New York State Supplement to the National EMS Information System (NEMSIS) Version 3.4.0 Data Dictionary

NEMSIS TECHNICAL ASSISTANCE CENTER

www.NEMSIS.org

Supplement Current as of: November 21, 2017

INTRODUCTION

This document is supplemental to the NEMSIS[1] Data Dictionary – NHTSA v3.4.0 EMS Data Standard.[2] Its purpose is:

1. to provide the New York State (NYS) specific information necessary for electronic Prehospital Care Report (e-PCR) software vendors to deploy the *NEMSIS Version 3* (v3) standard in NYS; and
2. to assist EMS Providers in understanding how to document EMS events using the NEMSIS v3 standard.

This *NYS/NEMSIS v3 Supplement* does not replace the *NEMSIS v3 Data Dictionary*[2] but rather addresses the data needs of the NYS EMS System within the established NEMSIS v3 schema.

This supplement is companion to any NYS Bureau of Emergency Medical Services and Trauma Systems (BEMSATS) Policy Statement regarding paper or electronic PCRs and patient care documentation. As EMS is evidence-based medicine, data and documentation needs will change over time. NEMSIS may add or modify data elements – and NYS (or any of its EMS Regions) may customize data elements – to capture new information or assist EMS Providers in documenting specific conditions or situations (i.e., naloxone, blood administration, stroke care, Community Paramedicine, etc.). As such, users should anticipate periodic revisions to this supplement and related BEMSATS policy statements, and be mindful of the "Supplement Current as of . . ." date found both on the front cover and at the bottom of each page of this supplement.

NYS collects only specific data from an e-PCR, not the entire e-PCR. This supplement includes only the data elements required to be transmitted to NYS (and NEMSIS). It does not address additional data elements that may be required by an EMS Agency, Regional Emergency Medical Services Council/Regional Emergency Medical Advisory Committee (REMSCO/REMAC), or Physician Medical Director for quality improvement, medical oversight, and/or medicolegal documentation purposes. ***It should not be assumed that an e-PCR containing only the data elements listed in this supplement will represent a complete PCR, meet generally accepted patient care documentation standards, or be legally defensible.*** When determining what data elements to collect in a local e-PCR system, EMS Agencies must include all the data elements listed in this supplement and carefully consider (in consultation with the REMSCO/REMAC and Physician Medical Director) what additional data elements should be collected.

Any e-PCR system deployed in NYS must remain compliant with the latest NEMSIS standards and compatible with the NYS e-PCR system. It is intended that this supplement will provide both the direction needed for software vendors to develop NEMSIS v3 e-PCR systems for use in NYS, and clarification to EMS Providers in documenting patient care within the NEMSIS v3 format. Should further clarification be needed, please contact:

New York State – Department of Health

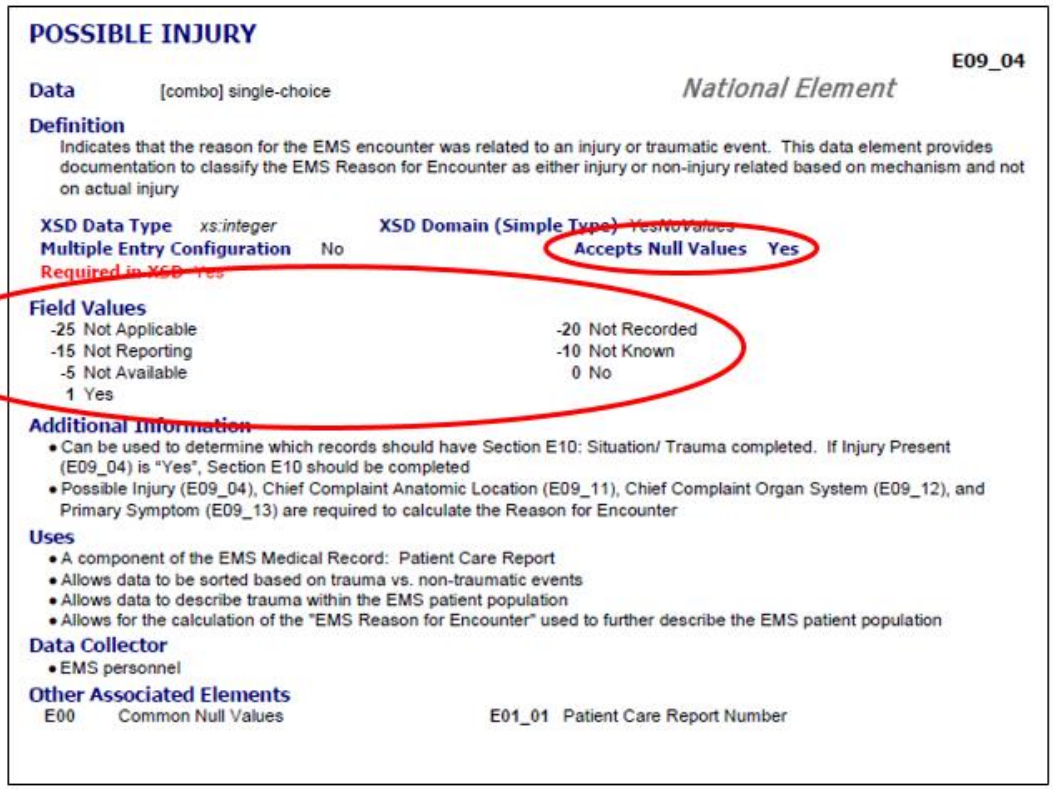
GENERAL RULES

NYS CLARIFICATIONS ON HOW TO USE THE NEMSIS VALUES

A concern with the prior *NEMSIS Version 2* standard was the use of data values (particularly "Not" values) that were not relevant to the NYS EMS System, created confusion for EMS Providers when trying to document certain situations, or created difficulties for software vendors trying to transmit data to NYS. For example, with *Possible Injury* it makes sense to report "Yes" or "No" if there is a patient; but, what if there is no patient, or the situation is medical in nature, or possible injury cannot be ascertained? What does the EMS Provider record in these situations, and what does the software vendor transmit to NYS?

NEMSIS v2 Data Dictionary



POSSIBLE INJURY E09_04

Data [combo] single-choice *National Element*

Definition
Indicates that the reason for the EMS encounter was related to an injury or traumatic event. This data element provides documentation to classify the EMS Reason for Encounter as either injury or non-injury related based on mechanism and not on actual injury

XSD Data Type *xs:integer* **XSD Domain (Simple Type)** ~~YesNoValues~~
Multiple Entry Configuration No **Accepts Null Values** Yes
~~**Required in XSD** Yes~~

Field Values

-25 Not Applicable	-20 Not Recorded
-15 Not Reporting	-10 Not Known
-5 Not Available	0 No
1 Yes	

Additional Information
- Can be used to determine which records should have Section E10: Situation/ Trauma completed. If Injury Present (E09_04) is "Yes", Section E10 should be completed
- Possible Injury (E09_04), Chief Complaint Anatomic Location (E09_11), Chief Complaint Organ System (E09_12), and Primary Symptom (E09_13) are required to calculate the Reason for Encounter

Uses
- A component of the EMS Medical Record: Patient Care Report
- Allows data to be sorted based on trauma vs. non-traumatic events
- Allows data to describe trauma within the EMS patient population
- Allows for the calculation of the "EMS Reason for Encounter" used to further describe the EMS patient population

Data Collector
- EMS personnel

Other Associated Elements
E00 Common Null Values E01_01 Patient Care Report Number

This supplement provides the minimum list of NEMSIS v3 data elements that must be collected and transmitted to NYS, as well as clarifications as to what NEMSIS or other values EMS Providers should document in certain situations, and how e-PCR software vendors must transmit that documentation to NYS.

(See illustration on next page as an example of how clarifications are presented in this supplement.)

NEMSIS v3 DATA DICTIONARY

NEMSIS Version 3.4.0.160713CP2 — eSituation.02

State | National

eSituation.02 - Possible Injury

Definition

Indication whether or not there was an injury

National Element	Yes	Pertinent Negatives (PN)	No
State Element	Yes	NOT Values	Yes
Version 2 Element	E09_04	Is Nillable	Yes
Usage	Required	Recurrence	1 : 1

Associated Performance Measure Initiatives

Airway | Cardiac Arrest | Pediatric | Response | STEMI | Stroke | Trauma

Attributes

NOT Values (NV)

7701001 - Not Applicable

7701003 - Not Recorded

Code List

Code	Description
9922001	No
9922003	Unknown
9922005	Yes

Data Element Comment

This data element provides documentation to classify the EMS Reason for Encounter as either injury or non-injury related based on mechanism and not on actual injury. eSituation.02 (Possible Injury), eSituation.09 (Primary Symptom), eSituation.07 (Chief Complaint Anatomic Location), and eSituation.08 (Chief Complaint Organ System) are grouped together to form the EMS Reason for Encounter.

NYS SUPPLEMENTAL INFORMATION

eSituation.02 – Possible Injury — **NEMSIS DD Page 380**

Report if consideration of "Possible Injury" is pertinent to the situation/assessment.

