Children's Transition Timelines

- Children will begin to enroll in Health Homes Designated to Serve Children on January 1, 2016.
 - OMH TCM providers and legacy clients will transition on January 1st as well.
 - The transition of care coordination services of the six 1915c children's Waivers (OMH SED, DOH CAH I/II, OCFS B2H) to Health Home will not occur until 2017.
- The newly proposed health and behavioral health Medicaid State Plan services will be implemented as soon as possible pending approval from CMS in early 2016.

Geographic Phase In

- January 1, 2017 – NYC and Long Island Children's Transition to Managed Care
- July 1, 2017 – Rest of State Children's Transition to Managed Care

Children's Transition Timelines - continued

- In 2017, currently carved out Medicaid behavioral health services and children in foster care will be moved to Managed Care
- The existing Home and Community Based Services (HCBS) that are in the six 1915c children's Waivers (OMH SED, DOH CAH I/II, OCFS B2H) will be aligned to one array of HCBS benefits, pending CMS approval, and will be moved to Managed Care. As a result of this transition, the 1915c Waivers will be discontinued as separate programs once the transition is complete.

Population Phase-In

- In 2017, children meeting Level of Care criteria will begin to receive HCBS benefits.
- In 2018, children meeting Level of Need criteria will begin to receive HCBS benefits (January for children with Medicaid; July for children who meet "family of one" Medicaid)

Timeline for Enrollment: Considerations for Assessing and Mitigating Readiness Risk

- Upon completing the Application Review and Designation Process, and at the request of stakeholders (e.g., new and existing Health Homes designated to serve children, care management agencies and voluntary foster care agencies making readiness decisions), the State assessed the overall “readiness risk” associated with implementing *all* key components of the Health Home Design for Children and moved the begin enrollment date from October 1, 2015 to January 1, 2016
- Readiness Risk Factors Evaluated:
 - ✓ Programming, training, testing and launching MAPP modifications for children scheduled for October 1, 2015, including implementing:
 - Children’s referral and assignment portal process
 - CANS-NY (as modified) assessment tool in MAPP
 - The ability to integrate CANS-NY, Health Home algorithms and Health Home rates in MAPP
 - ✓ Testing of and potential modifications to the CANS-NY assessment tool and Health Home algorithms
 - ✓ Time for Designated Health Homes to meet contingencies and complete other administrative/readiness activities

Timeline for Enrollment: Considerations for Assessing and Mitigating Readiness Risk

- ✓ Time for new care management agencies with expertise in serving children with complex needs to forge relationships with new and existing Health Homes
- ✓ Time for Health Homes, Care Management Agencies and Plans to complete and participate in key trainings – MAPP, CANS-NY
- ✓ Timing of CMS approval of State Plan Amendments
- ✓ As part of the readiness risk assessment, the State also considered the effort and investments (such as budgetary, staffing and other readiness activities) that Health Homes and care management agencies will begin to make as well as the loss of a small amount of Health Home Development Funds (approximately \$60,000 per designated Children's Health Home)
 - Existing Health Homes designated to serve children will be directed to use part of HHDFs for expansion efforts

NYS Process for Conflict Free Health Home

All children who are Medicaid eligible will be offered choice of:

- Plan Enrollment and Plan Selection
- Health Home Enrollment

With respect to conflict-free care management requirements for Health Homes:

- To promote and ensure integrated care for the best interest of the client, it is possible that an individual may receive care management and direct care services from the same entity, however, in these instances the care management and direct service components will be under different administrative/supervisory structures of the entity.
- There will be utilization management and quality oversight by the Managed Care Plans for Medicaid services.
- There are appeal, grievance, fair hearing, and beneficiary complaint processes in place for both Managed Care and Health Home services.
