Quarterly Report - Implementation Plan for Bronx-Lebanon Hospital Center

Year and Quarter: DY1, Q2

Quarterly Report Status:  Adjudicated

Status By Section

Section	Description	Status
Section 01	Budget	 Completed
Section 02	Governance	 Completed
Section 03	Financial Stability	 Completed
Section 04	Cultural Competency & Health Literacy	 Completed
Section 05	IT Systems and Processes	 Completed
Section 06	Performance Reporting	 Completed
Section 07	Practitioner Engagement	 Completed
Section 08	Population Health Management	 Completed
Section 09	Clinical Integration	 Completed
Section 10	General Project Reporting	 Completed
Section 11	Workforce	 Completed

Status By Project

Project ID	Project Title	Status
2.a.i	Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management	 Completed
2.a.iii	Health Home At-Risk Intervention Program: Proactive management of higher risk patients not currently eligible for Health Homes through access to high quality primary care and support services	 Completed
2.b.i	Ambulatory Intensive Care Units (ICUs)	 Completed
2.b.iv	Care transitions intervention model to reduce 30 day readmissions for chronic health conditions	 Completed
3.a.i	Integration of primary care and behavioral health services	 Completed
3.c.i	Evidence-based strategies for disease management in high risk/affected populations (adults only)	 Completed
3.d.ii	Expansion of asthma home-based self-management program	 Completed
3.f.i	Increase support programs for maternal & child health (including high risk pregnancies) (Example: Nurse-Family Partnership)	 Completed
4.a.iii	Strengthen Mental Health and Substance Abuse Infrastructure across Systems	 Completed
4.c.ii	Increase early access to, and retention in, HIV care	 Completed

Section 01 – Budget

IPQR Module 1.1 - PPS Budget Report (Baseline)

Instructions :

This table contains five budget categories. Please add rows to this table as necessary in order to add your own sub-categories. The budget categories used in this table should reflect the budget categories you used in your application. If budget entered varies from PPS application or previous implementation plan submission, please describe changes and justifications in the box provided.

Budget Items	DY1 (\$)	DY2 (\$)	DY3 (\$)	DY4 (\$)	DY5 (\$)	Total (\$)
Waiver Revenue	11,511,609	12,267,591	19,838,235	17,566,681	11,511,609	72,695,724

IPQR Module 1.3 - PPS Flow of Funds (Baseline)

Instructions :

In the table below, please detail your PPS's projected flow of DSRIP funds for the next five years, splitting out the flow of funds by provider type. The provider types match the categories used for the Speed & Scale portion of your Project Plan Application.

- This table requires your funds flow projections on an annual basis. Subsequent quarterly reports will require you to submit your actual distribution of funds to these provider categories on a quarterly basis.
- These quarterly submissions of actual funds distribution will ultimately be required at the provider level (as opposed to the provider type level required here)

Funds Flow Items	DY1 (\$)	DY2 (\$)	DY3 (\$)	DY4 (\$)	DY5 (\$)	Total (\$)
Waiver Revenue	11,511,608.53	12,267,591.17	19,838,234.53	17,566,680.96	11,511,608.53	72,695,724

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Narrative Text :

The Finance Committee engaged consultants to develop a Funds Flow distribution methodology by project, by provider type, by project goal. These consultants have met with all committees, project workgroups, and key stakeholders(from each provider type) throughout the PPS to develop this funds flow distribution methodology. As of the end of the quarter, the methodology draft was under revision based on the feedback from the various stakeholders. As a result, funds have not been distributed to partnering organizations.

Section 02 – Governance

✓ IPQR Module 2.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

		how they will be included in project delivery and in the development of your PPS network.							
Task Conduct a community network analysis to identify multi-function organizations that provide social, behavioral health and other support services	Completed	BLHC PPS will identify multi-function organizations that provide social, behavioral health and other support services (such as assistance with obtaining food and shelter) to their clientele. From the beginning, BLHC PPS has included many community organizations like as major participants in the development of the PPS. Additionally, BLHCPPS will include numerous smaller care coordination agencies in project development to make certain that those agencies working mostly closely with our vulnerable population have a voice.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
Task Conduct a gap analysis to ensure that patient needs identified in the Community Needs Assessment are aligned with the network service capacity	Completed	CBOs help to ensure that the PPS' attributed members have sufficient access to a range of services from vocational/technical education and training to health education to supportive housing and other services that may be identified in the Community Needs Assessment.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
Task Engage identified agencies through inter-agency meetings, town halls, and project advisory committees and begin to develop a formal relationship between the agency and PPS through MOUs or contracts	In Progress	The BLHC PPS has identified 13 community providers as participants into the PPS through either a letter of attestation or a signed agreement and will first contract with those entities. If the PPS finds that attributed members do not have sufficient access through these 13 providers, we will seek to expand the network, strategically selecting providers to fill gaps in access.	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Identify CBO agency staff to participate (either as a member or co-chair) on project and cross-functional workgroups. If applicable, request CBOs with expertise to conduct trainings for the PPS.	In Progress	As care and prevention shifts to the community, CBOs play an increasingly important role in ensuring the success of the PPS and DSRIP. As such, their expertise and participation on project and cross-functional workgroups cannot be understated. CBOs that possess an expertise applicable to the PPS patient population may provide training to others in the PPS. For example, a CBO may have expertise using peer engagement models that other agencies providing care coordination services in the PPS could benefit from.	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

✓ IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- Risk: The financial fragility of many participating providers; Mitigation: PPS Finance committee will monitor each participating provider initially and then annually;
- Risk: The culture of competition rather than cooperation that exists among similar agencies and providers; Mitigation: The PPS leadership will continue to meet with other PPS leaders in the Bronx to collaborate on services;
- Risk: the ability of the PPS to attain project goals within the proposed budget; Mitigation: The PPS will work with partners to identify cost effective strategies and will participate in learning collaborative focused on transformational activities;
- Risk: Lack of understanding of DSRIP and PPS among provider participants; Mitigation: The PPS will continue its stakeholder outreach activities to educate providers and the community about its goals;
- Risk: The ability to develop and implement a project management office in conjunction with the Mount Sinai PPS in a timely manner; Mitigation: The two institutions will begin implementation of the PMO prior to the start of DSRIP;
- Risk: The ability to develop meaningful data that will support the activities of the PPS; Mitigation: The PPS IT committee will continue to seek appropriate platforms and technology to assure meaningful data.

✓ IPQR Module 2.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The primary interdependency is the participating provider contract that will link providers to the PPS and establish the working relationship between the PPS and its provider network. This will require significant provider outreach and education. Integral to that network is an IT platform that is available to all PPS participants and establishes a framework for data exchange and management as well as reporting. The Workforce plan will be a key component of transformation for many providers as they move away from traditional facility based activities into community-based activities. It will be incumbent on the PPS to have a plan and program in place to retrain a sufficient number of providers to work in these community based settings providing case management and care coordination. The PPS network includes two Health Homes and we are leveraging resources from

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

the two Health Homes to provide support for care coordination and other social determinants of health. Additionally, a significant number of analysts will be necessary to manage the data and report on the activities of each of the projects and the PPS as a whole. The Steering Committee will establish a process for financially fragile providers to apply to the PPS for sustainability funds and for the PPS to take action on those requests. Finally, much of the transformation is based on changing beneficiary behavior. The PPS will develop culturally appropriate outreach and education to engage attributed members in care coordination and management that will assist them in achieving their health goals.

Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Bronx-Lebanon Hospital Center (PPS ID:27)

☑ IPQR Module 2.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for the development of your governance structure and processes and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PPS Governance and organization	Fred Miller	Establish LLC, PMO contract, Provider participation contracts, compliance program
PPS Compliance Officer	Yasmine Gourdian/Bronx Lebanon	Ensuring that the PPS is in compliance with all DSRIP related policies and procedures
Integrated Delivery System Implementation & Oversight	Virgilina Gonzalez/Bronx Lebanon	Establish and Implement DSRIP: IT, Project Implementation, PCMH Certification, Care Coordination, Stakeholder Engagement oversight. Reporting on milestones and metrics
Financial management and oversight	Victor DeMarco/Bronx Lebanon	Financial structure and management of PPS, treasury and accounting, financial oversight of PPS participating providers
IT Development and Implementation	Ivan Durbak/Bronx Lebanon & Dan Figueras/Urban Health Plan	IT platform, interconnectivity with PPS partners, data base management, performance reporting management
Workforce Committee	Rosa Agosto/ Urban Health Plan & Selena Griffin-Mahon/ Bronx Lebanon	Develop Workforce Strategy for BLHC PPS
PDI/Clinical Committee	John Coffey, MD/ Bronx Lebanon	Project Implementation strategy
PCMH	Blaze Gusic/Bronx Lebanon & Javiera Riveria/ Urban Health Plan	Engage providers and aid them in reaching PCMH Level 3
Care Coordination	Christina Coons/ VNSNY & Kathryn Salisbury / Mental Health Association - New York City	Functions as the central point for care coordination and Deliverables across the PPS
Stakeholder Engagement	Joann Casado/Urban Health Plan, Gary Rosario/ Bronx Lebanon & Roy Wallach/ Conifer Park-Armes Acre	Coordinate stakeholder communication for the PPS

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✔ Module 2.6 - IPQR Module 2.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Sam Shutman - Bronx-Lebanon Hospital Center	Governance Committee Member	Development and implementation of PPS Governance Structure
Neil Pessin- Community Care Management Partners; VNSNY	Governance Committee Member	Development and implementation of PPS Governance Structure
Dr. Isaac Dapkins - Bronx-Lebanon Hospital Center	Governance Committee Member	Development and implementation of PPS Governance Structure
Brent Stakehouse- Mount Sinai Hospital	Governance Committee Member	Development and implementation of PPS Governance Structure
Aida Morales- 1199 SEIU	Governance Committee Member	Development and implementation of PPS Governance Structure
Dr. Jeffry Levine- Bronx Health Home	Governance Committee Member	Development and implementation of PPS Governance Structure
Dr. Rosa Gil- Comunilife	Governance Committee Member	Development and implementation of PPS Governance Structure
Octavio Marin- Special Care Center, Bronx Lebanon Hospital Center	Governance Committee Member	Development and implementation of PPS Governance Structure
Paloma Hernandez- Urban Health Plan	Governance Committee Member	Development and implementation of PPS Governance Structure
Dr. Ramon Moquete- Hudson Heights IPA	Governance Committee Member	Development and implementation of PPS Governance Structure
External Stakeholders		
NY State DOH	Regulatory Organization	Rules and Policy
NYC DOHMH	Regulatory Organization	Rules and Policy
Legislators	Oversight to Policy and Engagement	Rules and Policy
External PPS	Treatment and Patients Interactions	Care Coordination
Medicaid Managed Care Plans	Treatment and Patients Interactions	Billing and Care Management
Advocacy Organizations	User Out-Reach and Structure	Influence and Committee Roles

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 2.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

A central tenant of effective governance is communication, as is evidenced by key organizational milestones, including:

- (1) Finalize community engagement plan, including communications with the public and non-provider organizations;
- (2) Finalize partnership agreements or contracts with CBOs; and
- (3) Finalize workforce communication and engagement plan.

Successful realization of these deliverables will require a shared IT infrastructure that includes Provider and Patient Engagement solutions, as identified in the organization's IT Plan, including the BL PPS Participant Portal and the Contact Center. These tools will allow the PPS to provide information and technical assistance across its network and service area, thus meeting governance-specific deliverables. In addition, a robust and shared IT infrastructure will minimize the risk for DSRIP under-performance and provide the PPS governing body with data and informatics required to support effective and strategic decision-making.

The PPS IT Committee expects to leverage the RHIO in several key capacities including the exchange of clinical information between organizations, aggregation and consolidation of Actively Engaged patients, and Centralized analytics. Most immediately, the RHIO's patient matching algorithm will be leveraged for aggregating the Actively Engaged patients. This will minimize any duplicative counting across organizations. Each organization participating in the projects will either export a flat file or interface with the RHIO with the actively engaged patient data.

In terms of the long-term expectations, the IT Committee has engaged the project workgroups to finalize the data exchange needs of the PPS. It is expected the RHIO will meet these interface and exchange needs in a phased approach, targeting key organizations that are required for the projects success. As the RHIO increases the number of PPS data feeds, the quality and richness of the data will increase. This data will feed the reporting database for Centralized analytics.

✓ IPQR Module 2.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

The governance work stream will be successful when the Steering Committee is operating as the governing board of the PPS and is approving budgets, distributing funds, contracted for services with the PMO, overseeing and monitoring quality and compliance and fostering outreach to providers and beneficiaries. In 5 years, the LLC will be engaged in risk contracts with MCOs that reflect an integrated delivery system developed by the PPS.