- If ***no patient*** or ***not pertinent***, report "7701001" (Not Applicable).
- If ***considered, but no injury*** is determined, report "9922001" (No).
- If ***considered, and injury is known or likely*** to have occurred, report "9922005" (Yes).
- If ***considered, but the situation is unclear*** so that *Possible Injury* cannot be determined, report "9922003" (Unknown).

"DO NOT TRANSMIT THESE NEMSIS VALUES TO NYS"

Where indicated, the NEMSIS values shown are ***NOT to be transmitted to NYS (unless otherwise specified)***. If transmitted, the data file will be rejected.

EXAMPLE

dAgency.09 – Primary Type of Service **NEMSIS DD Page 30**

In NYS, type of service is defined under NYS Law.
Thereby, these are the only NEMSIS values allowable in NYS.

NEMSIS VALUE	NEMSIS DESCRIPTION	NYS DESCRIPTION
9920001	911 Response (Scene) with Transport Capability	Ambulance
9920003	911 Response (Scene) without Transport Capability	BLSFR (Basic Life Support First Response)
9920005	Air Medical	Air Medical
9920007	ALS Intercept	ALSFR (Advanced Life Support First Response)

DO NOT TRANSMIT THESE NEMSIS VALUES TO NYS
9920011 – Hazmat
9920013 – Medical Transport (Convalescent, Interfacility Transfer Hospital and Nursing Home)
9920015 – Rescue
9920017 – Community Paramedicine
9920019 – Critical Care (Ground)

"NOT" VALUES

Unless otherwise specified, NYS will use "NOT" values in accordance with the whitepaper NEMSIS V3 Guidance for the use of NOT Values. See the white paper for further guidance and clarifying examples.

https://nemsis.org/media/nemsis_v3/master/UsageGuides/NEMSIS_v3_NOT_Values_Use_Guidance.pdf

Not Applicable

If the data element (question) is not pertinent to the situation, the value (answer) "Not Applicable" is to be manually selected by the EMS Provider or auto-populated by the e-PCR software.

Not Recorded

If the data element (question) is pertinent to the situation but was not answered (left blank) by the EMS Provider, the value (answer) "Not Recorded" is to be auto-populate by the e-PCR software.

NOTE ➔ "Not Recorded" is to be used only in the software background and not available to the EMS Provider.

Not Reporting

If the data element (question) is not being used by NYS or the EMS Agency, the e-PCR software is to auto-populate the value (answer) "Not Reporting".

NOTE ➔ "Not Reporting" is to be used only in the software background and not available to the EMS Provider.

NOTE ➔ Unless otherwise specified, all data elements listed in this supplement are required in NYS.

"Always Report . . ."

Where indicated, ***the NEMSIS/NISE value provided is the only value that will be accepted by NYS for that data element***. If any other value is transmitted to NYS – even if allowed by NEMSIS – the data file will be rejected.

"NO NYS SPECIFIC SUPPLEMENTAL INFORMATION"

Where indicated, the data element is required in NYS, but no NYS supplemental clarifying information is necessary. Unless otherwise specified, the NEMSIS v3 Data Dictionary for that data element is to be followed, as is.

DATA TRANSMISSION TO NYS

Automated Web Service. NYS will only accept data transmitted through the automated web service provided. Manual uploading of data to the NYS e-PCR system will not be allowed.

"d" (Demographic) Data. "d" element data is to be transmitted to NYS – as soon as practical – whenever there is a change in the local e-PCR system to any "d" data element listed in this supplement.

"e" (Event) Data. "e" element data is to be transmitted to NYS ***as close to real-time as possible***. Although some e-PCR systems may not be capable of immediate transmission, transmission only monthly, weekly, or daily is unacceptable. ***Ideally, when the EMS Provider "closes" the e-PCR, the system should automatically begin transmitting data to NYS***.

Data Checks / Quality Reviews / Resubmissions. NYS collects only specific data from an e-PCR, not the entire e-PCR. Local e-PCR systems should employ automated data validation/error checking to detect incomplete/inaccurate NYS required data and prompt the EMS Provider for correction before the data is transmitted to NYS. ***All data is to be transmitted to NYS as described above and is NOT to be held for quality review prior to transmission. However, should NYS required data later be corrected, the corrected data (entire record) should be re-transmitted.***

NYS Element / Value Customizations

Below is a complete list of all NYS element/value customizations
[NEMSIS Implemented State Enhancement (NISE) Codes]
with corresponding mappings to NEMSIS v3 values.

