RE: Clarification #7 for Measurement Year (MY) 2024 Updates

Dear Colleague,

This letter contains information about the 2024 Quality Assurance Reporting Requirements (QARR) Technical Specifications: NYS MY2024 QARR List of Required Measures (Table1). The file is posted on our Managed Care [Information for Health Plans](#) page. The revised specifications should be used in the plans' processing for MY2024 QARR.

This clarification includes the following changes made to the MY2024 QARR reporting requirements.

Change Version	Version Date	Section(s) Changed	Change Summary
7	11/20/2024	NYS MY2024 QARR List of Required Measures (Table1)	<p><u>Social Need Screening and Intervention (SNS-E):</u> MY2024 Table 1: QARR List of Required Measures - (Web) version has been updated to indicate that SNS-E is a required measure* for Qualified Health Plans (QHP) lines of business, as was indicated in the posted MY2024 Table 1 PDF. [https://www.health.ny.gov/health_care/managed_care/qarrfull/qarr_2024/tech_spec_table1.htm]</p> <p>*SNS-E for QHP is not required for Patient Level Detail (PLD) reporting in MY2024. Data should be submitted via the IDSS file to NCQA. There are no changes to the Exchange PLD file.</p>

If there are any questions about the above edits, or if you find issues or have concerns with the MY2024 Technical Specifications manual or other documents, please email nysqarr@health.ny.gov.

Sincerely,
