2.0 OVERVIEW

Through this Request for Proposals (“RFP”), the New York State (“State”) Department of Health (“DOH”) is seeking competitive proposals to support efforts to promote a standard of excellence statewide among health care providers (HCPs), local health departments (LHDs), and communities to prevent childhood lead poisoning, and to identify and care for children and pregnant women exposed to lead in accordance with generally accepted medical standards, Public Health Law (PHL), regulations, and guidelines as further detailed in [Section 3.0](#) (Scope of Work). It is the Department’s intent to award up to three (3) contracts, regionally: 1. Metropolitan/Hudson Valley, 2. Western, and 3. Central/Eastern, from this procurement. Eligible vendors may bid on one or more regions.

2.1 Introductory Background

NYS has been a leader in the prevention of childhood lead poisoning, and also in the diagnosis and treatment of children with elevated blood lead levels for over two decades. In 1991, the Centers for Disease Control and Prevention (CDC) defined blood lead levels (BLLs) greater than or equal to (\geq) 10 micrograms per deciliter ($\mu\text{g}/\text{dL}$) as the “level of concern” for children aged one (1) to five (5) years. NYS then adopted Public Health Law (PHL) Title 10 of Article 13, and Administrative Rules and Regulations Part 67 in 1993, also defining an “elevated blood lead level” as a blood lead concentration $\geq 10 \mu\text{g}/\text{dL}$. NY was one of the first states to mandate universal blood lead testing of children at one and two years of age, and pregnant women found to be at risk of exposure. Regulations regarding surveillance, control measures to prevent lead poisoning, and guidelines to identify, and manage children and pregnant women exposed to lead were adopted. In addition, the roles and responsibilities of HCPs, LHD Lead Poisoning Prevention Programs (LPPPs), and laboratories were established. Among other duties, LHDs were, and still are, responsible for ensuring completion of follow-up services for lead poisoned children. In 1993, an environmental assessment was required at a BLL of 20 $\mu\text{g}/\text{dL}$ or greater, and as of June 2009, the level was lowered to 15 $\mu\text{g}/\text{dL}$ or greater. Other responsibilities for LHD LPPP staff include providing lead poisoning prevention education for the general public, professionals, HCPs, parents of young children, and pregnant women.

NYS has made great strides in reducing the proportion of children with BLLs $\geq 10 \mu\text{g}/\text{dL}$ due to the many successful strategies implemented to prevent childhood lead poisoning. The Childhood Lead Poisoning Primary Prevention Program (CLPPPP) began in 2007 as a pilot project in eight areas of the state with the highest incidence of lead poisoned children to find and correct lead hazards in homes where children could be at risk. CLPPPP became a permanent program in 2009 and today there are 15 CLPPP programs. In addition, lead hazard identification and lead poisoning prevention education has been included during Healthy Neighborhood Program home visits since late 1980s. Another success initiative, Regional Lead Resource Centers, have provided statewide lead poisoning prevention education, consultations with HCPs and/or medical management of children and pregnant women with lead poisoning, and support to LHDs.

The incidence and prevalence of childhood lead poisoning has been declining in New York State in recent years, but much work remains. NYS PHL and regulations mandate universal blood lead testing by HCPs for all children at or around age one year, and again at or around age two years, and annual risk assessment with blood lead testing as indicated at ages six months to six years. The number of children receiving risk assessments and blood lead testing in accordance with regulations has not yet reached the desired level in a number of localities:

- In 2008-11, 70% of children in NYS received at least one blood lead test at or around age one (9-18 months) (*2008 birth cohort*). The proportion of children tested at least once at or around age one has increased more than 10% since 2001.
- In 2011, 63% of 2 year olds had been tested, and 47% of 3 year olds had 2 tests in NYS (excluding NYC).
- Forty percent of NYS children (excluding NYC) screened for lead were on or eligible for Medicaid Managed Care. (*2005 birth cohort, 2005-08 data*).
- Among NYS (excluding NYC) children with a non-elevated initial screening test, 33% received a second lead test (*2008-2011 data*).
- Among NYC children, 75% had at least one blood lead test at one year of age and 63% had two tests by age three (*2008 birth cohort*).

As we now know, there is no safe BLL. Exposure to even small amounts of lead resulting in blood lead levels less than 5 µg/dL may contribute to behavior problems, learning disabilities, and lowered intelligence scores. To estimate the number of children aged one (1) to five (5) years in the United States (U.S.) at risk for adverse health effects from lead exposure and to assess the impact of prevention efforts, CDC analyzed data from two consecutive cycles of National Health and Nutrition Examination Survey (NHANES) from the periods 1999-2002 to 2007 to 2010 and found 2.6 percent (%) of the children (estimated at 535,000) had BLLs at or above the upper reference value of 5 µg/dL¹. The Advisory Committee on Childhood Lead Poisoning Prevention (ACCLPP), CDC's expert advisors, recommended CDC eliminate the term "level of concern," and use the "reference value" of 5 µg/dL as the level at which action should be taken by HCPs, LHDs, parents and communities to reduce the child's exposure to sources of lead and initiate follow-up services. CDC adopted the recommendations in May 2012 but has yet to distribute guidance to states.

Children who live in older housing are more likely to have BLLs \geq 5 ug/dL than the population of children in the United States as a whole. Lead poisoning affects children from all backgrounds; however children at or below the poverty level, children enrolled in Medicaid, children from racial/ethnic minority groups, and immigrant and refugee women and children continue to be at higher risk.

The primary cause of the majority of lead poisoning cases in NYS is deteriorating lead based paint and paint contaminated dust and soil in and around pre-1950 housing. Lead-based paint in older homes may also be exposed during renovation and remodeling. Less commonly, secondary sources such as water contaminated by its flow through lead pipes or brass fixtures, and certain consumer products that contain lead can be significant contributory sources. Other sources contributing to lead poisoning can include lead-glazed ceramic ware, certain ethnic spices, foods and cosmetics. People in certain occupations such as painters, plumbers, mechanics, or construction workers may be exposed to lead on the job and bring it home on their skin and clothes. Hobbies that use lead, such as making pottery or stained glass, refinishing furniture, making lead figurines, using indoor firing ranges or loading homemade ammunitions also can be sources of exposure for young children.

Over 90 percent of all lead-based paint used in housing is in pre-1950 housing. Forty three percent (3,300,000) of homes in New York State were built prior to 1950, over one million more than the next highest state. In 2012, 33 zip codes (2% of the approximately 1,800 non-New York City zip codes) accounted for 48 percent of all the children who were identified with BLLs > 10 ug/dL in upstate NY. In addition, these 33 high-incidence zip codes have a substantially higher proportion of pre-1950 housing stock (58 percent) than elsewhere in the state. Additional information is available in the recently developed NYS Community Health Indicator Reports for Child and Adolescent Health at <http://www.health.ny.gov/statistics/chac/indicators/cah.htm> or the New York City Health and Mental Hygiene publication, *New York City Childhood Lead Poisoning Prevention Program -- Annual Report 2012* on the

¹ CDC. Blood Lead Levels in Children Aged 1-5 Years – United States, 1999-2010 MMWR April 5, 2013

NYC website at <http://www.nyc.gov/html/doh/html/environmental/lead-pubs.shtml>. Statewide data regarding the incidence of confirmed high blood lead levels by year, county and zip code can be found on the New York State Department of Health public website at <https://health.data.ny.gov/Health/Childhood-Blood-Lead-Testing-and-Incidence-of-Blood-lead-7vjk>

Blood lead testing at age one is intended to identify children soon after they become mobile, when they may potentially be exposed to environmental sources of lead. Testing all children for blood lead again at age two is critical, even if the initial blood lead test result is less than the reference value of 5 ug/dL. Children's lead exposure generally peaks at age two due to increased exploration of the environment and normal hand-to-mouth behavior, which results in the ingestion of lead dust. Following identification, these children benefit from interventions to reduce levels and prevent further exposure. Analysis demonstrated that among those children with blood lead results less than 10 ug/dL on initial testing, and who were tested a second time, two percent were found to have blood lead levels at or above 10 ug/dL on the second test.

Lead poisoning is also an important concern for women of preconception age, and especially for pregnant women. A lead poisoned pregnant woman may experience maternal hypertension, preterm delivery, miscarriage or stillbirth. Since blood borne lead crosses the placenta, a pregnant woman with lead poisoning may expose her fetus to the toxic effects of lead. Studies have shown that children born to mothers with lead poisoning are at increased risk for having BLLs \geq 10 ug/dL at birth and associated cognitive and developmental delays. In addition, data demonstrate that lead exposure during the perinatal period may have a latent effect; with permanent adverse effects identified when children reach 20 to 25 years of age. It is imperative that infants born to mothers' with BLLs of 5 ug/dL or greater have a blood lead test before hospital discharge. NYS PHL and its implementing regulations require HCPs to:

- Provide prenatal anticipatory guidance on lead poisoning prevention to all pregnant women
- Assess each pregnant woman for risk of exposure to lead using a recommended risk assessment tool at the initial prenatal visit
- Test or refer for blood lead testing each pregnant woman found to be at risk
- Provide risk reduction counseling to each pregnant woman with a confirmed BLL of 10 μ g/dL or greater (recommended for confirmed BLL of 5 μ g/dL or greater), and if occupationally exposed to lead, refer to an occupational health clinic for guidance.

NYS continues to expand the emphasis on primary prevention of lead poisoning, while maintaining and strengthening blood lead testing, surveillance, education, and care coordination activities. Prevention of exposure to lead is the best way to protect children but if an exposure has occurred, taking action early to reduce the child's future exposure to lead is imperative. HCPs must be knowledgeable about lead poisoning, especially primary prevention, and best practice standards for clinical care of a child or pregnant woman with an EBLL, including ensuring the newborn has a blood lead test done at birth, and the importance of care coordination with LHDs. HCPs must be educated about PHL, regulations and guidance pertaining to primary prevention of lead poisoning, assessing for risk of exposure, and testing requirements, and secondary care. The use of assessment, counseling, and educational tools that have been created, evaluated, and found to be beneficial for HCPs to use will assist us with this goal. The Regional Lead Resource Centers (RLRCs) will provide consultations to HCPs on clinical care of children and pregnant women with EBLLs based upon generally accepted medical standards and public health guidelines, and/or clinical care, and as a resource for LHDs as needed. HCPs must also be leaders and advocates for lead poisoning prevention within their communities and medical professional groups.

2.2 Important Information

The bidder is required to review, and is requested to have legal counsel review, Attachment E, the DOH Agreement as the Bidder must be willing to enter into an Agreement substantially in accordance with the terms of Attachment E should the bidder be selected for contract award. Please note that this RFP and the awarded bidder's proposal will become part of the contract as Appendix B and C, respectively.

It should be noted that Appendix A of Attachment E, "Standard Clauses for New York State Contracts", contains important information related to the contract to be entered into as a result of this RFP and will be incorporated, without change or amendment, into the contract entered into between DOH and the successful Bidder. By submitting a response to the RFP, the Bidder agrees to comply with all the provisions of Appendix A. Note, Attachment A, the Bidder's Certifications/Acknowledgements, should be submitted and includes a statement that the bidder accepts, without any added conditions, qualifications or exceptions, the contract terms

and conditions contained in this RFP including any exhibits and attachments. It also includes a statement that the bidder acknowledges that, should any alternative proposals or extraneous terms be submitted with the proposal, such alternate proposals or extraneous terms will not be evaluated by the DOH.

Any qualifications or exceptions proposed by a bidder to this RFP should be submitted in writing using the process set forth in [Section 5.2](#) (Questions) prior to the deadline for submission of written questions indicated in [Section 1.0](#) (Calendar of Events). Any amendments DOH makes to the RFP as a result of questions and answers will be publicized on the DOH web site.

2.3 Term of the Agreement

The contract term for each region is expected to be for a period of five (5) years commencing on the date shown on the Calendar of Events in [Section 1.0.](#), subject to the availability of sufficient funding, successful contractor performance, and approvals from the New York State Attorney General (AG) and the Office of the State Comptroller (OSC).

3.0 Bidders Qualifications to Propose

3.1 Minimum Qualifications

NYSDOH will accept proposals from organizations with the following types and levels of experience as a prime contractor.

- Hospital licensed under Article 28 of the PHL; with
- Pediatric or Family Residency Program with a current Accreditation Certificate; and
- Pediatric intensive care unit with at least five (5) years of experience in chelation therapy for lead poisoning.

For the purposes of this RFP, a prime contractor is defined as one who has the contract with the owner of a project or job and has full responsibility for its completion. A prime contractor undertakes to perform a complete contract and may employ (and manage) one or more subcontractors to carry out specific parts of the contract.

If Subcontractors are proposed, they must meet the same Minimum Qualifications as the prime contractor. Failure to meet these Minimum Qualifications by the prime contractor or their subcontractors will result in a proposal being found non-responsive and eliminated from consideration.

4.0 SCOPE OF WORK

This Section describes the services that are required to be provided by the selected bidder. The selected bidder must be able to provide all of these services throughout the contract term.

PLEASE NOTE: Bidders will be required to provide responses that address all of the requirements of this RFP as part of its Technical Proposal.

The terms “bidders”, “vendors” and “proposers” are used interchangeably. For purposes of this RFP, the use of the terms “shall”, “must” and “will” are used interchangeably when describing the Contractor’s/Bidder’s duties.

4.1 Deliverables

The contractor (s) (RLRCs) will provide education, support and direction to HCPs. The RLRCs must identify ways to assess the needs of these target individuals, groups, and communities; improve communication among those involved; design and implement effective strategies to accomplish the outcomes of this initiative; and evaluate the effectiveness of activities. Their work will assist NYSDOH in the elimination of childhood lead poisoning by 2020 through the achievement of the following outcomes.

