of the community, available resources, assets, and funding streams to determine the most appropriate staffing structure and program design.

The program model requires a comprehensive individualized assessment of legal needs and development of a tailored legal service plan that responds to PLWHA's identified needs. Ongoing re-assessment of legal needs annually will identify any new and emerging needs and inform updates to the legal service plan.

In addition to having a comprehensive legal needs assessment, it is expected that every enrolled client will be assessed for Social Determinants of Health needs and barriers using the AIDS Institute Social Determinants of Health (SDOH) Assessment, a standardized tool in the AIDS Institute Reporting System (AIRS). This tool covers the following Social Determinants of Health domains: housing, food/nutrition, transportation, financial assistance, employment, health literacy, social isolation and supports, stigma, and disabilities. A new SDOH Assessment must be completed every six (6) months and any time a new need is identified. Funded providers will provide appropriate referrals to clients with unmet SDOH needs through partnerships with community providers. Applicants will leverage existing partnerships and develop new partnerships to establish a network of partners that is responsive to the spectrum of SDOH needs that contribute to health inequities.

NOTE: The legal needs assessment does not replace the SDOH assessment. Both assessments are required.

Providers will establish partnerships with and linkages to community-based organizations, Federally Qualified Health Centers (FQHCs), law schools, and medical providers to maximize access to and availability of legal services among PLWHA, including the most disproportionately impacted and underserved communities. Within the first year of program implementation, applicants are expected to establish Memorandums of Understanding (MOUs) with community-based HIV service providers to conduct legal clinics for people living with HIV/AIDS. In addition, applicants will conduct in-service trainings to community-based HIV providers on identifying legal needs and how to proactively refer clients to legal services.

An integrated approach to care that includes legal, social, and medical services is essential for addressing the HIV/AIDS epidemic. The integration of these services has been recognized as a method to develop more effective care models and improve patient outcomes⁵. Providers are encouraged to develop innovative, integrated models that increase accessibility and improve early identification of legal needs as clients engage in HIV care. For example, an applicant may establish a Medical Legal Partnership (MLP) or expand an existing Medical Legal Partnership to service PLWHA, where clients with legal needs are identified through a thorough legal screening during clinical intake, leading to a comprehensive service plan and referrals for legal assistance.

Funded applicants will:

- Develop policies and procedures that align with the goals of the RFA.
- Provide comprehensive, civil legal services to PLWHA as described in Section III. Project Narrative/ Work Plan Outcomes, A. Program Model Description of this RFA.
- Conduct comprehensive legal needs assessments for all clients at enrollment to identify unmet legal needs and re-assessments minimally every year after initial intake/assessment, or more frequently, to identify any new or emerging legal issues.
- Create an individualized legal service plan based on identified legal needs and update it annually in conjunction with the re-assessment, or more frequently as new legal needs arise.
- Develop and implement a Social Determinants of Health (SDOH) assessment, using the AIDS Institute Social Determinants of Health (SDOH) Assessment every six (6) months or more frequently as a new need is identified.
- Develop and maintain a streamlined referral process and network of community partners to appropriately provide referrals for other identified non-legal needs such as supportive services or health care.
- Develop, in collaboration with community-based partners, a comprehensive legal screening tool designed to assess a client or patient's health harming legal needs to facilitate referrals.
- Establish two (2) or more partnerships with community-based HIV service providers via Memorandums of Understanding (MOU) to conduct legal clinics.
- Conduct legal clinics at least monthly with community-based HIV service providers for a minimum of twelve (12) legal clinics annually.
- Conduct a minimum of six (6) in-service trainings annually to community-based HIV providers on identifying legal needs and how to proactively refer clients to legal services.

⁵ Medical-legal partnerships integrated approach to advance health equity and improve outcomes for people living with HIV, Omar Martinez, et.al. College of Medicine, University of Central Florida, Journal of Frontiers in Reproductive Health, August 2022.

B. Client Eligibility

All clients are expected to meet the following eligibility requirements:

- Be an individual living with HIV/AIDS; **OR** be a parent living with HIV/AIDS with dependent children and/or adolescents in the household; **OR** be an identified guardian or caregiver of a family member living with or affected by HIV; **AND**
- Be a New York State resident.

C. Program Outcomes

1. Increased engagement of communities disproportionately impacted by HIV including Black/Brown, Indigenous, and People of Color (BIPOC) communities in comprehensive legal services;
2. Improved identification of unmet Social Determinant of Health needs (SDOH) using the AIDS Institute SDOH Assessment and improved responses to identified SDOH needs through referrals to community providers and resources;
3. Improved knowledge and awareness among community members of comprehensive legal services; and
4. Enhanced capacity of community-based HIV providers to identify unmet legal needs using a comprehensive assessment tool that proactively identifies needs during the intake process and facilitates referrals to legal service providers.

D. Program Staffing

Applicants should provide a sound rationale for the proposed staffing structure and clearly demonstrate how it supports the proposed model of comprehensive legal services. It is expected that staff have the credentials, skills, and experience to offer high quality services and meet the needs of the priority population. Applicants are strongly encouraged to determine appropriate qualifications for each position, and to propose salaries that are commensurate with these qualifications.

The RFA is not requiring specific Full Time Equivalents (FTE) for required positions. The applicant should determine the most appropriate FTE allocation for the staff structure, based on the community needs assessment, position responsibilities, program structure, and available funding.

The staffing structure of Funded Applicants is expected to include:

- **Attorney:** Responsible for providing direct legal services to clients. The Attorney must (i) a graduate of a fully-accredited United States law school, (ii) a duly-licensed member of the Bar of the State of New York, duly-admitted to practice in at least one of the Appellate Divisions of the Supreme Court of the State of New York, and (iii) duly-registered and in good standing in the Office of Court Administration of the State of New York.
- **Paralegal/Client Services Support:** Responsible for helping clients navigate the legal process, collecting/maintaining client eligibility documentation, assisting with legal needs assessments, conducting Social Determinant of Health (SDOH) assessments using the AIDS Institute-approved tool, providing and tracking referrals, providing community education, and assisting the attorney with document preparation. For Medical Legal Partnership models, this staff person may conduct legal screenings.
- **Data Entry and Evaluation:** Responsible for entering data on all program services in

the AIDS Institute Reporting System (AIRS), submitting required reports to the AIDS Institute, and conducting program evaluation.

Additional staff to be considered include:

- **Program Director:** Responsible for overseeing administrative aspects of the program.

Please note, additional responsibilities beyond those listed above can be included in position descriptions.

E. Program Requirements

Funded Applicants will be expected to:

1. **Adhere to the Work Plan: Attachment 6.**
2. **Serve a cross-section of clients who are representative of the overall Black/Brown, Indigenous, People of Color (BIPOC) population demographics** within the selected community. Applicants are instructed to complete **Attachment 7: Proposed Clients to be Served and Legal Cases** that includes BIPOC clients.
3. **Participate in a collaborative process with the New York State Department of Health AIDS Institute** to assess program outcomes and **provide monthly narrative reports describing the progress of the program** with respect to: 1) implementation, 2) client recruitment, 3) success in meeting the **Comprehensive Legal Services Program Model Outcomes, as outlined in Section III. Project Narrative/Work Plan Outcomes, C: Program Outcomes**, 4) significant accomplishments achieved, and 5) barriers encountered and plans to address noted problems.
4. **Submit statistical reports on clients served, legal case activity, and other data using the AIDS Institute Reporting System (AIRS).** Funded applicants will collect and report all required data using AIRS. AIRS is a data reporting system that is used by the New York State Department of Health AIDS Institute to report client demographic information as well as program activities. New York State Department of Health AIDS Institute requires maintenance and reporting of unduplicated client level data, including demographics and service histories, in accordance with applicable federal and/or state reporting requirements. New York State Department of Health AIDS Institute provides and supports the software to enable providers to meet data submission requirements. Details on this software product may be obtained by accessing the following Internet address, airsny.org.
5. **Conduct Quality Management and Consumer Involvement Activities.** All programs must participate in quality management activities as established by the AIDS Institute. This includes, but not limited to, the collection and reporting of data for use in measuring performance and identifying quality improvement projects. Consumer involvement in program development enhances services and contributes to the quality of care. Consumer advisory groups, focus groups, and quality improvement committees are mechanisms to obtain consumer input.
6. **Demonstrate Cultural and Linguistic Sensitivity.** Program models should reflect the intrinsic differences derived from preferred language, culture, race/ethnicity, health literacy, religion, and developmental characteristics. The provision of [culturally and linguistically appropriate services \(CLAS\)](#) is a way to improve the quality of services provided to all individuals, which will ultimately help reduce health disparities and achieve health equity. Program models and services provided ensure accordance with current [National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care](#).

