NEW YORK STATE | Department of Health | Office of Health Insurance Programs

MCD Sponsorship Request Toolkit
Guidance: Publicly Available Medicaid Data

What is publicly available Medicaid Data?	• The New York State Department of Health (NYSDOH) makes de-identified Medicaid data available through the website: https://www.health.data.ny. • MCD Requestors should check to see if the data they are seeking is publicly available on the website before starting an MCD request.
How can I see publicly available Medicaid Data?	• Go to: https://www.health.data.ny • Click on the "All Data" • Enter the search term "Medicaid" to see all Medicaid related datasets. • You can also view the full health.data.ny catalog: (https://health.data.ny.gov/Health/Health-Data-NY-gov-Catalog/3crb-9i37). o The catalog is an interactive dataset providing an alphabetical listing of all data views in the Health Data NY catalog, including description, keywords, custom meta-data notes, column names, and date of last update.
