**Section 01 – Budget**

**IPQR Module 1.1 - PPS Budget Report**

**Instructions :**

This table contains five budget categories. Please add rows to this table as necessary in order to add your own additional categories and sub-categories. The budget categories used in this table should reflect the budget categories you used in your application. If budget entered varies from PPS application or previous implementation plan submission, please describe changes and justifications in box provided.

Budget Items	DY1 (\$)	DY2 (\$)	DY3 (\$)	DY4 (\$)	DY5 (\$)	Total (\$)
<b>Waiver Revenue</b>	10,671,239	11,372,033	18,390,005	16,284,279	10,671,239	67,388,795

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

Note that original table submitted in Excel version of implementation plan made the assumption that PPS would only receive 80% of total possible funding, in order to be conservative. Numbers in the table above differ from original submitted table in that full waiver revenue is listed above. Percentages for each category remain consistent.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 1.2 - PPS Flow of Funds**

**Instructions :**

In the table below, please detail your PPS's projected flow of DSRIP funds for the next five years, splitting out the flow of funds by provider type. The provider types match the categories used for the Speed & Scale portion of your Project Plan Application.

- This table requires your funds flow projections on an annual basis. Subsequent quarterly reports will require you to submit your actual distribution of funds to these provider categories on a quarterly basis.
- These quarterly submissions of actual funds distribution will ultimately be required at the provider level (as opposed to the provider type level required here)

Funds Flow Items	DY1 (\$)	DY2 (\$)	DY3 (\$)	DY4 (\$)	DY5 (\$)	Total (\$)
<b>Waiver Revenue</b>	10,671,239	11,372,033	18,390,005	16,284,279	10,671,239	67,388,795
Primary Care Physicians	1,173,836	909,763	1,655,100	1,954,113	1,280,549	6,973,361
Non-PCP Practitioners	320,137	341,161	551,700	814,214	533,562	2,560,774
Hospitals	4,802,058	5,117,415	8,827,202	7,327,926	4,802,058	30,876,659

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Ineffective communication of DSRIP goals to engage key practitioners and community stakeholders in the governance process can reduce effectiveness of the initiative and disrupt the development of trust. This risk will be mitigated through timely communication plan processes, which will include town hall meetings, presentations, regular Partner meetings, website, access to leadership, having a voice in decisions, etc. The PPS will engage a Director-PPS and Patient Engagement to lead this work. We will also ensure communication of the importance of this transformative work, to further engage practitioners and community stakeholders in a shared vision. Expectations of partner and practitioner engagement will be outlined in an addendum to the partner agreement. Failure to meet expectations will result in reduction or elimination of DSRIP funds and/or potential removal from PPS.

Developing trust among key stakeholders; will be mitigated through development of a fair and transparent funds flow model, and a participative style of leadership to encourage participation of LCHP Partners, CBOs, and other stakeholders.

#### IPQR Module 2.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

In order to be successful, LCHP must employ an integrated approach in the pursuit of DSRIP objectives. For example, IT and Data Analytics, Workforce and Finance functions must adopt a philosophy of customer-orientation to the other functional committees as well as to the project teams. Therefore, collaboration and communication among LCHP entities will be paramount. LCHP will adopt a thematic approach in many respects in order to assure inclusion and coordination among the voluminous activities employed toward Program success and practitioner engagement. This will minimize the "silo effect" and lead to optimizing resources and work effort toward accomplishing goals and objectives. The previously-referenced communications plan will focus emphatically on the requirement for internal bi-directional communication and decision-making in this regard.

The culture of LCHP will be directed toward effective working relationships among all entities within the organization. Emphasis on team and interdependency and shared success will manifest the need to recognize the requirements for one another's success.

Under IT Systems and Processes, we are recommending an IT Governance Structure consisting of sub-committees or task forces that report to the ITDAC. Establishing this more detailed structure will require additional participation by partners, but we expect to pay off in terms of long-term

**Bassett Medical Center (PPS ID:22)**

**Module 2.6 - IPQR Module 2.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Bassett Medical Center	Lead agency for LCHP (Leatherstocking Collaborative Health Partners); participants in EGB	Funding, leadership personnel; expertise in network development; committee chairs; EGB members
AO Fox Memorial Hospital	Lead agency affiliate hospital	AO Fox Nursing Home VP active member of INTERACT
Tri-Town Regional Hospital/O'Connor Hospital	Lead agency affiliate hospital	CEO chairs EGB; committee member; participant in projects
At Home Care	Lead agency affiliate agency	Active member of Hosp-Home Care Collaborations Committee
Springbrook	Leadership, participant	CEO Co-Chair EGB; CIO co-chair IT committee
Medicaid beneficiaries	Participant	PAC membership
County Mental Health Agencies and other LGUs	Participant	"PAC membership, committees participation as SME"
4 County Coalition	Directors of Community Services	Develop strategies to further the accomplishment of PPS objectives
Community Memorial Hospital	Leadership, participant	EGB member; PCMH member
Valley Health Services	Participant	EGB member
Ulster County Mental Health Assn	Leadership, participant	EGB member; MHSA
<b>External Stakeholders</b>		
Medicaid Beneficiaries	Consumers of care	Membership on PAC, participate in focus groups and feedback on patient satisfaction
NYS DOH	Administration of DSRIP Program	Administration of DSRIP Program

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 2.7 - IT Expectations

##### Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

Interdependent IT infrastructure is essential for effective data sharing for milestone and metric reporting. It supports the decision-making process at various levels within the organization, and enables patient and provider service requirements to be fulfilled and reported to Executive Governance Body (EGB), e.g., referral management, performance improvement, financial management, interoperability, portal access for feedback and Partner reporting, website management, and sharing of information between and among Partners and LCHP leadership. This includes development of information sharing capabilities, data collection and analysis, and business intelligence in a consistent manner throughout the PPS. A survey of all PPS partner's IT capabilities will serve as a baseline and allow the PPS to perform a gap analysis. Significant capital investments will be required to close the gap in the development of the infrastructure of the PPS.

LCHP will leverage diverse resources to ensure interconnectivity, enabling real-time sharing of relevant information to support efficient and effective patient care, and two-way communications among PPS partners within this rural geography. Since it is unlikely that any single method of data-sharing will suffice for the diverse needs of LCHP, multiple methods will be used to coordinate patient care across the rural LCHP network.

It represents the foundation for successful performance of the clinical objectives of LCHP, including the Clinical Performance Committee, EGB, Project leadership, as well as the functions of Clinical Integration and Care Coordination.

#### IPQR Module 2.8 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

Governance milestones will be regularly monitored and progress measured against commitments. Creation of necessary organizational structures--e.g., project teams, governance bodies--evidence they are functioning effectively and according to plan will be accomplished through regular conduct of meetings, preparation and distribution of minutes, creation of action plans, dashboard reporting. All will be posted on the website for review and comment, as well as to demonstrate active movement toward goals.

All policies and procedures will be developed and published, and adherence will be monitored.

Incorporation of project management principles will serve as an important method for accountability purposes. Every initiative—whether a selected project or an Organizational workstream—will be managed by the DSRIP Operations Team using a sophisticated project management tool (e.g., Microsoft Project). Each sub-project will be structured to reflect Milestones and committed due dates for that project, for each Partner (in the case

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

of the 11 Projects) or each "committee" (in the case of Organizational initiatives such as Financial Sustainability). The % Complete for each will be captured from the project management system data as part of regular progress reporting and rolled up into the DOH-specified progress reporting mechanism, using the performance reporting infrastructure and defined/standardized processes.

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**Section 03 – Financial Stability**

**IPQR Module 3.1 - Prescribed Milestones**

**Instructions :**

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Finalize PPS finance structure, including reporting structure	In Progress	This milestone must be completed by 12/31/2015. PPS finance structure chart / document, signed off by PPS Board.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
<b>Task</b> 1. Hire Director of Finance Operations for the PPS whose role will be the role will be to develop an internal plan for auditing, facilitate external audits, engage PPS partners to represent on finance committee, and report up to EGB , finance committee of PPS and ultimately to the CFO of the PPS.	In Progress	Director of DSRIP Finance Operations identified. Supporting documentation will be submitted in DY1 Q2 Quarterly report.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
<b>Task</b> 2. Establish finance committee to include financial experts within PPS with direct reporting relationship to EGB (Executive Governance Body.)	Completed	Finance Committee established.	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 3. Develop finance organizational chart, including reporting structure. Identify and appoint a CFO of PPS for oversight of PPS financial activities	In Progress	Task in process	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
<b>Task</b> 4. Determine membership in board with adequate representation of partner/PPS diversity including, but not necessarily limited to, those in PPS with expertise in Finance,	In Progress	Task in process	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

Risks and mitigation strategies for such risks include:

There may be inadequate data to conduct negotiations with third-party payers. To mitigate it, we will procure adequate IT, business intelligence and data analytic resources to provide necessary information for negotiations with third-party payers.

Revenue stream may not be adequate to provide services necessary for population health management approach. With an adequate database, we will demonstrate to third-party payers the ability to deliver care in the new environment. The PPS will include a tiered approach with respect to assuming financial risk, utilizing an incremental approach by which partners would assume a greater revenue stream risk share over time.

Culture needs to shift to adapt to transformation of care delivery in the new environment. Through LCHP and partner leadership, we will develop a detailed approach to incorporate principles of population health management, mechanisms to monitor financial performance, including loss of revenue and provision for course correction, and embed appropriate incentives to reconfigure and reorient partner organizations in the new model of care delivery.

As much of the transformation under DSRIP there will be significant capital requirements for IT, cost accounting systems, predictive modeling software, etc. Inadequate capital support will place limits on the ability to achieve outcomes which may be progressive but inadequate in terms of accomplishment of the desired transformation.

#### IPQR Module 3.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Due to the dramatic culture and practice shift that a move to value-based purchasing will entail, there will be a dependency on multiple workstreams within the PPS network. These will include, but may not be limited to: Clinical performance and integration, as provider understanding and acceptance of new payment model necessary; workforce, as the PPS will need the appropriate staffing and subject matter experts to perform this work; Information technology, as the PPS will need to obtain and track information relating to claims and metrics leading toward a VBP model; Finance and Compliance Committees will be an integral part of this transition.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 3.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Executive Director, DSRIP Operations	Sue van der Sommen	Oversight and staffing of VPB Task force; leader in VBP transition
Chief Financial Officer, Lead Agency	Sue Andrews	Oversight of PPS financial activities
Director, DSRIP Finance Operations	Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners	Leading finance committee and VBP task force through transition and direct oversight of financial sustainability plan
Finance Committee	Members include Finance experts from several partner organizations including lead agency	Develop funds flow process; implement financial sustainability plan
Compliance Officer/Lead PPS	Bassett Medical Center--Lead agency for LCHP	Lead PPS in compliance matters; development and maintenance of compliance plan for PPS network.
Internal Auditors	Lead agency	Internal Audit of PPS Funds Flow Process
External Auditors	KPMG	External Audit of PPS Funds Flow Process
Community Based Organizations (CBOs)	Partner organizations; sometimes funds flow recipients	Active engagement in project development and eventual success
Local Government Agencies	Partner organizations	Active engagement in project development and eventual success

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 3.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Chief Clinical Officer, Lead Agency	Culture change; leadership	Practitioner engagement, education about change in reimbursement/practice model
CFO and/or Finance leads for PPS partners	Financial lead	Responsible for leading change to VBP model with regard to finance-related/reimbursement strategies in PPS network
PPS Compliance Committee	Compliance lead	Responsible for developing and overseeing compliance program for PPS; quarterly reporting to Exec Gov Body
Workforce Committee	Oversight of all training strategies, including practitioner education / training described above	Input into practitioner education / training plan
IT/Data Analytics Committee	Provision of data and information to enable practitioners to complete their goals and objectives	Availability of information in a timely way and in the desired format
PPS Project Management Office	Bassett Medical Center--Lead agency for LCHP	Leading initiative; culture change
Finance Committee	Develop funds flow process; implement financial sustainability plan	Funds Flow Model
Executive Governance Body of PPS	Oversight of VBP plan and compliance planning	Responsible for review of reporting and oversight of compliance and finance committee with regard to transition to VBP
<b>External Stakeholders</b>		
MCOs	Insurers	Work with PPS to negotiate risk relationships with providers
NYS DOH	Administration of DSRIP Program	Administration of DSRIP Program

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 3.7 - IT Expectations

##### Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Information technology will play a key role in the financial sustainability of the PPS network. The dependence on shared information is a key to tracking metrics and system transformation. Additionally, moving to a population-health based model of care for our patients will be dependent on tracking and monitoring claims data, as well as clinical services and outcome metrics.

A well-established relationship, with clearly defined roles between IT and Finance is crucial to DSRIP success. Finance requires integration with a shared IT infrastructure in the following areas: 1) Data collection and reporting; 2) Ability to access financial information such as templates and funds flow; 3) Ability to collect data to determine and monitor status of financially fragile partners, and to deploy resources where necessary (e.g., web-based training, advisory services).

Due to the rural nature of the PPS and the large geographic footprint it is essential that technology be leveraged wherever possible to mitigate the potentially fragmented communications and data sharing fundamental to implementing and maintaining a stable, supportive environment.

#### IPQR Module 3.8 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

Success of this workstream will be managed through routine reporting of the Finance Committee to the Executive Governance Body. Partner financial sustainability will be a key factor in the success of the PPS, so oversight of this is vital.

This workstream's success will be indicated by collection of metrics from our partners including performance measures, (i.e., domain 2 and 3 and claims based outcomes measures), progress measures - (domain 1 milestone achievement) and participation measures (are partners providing substantive contributions to ongoing project effort). We will continually monitor the level of engagement and involvement of providers in the performance reporting systems and processes that are established. We will define metrics to measure providers' involvement in the PPS performance reporting structure (e.g., active users of performance reporting IT systems, involvement in feedback discussions with Clinical Performance Committee about performance dashboards). We will also set targets for performance against these metrics. The Practitioner Champions and the Project-specific Leads will be held accountable for driving up these levels of involvement. Measurement methods for accountability include Salient dashboards, meeting attendance rosters, provision of additional supporting documentation as requested/required, etc.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Provider buy-in is a challenge due to need for providers to understand the needs of this population. Through an evidence-based, data-driven approach, information will be communicated to LCHP providers and staff that will enable collaboration and engagement in preparing tactics to address health disparity opportunities.

Measuring impact will be especially challenging as defining these metrics requires proficiency in areas typically unfamiliar to healthcare providers. However, we are committed through various means, such as collaborating with other PPS', to employing methodology to measure the levels of success.

We anticipate many geographical and logistical challenges within this rural area. Affordable, public transportation across the region is not easily available; this has been assigned to Navigators as a priority and awareness goal.

Since statistical information on these populations is scarce, it will be difficult to identify target population. There is no data gathering method, what information is available is generally anecdotal. We will leverage the data warehouse mechanism to collect population data for analysis, and development of tactics to address priority areas.

Patient Engagement will be a risk to this workstream. To mitigate this, Director of Patient and Partner Engagement will be charged with developing specific set of strategies that will compile an approach and function. Additionally, patients will be members of PAC, and focus groups will be held to assess patient engagement.

As a medical school and medical/surgical residency program, the Lead Agency needs to reflect that English may not be the primary language of the practitioner and patient populations, and adjust training programs accordingly.

#### IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

LCHP has identified a variety of online resources, including the NYLearnsPH.com Learning Management System (LMS) and the Empire State Public Health Training Center (ESPHTC), which it will incorporate into its comprehensive training program. A Learning Management System (LMS) has been implemented (HealthStream); an administrator for the system is in place; content-area experts will be identified, recruited, and

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

trained.

Training on cultural competency topics will impact on the Practioner Engagement, and Workforce and the IT/Data Analytics workstreams, who will play a role in training design and execution. Training delivered across a large, geographically distributed network requires the traditional IT support structures (i.e., network administrator, help desk, etc.). It also will require a named position to coordinate the various types of required training and keep content updated to reflect new needs (Workforce). System-specific topics modules will be needed and will require content-area experts from a variety of disciplines who themselves will need to be trained on how to create training modules. Practioner Engagement will be key to content development and successful outcomes.

While not major dependencies, under IT Systems & Processes we state an intent to acquire an automated survey instrument and a Learning Management system. Both of these will allow aspects of the Cultural Competency Strategy to be executed more quickly and efficiently.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 4.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Research Department	Bassett Medical Center--Lead Agency for LCHP (Leatherstocking Collaborative Health Partners)	CNA analysis; PHIP engagement
Partner and Patient Engagement	Administrative leader in PPS (To be identified)	Direct and oversee partner and patient engagement work, linguistics gaps
Practitioner Engagement	Clinical Director, DSRIP (hired start date Q42015)	Practitioner training program development , Clinical Integration, and Cultural Competency
Medicaid Health Home	Bassett Medical Center--Lead Agency for LCHP (Leatherstocking Collaborative Health Partners)	Resource development
Bassett Institute for Learning	Bassett Medical Center (Diana Parker)	Provide guidance regarding development of training curriculum for health literacy - providers and patients
IT & Data Analytics (Business Intelligence) Department	Lead Agency	Analytical tools; online educational and training media; software procurement
Director, PPS Performance Metrics	Amy Van Kampen, Bassett Medical Center	Coordination of related tasks; liaison between Workforce and IT/Data Analytics functions; design of desired product
Executive Governance Body	PPS	Oversight of implementation/metrics/ measurement
Bassett Medical Center	Susan van der Sommen, Executive Dir, DSRIP	Project implementation oversight
Workforce Consultant	Erin Hildreth, Anita Merrell-AHEC	Cultural Competency and Health Literacy

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 4.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Diana Parker	Director, Bassett Institute for Learning	Assist in development of learning curriculum
Sara Albright	Vice President of Human Resources, Bassett Healthcare (Lead Agency)	Oversight of workforce development plan
<b>External Stakeholders</b>		
AHEC	Workforce consultant	Utilize proven methods of training for curriculum development/distance learning
Dr. David Strogatz	CNA Development Committee	Ongoing feedback regarding assessment of health disparities, and impact of plans to address same
Catholic Charities	CBO; Care coordination services	Community-based navigation
County Mental Health Departments (Otsego, Schoharie, Delaware, Madison, Herkimer)	Mental health providers	Participation in Projects 3.a.i; MHSA 4.a.iii
Southern Tier Aids program	CBO	Community-based navigation

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 4.7 - IT Expectations

##### Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

IT and data analytics will support development of analytical tools, provide a structure for management of online educational and training media, and assist with software procurement such as the ability to access an external learning collaborative to promote available trainings and best practices.

Data collection and reporting - There is a need to connect partners within the PPS for the purpose of developing standardized workforce training requirements. AHEC will work with IT and Performance Reporting workstreams to identify and develop a workforce training program focused on enhancing cultural competency and health literacy, and delivery methods that adapt to the PPS' wide geographical footprint.

Learning collaborative - The ability to connect partners within LCHP and contiguous PPS' will encourage the use of existing best-practices and the sharing of training materials, eliminating the need to re-create curricula. We will explore ways to collaborate with other PPSs to leverage common training needs and curricula. The AHECs are pursuing outside funding opportunities to further develop a digital platform through Health Workforce New York (HWNY) that could serve as the framework for a learning collaborative that would support access on a PPS, regional, and statewide level.

Training - LCHP leadership will work with IT to assess partner capability for tracking training progress (who's been trained/retrained, etc.) and reporting to MAPPS. Training programs will be developed based on outcome of CNA and other key data analyses.

#### IPQR Module 4.8 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

Annual review of the Community Needs Assessment will inform continued prioritization of target populations, and will assist in defining effectiveness of initiatives. When combined with specific Program metrics for target populations will further identify effectiveness of specific activities such as patient engagement and cultural support. Communication and information sharing with CBOs will afford opportunities to more effectively understand the extent to which initiatives have been successful.

Additionally, we will track the number of clinicians and staff educated in cultural competency principles, and obtain feedback regarding the practical application of what they learned.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

We will clearly identify and elaborate potential impacts of risks--mitigate by developing Risk & Mitigation Strategy documents. Risks to successful implementation include the following (mitigation strategies for each identified risk to include established Governance reporting and Change Control procedures):

- RHIO/SHIN-NY timelines
- Disparate IT systems being used by partners
- partner cost constraints to purchase needed technology or connect to RHIOs
- Lack of partner understanding of change management needs/requirements of the PPS
- Compliance with data security policies

In order to facilitate seamless communication and information sharing among Partners, certain IT core functions would be consolidated and delivered in a Software-as-a-Service/Platform-as-a-Service (SaaS/PaaS) model. This allows Partners to reduce redundancy among staff, hardware, and software while providing consistent capabilities to all Partners on the network. Some of these more common services could be: -- Domain name(s), public website, e-mail, Electronic Medical Record, --Extranet for sharing information, --Basic administrative – GL, AP, Payroll, -- Revenue Cycle – contract management, adjudication, Payment allocation, bonus calculation and distribution, --Learning Management System, -- Health Information Exchange, --Metrics accumulation and reporting tools, --Population health analytics tools, --Care Coordination software, -- Breach Insurance (form LLC to overcome)

Most if not all of these tools are already present in various forms around the system. The challenge will be to create a strategy for identifying standards and performing the necessary work for switching all participants to a common platform and then executing according to a schedule in such a way that operational disruption is kept to a minimum. Decisions will need to be made around conversion of legacy data; preservation of existing systems; which systems can go to the cloud vs. being premise-based; identifying staff, hardware and license redundancies; making necessary changes to the wide-area network architecture; updating hardware, server and database platforms as indicated and much, much more. A project of this size and scope can easily span multiple years depending on the level of integration currently in existence.

LCHP will transform its service from a dispersed constellation of unconnected providers into an integrated delivery system providing high quality, responsive, appropriate and cost-effective care to its members. Care will be provided using a population-based health management approach, made possible by an interconnected and integrated data-sharing platform. Ensuring this collaboration and efficiency will impact LCHP Partners and potentially their operations, requiring tight planning factoring in workstream interdependencies, and oversight.

In order to avoid these risks, early and regular communication with IT professionals among PPS partners is essential. These communications will inform the change management strategy that is being developed, which, in turn, will address issues such as disparate IT systems being used by partners and how to move forward to a consistent or interoperable platforms. In situations where partner cost constraints challenge a partner's ability to purchase needed technology, explore data and IT platform sharing opportunities.

#### IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The PMO (Project Management Office)--DSRIP Operations Team, will depend on IT to set up and provide base-level support for products such as SharePoint for collaboration and Project Server to track large projects as well as custom reporting on progress, budgets, external dependencies, etc.

LCHP will ensure care quality and coordination using federally- and state-compliant data-sharing plans. To ensure that LCHP's PPS partners act in unison to safeguard data privacy and security, and to uphold all regulatory requirements including HIPAA privacy provisions, the LCHP has established the Information Technology and Data Analytics Committee (ITDAC). The ITDAC will finalize a data sharing plan to describe consent and change management approaches; incorporate federally- and state-compliant usage agreements; develop diverse data-sharing methods to ensure interconnectivity while guarding data security; outline processes for monitoring compliance with pertinent regulations and channels for implementing corrective action when necessary; and implement a consistent and universal data privacy and security training program.

To ensure privacy and security, all LCHP partners will uniformly use Business Associate and Data Use Agreements, which the ITDAC will finalize and oversee. LCHP will conduct an IT security audit to evaluation and mitigate risks. As LCHP will bring together diverse organizations and a diverse workforce, training will be necessary to ensure data privacy, security and universal adherence to HIPAA privacy provisions across LCHP.

LCHP will leverage diverse resources to ensure interconnectivity, enabling real-time sharing of relevant information to support efficient and effective patient care while meeting all security and privacy standards. Since it is unlikely that any single method of data-sharing will suffice for the diverse needs of LCHP, multiple methods will be used to coordinate patient care across the LCHP network and to ensure HIPAA privacy.

LCHP will explore a number of strategies including health information exchanges (HIEs) and HIE interconnections (leveraging the regional SHIN-NY/RHIO); direct messaging using Meaningful Use (MU)-compliant electronic health records (EHRs) and health standards profiles to share data with partners who do not have EMR/fax capability; a service bureau to provide EMR access to providers currently using paper records or non-MU certified products that preclude data sharing; data warehousing; an enterprise master patient indexing system to share patient identifiers and records across disparate systems; and population health software to track medical and social needs. We will also accommodate state/federal regulations regarding which data can be shared and with whom (e.g., behavioral health data sharing with PCPs).

Working with the Project Management Office to implement and document authorized systems changes, LCHP will integrate a number of approaches to promote real-time data sharing through a comprehensive infrastructure including networked servers and easily controllable, user friendly data selection menus and navigation portals. To meet the goals of the targeted projects the infrastructure will be equipped to aggregate patient information from a diverse set of partner organizations including core performance measures reportable by all partners within DY 1.

Additional dependencies may include: - Finance, - Workforce, - Operational/Clinical stakeholder input. AHEC will work with IT and Performance Reporting workstreams to identify and develop a data collection process for workforce.

The IT function along with Governance, Change Control and the ITDAC is integral to support most of the related initiatives.

**✓ IPQR Module 5.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Telecommunications manager	Telecommunications manager (Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners)	Review data line contracts and order new service as necessary
Privacy Officer	Rob LaPolt, Privacy Officer (Bassett Medical Center--Lead Agency for LCHP)	Manage security/confidentiality program
Chief Medical Information Officer (CMIO)	Scott Cohen, MD, CMIO (Bassett Medical Center--Lead Agency for LCHP)	Oversight of IT and Data Analytics Committee activities; facilitate developing a plan for clinical interoperability
Network support/administration staff	Network Technology Division (Bassett Medical Center--Lead agency for LCHP)	Develop and execute data transfer testing plan
Systems analyst	Systems analyst (Bassett Medical Center--Lead agency for LCHP)	Create IT remediation plan based on test and inventory results
IT steering committee	ITDAC Members: Scott Cohen, Co-Chair Jack Sienkowicz, Co-Chair Amy Van Kampen Edward Marrayott Brian Miller Scott Groom Frank Tilke Robert Lapolt Michelle Sowich-Shanley Steve Klem	Develop change management process and achieve buy-in
Operations manager(s)	Operations manager(s) (Bassett Medical Center--Lead agency for LCHP)	Make indicated changes in existing policies and procedures to support new change management process
Network and database staff	Network Technology Division (Bassett Medical Center--Lead agency for LCHP)	Plan analysis and interoperability
Sub-committee of ITDAC plus other key stakeholders	ITDAC Subcommittee (Members not yet known)	HIE search and selection
PMO resources	PMO Resources to be assigned at time of project (Bassett Medical Center--Lead Agency for LCHP)	Manage HIE implementation and rollout
Technical staff	IT Technical staff (Bassett Medical Center--Lead agency for LCHP)	Execute HIE implementation and rollout

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Administrative support	Amy Van Kampen, Director Performance Metrics DSRIP (Bassett Medical Center--Lead Agency for LCHP)	Create and tabulate survey Poll partners for current security capabilities
Application development staff	Clinical Applications Group (Bassett Medical Center--Lead Agency for LCHP)	Create mobile signup application
Search and selection personnel	IT management (Bassett Medical Center--Lead Agency for LCHP)	Identify, obtain, and implement kiosk software for signups
Content-area experts	Clinical Subject Matter Experts within PPS	Create appropriate training modules in LMS for navigators
Security/confidentiality committee	ITDAC Subcommittee (Members not yet known)	Oversee security program
Network and security staff	Rob LaPolt - Privacy Officer (Bassett Medical Center--Lead Agency for LCHP)	Implement security/confidentiality plan
External agency	Not yet known	Audit security/confidentiality plan compliance and perform penetration testing, etc.
Fixed asset staff from finance	Accounting Departments of Partners	Supply hardware inventory list

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 5.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
PPS Project Teams	PPS Project Teams	Rely on IT work to accomplish project requirements
PPS Performance Reporting Committee	PPS Performance Reporting Committee	Rely on IT work to accomplish project requirements
Key roles within partners to be involved from a Governance and Operational perspective include: - CEO - CIO - CFO - CMIO - CNO - Data, infrastructure and security leads - RHIO contacts, etc	CEO, CIO, CFO, CMIO, etc.	IT Governance, change management, IT and data architecture, data security, confidentiality plan data exchange plans, risk management and progress reporting
<b>External Stakeholders</b>		
NYS DOH	Administration of DSRIP Program	Administration of DSRIP Program
RHIO/HIE Providers, NYS	RHIO/HIE Providers, NYS	Will be impacted by IT Connectivity Execution
NYS-OMH	Subject Matter Expert (SME) with regard to mental health regulations	Guidance to PPS with regard to regulatory oversight of mental health regulations
NYS-OASAS	Subject Matter Expert (SME) with regard alcohol and substance abuse regulations	Guidance to PPS with regard to regulatory oversight and HIPAA Compliance for alcohol and substance abuse
Medicaid Beneficiaries	TBD	Participate and provide feedback

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 5.7 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

Every initiative—whether a selected project or an Organizational workstream—will be managed by the DSRIP Operations Team using a sophisticated project management tool (e.g., Microsoft Project). Each sub-project will be structured to reflect Milestones and committed due dates for that project, for each Partner (in the case of the 11 Projects) or each "committee" (in the case of Organizational initiatives such as Financial Sustainability). The % Complete for each will be captured from the project management system data as part of regular progress reporting and rolled up into the DOH-specified progress reporting mechanism, using the performance reporting infrastructure and defined/standardized processes.

Progress reporting may include:

- Tracking of IT Strategic Plan including workforce alignment and training, IT change strategy and IT budget
- Documentation of process and workflow demonstrating implementation of electronic health records across all partners
- Meaningful Use (MU) and PCMH level-3 tracking
- Documentation of patient engagement/communication system
- Evidence of use of telemedicine or other remote monitoring services
- Evidence of implementation of specific clinical workflows

#### IPQR Module 5.8 - IA Monitoring

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Definition of metrics will first require agreement among Partners on how each metric is to be defined for each project, then a current state analysis of existing metrics/data elements and definition of gaps to realize metrics capture. There is a dependency on vendors' ability to enhance their systems timely, so manually providing metrics will be necessary in the meantime.

Unfamiliarity and complexity of data definitions from different data sources. Mitigation: Data Governance to define common terms and assure that data is mapped consistently.

Risk of varying utility of different data sets from a complex network of partners/providers. Mitigation: Data Governance to define common terms and assure that data is validated and mapped consistently.

Risk of cultural and communication variety among data source providers. Mitigation: Data Governance to assure that common data elements are mapped consistently and defined appropriately.

#### IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

There is a dependency on IT Systems and Processes to design and construct a reporting database, and to identify/implement a Learning Management System for training on metrics. These dependencies impact implementation timing, so collaborative/interdependent workplans will be developed to manage the effort.

This initiative will rely heavily on the ability to collect data from a variety of disparate sources, normalize it, report off of it. This will be dependent on the network choosing a single reporting platform and using data governance principles to ensure consistency. Will also need to include data definitions, data ownership, metrics and related calculations. The latter will need to reflect metric data elements that are agreed-upon by PPS partners, and accommodated in each partner's respective vendor system. These data elements either already exist, or will need to be added, per a current state/gap analysis.

Performance reporting is dependent on Governance, IT Systems, Workforce, Practitioner Engagement and Finance/Budget to succeed. Effective governance will be required to ensure the consistent reporting of metrics by partners. IT Systems development will be a critical milestone of the

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

ability of partners to report in an efficient and effective manner. Practitioners will need to be engaged in the project work and appropriately utilize prescribed methods of clinical data capture to ensure ability of partners to successfully report on meeting requirements. Finally, Finance and Budget will have a substantial impact on funds flow model which will, in turn, affect partner's ability to obtain required reporting systems.

AHEC will work with IT and Performance Reporting workstreams to identify and develop a data collection process for workforce. AHEC will also support development of training curriculum and competency for performance reporting.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 6.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Network and database staff	Network and database staff (Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners)	Data Analysis and planning; Analyze quality indicator and performance metrics
DSRIP Operations Team resources (Bassett Medical Center--Lead Agency for LCHP (Leatherstocking Collaborative Health Partners)	Amy VanKampen, Director of Performance Metrics, DSRIP (Bassett Medical Center--Lead agency for LCHP)	"Oversight of project activities and of reporting process; Manage LMS (Learning Management System) implementation, course development and rollout; Develop and monitor LMS compliance by each Partner organization
Chief Medical Information Officer (CMIO)	Scott Cohen, MD (Bassett Medical Center--Lead Agency for LCHP)	Oversight of IT and Data Analytics Committee activities; facilitate developing a plan for clinical interoperability
Director, DSRIP Finance Operations	To be hired; in process of interviewing (Bassett Medical Center--Lead Agency for LCHP)	Leading finance committee and VBP task force through transition and direct oversight of financial sustainability plan

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 6.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Privacy Officer	Privacy Officer (in charge of IT security) - Rob Lapolt	Manage security/confidentiality program; Gatekeeper of PPS
PPS Project Teams	PPS Project Teams	Submit necessary documentation for performance reporting, working collaboratively with IT
PPS Clinical Performance Committee	PPS Performance Reporting	Identify performance reporting strategy for PPS in relationship to project requirements and organizational initiatives
Key roles within partners to be involved from a Governance and Operational perspective include: - CEO - CIO - CFO - CMIO - CNO - Data, infrastructure and security leads - RHIO contacts, etc	- CEO - CIO - CFO - CMIO - CNO - Data, infrastructure and security leads - RHIO contacts, etc	IT Governance, change management, IT and data architecture, data security, confidentiality plan data exchange plans, risk management and progress reporting
Partners	Data providers	Required reports consistent with metric definitions and data sources
Executive Governance Body of PPS	Oversight of VBP plan and compliance planning	Responsible for review of reporting and oversight of compliance and finance committee with regard to transition to VBP
<b>External Stakeholders</b>		
NYS DOH	Administration of DSRIP Program	Administration of DSRIP Program
Medicaid Beneficiaries (patients)	Service recipient	Participate and provide feedback
Managed Care Organizations (MCO)	Partner	Review of quality measures/metric reporting
Sub-committee of ITDAC plus other key stakeholders	ITDAC Subcommittee (Members not yet known)	Data gathering
Technical staff	Business Intelligence Department - (Bassett Medical Center--Lead agency for LCHP)	Develop reporting tools
DSRIP Committee Chairs	DSRIP Committee Chairs - all projects	Champion adoption and design of dashboards and score cards

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**✓ IPQR Module 6.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

LCHP will access metrics contained in the Medicaid Data Warehouse. Web-based performance dashboards will provide baseline performance data and data by region. LCHP will collect and incorporate into its monthly performance monitoring qualitative feedback obtained from consumers and the community through the LCHP website, the Consumer Subcommittee, the compliance hotline, town hall meetings, letters and phone calls. We will work with IT to define and develop clear expectation and rules for appropriate dissemination and collection of reporting data (performance, progress, actively engaged patients).

**✓ IPQR Module 6.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Every initiative—whether a selected project or an Organizational workstream—will be managed by the DSRIP Operations Team using a sophisticated project management tool (e.g., Microsoft Project). Each sub-project will be structured to reflect Milestones and committed due dates for that project, for each Partner (in the case of the 11 Projects) or each "committee" (in the case of Organizational initiatives such as Financial Sustainability). The % Complete for each will be captured from the project management system data as part of regular progress reporting and rolled up into the DOH-specified progress reporting mechanism, using the performance reporting infrastructure and defined/standardized processes.

