

Using the MIX to create a better application - a Webinar on Housing

There are a lot of excellent, free resources for many things DSRIP on the web. We can and should use the MIX to make each other aware of these. They may not be officially vetted by DOH or by the DST Support Team, but that doesn't diminish the potential value of all this material. Check out this [Free Webinar](#) that's forthcoming, on the connection between Housing and Health:
