What is MAPP

- MAPP: Medicaid Analytics Performance Portal

- MAPP supports both Health Homes and DSRIP performance management technology needs

- MAPP Technology:

  - Serve as retail front-end to the Medicaid Data Warehouse for PPS / Health Home community

  - Robust dashboard capabilities provided by Salient

  - Online tools available in portal technology to support DSRIP

  - Health Homes Business and Care Management Functionality

  - Data management and analytics to drive performance

MAPP Building Blocks

- Member focused

- It's about Projects and Performance

- Specific Care Management/Care Plan modules

- Workflow capabilities

- Interoperability

- Data Integration and Single Source of truth

- Rich analytics

  - Drill down capabilities

  - Graphical, tabular, exportable

Functionality in MAPP planned through 6/30/15

- **MAPP Portal and Infrastructure**
  - Integration with Medicaid Data Warehouse
  - Health Commerce Authentication
  - 2 Factor Authentication
- **DSRIP:**
  - Online Provider Network
  - Attribution for Valuation and Attribution for Performance
  - Online Project Plan Application
  - Salient SIM Access and training of non-PHI Medicaid data and DSRIP data for each PPS
  - Implementation Plan Phase 1
  - Member Roster
  - Claims Data Extract for PPS

DSRIP Performance Dashboards

- We want a single source of truth (i.e., MDW, plus DSRIP Measures tables)

- Maximize areas for MAPP automation (calculations done in MDW environment)

- Salient is go-to environment for all measures that allow for drill-downs

- MAPP Users:
  - Primarily PPSs
  - DOH
  - MCOs

Core Questions

- How are we doing on the core DSRIP metrics?
  - Compared to myself, compared to others

- What is driving these results

- What can we do about that?

- Both Accountability views and Improvement views

Questions?

We'd like to hear from you!