Progress reporting of the Performance Reporting workstream will involve establishment of timelines and milestones and reporting against them.

**IPQR Module 6.9 - IA Monitoring**

**Instructions :**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**Section 07 – Practitioner Engagement**

**IPQR Module 7.1 - Prescribed Milestones**

**Instructions :**

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Develop Practitioners communication and engagement plan.	In Progress	Practitioner communication and engagement plan. This should include: -- Your plans for creating PPS-wide professional groups / communities and their role in the PPS structure -- The development of standard performance reports to professional groups --The identification of profession / peer-group representatives for relevant governing bodies, including (but not limited to) Clinical Quality Committee	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	NO
<b>Task</b> 1. Share DSRIP introduction presentation with stakeholders throughout PPS	Completed	Task completed	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 2. Identify physician/provider stakeholders in PPS to engage in Clinical Quality Committee (a.k.a. Clinical Performance Committee)	Completed	Task completed	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 3. Ensure appropriate practitioner/clinician involvement in committees including, but not limited to, Clinical Performance Committee (e.g., Governance, Compliance, PAC, Workforce, ITDAC)	In Progress	Task in Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
<b>Task</b> 4. In development of internal and external communication plans, dedicate a portion of plan to physician/clinical engagement	In Progress	Task in Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Key stakeholder engagement & buy in; to mitigate this risk, the PMO office will continue to engage practitioners in implementation planning, outcomes, metrics and other deliverables.

Rural nature of LCHP PPS limits ability for in-person training/education; can utilize alternative delivery options such as WebEx and other remote technologies. Need to ensure a communication plan that is effectively tailored to reach key stakeholders (i.e., in person, e-mail, webex, etc.) that incorporate geographic limitations within the plan.

Culture shift with the conversion to protocols; to mitigate this risk, we'll ensure key practitioner engagement in evidence-based practices from the onset to build consensus. The rural nature of the PPS can influence the practitioner's sense of engagement in the project and management of outcomes. This can be mitigated through direct outreach to practitioner groups by LCHP and project leadership, peer sharing of best practices through printed and online newsletters. The funds flow model is being designed to recognize direct practitioner engagement.

Competing priorities continue to be an issue; to more effectively manage these concerns, we will seek to streamline communication in the most effective manner possible.

#### IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Practitioner engagement will be closely intertwined with many other workstreams. These include Clinical Integration, Population Health Management (working to improve the health of the population through culture change and a shift in thinking from fee-for-service to value-based reimbursement), Financial Sustainability (change in workflows= near term reduction in productivity; time away from clinic for requisite training=lower volumes/less money; shift to value-based reimbursement from fee-for service model); Cultural Competency and Health Literacy (practitioner engagement required to cultivate a transformation in the approach to healthcare delivery).

While not major dependencies, under IT Systems & Processes we state an intent to acquire an automated survey instrument and a Learning Management system. Both of these will allow aspects of the Provider Engagement Strategy to be executed more quickly and efficiently. The need to incorporate monitoring mechanisms is dependent upon development of the Performance Reporting tools and technologies.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 7.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Chairs of Clinical Performance Committee	Steven Heneghan MD, Chief Medical Officer - Bassett Medical Center (Lead Agency for LCHP (Leatherstocking Collaborative Health Partners) and Partners)	Track Performance Metrics, Report to EGB (Executive Governance Body)
Chief Medical Information Officer	Scott Cohen MD, - Bassett Medical Center (Lead Agency for LCHP (Leatherstocking Collaborative Health Partners) and Partners)	Chair of Practitioner Engagement Subcommittee of clinical performance committee
Hospitalist - Community Memorial	Robert DeLorme, MD, Community Memorial Hosp (Partner organization)	Prospective co-chair of Clinical Performance Committee
Chairs of Project Committees	Bassett Medical Center (Lead Agency for LCHP)	Training, Education, Practitioner Engagement
DSRIP Operations Manager	Bassett Medical Center (Lead Agency for LCHP)	Coordinate and facilitate Clinical Performance Committee activities
Senior Director of Care Coordination	Bassett Medical Center (Lead Agency for LCHP)	Coordinate and facilitate Clinical Coordination activities
Director of PPS Partner and Patient Engagement	Bassett Medical Center (Lead Agency for LCHP)	Communication, Practitioner Engagement
Executive Governance Body (EGB)	Bassett Medical Center (Lead Agency for LCHP)	Oversight of Practitioner Engagement
DSRIP Clinical Director	James Anderson, PhD, Bassett Medical Center (Lead Agency for LCHP)	Engage practitioners including Behavioral Health, Primary Care, etc along with appropriate LGUs

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 7.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Members of PPS Medical Staff	Healthcare practitioners	Achieve Metrics and Milestones in relation to projects they are involved in; engage in standardized protocol development across PPS
Jennie Gliha, VP HR, AO Fox, Zoe Aponte, Catskill Area Hospice, Susan Cipolla, HR Director, Catholic Charities, Richard Diodati, HR Director, Sitrin, Pam Levy, Director, Catskill Center for Independence, George Seuss, CEO ARC of Delaware County, Megan Staring, Asst. Director, Catskill Center for Independence, Cynthia Sternard, HR Community Memorial Hospital"	Workforce Committee	A group of cross-functional resources (e.g., WF PM, HR, DSRIP lead, Union representative) responsible for overall direction, guidance and decisions related to the workforce transformation agenda
IT and Data Analytics Committee	Provision of data and information to enable practitioners to complete their goals and objectives	Develop change management process and achieve buy-in; Availability of information in a timely way and in the desired format.
Community Based Organizations	Training, navigation, developing resources available across PPS; providing support services in hard to reach populations and geographic areas	Develop and conduct training programs to educate on protocols and other provider-related care delivery methods
<b>External Stakeholders</b>		
AHEC	Workforce consultant	Utilize proven methods of training for curriculum development/distance learning
NYS DOH	Statement of principles of DSRIP Program	Monitor DSRIP requirements
Medicaid Beneficiaries	Consumers of care	Membership on PAC, participate in focus groups and feedback on patient satisfaction

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 7.7 - IT Expectations

##### Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The shared IT infrastructure is a necessary ingredient for practitioner engagement. Practitioners will need access to clinical and operational information to conduct their work. This will facilitate the implementation of agreed-upon clinical protocols, the mining of the clinical database to identify desired groups of patients, and the implementation of tactics and strategies to support population health management and attention to particular patient care requirements. Clinical information will be accessed via existing EMR systems and their associated data sharing capability (e.g., Epic CareLink). State-based information exchanges such as HIX-NY and SHIN-NY will be critical for practitioners to share information and be fully engaged in the care transformation process.

#### IPQR Module 7.8 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

By enhancing proven methods of practitioner engagement (functional committees, meetings, individual meetings) and developing the Clinical Performance Committee, the PPS will measure the level of practitioner participation in this initiative. It is expected that in areas such as protocol development, interface with organizational committees (e.g., ITDAC, Workforce, EGB) and feedback with respect to performance improvement opportunities there will be ample opportunity to measure and report on practitioner engagement.

#### IPQR Module 7.9 - IA Monitoring

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

Implementation of this plan may require significant infusion of capital to meet the information technology requirements. Should that be the case, every effort will be made to identify sources of capital with no guarantee that such will be available.

Accomplish a major culture shift in terms of the provision of health care services; to mitigate this risk, the PPS will engage a proven health care consultant and will utilize education and orientation programs for all personnel to understand and adopt important population health approaches. The widespread and rural geography of the PPS make it more difficult to actively engage all partners to the degree necessary to transform population health delivery methods. To mitigate this risk, outreach by LCHP leadership will be critical in achieving this culture shift. Socioeconomic factors within the PPS (e.g., financial means, obesity, educational status) increase the difficulty of directly affecting outcomes. To mitigate this risk we will collaborate with the PHIP, CBOs, social service agencies to educate providers (challenged by reduced provider availability within the PPS).

Health care leaders are disinclined to reduce beds in practice and/or on operating certificates; to mitigate this risk, the PPS will embrace formal expense management processes to ensure underutilized resources, such as inpatient beds, are reduced in scale. Of note, through the development and evolution of the Bassett Healthcare Network, a significant "right-sizing" of inpatient capacity was undertaken. This resulted in the reduction of a significant number of beds, as well as the closure of a hospital.

Achievement of 90% VBP by DY5; to mitigate this risk, the PPS will develop a formal EGB-approved plan outlining the specific actions and requirements to transition to this new model of reimbursement. Accountability will be established and every effort will be made to adhere to the tenets of the plan. There is significant risk in this with respect to a potential willingness of third-party payers to negotiate an equitable transformation to a value-based reimbursement model. Support from the DOH and other forces will be critical to a successful transformation.

#### IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

In order to successfully achieve a workable level of clinical integration across such a large system, HIE (Health Information Exchange) capabilities are a requirement for each partner. This ties closely with other integration needs, and should be designed accordingly with connectivity infrastructure initiatives.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

The Workforce Committee will be a key stakeholder in the success of this initiative, ensuring there are adequate staff trained to do this work. Clinical Performance Committee will take a lead role in this initiative to ensure effective measurement and tracking of progress towards clinical integration.

Clinical leadership will ensure Practitioner Engagement as a necessary ingredient for buy-in to the enhanced model of care. With practitioner engagement, there will be a powerful and effective impact on other members of the PPS network in order to complete the culture shift necessary for successful adaptation.

Finance prioritization will be required to support the PPS in engaging in this work.

Implementation of the Population Health Management strategy is highly dependent upon the utilization of several IT programs and specialized personnel. The implementation of resources should be co-incident with the development and implementation of Population Health Management processes, procedures, workflows and workforce.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 8.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Executive Director, DSRIP	Susan van der Sommen, Bassett Medical Center (Lead Agency for LCHP--Leatherstocking Collaborative Health Partners)	Leading initiative; culture change
LCHP Operations Team	Bassett Medical Center (Lead Agency for LCHP)	Leading initiative; culture change
Director, PPS Partner & Patient Engagement	Susan van der Sommen, Exec Dir fulfilling this role until hired Bassett Medical Center (Lead Agency for LCHP)	Education, organization, leadership of initiative
County Health Departments	PPS counties - Otsego, Schoharie, Delaware, Herkimer & Madison	Partner with PPS entities to actualize key components of the total population health management plan
Research Department	John May, MD Bassett Medical Center (Lead Agency for LCHP)	CNA development; population health management specialists
Executive Governance Body	Bassett Medical Center (Lead Agency for LCHP)	Oversight of implementation/metrics/ measurement

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 8.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Clinical Performance Committee	PPS	Lead initiative; facilitate culture change
David Haswell, Martha Sunkenberg , Lisa Betrus , Christa Serafin, Laurie Neander , Carlton Rule, Ann Hutchison, Stephanie Lao, Deanna Charles, Ann Hutchison, Bonnie Post, Stephanie Lao, Deanna Charles, Celeste Johns, Marietta Taylor, Joseph Sellers, Mike Kettle , Chris Kjolhede, Philip Heavner, Jean Schifano, Connie Jastremski, Marion Mossman, Roy Korn, Norine Hodges	PPS Project Chairs	Incorporate principles of population health management in project activities
Community Based Organizations	Provide education to communities in general and medicaid beneficiaries in particular; providing support services in hard to reach populations and geographic areas	Engage community members/Medicaid recipients in population health management initiatives
Project Advisory Committee	Community Engagement and advisor to Executive Governance Body; Voice of Medicaid Recipients	Engage community members/Medicaid recipients in population health management initiatives
John May, MD - PHIP	Research	Collaborator on population health efforts
<b>External Stakeholders</b>		
Geisinger	Consultant	Lead initiative; facilitate culture change; model best practices
MCOs	Insurance	Assist in development of VBP model
NYS DOH	State-wide organization	Guidance and support in affecting the transformation
Medicaid Beneficiaries	Consumers of care	Membership on PAC, participate in focus groups and feedback on patient satisfaction

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 8.7 - IT Expectations

##### Instructions :

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

The shared IT infrastructure is a necessary ingredient for total population health management. Practitioners, PPS partners, organizational leaders and other key stakeholders will need access to clinical and operational information to conduct their work. This will facilitate implementing agreed-upon clinical protocols, dashboard metrics and milestones, mining of the clinical database to identify desired groups of patients, and implementation of tactics and strategies to support population health management and attention to prevention, screening, early detection, and timely intervention for disease processes.

This initiative underscores the need for a population health management analytic system, that includes predictive analytic for a variety of data markers. Such systems are commercially available.

#### IPQR Module 8.8 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

A comprehensive set of dashboard measures will be identified and utilized in operational activities and project implementation. These measures will give testimony to the speed with which a culture of total population health management becomes embedded in the PPS structure. This information will be incorporated into the formal communication plan that governs information flow throughout the PPS. Further, through the availability of these continuous assessments, strategies will be adopted to ensure the assimilation of key principles in care delivery.

Reference will be made to numerous metrics which will assist in the evaluation of the success of the total population health management strategy. These measures will be identified through third-party payer relationships, reference to HEDIS, identifying and measuring successful outcomes based on patient stratification, metrics identified from public health agencies, Upstate Health and Wellness Survey, Smoking Cessation enrollment and successful outcomes, as well as reports received from the 11 project teams. The goal will be to track measures relating to the effectiveness of steps taken to improve the health of the population. Some examples of key population health metrics include # of patients who received tobacco cessation counseling; # of patients who are identified who are assigned to a PCP who keep their appointments; # of patients who go through SBIRT screening who are referred for treatment and keep the follow up appointment.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

#### IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Obtaining buy-in and support from clinicians and other key stakeholders, which in turn could impact DSRIP project success. To mitigate this risk, it will be important to engage key clinical staff, partners and other key stakeholders in the early stages of development. To the extent possible, a consensus approach will be taken in the implementation of these key tactics and strategies.

Funding of external consultant will be required. This will be included in the project management budget for consideration.

Funding for EHR interoperability is a barrier. Funding from CRFP has been requested. Awaiting determination from the State.

There are competing workloads and priorities. A culture shift will be required to ensure success in this project. To mitigate this risk, we'll engage an external consultant (as funding permits) and the Director of PPS Partner & Patient Engagement to assist in this work. Continuous communication with administrative and clinical leadership with respect to the required prioritization will be required for this initiative to proceed.

With respect to inadequate or unprepared workforce, we will collaborate with neighboring PPSs in our region to strive for equitable access for hard-to-recruit positions among PPSs, collaborate among projects for effective use of resources, redeployment and retraining strategies as indicated in Workforce Strategy Section.

Clinical Integration for the purpose of this effort is defined as coordination of care across a continuum of services, settings and partners to optimize the care delivery system through interoperability, access, and patient and practitioner engagement.

Clinical integration is needed to facilitate the coordination of patient care across conditions, providers, settings, and time in order to achieve care that is safe, timely, effective, efficient, equitable, and patient-centered.

#### IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

In order to successfully achieve a workable level of clinical integration across such a large system, HIE (Health Information Exchange) capabilities are a requirement for each partner. This ties closely with other integration needs, and should be designed accordingly with connectivity infrastructure initiatives.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Bassett Medical Center (PPS ID:22)

Workforce Committee will be a key stakeholder in the success of this initiative, ensuring there are adequate staff trained to do this work. Clinical Performance Committee will take a lead role in this initiative to ensure effective measurement and tracking of progress towards clinical integration.

Clinical leadership will ensure practitioner engagement as a necessary ingredient for buy-in to the enhanced model of care. With practitioner engagement, there will be a powerful and effective impact on other members of the PPS network in order to complete the culture shift necessary for successful adaptation.

Finance prioritization will be required to support the PPS in engaging in this work.

Clinical Integration workplan will include a reference to the need to address cultural competency and health literacy for all patient referral processes utilizing navigation and care coordination across the care continuum. This will be done in a patient centered manner addressing the need for each individual patient.

An important enabler of Clinical Integration is EHR integration across the PPS. While the proposed HIE strategy will transport data from one system to another, for that data to be meaningful to the receiving clinician, individual partners will need to adopt a common/consistent clinical terminology and standardize their collection of clinical data. These decisions then need to be reflected in the design and setup of the individual partners' EHRs in order to improve the usefulness of data shared between and among partners.

All Partner types - Hospitals, Skilled Nursing Facilities, Home Care Entity, CBOs, etc.	Partners	Participation and collaboration of protocol development, use of best practices, etc.
Navigators and Care Coordinators	Link patients to healthcare services efficiently	Institutionalized care coordination and navigation
Training personnel	Ensure consistent training across providers	Deliver training programs to assure clinical competency per defined protocols
<b>External Stakeholders</b>		
Geisinger (IDS Consultant)	Consultant	Lead initiative; facilitate culture change; model best practices
Medicaid Beneficiaries and their families	Consumers of care	Membership on PAC, participate in focus groups and feedback on patient satisfaction

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**IPQR Module 9.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Clinical integration would not be possible without IT systems integration across the PPS, reflecting results of the assessments done within this workstream. LCHP members will need to share clinical and non-clinical patient data and information in order to integrate care across the continuum of patient access. All partners will have access to information and reports based on their structures and roles in patient care.

Clinical information will be accessed via existing EMR systems and their associated data sharing capability (e.g., Epic CareLink). State-based information exchanges such as HIX-NY and SHIN-NY will be critical for practitioners to share information and be fully engaged in the care transformation process.

**IPQR Module 9.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

A master project management tool will be utilized to monitor the progress of this initiative. The master document will consist of various subsets required for the success - for e.g., workforce development, EHR capabilities, and adoption of clinical integration strategies . Key performance indicators will be identified and monitored. These will include milestones for projects, identification of obstacles and resolutions of such, points of interdependencies with other LCHP (Leatherstocking Collaborative Health Partners) entities, etc.

**IPQR Module 9.9 - IA Monitoring:**

**Instructions :**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**Section 10 – General Project Reporting**

**IPQR Module 10.1 - Overall approach to implementation**

**Instructions :**

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

Leatherstocking Collaborative Health Partner's (LCHP) approach to implementation planning has been to engage partners in high level and detailed planning sessions. These sessions include developing common tasks for each project's requirements, with expected completion dates adjusted as needed by individual partners.

Committee-level project planning has been a highly collaborative effort among different projects, Finance, IT and Data Analytics, Workforce and Performance Reporting Committees; to identify overlapping resource needs, ensure effective use of resources/funds and achieve economies of scale. Project planning and execution workgroups have also involved affected stakeholders to ensure realistic goals and commitments. To assist this effort, tools and templates were developed to facilitate these workgroup sessions, then project plans were developed for review by interested stakeholders.

Throughout this effort, and continuing through subsequent detailed planning and execution, the DSRIP Operations Team has facilitated meetings, and has ensured continuity, objectivity and convergence. The Operations Team has also assisted in identifying areas of potential project overlap, such as staffing, to enable collaboration among projects and partners to reduce cost and achieve continuity and consistency of project operations.

A Project management tool for all projects will be used by the DSRIP Operations Team, to ensure tracking of tasks to complete project requirements/milestones/delivrables, assign start/end dates and resource responsibility for each task. This allows for resource leveling and tracking of task interdependencies, and also enables consistent collection of data for project progress reporting. The intention is for each organization to report on their own progress in a web-based type tool, and for this tool to also be used to collect artifacts as supporting documentation. The Project management tool will also be used to track tasks in the Organizational Section projects to ensure consistent reporting and data collection.

The Project management tool will be used to track Risks and Issues affecting project completion, ensuring each has an owner and documented results/mitigation.

The DSRIP Operations Team will prepare PPS-level status and performance reporting to EGB (Executive Governance Body for PPS)

**IPQR Module 10.2 - Major dependencies between work streams and coordination of projects**

**Instructions :**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

There is direct collaboration and engagement among projects, Finance, IT and Data Analytics, Workforce and Performance Reporting Committees; to identify overlapping resource needs, ensure effective use of resources/funds and achieve economies of scale. The Operations Team has also assisted in identifying areas of potential project overlap, such as staffing, to enable collaboration among projects and partners to reduce cost and achieve continuity and consistency of project operations and avoid duplication of costs/effort.

This collaborative effort will identify where IT supporting infrastructure needs exist, and to mitigate financial burden on individual partners where possible. Standardization of data collected and monitored will ensure effective and consistent patient care delivery and transformation as well as enable consistent outcomes reporting among partners. This will also identify where unique partner-specific needs exist to ensure adequate resources are planned for.

**IPQR Module 10.3 - Project Roles and Responsibilities**

**Instructions :**

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Executive Director, DSRIP	Susan van der Sommen, Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners	Lead initiative; oversee projects
Senior Director, Care Coordination	Donna Anderson, Bassett Medical Center-Lead Agency for LCHP	Expertise in care coordination and transitions; culture change; leading initiative
DSRIP Project Management Office	Bassett Medical Center, Lead Agency for LCHP	Lead initiative; facilitate culture change
Director, DSRIP Performance Metrics	Amy Van Kampen, Bassett Medical Center, Lead Agency for LCHP	Expertise in data management and reporting
Director, PPS Partner & Patient Engagement	Vacant - to be appointed - Bassett Medical Center-Lead Agency for LCHP	Education, organization, lead initiative
Network Director, DSRIP Operations	Tom Manion, Bassett Medical Center-Lead Agency for LCHP	Oversight of DSRIP Office operations for all projects
Director, LCHP Financial Management	Recruiting - Bassett Medical Center-Lead Agency for LCHP	Expertise in and oversight for finance and accounting
Chief Clinical Officer	Steven Heneghan, MD Bassett Medical Center-Lead Agency for LCHP	Lead initiative; facilitate culture change
Chief Operating Officer	Vacant - Recruiting - Bassett Medical Center-Lead Agency for LCHP	Lead initiative; facilitate culture change
Chief Financial Officer	Michael Taegeres, Bassett Medical Center-Lead Agency for LCHP	Lead initiative; facilitate culture change

**IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects**

**Instructions :**

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
LCHP Project Teams (10 teams for 11 projects)	Plan and implement project milestones, engage partners involved in planning and deliver on the requirements	Project Implementation Plan and execution; direct team towards progress of projects
LCHP Finance Committee	Develop mechanism for distribution of funds; achieve 90% value-based payments	Completion of financial sections of Implementation Plan; Funds Flow and Distribution Model; Build financial structure for PPS; plan to achieve 90% value-based payment; Execute the above
LCHP Clinical Performance Committee	Ensure meeting clinical quality standards	Engage in project team meetings to ensure clinical quality
IT and Data Analytics Committee	Ensure interoperability of EHR	Completion of IT and Performance Reporting sections of Implementation Plan; Engage in projects with stakeholders to accomplish plan, oversee technology infrastructure, and metric/reporting processes
LCHP PAC	Act as an advisory to the Executive Governance Body (EGB)	Ensure broad participation of partners in an advisory role; Assess project impact on the community
LCHP Operations Team	Coordinate, facilitate, guide and assist in implementation, communication, reporting, and administration of DSRIP-related activities	Liaison among projects, partners and State; Receive, interpret, and communicate information from State; Development of processes and tools to facilitate partner accountability; Provide LCHP leadership with program progress reporting; Evaluate usage of overlapping resources/funds/training/ expertise, etc., throughout the evolution and transformation of the DSRIP program
<b>External Stakeholders</b>

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**Project 2.a.ii – Increase certification of primary care practitioners with PCMH certification and/or Advanced Primary Care Models (as developed under the NYS Health Innovation Plan (SHIP))**

**✓ IPQR Module 2.a.ii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: Participating providers in PPS meet NCQA 2014 Level 3.1 partner converting EMR during PCMH implementation period places high demands on staff resources and creates barriers for data reporting  
Mitigation: Consultant support for partners/detailed plans for implementation and reporting needs/added staff resources  
Risk: Clinical Interoperability w/varying EHRs  
Mitigation: EHR connectivity is not present across PPS. LCHP Ops Team will work w/partners as DSRIP projects rely on EHR systems & other technical platforms to track patient engagement  
Risk: Identify Physician champions & attain CCE (certified content expert) status due to limited frequency & high demand for NCQA training/exams  
Mitigation: LCHP will use APCs in addition to MDs as champions  
Risk: Lack of RNs in workforce w/ambulatory experience  
Mitigation: A workforce impact consultant is engaged with LCHP to employ creative workforce strategies. The PPS will leverage Bassett's relationship with local colleges to create programs necessary to serve population. Utilizing expertise of the consultant, AHEC and the Collaborative Learning Committee, online and in-person training will be offered to retrain existing employees. Economies of scale will be implemented when training staff across the PPS. RNs will be hired without care coordination and other necessary experience. LCHP will work with AHEC on strategies to identify, attract and successfully recruit experienced RNs. All RN Care Managers will be trained with the intent to become certified  
Risk: Partner Engagement  
Mitigation: A non-safety net LCHP Partner has not been engaged in planning projects due to lack of designated resources to engage in planning and execution. LCHP Ops Team will reach out to partners who are deemed essential, and complete a funds flow model to better inform their involvement. Regular updates to partners through email, project and all partner meetings, and utilization of tools such as website, Constant Contact, survey tools and Health Workforce NY are some strategies used currently. The non-safety net provider sent representation to the PCMH kick off meeting in late July. All providers engaged in this project will work with the PCMH consultants on individualized plans to achieve NCQA recognition  
Risk: EHR meeting connectivity to RHIOs HIE and SHIN-NY requirements on time is contingent on SHIN-NY activation date  
Mitigation: If SHIN-NY activation's timeline varies from our commitment, we will not be able to meet this metric. LCHP will work on alternate possibilities such as plan modification to our strategy to accommodate any change in SHIN-NY roll-out timeline. For agencies without an EHR, the LCHP ITDAC will offer its expertise, with focus on standardization. For project participants who do not currently submit patient-level data to HIXNY or other RHIO, the ITDAC will share expertise with appropriate partners in joining RHIOs  
Risk: Negotiating contracts with MCOs for services not reimbursed/under-reimbursed  
Mitigation: To negotiate contracts with MCOs, there will be a need to combine efforts across LCHP PPS and with other PPSs to strengthen and consolidate the message and make patient care in DSRIP projects sustainable. NCQA recognition will be used to leverage MCOs when negotiating reimbursement  
Risk: Practitioner Engagement  
Mitigation: LCHP has identified an overall risk of individual practitioners not being committed to the DSRIP activities. A comprehensive practitioner communication and engagement plan will be created by the Clinical Performance Committee to engage practitioners. This committee will have representation of different types of practitioners. LCHP will leverage existing gatherings of practitioners within partners such as Primary Care Council, Regional Medical Director Group and CLG as models for clinical integration and practitioner engagement in creating PPS-wide professional groups

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #4</b> Ensure all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	Project	N/A	In Progress	07/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Primary Care Physicians	In Progress	07/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> PPS uses alerts and secure messaging functionality.	Project		In Progress	07/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 1. Obtain RHIO Attestation of connectivity	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 2. Report (e.g., from Business Intelligence or Meaningful Use team) to show evidence of active sharing HIE info - transaction info, e.g., of public health registries - NYSIS, lab to DOH for infectious conditions, etc.	Project		In Progress	04/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 3. Obtain QE (Qualified Entity) participant agreements	Project		In Progress	07/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 4. Identify use of alerts across PPS	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 5. Identify Best Practice alerts required for PCMH NCQA level 3	Project		In Progress	07/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 6. Work with IT to build any required alerts that don't yet exist	Project		In Progress	01/01/2016	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> 7. Obtain evidence from IT for use of alerts and secure messaging	Project		In Progress	10/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Milestone #5</b> Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Project	N/A	In Progress	07/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).	Project		In Progress	07/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	Provider	Safety Net Primary Care Physicians	In Progress	07/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> 1. Determine current status of Meaningful Use Stage 1/2 for each partner organization level	Project		In Progress	07/01/2015	12/31/2015	12/31/2015	DY1 Q3

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>Reporting Level</b>	<b>Provider Type</b>	<b>Status</b>	<b>Start Date</b>	<b>End Date</b>	<b>Quarter End Date</b>	<b>DSRIP Reporting Year and Quarter</b>
<b>Task</b> 2. Determine current PCMH stage of each partner EHR	Project		In Progress	07/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 3. Identify gaps in Meaningful Use and PCMH stages and required build	Project		In Progress	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> 4. Work with IT to build functionality that does not yet exist to meet MU and PCMH level 3 standard	Project		In Progress	04/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 5. Continue to monitor performance measures for meaningful use requirements	Project		In Progress	01/01/2017	12/31/2017	12/31/2017	DY3 Q3
<b>Milestone #6</b> Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Project	N/A	In Progress	10/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.	Project		In Progress	10/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> 1. Identify and implement vendor for population health management (e.g., Phytel, collaboration with PHIP)	Project		In Progress	10/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Milestone #7</b> Ensure that all staff are trained on PCMH or Advanced Primary Care models, including evidence-based preventive and chronic disease management.	Project	N/A	In Progress	07/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> Practice has adopted preventive and chronic care protocols aligned with national guidelines.	Project		In Progress	07/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> Project staff are trained on policies and procedures specific to evidence-based preventive and chronic disease management.	Provider	Primary Care Physicians	In Progress	01/01/2016	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 1. Share existing protocols and develop ones as appropriate	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 2. Share existing protocols with new sites, for chronic conditions and preventive screenings, utilization measures and vulnerable populations for the PPS	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 3. Perform gap analysis for what data needs are	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 4. Define metrics for reports (already defined by NCQA)	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b>	Project		In Progress	01/01/2016	06/30/2016	06/30/2016	DY2 Q1

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

<b>Project Requirements (Milestone/Task Name)</b>	<b>Reporting Level</b>	<b>Provider Type</b>	<b>Status</b>	<b>Start Date</b>	<b>End Date</b>	<b>Quarter End Date</b>	<b>DSRIP Reporting Year and Quarter</b>
5. Create reports to measure outcomes							
<b>Task</b> 6. Adjust workflows, etc. to meet desired outcomes	Project		In Progress	07/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 7. Create training-friendly documents - from the policies of procedures in the metric above	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 8. Identify the staff that needs this training	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 9. Build any training tools needed - online, for e.g.	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 10. Schedule training sessions, continuous for onboarding	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Milestone #8</b> Implement preventive care screening protocols including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) for all patients to identify unmet needs. A process is developed for assuring referral to appropriate care in a timely manner.	Project	N/A	In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> Preventive care screenings implemented among participating PCPs, including behavioral health screenings (PHQ-2 or 9, SBIRT).	Provider	Primary Care Physicians	In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Protocols and processes for referral to appropriate services are in place.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 1. Define which preventive screenings to use (include state's defined codes, as appropriate per practice type, as a minimum--99381-99387, 99391-99397)	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 2. Create a workflow for screenings	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 3. Train staff and providers on the workflow	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 4. Create workflow for referrals, based on a positive finding including a follow up	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 5. Train staff and providers on the workflow	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 6. Generate reports on referral monitoring (tracking report)	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Milestone #9</b> Implement open access scheduling in all primary care practices.	Project	N/A	In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> PCMH 1A Access During Office Hours scheduling to meet NCQA standards	Provider	Primary Care Physicians	In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>Reporting Level</b>	<b>Provider Type</b>	<b>Status</b>	<b>Start Date</b>	<b>End Date</b>	<b>Quarter End Date</b>	<b>DSRIP Reporting Year and Quarter</b>
established across all PPS primary care sites.							
<b>Task</b> PCMH 1B After Hours Access scheduling to meet NCQA standards established across all PPS primary care sites.	Provider	Primary Care Physicians	In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> PPS monitors and decreases no-show rate by at least 15%.	Provider	Primary Care Physicians	In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> 1. Identify scheduling standards as per NCQA requirements	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 2. Determine the scheduling tool used (Scheduling tool IDX for Bassett, PPM, MedEnt for CMH))	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
<b>Task</b> 3. Modify schedule	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 4. Implement schedule	Project		In Progress	04/01/2015	03/30/2016	03/31/2016	DY1 Q4
<b>Task</b> 5. Monitor schedule	Project		In Progress	01/01/2016	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> 6. Update marketing materials (brochures, websites etc) with updated hours	Project		In Progress	09/30/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 7. Identify scheduling standards as per NCQA requirements	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 8. Determine the scheduling tool used (Scheduling tool (IDX for Bassett, MedEd for CMH))	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
<b>Task</b> 9. Modify schedule	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 10. Implement schedule	Project		In Progress	04/01/2015	03/30/2016	03/31/2016	DY1 Q4
<b>Task</b> 11. Monitor schedule	Project		In Progress	01/01/2016	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> 12. Update marketing materials (brochures, websites etc) with updated hours	Project		In Progress	09/30/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 13. Create resources in place to see patients - staffing model	Project		In Progress	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 14. Baseline the no-show rate for medicaid patients	Project		In Progress	07/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 15. Determine what is "periodic" for the PPS	Project		In Progress	07/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 16. Monitor the change in rate	Project		In Progress	01/01/2016	12/31/2017	12/31/2017	DY3 Q3

**New York State Department Of Health

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Task</b> 17. Make changes - to reduce the % of no show rate e.g., train navigators to follow-up with chronic no-shows	Project		In Progress	01/01/2016	12/31/2017	12/31/2017	DY3 Q3