- Not-for-profit Applicants must be prequalified, if not exempt, on the date and time Applications in response to this Request for Applications are due as specified in the "Key Dates" set forth on the Cover Page of this RFA. Be sure to maintain prequalification status between funding opportunities. **NOTE:** Three of a not-for-profit's essential financial documents - the IRS990, its Financial Statement, and its Charities Bureau filing - expire on an annual basis. If these documents are allowed to expire, the not-for-profit's prequalification status expires as well, and it will not be eligible for State grant funding until its documentation is updated and approved, and prequalified status is reinstated.
- Only individuals with the role of "Bid Response Submitter" can submit an Application on behalf of an Applicant.
- Prior to submission, the Statewide Financial System will automatically initiate a global error checking process to protect against an incomplete Application. - Applicants should use numbers, letters, and underscores when naming their uploaded files. There cannot be any special characters in the uploaded file name. Also, be aware of the restriction on file size (20 MB) when uploading documents. Applicants should ensure that any attachments uploaded with their application are not "protected" or "passworded" documents.

The Applicant's Delegated Administrator is able to assign, modify, and remove roles for the Applicant in SFS. Please see SFS Vendor Portal Access Reference Guide, [SFS Vendor Portal Access Reference Guide.pdf \(ny.gov\)](#), for additional information on roles. **Bid Response Initiator** and **Bid Response Submitter** are the **necessary roles for applying to a Bid Event in SFS**. Invoices submitted to the Department must contain all information and supporting documentation required by the Contract, the Department, and the Office of the State Comptroller (OSC). Payment for invoices submitted by the Grantee shall only be rendered electronically unless payment by paper check is expressly authorized by the Commissioner of Health, in the Commissioner's sole discretion, due to extenuating circumstances. Such electronic payment shall be made in accordance with OSC's procedures and practices to authorize electronic payments. Authorization forms are available at OSC's website at: www.osc.state.ny.us/epay/index.htm, by email at: epayments@osc.state.ny.us or by telephone at 855-233-8363. All payment and reporting requirements will be detailed in "Attachment D: Payment and Reporting Schedule", of the final State of New York Contract For Grants.

I. Procurement Requirements

1. General Requirements

The Grantee may procure various goods and services in connection with the grant-funded project ranging from routinely purchased goods or services to those that involve substantive programmatic work. The procurement of such goods or services, however, must be conducted in an equitable and competitive manner to promote equal treatment, efficiency, and economy in grant-funded activities.

Any Grantee that is a State entity (i.e., a State agency or political subdivision of the State) must follow the same policies and procedures it uses for procurements from its general funds. All other Grantees (private companies, not-for-profit-organizations, etc.) must have a sufficient and documented procurement process that maintains records to detail the history of procurements associated with any awarded grant project. These records shall include, but are not limited to,

rationale for the method of procurement (e.g., micro-purchase, small purchases, sealed bids, request for proposals, noncompetitive/sole source), the selection of a contract type, contractor selection and/or rejection, and the basis of a contract price.

