The purpose of this General Information System (GIS) message is to remind local departments of social services (LDSS) of the need to review and take appropriate action on the existing TPL Buy-In Deletion Report (TRMP0067).

This report is available through Mobius and provides the district of fiscal responsibility (DFR) with a list of individuals for whom Medicare premiums are being paid when the Medicaid coverage "To" date is in the past. These cases may be in closed or open status.

Districts are reminded to review the TRMP0067 report monthly to determine if the Buy-In should be continued for the individual, or if the Buy-In Span should be terminated for the individual.

If, after review of the cases, it is determined that the individual should remain on the Buy-In, Medicaid eligibility needs to be established to support the coverage. If it is determined that the Buy-In should be terminated, the process outlined in GIS 14 MA/20 should be followed. The appropriate 10 Day discontinuance notice must be issued informing the individual that the Medicare Buy-In will be terminated prior to taking any action to end the Medicare Buy-In.

Please direct any questions to your local district liaison.