IPQR Module 2.9 - IA Monitoring

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Section 03 – Financial Stability

✓ IPQR Module 3.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV

Milestone Name	Narrative Text
Finalize PPS finance structure, including reporting structure	
Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	
Finalize Compliance Plan consistent with New York State Social Services Law 363-d	
Develop detailed baseline assessment of revenue linked to value-based payment, preferred compensation modalities for different provider-types and functions, and MCO strategy.	
Finalize a plan towards achieving 90% value-based payments across network by year 5 of the waiver at the latest	
Put in place Level 1 VBP arrangement for PCMH/APC care and one other care bundle or subpopulation	
Contract 50% of care-costs through Level 1 VBPs, and >= 30% of these costs through Level 2 VBPs or higher	
>=90% of total MCO-PPS payments (in terms of total dollars) captured in at least Level 1 VBPs, and >= 70% of total costs captured in VBPs has to be in Level 2 VBPs or higher

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

The financial stability of BLHC, the lead entity, will have a major impact on the financial sustainability of the PPS. BLHC anticipates a reduction in admissions and is planning a reduction in bed capacity to adjust for this. Other institutional providers, specifically nursing facilities in this PPS, are still struggling with the concept of reduced admissions or changes in business practices. Their ability to make adjustments will impact their financial stability and ability to achieve project goals of the PPS as well. The Steering committee has approved a budget plan that includes a sustainability fund. This fund is 5% of the budget in year 1 and grow to 35% of the budget in year 5, allowing the PPS to provide funds to partners who are experiencing financial issues. Partners will apply to receive funds from the sustainability fund through a grant application process. Grants will be approved by the Steering committee and managed by the Finance Committee through the PMO.

Risk: inability to collect and analyze data for reporting. Mitigation: The PPS is developing systems and relationships, such as with the RHIO, that could permit better access to more complete data.

Risk: PPS providers may not be able to produce data timely. Mitigation: Provisions of the provider contract will tie incentive payments to timely and accurate data reporting.

Risk: The ability of the PPS to transition to VBP. Mitigation: The PPS is developing a major provider outreach and educational campaign to teach providers about VBP and help them prepare for it.

IPQR Module 3.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The financial sustainability strategy is dependent on an integrated IT system that generates information necessary to make decisions about the PPS' ability to assume financial risk arrangements. The IT system will also support the on-going monitoring of PPS partner's financial health and the "budget to actual" of each of the projects, among other financial indicators. The 10 clinical projects will ultimately change the healthcare delivery system into a more integrated community based system. This transformation will be guided and monitored by the finance committee. As healthcare delivery is transformed, changes into the workforce could create financial challenges for PPS partners. The sustainability fund will be available, by application, to help with the changes in each individual provider's workforce. The PPS will rely on the active stakeholder engagement workgroup to educate providers about the PPS and DSRIP participation, their individual roles in projects and workgroups, and the funds that will be available to support implementation.

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 3.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The BLHC PPS's IT infrastructure will enable detailed monitoring of program performance across the entire PPS and the multiple work streams, including by the CFO and the finance team along multiple dimensions relevant to financial operations, value-based payment, and PPS sustainability through PPS-wide data sharing platforms such as the provider portal and Customer Relationship Management (CRM) tools. The IT infrastructure will allow tracking of performance metrics across all DSRIP metrics and milestones to help inform the Financial Sustainability work stream as they strategize how best to incentivize behaviors among PPS members that will lead to achievement of quality care, patient satisfaction, and shared financial goals. The CFO and finance team will utilize this capability to develop specific reports that will provide insight into the performance of the PPS from a financial sustainability perspective to drive strategy, as well as compute appropriate payments to PPS members, based on the findings from these reports. They will also be able to monitor dashboards to identify high-cost centers within the PPS and to assess financial risks to - and opportunities for - the organization. In addition, member organizations will submit reports and data relating to DSRIP business and financial operations electronically to the PPS finance team. Additionally, through the development and use of an integrated IT platform that is geared to monitoring performance and improving outcomes, the PPS will be well suited to continue its growth and long-term strategy to sustain a value based payment and practice system, while meeting the diverse needs of the BLHC PPS's population.

The PPS is working to establish a CRM tool in order to track all reporting functions of the PPS and all contracts. This will include the reporting of financial metrics on a quarterly basis. The data will be self-reported through easy-to use portal system. The RHIO data warehouse containing information from providers and payers will serve an essential purpose in evaluating value-based payment options as the PPS matures. The PPS will also be able to share reports and performance measures along all dimensions, both financial, and non-financial, across the PPS through provider portals, the PPS website, CRM, and care management and coordination tools to help drive the entire network towards improving performance and long-term financial sustainability.

The PPS IT Committee expects to leverage the RHIO in several key capacities including the exchange of clinical information between organizations, aggregation and consolidation of Actively Engaged patients, and Centralized analytics. Most immediately, the RHIO's patient matching algorithm will be leveraged for aggregating the Actively Engaged patients. This will minimize any duplicative counting across organizations. Each organization participating in the projects will either export a flat file or interface with the RHIO with the actively engaged patient data.

In terms of the long-term expectations, the IT Committee has engaged the project workgroups to finalize the data exchange needs of the PPS. It is expected the RHIO will meet these interface and exchange needs in a phased approach, targeting key organizations that are required for the projects success. As the RHIO increases the number of PPS data feeds, the quality and richness of the data will increase. This data will feed the reporting database for Centralized analytics.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 3.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Financial sustainability will be measured by the ability of the PPS to adhere to the budget and deliver successful projects within the constraints of those budgets. Ultimately, the PPS will be successful if it is able to transform its 10 projects into an organized delivery system that is capable of assuming risk for its attributed population and successfully managing the health of that population and the budgets that support that population health.

IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk: High level health conditions and cultural diversity of the PPS population. The population of the BLHC PPS as described in the CNA is 72% Medicaid 65% Hispanic/Latino; 33% percent African American, Caribbean, West African. One quarter of this population speak English "not very well"; 38% are below the federal poverty line; 15.8% are unemployed; have the highest rates of premature death from HIV/AIDS, heart disease, diabetes, cancer, and/or injury in NYS. Mitigation: This means that the PPS has to take steps to combat not just disease conditions but the social determinants that exacerbate those treated conditions. The PPS has already made great strides in dealing with these issues, as seen in the existing programs and targeted actions within the PPS. The PPS will leverage the health home programs to help mitigate the health disparities and social detriments of health for the PPS targeted population. To fully complete the measures and metrics laid out in the plan, integration of both medical and social services must continue. The diverse needs of the population are a challenge to the outcome of the projects because there will be no standard solution. The actions that are taken by the PPS must be as diverse as the population that the PPS serves.

Risk: Training capacity and employee engagement. Mitigation: Workforce will need to work closely with PDI project leads, Stakeholder Engagement, and TEF to ensure that there are sufficient resources to train up existing and newly hired staff on the unique cultural competency and health literacy challenges of the PPS population and that the content of the training coincides with project development.

IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The successful implementation of the cultural competency and health literacy strategy is dependent on several closely tied work streams within and outside the PPS. The Community Needs Assessment Committee played a vital role in describing the patient population and identifying the underlying causes of health disparities. The Workforce committee must work closely with TEF in order to identify existing curricula and develop standardized training material for the PPS. This process necessitates buy-in from multiple segments of the healthcare workforce and strong provider engagement by the Stakeholder Engagement Workgroup to educate partners on the linkage between cultural competency and health literacy and health outcomes. Resources must be allocated by the Finance Committee. A common training and evaluation plan must be developed in conjunction with TEF and IT to ensure that the cultural competency and health literacy gap is closed and that outcomes are properly tracked. Project milestones, tasks, and outcomes relating to CC/HL need to be reviewed and incorporated into the overall strategy. Other patient communication vehicles (e.g. patient portal and PPS website) will need to be reviewed for cultural competency and health literacy. Project staff will be informed of the training by the PDI and the Care Coordination Cross Functional Workgroups. Steering committee will ultimately be responsible for reviewing the CC/HL standards that are developed and accepting them for the PPS.

✓ IPQR Module 4.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Workforce Committee Co-Chairs	Rosa Agosto / Urban Health Plan & Selena Griffin Mahon / Bronx Lebanon	Ensure that the workforce committee is meeting and that tasks are being accomplished in a timely manner, provide leadership and guidance
Workforce Project Team	Members of Workforce Committee, project leads, union representation, subject matter experts	Give input on existing cultural competency and health literacy resources in the community. Key deliverable includes the development of CC/HL standards for the PPS.
Stakeholder Engagement Cross Functional Workgroup	Roy Wallach / Arms Acres	Build communication plan with stakeholders. Ensure we have an accurate list of stakeholders and that stakeholders understand what information the workforce committee needs and why. Key deliverables includes presenting CC/HL standards to PPS stakeholders.
Project Development and Implementation (PDI) / Clinical Committee	John Coffey / Bronx Lebanon	Project Implementation strategy; identifying key health challenges for the priority populations in project workgroups; Provide accurate forecasts of necessary CC/HL needs and workforce competency needs; work with partners to gather partner specific information
CC/HL Sub-committee	Members of Workforce Committee, project leads, stakeholder engagement, union representation, subject matter experts	Give input on existing cultural competency and health literacy resources in the community. Key deliverable includes the development of CC/HL standards for the PPS.
Care Coordination Cross Functional Workgroup	Christina Coons / VNSNY & Kathryn Salisbury / Mental Health Association of New York City (MHA-NYC)	Provide guidance on roles, responsibilities, and skill sets (including cultural competency and health literacy) of care coordination staff that work directly with patients.
Workforce Clearinghouse	Established by the PPS and 1199SEIU Leagues Training and Employment Funds (TEF)	Entity established to serve all PPS participating partners in order to assist with assessing training needs, securing necessary training, providing trainings, developing curricula, and working with employees on retraining and redeployment

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
External Stakeholders		
Labor Unions	Workforce Committee Partner	Employee awareness and education
Organizations that provide cultural competency and health literacy training	Workforce Committee Partner	Deliver training activities
Advocacy Groups (LGBTQ health, people with disabilities, etc.)	Workforce Committee Partner	Provide input and feedback on CC/HL strategy
Faith-based organizations	Workforce Committee Partner	Provide input and feedback on CC/HL strategy
Training and Employment Funds (TEF)	Workforce Committee Partner	Develop curriculum and other training materials; track and monitor training outcomes

New York State Department Of Health
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 4.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

The development of a cultural competency/health literacy strategy and the development of a shared IT infrastructure will take place concurrently, each informing the other through project DY1. Key points where cultural competency and health literacy must be considered when establishing the PPS's shared IT infrastructure include:

- (1) Definition of granular data elements to be collected, and the standardization of data collection across the network;
- (2) The development and implementation of a population health analytics platform that includes measurement of health literacy, and which allows for analysis of the impact of health literacy on outcomes for target populations, and the ability to track the cultural makeup of the PPS's population and the surrounding areas;
- (3) The development and implementations of culturally competent protocols to support the deployment of care management and coordination tools;
- (4) Providing assistance to providers and community-based organizations and healthcare entities that do not have the infrastructure to collect, analyze, and use the data;
- (5) Recognition of cultural competence in the development of referral management tools;
- (6) Accounting for Health Literacy and Cultural Competence in the development and implementation of patient engagement tools, including the Patient Portal and Warmline; and
- (7) Tracking improvements in provider cultural competence and patient health literacy through newly implemented business intelligence and analytics tools.

Additionally, the IT strategy will enable the PPS to monitor and track usage of key programs and services that promote cultural competency and health literacy. Through the established data sharing platforms, such as the provider and public portals, call center, and Customer Relationship Management Tools (CRM), the PPS will enable sharing resources and data to community-based organizations, workers, providers, and patients. As the IT system is developed, mechanisms will be put in place to support and monitor cultural competency and health literacy needs including monitoring and tracking the cultural makeup of a PPS and surrounding area, integration with community health care entities/centers, and monitoring the cultural competency of staff.

IPQR Module 4.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Workforce population: % of staff members that complete training modules within the identified time period; % of staff that score within target % range on a post-training competency evaluation; % of staff that report satisfaction with the training upon completion

Patient population: % of patients who have improved compliance with attending appointments; % of patients that demonstrate improved adherence with medication; % of patients with reduced unnecessary medical utilization; % of patients with improved satisfaction scores with health literacy efforts.

IPQR Module 4.9 - IA Monitoring

Instructions :

✓ IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- Risk 1: PPS partners not fully comprehending the IT requirements;
Mitigation Strategy: Engage in comprehensive community-based partner education through workshops, web-based learning tools and 1:1 interaction at partner sites; development of education materials by provider type to clearly state expectations and requirements.
- Risk 2: Partners inability to achieve meaningful adoption of IT capabilities to connect to centralized IT services and engage in data sharing;
Mitigation Strategy: PPS has planned for provision of technical assistance with relation to EHR adoption and PCMH certification. PPS will establish incremental IT adoption milestones and site visits to ensure progress towards defined requirements and performance objectives. Financial incentives will be put into place to encourage IT adoption by partners with DSRIP dollars.
- Risk 3: Breadth of EHRs and electronic platforms currently in use may pose significant barrier and/or cost for development of interfaces by vendors for HIE connectivity;
Mitigation Strategy: PPS IT committee will conduct a deeper assessment to better understand vendors within PPS, work to negotiate interfaces for top volume platforms first; as well as work with partners without IT platforms to adopt software from a select set of vendors.
- Risk 4: Consent process may inhibit ability to access and share pertinent patient data;
Mitigation Strategy: Continue to coordinate with GNYHA, other PPSs, RHIOs and stakeholders to drive policy change and consent education for patients through providers to continually improve level of consent and mitigate policy barriers.
- Risk 5: As with any collaborative, stakeholders may not reach consensus on strategic, business or governance decisions in a timely manner;
Mitigation Strategy: Implementation plan will carefully map out deliverable/decision points and risks of indecision will be raised immediately to PPS leadership for arbitration; PPS will leverage State guidance on key business and technical decisions where appropriate.
- Risk 6: New information that becomes available over the course of the project on IT systems and processes may require changes to the developed IT plans and strategy.
Mitigation strategy: Update impacted plans based on quarterly reports on each milestone work stream.

