

MAPP HHTS Release 4.2 Updates

The release is tentatively scheduled for deployment March 26, 2023.

MAPP HHTS Release 4.2 System Changes and Enhancements

- Add new files and reports to exchange Plan of Care (POC) information in MAPP HHTS. This will include upload and download files and the ability to download a member's POC into a printable PDF.
- Add new fields to the provider's profile to capture additional organization information
- Add new functionality to the Provider Contacts and Information Screens
- Add new fields to the Provider Summary File download.
- Add new filters on the My Members Screen
- Add new functionality for Enrollment Download File to add additional filters for dates and remove obsolete fields from the file.
- Add new Home & Community Based Services (HCBS) Capacity Management functionality
 - Update the Consent and Member Program Status Upload file to collect members that have been discharged from HCBS services but will remain in the HH.
 - Create a screen in the member case where provider can indicate that a member is discharged from HCBS program.
 - Add the functionality around the HCBS related segment end date reason codes.
 - Add warning when HCBS Assessment greater than one-year from potential BI service date.
 - Add indicator for members that have an HCBS Assessment AND the member's more recent HCBS Assessment is over a year old.
- Add new functionality in the Children's Referral Portal to allow a provider to create a pended segment for the child when the child is transitioning out of an inpatient setting/NH and requires an HCBS assessment.
- Add new End Date Reason Code for Pended Segments
- Remove End Consent Type 04 (Adult Consent Required), throughout the tracking system