---

dAgency.11 – Level of Care

NISE Value ➔ it9917.125 – NYS EMT-Critical Care (EMT-CC)
Maps To ➔ 9917007 – 2009 Paramedic

dConfiguration.02 – State Certification/Licensure Levels

NISE Value ➔ it9911.134 – NYS EMT-Critical Care (EMT-CC)
Maps To ➔ 9911007 – 2009 Paramedic

dConfiguration.06 – EMS Certification Levels Permitted to Perform Each Procedure

NISE Value ➔ it9925.134 – NYS EMT-Critical Care (EMT-CC)
Maps To ➔ 9911007 – 2009 Paramedic

dConfiguration.08 – EMS Certification Levels Permitted to Administer Each Medication

NISE Value ➔ it9911.134 – NYS EMT-Critical Care (EMT-CC)
Maps To ➔ 9911007 – 2009 Paramedic

dPersonnel.24 – EMS Personnel's State EMS Certification/Licensure Level

NISE Value ➔ it9925.134 – NYS EMT-Critical Care (EMT-CC)
Maps To ➔ 9925007 – 2009 Paramedic

eResponse.15 – Level of Care of This Unit

NISE Value ➔ it.2215.100 – NYS EMT-Critical Care (EMT-CC) [ALS-Critical Care]
Maps To ➔ 2215013 – ALS-Paramedic

NOTE ➔ it.2215.100 - - - The extra "." is correct.

eCrew.02 – Crew Member Level

NISE Value ➔ it9925.134 – NYS EMT-Critical Care (EMT-CC)
Maps To ➔ 9925007 – 2009 Paramedic

eScene.08 – Triage Classification for MCI Patient

NISE Value ➔ it2708.105 – ORANGE (NYC Only) – The patient is experiencing a medical emergency that is of higher importance than any traumatic injury the patient may have.
Maps To ➔ 2708003 – YELLOW – Delayed

eHistory.05 – Advance Directives

NISE Value ➔ it3105.103 – NYS MOLST (DNR) – The standard NYS Medical Orders for Life-Sustaining Treatment (MOLST) form (DOH-5003) indicating DNR Order: Do Not Attempt Resuscitation (Allow Natural Death).
Maps To ➔ 3105009 – Other Healthcare Advance Directive Form

NISE Value ➔ it3105.107 – NYS MOLST (DNI) – The standard NYS Medical Orders for Life-Sustaining Treatment (MOLST) form (DOH-5003) indicating Do Not Intubate (DNI).
Maps To ➔ 3105009 – Other Healthcare Advance Directive Form

NISE Value ➔ it3105.106 – NYS MOLST (No IV Fluids) – The standard NYS Medical Orders for Life-Sustaining Treatment (MOLST) form (DOH-5003) indicating No IV Fluids.
Maps To ➔ 3105009 – Other Healthcare Advance Directive Form

NISE Value ➔ it3105.112 – NYS MOLST (Limited Interventions or Comfort Measures ONLY) – The standard NYS Medical Orders for Life-Sustaining Treatment (MOLST) form (DOH-5003) indicating Limited Medical Interventions or Comfort Measures Only.
Maps To ➔ 3105009 – Other Healthcare Advance Directive Form

eExam.15 – Extremity Assessment Findings Location

NISE Value ➔ it3515.001 – Patella-Left
Maps To ➔ 3515053 – Knee-Left

NISE Value ➔ it3515.002 – Patella-Right
Maps To ➔ 3515055 – Knee-Right

eMedications.10 – Role/Type of Person Administering Medication

NISE Value ➔ it9905.179 – NYS Certified EMT-Critical Care (EMT-CC)
Maps To ➔ 9905007 – 2009 Paramedic

eProcedures.10 – Role/Type of Person Performing the Procedure

NISE Value ➔ it9905.179 – NYS Certified EMT-Critical Care (EMT-CC)
Maps To ➔ 9905007 – 2009 Paramedic

Table of Contents (dState & eState Groups)

dState.01 – State Required Element	**NEMSIS DD Page 8**
eState.01 – State Required Elements	**NEMSIS DD Page 193**

This Table of Contents shall serve as NEMSIS data elements dState.01 and eState.01.
All data elements listed in this Table and supplement are required by NYS, unless otherwise specified.

NOTE ➔ For the NEMSIS required timestamp, report the "Supplement Current as of . . ." date found both on the front cover and at the bottom of each page of this supplement.

dAgency Group

dAgency.01 – EMS Agency Unique State ID — NEMSIS DD Page 22

NYS will use dAgency.01 to group together related EMS Agencies.

