

Suggested SADC Evaluation Tool for MLTC Plans Updated and Released

December 31, 2025

Dear MLTC Health Plan Administrator,

The New York State (NYS) Department of Health (the Department) has updated and released the [Suggested Social Adult Day Care \(SADC\) Evaluation Tool](#) and corresponding [User Guide](#) for Managed Long Term Care (MLTC) plans to **utilize beginning January 1, 2026**.

MLTC plans were notified of these changes earlier this year and required to submit corresponding tools for usage approval or confirm if the MLTC plan would be utilizing the Department's suggested tool.

Summary of Changes:

- Please see the [Summary of Changes](#) outlining the updates made from the previous versions.
- The Department made two minor changes from the version shared with the MLTC plans earlier this year:
 - Cover Page – Removed the 'Date of Last Annual SADC Visit' field.
 - Cover Page – Updated the list of MLTC plan names in the dropdown list.

Reminder:

All MLTC plans must obtain the Department's approval to change the SADC Evaluation Tool being utilized for SADC compliance reviews before the change is made.

Thank you,

Social Adult Day Care (SADC) Compliance Surveillance Team

Bureau of Managed Long Term Care (BMLTC)
Division of Health Plan Contracting and Oversight (DHPCO)
