Plan Response:

Corrective Actions Taken

VNS Health Health Plans ("the Plan") acknowledges the two findings for failure to report vacancies of the BH Clinical Director for Adults and BH Medical Director Children's for the period of October 2022-August 2023. Our corrective action plan focuses on education and monitoring.

1. In March 2023, the Plan created a process to coordinate communication with our BH delegated vendor and track and communicate key staffing changes to Compliance for reporting to OMH.
2. As of the date the new process was started, all BH Key Staff changes have been reported to OMH within 7 days.
3. This process was designed by the previous BH Clinical Director for the Plan, the Vendor Manager, and the Compliance Manager.

Education

1. As of April 2, 2024, a desktop procedure on the tracking and reporting of BH Key Staff changes was distributed to VNS Health staff in Compliance, Delegated vendor Operations, and BH clinical staff.
2. Starting after 3/27/2023, and on a weekly basis, the Director of Clinical Programs reinforces with Carelon the need to report Key Staff changes to the Plan immediately.

Monitoring and Auditing

Monitoring for any changes in key staff is performed weekly. On a weekly team call with the Behavioral Health Vendor, Carelon, the VNS Health Health Plans Director of Clinical Programs and the Vendor Manager for Delegated Vendor Operations address changes to key staff for both Carelon and VNS Health in the past week. If there have been any changes to staffing, the Director of Clinical Programs escalates this information to the Compliance Manager, who notifies OMH immediately and within the 7-day time frame for reporting. The information collected throughout the period is also included on the next Exhibit 1. The latest agenda from this meeting is provided with this submission.