- ***i.e., All agencies associated with the New York City 911 system.***
- ***i.e., All agencies operated by the AMR Corporation.***
- ***i.e., Agencies operating more than one service (different NYS EMS Agency Codes).***
- ***etc.***

- Report same as dAgency.02 (EMS Agency Number);

- Unless the EMS Agency is identified by NYS as affiliated with a larger group,
  Then contact NYS for clarification on what to report for dAgency.01.

dAgency.02 – EMS Agency Number — NEMSIS DD Page 23

- Report the EMS Agency Code issued by NYS.

NOTE ➔ NYS EMS Agency Codes are currently issued as four (4) digits in length.

- ***Leading zeros ("0") may be required.***
- ***i.e., Agency Code "123" is actually "0123" and must be handled as such.***

dAgency.04 – EMS Agency State — NEMSIS DD Page 25

Always Report "36" for New York State (NYS).

dAgency.05 – EMS Agency Service Area States	**NEMSIS DD Page 26**
dAgency.06 – EMS Agency Service Area County(ies)	**NEMSIS DD Page 27**
dAgency.07 – EMS Agency Census Tracts	**NEMSIS DD Page 28**
dAgency.08 – EMS Agency Service Area ZIP Codes	**NEMSIS DD Page 29**

Use the NEMSIS V3 Agency Service Area Builder webtool to assist with these data elements.

https://nemsis.org/media/ServiceAreaBuilder/

- Report ***all territory*** in which the EMS Agency formally provides service:
  - dAgency.05 ➔ Report **ALL STATES** (Including NYS).
  - dAgency.06 ➔ Report **ALL COUNTIES** (Inside and Outside NYS).
  - dAgency.07 ➔ Report **ALL US CENSUS TRACTS** (Inside and Outside NYS).
  - dAgency.08 ➔ Report **ALL ZIP CODES** (Inside and Outside NYS)

DO NOT TRANSMIT THESE NEMSIS VALUES TO NYS

dPersonnel Group

dPersonnel.01 – EMS Personnel's Last Name	**NEMSIS DD Page 121**
dPersonnel.02 – EMS Personnel's First Name	**NEMSIS DD Page 122**
dPersonnel.03 – EMS Personnel's Middle Name/Initial	**NEMSIS DD Page 123**

If the EMS Provider holds multiple NYS EMS certifications, report the highest certification applicable to the EMS Agency.

- If the EMS Provider ***has EVER held*** NYS EMS certification (regardless if expired or not),
  - Report the name elements as appearing on the Provider's NYS EMS Certificate ("EMT Card").

- If the EMS Provider ***has NEVER held*** NYS EMS certification, or certificate information is unavailable,
  - Report the name elements as appearing on any other document of legal identification routinely used by the EMS Agency (i.e., Driver's License, Social Security Card, Birth Certificate, Passport, Government I.D., etc.).

- ***DO NOT USE NICKNAMES OR ABBREVIATIONS***
  - EMS Personnel names will be associated with (and may appear in) the legal e-PCR.
  - e-PCRs may be reviewed for legal action many years after the EMS event, and after the EMS Provider is no longer associated with the EMS Agency.
  - Therefore, it is imperative the EMS Agency be able to clearly and accurately identify the EMS Provider using the name elements copied exactly as appearing on the associated NYS EMS certification or substitute legal identification document.

- dPersonnel.03 ➔ If the EMS Provider does not have a middle name or the middle name is unknown, leave blank and report "7701003" (Not Recorded).

7701003 – Not Recorded
7701005 – Not Reporting

dPersonnel.21 – EMS Personnel's Agency ID Number — NEMSIS DD Page 142

This is <u>NOT</u> the EMS Provider Certification Number ("EMT Number") Issued by NYS.

- Report only if the EMS Provider has a ***<u>UNIQUE (issued only once and never reused)</u>*** identification number issued by the EMS Agency or larger entity (municipality, county, EMS region, etc.) and routinely used by the EMS Agency.
    - i.e., Badge Number
    - i.e., MAC Number
    - i.e., TEK (TECH) Number
    - etc.

- Otherwise, do not include in the XML export to NYS.

As the e-PCR is a legal record,
it is imperative that all personnel actively engaged in treating the patient be accurately recorded,
not just the certified EMS Providers.

Therefore, NYS will expand dPersonnel.23 [and the related eCrew.01 (Crew Member ID)]
to allow for recording of both certified and non-certified EMS Providers.

If the EMS Provider holds multiple NYS EMS certifications,
report the highest certification applicable to the EMS Agency.

- If the EMS Provider ***holds a current (unexpired)*** NYS EMS Provider certification ("EMT Card"),
  - Report the number of this NYS EMS Certificate (the Provider's "EMT Number").