✓ IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

The IT Systems and Processes work stream is dependent on several other work streams, including: governance, workforce strategy, performance reporting, and, over time, financial sustainability.

The main interdependencies with governance include bylaw and policy creation for data sharing and confidentiality, creation of change management strategies, contracting with external community-based organizations to ensure appropriate IT usage and engagement, and participation/ performance monitoring.

The main interdependencies with workforce strategy include the development of relevant training programs and materials, hiring appropriately qualified staff as needed, and defining/ achieving a target workforce state that includes IT usage capabilities.

The main interdependencies with performance reporting include developing clinical quality and performance dashboards, and developing/employing training programs.

The main interdependencies with financial sustainability include ensuring appropriate allocation and usage of funding, and over time, the adjustment and adaptation of funding and/or pricing for financially fragile providers and organizations.

IT systems represent the largest capital expenditure, with many partners requesting funding, therefore continuous management of this allocation is crucial.

The IT Systems and Processes work stream is a critical aspect of creating a successful Integrated Delivery System (IDS), and therefore will impact many of the other work streams, but does not have specific dependencies on them.

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 5.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Provision of centralized IT services to fulfill 2.a.i and other project core IT requirements	PPS IT Committee (Co-Chairs: Dan Figueras and Alison Connelly-Flores), PMO	Design, plan and implementation of IT infrastructure to achieve: bidirectional data sharing, HIE connectivity, alerts, messaging, care coordination, PCMH level III and adoption of MU II eligible EHRs
Provision of IT and data governance for PPS partners, RHIOs and coordination with State entities and MCOs for data exchange, analytics, reporting, etc.	Ivan Durbak	<ul style="list-style-type: none"> - Data governance model and data use agreement(s) by provider type - Minimum Data Set requirements by provider type - HIPAA and IS compliance policies, training and infrastructure - Data and user access management & audits - Vendor selection and management
Provide consistent, impartial and balanced leadership for PPS IT strategy and infrastructure needs	PPS IT Committee (Co-Chairs: Dan Figueras and Alison Connelly-Flores), PMO	IT leadership on behalf of BL PPS partners to ensure IT strategy, investments and services/ infrastructure meet the needs of the PPS, address critical gaps and enable ongoing rapid cycle evaluation and performance management
Operational leadership and Performance management oversight	BL PPS, Inc.: Director of IT (TBD)	<ul style="list-style-type: none"> - Development of performance management and reporting tools - Development of dashboards as needed by PPS leadership, committees and providers - IT implementation plan management; daily oversight of project teams and vendors - Lead development of technical assistance and resources with vendors, project teams, etc.

✓ IPQR Module 5.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Alison Connelly-Flores, Urban Health Plan Inc., IT Committee Member	Accountable to BL PPS Board and Executive committee for delivery of IT strategy for PPS	Delivery of IT infrastructure Ensure coordination with PPS partners for assessment, planning, implementation, ongoing management, reporting and process improvement; Ongoing coordination and strategy alignment across PPS to ensure data sharing and care coordination for significant proportion of PPS members; Responsible for development of implementation plan with in put from committee members
Charlie Carroll, Upper Room AIDS Ministry, Inc., IT Committee Member	Accountable to BL PPS Board and Executive committee for delivery of IT strategy for PPS	Delivery of IT infrastructure Ensure coordination with PPS partners for assessment, planning, implementation, ongoing management, reporting and process improvement; Ongoing coordination and strategy alignment across PPS to ensure data sharing and care coordination for significant proportion of PPS members; Responsible for development of implementation plan with in put from committee members
Chase McCaleb, Bronx Lebanon Integrated Services System Incorporate, IT Committee Member	Accountable to BL PPS Board and Executive committee for delivery of IT strategy for PPS	Delivery of IT infrastructure Ensure coordination with PPS partners for assessment, planning, implementation, ongoing management, reporting and process improvement; Ongoing coordination and strategy alignment across PPS to ensure data sharing and care coordination for significant proportion of PPS members; Responsible for development of implementation plan with in put from committee members
Chris Quiñones, Community Healthcare Network , IT Committee Member	Accountable to BL PPS Board and Executive committee for delivery of IT strategy for PPS	Delivery of IT infrastructure Ensure coordination with PPS partners for assessment, planning, implementation, ongoing management, reporting and process improvement; Ongoing coordination and strategy alignment across PPS to ensure data sharing and care coordination for significant proportion of PPS members; Responsible for development of implementation plan with in put from committee members
Cory Sherb, Selfhelp Community Services, Inc., IT Committee Member	Accountable to BL PPS Board and Executive committee for delivery of IT strategy for PPS	Delivery of IT infrastructure Ensure coordination with PPS partners for assessment, planning, implementation, ongoing management, reporting and process

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 5.7 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The IT work stream leadership will develop a comprehensive implementation plan, supplemented by GANTT chart outlining quarterly milestones based on performance requirements (DSRIP) and implementation milestones for the PPS IT strategy. The implementation plan will provide a measurable guide for progress that will be regularly shared with Leadership and collaborating committees to ensure provision of deliverables, services and functionality in line with PPS scale and speed, and overall PPS IT requirements. In addition to IT implementation progress tracking and management, the committee will engage in PPS partner feedback requests through surveys and discussion forums to ensure solutions and services continually meet partner needs, expectations and deliver value. Example measures to be tracked include EHR adoption, Meaningful Use, PCMH L3 certification, use of evidence-based guidelines, patient engagement systems, data exchange agreements, etc.

IPQR Module 5.8 - IA Monitoring

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Section 06 – Performance Reporting

✓ IPQR Module 6.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Establish reporting structure for PPS-wide performance reporting and communication.	In Progress	Performance reporting and communications strategy, signed off by PPS Board. This should include: -- The identification of individuals responsible for clinical and financial outcomes of specific patient pathways; -- Your plans for the creation and use of clinical quality & performance dashboards -- Your approach to Rapid Cycle Evaluation	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	NO
Task PMO will Identify PPS resources that are responsible for clinical and financial outcomes of specific patient pathways	In Progress	Staffing and Resource Plan for Outcomes Monitoring and Reporting	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task PMO will collaborate with NYSDOH, industry subject matter experts, and stakeholders to define performance measures/metrics to track and report on processes and outcomes. Develop effective communication strategy for PPS partners/stakeholders	In Progress	Performance Measures/Metrics, and Communication Strategy	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task PMO, with the IT Committee will define PPS-level dashboard technology that will be used by providers/organizations/staff to monitor outcomes and guide targeted quality improvement interventions. Update communication strategy as needed	In Progress	Technology Architecture for Dashboard Technologies, and Communication Strategy	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4

IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- Risk 1: The performance monitoring and reporting infrastructure that will be provided by NYSDOH relative to what will be provided by the PPS is not clearly defined at this time. Mitigation Strategy: Close collaboration between the NYSDOH and PPSs across the state will be necessary in order to mitigate this risk. In addition, increased transparency by the NYSDOH could provide PPS with necessary information to implement an effective strategy that spans all DYs.
- Risk 2: Some organizations/providers within the PPS could be reluctant to agree to strict performance reporting and monitoring, particularly in comparison to their competitors within the same PPS. Mitigation Strategy: This risk can be mitigated by a strong governance/sub-committee presence, and effective communication strategy that addresses specific provider/organizational concerns.
- Risk 3: The PPS is a multi-stakeholder environment where many varying opinions and voices will exist. It is often difficult to define and implement specific performance metrics in this kind of environment. Mitigation Strategy: This risk can be mitigated by developing an initial set of PPS-level performance measures/metrics, with input from the NYSDOH and industry subject matter experts, and incorporating stakeholder input as appropriate throughout the process.
- Risk 4: Ability to connect effectively to the RHIO for data sharing. Mitigation Strategy: Connecting all providers to the RHIO in a timely manner to improve data sharing and analytics so we can identify issues with performance.
- Risk 5: Ability of the RHIO to create a data analytics tool. Mitigation Strategy: Working closely with the RHIO to identify and create the specs for performance and quality metrics by project. As well as the creation of profiles by patient, providers, etc.

IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The Performance Reporting work stream has dependencies on several other work streams, including IT, Governance, and Workforce. This work stream is dependent on the IT Systems and Processes work stream because these systems will enable performance monitoring and reporting through the creation of an integrated data network. Performance Reporting is interlinked with the Governance of the PPS. Without effective leadership and a clearly defined organizational structure with clear responsibilities and lines of accountability, our ability to embed performance reporting structures and processes will be severely limited. The Workforce Strategy work stream is also an important factor in our efforts to developing a consistent performance reporting and to embed the performance reporting framework we will establish. Training on the use of these

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

systems will need to be a central part of our broader training strategy for all the staff who are impacted by our workforce transformation. The success of performance reporting relies on quick and accurate transfers of vital performance information. Practitioner Engagement and Clinical Integration will both be absolutely crucial to the success of our efforts to create a common performance culture throughout the PPS network, and to embed the new performance reporting practices.

✓ IPQR Module 6.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Oversight and accountability for delivery of performance reporting capability	PPS Leadership; CIO; IT Committee	<ul style="list-style-type: none"> • Performance reporting infrastructure (design, planning and implementation) • Coordination with NYDOH, PPS partners and other sources for data collection • Development of dashboards to enable performance management and rapid cycle evaluation • Management and oversight of performance reporting and data collection staff and project leads, including engagement of committees and governance leads to inform process
Responsible for informing development of performance tools, monitoring performance of partners and PPS, informing process improvement and corrective action	PPS Leadership (CFO, CEO, CMO), Finance Committee; IT Committee; Project Development and Implementation (PDI) Committee	<ul style="list-style-type: none"> • Inform identification of key indicators and operational, clinical, financial, quality and other performance metrics • Responsible for informing development of dashboards, performance thresholds, reviewing data/reports and making recommendations to Governing Board on necessary actions
Develop and provide training on clinical quality and performance improvement	Workforce Committee	<ul style="list-style-type: none"> • Coordination with the PPS Leadership, IT, and Finance to ensure that staff participating in DSRIP projects are properly trained to report data required for performance monitoring.
Provision of claims data, benchmark data and support in development of population health analytic tools	MCOs	Coordinate with PPS in provision of claims data and benchmark data to support performance management; potential for contract negotiation based on improved total cost management
Provide general oversight to DSRIP projects	PMO Office	Coordinate with PPS in establishment and progress of DSRIP projects
Provide general oversight to DSRIP projects	DSRIP Clinical Leads	Members of Project accountable for quality of patient care and financial outcomes per project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 6.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Alison Connelly-Flores, Urban Health Plan Inc., IT Committee Member	Accountable to BL PPS Board and Executive committee for performance reporting for PPS	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
Charlie Carroll, Upper Room AIDS Ministry, Inc., IT Committee Member	Accountable to BL PPS Board and Executive committee for performance reporting for PPS	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
Chase McCaleb, Bronx Lebanon Integrated Services System Incorporate, IT Committee Member	Accountable to BL PPS Board and Executive committee for performance reporting for PPS	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
Chris Quiñones, Community Healthcare Network , IT Committee Member	Accountable to BL PPS Board and Executive committee for performance reporting for PPS	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
Cory Sherb, Selfhelp Community Services, Inc., IT Committee Member	Accountable to BL PPS Board and Executive committee for performance reporting for PPS	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
Dan Figueras, Urban Health Plan, Inc., IT Committee Member	Accountable to BL PPS Board and Executive committee for performance reporting for PPS	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
Gary Lapon, CHN, IT Committee Member	Accountable to BL PPS Board and Executive committee for performance reporting for PPS	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
Henry Denis, American Dental Offices, IT Committee Member	Accountable to BL PPS Board and Executive committee for performance reporting for PPS	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format

External Stakeholders		
NY State DOH	Provision of statewide/PPS dashboards and performance data	Provide data, including claims data, consolidated reports and web-based dashboards for PPSs for performance management; provide templates for DSRIP performance reporting; provide common operational definitions for metrics and milestones and reporting requirements; provide guidance on performance improvement opportunities and evidence-based guidance and PPS benchmark data

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
NYC DOH	Provision of claims data, benchmark data and support in development of population health analytic tools	Provide data, including claims data, consolidated reports and web-based dashboards for PPSs for performance management; provide templates for DSRIP performance reporting; provide common
Managed care organizations	Will provide key information to the PPS. Will also be necessary for arranging shared shavings agreements with the PPS in the later stages of DSRIP	Provide data to PPS Shared saving
Patient representative organizations	Provide patient feedback to support performance monitoring and performance improvement	Input into performance monitoring and continuous performance improvement processes
CBOs	Will provide key information to the PPS.	Provide data to PPS
PCP	Will provide key information to the PPS.	Provide data to PPS

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 6.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

The development of shared IT infrastructure across the PPS will support performance reporting in numerous ways. The HIT system will utilize robust data sets supporting proactive comprehensive care and DSRIP performance management, operating within an integrated data network providing data-driven clinical decision making. Core DSRIP performance metrics and milestones will be integrated within performance dashboards and PPS reporting at the governance partner and individual provider level to ensure transparency and enable pro-active risk management. Sub-committees will be responsible for goal setting and monitoring across the PPS, raising risks to leadership and recommending remediation.