The Grantee's documented procurement process must conform with any applicable federal, State and local laws and regulations. As part of the required procurement procedures, a Grantee must maintain written standards of conduct covering conflict of interest and governing the actions of its employees engaged in the selection, award, and administration of contracts. The standards of conduct must provide for disciplinary actions to be applied for violations by officers, employees or agents of the Grantee. Such standards shall provide, at a minimum, that no employee, officer, or agent of the Grantee will participate in the selection, award, or administration of a contract supported by grant funds if a conflict of interest, real or actual, is involved. Such conflicts may arise when:

- The employee, officer, or agent, or
- Any member of such individual's immediate family, or
- Such individual's partner, or
- Any organization which employs, or is about to employ the selected contractor, has a financial or other interest in or receives or stands to receive a tangible personal benefit from a firm being considered for a contract.

The standards of conduct shall also cover organizational conflicts of interest. Organizational conflicts of interest arise where an entity is or appears to be unable to conduct an impartial procurement action due to relationships with a parent company, affiliate, or subsidiary organization.

2. Bid Protest Procedures

Any contractor, subcontractor, or aggrieved party has the right to protest actions before or after the award of a contract utilizing grant funds. The Grantee alone will be responsible, in accordance with good administrative practice and sound business judgement, for the settlement of all contractual and administrative issues arising out of procurement contract solicitations and awards.

Grantees shall have written protest procedures, which may be analogous to those set forth in Part 24 of Title 2 of the New York Codes, Rules and Regulations, in order for effective due process to be achieved. A Grantee's specific protest procedures shall be outlined in all bid requests, request for proposals, request for applications, etc. issued by or on behalf of the Grantee concerning any grant-funded projects. In summary, Grantees are responsible for handling all contract activity protests. Except in matters of direct State or possibly Federal concern (in cases involving federally funded grants), the Department will not substitute its judgement for that of the Grantee.

3. Procurement Contract Language

Any contract concerning a grant-funded project must be a written agreement between the Grantee and the third party providing specific goods and/or services. Whether with a contractor, subcontractor, consultant or vendor, the contract must as appropriate state the activities to be performed; the time schedule; the policies and requirements that apply to the contractor,

subcontractor consultant or vendor, including the above procurement requirements; and any other terms and conditions of the grant and the New York State Contract for Grants.

J. Assurances of No Conflicts of Interest and/or Other Detrimental Effects

The Grantee as well as any subgrantees, contractors, subcontractors or consultants engaged by the Grantee to provide goods or services in connection with the grant-funded project shall attest that their performance of any contracted services does not and will not create a conflict of interest with nor position the Grantee to breach any other contract it currently has in force with the State of New York.

The Grantee as well as any subgrantees, contractors, subcontractors or consultants engaged by the Grantee to provide goods or services in connection with the grant-funded project shall disclose any existing or contemplated relationship with any other person or entity, including relationships with any member, shareholder of 5% or more, parent, subsidiary, or affiliate organization, which would constitute an actual or potential conflict of interest or appearance of impropriety, relating to other clients/customers/agents of the Grantee, subgrantees, contractors, subcontractors, consultants or former officers and employees of the State and its affiliates, in connection with the providing of goods or rendering of services related to the grant-funded project. The Grantee shall have procedures in place for alerting the State of any such actual or potential conflicts as well as procedures to resolve the same.

K. Minority and Women-Owned Business Enterprise Requirements

Pursuant to New York State Executive Law Article 15-A, the Department recognizes its obligation to promote opportunities for maximum feasible participation of New York State-certified Minority and Women-owned Business Enterprises (MWBEs) and the employment of minority group members and women in the performance of Department contracts.