NOTE ➔ NYS EMS Provider certification numbers are currently issued as six (6) digits in length.
- ***Leading zeros ("0") may be required.***
- ***i.e., Certificate number "1234" is actually "001234" and must be handled as such.***

- If the EMS Provider ***does NOT hold a current (unexpired)*** NYS EMS Provider certification:
  - Report a construct of the EMS Provider's name and date of birth in the following format:

"dPersonnel.11 (Date of Birth)dPersonnel.01 (Last Name)dPersonnel.02 (First Name)"

  - i.e., John Doe (d.o.b. 01/01/1900) ➔ Report "1900-01-01doejohn"

NOTE ➔ Max Length = 50 Characters - - - If more, truncate to the first 50.

DO NOT TRANSMIT THESE NEMSIS VALUES TO NYS
7701001 – Not Applicable
7701003 – Not Recorded
7701005 – Not Reporting

In NYS, certification levels are defined under NYS Law.
Thereby, these are the only NEMSIS/NISE values allowable in NYS.

If the EMS Provider holds multiple NYS EMS certifications,
report the highest certification applicable to the EMS Agency

---

- Report "7701001" (Not Applicable) only if the EMS Provider ***does NOT hold a current (unexpired)*** NYS EMS Provider certification.

NEMSIS/NISE VALUE	NEMSIS DESCRIPTION	NYS DESCRIPTION
9925001	2009 Advanced Emergency Medical Technician (AEMT)	NYS Advanced EMT (AEMT)
9925003	2009 Emergency Medical Responder (EMR)	NYS Certified First Responder (CFR)
9925005	2009 Emergency Medical Technician (EMT)	NYS Emergency Medical Technician (EMT)

dFacility Group

dFacility.02 – Facility Name	**NEMSIS DD Page 172**
dFacility.03 – Facility Location Code	**NEMSIS DD Page 173**

Transmit to NYS <u>ONLY</u> those facilities to which the EMS Agency routinely transports patients.

With implementation of NEMSIS Version 3, NYS will move away from the traditional "NYS EMS Disposition Code" and instead use the NYS Department of Health "Permanent Facility Identifier" (NYSDOH PFI).

- Below is the complete list of NYS recognized Emergency Department facility names with corresponding PFI.
  - For locations/facilities not listed, report the *General Locations* and PFI provided at the top of the list.

- dFacility.02 ➔ ***<u>ONLY FACILITY NAMES PROVIDED BY NYS (below)</u>*** are to be transmitted to NYS.
  - ***<u>NO</u>*** Abbreviations.
  - ***<u>NO</u>*** Local Names.

- dFacility.03 ➔ ***<u>ONLY THE PFI NUMBERS PROVIDED BY NYS (below)</u>*** are to be transmitted to NYS.
  - ***<u>NO</u>*** NYS EMS Disposition Codes.
  - ***<u>NO</u>*** Local/Regional Codes/Names.
  - ***<u>NO</u>*** Facility Names/Abbreviations.

NOTE ➔ The PFI is always four (4) digits (characters) in length.
- ***Leading zeros ("0") may be required.***
- ***i.e., PFI "123" is actually "0123" and must be handled as such.***

NOTE ➔ If a facility undergoes a name, ownership, or other organizational change, contact NYS for assistance.

CONTINUED NEXT 8 PAGES

- Local e-PCR systems are allowed to use local/regional facility names/codes; however, these must be mapped to the appropriate names/codes provided in the list below prior to transmission to NYS;

  - AND -

  All nursing homes, medical facilities (not otherwise specified), private residences, and other non-hospital facilities must be mapped, respectively, to:

NAME	PFI
"Nursing Home"	NH01
"Medical Facility"	M001
"Residence"	R001
"Other Non-Hospital Facility"	X001

  - i.e., A nursing home locally known as "Acme Elder Care" would be mapped/transmitted to NYS as:
    - dFacility.02 = "Nursing Home"
    - dFacility.03 = "NH01"

  - i.e., A physician's office would be mapped/transmitted to NYS as:
    - dFacility.02 = "Non-Hospital Facility"
    - dFacility.03 = "X001"

  - i.e., Albany Medical Center locally known as "AMC" (EMS Disposition Code "018") would be mapped/transmitted to NYS as:
    - dFacility.02 = "Albany Medical Center Hospital"
    - dFacility.03 = "0001"

- - - - - Please Notify NYS of Any Errors or Omissions in This Table - - - - -

eRecord Group

eRecord.01 – Patient Care Report Number	NEMSIS DD Page 207

NEMSIS defines eRecord.01 as:

"The unique number automatically assigned by the EMS Agency for each Patient Care Report (PCR).
This should be a unique number for the EMS Agency for all of time."

eRecord.01 <u>MUST ALWAYS</u> be the same in the local e-PCR system as it is in the NYS e-PCR system so that NYS can provide an eRecord.01 value to an EMS Agency and the EMS Agency can find that exact eRecord.01 value (e-PCR) in its local e-PCR system.

Further, NYS will use eRecord.01 in overwriting (correcting) records, and linking e-PCRs to other data.

***As such, e-PCR numbers must be unique not only within an EMS Agency,
but across all EMS Agencies and e-PCR systems, across all NYS, for all of time.***

To accomplish the above objectives,
any e-PCR system deployed in NYS ***<u>MUST</u>*** automatically generate eRecord.01
using the computer industry standards of the
Universally Unique Identifier (UUID) / *Globally Unique Identifier* (GUID).

https://en.wikipedia.org/wiki/Globally_unique_identifier

eRecord.02 – Software Creator	NEMSIS DD Page 208
eRecord.03 – Software Name	NEMSIS DD Page 209
eRecord.04 – Software Version	NEMSIS DD Page 210

NO NYS SPECIFIC SUPPLEMENTAL INFORMATION

eResponse Group

eResponse.01 – EMS Agency Number — NEMSIS DD Page 213

- ***Must always be*** the same as dAgency.02 (EMS Agency Number).

eResponse.03 – Incident Number — NEMSIS DD Page 215
eResponse.04 – EMS Response Number — NEMSIS DD Page 216

NO NYS SPECIFIC SUPPLEMENTAL INFORMATION

eResponse.05 – Type of Service Requested — NEMSIS DD Page 217

NOTE ➔ "Mutual Aid" (2205009) should be reported ANY TIME the EMS Unit responds to an incident not within the EMS Agency's primary operating territory – outside its "CON" (Certificate of Need).

eResponse.06 – Standby Purpose — NEMSIS DD Page 218

- Report only if eResponse.05 = "2205013" (Standby).
- Otherwise, do not include in the XML export to NYS.

eResponse.07 – Primary Role of the Unit — NEMSIS DD Page 219

NO NYS SPECIFIC SUPPLEMENTAL INFORMATION

eResponse.08 – Type of Dispatch Delay	**NEMSIS DD Page 220**
eResponse.09 – Type of Response Delay	**NEMSIS DD Page 221**
eResponse.10 – Type of Scene Delay	**NEMSIS DD Page 222**
eResponse.11 – Type of Transport Delay	**NEMSIS DD Page 223**
eResponse.12 – Type of Turn-Around Delay	**NEMSIS DD Page 224**

DO NOT TRANSMIT THESE NEMSIS VALUES TO NYS
7701001 – Not Applicable

eResponse.13 – EMS Vehicle (Unit) Number	**NEMSIS DD Page 225**
eResponse.14 – EMS Unit Call Sign	**NEMSIS DD Page 226**

NO NYS SPECIFIC SUPPLEMENTAL INFORMATION

eResponse.15 – Level of Care of This Unit — NEMSIS DD Page 227

In NYS, level of care is defined under NYS Law.
Thereby, these are the only NEMSIS/NISE values allowable in NYS.

NEMSIS/NISE VALUE	NEMSIS DESCRIPTION	NYS DESCRIPTION
2215001	BLS – First Responder/EMR	NYS Certified First Responder (CFR)
2215003	BLS – Basic/EMT	NYS Emergency Medical Technician (EMT)
2215009	ALS – AEMT	NYS Advanced EMT (AEMT)
2215013	ALS – Paramedic	NYS Paramedic
it.2215.100		NYS EMT – Critical Care (EMT–CC) [ALS – Critical Care]

NOTE ➔ it.2215.100 - - - The extra "." is correct.

DO NOT TRANSMIT THESE NEMSIS VALUES TO NYS	
2215005 – BLS-AEMT	2215015 – ALS-Community Paramedicine

eCrew Group

eCrew.01 – Crew Member ID — NEMSIS DD Page 248

As the e-PCR is a legal record,
it is imperative that all personnel actively engaged in treating the patient be accurately recorded,
not just the certified EMS Providers.

Therefore, NYS will expand eCrew.01 [and the related dPersonnel.23 (EMS Personnel's State's Licensure ID Number)]
to allow for recording of both certified and non-certified EMS Providers.