The PPS IT Committee expects to leverage the RHIO in several key capacities including the exchange of clinical information between organizations, aggregation and consolidation of Actively Engaged patients, and Centralized analytics. Most immediately, the RHIO's patient matching algorithm will be leveraged for aggregating the Actively Engaged patients. This will minimize any duplicative counting across organizations. Each organization participating in the projects will either export a flat file or interface with the RHIO with the actively engaged patient data.

In terms of the long-term expectations, the IT Committee has engaged the project workgroups to finalize the data exchange needs of the PPS. It is expected the RHIO will meet these interface and exchange needs in a phased approach, targeting key organizations that are required for the projects success. As the RHIO increases the number of PPS data feeds, the quality and richness of the data will increase. This data will feed the reporting database for Centralized analytics.

✓ IPQR Module 6.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The success of the work stream will be measured against progress in the planning, design and deployment of performance reporting processes and tools that will enable users to access health information on centralized dashboards. Performance reporting will begin as a manual process and increase over time to allow for greater automation capabilities for queries, user features and other data points. The IT Committee will coordinate with PPS governance and committee leadership to define the requirements and milestones for performance reporting capabilities within a timeframe aligned with State-provided reporting templates and timelines. Measures of success will be included that are relevant to the specific health markers of the population being managed.

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk: The level of engagement of our practitioners in the PPS varies. The risk is whether or execution of a provider outreach strategy reaches all providers in the community. We have some practitioners that are heavily involved playing key roles on both projects and committees. At this stage our current engagement activities are focused on education of our practitioners to what DSRIP is and how they can participate in the process. We are changing and challenging the way they do business and it is important that they see the value that this transformational process will bring the long run.

Mitigation: We will encourage and foster committee formation, drive representation in governance, and create leadership development programs, etc. to address the appropriately identified risks of provider engagement. To mitigate this risk, we will involve a 'train the trainer' approach as part of our training and education program. We will also develop electronic and printed training materials that will continue to engage practitioners in the DSRIP program, even if they join a provider after the practitioner education and training roadshow. This is designed to ensure the core behaviors and practices of our DSRIP program remain embedded within organizations.

Risk: Provider resistance to working to achieve PCMH Level 3 due to a lack of admin support to implement this change, amongst other reasons.
Mitigation: The PPS will develop a plan to provide support to assist providers to meet PCMH and MU.

IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Communication with stakeholders through a variety of media including a newsletter, regularly scheduled town hall meetings, PAC meetings, and on-going project committee work are all designed to engage stakeholders as often as possible in PPS activities. Primary dependencies however, are the Finance Committee and its work to develop project budgets, funds flows to providers engaged in each project and an incentive payment distribution methodology that is clear and understandable to providers. The IT Committee, Stakeholder Engagement Workgroup, and Workforce Committee will also be critical to the success of practitioner engagement. Many practitioners will need significant support from the PPS to engage in clinical integration, population health management strategies, and in adopting IT systems that allow for communication and data flow between PPS members. The PPS is also engaging providers to develop a process for them to reach PCMH level III certification. Stakeholder Engagement Workgroup has already begun planning for the PPS wide implementation of PCMH III. The Workforce Committee is working with stakeholders to understand the new skills and workflows that will generate from the clinical projects. The Workforce Committee will offer educational guidance to the Stakeholder Engagement Committee on issues related to re-deploying staff, skills development, and job training. The ability of the PPS to communicate to the community's practitioners, not just the larger organizations, will be key to the further success of the DSRIP initiative. The on-

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

going communication initiatives described above will help to engage stakeholders at all levels in PPS activities.

✓ IPQR Module 7.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Financial Management and oversight	Victor DeMarco, Bronx Lebanon	Financial oversight of PPS participating providers; development and communication of funds flow
IT Development and Implementation	Ivan Durbak/Bronx Lebanon & Dan Figueras/Urban Health Plan; Kathy Miller/Bronx RHIO	Interconnectivity with PPS partners
Stakeholder Engagement	Roy Wallach/ Conifer Park-Armes Acre	Coordinate stakeholder communication for the PPS
Workforce Development	Selena Griffin-Mahon/ Bronx Lebanon	Develop overall training plan to include practitioners across the PPS workforce spectrum.
PCMH functionality	Javiera Riveria/ Urban Health Plan	Engage providers and aid them in reaching PCMH Level 3
PPS Governance and organization	Fred Miller/ Garfield-Miller, LLP	Establish LLC, Provider participation contracts, compliance program
Integrated Delivery System Implementation & Oversight	Virgilina Gonzalez/Bronx Lebanon	Establish and Implement DSRIP: IT, Project Implementation , PCMH Certification, Care Coordination, Stakeholder Engagement oversight.

✓ IPQR Module 7.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Denise Bauer, Catholic Charities	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Luarnie Bermudo, DSFHS	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Joann Casado, UHP	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Dr. John Coffey, BLHC	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Dr. Kamala Greene, BLHC	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Bill Herl, Care for the Homeless	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Beth Lorell, BLHC	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Dr. Magdy Mikhail, BLHC	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Fernando Martinez, the Osbourne Group	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Michelle Miller, Catholic Charities	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Lisa Orriola, BLHC	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Biren Patel, Hemant Patel MD PC/ Harlem Medical Group	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Peter Sherman, BLHC	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Roy Vega, BLHC	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Debbie Pantin, VIP	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Brent Stackhouse, Mount Sinai Hospital	Stakeholder Engagement Workgroup Partner	Engage providers and assist in the work of the PPS
Gary Rosario, BLHC	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Virgilina Gonzalez, BLHC	Stakeholder Engagement Workgroup Partner; Project Development and Implementation Committee Partner	Engage providers and assist in the work of the PPS
Roy Wallach, Liberty Management	Stakeholder Engagement Workgroup Partner; Project	Engage providers and assist in the work of the PPS

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 7.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The shared IT infrastructure platforms, including specific tools such as the BL PPS Participant Portal, a web-based interface for PPS users that will include access to reporting functionality, data analytics, care management tools and PPS-sponsored communications, including training and education programs, will connect practitioners and facilitate practitioner engagement, which will be crucial to providing access to critical functionality such as dashboards, performance reporting, patient alerts, and secure messaging. BL PPS's proposed shared IT infrastructure will deliver efficiency, interoperability, and high value-added solutions that will facilitate practitioner engagement through the provision of tools that support better time management, performance management and reporting, and improve overall provider satisfaction. The Practitioner Engagement workflow has key dependencies around IT Systems and Processes, as described above. The PPS will employ diligent project management and monitoring to ensure infrastructure (such as the connectivity through the RHIO), and functionality are adequate to facilitate effective provider engagement, as well as the training necessary to achieve it. The focus of a shared IT Infrastructure will be to provide patient-level data to all PPS partners in a manner that supports better time management and user satisfaction. IT will identify the provider gaps as it relates to Meaningful and EHR, and develop a strategy to provide technical assistance and support them with achieving PCMH level 3.

The PPS IT Committee expects to leverage the RHIO in several key capacities including the exchange of clinical information between organizations, aggregation and consolidation of Actively Engaged patients, and Centralized analytics. Most immediately, the RHIO's patient matching algorithm will be leveraged for aggregating the Actively Engaged patients. This will minimize any duplicative counting across organizations. Each organization participating in the projects will either export a flat file or interface with the RHIO with the actively engaged patient data.

In terms of the long-term expectations, the IT Committee has engaged the project workgroups to finalize the data exchange needs of the PPS. It is expected the RHIO will meet these interface and exchange needs in a phased approach, targeting key organizations that are required for the projects success. As the RHIO increases the number of PPS data feeds, the quality and richness of the data will increase. This data will feed the reporting database for Centralized analytics.

✓ IPQR Module 7.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Practitioner engagement will be encouraged through regularly scheduled town hall meetings and inclusion on various PPS project workgroups. Continuation of PPS updates via e-mail and website maintenance will help ensure that practitioners are able to receive pertinent news and updates. We will have set the targets for delivering education & face-to-face training for implementation of project specific processes in our

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

network and we will use this metric to monitor the progress of this work stream. In addition, we will monitor the attendance at practitioner training events. The design of these programs will involve specific targets being set for the number of attendees per training as well as questionnaires pre- and post-testing designed to assess impact and satisfaction.

IPQR Module 7.9 - IA Monitoring

✓ IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

- Risk 1: Provider engagement and compliance with reporting.
Mitigation Strategy: Provider Engagement & Performance monitoring and reporting infrastructure will be created to identify and engage those providers that fall behind.
- Risk 2: Attributed Patient Utilization with other PPSs service providers.
Mitigation Strategy: Data from NYSDOH relative to what will be provided by the PPS is not clearly defined at this time. Close collaboration between the NYSDOH and PPSs across the state will be necessary in order to mitigate this risk. In addition transparency by the NYSDOH could provide PPS with necessary information to implement an effective strategy that spans all DYs.
- Risk 3: Some organizations/providers within the PPS could be reluctant to agree to strict performance reporting and monitoring, particularly in comparison to their competitors within the same PPS.
Mitigation Strategy: This risk can be mitigated by a strong governance/sub-committee presence, and effective communication strategy that addresses specific provider/organizational concerns.
- Risk 4: The PPS is a multi-stakeholder environment where many varying opinions and voices will exist. It is often difficult to define and implement specific performance metrics in this kind of environment.
Mitigation Strategy: This risk can be mitigated by developing an initial set of PPS-level performance measures/metrics, with input from the NYSDOH and industry subject matter experts, and incorporating stakeholder input as appropriate throughout the process.
- Risk 5: Inadequate workforce - Workforce need through the DSRIP transformative years may lack the necessary skills sets to provide services for PPS. Mitigation Strategy: To mitigate this risk we will assess the current skills of the workforce as well as the job descriptions and possible retaining and redeployment the workforce to provide the support/services need to manage the attributed population.
- Risk 6: Standardized Protocols for delivery of care (care coordination, etc.) may impact the PPS performance.
Mitigation Strategy: To mitigate this risk we will create protocols that take into account different patient needs as well as allow for modifications.
- Risk 7: A lack of collaboration across PPSs. Mitigation: All of the Bronx area PPSs are starting to meet regularly to identify commonalities related to projects and processes and to share best practices and aggregated patient utilization data.

✓ IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The Population Management work stream has dependencies on several other work streams, including IT Systems and Processes, Workforce and Governance. This work stream is dependent on the IT Systems and Processes work stream because these systems will enable population health monitoring and reporting through the creation of an integrated data network. Workforce training and availability is interdependent with the ability to create population health profiles to provide services to meet the needs of the population. The main inter-dependencies with the Governance work stream include the effective creation of policies and procedures for population health monitoring and reporting, adherence to those policies and procedures, and creation/implementation of sub-committees who will be responsible for goal-setting and monitoring across the PPS.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 8.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PPS Governance and organization	Fred Miller	Establish LLC, PMO contract, Provider participation contracts, compliance program
Integrated Delivery System Implementation & Oversight	Virgilina Gonzalez/Bronx Lebanon	Establish and Implement DSRIP: IT, Project Implementation , PCMH Certification, Care Coordination, Stakeholder Engagement oversight. Reporting on milestones and metric
Financial Management and oversight	Victor DeMarco/Bronx Lebanon	Establish and Implement DSRIP: IT, Project Implementation , PCMH Certification, Care Coordination, Stakeholder Engagement oversight. Reporting on milestones and metric
IT Development and Implementation	Ivan Durbak/Bronx Lebanon & Dan Figueras/Urban Health Plan	IT platform, interconnectivity with PPS partners, data base management, performance reporting management
Workforce Committee	Selena Griffin-Mahon/ Bronx Lebanon	Develop Workforce Strategy for BLHC PPS
PDI/Clinical Committee	John Coffey, MD/ Bronx Lebanon	Project Implementation strategy
PCMH	Javiera Rivera/ Urban Health Plan	Engage providers and aid them is reaching PCMH Level 3
Care Coordination	Christina Coons/ VNSNY	Functions as the central point for care coordination and Deliverables across the PPS
Stakeholder Engagement	Roy Wallach/ Confer Park-Armes Acre	Coordinate stakeholder communication for the PPS

✓ IPQR Module 8.7 - IT Expectations

Instructions :

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

Many BLHC PPS partners have localized data analytics tools and are engaging in population health management at the individual-provider level. What is lacking, however, is the centralization of information to develop a more complete picture of population health to foster accountability and improvement in outcomes. In response, BL PPS intends to develop a Population Health Analytics Platform that includes capabilities for generating registries, conducting data cube analytic functions and managing population health data cohorts through the utilization of a RHIO data repository. This tool will enable provider organizations to analyze and track the health of the populations they serve, and to implement interventions on specific cohorts of patients. The PPS's shared IT infrastructure will assist with the monitoring of health outcomes and the distribution of information to PPS partners and stakeholders to meet DSRIP project goals. The following services will implement solutions to measure and improve the population health status through the use of predictive analytics, reporting and registries for care management, and utilization management:

- (1) Support the adoption and/or upgrade of EHRs by providing options and technical assistance to organizations who are not yet on an EHR system, or who are using an EHR system with insufficient functionality;
- (2) Expand health information exchange (HIE) to facilitate interoperability by connecting partners to the RHIO;
- (3) Implement Care Management and Coordination tools that will enable care management and coordination at the population level;
- (4) Deploy tools for provider and patient engagement; and
- (5) Develop business intelligence and analytics tools.

The PPS IT Committee expects to leverage the RHIO in several key capacities including the exchange of clinical information between organizations, aggregation and consolidation of Actively Engaged patients, and Centralized analytics. Most immediately, the RHIO's patient matching algorithm will be leveraged for aggregating the Actively Engaged patients. This will minimize any duplicative counting across organizations. Each organization participating in the projects will either export a flat file or interface with the RHIO with the actively engaged patient data.

In terms of the long-term expectations, the IT Committee has engaged the project workgroups to finalize the data exchange needs of the PPS. It is expected the RHIO will meet these interface and exchange needs in a phased approach, targeting key organizations that are required for the projects success. As the RHIO increases the number of PPS data feeds, the quality and richness of the data will increase. This data will feed the reporting database for Centralized analytics.

✓ IPQR Module 8.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

The success of the work stream will be measured through progress reporting on population health management by creating population profiles, utilization dashboards that enable identification of the target population, monitoring of the number of patients engaged in care, and tracking and trending on health outcomes. In addition to the State-defined metrics specific to the PPS Projects tracked by the PMO (behavioral health, asthma, maternal child health, HIV/AIDS, and diabetes), progress toward local and national benchmarks will be assessed through a wide range of publically available data sets updated on an annual or semi-annual basis. For example, the NYC DOHMH Bureau of HIV/AIDS's semi-annual report will provide epidemiological updates on the access to, and retention in HIV care relative to the the goals defined in the Governor's End of AIDS plan. Other benchmarks for success will include (but are not limited to) objectives outlined by the City's Take Care New York Initiative and HHS Healthy People 2020.

IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk: The major risks to implementation include: the financial fragility of many participating provider;

Mitigation: Participating partners will be required to complete a financial monitoring survey along with their provider agreements. Financial monitoring metrics will be established to evaluate and determine which partner institutions may be at risk and eligible for sustainability funds. Re-evaluation and monitoring will mitigate the potential risks to the implementation and sustainability of projects posed by fragile providers.

Risk: The culture of competition rather than cooperation that exists among similar agencies and providers.

Mitigation: The PPS will take a patient-centered approach focusing on optimal health outcomes for patients within the community. To that end, the approach to community planning will necessitate heavy involvement by stakeholders outside of the hospital system. The composition of workgroups and committees will include MCOs, CBOs, Health Homes, and other providers to ensure that members are involved in the process. Town Halls, Project Advisory Committees, and resources distributed to e-mail listservs and posted on the website are all activities conducted with the purpose of creating a culture of cooperation and transparency among providers.

Risk: The ability of the PPS to attain project goals within the proposed budget.

Mitigation: The Finance Committee (along with PMO, IT Committee, and Workforce Committee) will work closely with the Project Workgroups leads in an effort to ensure that project goals are clear and realistic. In particular, members from various committees will be present on project workgroups to monitor fidelity to the proposed budgets and report progress back to the Finance Committee.

Risk: Lack of understanding of DSRIP and PPS among provider participants.

Mitigation: Provider participants will receive ongoing DSRIP 101 trainings through the Stakeholder Engagement Cross Functional Workgroup and receive educational materials produced by the Training and Employment Funds. Participants will be engaged through participation on various workgroups and committees as members or co-leads. A provider communication strategy/plan will be developed by the Stakeholder Engagement CFW.

Risk: The ability to develop and implement a project management office in conjunction with the Mount Sinai PPS.

Mitigation: BLHC PPS and Mount Sinai PPS have established a strategic partnership to coordinate projects, where appropriate, and to jointly develop the resources needed to implement the projects. The PPS has mapped out all of the project requirements affecting all of our committed providers and have developed a map of the project requirements that show where they cross-cut and which providers will be involved in the projects. For those project requirements that are most pervasive, we have set up a PMO and cross functional team tasked with driving consistent, coordinated implementation.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Risk: The ability to develop and/or collect meaningful data that will support the activities of the PPS.

Mitigation: The Clinical Committee will work closely with the IT Committee to develop outcomes (including HEDIS and actively engaged metrics) and the specific activities required to achieve the outcomes.

Risk: PCP non-compliance with PCMH Level 3 and adopting processes specific to the projects.

Mitigation: The PPS will work closely through PCMH and Stakeholder Engagement Cross-functional Workgroups to develop and implement a needs assessment that will be used to ascertain PCP readiness within the PPS to to achieve PCMH level 3. Based on the needs assessment, the Stakeholder Engagement Work Group that will meet with the group to identify gaps in provider representation and provide technical assistance to PCPs interested in participating in the project.

✓ IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The primary interdependency is the participating provider contract that will link providers to the PPS and establish the working relationship between the PPS and its provider network. This will require significant provider outreach and education. Integral to that network is an IT platform that is available to all PPS participants and establishes a framework for data exchange and management as well as reporting. The Workforce plan will be a key component of transformation for many providers as they move away from traditional facility based activities into community based activities. It will be incumbent on the PPS to have a plan and program in place to retrain a sufficient number of providers to work in these community based settings providing case management and care coordination. Additionally, a significant number of analyst will be necessary to manage the data and report on the activities of each of the projects and the PPS as a whole. The Steering Committee will establish a process for financially fragile providers to apply to the PPS for sustainability funds and for the PPS to take action on those requests. Finally, much of the transformation is based on changing beneficiary behavior. The PPS will develop culturally appropriate outreach and education to engage attributed members in care coordination and management that will assist them in achieving their health goals. As well as other financial dependencies such as Value-based payment reform which will require sharing of clinical information as well as monitoring clinical performance (HEDIS/QARR and other clinical performance measures).

✓ IPQR Module 9.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Clinical integration is the primary goal of the BL PPS IT strategy, particularly through achievement of network-wide data sharing and interoperability that will enable care delivery and management at the population level across PPS providers. The PPS is developing plans to connect all provider types to the RHIO through EHRs and other electronic tools to share various forms of structured and unstructured data to enable bidirectional data sharing. Additionally, the PPS strategy will include:

- (1) Referral management and tracking tools to enable consultation between various providers;
- (2) Reporting, dashboards, and performance monitoring and management through the Customer Relationship Management (CRM) tools and provider portals; and
- (3) Secure messaging and alerts through the RHIO connections.

In order to ensure the efficient and effective data sharing that is required for an integrated delivery system, the PPS will:

- (1) Analyze existing data sharing and confidentiality protocols, and will modify the protocols as needed;
- (2) Integrate any manual processes, such as flat-file conversions to ensure that PPS participants without EHRs can effectively contribute necessary data;
- (3) Identify and analyze what functionality and assistance can/will be provided by the NY DOH.

The PPS will measure its success through monitoring the number of PPS organizations that connect and pass data through the HIE. The HIE is a key component to the success of clinical integration throughout the PPS and will allow for analytics and reporting (mentioned above).

The PPS IT Committee expects to leverage the RHIO in several key capacities including the exchange of clinical information between organizations, aggregation and consolidation of Actively Engaged patients, and Centralized analytics. Most immediately, the RHIO's patient matching algorithm will be leveraged for aggregating the Actively Engaged patients. This will minimize any duplicative counting across organizations. Each organization participating in the projects will either export a flat file or interface with the RHIO with the actively engaged patient data.

In terms of the long-term expectations, the IT Committee has engaged the project workgroups to finalize the data exchange needs of the PPS. It is expected the RHIO will meet these interface and exchange needs in a phased approach, targeting key organizations that are required for the projects success. As the RHIO increases the number of PPS data feeds, the quality and richness of the data will increase. This data will feed the reporting database for Centralized analytics.

Bronx-Lebanon Hospital Center (PPS ID:27)

Instructions :

Please describe how you will measure the success of this organizational workstream.

This work stream will be successful by enhancing clinical integration linkages and identifying areas to measure success, i.e. progress on PCMH certification, provider scale, RHIO consents, etc. The governance work stream will be successful when the steering committee is operating as the governing board of the PPS and is approving budgets, distributing funds, contracted for services with the PMO, overseeing and monitoring quality and compliance and fostering outreach to providers and beneficiaries. In 5 years, the LLC will be engaged in risk contracts with MCOs that reflect the integrated delivery system developed by the PPS.

IPQR Module 9.9 - IA Monitoring:

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Section 10 – General Project Reporting

✓ IPQR Module 10.1 - Overall approach to implementation

Instructions :

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

The project implementation team is organized with leads and co-leads for each project. The leads are from the hospital and co-leads are from community based organizations. The projects teams themselves are comprised of fully committed providers from both the lead hospital and the community. Each project is staffed by a project manager who is responsible for keeping the development of the project on track in compliance with metrics and milestones. The PPSs plans to monitor progress, ensure compliance with project requirements including metrics and milestones, and will stay committed to the speed and scale numbers for each project through the project managers who staff the developing DSRIP Project Management Office (PMO). This PMO will provide oversight and coordination to the DSRIP clinical projects. The projects themselves will be rolled out simultaneously, with the focus on interaction of project goals and the sharing of resources. Functions that can be centralized and focused will be in order to leverage staffing and other resources. In the clinical projects, where appropriate, a "pilot" agency will be slated to begin testing the selected interventions.

The PSS is dedicated to quality improvement and will continue the cycle of 1) identifying problems; 2) adapting knowledge to the local context; 3) conducting stakeholder analysis; 4) taking an inventory of resources; 5) assess facilitators and barriers to implementation; 6) select and tailor interventions to situations unique to the PPS population; 7) access implementation fidelity; 8) track project outcomes; and 9) sustain/maintain knowledge use.

✓ IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

Instructions :

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

To coordinate the various projects that will be working towards similar goals and project requirements independently, the PPS has created cross-functional workgroups (Stakeholder Engagement, PCMH, and Care Coordination) to coordinate clinical efforts that are integral to each of the projects. These workgroups are designed to avoid duplication of efforts and to develop multiple approaches to solving the same issue. For example, managing transitions of care more effectively will be a central part of multiple projects and without a proactive approach to coordination there is a risk that different protocols will be developed at different sites or in different projects. The PCMH workgroup and the Stakeholder Engagement Workgroup also work across all of the projects to coordinate outreach activities and to manage the process of attaining Level 3 PCMH certification and stakeholder education. The PPS also holds bi-weekly workflow meetings with the project leads to identify common issues and tasks.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

BLHC PPS and Mount Sinai PPS have established a strategic partnership to coordinate projects, where appropriate, and to jointly develop the resources needed to implement the projects. The PPS has mapped out all of the project requirements affecting all of our committed providers and have developed a map of the project requirements that show where they cross-cut and which providers will be involved in the projects. For those project requirements that are most pervasive, we have set up a PMO and cross functional team tasked with driving consistent, coordinated implementation.

We have also used a provider/requirement map as the starting point for identifying the clinical, financial, administrative, or technological initiatives that will be most important for the successful delivery of our DSRIP projects. These initiatives will receive specific attention from the MS/BL PPS PMO.

☑ IPQR Module 10.3 - Project Roles and Responsibilities

Instructions :

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Oversight and accountability for delivery of performance reporting capability	Ivan Durbak / Bronx Lebanon	<ul style="list-style-type: none"> • Performance reporting infrastructure (design, planning and implementation) • Coordination with NYDOH, PPS partners and other sources for data collection • Development of dashboards to enable performance management and rapid cycle evaluation • Management and oversight of performance reporting and data collection staff and project leads, including engagement of committees and governance leads to inform process
DSRIP Project Teams	Virgilina Gonzalez / Bronx Lebanon	Responsible for reaching speed and scale. Developing Clinical interventions
Responsible for informing development of performance tools, monitoring performance of partners and PPS, informing process improvement and corrective action	Victor DeMarco, John Coffey, and Sam Shutman / Bronx Lebanon	<ul style="list-style-type: none"> • Inform identification of key indicators and operational, clinical, financial, quality and other performance metrics • Responsible for informing development of dashboards, performance thresholds, reviewing data/reports and making recommendations to Governing Board on necessary actions
Provide general oversight to DSRIP projects and coordinate activities on overlapping projects where applicable	Jill Huck / Mount Sinai & Virgilina Gonzalez / Bronx Lebanon	Strategic Partner in DSRIP, will be charged with PMO support
Sharing of patient data and coordination of patient care	HHC	Now has 45% of our original lives due to project 11. Must work with them to coordinate care and share information across PPS
Provision of claims data, benchmark data and support in development of population health analytic tools	Chase McCaleb / Bronx Lebanon; Alison Connelly and Dan Figueras / Urban Health Plan;	Coordinate with PPS in provision of claims data and benchmark data to support performance management; potential for contract negotiation based on improved total cost management
Provide general oversight to DSRIP projects	Jill Huck / Mount Sinai; Virgilina Gonzalez / Bronx Lebanon	Coordinate with PPS in establishment and progress of DSRIP projects

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects

Instructions :

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Steering Committee	Development and implementation of PPS Governance Structure; ensuring PPS is managing DSRIP projects and funds in appropriate manner; Key decision makers	<ul style="list-style-type: none"> • Making key decisions for the PPS on strategy and process
Yasmine Gourdian/Bronx Lebanon	PPS Compliance Officer	<ul style="list-style-type: none"> • Ensuring that the PPS is in compliance with all DSRIP related polices and procedures
Victor DeMarco/Bronx Lebanon	Financial Management and oversight	<ul style="list-style-type: none"> • Financial structure and management of PPS, treasury and accounting, financial oversight of PPS participating providers
Virgilina Gonzalez/Bronx Lebanon	Integrated Delivery System Implementation & Oversight	<ul style="list-style-type: none"> • Establish and Implement DSRIP: IT, Project Implementation , PCMH Certification, Care Coordination, Stakeholder Engagement oversight. Reporting on milestones and metric
Fred Miller	PPS Governance and organization	<ul style="list-style-type: none"> • Establish LLC, PMO contract, Provider participation contracts, compliance program
PPS Partners	Submit data and review dashboards	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
PCMH Committee	Cross Functional Workgroup	Monitor, and support PCP transformation in PCMH level 3
Care Coordination CFW	Cross Functional Workgroup	Centralize and Standardize care coordination
Workforce Committee	PPS Committee	Centralize and Standardize training and workforce issues
PDI Committee	Oversight Committee For PPS DSRIP projects	Provide oversight for DSRIP performance reporting; provide common operational definitions for metrics and milestones and reporting
IT Committee	PPS Committee	Monitor, tech support, upgrade of IT and reporting systems.
External Stakeholders		
NYSDOH	Provision of statewide/PPS dashboards and performance data	Provide data, including claims data, consolidated reports and web-based dashboards for PPSs for performance management; provide templates for DSRIP performance reporting; provide common

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
		operational definitions for metrics and milestones and reporting requirements; provide guidance on performance improvement opportunities and evidence-based guidance and PPS benchmark data
NYC DOH	Coordinate on projects and data sharing and provision of technical support to the projects and PPS	Provide data and technical assistance
MCOs	<ul style="list-style-type: none"> • Provision of claims data, benchmark data and support in development of population health analytic tools • Will also be necessary for arranging shared shavings agreements with the PPS in the later stages of DSRIP 	<ul style="list-style-type: none"> • Coordinate with PPS in provision of claims data and benchmark data to support performance management; potential for contract negotiation based on improved total cost management • Shared savings
Other City PPSs	<ul style="list-style-type: none"> • Exchange of best practices; Work together on projects in common where possible 	<ul style="list-style-type: none"> • Share data and best practices • Coordinate cross PPS sharing of information and workgroups
Patient representative organizations	Provide patient feedback to support performance monitoring and performance improvement	Provide input around performance monitoring and continuous performance improvement processes
CBOs	Will provide key information to the PPS and enter into risk sharing agreements.	Provide data to PPS; provide preventative care to patients in community settings.
PCP	Will provide key clinical information to the PPS.	Provide data to PPS; drivers of key clinical aspects of projects

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 10.5 - IT Requirements

Instructions :

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

The PPS performed detailed data collection and analysis of PPS partners current state and future state technology investments/capabilities by performing surveys, interviews, and leveraging existing PPS knowledge from the Bronx RHIO. The information analyzed included data on EMR's, RHIO connectivity, Registry capability, Meaningful Use, and reporting functionality.

In addition to performing PPS wide IT analysis, the IT Committee met with all project groups to gather both immediate and long term IT needs for EMR, HIE, registries, reporting, alerts, tracking of key metrics, templates, etc. In the short term, the project workgroups are currently using flat file export strategies (from an EMR/spreadsheet), to meet with immediate reporting and registry needs of the PPS. Providers that are part of the RHIO have the ability to view this data through a Provider Portal. In the long term, The PPS will use continue to leverage the Bronx RHIO to meet the clinically interoperable requirements, however migrate from flat file exports to a bi-directional HL7 data feed. The Bronx RHIO will support the clinical information exchange and reporting needs of the PPS.

✓ IPQR Module 10.6 - Performance Monitoring

Instructions :

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

Each project has quality performance measures defined by CMS through HEDIS/QARR, 3M, HCAPS, and DSRIP specific quality measures that will require quality oversight for performance and process improvement. These measures will be monitored at the Clinical and Quality Committee on regular basis. The PPS will develop PPS wide dashboards with drill down capability to specific organizations and providers for the purpose of sharing data, identifying quality gaps, and developing processes to improve and monitor outcomes. As such, these measures will be at the center for quality performance reporting.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 10.7 - Community Engagement

Instructions :

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

The PPS has established a Stakeholder Engagement committee that is responsible for identifying providers, linking providers to projects, and creating a directory of services throughout the PPS by provider and provider type. Providers are linked to projects and each project has specific deliverables, which drive outreach and engagement to specific providers that can address the project needs.

The stakeholder engagement team will also be responsible for communicating any changes and updates specific to projects (i.e. processes updates, screening tools, standardized assessments, etc.) by meeting with providers face to face, via newsletters, website, Town Hall, PAC, WebEx events, and other venues. In addition to communicating project updates, Stakeholder engagement will meet with providers to ensure they have the most up to date materials and identify any issues providers may have.

The PPS is also in the process of identifying a CRM vendor, which will enable the PPS and providers to identify services available throughout network. Providers will also have the ability to track and update their project deliverables.

Bronx-Lebanon Hospital Center (PPS ID:27)

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Define target workforce state (in line with DSRIP program's goals).	
Create a workforce transition roadmap for achieving defined target workforce state.	
Perform detailed gap analysis between current state assessment of workforce and projected future state.	
Produce a compensation and benefit analysis, covering impacts on both retrained and redeployed staff, as well as new hires, particularly focusing on full and partial placements.	
Develop training strategy.

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk 1: Risk of uneven understanding across partners about workforce requirements and deadlines. Mitigation Strategy 1: The WC will work with the stakeholder engagement and steering committees to educate all partners and projects. We will develop supporting materials (videos, presentations, etc.) for partners. Risk 2: Partners and projects not being responsive to survey deadlines leading to incomplete and inaccurate information. Mitigation Strategy 2: The PPS has a stakeholder engagement committee. The chair of the stakeholder engagement committee is a key member of the workforce committee. The stakeholder engagement committee will work to educate stakeholders about the processes and practices of DSRIP. We will develop an ongoing communication plan with all stakeholders to ensure that participating partners are fully aware of and engaged in the DSRIP implementation. In addition, we are working with other Bronx area PPS's to have a common survey to minimize the number of surveys that partners need to complete. Risk 3: Risk of difficulty in engaging participating partners with different union affiliation and addressing wage and benefit differences. Some DSRIP participating partners are in current collective bargaining relationships with unions, but some are not. There are different compensation and benefit scales across participating partners. A potential risk is that non-union participating partners who are uneasy with the concepts of sharing their workforce data with union participating partners and union connected vendors will not be comfortable sharing data. In addition, compensation and benefit differences between union and non-union employers will make redeployment more difficult. Mitigation Strategy 3: The WC will create a Workforce Center that can serve all DSRIP participating partners regardless of their union affiliation. By all participating partners having access to the Workforce Center for training, redeployment, hiring, etc., we will build trust among all participating partners, union and non-union. The Workforce Center will work with impacted employees (across a number of PPS's) to mitigate any negative compensation or benefit changes. Risk 4: Risk of difficulty in recruiting and training a culturally competent workforce. Mitigation Strategy 4: We will address this by doing a skill assessment of current employees. Employees with specific language skills could be retrained for new jobs, rather than trying to teach current employees a new language. We will rely on the experience of participating partners who are currently servicing patients in a number of emerging languages and make sure we are building our capacity in a way that will effectively serve our population. Risk 5: Risk of inaccurately projecting workforce numbers. Mitigation Strategy 5: We have hired a vendor who will work with each specific project to assess their needs and use publicly available information on workforce trends to ensure that projects are taking all information into account when projecting workforce needs. Risk 6: Risk of difficulty recruiting because of competition with other PPS's. Mitigation Strategy 6: The Workforce Center will operate across all the PPS's, so that retraining, hiring and redeployment can happen in the most efficient manner. Risk 7: Risk of difficulty of providing online and blended training and sharing information about training because of varying technological capacity of partners and the high cost of licensing training software. Mitigation Strategy 7: We will work with our IT committee and our Workforce Center to ensure we are able to track workforce data.

IPQR Module 11.5 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Leadership/Steering Committee: We will need to work closely with the Steering Committee to make sure they are fully aware of the requirements of the workforce committee. We will rely on them to review all of our milestone documents and approve them.

Stakeholder Workgroup: As we mention in our Risk Mitigation strategy, the stakeholder engagement workgroup will be our lead partner in conducting outreach to participating partners both to educate them and to get information from them about workforce needs.

Clinical & Project Committees: In order to come up with our target state, we will need to understand the needs of each project and the current and future workforce capacity of our participating partners. The workforce vendor will conduct regular meetings with the project committees to ensure that we understand their workforce projections and are able to convert them to a numerical estimate.

Finance Committee: We will count on the finance committee to ensure that all participating partners understand the correct uses of DSRIP funding. We will also need to ensure there is adequate funding for our work in training and educating our workforce about upcoming changes.

Cultural Competency Workgroup; There will be overlap between the work of the CC workgroup and the workforce committee. One of our co-chairs is on the CC committee and we will work closely with them, especially during the training needs assessment phase, to ensure coordination.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 11.6 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Workforce Committee Co-Chairs	Rosa Agosto & Selena Griffin Mahon	Ensure that the workforce committee is meeting and that tasks are being accomplished in a timely manner, provide leadership and guidance
Workforce Committee	Members of workforce committee: Rosa Agosto, Urban Health Plan Denise Cherenfant, 1199 SEIU Training Fund Christina Coons, Visiting Nurses John Diaz-Chermack, Hospice of NY Celestino Fuentes, Argus Community Inc. Cathy Giandurco, Premier Home Health Care Selena Griffin-Mahon, Bronx-Lebanon Hospital Ctr. Marcia Halley, University Consultation Center Nicole Kelley, Strive International Lawrence Lang, The PAC Program Aida Morales, 1199 SEIU Lucia Pons, Dannelisse Corp Shirley Riley, 1199 Nestor Sanchez, Dannelisse Corp Roy Wallach, Arms Acres and Conifer Park Debbie Witham, VIP Community Services Marisol Alcantara, NYSNA Jed Tyrpak, Committee of Interns & Residents	Meet regularly to track progress. Provide strategic direction to the workforce project team, give input into surveys and survey process and provide feedback and support on survey implementation. Review and approve all reports prior to submission to steering committee.
Workforce Project Team	Vendor representatives, project management staff, workforce committee co-chairs (Monique Stoner, KPMG; Selena Griffin-Mahon, BL; Rosa Agosto, Urban Health Plan; Denise Cherenfant, 1199 SEIU Training Fund, Duane Granston, BL)	Monitor implementation of tasks. Responsible for reporting and tracking all progress. Create documents for committee review.
Stakeholder Engagement Committee	Denise Bauer, Catholic Charities Luarnie Bermudo, DSFHS Joann Casado, UHP Dr. John Coffey, BLHC	Build communication plan with stakeholders. Ensure we have an accurate list of stakeholders and that stakeholders understand what information the workforce committee needs and why.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
	Bill Herl, Care for the Homeless Dr. Magdy Mikhail, BLHC Fernando Martinez, the Osbourne Group Michelle Miller, Catholic Charities Lisa Orriola, BLHC Biren Patel, Hemant Patel MD PC/ Harlem Medical Group Peter Sherman, BLHC Roy Wallach Arms Acre, Conifer Park Debbie Pantin, VIP Brent Stackhouse, Mount Sinai Hospital Gary Rosario, BLHC	
Bronx Health Access Workforce Center	Established by the PPS with 1199SEIU Training and Employment Fund, will have staff person assigned to assist BL with training needs assessment and procuring and tracking trainings for partners	Entity established to serve all PPS participating partners in order to assist with assessing training needs, securing necessary training, providing trainings, developing curricula, and working with employees on retraining and redeployment
Workforce Vendor	KPMG	Work with workforce committee to create and conduct surveys, analyze data, and create current state analysis, target state, gap analysis, compensation and benefits analysis, and workforce roadmap.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 11.7 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved in your workforce transformation plans, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
HR directors and leads of partner organizations	Need to share information through the completion of surveys	Completing surveys and sharing data
Training Directors (training entities)	Partner with workforce center, catalog existing capacity, participate in needs assessment	Work with workforce center to share and/or develop curricula and provide training
Clinical project leads	Share information about workforce project needs and status	Provide accurate forecasts of necessary workforce needs and workforce competency needs; work with partners to gather partner specific information
Network partners	Share information about organizational needs and capacity	Resource to share information and feedback
External Stakeholders		
Labor organizations, including 199SEIU UHE, NYSNA, and others	Labor Unions	Educate and communicate with members about DSRIP
1199SEIU Training and Employment Fund	Training Entity	Provide support and expertise in creating a workforce center for training, retraining and redeployment
Workforce Development Agencies	Training Entities	Provide training for new and incumbent workers
Institutes of Higher Education	Institutes of Higher Education	Provide training for degree required positions and serve as a pipeline for trained workers
Other NYC PPS's	Co-contractees with TEF and KPMG	Partners in delivery system redesign and in creating workforce training opportunities, also partners in creating and implementing workforce surveys

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

✓ IPQR Module 11.8 - IT Expectations

Instructions :

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

The BL PPS's shared IT infrastructure, in particular its proposed Customer Relationship Management (CRM) and Business Intelligence tools will support the PPS's plans for workforce transformation by providing an efficient means for gathering and reporting provider-related data, analytics, performance and communication, including functionality to track and report all DSRIP-related process and outcome metrics. The use of a system-wide tool allows the BL PPS to clearly define data fields and ensure that all organizations are using the same metrics, a key factor in assuring accurate quarterly reporting. This capacity is particularly important for the ability to report net workforce changes at the BL PPS network level. These systems can be used to track the impact of both vacancies and workforce improvements on meeting DSRIP-specified goals and objectives and ensure the distribution of PPS-led training and technical assistance, as needed. The provider portal will also be used by partner organizations to access BL PPS-wide training and information materials, including standardized messaging for staff engagement, when appropriate for dissemination in this format. Online trainings could be tracked through the CRM tool, and serve as a mechanism for tracking and documenting training attendance, progress, and certification.

✓ IPQR Module 11.9 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The Workforce Committee will work with our vendors and the IT committee to develop a process to manage the data collection so we can submit it to our Steering Committee for inclusion in quarterly reports. We have established a project team who will meet with vendors regularly to ensure we are reaching our goals. We will need to do an analysis of which partners use different workforce tracking technologies and ensure that we can aggregate and share data across the PPS.

IPQR Module 11.11 - IA Monitoring:

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management

✓ IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

<p>Risk: Lack of clarity amongst PPS partners and their specific roles, leading to performance issues and delays in achieving project milestones and metrics Mitigation: Sharing strategic plan with all PPS partners</p>
<p>Risk: Lack of clarity regarding how to effectively communicate across the PPS so that all partners are engaged leading to potential delays in meeting milestones and metrics. Mitigation: Sharing strategic plan and work plans for key areas with PPS partners and having them understand the important role that they each play in the PPS</p>
<p>Risk: Lack of decision in selection of an IT platform leading to a potential delay in meeting project metrics and milestones especially in regard to health information exchange and secure messaging requirement Mitigation: Hold meetings to engage providers in selection of a system, analyze pros and cons for each option, seek partner input to arrive at consensus, and develop support plan for partners that need assistance in adopting the selected IT platform.</p>
<p>Risk: Lack of clarity in how performance data will be collected and reported across the PPS leading to potential delays in reporting progress on metrics and milestones as required Mitigation: IT and Quality Committee develops an interim and long term data collection and reporting system</p>
<p>Risk: Lack of clarity regarding how the PPS will collect and report data on patient engagement and population health management. Mitigation: IT committee to work with PPS providers to develop an interim and long term reporting system</p>
<p>Risk: Lack of clarity as to how PPS providers will achieve PCMH recognition and meet meaningful use metrics: Mitigation: Using a learning collaborative approach, PCMH cross functional teams will be formed and will jointly work towards achieving recognition.</p>
<p>Risk: Lack of clarity as to specific structure of the Management Office and process for allocation of sufficient resources to PPS partners to assure success Mitigation: Development of an efficient Management Office to coordinate activities and ensure resources are appropriately allocated</p>
<p>Risk: Lack of clarity as to how the PPS will transition toward value based payment system Mitigation: Charge Finance Committee to engage PPS partners and negotiate appropriate contracts with MCOs with appropriate legal counsel</p>

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Risk: Lack of resources necessary to develop and deploy a comprehensive workforce strategy for the PPS that supports an integrated delivery system

Mitigation: Workforce committee will develop a comprehensive detailed strategy including training and development plan inclusive of an assessment/gap analysis with the goals of 1) building skills/knowledge within the current PPS partners and 2) retraining displaced workers and redeploying into the new job whenever possible

Risk: Lack of clarity regarding the PPS wide and individual project budget to support the integrated delivery system

Mitigation: Finance and Steering committee to develop overall program budget and guide the development of individual project budgets

Risk: Lack of clarity in how job roles will be re-defined and staff will be re deployed

Mitigation: Workforce Committee will develop a clearinghouse to assist workers who will be re-trained and re-deployed and will develop a decision making process to be utilized to determine which workers will be re-deployed and re-trained

IPQR Module 2.a.i.2 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	Project	N/A	In Progress	04/01/2015	03/31/2019	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.	Project		In Progress	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.										
Task PPS produces a list of participating HHs and ACOs.										
Task Participating HHs and ACOs demonstrate real service integration which incorporates a population management strategy towards evolving into an IDS.										
Task Regularly scheduled formal meetings are held to develop collaborative care practices and integrated service delivery.										
Task Development of a communication plan with the two Health Homes within the PPS to develop a strategy to evolve the PPS into an IDS										
Task Development of an engagement plan to engage the Health Homes within the PPS to develop a strategy to evolve the PPS into an IDS										
Task Development of a joint interim IT plan with the PPS and Health Homes for population health management										
Task Development of a joint plan with the PPS and Health Homes to integrate IT solution platform for population health management										
Task Implementation of a communication & engagement plan with the two Health Homes within the PPS to develop a strategy to evolve the PPS into an IDS										
Task Monitor and report to the Steering Committee and the State on status of HH and ACO service integration and population health management system evolving to an IDS										
Task Implementation of a joint interim and long-term IT plan with the PPS and Health Homes for population health management										
Task Management office will leverage PPS expertise to develop a system to track population health working with it to develop effective data reporting system										
Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.

Task Clinically Interoperable System is in place for all participating providers.										
Task PPS has protocols in place for care coordination and has identified process flow changes required to successfully implement IDS.										
Task PPS has process for tracking care outside of hospitals to ensure that all critical follow-up services and appointment reminders are followed.										
Task PPS trains staff on IDS protocols and processes.										
Task Development of Behavioral Health Strategy and Plan for ensuring patient access to behavioral health services										
Task Monitoring of behavioral health strategy and plan for ensuring access to behavioral health services and reporting										
Task Development of a strategy and plan for ensuring patient access to PPS services										
Task Identification of providers across the PPS and development of a comprehensive provider directory										
Task Development of a communication plan focused on all providers within the PPS										
Task Development of an engagement plan focused on all providers within the PPS										
Task Leveraging of provider expertise and sharing of best practices across the PPS										
Task Development of an interim population health management strategy with key metrics for each project using IT and patient tracking registries until PPS wide IT platform solution is implemented										
Task Development of a strategy to utilize outreach, patient navigators, peers, care managers across the PPS based on Health Home best practices to ensure patients receive appropriate services										
Task Development of a PPS wide contact system for patients/clients that connects them to needed services

them in process of achieving PCMH Level 3 certification and meaningful use										
Task Based on needs assessment and gaps analysis, development of a plan with staffing and budget to provide technical assistance to PCPs assisting them in achieving PCMH Level 3 certification and meaningful use										
Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.										
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										
Task Identification of safety net provider IT capabilities including capability to utilize patient registries for population health management										
Task Development of a needs assessment and gaps analysis of safety net providers capability in actively using EHRs and use of targeted registries										
Task Development and implementation of an interim plan to address gaps in safety net providers ability to actively share EHRs and use patient registries for population health management while IT platform is in planning stage										
Task Development of key metrics and system for tracking key metrics for all PPS projects; asthma, diabetes, behavioral health and HIV/AIDS										
Task Identification of safety net providers across the PPS and development of a comprehensive safety net provider directory										
Task Implement process for steering committee and clinical oversight of population health management, and use of targeted registries										
Task Implement a Learning Collaborative Model to improve population health, disseminate evidence-based practices and improve quality of care focused on asthma, diabetes, behavioral health conditions, maternal-child health and HIV AIDS.										
Task Develop and implement a process to monitor and report to the steering committee and the State on status of population health,

Task Implementation of a plan to provide technical assistance to PCPs assisting them in achieving 2014 level 3 PCMH certification and meaningful use										
Milestone #8 Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.										
Task Medicaid Managed Care contract(s) are in place that include value-based payments.										
Task Identify the current state of MCO contracts toward value based payment arrangements for all providers in the PPS										
Task Investigate contract management tools										
Task Actively engage MCOs to execute contracts with providers in the PPS ensuring payment while transitioning toward value based payment arrangements										
Task Using lessons learned from piloted value based payment arrangements, draft contracts with MCOs that are based on value based payment arrangements										
Task Monitoring and Reporting to the State in regard to the status of transition to value based payment arrangements										
Task Develop system wide processes for making VBP arrangements										
Task Identify all payers in the PPS geographic region and engage them in monthly meetings to develop strategies toward creating value based payment arrangements										
Task Identify providers and MCOs already engaged in making VBP arrangements and pilot new models										
Task Pilot and monitor strategies with MCOs that create value based payment arrangements										
Task Finalize MCO contracts with appropriate signatures based on value based payment arrangements										
Task Share new successful models with other PPS providers										
Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss

utilization trends, performance issues, and payment reform.										
Task PPS holds monthly meetings with Medicaid Managed Care plans to evaluate utilization trends and performance issues and ensure payment reforms are instituted.										
Task Identify Medicaid MCOs and actively engage them in monthly meetings to discuss utilization trends, performance issues and payment reform										
Task Initiate engagement of Governance, PPS providers, primary care providers, patient navigation/care coordination in reviewing utilization and performance trends utilizing data to develop plans to reach at risk patients										
Task Pilot strategies with MCOs to address high utilization, performance issues and payment reform and monitor results through sharing of performance data (example: provider level and overall PPS level report cards)										
Task Using lessons learned from pilot initiatives, develop PPS wide protocols to 1) improve appropriate utilization, 2) improve performance on key metrics such as HEDIS, and 3) value based payment reform model										
Task Develop and implement a system for monitoring and reporting to the steering committee and the State of status of meeting outcomes and recommendations										
Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.										
Task PPS submitted a growth plan outlining the strategy to evolve provider compensation model to incentive-based compensation										
Task Providers receive incentive-based compensation consistent with DSRIP goals and objectives.										
Task Identify organizations with readiness to engage in developing payment reform models with MCOs										
Task Engage these organizations with demonstrated readiness in discussions on provider compensation aligned with value based payment

Task Develop and implement system to compensate providers in the PPS based on performance and patient outcomes evolving to value based payment arrangements										
Task Monitor and Report to the steering committee and the State on the status of PPS transition to value based payment reform										
Task Share successful models with other providers										
Task Document successful VBPR and provider compensation models										
Task Providers receive incentive-based compensation consistent with DSRIP goals and objectives.										
Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.										
Task Community health workers and community-based organizations utilized in IDS for outreach and navigation activities.										
Task Identify community health workers, peers, and culturally competent CBOs including the Health Homes within the PPS and develop a comprehensive directory										
Task Assess current outreach and navigation resources and gaps analysis										
Task Develop and implement a communication and engagement plan focused on community health workers, peers, culturally competent CBOs and the Health Homes (starts with a social worker, system for communicating with CHW, assessment/reassessment tools, communicate plan back, bi-directional activity, PCMH) (spider web) (concentric circles)										
Task Leverage and engage the expertise of the PPSs two Health Homes in outreach, patient navigation and care management for the entire PPS including sharing of best practices

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task Develop a plan to address gaps in outreach and navigation										
Task Using best practices from the Health Homes, develop a plan to engage community health workers, peers and culturally competent CBOs in population health management and patient registries using the PPSs IT platform										
Task Develop and implement a strategy for community health workers, peers, culturally competent CBOs and Health Homes to share best practices in patient engagement										
Task Develop clearly defined outreach and navigation roles and standardized training plan										
Task Based on plan, hire, retrain and/or re-deploy to fill gaps in outreach and navigation										
Task Map centralized outreach and navigation system ensuring access for all PPS providers										
Task Share best practices with PPS provider network										

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.										
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.										
Task Monitor and report to the Steering Committee and the State the status of the evolving provider network										
Task Conduct a gaps analysis of each provider in the PPS in regard to integrated care delivery readiness including work already completed										
Task Conduct a review of commitment level for all PPS providers and

a plan to engage providers who are not yet committed to the IDS										
Task Development of a comprehensive plan to actively engage providers by provider type considering level of engagement in the overall PPS and in individual projects										
Task Identification of payers, development and completion of a comprehensive payer directory										
Task Development and implementation of a communication and engagement plan focused on social services agencies										
Task Development of a comprehensive directory of social services agencies and partner organizations and process for integrating these resources across the PPS										
Task Identification of providers across the PPS and development of a comprehensive provider directory										
Task Development of an ongoing communication plan focused on providers within the PPS with modes and timelines for communication										
Task Development and implementation of a communication and engagement plan focused on payers with timelines for monthly meetings										
Task Implementation of an ongoing communication plan focused on providers within the PPS with modes and timelines for communication										
Task Development and implementation of project level policies and procedures that ensure accountability for all participating providers										
Task Implementation of an outreach plan to keep providers actively engaged in the PPS										
Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.										
Task PPS produces a list of participating HHs and ACOs.										
Task Participating HHs and ACOs demonstrate real service integration

a plan with staffing and budget to provide technical assistance to PCPs assisting them in achieving PCMH Level 3 certification and meaningful use										
Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.										
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										
Task Identification of safety net provider IT capabilities including capability to utilize patient registries for population health management										
Task Development of a needs assessment and gaps analysis of safety net providers capability in actively using EHRs and use of targeted registries										
Task Development and implementation of an interim plan to address gaps in safety net providers ability to actively share EHRs and use patient registries for population health management while IT platform is in planning stage										
Task Development of key metrics and system for tracking key metrics for all PPS projects; asthma, diabetes, behavioral health and HIV/AIDS										
Task Identification of safety net providers across the PPS and development of a comprehensive safety net provider directory										
Task Implement process for steering committee and clinical oversight of population health management, and use of targeted registries										
Task Implement a Learning Collaborative Model to improve population health, disseminate evidence-based practices and improve quality of care focused on asthma, diabetes, behavioral health conditions, maternal-child health and HIV AIDS.										
Task Develop and implement a process to monitor and report to the steering committee and the State on status of population health, EHRs and patient registries										
Task Development of a data dictionary to support the running of patient registry data