4.1.1 Educate

The contractor will increase health care providers' knowledge in coordination with LHDs about lead poisoning prevention, assessment, blood lead testing, and clinical care and public health follow-up of children and pregnant women exposed to lead according to NYS PHL and regulations, best practices, and generally accepted medical standards and public health guidelines.

Education for HCPs is the major emphasis of the RLRC work. The RLRCs may educate HCPs one-on-one, in groups, by mailings, or web-based, as long as an attempt is made to contact 100% of HCPs actively caring for children and pregnant women in NYS. See Table 1 for the historical yearly number of educational sessions provided per region. In order to effectively educate the HCPs, the Contractor must:

- Assess the educational needs of HCPs in each region.
- Develop, implement, and evaluate evidence-based education to HCPs to best meet the needs of patients and families in each region.
- Develop statewide educational tools for use within the HCP practice in collaboration with NYSDOH and local chapters of professional medical groups.
- Track and document activities, the number of HCPs educated per year in each region, tools developed and evaluate all activities.

Contractor must include the following educational topics:

- Anticipatory guidance for parents and pregnant women emphasizing primary prevention of lead poisoning, including a tool to use within the practice
- Assessing children at every well child visit and pregnant woman at the initial prenatal visit for risk of exposure with a risk assessment tool, and ordering a blood lead test if a risk is identified
- Blood lead testing requirements for all one and two year old children
- Blood lead testing a newborn before hospital discharge if the mother had a confirmed venous BLL 5 ug/dL or greater during pregnancy
- Lead exposure assessment for children with confirmed venous BLLs 5 ug/dL or greater, including a tool to use within the practice
- Risk reduction education
- Nutritional assessment, counseling and referrals as needed, including a tool to use within the practice
- Developmental assessment, counseling and referrals as needed, including a tool to use within the practice
- Evaluating the risk of others living in the home when a child or a pregnant woman has a confirmed venous BLL 5 ug/dL or greater and testing if at risk
- Communicating and coordinating with the LHD where a child resides when a confirmed venous BLL is 5 ug/dL or greater
- Education of HCPs surrounding the RLRCs of the availability and expertise of the RLRCs concerning children with elevated BLLs.
- Revision of NYSDOH Guidelines for the Identification and Management of Lead Exposure in Children (2011) and Lead Poisoning Prevention Guidelines for Prenatal Care Providers (2003).

Note: The numbers provided in the above table are the annual volume based on the previous contract activity for the particular services shown. The numbers provided do not represent a commitment or guarantee by NYSDOH to utilize a specific quantity or type of service; actual need may be higher or lower.

4.1.2 Coordinate

The contractor will increase timely, comprehensive, and coordinated clinical care of children and pregnant women with confirmed venous EBLLs, and newborns born to women with EBLLs in accordance with generally accepted medical standards and public health guidelines. It is extremely important when a BLL is 45 µg/dL or greater and chelation therapy is considered. LHDs are encouraged to refer a HCP to a RLRC for consultation when a child or pregnant woman has an EBLL, and a HCP may request the RLRC provide clinical care and care coordination of the child or pregnant woman, including hospitalization and chelation therapy. (See Table 2)

NOTE: LHDs cannot release specific information about a child or pregnant woman to the RLRCs without obtaining (parental) consent unless there is an established doctor-patient relationship between the RLRC and the child or pregnant woman, or a consultant arrangement is in place between the LHD and the RLRC provider.

The contractor (RLRCs), as NYS's lead poisoning clinical experts, will:

- Provide individual case consultation or clinical care and care coordination to a child's, a pregnant or post-partum and breastfeeding woman's HCP when they have an EBLL, or the HCP of a newborn born to a woman with an EBLL, as necessary.
 - Clinical costs are NOT a component of this RFP and the resulting contract. All clinical service costs should be billed to the patient's third party payer (health insurance). Parents of children and pregnant women without insurance should be referred to a health navigator within health facility or to NY State of Health - Health Plan Marketplace located at <https://nystateofhealth.ny.gov/> to apply for health insurance.
 - Clinical care of a child or pregnant woman with a confirmed venous EBLL must be provided in accordance with generally accepted medical standards and public health guidelines.
 - At a minimum, one physician must be available to provide consultation services statewide as needed seven (7) days a week.
- Track and document the number of children and pregnant women by deliverable activities; the number of consultations, clinical care and care coordination, and the number hospitalized for Chelation therapy per year in each region,
- Evaluate activities annually.

The numbers provided do not represent a commitment or guarantee by NYSDOH to utilize a specific quantity or type of service; actual need may be higher or lower.

4.1.3 Build Capacity

The contractor will increase capacity building and sustainability in health care and public health systems to prevent lead poisoning by engaging HCPs and professional medical groups to take a leadership role in the development of a regional or community coalition or participation in an established coalition to promote lead poisoning prevention efforts. Each region should have at least one lead poisoning prevention coalition. (See Table 3). The Contractor will:

- Assess current lead poisoning prevention coalition status in each region.
- Assess current HCP and professional medical group’s participation in lead poisoning prevention coalitions.
- Contracted RLRCs are expected to actively participate in a regional or community lead poisoning prevention coalition and other community-based lead related prevention activities, and take steps to engage other local HCPs and members of local chapters of medical professional groups to join in the community level lead poisoning prevention efforts to increase parent/caregivers, homeowners, landlords, and the general public’s practice of basic lead poisoning prevention, hazard identification and hazard reduction.
- In those regions that do not have a lead poisoning prevention coalition, engage HCPs and members of local chapters of medical professional groups, in collaboration with LHDs, to initiate and establish a new lead poisoning prevention coalition.
- Track and document name and number of HCPs and professional medical groups contacted, number of meetings held, and activities completed by each coalition, (or progress toward the development of a coalition) per year in each region.

The numbers provided do not represent a commitment or guarantee by NYSDOH to utilize a specific quantity or type of service; actual need may be higher or lower.

4.2 Staffing Requirements

At a minimum, the contractor must have a part-time (.5 Full Time Equivalent (FTE)) licensed physician medical director who has at least five (5) years’ experience in childhood lead poisoning prevention and at least five (5) years’ in the medical management of children and pregnant women with elevated blood lead levels and chelation therapy. The contractor must also have a full-time coordinator for this project (1.0 FTE).

The coordinator of the RLRC must have at least 5 years of experience in:

- childhood lead poisoning prevention and risk reduction;
- outreach and education to HCPs, parents, professional groups, and communities; and
- program evaluation.

In addition to above, if there is a subcontractor, the subcontractor must have a part-time (0.25 FTE) licensed physician medical director who has at least five (5) years' experience in the medical management of children with elevated blood lead levels and chelation therapy. The subcontractor must also have a full-time (1.0 FTE) coordinator for this project.

The coordinator for each subcontractor must have at least 2 years of experience in:

- childhood lead poisoning prevention and risk reduction;
- outreach and education to HCPs, parents, professional groups, and communities; and
- program evaluation.