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
<b>Milestone #1</b> Ensure that all participating PCPs in the PPS meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.										
<b>Task</b> All practices meet NCQA 2014 Level 3 PCMH and/or APCM standards.	0	0	0	0	0	0	12	12	12	150
<b>Task</b> 1. Hold kick-off meeting to communicate to the Partners' Medical Home Leadership Teams regarding the implementation planning specific to PCMH project										
<b>Task</b> 2. Train all involved Partners and Medical Home Leadership Teams on PCMH concepts and models of care										
<b>Task</b> 3. Perform Gap Analysis - current status vs requirements of NCQA										
<b>Task</b> 4. Recognized Practices: Create a shared timeline - identify tasks that take more lead time to start with first, Phase the implementation, with each step building on the other										
<b>Task</b> 5. Practices new to PCMH: Create a shared timeline - identify tasks that take more lead time (eg. access takes a lot of lead time), Phase the implementation										
<b>Task</b> 6. Using the list of staffing resources identified for the project in the application phase, create a phased plan for adding staff to assist with the PCMH Transformation										
<b>Task</b> 7. Recruit and hire staff per staffing plan based on Phased Plan for 2015, 2016, 2017										
<b>Task</b> 8. Implement the Learning Collaborative for all DSRIP PCMH committed partners.										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY1,Q1</b>	<b>DY1,Q2</b>	<b>DY1,Q3</b>	<b>DY1,Q4</b>	<b>DY2,Q1</b>	<b>DY2,Q2</b>	<b>DY2,Q3</b>	<b>DY2,Q4</b>	<b>DY3,Q1</b>	<b>DY3,Q2</b>
<b>Task</b> 9. Develop inter-disciplinary PCMH governance structure for each partner										
<b>Task</b> 10. Develop a program to engage patients/families/caregivers in PCMH Implementation, Performance Review and Plan modification via various methods of feedback (eg-in the moment validation, patient focus groups, etc.)										
<b>Task</b> 11. Implement the 6 Key Components of the Standard Implementation Process: PCMH Transformation Access, Team-Based Care, Population Health, Care Management, Care Coordination, and Performance Measurement and Quality Improvement following a standard Plan, Act, Do implementation process.										
<b>Task</b> 12. Implement NCQA PCMH Recognition Process - Sign Contract and Business Associate Agreement, Submit application with Payment, Arrange Conference Call with NCQA.										
<b>Task</b> 1a .Each Partner holds a PCMH kick off event for their primary care practices including providers and support staff to begin the practice transformation work.										
<b>Milestone #2</b> Identify a physician champion with knowledge of PCMH/APCM implementation for each primary care practice included in the project.										
<b>Task</b> PPS has identified physician champion with experience implementing PCMHs/ACPMs.	0	0	0	0	0	0	12	201	201	201
<b>Task</b> 1. Define role of champion in practice										
<b>Task</b> 2. Identify physician champions - Phase 1 & 2, Complete NCQA PCMH content expert training, take exam										
<b>Task</b> 3. Identify Advanced Practice Clinician (APC) champions										
<b>Task</b> 4. Register for NCQA PCMH content expert training to develop physician and APC champion										
<b>Task</b> 5. Create/Update Champion CV for evidence of content expertise										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY1,Q1</b>	<b>DY1,Q2</b>	<b>DY1,Q3</b>	<b>DY1,Q4</b>	<b>DY2,Q1</b>	<b>DY2,Q2</b>	<b>DY2,Q3</b>	<b>DY2,Q4</b>	<b>DY3,Q1</b>	<b>DY3,Q2</b>
<b>Milestone #3</b> Identify care coordinators at each primary care site who are responsible for care connectivity, internally, as well as connectivity to care managers at other primary care practices.										
<b>Task</b> Care coordinators are identified for each primary care site.	0	0	0	0	0	0	201	201	201	201
<b>Task</b> Care coordinator identified, site-specific role established as well as inter-location coordination responsibilities.	0	0	0	0	0	0	201	201	201	201
<b>Task</b> Clinical Interoperability System in place for all participating providers and document usage by the identified care coordinators.										
<b>Task</b> 1. Identify care coordinator staffing model for all involved partners including locations, phasing of hiring										
<b>Task</b> 2. Identify current staffing availability										
<b>Task</b> 3. Identify gaps - additional staff needed										
<b>Task</b> 4. Create organization-specific standardized job descriptions for Care Coordinators										
<b>Task</b> 5. Hire care coordinators (RN level)										
<b>Task</b> 6. Identify care coordinator staffing model for all involved partners including locations, phasing of hiring										
<b>Task</b> 7. Develop Role descriptions that are site specific and include inter-location coordination responsibilities										
<b>Task</b> 8. Develop training material including orientation to assigned sites										
<b>Task</b> 9. Partner with interdisciplinary team comprised of IT, EMR, Clinicians, etc. to create information exchange workflow (eg. EPIC CareEverywhere, Healthy Connections, RHIOs like HIXNY)										
<b>Task</b> 10. Add "Care everywhere, Care Link, etc " for partners to pilot										
<b>Task</b> 11. Map workflows once defined										
<b>Task</b> 12. Educate providers and staff on the workflow

<b>Task</b> 4. Implement schedule										
<b>Task</b> 5. Monitor schedule										
<b>Task</b> 6. Update marketing materials (brochures, websites etc) with updated hours										
<b>Task</b> 7. Identify scheduling standards as per NCQA requirements										
<b>Task</b> 8. Determine the scheduling tool used (Scheduling tool (IDX for Bassett, MedEd for CMH))										
<b>Task</b> 9. Modify schedule										
<b>Task</b> 10. Implement schedule										
<b>Task</b> 11. Monitor schedule										
<b>Task</b> 12. Update marketing materials (brochures, websites etc) with updated hours										
<b>Task</b> 13. Create resources in place to see patients - staffing model										
<b>Task</b> 14. Baseline the no-show rate for medicaid patients										
<b>Task</b> 15. Determine what is "periodic" for the PPS										
<b>Task</b> 16. Monitor the change in rate										
<b>Task</b> 17. Make changes - to reduce the % of no show rate e.g., train navigators to follow-up with chronic no-shows										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
<b>Milestone #1</b> Ensure that all participating PCPs in the PPS meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.										
<b>Task</b> All practices meet NCQA 2014 Level 3 PCMH and/or APCM standards.	201	201	201	201	201	201	201	201	201	201
<b>Task</b> 1. Hold kick-off meeting to communicate to the Partners' Medical Home Leadership Teams regarding the implementation planning specific to PCMH project										
<b>Task</b> 2. Train all involved Partners and Medical Home Leadership Teams on PCMH concepts and models of care										
<b>Task</b> 3. Perform Gap Analysis - current status vs requirements of NCQA										
<b>Task</b> 4. Recognized Practices: Create a shared timeline - identify tasks that take more lead time to start with first, Phase the implementation, with each step building on the other										
<b>Task</b> 5. Practices new to PCMH: Create a shared timeline - identify tasks that take more lead time (eg. access takes a lot of lead time), Phase the implementation										
<b>Task</b> 6. Using the list of staffing resources identified for the project in the application phase, create a phased plan for adding staff to assist with the PCMH Transformation										
<b>Task</b> 7. Recruit and hire staff per staffing plan based on Phased Plan for 2015, 2016, 2017										
<b>Task</b> 8. Implement the Learning Collaborative for all DSRIP PCMH committed partners.										
<b>Task</b> 9. Develop inter-disciplinary PCMH governance structure for each partner										
<b>Task</b> 10. Develop a program to engage patients/families/caregivers in PCMH Implementation, Performance Review and Plan modification via various methods of feedback (eg-in the moment validation, patient focus groups, etc.)										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
<b>Task</b> 11. Implement the 6 Key Components of the Standard Implementation Process: PCMH Transformation Access, Team-Based Care, Population Health, Care Management, Care Coordination, and Performance Measurement and Quality Improvement following a standard Plan, Act, Do implementation process.										
<b>Task</b> 12. Implement NCQA PCMH Recognition Process - Sign Contract and Business Associate Agreement, Submit application with Payment, Arrange Conference Call with NCQA.										
<b>Task</b> 1a .Each Partner holds a PCMH kick off event for their primary care practices including providers and support staff to begin the practice transformation work.										
<b>Milestone #2</b> Identify a physician champion with knowledge of PCMH/APCM implementation for each primary care practice included in the project.										
<b>Task</b> PPS has identified physician champion with experience implementing PCMHs/ACPMs.	201	201	201	201	201	201	201	201	201	201
<b>Task</b> 1. Define role of champion in practice										
<b>Task</b> 2. Identify physician champions - Phase 1 & 2, Complete NCQA PCMH content expert training, take exam										
<b>Task</b> 3. Identify Advanced Practice Clinician (APC) champions										
<b>Task</b> 4. Register for NCQA PCMH content expert training to develop physician and APC champion										
<b>Task</b> 5. Create/Update Champion CV for evidence of content expertise										
<b>Milestone #3</b> Identify care coordinators at each primary care site who are responsible for care connectivity, internally, as well as connectivity to care managers at other primary care practices.										
<b>Task</b> Care coordinators are identified for each primary care site.	201	201	201	201	201	201	201	201	201	201
<b>Task</b> Care coordinator identified, site-specific role established as well as inter-location coordination responsibilities.	201	201	201	201	201	201	201	201	201	201

**New York State Department Of Health

<b>Task</b> Clinical Interoperability System in place for all participating providers and document usage by the identified care coordinators.										
<b>Task</b> 1. Identify care coordinator staffing model for all involved partners including locations, phasing of hiring										
<b>Task</b> 2. Identify current staffing availability										
<b>Task</b> 3. Identify gaps - additional staff needed										
<b>Task</b> 4. Create organization-specific standardized job descriptions for Care Coordinators										
<b>Task</b> 5. Hire care coordinators (RN level)										
<b>Task</b> 6. Identify care coordinator staffing model for all involved partners including locations, phasing of hiring										
<b>Task</b> 7. Develop Role descriptions that are site specific and include inter-location coordination responsibilities										
<b>Task</b> 8. Develop training material including orientation to assigned sites										
<b>Task</b> 9. Partner with interdisciplinary team comprised of IT, EMR, Clinicians, etc. to create information exchange workflow (eg. EPIC CareEverywhere, Healthy Connections, RHIOs like HIXNY)										
<b>Task</b> 10. Add "Care everywhere, Care Link, etc " for partners to pilot										
<b>Task</b> 11. Map workflows once defined										
<b>Task</b> 12. Educate providers and staff on the workflow										
<b>Milestone #4</b> Ensure all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.										
<b>Task</b> EHR meets connectivity to RHIO's HIE and SHIN-NY	21	21	21	21	21	21	21	21	21	21

**New York State Department Of Health

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
requirements.										
<b>Task</b> PPS uses alerts and secure messaging functionality.										
<b>Task</b> 1. Obtain RHIO Attestation of connectivity										
<b>Task</b> 2. Report (e.g., from Business Intelligence or Meaningful Use team) to show evidence of active sharing HIE info - transaction info, e.g., of public health registries - NYSIS, lab to DOH for infectious conditions, etc.										
<b>Task</b> 3. Obtain QE (Qualified Entity)participant agreements										
<b>Task</b> 4. Identify use of alerts across PPS										
<b>Task</b> 5. Identify Best Practice alerts required for PCMH NCQA level 3										
<b>Task</b> 6. Work with IT to build any required alerts that don't yet exist										
<b>Task</b> 7. Obtain evidence from IT for use of alerts and secure messaging										
<b>Milestone #5</b> Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.										
<b>Task</b> EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).										
<b>Task</b> PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	21	21	21	21	21	21	21	21	21	21
<b>Task</b> 1. Determine current status of Meaningful Use Stage 1/2 for each partner organization level										
<b>Task</b> 2. Determine current PCMH stage of each partner EHR										
<b>Task</b> 3. Identify gaps in Meaningful Use and PCMH stages and required build										
<b>Task</b> 4. Work with IT to build functionality that does not yet exist to meet MU and PCMH level 3 standard										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
<b>Task</b> 5. Continue to monitor performance measures for meaningful use requirements										
<b>Milestone #6</b> Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.										
<b>Task</b> PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										
<b>Task</b> 1. Identify and implement vendor for population health management (e.g., Phytel, collaboration with PHIP)										
<b>Milestone #7</b> Ensure that all staff are trained on PCMH or Advanced Primary Care models, including evidence-based preventive and chronic disease management.										
<b>Task</b> Practice has adopted preventive and chronic care protocols aligned with national guidelines.										
<b>Task</b> Project staff are trained on policies and procedures specific to evidence-based preventive and chronic disease management.	201	201	201	201	201	201	201	201	201	201
<b>Task</b> 1. Share existing protocols and develop ones as appropriate										
<b>Task</b> 2. Share existing protocols with new sites, for chronic conditions and preventive screenings, utilization measures and vulnerable populations for the PPS										
<b>Task</b> 3. Perform gap analysis for what data needs are										
<b>Task</b> 4. Define metrics for reports (already defined by NCQA)										
<b>Task</b> 5. Create reports to measure outcomes										
<b>Task</b> 6. Adjust workflows, etc. to meet desired outcomes										
<b>Task</b> 7. Create training-friendly documents - from the policies of procedures in the metric above										
<b>Task</b> 8. Identify the staff that needs this training										
<b>Task</b> 9. Build any training tools needed - online, for e.g.

**Project 2.b.vii – Implementing the INTERACT project (inpatient transfer avoidance program for SNF)**

**IPQR Module 2.b.vii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: Availability of current data on nursing home to hospital transfers to measure the effectiveness of the project. Additionally, identifying which nursing home to hospital transfers are/are not preventable has been a challenge  
Mitigation: LCHP will develop a consistent approach to collecting and reporting on the same data points in order to identify which hospital admissions are or are not preventable. IT and data Analytics team's support will be needed to define data elements to be collected. Currently, there is no known standard to identify the definition of which type of nursing home to hospital transfers are deemed preventable. The INTERACT team will research further for available standards. If none are found, the team will work on defining preventable nursing home to hospital transfer for this project reporting

Risk: Hospital Engagement  
Mitigation: LCHP will plan on involving hospitals in the PPS in all applicable DSRIP projects. The INTERACT team will contact the Hospital partners in our PPS to engage them in implementation of INTERACT. INTERACT team will collaborate with hospitals to develop needed education to hospital partners for identified aspects such as accurate diagnosis of nursing home to hospital transfers.

Risk: Patient engagement  
Mitigation: Champions, care coordinators, patient navigators, case managers, and health educators will be critical team members at community-based provider sites. These staff will engage patients and their families in care, include INTERACT education at Annual Care Conferences at each SNF to facilitate implementation of INTERACT for better patient outcomes. Referral tracking and patient follow-up will be part of the ongoing strategies used to engage and re-engage patients in care

Risk: Staff and Practitioner Engagement  
Mitigation: A comprehensive practitioner communication and engagement plan will be created by the Clinical Performance Committee to engage practitioners in the initiatives under DSRIP Program. This committee will have representation of different types of practitioners. LCHP will also leverage existing gatherings of practitioners within partners such as Primary Care Council, Regional Medical Director Group and Clinical Leadership Group as models for clinical integration and practitioner engagement in creating PPS-wide professional groups. Recruiting INTERACT champion(s) is key to alleviating staff concerns, as is providing ongoing training and support

Risk: EHR meeting connectivity to RHIOs HIE and SHIN-NY requirements on time is contingent on SHIN-NY activation date  
Mitigation: In case SHIN-NY activation's timeline varies from our commitment, we will not be able to meet this metric. LCHP will work on alternate possibilities such as plan modification to our strategy to accommodate any change in SHIN-NY roll-out timeline. For agencies without an EHR, the LCHP IT/Data Analytics Committee will offer its expertise, with a primary focus on standardization of IT products. For project participants who do not currently submit patient- level data to HIXNY or another RHIO, the IT/Data Analytics Committee will share expertise with appropriate partners in joining RHIOs

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

Risk: Clinical Interoperability - Varying EHRs among partners present a challenge in interconnectivity. Mitigation: Patient registries will be required to track target patients and their care in the service area. Universal EHR connectivity is not present across service area providers. LCHP Operations Team will collaborate with partners since several proposed DSRIP projects will also rely on EHR systems and other technical platforms to track patient engagement

<b>Task</b> 2. Develop training material for identified SNF staff										
<b>Task</b> 3. Train identified SNF staff on care pathways and INTERACT principles										
<b>Milestone #5</b> Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.										
<b>Task</b> Advance Care Planning tools incorporated into program (as evidenced by policies and procedures).										
<b>Task</b> 1. Evaluate current Advance Care Planning tools; validate usage is reflected in policies and procedures										
<b>Task</b> 2. Examine tools against requirements of INTERACT's advance care planning program, adjust as needed										
<b>Milestone #6</b> Create coaching program to facilitate and support implementation.										
<b>Task</b> INTERACT coaching program established at each SNF.	9	9	9	9	9	9	9	9	9	9
<b>Task</b> 1. Identify goals of coaching program, staff needs										
<b>Task</b> 2. Incorporate INTERACT training programs and refreshers into staff orientation and periodic staff meeting agendas										
<b>Milestone #7</b> Educate patient and family/caretakers, to facilitate participation in planning of care.										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
<b>Task</b> Patients and families educated and involved in planning of care using INTERACT principles.										
<b>Task</b> 1. Develop patient/family education materials										
<b>Task</b> 2. Include INTERACT education at Annual Care Conferences at each SNF										
<b>Task</b> 3. Include INTERACT education material into admission materials provided to patient/family/caretakers										
<b>Milestone #8</b> Establish enhanced communication with acute care hospitals, preferably with EHR and HIE connectivity.										
<b>Task</b> EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria.)										
<b>Task</b> EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	4	4	4	4	4	4	4	4	4
<b>Task</b> EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	9	9	9	9	9	9	9	9	9
<b>Task</b> 1. Confirm if current EHRs for participating SNFs are meaningful use certified										
<b>Task</b> 2. Implement MU Stage 2 certification for SNFs whose EHR does not currently meet these requirements										
<b>Task</b> 3. Obtain RHIO Attestation of connectivity										
<b>Task</b> 4. Report (e.g., from Business Intelligence or Meaningful Use team) to show evidence of active sharing HIE info - transaction info, e.g., of public health registries - NYSIS, lab to DOH for infectious conditions, etc.										
<b>Task</b> 5. Obtain QE (Qualified Entity) participant agreements										
<b>Milestone #9</b> Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.										
<b>Task</b> Membership of quality committee is representative of PPS staff										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
involved in quality improvement processes and other stakeholders.										
<b>Task</b> Quality committee identifies opportunities for quality improvement and use of rapid cycle improvement methodologies, develops implementation plans, and evaluates results of quality improvement initiatives.										
<b>Task</b> PPS evaluates and creates action plans based on key quality metrics, to include applicable metrics in Attachment J.										
<b>Task</b> Service and quality outcome measures are reported to all stakeholders.										
<b>Task</b> 1. Ensure SNF representation in PPS quality committee										
<b>Task</b> 2. Identify role of quality committee and their oversight/development of quality improvement plans										
<b>Task</b> 3. Reflect INTERACT quality improvement principles in overall quality improvement initiatives										
<b>Task</b> 4. Identify metrics to be used (include Attachment J metrics)										
<b>Task</b> 5. Identify how to measure; measure; monitor; adjust as needed										
<b>Task</b> 6. Identify/build reporting method										
<b>Task</b> 7. Generate reports										
<b>Milestone #10</b> Use EHRs and other technical platforms to track all patients engaged in the project.										
<b>Task</b> PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
<b>Task</b> 1. Determine criteria and metrics for counting/tracking patient engagement--EHR data, encounter data, INTERACT tool usage, etc.										
<b>Task</b> 2. Evaluate existing capability for EHR patient engagement tracking										
<b>Task</b> 3. Identify technology enhancements/upgrades needed to count/track patient engagement

Milestone Name	Narrative Text
Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at <a href="http://interact2.net">http://interact2.net</a> .	
Identify a facility champion who will engage other staff and serve as a coach and leader of INTERACT program.	
Implement care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	
Educate all staff on care pathways and INTERACT principles.	
Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	
Create coaching program to facilitate and support implementation.	
Educate patient and family/caretakers, to facilitate participation in planning of care.

