PPS Project Application Score Modifications from DSRIP
Project Approval and Oversight Panel

PPS: Catholic Medical Partners – Accountable Care IPA INC

Project/Application Component: 4.a.i Promote mental, emotional and behavioral (MEB) well-being in communities.

Panel Action Taken: The Panel increased project 4.a.i subjective scoring by 5 points from 88.89 to 93.89 points.

Explanation: The Panel members felt some of the reductions to the score for this project were too harsh, as the reductions were due to a lack of specificity on the methodology to identify the patient population and milestones to implement the prevention agenda. Some of the panel members were less concerned on the lack of detail on identifying the patient population, as this project is focused on prevention and removing the stigma associated with the behavioral health services. In addition, the Panel thinks the initiative and approach is innovative and the Catholic Partners should be rewarded for implementing an important project.