4.3 Anticipated Outcomes

The Contractor (RLRCs) will provide education, support and direction to HCPs. The RLRCs must identify ways to assess the needs of these target individuals and groups; improve communication among those involved; design and implement effective strategies to accomplish the outcomes of this initiative; and evaluate the effectiveness of activities. Progress towards meeting the outcomes must be reported to the NYSDOH Bureau of Community Environmental Health and Food Protection within 30 days of the end of each quarter, during quarterly conference calls, and in an annual summary report. The RLRC's will assist NYSDOH in the elimination of childhood lead poisoning by 2020 through the achievement of the following outcomes:

- Increase health care providers' knowledge, in coordination with LHDs, about lead poisoning prevention, assessment, blood lead testing, and clinical care and public health follow-up of children and pregnant women exposed to lead according to NYS PHL and regulations, best practices, and generally accepted medical standards and public health guidelines.
- Increase timely, comprehensive, and coordinated clinical care of children and pregnant women with EBLLs, and newborns born to women with EBLLs in accordance with generally accepted medical standards and public health guidelines.
- Increase capacity building and sustainability in health care and public health systems to prevent lead poisoning by engaging HCPs and professional medical groups to take a leadership role in the development of a regional or community coalition or participation in an established coalition to promote lead poisoning prevention efforts.

4.4 Reporting Requirement

The Contractors (RLRCs) will design and implement evaluation tools and methods to monitor and assess the implementation and effectiveness of all activities. The contractor will provide the following reports:

4.3.1 Progress Reports

The Contractors must report their progress towards meeting the outcomes to the NYSDOH Bureau of Community Environmental Health and Food Protection during quarterly conference calls.

4.3.2 Quarterly Progress Reports

The Contractors will submit to NYSDOH written Quarterly Progress Reports, within 30 calendar days of the end of each quarter, detailing the progress made toward achieving the contract deliverables by the RLRC. Payment for services rendered each quarter will not be made until progress reports are received and contract deliverables are met (see 5.4 Payment).

4.3.3 Annual Summary Report

The Contractors will submit to NYSDOH an Annual Summary Reports, within 30 calendar days of the end of each contract year, detailing all the progress made during the year by the RLRC.

5.0 ADMINISTRATIVE INFORMATION

The following administrative information will apply to this RFP. Failure to comply fully with this information may result in disqualification of your proposal.

5.1 Restricted Period

“Restricted period” means the period of time commencing with the earliest written notice, advertisement, or solicitation of a Request for Proposals (“RFP”), Invitation for Bids (“IFB”), or solicitation of proposals, or any other method for soliciting a response from Bidders intending to result in a procurement contract with DOH and ending with the final contract award and approval by DOH and, where applicable, final contract approval by the Office of the State Comptroller.

This prohibition applies to any oral, written, or electronic communication under circumstances where a reasonable person would infer that the communication was intended to influence this procurement. Violation of any of the requirements described in this Section may be grounds for a determination that the bidder is non-responsible and therefore ineligible for this contract award. 5.5 Minority & Woman-Owned Business Enterprise Requirements

Pursuant to New York State Executive Law Article 15-A, the New York State Department of Health ("DOH") recognizes its obligation to promote opportunities for maximum feasible participation of certified minority-and women-owned business enterprises and the employment of minority group members and women in the performance of DOH contracts.

In 2006, the State of New York commissioned a disparity study to evaluate whether minority and women-owned business enterprises had a full and fair opportunity to participate in state contracting. The findings of the study were published on April 29, 2010, under the title "The State of Minority and Women-Owned Business Enterprises: Evidence from New York" ("Disparity Study"). The report found evidence of statistically significant disparities between the level of participation of minority-and women-owned business enterprises in state procurement contracting versus the number of minority-and women-owned business enterprises that were ready, willing and able to participate in state procurements. As a result of these findings, the Disparity Study made recommendations concerning the implementation and operation of the statewide certified minority- and women-owned business enterprises program. The recommendations from the Disparity Study culminated in the enactment and the implementation of New York State Executive Law Article 15-A, which requires, among other things, that DOH establish goals for maximum feasible participation of New York State Certified minority- and women – owned business enterprises ("MWBE") and the employment of minority groups members and women in the performance of New York State contracts.

Business Participation Opportunities for MWBEs

For purposes of this solicitation, DOH hereby establishes an overall goal of 0% for MWBE participation, 0% for Minority-Owned Business Enterprises (“MBE”) participation and 0% for Women-Owned Business Enterprises (“WBE”) participation (based on the current availability of qualified MBEs and WBEs and outreach efforts to certified MWBE firms). A contractor (“Contractor”) on the subject contract (“Contract”) must document good faith efforts to provide meaningful participation by MWBEs as subcontractors or suppliers in the performance of the Contract and Contractor agrees that DOH may withhold payment pending receipt of the required MWBE documentation. For guidance on how DOH will determine “good faith efforts,” refer to 5 NYCRR §142.8.

5.6 Equal Employment Opportunity (EEO) Reporting

By submission of a bid in response to this solicitation, the Bidder agrees with all of the terms and conditions of Attachment E Appendix A including Clause 12 - Equal Employment Opportunities for Minorities and Women. The Contractor is required to ensure that it and any subcontractors awarded a subcontract over \$25,000 for the construction, demolition, replacement, major repair, renovation, planning or design of real property and improvements thereon (the "Work"), except where the Work is for the beneficial use of the Contractor, undertake or continue programs to ensure that minority group members and women are afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status. For these purposes, equal opportunity shall apply in the areas of recruitment, employment, job assignment, promotion, upgrading, demotion, transfer, layoff, termination, and rates of pay or other forms of compensation. This requirement does not apply to: (i) work, goods, or services unrelated to the Contract; or (ii) employment outside New York State.

To ensure compliance with this Section, the Bidder should submit with the bid or proposal an Equal Employment Opportunity Staffing Plan (Attachment F, Form #4) identifying the anticipated work force to be utilized on the Contract. Additionally, if awarded a Contract, will, upon request, submit to the New York State Department of Health, a workforce utilization report identifying the workforce actually utilized on the Contract if known.

Further, pursuant to Article 15 of the Executive Law (the “Human Rights Law”), all other State and Federal statutory and constitutional non-discrimination provisions, the Contractor and sub-contractors will not discriminate against any employee or applicant for employment because of race, creed (religion), color, sex, national origin, sexual orientation, military status, age, disability, predisposing genetic characteristic, marital status or domestic violence victim status, and shall also follow the requirements of the Human Rights Law with regard to non-discrimination on the basis of prior criminal conviction and prior arrest.

Please Note: Failure to comply with the foregoing requirements may result in a finding of non-responsiveness, non-responsibility and/or a breach of the Contract, leading to the withholding of funds, suspension or termination of the Contract or such other actions or enforcement proceedings as allowed by the Contract.