**Project 2.b.viii – Hospital-Home Care Collaboration Solutions**

**✓ IPQR Module 2.b.viii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk:Pt engagement Mitigation:Education for pts to engage in their healthcare to identify & address social determinants. Referral tracking & pt follow-up in CBOs will be strategies used Risk:Physical Space Mitigation: Identify other projects that may have available space, consider overlapping needs to consolidate needs, and identify highest demand areas to be located. Risk:Partner Engagement Mitigation:Some LCHP Partners not engaged in project planning d/t uncertainty of projects/lack of designated resources to engage in planning/execution. LCHP Ops Team to confirm partner involvement in projects & complete funds flow model to inform their involvement. Updates to partners via email, project/all partner meetings, and utilization of tools such as website, Constant Contact/survey tools/Health Workforce NY are some strategies Risk:IT Technology including EHR interoperability/sharing of PHI/IT infrastructure Mitigation:Pt tracking & provider communications is challenged by variability of technology across LCHP project partners. Resources to acquire new technology to achieve interoperability are substantial. LCHP ITDAC will focus on standardization, assistance in joining partners to RHIOs, and developing electronic interfaces for HIE Risk:Transition planning w/medical professionals Mitigation:Build relationships among health providers in service area. LCHPs Ops Team w/Clinical Performance Committee (CPO), Collaborative Learning Committee(CLC), and ITDAC will engage home care agencies to develop/enhance relationships w/hospitals in and around PPS, w/goal of creating standardized clinical protocols and rapid guidance in the moment Risk:Funding for staff/training Mitigation:Request/align resources. Shared staffing and "train the trainer" method to be used to increase efficiency and avoid duplication Risk:Identifying/recruiting expertise in rural area Mitigation:LCHP will use creative regional recruitment/retention strategies to attract practitioners/nursing staff while emphasizing use of telemedicine to benefit patient care. LCHP PPS has engaged AHEC, workforce consultant. A global approach to staffing needs across LCHP and a creative approach for recruitment in a rural setting will be key to successful recruitment/retention of necessary staff Risk:Re-branding funding Mitigation:Project team will work w/LCHP PPS to request/resource re-branding plan. Dedicated marketing staff will assist DSRIP w/marketing needs across the PPS Risk:Standardized Protocols Mitigation:Care providers have various ways of addressing pt needs. Standardizing protocols across PPS may be a challenge due to large number of care providers/locations. Project team will collaborate with other teams on efforts, approach and implementation Risk:Capital Funding Mitigation:Involve sources like Robert Wood Johnson Foundation, PHIP (Population Health Improvement Program) team to assist in finding other funding Risk:Lack of mobile application Mitigation:Selection of tools to include off-line usage capabilities and increase mobility of home care Risk: Practitioner Engagement Mitigation:Detailed plan will be created by CPO to engage practitioners in DSRIP activities. Committee will have representation of various practitioners. LCHP will leverage existing practitioner groups such as Primary Care Council, Regional Medical Director Group and Clinical Leadership Group as models for clinical integration and practitioner engagement Risk:Contract negotiations Mitigation:In order to negotiate contracts with MCOs, efforts across project teams within LCHP PPS and other PPSs will be combined to strengthen and consolidate the message and make patient care in DSRIP projects sustainable, esp for services not reimbursed/under-reimbursed

support evidence-based medicine and chronic care management.										
<b>Task</b> Staff trained on care model, specific to: - patient risks for readmission - evidence-based preventive medicine - chronic disease management	0	0	0	0	0	0	3	3	3	3
<b>Task</b> Evidence-based guidelines for chronic-condition management implemented.										
<b>Task</b> 1. Select INETERACT-like tools.										
<b>Task</b> 2. Obtain / distribute INTERACT-like tools to all home care agency participants										
<b>Task</b> 3. Provide education on INTERACT-like tools to all home health, hospice, respiratory/ DME provider staff; and, to PCMH, ED and Case Management / Discharge Planning / Rapid Response staff										
<b>Task</b> 4. Identify additional training needs (beyond INTERACT-like tools)--address various patient care settings, chronic and acute conditions, missed patient populations, adjustment to plan, staff turnover, etc.										
<b>Task</b> 5. Adopt and Implement existing evidence-based chronic condition guidelines										
<b>Task</b> 6. Determine individuals most at risk for ED, Acute Care Readmission - Design a risk stratification / screening tool that is: (1) evidence-based, and (2) derived from (actual) home health care acute hospitalization (OASIS) data										
<b>Milestone #3</b> Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.										
<b>Task</b> Care pathways and clinical tool(s) created to monitor chronically-ill patients.										
<b>Task</b> PPS has developed and implemented interventions aimed at avoiding eventual hospital transfer and has trained staff on use of interventions in alignment with the PPS strategic plan to monitor critically ill patients and avoid hospital readmission.	0	0	0	0	0	0	6	6	6	6

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY1,Q1</b>	<b>DY1,Q2</b>	<b>DY1,Q3</b>	<b>DY1,Q4</b>	<b>DY2,Q1</b>	<b>DY2,Q2</b>	<b>DY2,Q3</b>	<b>DY2,Q4</b>	<b>DY3,Q1</b>	<b>DY3,Q2</b>
<b>Task</b> 1. Determine patient monitoring requirements needed to invoke INTERACT-like or rapid intervention protocols; define baseline and metrics to achieve reduction in hospital transfers for chronically ill patients.										
<b>Task</b> 2. Define workflow for Care Manager & Rapid Response Team for chronically ill patients -- obtaining home care and coordination of care plan in lieu of ED visit or hospitalization-- expand on INTERACT-like guidelines										
<b>Task</b> 3. Identify evidence-based and technology (telehealth) supported chronic condition management strategies. Aligning with PCMH, establish education and plan to effectively and efficiently manage individuals with chronic and multiple comorbid conditions. Strategies to address disease process education, behavioral health management, medication education / monitoring, dietary instruction, activities monitoring, advanced life planning, etc.										
<b>Task</b> 4. Build and implement evidence-based and technology (telehealth) supported chronic condition management strategies. Aligning with PCMH, establish education and plan to effectively and efficiently manage individuals with chronic and multiple comorbid conditions. Strategies to address disease process education, behavioral health management, medication education / monitoring, dietary instruction, activities monitoring, advanced life planning, etc.										
<b>Task</b> 5. Consensus build: approval of pathway by collaborative experts										
<b>Task</b> 6. Develop a health status dashboard and algorithm - include "health alerts" to address specific referral / services need to mitigate risk for ED or readmission										
<b>Task</b> 7. Monitor performance of care pathways for effectiveness and efficiency, adjust as needed										
<b>Milestone #4</b> Educate all staff on care pathways and INTERACT-like principles.										
<b>Task</b> Training program for all home care staff established, which encompasses care pathways and INTERACT-like principles.	0	0	0	0	0	3	3	3	3	3

<b>Task</b> 3. Identify technology that needs to be added to meet interoperability needs.										
<b>Task</b> 4. Acquire and implement new technology/software as identified and needed.										
<b>Task</b> 5. Identify workflow impact due to new technology, to address patient safety and operational efficiencies; document new workflow										
<b>Task</b> 6. Train staff on new technology and workflow										
<b>Milestone #11</b> Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.										
<b>Task</b> Membership of quality committee is representative of PPS staff involved in quality improvement processes and other stakeholders.										
<b>Task</b> Quality committee identifies opportunities for quality improvement and use of rapid cycle improvement methodologies, develops implementation plans, and evaluates results of quality improvement initiatives.										
<b>Task</b> PPS evaluates and creates action plans based on key quality metrics, to include applicable metrics in Attachment J.										
<b>Task</b> Service and quality outcome measures are reported to all stakeholders.										
<b>Task</b> 1. Evaluate current EMR reporting capabilities and determine additional software/ Business Analytics tool need to collect and monitor information in real time										
<b>Task</b> 2. Identify and appoint representative(s) from this Project to the Clinical Performance Committee										
<b>Task</b> 3. Identify quality improvement goals and tools for all partners in project 2.b.viii that are consistent with desired and expected clinical and cost outcomes, particularly addressing the rural healthcare setting Overall, to impact policy; incentivize

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY1,Q1</b>	<b>DY1,Q2</b>	<b>DY1,Q3</b>	<b>DY1,Q4</b>	<b>DY2,Q1</b>	<b>DY2,Q2</b>	<b>DY2,Q3</b>	<b>DY2,Q4</b>	<b>DY3,Q1</b>	<b>DY3,Q2</b>
consumers to participate in their care; align a value-based payment with stated goals; and, to develop system-wide and enduring provider behavior expectations										
<b>Task</b> 4. Measure, trend and review quality improvement progress										
<b>Task</b> 5. Identify and implement root cause analysis methodology for metrics not achieved: Conduct concurrent review of patients (records) sent to ED or admitted to acute care - (1.) Verify best practices implemented; (2.) Avoidable? ...and, based upon result(s), targeted review & adjustment to education, workflow and interventions, as necessary										
<b>Task</b> 6. Provide each project partner with metrics, targets and expected outcomes										
<b>Task</b> 7. Referencing organization-level and project-level plans of action, project partner(s) monitor progress and, per established timelines, provide report to PPS										
<b>Task</b> 8. Review (Attachment J) project results, adjust workflow and methods to achieve desired outcomes - avoidable ED and hospitalization -										
<b>Task</b> 9. Conduct root cause analyses of any result(s) not attained and implement corrective action plan - may include re-education, re-design of workflow(s), adjustment of partner action plan, provider engagement, etc.										
<b>Milestone #12</b> Use EHRs and other technical platforms to track all patients engaged in the project.										
<b>Task</b> PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
<b>Task</b> 1. Determine criteria and metrics for counting/tracking patient engagement										
<b>Task</b> 2. Evaluate existing capability for tracking patient engagement										
<b>Task</b> 3. Identify technology enhancements/upgrades needed to count/track patient engagement										
<b>Task</b> 4. Implement technology enhancements/upgrades needed to

<b>Milestone #1</b> Assemble Rapid Response Teams (hospital/home care) to facilitate patient discharge to home and assure needed home care services are in place, including, if appropriate, hospice.										
<b>Task</b> Rapid Response Teams are facilitating hospital-home care collaboration, with procedures and protocols for: - discharge planning - discharge facilitation - confirmation of home care services										
<b>Task</b> 1. Integrate Home Health Care services - possibly centralize for a single point of contact for rapid response - or, rapid referral to establish (all) services delivered in the home (home health, respiratory, DME, infusion, palliative care, hospice etc.)										
<b>Task</b> 2. Identify roles needed for rapid response team and staffing plan to include medical director, nurse practitioner, clinical and non-clinical navigators, home care nurse(s), care coordinator/manager(s), clinical pharmacist, respiratory therapist, MSW, nutritionist, etc.										
<b>Task</b> 3. Recruit and hire rapid response team-- clinical and non-clinical navigators, home care nurse(s), care coordinator/manager(s), clinical pharmacist, respiratory therapist, MSW, nutritionist, etc.										
<b>Task</b> 4. Recruit Medical Director(explore: sharing this role) - expedite access for MD for orders, intervention, etc.										
<b>Task</b> 5. Recruit Rapid Response NP. Evaluate the option to re-purpose and/or recruit (1 per quadrant)										
<b>Task</b> 6. Recruit Rapid Response Care Managers - re-deploy "discharge planner" or recruit; 24 / 7 on call										

**New York State Department Of Health

<b>Task</b> 7. Recruit / hire RN Educator / Rapid Response Coordinator (home care)										
<b>Task</b> 8. Develop 24-hour access plan to "Rapid Response Care Coordination Center - to include coordination same day visit, establish primary care and CBO linkages, home care services, interactive telehealth consultations, etc.--a single point of access										
<b>Task</b> 9. Train according to 24 hour access Rapid Response Care Coordination Center Plan										
<b>Task</b> 10. Implement 24 hour Rapid Response Care Coordination Center										
<b>Task</b> 11. Define Rapid Response care management workflows (referral procedure, protocols, PCMH communication etc.): ED to home, acute to home, acute to hospice and dispatch of clinical and supportive community resources										
<b>Milestone #2</b> Ensure home care staff have knowledge and skills to identify and respond to patient risks for readmission, as well as to support evidence-based medicine and chronic care management.										
<b>Task</b> Staff trained on care model, specific to: - patient risks for readmission - evidence-based preventive medicine - chronic disease management	3	3	3	3	3	3	3	3	3	3
<b>Task</b> Evidence-based guidelines for chronic-condition management implemented.										
<b>Task</b> 1. Select INETERACT-like tools.										
<b>Task</b> 2. Obtain / distribute INTERACT-like tools to all home care agency participants										
<b>Task</b> 3. Provide education on INTERACT-like tools to all home health, hospice, respiratory/ DME provider staff; and, to PCMH, ED and Case Management / Discharge Planning / Rapid Response staff										
<b>Task</b> 4. Identify additional training needs (beyond INTERACT-like										

**New York State Department Of Health

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
tools)--address various patient care settings, chronic and acute conditions, missed patient populations, adjustment to plan, staff turnover, etc.										
<b>Task</b> 5. Adopt and Implement existing evidence-based chronic condition guidelines										
<b>Task</b> 6. Determine individuals most at risk for ED, Acute Care Readmission - Design a risk stratification / screening tool that is: (1) evidence-based, and (2) derived from (actual) home health care acute hospitalization (OASIS) data										
<b>Milestone #3</b> Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.										
<b>Task</b> Care pathways and clinical tool(s) created to monitor chronically-ill patients.										
<b>Task</b> PPS has developed and implemented interventions aimed at avoiding eventual hospital transfer and has trained staff on use of interventions in alignment with the PPS strategic plan to monitor critically ill patients and avoid hospital readmission.	6	6	6	6	6	6	6	6	6	6
<b>Task</b> 1. Determine patient monitoring requirements needed to invoke INTERACT-like or rapid intervention protocols; define baseline and metrics to achieve reduction in hospital transfers for chronically ill patients.										
<b>Task</b> 2. Define workflow for Care Manager & Rapid Response Team for chronically ill patients -- obtaining home care and coordination of care plan in lieu of ED visit or hospitalization-- expand on INTERACT-like guidelines										
<b>Task</b> 3. Identify evidence-based and technology (telehealth) supported chronic condition management strategies. Aligning with PCMH, establish education and plan to effectively and efficiently manage individuals with chronic and multiple comorbid conditions. Strategies to address disease process education, behavioral health management, medication education / monitoring, dietary instruction, activities monitoring, advanced life planning, etc.										
<b>Task</b> 4. Build and implement evidence-based and technology (telehealth) supported chronic condition management strategies.										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
Aligning with PCMH, establish education and plan to effectively and efficiently manage individuals with chronic and multiple comorbid conditions. Strategies to address disease process education, behavioral health management, medication education / monitoring, dietary instruction, activities monitoring, advanced life planning, etc.										
<b>Task</b> 5. Consensus build: approval of pathway by collaborative experts										
<b>Task</b> 6. Develop a health status dashboard and algorithm - include "health alerts" to address specific referral / services need to mitigate risk for ED or readmission										
<b>Task</b> 7. Monitor performance of care pathways for effectiveness and efficiency, adjust as needed										
<b>Milestone #4</b> Educate all staff on care pathways and INTERACT-like principles.										
<b>Task</b> Training program for all home care staff established, which encompasses care pathways and INTERACT-like principles.	3	3	3	3	3	3	3	3	3	3
<b>Task</b> 1. Educate all staff involved in "rapid response" strategies using INTERACT-like principles.										
<b>Task</b> 2. Develop staff training & competency program to educate on patient monitoring and management protocols										
<b>Task</b> 3. Identify and educate multidisciplinary team (RT, RD, MSW, Clin Pharm, etc.) on techniques to effectively monitor and manage high risk patients										
<b>Milestone #5</b> Develop Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.										
<b>Task</b> Advance Care Planning tools incorporated into program (as evidenced by policies and procedures).										
<b>Task</b> 1. Evaluate INTERACT-like and Palliative Care (Project 3.g.i) Advanced Care planning tools. In collaboration with 3.g.i. adopt standard (staff, provider, patient) education, documentation and implementation plan										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
<b>Task</b> 2. Identify metrics to monitor effectiveness, review results and adjust protocols / workflows, as necessary										
<b>Milestone #6</b> Create coaching program to facilitate and support implementation.										
<b>Task</b> INTERACT-like coaching program has been established for all home care and Rapid Response Team staff.	3	3	3	3	3	3	3	3	3	3
<b>Task</b> 1. Develop the INTERACT-like coaching program with a team of rapid response experts										
<b>Task</b> 2. Identify liaison to partner home care agencies and to the Rapid Response Team(s) to coach partners and patients: or, facilitate and oversight standardization of workflow, adjustments and progress										
<b>Milestone #7</b> Educate patient and family/caretakers, to facilitate participation in planning of care.										
<b>Task</b> Patients and families educated and involved in planning of care using INTERACT-like principles.										
<b>Task</b> 1. Identify methods to link patients and families with community resources and specialty services (e.g., pharmacists, diabetic educators)										
<b>Task</b> 2. Identify educational guides / standardized resources to provide to patients / families to reinforce INTERACT-like principles										
<b>Task</b> 3. Create community education programming and/or support groups that are health condition-specific. Collaborate with other PPS partners to conduct educational forums										
<b>Milestone #8</b> Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.										
<b>Task</b> All relevant services (physical, behavioral, pharmacological) integrated into care and medication management model.										
<b>Task</b> 1. Develop integrated care coordination models that incorporate strategies to mitigate risk of deteriorating										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
condition(s) and necessity for ED or acute care hospitalization. Models will address of medication management, palliative care, address underlying behavioral health concerns, health risk(s) and need for community supports										
<b>Task</b> 2. To support integration, identify roles & recruit - to include Rapid Response NPs to deliver care/ services, as necessary, either remotely or direct in-person to homebound patients										
<b>Task</b> 3. Develop interactive telehealth methods to connect patient/family to clinical experts eg. (1.) pharmacist to address poly-pharmacy, medication duplication, medication reconciliation and medication education; (2) MSW to address behavioral health and community supports; (3.) RD to address nutritional issues, etc.										
<b>Task</b> 4. Explore further design of hi-risk patient interventions - to include rapid response collaboration with EMS - or, administration of medications in the home, stabilization and avoid transport pt to ED; MD/ NP home or remote visit(s); home care interventions, direct and remote visits, etc,										
<b>Task</b> 5. Engage in appropriate contracts with entities within PPS and cross PPS to manage clinical information (e.g.-patient is seen at a non LCHP PPS site for care, the expectation to share this information back to LCHP providers is present).										
<b>Milestone #9</b> Utilize telehealth/telemedicine to enhance hospital-home care collaborations.										
<b>Task</b> Telehealth/telemedicine program established to provide care transition services, prevent avoidable hospital use, and increase specialty expertise of PCPs and staff.										
<b>Task</b> 1. Project partners evaluate (minimum three interactive video telehealth devices) and select technology most suited to attain interoperability and project goals										
<b>Task</b> 2. Select telehealth devices, peripheral equipment and negotiate lease with selected vendor										
<b>Task</b> 3. Recruit telehealth RN project leader with responsibility for program implementation across care settings to include protocol / workflow development, provider education and outcomes monitoring / reporting										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
<b>Task</b> 4. Develop a project hub, or expand on existing / mature telehealth program in the rural region. Add interactive video with secure connectivity (PCs / laptops) across care settings (PCMH, home care) to enable remote interactive connection w/ patients for routine monitoring as well as provision of "face-to-face" specialty services (RPh, RT, RD, MSW) to monitor and manage care										
<b>Task</b> 5. Develop care protocols to enhance patient - specialty clinical providers - home care - and, physician collaborations										
<b>Task</b> 6. Establish interoperability between IT and telehealth devices										
<b>Milestone #10</b> Utilize interoperable EHR to enhance communication and avoid medication errors and/or duplicative services.										
<b>Task</b> Clinical Interoperability System in place for all participating providers. Usage documented by the identified care coordinators.										
<b>Task</b> 1. Identify existing electronic health record interoperability capability										
<b>Task</b> 2. Identify electronic health record interoperability needs to meet defined goals and ensure patient care across the network										
<b>Task</b> 3. Identify technology that needs to be added to meet interoperability needs.										
<b>Task</b> 4. Acquire and implement new technology/software as identified and needed.										
<b>Task</b> 5. Identify workflow impact due to new technology, to address patient safety and operational efficiencies; document new workflow										
<b>Task</b> 6. Train staff on new technology and workflow										
<b>Milestone #11</b> Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.										
<b>Task</b> Membership of quality committee is representative of PPS staff involved in quality improvement processes and other stakeholders.										