In 2006, the State of New York commissioned a disparity study to evaluate whether Minority and Women-owned Business Enterprises had a full and fair opportunity to participate in state contracting. The findings of the study were published on April 29, 2010, under the title "The State of Minority and Women-Owned Business Enterprises: Evidence from New York" ("Disparity Study"). The report found evidence of statistically significant disparities between the level of participation of Minority and Women-owned Business Enterprises in state procurement contracting versus the number of Minority and Women-owned Business Enterprises that were ready, willing and able to participate in state procurements. As a result of these findings, the Disparity Study made recommendations concerning the implementation and operation of the statewide certified Minority and Women-owned Business Enterprises program. The recommendations from the Disparity Study culminated in the enactment and the implementation of New York State Executive Law Article 15-A, which requires, among other things, that the Department establish goals for maximum feasible participation of New York State Certified Minority and Women-owned Business Enterprises ("MWBE") and the employment of minority groups members and women in the performance of New York State contracts.

Business Participation Opportunities for MWBEs

For purposes of this solicitation, the Department of Health hereby establishes a goal of **30%** as follows:

- 1) For Not-for-Profit Applicants: Eligible Expenditures include any subcontracted labor or services, equipment, materials, or any combined purchase of the foregoing under a contract awarded from this solicitation.
- 2) For-Profit and Municipality Applicants: Eligible Expenditures include the value of the total amount of the Budget provided for the Work Plan in the Grant Contract entered into pursuant to this RFA.

The goal on the Eligible Expenditures portion of a Grant Contract awarded pursuant to this RFA will be **15%** for Minority-Owned Business Enterprises (“MBE”) participation and **15%** for Women-Owned Business Enterprises (“WBE”) participation (based on the current availability of qualified MBEs and WBEs and outreach efforts to certified MWBE firms). A Grantee awarded a Grant Contract pursuant to this RFA must document good faith efforts to provide meaningful participation by MWBEs as subcontractors or suppliers in the performance of the Grant Contract and Grantee will agree under the terms of its Grant Contract that the Department may withhold payment pending receipt of the required MWBE documentation required by the Department or the OSC. For guidance on how the Department will determine “good faith efforts,” refer to 5 NYCRR §142.8.

The directory of New York State Certified MWBEs can be viewed at: ny.newnycontracts.com. The directory is found on this page under “NYS Directory of Certified Firms” and accessed by clicking on the link entitled “Search the Directory”. Engaging with firms found in the directory with like product(s) and/or service(s) is strongly encouraged and all communication efforts and responses should be well documented by a Grantee to evidence its good faith efforts to encourage MWBE participation in the performance of its obligations under its Grant Contract.

By submitting an Application, each Applicant and potential Grantee agrees to complete the **MWBE Utilization Plan** as directed in **Attachment 12** of this RFA. The Department will review the MWBE Utilization Plan submitted by each Grantee. If a Grantee’s MWBE Utilization Plan is not accepted, the Department may issue a Notice of Deficiency. If a Notice of Deficiency is issued, Grantee agrees that it shall respond to the Notice of Deficiency within seven (7) business days of receipt. The Department may disqualify a Grantee as being **non-responsive** under the following circumstances:

- a) If a Grantee fails to submit a completed MWBE Utilization Plan;
- b) If a Grantee fails to submit a written remedy to a Notice of Deficiency;
- c) If a Grantee fails to submit a request for waiver (if applicable); or
- d) If the Department determines that the Grantee has failed to document good-faith efforts to meet the established MWBE participation goals for the procurement.

In addition, Grantees will be required to certify they have an acceptable Equal Employment Opportunity policy statement.

L. Vendor Identification Number

Effective January 1, 2012, in order to do business with New York State, you must have a vendor identification number. As part of the Statewide Financial System (SFS), the Office of the State Comptroller's Bureau of State Expenditures has created a centralized vendor repository called the New York State Vendor File. If already enrolled in the Vendor File, the Applicant should include the Vendor Identification number in your organization information. If not enrolled, to request assignment of a Vendor Identification number, an Applicant should please submit a New York State Office of the State Comptroller Substitute Form W-9, which can be found on-line at: osc.state.ny.us/files/vendors/2017-11/vendor-form-ac3237s-fe.pdf