5.7 Sales and Compensating Use Tax Certification (Tax Law, § 5-a)

Section 5-a of the Tax Law, as amended, effective April 26, 2006, requires certain contractors awarded state contracts for commodities, services and technology valued at more than \$100,000 to certify to the Department of Tax and Finance (DTF) that they are registered to collect New York State and local sales and compensating use taxes. The law applies to contracts where the total amount of such contractors’ sales delivered into New York State are in excess of \$300,000 for the four quarterly periods immediately preceding the quarterly period in which the certification is made, and with respect to any affiliates and subcontractors whose sales delivered into New York State exceeded \$300,000 for the four quarterly periods immediately preceding the quarterly period in which the certification is made.

This law imposes upon certain contractors the obligation to certify whether or not the contractor, its affiliates, and its subcontractors are required to register to collect state sales and compensating use tax and contractors must certify to DTF that each affiliate and subcontractor exceeding such sales threshold is registered with DTF to collect New York State and local sales and compensating use taxes. The law prohibits the State Comptroller, or other approving agencies, from approving a contract awarded to an offerer meeting the registration requirements but who is not so registered in accordance with the law.

The successful Bidder must file a properly completed Form ST-220-CA with the Department of Health and Form ST-220-TD with the DTF. These requirements must be met before a contract may take effect. 5.8 Workers' Compensation and Disability Benefits Certifications

The forms to be used to show compliance with the WCL are listed below. Any questions relating to either workers' compensation or disability benefits coverage should be directed to the State of New York Workers' Compensation Board, Bureau of Compliance at (518) 486-6307. Failure to provide verification of either of these types of insurance coverage by the time contracts are ready to be executed will be grounds for disqualification of an otherwise successful Proposal.

The Contractor is solely responsible for assuring that the requirements of the RFP are met. All subcontracts shall contain provisions specifying that the work performed by the subcontractor must be in accordance with the terms of the prime contract, and that the subcontractor specifically agrees to be bound by the confidentiality provisions set forth in the agreement between the DOH and the Contractor. DOH reserves the right to request removal of any bidder's staff or subcontractor's staff if, in DOH's discretion, such staff is not performing in accordance with the Agreement. Subcontractors whose contracts are valued at or above \$100,000 will be required to submit the Vendor Responsibility Questionnaire upon selection of the prime contractor.

Subsequent to such three hundred and sixty- five days, any offer is subject to withdrawal communicated in a writing signed by the offerer; and,
16. Require clarification at any time during the procurement process and/or require correction of arithmetic or other apparent errors for the purpose of assuring a full and complete understanding of an offerer's proposal and/or to determine an offerer's compliance with the requirements of the solicitation.

5.11 Freedom of Information Law ("FOIL")

All proposals may be disclosed or used by DOH to the extent permitted by law. DOH may disclose a proposal to any person for the purpose of assisting in evaluating the proposal or for any other lawful purpose. All proposals will become State agency records, which will be available to the public in accordance with the Freedom of Information Law. **Any portion of the proposal that a Bidder believes constitutes proprietary information entitled to confidential handling, as an exception to the Freedom of Information Law, must be clearly and specifically designated in the proposal as directed in [Section 6.1 \(D\)](#) of the RFP.** If DOH agrees with the proprietary claim, the designated portion of the proposal will be withheld from public disclosure. Blanket assertions of proprietary material will not be accepted, and failure to specifically designate proprietary material may be deemed a waiver of any right to confidential handling of such material.

5.12 Lobbying

Chapter 1 of the Laws of 2005, as amended by Chapter 596 of the Laws of 2005, made significant changes as it pertains to development of procurement contracts with governmental entities. The changes included:

- a) made the lobbying law applicable to attempts to influence procurement contracts once the procurement process has been commenced by a state agency, unified court system, state legislature, public authority, certain industrial development agencies and local benefit corporations;
- b) required the above mentioned governmental entities to record all contacts made by lobbyists and contractors about a governmental procurement so that the public knows who is contacting governmental entities about procurements;
- c) required governmental entities to designate persons who generally may be the only staff contacted relative to the governmental procurement by that entity in a restricted period;

- d) authorized the New York State Commission on Public Integrity, (now New York State Joint Commission on Public Ethics), to impose fines and penalties against persons/organizations engaging in impermissible contacts about a governmental procurement and provides for the debarment of repeat violators;
- e) directed the Office of General Services to disclose and maintain a list of non-responsible bidders pursuant to this new law and those who have been debarred and publish such list on its website;
- f) required the timely disclosure of accurate and complete information from offerers with respect to determinations of non-responsibility and debarment; (Bidders responding to this RFP should submit a completed and signed [Attachment G](#), "Prior Non-Responsibility Determination".)
- g) increased the monetary threshold which triggers a lobbyist's obligations under the Lobbying Act from \$2,000 to \$5,000; and
- h) established the Advisory Council on Procurement Lobbying.

Subsequently, Chapter 14 of the Laws of 2007 amended the Lobbying Act of the Legislative Law, particularly as it related to specific aspects of procurements as follows: (i) prohibiting lobbyists from entering into retainer agreements on the outcome of government grant making or other agreement involving public funding; and (ii) reporting lobbying efforts for grants, loans and other disbursements of public funds over \$15,000.

The most notable, however, was the increased penalties provided under Section 20 of Chapter 14 of the Laws of 2007, which replaced old penalty provisions and the addition of a suspension option for lobbyists engaged in repeated violations. Further amendments to the Lobbying Act were made in Chapter 4 of the Laws of 2010.

Questions regarding the registration and operation of the Lobbying Act should be directed to the New York State Joint Commission on Public Ethics.

5.13 State Finance Law Consultant Disclosure Provisions

The successful bidder for procurements involving consultant services must complete a "State Consultant Services Form A, Contractor's Planned Employment From Contract Start Date through End of Contract Term" in order to be eligible for a contract.

The successful winning bidder must also agree to complete a "State Consultant Services Form B, Contractor's Annual Employment Report" for each state fiscal year included in the resulting contract. If the person fails to demonstrate that it has ceased its engagement in the investment activity which is in violation of the Act within 90 days after the determination of such violation, then DOH shall take such action as may be appropriate and provided for by law, rule, or contract, including, but not limited to, seeking compliance, recovering damages, or declaring the Contractor in default. 6.3 Cost Proposal

Submit a completed and signed [Attachment C – Cost Proposal](#). The Cost Proposal shall comply with the format and content requirements as detailed in this document and in Attachment C. Failure to comply with the format and content requirements may result in disqualification.

The bid price is to cover the cost of furnishing all of the said services, including but not limited to materials, equipment, profit and labor to the satisfaction of the Department of Health and the performance of all work set forth in said specifications.

7.0 PROPOSAL SUBMISSION

A proposal consists of three distinct parts: (1) the Administrative Proposal, (2) the Technical Proposal, and (3) the Cost Proposal. The table below outlines the requested format and volume for submission of each part of the proposal. Note: bidder should submit a separate proposal consisting of the three distinct parts for each region bid upon. Proposals should be submitted in all formats as prescribed below.

