Update for Long-Term Care Pharmacy Providers on Short Cycle Billing of Pharmacy Claims

Reminder: Pharmacies Submitting Medicaid 340B Drug Claims

New York State (NYS) Medicaid continues to accept appropriately submitted claims for 340B purchased drugs. [Federal law 42 United States Code \(USC\) 256b\(a\)\(5\)\(A\)\(i\)](#) prohibits duplicate discounts, such that drug manufacturers are not required to provide a discounted 340B price and a NYS Medicaid drug rebate for the same drug. To prevent duplicate discounts, NYS Medicaid exclusively uses claim level identifiers on either National Council for Prescription Drug Programs (NCPDP) or Professional/Institutional claim types (837P/837I) on eligible 340B purchased claims. Information on how outpatient clinics bill for 340B drugs can be found in the [Clarification of Previous Guidance: New York State Medicaid Fee-for-Service Coverage of Practitioner Administered Drugs](#) article published in the [July 2022 issue](#) of the [Medicaid Update](#).

Pharmacy providers must comply with NYS Medicaid policy for 340B drug claims, as outlined in the [NYRx the NY Medicaid Pharmacy Program – Pharmacy Manual Policy Guidelines](#) and Medicaid Update articles. All NCPDP-submitted 340B-purchased drug claims (when NYS Medicaid is primary payor) must be submitted with claim level identifiers and at actual acquisition cost. Providers should refer to the [NYRx the NY Medicaid Pharmacy Program – Pharmacy Manual Policy Guidelines](#), for requirements when NYS Medicaid is secondary payor. Claim level identifiers are required on eligible 340B purchased drug claims for NYS Medicaid members.

Through monitoring real-time claims, NYRx has identified two trends in pharmacy submitted 340B drug claims:

1. Ingredient cost submitted exceeds 340B ceiling price
2. Invalid codes submitted for 340B pharmacy drugs

The 340B ceiling price refers to the maximum amount that a manufacturer can charge the covered entity for the purchase of a 340B drug. A claim submitted to NYS Medicaid that is higher than the 340B ceiling price will be denied. Claims that are denied must be resubmitted with the correct ingredient cost. Alternatively, the pharmacy may dispense a non-340B drug and remove the claim level identifiers and submit at the usual and customary charge. Claims for 340B drugs submitted to NYS Medicaid via the NCPDP D.O format must also adhere to the following:

- must be properly identified as 340B for both fee-for-service (FFS) members and Medicaid Managed Care (MMC) enrollees; and
- submitted at the 340B acquisition cost by invoice to the provider for FFS members and MMC enrollees, net any manufacturer discounts and/or other price reductions.

The following is additional information on NYS Medicaid 340B drug claim edits:

*The Medicaid Eligibility Verification System (MEVS) Denial Code for a transaction is returned within the Additional Message Info (526-FQ) and indicates the MEVS error for rejected transactions.

Pharmacy

Reminder: Pharmacy Coverage Includes Over the Counter Naloxone

New York State (NYS) Medicaid covers naloxone over the counter (OTC) when prescribed by the practitioner of a NYS Medicaid member or dispensed to a NYS Medicaid member in compliance with the State-issued naloxone standing order. Information regarding the naloxone standing order can be found in the [NYS Department of Health \(DOH\) Non-Patient Specific Prescription for Naloxone with Pharmacy Dispensing Protocol](#) document.

To comply with NYS laws, regulations, and NYS Medicaid policy, a pharmacy must submit a claim and dispense naloxone OTC pursuant to a fiscal order or via a standing order. When dispensing naloxone OTC via a standing order, all the following must apply:

- a NYS Medicaid member has specifically requested the item on the date of service (DOS); or
- a pharmacist-initiated dispensing per a determination of need/risk on DOS for a NYS Medicaid member; and
- a pharmacy submits one course of therapy (two doses) with no refills; and
- the drug item(s) are dispensed according to:
 - o Food and Drug Administration (FDA) guidelines;
 - o NYS laws, rules, and regulations; and
 - o NYS Medicaid Policy.

Billing a Standing Order:

1. Enter a value of "5" in the Prescription Origin Code field 419-DJ to indicate pharmacy dispensing;
2. Enter a value of "99999999" in the Serial Number field 454-EK;
3. Submit the prescriber identification field 411-DB with the NPI of the authorizer of the standing order;
4. Maintain documentation that includes:
 - a. NYS Medicaid member consent, and
 - b. modality of the NYS Medicaid member request (in pharmacy or by telephone), or
 - c. pharmacist determination of need/risk, and
 - d. date and time of either:
 - i. the request of the NYS Medicaid member; or
 - ii. the pharmacist need/risk evaluation.

Questions and Additional Information:

Policy and Billing

Update for Long-Term Care Pharmacy Providers on Short Cycle Billing of Pharmacy Claims

Long-term care (LTC) pharmacy providers must submit short cycle claims with the appropriate National Council for Prescription Drug Programs (NCPDP) Submission Clarification Code (SCC) value in field 420-DK (see Table 2) when submitting claims for NYS Medicaid members in LTC facilities, for quantities of 14 days' supply or less. Short cycle claims must include the appropriate value as described in Table 2 for fee-for-service (FFS) members who reside in a Private Skilled Nursing Facility, Public Skilled Nursing Facility, Private Health Related Facility, or Public Health Related Facility, as indicated by a "NH" Restriction Exception (RE) code on eligibility response for the NYS Medicaid member. **Additionally, the appropriate value in Table 2 must be included on short cycle claims for Medicaid Managed Care (MMC) enrollees who reside in a facility when a RE code of N1 [Regular Nursing home (NH)], N2 (AIDS NH), N3 (Neuro-Behavioral NH), N4 [Traumatic Brain Injury (TBI) NH], N5 (Ventilator Dependent), or N6 (NH-any type), returns on the eligibility response for the NYS Medicaid member.**

This guidance supersedes previous guidance found in the following [Medicaid Update](#) articles:

- [Expansion of Guidance for Long-Term Care Pharmacy Providers on Short Cycle Billing of Pharmacy Claims](#) article published in the [November 2021 issue](#) of the [Medicaid Update](#)
- [Reminder: Long Term Care Pharmacy Providers Will Identify Fee-for-Service Short Cycle Pharmacy Claims](#) article published in the [July 2020 issue](#) of the [Medicaid Update](#)
- [Changes to Medicaid FFS Pharmacy Reimbursement To Be Implemented February 22, 2018](#) article published in the [January 2018 issue](#) of the [Medicaid Update](#)