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

DSRIP Implementation Plan Project

Bassett Medical Center (PPS ID:22)

Project 2.c.i – Development of community-based health navigation services

IPQR Module 2.c.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk:Non-Clinical ResourcesMitigation:Transportation, housing, food, etc will be relied upon for success.Social needs identified with participants & linked appropriately.Where demand for services is greater than what exists, PPS to assist CBOs to leverage non-clinical resources.(e.g.- transportation contracts across PPS to increase/expand services as identified)Risk:SpaceMitigation:New/repurposing space presents challenges in terms of cost. For efficiency, LCHP to combine projects 2.c.i. & 2.d.i. for navigators/support staff & deliver related services in shared spaceRisk:Rural geographic areaMitigation:Embed navigators in CBOs in high traffic areas/hotspots w/consideration that they may not always be available/accessible to patient. Work with participants to stay connected Risk:FundingMitigation:Involve sources like Robert Wood Johnson Foundation, PHIP (Population Health Improvement Program) team to assist in finding other funding sources for needed resources to be successful.Risk:Staff recruitment/retentionMitigation:Staffing poses challenge in rural area. Project committee will identify community leaders for assistance in recruiting former Medicaid consumers, who could be trained to fill positions for CBOs in their counties.Recruitment strategy would enhance the representativeness/diversity of LCHP workforce.LCHP will also avail of career fairs, external websites, CBOs and schools to advertise position openings.A workforce impact consultant, AHEC, will work closely with LCHPs Collaborative Learning Committee (CLC) & partners to employ creative workforce strategies. Utilizing expertise of workforce impact consultant, AHEC & CLC, online & in-person training will be offered to train/retrain employees. LCHP to leverage AHECs cross-PPS job opportunitiesRisk:Clinical ResourcesMitigation:Navigation is dependent on availability of clinical resources such as PCPs, Behavioral Health, etc. providers to accept/see patients in timeframe needed.Collaboration across projects especially with care coordinationMitigation:Low level of computer literacy among target population will be mitigated via simplified user interfaces/systemsRisk:Negotiate MCO contractsMitigation:Combine efforts across project teams in/across PPSs to negotiate MCO contracts esp for non-reimbursed/under-reimbursed services to strengthen/consolidate message and make pt care in DSRIP projects sustainable. Risk:Practitioner EngagementMitigation:Practitioners are not committed to the DSRIP activities.To address Comprehensive practitioner communication/engagement plan to be created by the Clinical Performance Committee (CPO) to engage practitioners in DSRIP activitiesRisk:Clinical InteroperabilityMitigation: To track actively engaged patients, an evaluation of IT reporting capability will be needed. ITDAC will assist partners with this activity.Patient registries will be required to track target patients and their care in the service area. Universal EHR connectivity is not present across service area providersRisk:Patient engagement Mitigation: Care coordinators, patient navigators, case managers, and health educators will be critical team members at CBO sites.Referral tracking and patient follow-up will be part of the ongoing strategies used to engage ptsRisk:Partner EngagementMitigation:Some LCHP Partners have not been engaged in planning projects due to ambiguity in funds flow, uncertainty of contribution to project requirements, lack of designated resources to engage in planning and execution, etc. LCHP Operations Team to confirm partner involvement, reach out to partners who are deemed essential, & complete a funds flow model to inform involvement.Regular updates to partners through email, project and all partner meetings, and utilization of tools such as website, Constant Contact, survey tools, Health Workforce NY, etc. are some strategies used currently

**IPQR Module 2.c.i.3 - Patient Engagement Speed**

**Instructions :**

Please specify how many patients will have become 'Actively Engaged' (as set out in the Project Plan Application) per quarter. These cumulative numbers must align with commitments in the PPS Application. Note: data entered into this table must represent CUMULATIVE figures.

Benchmarks	
100% Actively Engaged By	Expected Patient Engagement
DY4,Q4	9,646

Year,Quarter (DY1,Q1 – DY3,Q2)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Patients Engaged	0	289	473	946	723	1,446	1,929	3,858	2,174	4,347
Percent of Expected Patient Engagement(%)	0.00	3.00	4.90	9.81	7.50	14.99	20.00	40.00	22.54	45.07

Year,Quarter (DY3,Q3 – DY5,Q4)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Patients Engaged	5,067	5,787	3,376	6,752	8,199	9,646	3,376	6,752	8,199	9,646
Percent of Expected Patient Engagement(%)	52.53	59.99	35.00	70.00	85.00	100.00	35.00	70.00	85.00	100.00

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**Project 2.d.i – Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care**

**IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk:Patient EngagementMitigation:A key challenge will be to engage a culturally diverse population that does not usually seek care at the right time/place/location.Locating these individuals is a challenge.PPS engagement with AHEC will assist w/language needs/training materials appropriate to target populationsRisk:Funding Mitigation:Funding for staffing is limited.Consolidation of staff resources across projects like 2ci/2di will exist.Contracts among parnters to share staff will lower costsRisk:FundingMitigation:Insignia will contract with state on behalf of all PPSs to provide training on the PAM toolRisk:Practitioner EngagementMitigation:Practitioners are not yet committed to DSRIP goals. Comprehensive practitioner communication/engagement plan to be created by Clinical Performance Committee to engage practitioners in the DSRIP initiatives.LCHP will also leverage existing gatherings of practitioners within partners to create PPS-wide professional groupsRisk:Transportation Mitigation:Integrating diverse/segmented programs for critically important services such as transportation will be a challenge.Navigators will have timely access to these resources, will collect information on new resources and report this information back to LCHP.Leveraging PHIP with expanding 211 resource will be ideal. Transportation services are not as available as demand for them. CBOs will work with each other and w/transportation agencies to increase/expand services to serve patient populationsRisk:Varying to no IT systemsMitigation:Lack of a common IT platform can limit effectiveness of program.Integration of PAM assessment within Care Management system will aid in consistency of system and increase efficiencies by only having to use one system.Limited access to PCs and internet within population can pose a challenge.Leveraging libraries and other public access sites in the field may assist.Paper copies of screening/assessments can be loaded into a computerized system when availableRisk:Staff RecruitmentMitigation:It is important to engage representatives from service areas CBOs, LCHP Committees and beneficiaries from hot spot locations to strategize on ways to recruit target population.LCHP will explore use of community champions to distribute information regarding available services to area food pantries, religious organizations and other agencies that offer services to those facing financial hardships and to network with community residents to raise awareness of available servicesRisk:Contracts with insurance companiesMitigation:Sharing of patient registries to connect with UI/LU/NU will be essential to success DSRIP.CBOs are committed to working with recipients and insurance companies to connect patients to clinical service providersRisk:Contract negotiation with MCOsMitigation:In order to negotiate contracts with MCOs, there is a need to combine efforts across project teams within LCHP PPS and across PPSs to strengthen and consolidate message and make patient care in DSRIP projects Risk:Partner EngagementMitigation:Some LCHP Partners, who are deemed essential, have not been engaged in planning projects due to ambiguity in funds flow, uncertainty of contribution to project requirements, lack of designated resources to engage in planning and execution, etc. LCHP Operations Team will confirm current partner involvement in projects, reach out to partners who are deemed essential, and complete a funds flow model to better inform their involvement. Regular updates to partners through email, project and all partner meetings, and utilization of tools such as website, Constant Contact, survey tools, Health Workforce NY, etc. are some strategies

**Instructions :**

Please enter baseline target dates and work breakdown tasks with target dates for each of the milestones below.

<b>Project Requirements (Milestone/Task Name)</b>	<b>Reporting Level</b>	<b>Provider Type</b>	<b>Status</b>	<b>Start Date</b>	<b>End Date</b>	<b>Quarter End Date</b>	<b>DSRIP Reporting Year and Quarter</b>
<b>Milestone #1</b> Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	Project	N/A	In Progress	06/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Partnerships with CBOs to assist in patient "hot-spotting" and engagement efforts as evidenced by MOUs, contracts, letters of agreement or other partnership documentation.	Project		In Progress	06/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 1. Draft Intake Agency Contract	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 2. Identify Phase I Agency Hot Spots to Pilot	Project		In Progress	06/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> 3. Identify Phase II Agency Hot Spots	Project		In Progress	06/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Milestone #2</b> Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	Project	N/A	In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Patient Activation Measure(R) (PAM(R)) training team established.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> 1. Identify trainer (Insignia)	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
<b>Task</b> 2. Identify staff to train	Project		In Progress	04/01/2015	08/01/2015	09/30/2015	DY1 Q2
<b>Task</b> 3. Conduct training	Project		In Progress	07/01/2015	08/30/2015	09/30/2015	DY1 Q2
<b>Milestone #3</b> Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	Project	N/A	In Progress	06/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Analysis to identify "hot spot" areas completed and CBOs performing outreach engaged.	Project		In Progress	06/01/2015	06/30/2016	06/30/2016	DY2 Q1

<b>Project Requirements (Milestone/Task Name)</b>	<b>Reporting Level</b>	<b>Provider Type</b>	<b>Status</b>	<b>Start Date</b>	<b>End Date</b>	<b>Quarter End Date</b>	<b>DSRIP Reporting Year and Quarter</b>
<b>Task</b> 1. Create list of Phase I and Phase II hot spots - Herkimer, Otsego and Schoharie	Project		In Progress	06/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 2. Develop referral/intake contracts with CBO's to perform outreach at hot spot locations	Project		In Progress	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Milestone #4</b> Survey the targeted population about healthcare needs in the PPS' region.	Project	N/A	In Progress	01/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> Community engagement forums and other information-gathering mechanisms established and performed.	Project		In Progress	01/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 1. Develop subcommittee to develop survey tool	Project		In Progress	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> "2. Brainstorm with committee how to best meet this measure, based on a Community Needs Assessment. Based on brainstorming, develop a community engagement plan. Develop survey tool (barriers to healthcare, what do you need that you are lacking, etc.)"	Project		In Progress	03/31/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Milestone #5</b> Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	Project	N/A	In Progress	09/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> PPS Providers (located in "hot spot" areas) trained in patient activation techniques by "PAM(R) trainers".	Project		In Progress	09/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 1. Develop training schedule	Project		In Progress	09/01/2015	09/30/2015	09/30/2015	DY1 Q2
<b>Task</b> 2. Implement PAM Assessment and CFA	Project		In Progress	10/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Milestone #6</b> Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. • Work with respective MCOs and PCPs to ensure proactive outreach to	Project	N/A	In Progress	09/21/2015	12/31/2016	12/31/2016	DY2 Q3

<b>Task</b> Navigators educated about insurance options and healthcare resources available to populations in this project.										
<b>Task</b> 1. Identify existing navigator resources to determine additional needs.										
<b>Task</b> 2. Train/Certify Navigator to enroll through the NYS of Health Marketplace										
<b>Task</b> 3. Utilize Navigators already trained (Bassett Health Insurance Navigators, Partnering Agency Navigators)										
<b>Milestone #16</b> Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.										
<b>Task</b> Timely access for navigator when connecting members to services.

Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
<b>Task</b> 1. Develop relationships with primary care, behavioral and dental providers.										
<b>Task</b> 2. Add PCP to committee roster										
<b>Milestone #17</b> Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.										
<b>Task</b> PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										
<b>Task</b> 1. Work with Health Home vendor (Netsmart) to build out Care Manager to accommodate DSRIP needs										
<b>Task</b> 2. Determine criteria and metrics for counting/tracking patient engagement--EHR data, encounter data, INTERACT tool usage, etc.										
<b>Task</b> 3. Evaluate existing capability for EHR patient engagement tracking										
<b>Task</b> 4. Identify technology enhancements/upgrades needed to count/track patient engagement										
<b>Task</b> 5. Implement technology enhancements/upgrades needed to count/track patient engagement										
<b>Task</b> 6. Identify workflow impact due to new technology, document new workflow										
<b>Task</b> 7. Train staff on technology and workflow

Milestone Name	Narrative Text
Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	
Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	
Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	
Survey the targeted population about healthcare needs in the PPS' region.	
Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	
<p>Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10).</p> <ul style="list-style-type: none"> <li>• This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member.</li> <li>• Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42</li> </ul>

CFR §438.104.	
Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	
Include beneficiaries in development team to promote preventive care.	
Measure PAM(R) components, including: <ul style="list-style-type: none"> <li>• Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service.</li> <li>• If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score.</li> <li>• Individual member's score must be averaged to calculate a baseline measure for that year's cohort.</li> <li>• The cohort must be followed for the entirety of the DSRIP program.</li> <li>• On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation.               <ul style="list-style-type: none"> <li>• If the beneficiary is deemed to be LU &amp; NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP.</li> </ul> </li> <li>• The PPS will NOT be responsible for assessing the patient via PAM(R) survey.</li> <li>• PPS will be responsible for providing the most current contact information to the beneficiary's</li> </ul>

**Project 3.a.i – Integration of primary care and behavioral health services**

**✓ IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: LCHP considers staff recruitment to be its main challenge in implementing Project 3.a.i. Under the integrated care model, licensed behavioral health professionals (NPs, RNs, and LCSWs) and behavioral health navigators will share many patient care responsibilities with physicians as team members. Recruitment of RNs and LCSWs is currently an obstacle; behavioral health navigator is a new position.  
Mitigation: A Workforce Committee has been assembled to identify all project workforce requirements, develop recruitment and retention strategies, develop certificate programs with local colleges, and provide staff training programs. LCHP partners are experienced in effectively responding to rural workforce challenges and will work collectively to develop innovative regional strategies.

Risk: Smaller organizations do not have IT staff available to accomplish needed requirements.  
Mitigation: LCHP is assessing IT needs for all projects to meet all requirements, and performing a gap analysis not only for functionality but for staffing as well, and expects to provide needed support for these organizations.

Risk: Technology analysis includes identifying interconnectivity gaps as well as ensuring HIPAA privacy requirements for mental/behavioral health and PHI are in full compliance while still meeting information-sharing needs. Because there is not a common IT platform across LCHP partners, the challenge presented by this will be identified in the gap analysis and addressed with specific plans to fill the gap. In addition, information sharing continues to be a logistical challenge, as regulations preclude primary care and behavioral health providers being able to share essential information, with a need to "break the glass". There is also a need to identify specific information to be shared, such as historical or just forward, to include medications, documentation of visit being completed and/or more. This challenge presents a barrier to fully completing project requirements.  
Mitigation: We continue to pursue resolution through collaboration in a voice with other PPSs and with appropriate government representatives. A corresponding need will be to educate patients about inappropriate information sharing as an essential part of their care.