	Electronic Submission	Paper Submission
Administrative Proposal	2 dedicated flash drives or CDs labeled “Administrative Proposal” containing a standard searchable PDF file with copy/read permissions only.	4 Originals 6 Copies
Technical Proposal	2 dedicated flash drives or CDs labeled “Technical Proposal” containing a standard searchable PDF file with copy/read permissions only.	4 Originals 6 Copies
Cost Proposal	2 dedicated flash drives or CDs labeled “Cost Proposal” containing standard searchable PDF file(s) with copy/read permissions only.	4 Originals 6 Copies

1. All hard copy proposal materials should be printed on 8.5” x 11” white paper (two-sided) and **be clearly page numbered on the bottom of each page with appropriate header and footer information.** A type size of eleven (11) points or larger should be used. The Technical Proposal materials should be presented separate from the sealed Cost Proposal. The sealed Cost Proposal should also be presented in separate three-ring binder(s);
2. Where signatures are required, the proposals designated as originals should have a handwritten signature and be signed in ink.
3. The NYSDOH discourages overly lengthy proposals. Therefore, marketing brochures, user manuals or other materials, beyond that sufficient to present a complete and effective proposal, are not desired.

Elaborate artwork or expensive paper is not necessary or desired. In order for the NYSDOH to evaluate proposals fairly and completely, proposals should follow the format described in this RFP to provide all requested information. The Bidder should not repeat information in more than one section of the proposal. If information in one section of the proposal is relevant to a discussion in another section, the Bidder should make specific reference to the other section rather than repeating the information;

4. Audio and/or videotapes are not allowed. Any submitted audio or videotapes will be ignored by the evaluation team; and
5. In the event that a discrepancy is found between the electronic and hardcopy proposal, the original hardcopy will prevail.

The complete proposal must be received by the NYSDOH, no later than the Deadline for Submission of Proposals specified in [Section 1.0](#), (Calendar of Events). Late bids will not be considered.

Proposals should be submitted in three (3) separate, clearly labeled packages: (1) Administrative Proposal, (2) Technical Proposal and (3) Cost Proposal, prepared in accordance with the requirements stated in this RFP. 7.1 No Bid Form

Bidders choosing not to bid are requested to complete the No-Bid form [Attachment I](#).

8.0 METHOD OF AWARD

8.1 General Information

DOH will evaluate each proposal based on the "Best Value" concept. This means that the proposal that best "optimizes quality, cost, and efficiency among responsive and responsible offerers" shall be selected for award (State Finance Law, Article 11, §163(1)(j)).

DOH at its sole discretion, will determine which proposal(s) best satisfies its requirements. DOH reserves all rights with respect to the award. All proposals deemed to be responsive to the requirements of this procurement will be evaluated and scored for technical qualities and cost. Proposals failing to meet the requirements of this document may be eliminated from consideration. The technical and cost proposals for each region will be evaluated separately. The evaluation process will include separate technical and cost evaluations, and the result of each evaluation shall remain confidential until both evaluations have been completed and a selection of the winning proposal is made.

The evaluation process will be conducted in a comprehensive and impartial manner, as set forth herein, by an Evaluation Committee. The Technical Proposal and compliance with other RFP requirements (other than the Cost Proposal) for each region will be weighted 70% of a proposal's total score and the information contained in the Cost Proposal for each region will be weighted 30% of a proposal's total score.

Three (3) awards (one (1) per region) may be given out to up to three (3) bidders under this RFP.

Bidders may be requested by DOH to clarify the contents of their proposals. Other than to provide such information as may be requested by DOH, no Bidder will be allowed to alter its proposal or add information after the Deadline for Submission of Proposals listed in [Section 1.0](#) (Calendar of Events).

In the event of a tie, the determining factors for award, in descending order, will be: (1) lowest cost and (2) total number of years of experience using chelation therapy.

8.2 Submission Review

DOH will examine all proposals that are received in a proper and timely manner to determine if they meet the proposal submission requirements, as described in [Section 6.0](#) (Proposal Content) and [Section 7.0](#) (Proposal Submission), and include the proper documentation, including all documentation required for the Administrative Proposal, as stated in this RFP. Proposals that are materially deficient in meeting the submission requirements or have omitted material documents, in the sole opinion of DOH, may be rejected.

8.3 Technical Evaluation

The evaluation process will be conducted in a comprehensive and impartial manner. A Technical Evaluation Committee comprised of program staff of DOH will review and evaluate all proposals.

Proposals will undergo a preliminary evaluation to verify Bidder's Qualifications to Propose (Section 3.0).

The Technical Evaluation Committee members will independently score each Technical Proposal that meets the submission requirements of this RFP. The individual Committee Member scores will be averaged to calculate the Technical Score for each responsive Bidder.

The technical evaluation, including the technical proposal evaluation and compliance with other RFP requirements (other than the Cost Proposal) is 70% of the final score.

8.4 Cost Evaluation

The Cost Evaluation Committee will examine the Cost Proposal documents. The Cost Proposals will be opened and reviewed for responsiveness to cost requirements. If a cost proposal is found to be non-responsive, that proposal may not receive a cost score and may be eliminated from consideration.

The Cost Proposals will be scored based on a maximum cost score of 30. The maximum cost score will be allocated to the proposal with the lowest all-inclusive not-to-exceed maximum price. All other responsive proposals will receive a proportionate score based on the relation of their Cost Proposal to the proposals offered at the lowest final cost, using this formula:

$$C = (A/B) * 30$$

A is Total price of lowest cost proposal;

B is Total price of cost proposal being scored; and

C is the Cost score.

The cost evaluation is 30% of the final score.

8.5 Composite Score

A composite score will be calculated by the DOH by adding the Technical Proposal points and the Cost points awarded. Finalists will be determined based on composite scores.

8.6 Reference Checks

The Bidder should submit references using [Attachment D](#) (References). At the discretion of the Evaluation Committee, references may be checked at any point during the process to verify bidder qualifications to propose (Section 4.0).

8.7 Award Recommendation

The Evaluation Committee will submit a recommendation for award to the Finalist(s) with the highest composite score(s) whose experience and qualifications have been verified.

The Department will notify the awarded Bidder(s) and Bidders not awarded. The awarded Bidder(s) will enter into a written Agreement substantially in accordance with the terms of **Attachment E**, DOH Agreement, to provide the required services as specified in this RFP. The resultant contract shall not be binding until fully executed and approved by the New York State Office of the Attorney General and the Office of the State Comptroller.

STANDARD CLAUSES FOR NYS CONTRACTS

The parties to the attached contract, license, lease, amendment or other agreement of any kind (hereinafter, "the contract" or "this contract") agree to be bound by the following clauses which are hereby made a part of the contract (the word "Contractor" herein refers to any party other than the State, whether a contractor, licenser, licensee, lessor, lessee or any other party):

1. EXECUTORY CLAUSE. In accordance with Section 41 of the State Finance Law, the State shall have no liability under this contract to the Contractor or to anyone else beyond funds appropriated and available for this contract.

