

Navigating the New York State Value-Based Payment Roadmap - UHF - Nov 2014

Hello all, this document, prepared by the Medicaid Institute at the United Hospital Fund explains in simple terms how New York's Medicaid program plans to transform the way it finances health care services, moving from volume- to value-based payments (VBP).This guide describes the vision presented in the State's VBP roadmap, giving providers and other stakeholders a list of open questions—many of which are in the process of being answered by the State's active stakeholder engagement process.