Risk: The costs and amount of time to achieve PCMH recognition and interoperability at all sites will be challenging. Many primary care practices will be implementing EHRs, pursuing PCMH recognition, and implementing the project concurrently. Fortunately, most of these are affiliated with Bassett, which has implemented an EHR and achieved 2011 level 3 PCMH recognition at its sites. The County mental health clinics utilize different EHRs, which will make it difficult to electronically exchange data with PCPs.  
Mitigation: Bassett will provide the necessary IT and clinical support to practices implementing an EHR and pursuing PCMH. Most project sites currently submit patient-level data to a RHIO. The LCHP ITDAC Committee will assist the remaining sites to join a RHIO and work with them to develop interconnectivity and HIE.

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
<b>Task</b> 5. Identify screening frequency, identify customized screenings for special patient populations										
<b>Task</b> 6. Develop/update procedures related to conducting preventive care screenings										
<b>Task</b> 7. Examine EHR for SBIRT screening documentation current capability										
<b>Task</b> 8. Identify SBIRT screening requirements										
<b>Task</b> 9. Identify technology additions/updates needed to accommodate SBIRT screenings (includes hardware such as Tablets)										
<b>Task</b> 10. Examine EHR for PHQ screening documentation current capability										
<b>Task</b> 11. Identify PHQ screening requirements										
<b>Task</b> 12. Identify technology additions/updates needed to accommodate PHQ screenings (includes hardware such as Tablets)										
<b>Task</b> 13. Develop/update method to identify patients eligible for screenings (e.g., reports to filter for patients meeting criteria that indicates need for screening; flag chart if needed)										
<b>Task</b> 14. Develop reporting tools and report results										
<b>Task</b> 15. Identify criteria for "positive screening", alert provider (nurse/Care Coordinator and Patient Navigator) (develop an alert mechanism); identify criteria for "warm transfer" to begin withdrawal treatment Is Health-home referral 'warm hand-off'?										
<b>Task</b> 16. Define "warm transfer" process based on location; define process accordingly										
<b>Task</b> 17. Define communication/technology to achieve "warm transfer"										
<b>Task</b> 18. Case Manager reaches out and sets up appointments, works with Care Navigators if available, assists with breaking

<b>Project Requirements (Milestone/Task Name)</b>	<b>DY3,Q3</b>	<b>DY3,Q4</b>	<b>DY4,Q1</b>	<b>DY4,Q2</b>	<b>DY4,Q3</b>	<b>DY4,Q4</b>	<b>DY5,Q1</b>	<b>DY5,Q2</b>	<b>DY5,Q3</b>	<b>DY5,Q4</b>
down barriers such as lack of patient transportation										
<b>Task</b> 19. Partner develops a referral tracking process to monitor follow-up activity and consult notes returned to Partner; if not followed-up on, Partner develops a process to reach out to service provider and patient as needed, referring to Navigator services if available										
<b>Milestone #8</b> Use EHRs or other technical platforms to track all patients engaged in this project.										
<b>Task</b> EHR demonstrates integration of medical and behavioral health record within individual patient records.										
<b>Task</b> PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
<b>Task</b> 1. Survey Partners to determine current capability of integrating medical and behavioral health records										
<b>Task</b> 2. For Partners with potential capability to integrate medical and behavioral health records, identify where systems need to be enhanced to adequately integrate										
<b>Task</b> 3. Determine criteria and metrics for counting/tracking patient engagement										
<b>Task</b> 4. Evaluate existing capability for EHR patient engagement tracking										
<b>Task</b> 5. Identify technology enhancements/upgrades needed to count/track patient engagement										
<b>Task</b> 6. Implement technology enhancements/upgrades needed to count/track patient engagement										
<b>Task</b> 7. Identify workflow impact due to new technology, document new workflow										
<b>Task</b> 8. Train staff on technology and workflow										
<b>Milestone #9</b> Implement IMPACT Model at Primary Care Sites.										
<b>Task</b> PPS has implemented IMPACT Model at Primary Care Sites.	0	0	0	0	0	0	0	0	0	0

<b>Milestone #10</b> Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.										
<b>Task</b> Coordinated evidence-based care protocols are in place, including a medication management and care engagement process to facilitate collaboration between primary care physician and care manager.										
<b>Task</b> Policies and procedures include process for consulting with Psychiatrist.										
<b>Milestone #11</b> Employ a trained Depression Care Manager meeting requirements of the IMPACT model.										
<b>Task</b> PPS identifies qualified Depression Care Manager (can be a nurse, social worker, or psychologist) as identified in Electronic Health Records.										
<b>Task</b> Depression care manager meets requirements of IMPACT model, including coaching patients in behavioral activation, offering course in counseling, monitoring depression symptoms for treatment response, and completing a relapse prevention plan.										
<b>Milestone #12</b> Designate a Psychiatrist meeting requirements of the IMPACT Model.										
<b>Task</b> All IMPACT participants in PPS have a designated Psychiatrist.										
<b>Milestone #13</b> Measure outcomes as required in the IMPACT Model.										
<b>Task</b> At least 90% of patients receive screenings at the established project sites (Screenings are defined as industry standard questionnaires such as PHQ-2 or 9 for those screening positive, SBIRT).										
<b>Milestone #14</b> Provide "stepped care" as required by the IMPACT Model.										
<b>Task</b> In alignment with the IMPACT model, treatment is adjusted based on evidence-based algorithm that includes evaluation of patient after 10-12 weeks after start of treatment plan.										
<b>Milestone #15</b> Use EHRs or other technical platforms to track all patients

Co-locate behavioral health services at primary care practice sites. All participating primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	
Develop collaborative evidence-based standards of care including medication management and care engagement process.	
Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Co-locate primary care services at behavioral health sites.	
Develop collaborative evidence-based standards of care including medication management and care engagement process.	
Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.

**Instructions :**

Model 2, Milestone 5: Rewrite Task 5 as it seems to be worded that BH will be co-located into primary care. Some other tasks have this sense as well.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**Project 3.a.iv – Development of Withdrawal Management (e.g., ambulatory detoxification, ancillary withdrawal services) capabilities and appropriate enhanced abstinence services within community-based addiction treatment programs**

**IPQR Module 3.a.iv.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: Not all partners have functioning EHRs, EHRs vary, or cannot inter-communicate; timing of EHR connectivity requirement to RHIO/HIE/SHIN-NY depends on SHIN-NY activation.  
Mitigation: Standardize interoperability and data collection methods. Examine alternatives such as modifying strategy to accommodate SHIN-NY timeline changes. For partners without an EHR, IT/Data Analytics Committee to offer expertise, with primary focus on standardizing IT platform. For partners not currently submitting patient-level data to HIXNY or RHIO, ITDAC to share expertise to join RHIOs

Risk: Recruiting qualified substance abuse professionals is difficult in our rural region; currently, few physicians are board-certified as addictionologists in the region; is difficult to recruit other clinical and non-clinical staff.  
Mitigation: Seek credentialed physician board-certified in addictionology to treat opiate and other substances; contract to serve our PPS counties until one can be recruited. Also encourage primary care physicians to become ex-license to prescribe buprenorphine in order to spread heavy volumes across more providers & reduce ER visits. Collaborative Learning Committee to develop staff recruitment & retention solutions to include collaboration with Conifer Park (recently opened ambulatory detox program, extensive staff recruitment network). Use Mohawk Valley Community College CASAC certificate program to increase CASAC supply, consolidate recruitment with 2 other DSRIP projects requiring substance abuse staff (3ai & 4aiii), use creative recruitment/retention strategies, e.g., incentives, to attract providers. Workforce impact consultant to work with Collaborative Learning Committee & partners, such as AHEC, for creative workforce strategies and for online and in-person training to retrain employees. Leverage AHEC's cross-PPS job opportunities. If needed, identify new/existing partners having needed resources so participating partners can contract with them instead of hiring new staff

Risk: Clinical decisions not based on research, data and best practice guidelines; training not clinically-focused.  
Mitigation: Develop appropriate protocols, train staff.

Risk: Medical record systems do not reflect all data on patients or treatments; data not available to providers  
Mitigation: Strengthen communication and reporting among providers to share essential information

Risk: Limited resources for developing materials and conducting training  
Mitigation: Uuse economies of scale when training PPS staff using train-the-trainer model; will explore with other PPSs the possibility of shared training resources

Risk: Need to negotiate contracts w/ MCOs since many services are not reimbursed/under-reimbursed  
Mitigation: To negotiate contracts with MCOs, need to combine efforts across project teams within the PPS and across PPSs to

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

strengthen/consolidate the message & sustain patient care in DSRIP projects

Risk: Practitioner Engagement—individual practitioners not committed to DSRIP activities

Mitigation: Clinical Performance Committee, with representation of different practitioner types, will create a comprehensive practitioner communication & engagement plan to engage practitioners in program initiatives. Leverage existing practitioner gatherings such as Primary Care Council, Regional Medical Director Group, Clinical Leadership Group as models for clinical integration & practitioner engagement in creating PPS-wide professional groups. Develop referral protocols; engage early adopters to engage additional practitioners; address physician capacity to handle volume of Suboxone pts.

Risk: Insufficient funds, especially for smaller organizations

Mitigation: Engage funding sources like Robert Wood Johnson Foundation; leverage PHIP (Pop Hlth Improvement Program) to assist in finding other funding sources; share work collaboratively w/ other organizations

services with development of referral protocols.	
Include a project medical director, board certified in addiction medicine, with training and privileges for use of buprenorphine and buprenorphine/naltrexone as well as familiarity with other withdrawal management agents.	
Identify and link to providers approved for outpatient medication management of opioid addiction who agree to provide continued maintenance therapy and collaborate with the treatment program and care manager. These may include practices with collocated behavioral health services, opioid treatment programs or outpatient SUD clinics.	
Develop community-based withdrawal management (ambulatory detoxification) protocols based upon evidence based best practices and staff training.	
Develop care management services within the SUD treatment program.	
Form agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.	
Use EHRs or other technical platforms to track all patients engaged in this project.

**Project 3.d.iii – Implementation of evidence-based medicine guidelines for asthma management**

**IPQR Module 3.d.iii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

<p>Risk: Recruitment of clinical and non-clinical staff. Mitigation: LCHP will use creative regional recruitment and retention strategies, such as incentives, telemedicine for patient/provider access to attract providers, engaging a workforce impact consultant like AHEC, LCHP's Collaborative Learning Committee and partners. The PPS will leverage Bassett's relationship with local colleges, as well as nationally recognized universities, to create programs necessary to serve the population</p> <p>Risk: Patient engagement Mitigation: Care coordinators, patient navigators, case managers, and health educators will be critical team members at community- based provider sites. These staff will engage patients in care, facilitate implementation of asthma action plans, and champion patient self-management for better asthma control. Referral tracking and patient follow-up will be part of the ongoing strategies used to engage and re-engage patients in care</p> <p>Risk: Practitioner Engagement Mitigation: A comprehensive practitioner communication and engagement plan will be created by the Clinical Performance Committee to engage practitioners in the initiatives under DSRIP Program. This committee will have representation of different types of practitioners. LCHP will also leverage existing gatherings of practitioners within partners such as Grand Rounds, Primary Care Council, Regional Medical Director Group and Clinical Leadership Group as models for clinical integration and practitioner engagement in creating PPS-wide professional groups</p> <p>Risk: Partner Engagement Mitigation: Some essential LCHP Partners are not engaged in planning projects due to ambiguity in funds flow, contribution to project requirements, lack of designated resources to engage in planning and execution, etc. LCHP Operations Team will confirm current partner involvement in projects, reach out to partners who are deemed essential, and complete a funds flow model to better inform their involvement. LCHP will regularly update partners through by using various tools</p> <p>Risk: Clinical Interoperability - varying EHRs among partners present a challenge in interconnectivity. Additionally, involving new partners with varied EHRs later on in the process will add risk for clinically interoperability in the required timeline Mitigation: Patient registries will be required to track target patients and their care in the service area. Universal EHR connectivity is not present across service area providers. LCHP Operations Team will collaborate with partners since several proposed DSRIP projects will also rely on EHR systems and other technical platforms to track patient engagement. To address addition of new partners later on, LCHP Operations Team will confirm current partner involvement in this project, reach out to partners who are deemed essential, and complete a funds flow model to comfort partners on their participation</p>
---

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

Risk: EHR meeting connectivity to RHIOs HIE and SHIN-NY requirements on time is contingent on SHIN-NY activation date  
Mitigation: In case SHIN-NY activation's timeline varies from our commitment, we will not be able to meet this metric. LCHP will work on alternate possibilities such as plan modification to our strategy to accommodate any change in SHIN-NY roll-out timeline. For agencies without an EHR, the LCHP IT/Data Analytics Committee will offer its expertise, with a primary focus on standardization of IT products. For project participants who do not currently submit patient- level data to HIXNY or another RHIO, the IT/Data Analytics Committee will share expertise with appropriate partners to join RHIOs

**Narrative Text :**

Narrative: Provider engagement reflects commitment made with little understanding of project implementation speed and is not a true representation of applicable practitioners. Some of the reasons for incorrect understanding are not having clarity on State's definition on various provider types and linking them with project's goals. In order to reflect true provider commitment, LCHP (Leatherstocking Collaborative Health Partners) PPS Operations Team will review provider type for each provider in the network. This may need reaching out to network providers to understand their specialty. LCHP will provide results of this analysis in the DY1 Q2 quarterly report.

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Implement evidence-based asthma management guidelines between primary care practitioners, specialists, and community-based asthma programs (e.g., NYS Regional Asthma Coalitions) to ensure a regional population based approach to asthma management.	During the remediation period, we updated our provider ramp-up for this milestone to reflect the need of time to understand the issues in provider categorization and new information that we will receive shortly. However, we have not made any changes to the total number of committed providers.
Establish agreements to adhere to national guidelines for asthma management and protocols for access to asthma specialists, including EHR-HIE connectivity and telemedicine.	
Deliver educational activities addressing asthma management to participating primary care providers.	
Ensure coordination with the Medicaid Managed Care organizations and Health Homes serving the affected population.	
Use EHRs or other technical platforms to track all patients engaged in this project.

**Project 3.g.i – Integration of palliative care into the PCMH Model**

**IPQR Module 3.g.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: The wide differences in acquisition of EMRs and achieving PCMH recognition throughout the LCHP service region Mitigation: LCHP PPS in conjunction with PCMH project team plans to engaged PCMH consultant w/the NCQA/PCMH expertise needed for success Risk: Recruitment/funding of staff Mitigation: Project team will conduct a pilot program to test their approach, develop buy in and measure success. Team will use existing staff to test their model & further develop short and long term needs. LCHP will use creative regional recruitment and retention strategies, such as incentives, to attract providers and will use telemedicine to increase patient access to care and increase provider education and training. A workforce impact consultant will work closely with LCHPs Collaborative Learning Committee (CLC) and partners, such as AHEC, to employ creative workforce strategies. Utilizing the expertise of the workforce impact consultant, AHEC and the CLC, online and in-person training will be offered to retrain existing employees. LCHP also intends to leverage AHEC's cross-PPS job opportunities. The PPS will leverage Bassett's relationship with local colleges, as well as nationally recognized universities, to create programs necessary to serve the population. If needed, LCHP will identify new/existing partners needing resources so participating partners can contract with them instead of hiring new staff Risk: Negotiating contracts w/MCOs Mitigation: In order to negotiate contracts with MCOs, there is a need to leverage across project teams within LCHP/across PPSs to benefit all parties Risk: PCP Education Mitigation: Palliative Care team will develop a training curriculum that encompasses knowledge base, resources, and how to have the difficult conversations with patients when referring to Palliative Care as PCPs do not have a good understanding of Palliative Care. Risk: Insufficient funds, especially for smaller organizations Mitigation: Involve sources like Robert Wood Johnson Foundation, PHIP (Population Health Improvement Program) team to assist in finding other funding sources for needed resources to be successful in project Risk: Resources for developing training materials and conducting training Mitigation: Economies of scale will be implemented when training staff across the PPS, sometimes utilizing a "train the trainer" model for sharing learning and/or providing onsite training for multiple partners. It is expected that RNs will be hired without care coordination experience, trained with intent to become certified. LCHP will identify partners who can train other partners. LCHP will engage with other PPSs for exploring possibilities of shared training resources Risk: Clinical Interoperability Mitigation: Patient registries will be required to track target patients and their care in service area. Universal EHR connectivity is not present across service area providers. LCHP Operations Team will collaborate with partners since several proposed DSRIP projects will also rely on EHR systems and other technical platforms to track patient engagement. To address addition of new partners later on, LCHP Operations Team will confirm current partner involvement in this project, reach out to partners who are deemed essential, and complete a funds flow model to comfort partners on their participation.

**PPS Defined Milestones Narrative Text**

Milestone Name	Narrative Text
1-Adopt tobacco-free outdoor policies that support and enforce tobacco-free grounds throughout the PPS	
2-Develop and implement a policy to ensure screening and treatment of tobacco dependency following the US Public Health Service Guidelines.	
3-Use electronic medical records to prompt providers to complete 5 A's (Ask, Assess, Advise, Assist, and Arrange).	
4-Facilitate referrals to the NYS Smokers' Quit line.	
5-Increase Medicaid and other health plan coverage of tobacco dependence treatment counseling and medications.	
6-Promote smoking cessation benefits among Medicaid providers.	
7-Create universal, consistent health insurance benefits for prescription and over-the-counter cessation medications.	
8-Promote cessation counseling among all smokers, including people with disabilities.

**DSRIP Implementation Plan Project**

**Bassett Medical Center (PPS ID:22)**

**Attestation**

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Bassett Medical Center ', that all information provided on this Quarterly report is true and accurate to the best of my knowledge.

**Primary Lead PPS Provider:**

MARY IMOGENE BASSETT HSP

**Secondary Lead PPS Provider:**

**Lead Representative:**

Michael Tengeres