2. NON-ASSIGNMENT CLAUSE. In accordance with Section 138 of the State Finance Law, this contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or otherwise disposed of without the State's previous written consent, and attempts to do so are null and void. Notwithstanding the foregoing, such prior written consent of an assignment of a contract let pursuant to Article XI of the State Finance Law may be waived at the discretion of the contracting agency and with the concurrence of the State Comptroller where the original contract was subject to the State Comptroller's approval, where the assignment is due to a reorganization, merger or consolidation of the Contractor's business entity or enterprise. The State retains its right to approve an assignment and to require that any Contractor demonstrate its responsibility to do business with the State. The Contractor may, however, assign its right to receive payments without the State's prior written consent unless this contract concerns Certificates of Participation pursuant to Article 5-A of the State Finance Law.

3. COMPTROLLER'S APPROVAL. In accordance with Section 112 of the State Finance Law (or, if this contract is with the State University or City University of New York, Section 355 or Section 6218 of the Education Law), if this contract exceeds \$50,000 (or the minimum thresholds agreed to by the Office of the State Comptroller for certain S.U.N.Y. and C.U.N.Y. contracts), or if this is an amendment for any amount to a contract which, as so amended, exceeds said statutory amount, or if, by this contract, the State agrees to give something other than money when the value or reasonably estimated value of such consideration exceeds \$10,000, it shall not be valid, effective or binding upon the State until it has been approved by the State Comptroller and filed in his office. Comptroller's approval of contracts let by the Office of General Services is required when such contracts exceed \$85,000 (State Finance Law Section 163.6-a). However, such pre-approval shall not be required for any contract established as a centralized contract through the Office of General Services or for a purchase order or other transaction issued under such centralized contract.

4. WORKERS' COMPENSATION BENEFITS. In accordance with Section 142 of the State Finance Law, this contract shall be void and of no force and effect unless the Contractor shall

provide and maintain coverage during the life of this contract for the benefit of such employees as are required to be covered by the provisions of the Workers' Compensation Law.

5. NON-DISCRIMINATION REQUIREMENTS. To the extent required by Article 15 of the Executive Law (also known as the Human Rights Law) and all other State and Federal statutory and constitutional non-discrimination provisions, the Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, sex (including gender identity or expression), national origin, sexual orientation, military status, age, disability, predisposing genetic characteristics, marital status or domestic violence victim status. Furthermore, in accordance with Section 220-e of the Labor Law, if this is a contract for the construction, alteration or repair of any public building or public work or for the manufacture, sale or distribution of materials, equipment or supplies, and to the extent that this contract shall be performed within the State of New York, Contractor agrees that neither it nor its subcontractors shall, by reason of race, creed, color, disability, sex, or national origin: (a) discriminate in hiring against any New York State citizen who is qualified and available to perform the work; or (b) discriminate against or intimidate any employee hired for the performance of work under this contract. If this is a building service contract as defined in Section 230 of the Labor Law, then, in accordance with Section 239 thereof, Contractor agrees that neither it nor its subcontractors shall by reason of race, creed, color, national origin, age, sex or disability: (a) discriminate in hiring against any New York State citizen who is qualified and available to perform the work; or (b) discriminate against or intimidate any employee hired for the performance of work under this contract. Contractor is subject to fines of \$50.00 per person per day for any violation of Section 220-e or Section 239 as well as possible termination of this contract and forfeiture of all moneys due hereunder for a second or subsequent violation.

6. WAGE AND HOURS PROVISIONS. If this is a public work contract covered by Article 8 of the Labor Law or a building service contract covered by Article 9 thereof, neither Contractor's employees nor the employees of its subcontractors may be required or permitted to work more than the number of hours or days stated in said statutes, except as otherwise provided in the Labor Law and as set forth in prevailing wage and supplement schedules issued by the State Labor Department. Furthermore, Contractor and its subcontractors must pay at least the prevailing wage rate and pay or provide the prevailing supplements, including the premium rates for overtime pay, as determined by the State Labor Department in accordance with the Labor Law. Additionally, effective April 28, 2008, if this is a public work contract covered by Article 8 of the Labor Law, the Contractor understands and agrees that the filing of payrolls in a manner consistent with Subdivision 3-a of Section 220 of the Labor Law shall be a condition precedent to payment by the State of STANDARD CLAUSES FOR NYS CONTRACTS APPENDIX A Page 4 January 2014 any State approved sums due and owing for work done upon the project.

7. NON-COLLUSIVE BIDDING CERTIFICATION. In accordance with Section 139-d of the State Finance Law, if this contract was awarded based upon the submission of bids, Contractor affirms, under penalty of perjury, that its bid was arrived at independently and without collusion aimed at restricting competition. Contractor further affirms that, at the time Contractor submitted its bid, an authorized and responsible person executed and delivered to the State a non-collusive bidding certification on Contractor's behalf.

8. INTERNATIONAL BOYCOTT PROHIBITION. In accordance with Section 220-f of the Labor Law and Section 139-h of the State Finance Law, if this contract exceeds \$5,000, the Contractor agrees, as a material condition of the contract, that neither the Contractor nor any substantially owned or affiliated person, firm, partnership or corporation has participated, is participating, or shall participate in an international boycott in violation of the federal Export Administration Act of 1979 (50 USC App. Sections 2401 et seq.) or regulations thereunder. Anything which is not expressly set forth in the specifications, appendices and forms and resultant contract, but which is reasonable to be implied, shall be furnished and provided in the same manner as if specifically expressed.
- B. The work shall be commenced and shall be actually undertaken within such time as the Department of Health may direct by notice, whether by mail, e-mail, or other writing, whereupon the undersigned will give continuous attention to the work as directed, to the end and with the intent that the work shall be completed within such reasonable time or times, as the case may be, as the Department may prescribe.
- C. The Department reserves the right to stop the work covered by this proposal and the contract at any time that the Department deems the successful bidder to be unable or incapable of performing the work to the satisfaction of the Department, and in the event of such cessation of work, the Department shall have the right to arrange for the completion of the work in such manner as the Department may deem advisable, and if the cost thereof exceeds the amount of the bid, the successful bidder and its surety shall be liable to the State of New York for any excess cost on account thereof.
- D. Each bidder is under an affirmative duty to be informed by personal examination of the specifications and location of the proposed work and by such other means as it may select, of character, quality, and extent of work to be performed and the conditions under which the contract is to be executed.
- E. The Department of Health will make no allowance or concession to a bidder for any alleged misunderstanding or deception because of quantity, quality, character, location or other conditions.
- F. The bid price is to cover the cost of furnishing all of the said services, materials, equipment, and labor to the satisfaction of the Department of Health and the performance of all work set forth in said specifications.
- G. The successful bidder will be required to complete the entire work or any part thereof as the case may be, to the satisfaction of the Department of Health in strict accordance with the specifications and pursuant to a contract therefore.
- H. Contractor will possess, at no cost to the State, all qualifications, licenses and permits to engage in the required business as may be required within the jurisdiction where the work specified is to be performed. Workers to be employed in the performance of this contract will possess the qualifications, training, licenses and permits as may be required within such jurisdiction.
- I. Non-Collusive Bidding: By submission of this proposal, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of their knowledge and belief:
 - 1. The prices of this bid have been arrived at independently without collusion, consultation, communication, or agreement, for the purpose of restricting competition, as to any matter relating to such prices with any other bidder or with any competitor;
 - 2. Unless otherwise required by law, the prices which have been quoted in this bid have not been knowingly disclosed by the bidder and will not knowingly be disclosed by the bidder prior to opening, directly or indirectly to any other person, partnership or corporation to submit or not to submit a bid for the purpose of restricting competition;

3. No attempt has been made or will be made by the bidder to induce any other person, partnership or corporation to submit or not to submit a bid for the purpose of restricting competition.