<u>eCrew.01 IS NOT "EITHER / OR"</u>
If the EMS Provider holds a current NYS EMS Provider certification, the number of that certificate <u>MUST</u> be reported.
"Name/Birthdate" reporting [see dPersonnel.23 (EMS Personnel's State's Licensure ID Number)]
is to be used <u>ONLY</u> when there is no current NYS EMS Provider certification.

<u>DO NOT REPORT EXPIRED CERTIFICATIONS FOR eCrew.01</u>
Any NYS EMS Provider certification number ("EMT Number") reported in eCrew.01 implies that the associated NYS certificate is current (unexpired) and the associated EMS Provider is permitted to practice under that certification;
– Which They Are Not If Their Certificate Is Expired –

- Report from dPersonnel.23 (EMS Personnel's State's Licensure ID Number).

DO NOT TRANSMIT THESE NEMSIS VALUES TO NYS
7701003 – Not Recorded
7701005 – Not Reporting

In NYS, certification levels are defined under NYS Law.
Thereby, these are the only NEMSIS/NISE values allowable in NYS.

- Report from dPersonnel.24 (EMS Personnel's State EMS Certification License Level).

NEMSIS/NISE VALUE	NEMSIS DESCRIPTION	NYS DESCRIPTION
9925001	2009 Advanced Emergency Medical Technician (AEMT)	NYS Advanced EMT (AEMT)
9925003	2009 Emergency Medical Responder (EMR)	NYS Certified First Responder (CFR)
9925005	2009 Emergency Medical Technician (EMT)	NYS Emergency Medical Technician (EMT)

ePatient Group

ePatient.01 – EMS Patient ID	NEMSIS DD Page 271

RESERVED FOR NYS USE

ePatient.01 is reserved by NYS to hold the SPARCS[3] or other unique patient identifier, as determined by NYS.

Local e-PCR systems are allowed to use ePatient.01; however,

DO NOT TRANSMIT ePatient.01 TO NYS
(Do not include in the XML export to NYS)

3. ***S***tatewide ***P***lanning ***A***nd ***R***esearch ***C***ooperative ***S***ystem (www.health.ny.gov/statistics/sparcs/)

ePatient.02 – Last Name	NEMSIS DD Page 272
ePatient.03 – First Name	NEMSIS DD Page 273

NOTE ➔ ***Although NYS will allow use of "8801019" (Refused) and "8801023" (Unable to Complete), the EMS Agency should consider if not indicating a patient name on the legal e-PCR is best policy/practice; or, if the agency should adopt a policy/practice of using a commonly accepted "unknown name" (such as "John Doe") for cases where the actual patient name is unobtainable.***

DO NOT TRANSMIT THESE NEMSIS VALUES TO NYS
7701003 – Not Recorded
7701005 – Not Reporting

ePatient.07 – Patient's Home County	**NEMSIS DD Page 277**
ePatient.08 – Patient's Home State	**NEMSIS DD Page 278**
ePatient.09 – Patient's Home ZIP Code	**NEMSIS DD Page 279**
ePatient.10 – Patient's Country of Residence	**NEMSIS DD Page 280**

- ePatient.10 ➔ If the *Country of Residence* cannot be determined,
  leave blank and do not include in the XML export to NYS.

ePatient.12 – Social Security Number	**NEMSIS DD Page 282**

NYS uses the last four digits of a patient's Social Security Number in matching medical records across various healthcare datasets.

- ***A <u>full nine (9) digit</u> social security number <u>must be transmitted</u> to NYS.***

- It is acceptable to report only the last four digits, provided the first five digits are all zeros.
  - i.e., Transmit either "123456789" or "000006789"

- Transmit all zeros ("000000000") only if:
  1. the patient does not have a Social Security Number; or
  2. the last four digits are otherwise unobtainable.

ePatient.13 – Gender	**NEMSIS DD Page 283**

NO NYS SPECIFIC SUPPLEMENTAL INFORMATION

ePatient.14 – Race — NEMSIS DD Page 284

2514001 – American Indian or Alaska Native	2514009 – Native Hawaiian or Other Pacific Islander
2514003 – Asian	2514011 – White
2514005 – Black or African American	

ePatient.15 – Age — NEMSIS DD Page 285
ePatient.16 – Age Units — NEMSIS DD Page 286

An EMS Agency should exercise caution
in having its e-PCR software calculate the age from the date of birth.
The context of the e-PCR (the legal medical record) can drastically change
simply by the EMS Provider incorrectly entering the year of the patient's date of birth.

i.e., A DOB 01/01/19<u>17</u> makes the patient geriatric, while a DOB 01/01/20<u>17</u> makes the patient pediatric.

e-PCR software should auto-check and prompt when "Year of Birth = Current Year".