NOTE: Chapter 675 of the Laws of New York for 1966 provides that every bid made to the state or any public department, agency or official thereof, where competitive bidding is required by statute, rule or regulation, for work or services performed or to be performed or goods sold or to be sold, shall contain the foregoing statement subscribed by the bidder and affirmed by such bidder as true under penalties of perjury.

A bid shall not be considered for award nor shall any award be made where (a), (b) and (c) above have not been complied with; provided however, that if in any case the bidder cannot make the foregoing certification, the bidder shall so state and shall furnish with the bid a signed statement which sets forth in detail the reasons therefore. Where (a), (b) and (c) above have not been complied with, the bid shall not be considered for award nor shall any award be made unless the head of the purchasing unit of the state, public department or agency to which the bid is made or its designee, determines that such disclosure was not made for the purpose of restricting competition. The fact that a bidder has published price lists, rates, or tariffs covering items being procured, has informed prospective customers of proposed or pending publication of new or revised price lists for such items, or has sold the same items to other customers at the same price being bid, does not constitute, without more, a disclosure within the meaning of the above quoted certification.

Any bid made to the State or any public department, agency or official thereof by a corporate bidder for work or services performed or to be performed or goods, sold or to be sold, where competitive bidding is required by statute, rule or regulation and where such bid contains the certification set forth above shall be deemed to have been authorized by the board of directors of the bidder, and such authorization shall be deemed to include the signing and submission of the bid and the inclusion therein of the certificate as to non-collusion as the act and deed of the corporation.

- X. Certification Regarding Debarment and Suspension: Regulations of the Department of Health and Human Services, located at Part 76 of Title 45 of the Code of Federal Regulations (CFR), implement Executive Orders 12549 and 12689 concerning debarment and suspension of participants in federal programs and activities. Executive Order 12549 provides that, to the extent permitted by law, Executive departments and agencies shall participate in a government-wide system for non-procurement debarment and suspension. Executive Order 12689 extends the debarment and suspension policy to procurement activities of the federal government. A person who is debarred or suspended by a federal agency is excluded from federal financial and non-financial assistance and benefits under federal programs and activities, both directly (primary covered transaction) and indirectly (lower tier covered transactions). Debarment or suspension by one federal agency has government-wide effect.

Pursuant to the above-cited regulations, the New York State Department of Health (as a participant in a primary covered transaction) may not knowingly do business with a person who is debarred, suspended, proposed for debarment, or subject to other government-wide exclusion (including any exclusion from Medicare and State health care program participation on or after August 25, 1995), and the Department of Health must require its prospective contractors, as prospective lower tier participants, to provide the certification in Appendix B to Part 76 of Title 45 CFR, as set forth below:

1. APPENDIX B TO PART 76-CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION-LOWER TIER COVERED TRANSACTIONS

Instructions for Certification

- a. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
 - b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered and erroneous certification, in addition to other remedies available to the Federal Government the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
 - c. The prospective lower tier participant shall provide immediate written notice to the person to whom this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.
 - d. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered Transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
 - e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
 - f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions.
 - g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of parties Excluded from Federal Procurement and Non-procurement Programs.
 - h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
 - i. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions
 - a. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily exclude from participation in this transaction by any Federal department agency.

- b. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

The New York State Department of Health is required to implement the provisions of New York State Executive Law Article 15-A and 5 NYCRR Parts 142-144 (“MWBE Regulations”) for all State contracts as defined therein, with a value (1) in excess of \$25,000 for labor, services, equipment, materials, or any combination of the foregoing or (2) in excess of \$100,000 for real property renovations and construction.
- B. The Contractor to the subject contract (the “Contractor” and the “Contract,” respectively) agrees, in addition to any other nondiscrimination provision of the Contract and at no additional cost to the New York State New York State Department of Health (the “New York State Department of Health”), to fully comply and cooperate with the New York State Department of Health in the implementation of New York State Executive Law Article 15-A. These requirements include equal employment opportunities for minority group members and women (“EEO”) and contracting opportunities for certified minority and women-owned business enterprises (“MWBEs”). Contractor’s demonstration of “good faith efforts” pursuant to 5 NYCRR §142.8 shall be a part of these requirements. These provisions shall be deemed supplementary to, and not in lieu of, the nondiscrimination provisions required by New York State Executive Law Article 15 (the “Human Rights Law”) or other applicable federal, state or local laws.
- C. Failure to comply with all of the requirements herein may result in a finding of non-responsiveness, non-responsibility and/or a breach of contract, leading to the withholding of funds or such other actions, liquidated damages pursuant to Section VII of this Appendix or enforcement proceedings as allowed by the Contract.

II. Contract Goals

- A. For purposes of this procurement, the New York State Department of Health hereby establishes an overall goal of 0% for Minority and Women-Owned Business Enterprises (“MWBE”) participation, 0% for Minority-Owned Business Enterprises (“MBE”) participation and 0% for Women-Owned Business Enterprises (“WBE”) participation (based on the current availability of qualified MBEs and WBEs).
- B. For purposes of providing meaningful participation by MWBEs on the Contract and achieving the Contract Goals established in Section II-A hereof, Contractor should reference the directory of New York State Certified MBWEs found at the following internet address:

- C. Where MWBE goals have been established herein, pursuant to 5 NYCRR §142.8, Contractor must document “good faith efforts” to provide meaningful participation by MWBEs as subcontractors or suppliers in the performance of the Contract. In accordance with Section 316-a of Article 15-A and 5 NYCRR §142.13, the Contractor acknowledges that if Contractor is found to have willfully and intentionally failed to comply with the MWBE participation goals set forth in the Contract, such a finding constitutes a breach of contract and the Contractor shall be liable to the New York State Department of Health for liquidated or other appropriate damages, as set forth herein.

- B. Contractor agrees to use such MWBE Utilization Plan for the performance of MWBEs on the Contract pursuant to the prescribed MWBE goals set forth in Section III-A of this Appendix.