Milestone #8 Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.										
Task Medicaid Managed Care contract(s) are in place that include value-based payments.										
Task Identify the current state of MCO contracts toward value based payment arrangements for all providers in the PPS										
Task Investigate contract management tools										
Task Actively engage MCOs to execute contracts with providers in the PPS ensuring payment while transitioning toward value based payment arrangements										
Task Using lessons learned from piloted value based payment arrangements, draft contracts with MCOs that are based on value based payment arrangements										
Task Monitoring and Reporting to the State in regard to the status of transition to value based payment arrangements										
Task Develop system wide processes for making VBP arrangements										
Task Identify all payers in the PPS geographic region and engage them in monthly meetings to develop strategies toward creating value based payment arrangements										
Task Identify providers and MCOs already engaged in making VBP arrangements and pilot new models										
Task Pilot and monitor strategies with MCOs that create value based payment arrangements										
Task Finalize MCO contracts with appropriate signatures based on value based payment arrangements										
Task Share new successful models with other PPS providers										
Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.										
Task PPS holds monthly meetings with Medicaid Managed Care plans to evaluate utilization trends and performance issues and ensure

payment reforms are instituted.										
Task Identify Medicaid MCOs and actively engage them in monthly meetings to discuss utilization trends, performance issues and payment reform										
Task Initiate engagement of Governance, PPS providers, primary care providers, patient navigation/care coordination in reviewing utilization and performance trends utilizing data to develop plans to reach at risk patients										
Task Pilot strategies with MCOs to address high utilization, performance issues and payment reform and monitor results through sharing of performance data (example: provider level and overall PPS level report cards)										
Task Using lessons learned from pilot initiatives, develop PPS wide protocols to 1) improve appropriate utilization, 2) improve performance on key metrics such as HEDIS, and 3) value based payment reform model										
Task Develop and implement a system for monitoring and reporting to the steering committee and the State of status of meeting outcomes and recommendations										
Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.										
Task PPS submitted a growth plan outlining the strategy to evolve provider compensation model to incentive-based compensation										
Task Providers receive incentive-based compensation consistent with DSRIP goals and objectives.										
Task Identify organizations with readiness to engage in developing payment reform models with MCOs										
Task Engage these organizations with demonstrated readiness in discussions on provider compensation aligned with value based payment										
Task Organizations with readiness will pilot provider compensation models based on VBPR										
Task Organizations with readiness will pilot risk sharing arrangements

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project 2.a.iii – Health Home At-Risk Intervention Program: Proactive management of higher risk patients not currently eligible for Health Homes through access to high quality primary care and support services

✓ IPQR Module 2.a.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: The PPS believes the medical diagnoses originally proposed to identify patients for this project is too exclusive. In addition, these medical diagnoses tend to indicate other co-morbidities which would qualify the patient for the Health Home. Furthermore, it would be difficult for participating providers to screen for eligibility without access to the patient's medical record. Mitigation: The PPS has expanded the criteria to include more expansive list of common chronic diseases and conditions including Diabetes, Hypertension, Cardiovascular disease, Asthma/other respiratory diseases, Behavioral Health (Non-Serious Mental Illnesses), Substance Abuse, or Cancer.

Risk: There is no existing mechanism to identify and assign Health Home at risk patients to Health Homes and their downstream care management agencies. Mitigation: the PPS plans to create a Care Coordination clearinghouse that will screen patients that enter the healthcare system from a variety of settings (i.e. inpatient, outpatient, ED, CBO) for their Health Home at risk eligibility. Patients identified as eligible for Health Home at risk care coordination will be assigned to the care coordinator co located at the site of their preferred PCP.

Risk: With an expansion of patient pool, there is a possibility that it will be difficult for existing care coordinators to manage additions to their caseloads. In addition, the limited DSRIP funds available for project implementation make it difficult to hire the number of care coordinators needed to meet the patient engagement targets for this project. Mitigation: The PPS has identified network providers who have FTEs available to contribute to this effort, and will implement a plan to train, redeploy, and hire care coordinators for the project.

Risk: Currently the two participating Health Homes and their downstream providers use multiple care management IT platforms which makes it difficult to collate and report data to the state as well as share information across providers. Mitigation: The PPS will explore avenues to ensure partners connect to the Bronx RHIO for reporting and data sharing purposes.

Risk: Providers participating in this project will be at different stages in meeting PCMH requirements and many do not know what those requirements are. Mitigation: The BLHC PPS has developed a PCMH Work Group that is responsible for developing a work plan that outlines how the BLHC PPS will ensure NCQA 2013 Patient Centered Medical Home (PCMH) and Advanced Primary Care (APC) accreditation and to provide guidance and assistance to providers.

Risk: Each participating provider has their own care plan and the information collected on each patient may differ. This makes it difficult to assess and evaluate patient health outcomes and recommend appropriate interventions. Mitigation: The BLHC PPS has developed a Care Coordination Work Group that will create a comprehensive care plan that captures information to ensure the patient receives the appropriate project intervention.

Risk: The 2.a.iii project planning work group lacks adequate representation from providers representing a variety of primary care settings such as

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

clinics and private doctor's offices to serve as part of care plan development. Mitigation: BLHC PPS has developed a Stakeholder Engagement Work Group that will meet with the group to identify gaps in provider representation and will connect the work group with PCPs interested in participating in the project.

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 2.a.iii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Patient Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q3 should include patients previously reported in DY1 Q2 plus new patients engaged in DY1 Q3. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
100% Actively Engaged By	Expected Patient Engagement
DY4,Q4	10,000

Patient Update		% of Semi-Annual Commitment To-Date	Semi-Annual Variance of Projected to Actual	% of Total Actively Engaged Patients To-Date
DY1, Q1	DY1,Q2			
0	1,075	215.00%	-575	10.75%

IPQR Module 2.a.iii.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement.
Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Develop a Health Home At-Risk Intervention Program, utilizing participating HHs as well as PCMH/APC PCPs in care coordination within the program.	Project	N/A	In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task A clear strategic plan is in place which includes, at a minimum: - Definition of the Health Home At-Risk Intervention Program - Development of comprehensive care management plan, with definition of roles of PCMH/APC PCPs and HHs	Project		In Progress	04/01/2015	03/31/2017	07/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Define the Health Home at Risk Target Population	Project		Completed	04/01/2015	04/30/2015	04/01/2015	04/30/2015	06/30/2015	DY1 Q1
Task Identify and document the role and responsibilities of PCMH/APC PCP in the HH At Risk program	Project		In Progress	07/01/2015	09/30/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Identify and document the role and responsibilities of HH/Care Coordinators in the HH At Risk program	Project		Completed	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Combine care coordination and comprehensive assessments from both HHs (Bronx Health Home and CCMP) to create one assessment for the PPS	Project		Completed	04/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Identify and document the role and responsibilities of other providers in the HH At Risk program	Project		In Progress	09/30/2015	03/31/2016	09/30/2015	03/31/2016	03/31/2016	DY1 Q4
Task Integrate the assessments/screening tools from the other DSRIP projects into the consolidated HH At risk Comprehensive Health Assessment	Project		In Progress	09/30/2015	03/31/2016	09/30/2015	03/31/2016	03/31/2016	DY1 Q4
Task Notate skip logic, scoring logic and care plan intervention triggers in the Comprehensive Health Assessment	Project		Not Started	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task	Project		In Progress	09/30/2015	03/31/2016	09/30/2015	03/31/2016	03/31/2016	DY1 Q4

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Compare care plans of both HHs (Bronx Health Home and CCMP) to create one care plan for the PPS									
Task Include other DSRIP project interventions/domains into care plan	Project		In Progress	09/30/2015	03/31/2016	09/30/2015	03/31/2016	03/31/2016	DY1 Q4
Task Notate how Health Assessment drives the care plan	Project		Not Started	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task Submit newly developed Comprehensive Assessment and Care Plan to Care Coordination CFW and Steering Committee for approval	Project		Not Started	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task Work with IT Committee to develop a timeline to build the Comprehensive Assessment and Care Plan into participating provider's EMR/Care Management platforms	Project		In Progress	09/30/2015	03/31/2016	09/30/2015	03/31/2016	03/31/2016	DY1 Q4
Milestone #2 Ensure all primary care providers participating in the project meet NCQA (2011) accredited Patient Centered Medical Home, Level 3 standards and will achieve NCQA 2014 Level 3 PCMH and Advanced Primary Care accreditation by Demonstration Year (DY) 3.	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task All practices meet NCQA 2014 Level 3 PCMH and APCM standards	Provider	Practitioner - Primary Care Provider (PCP)	In Progress	04/01/2015	03/31/2018	07/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Survey which PCP providers participating in project 1) are/are not PCMH 2011 certified and 2) are/are not working towards PCMH 2014 certification	Project		Completed	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Identification of primary care providers eligible for PCMH designation within the PPS and development of a PCP directory	Project		In Progress	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Development and implementation of a communication and engagement plan focused on primary care providers to engage them in process of achieving 2014 PCMH Level 3 certification and meaningful use	Project		In Progress	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Development and implementation of a plan to conduct a needs assessment and gaps analysis of PCPs within the PPS to ascertain their readiness to achieve 2014 Level 3 PCMH standards and meaningful use	Project		In Progress	05/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task Based on needs assessment and gaps analysis, development of a plan, staffing and budget to provide technical assistance to PCPs pursuing PCMH designation and collaboratively assisting them in achieving 2014 PCMH Level 3 certification and meaningful use	Project		In Progress	04/01/2015	09/30/2016	07/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Implementation of a plan to provide technical assistance to PCPs assisting them in achieving 2014 level 3 PCMH certification and meaningful use	Project		In Progress	05/01/2015	09/30/2015	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Monitoring and Reporting of status of providers achieving 2014 level 3 PCMH certification and meaningful use	Project		In Progress	04/01/2015	09/30/2015	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Monitor and report to the Steering committee and the State on status of achievement of PCMH and MU	Project		In Progress	04/01/2015	09/30/2015	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
Milestone #3 Ensure that all participating safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up.	Project	N/A	In Progress	04/01/2015	09/30/2018	04/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Practitioner - Primary Care Provider (PCP)	In Progress	04/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Practitioner - Non-Primary Care Provider (PCP)	In Progress	04/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Case Management / Health Home	In Progress	04/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task PPS uses alerts and secure messaging functionality.	Project		In Progress	04/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task Subtask A - Start: Identify which HH at risk participating safety net providers have/do not have an EHR and is connected to the Bronx RHIO	Project		In Progress	04/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task Develop a strategy to ensure EHR meets Bronx RHIO	Project		In Progress	04/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
connectivity requirements									
Task Incorporate sharing of information through the Bronx RHIO into the care plan work flow process	Project		In Progress	09/30/2015	09/30/2018	09/30/2015	09/30/2018	09/30/2018	DY4 Q2
Task Subtask B - Start: Identify which HH at risk participating safety net providers use/do not use alerts and secure messaging	Project		In Progress	04/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task Develop a strategy to help participating safety net providers use alerts and secure messaging	Project		In Progress	04/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task Incorporate alerts and secure messaging functionality in the care plan work flow process	Project		In Progress	01/01/2016	09/30/2018	01/01/2016	09/30/2018	09/30/2018	DY4 Q2
Milestone #4 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM.	Project	N/A	In Progress	04/01/2015	09/30/2018	04/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).	Project		In Progress	05/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	Provider	Safety Net Practitioner - Primary Care Provider (PCP)	In Progress	05/01/2015	09/30/2018	07/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task Subtask A - Start: Determine which of the HH at risk participating providers have/do not have EHRs that meet PCMH Level standards	Project		Completed	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Implementation of a plan to provide technical assistance to PCPs assisting them in achieving PCMH Level 3 certification	Project		In Progress	04/01/2015	09/30/2015	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Develop a system to monitor and report to the steering committee and the State on status of achievement of PCMH Level 3 certification	Project		In Progress	04/01/2015	09/30/2015	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Development and implementation of a plan to conduct a needs assessment and gaps analysis of PCPs within the PPS to ascertain their readiness to achieve PCMH Level 3 standards and meaningful use	Project		In Progress	04/01/2015	09/30/2015	07/01/2015	03/31/2016	03/31/2016	DY1 Q4

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
registries, for all participating safety net providers.									
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.	Project		In Progress	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Identification of safety net provider IT capabilities including capability to utilize patient registries for population health management	Project		In Progress	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Development of a needs assessment and gaps analysis of safety net providers capability in actively using EHRs and use of targeted registries	Project		In Progress	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Development and implementation of an interim plan to address gaps in safety net providers ability to actively share EHRs and use patient registries for population health management while IT platform is in planning stage	Project		In Progress	09/30/2015	03/31/2016	09/30/2015	03/31/2016	03/31/2016	DY1 Q4
Task Development of key metrics and system for tracking key metrics for all PPS projects; asthma, diabetes, behavioral health and HIV/AIDS	Project		In Progress	09/30/2015	03/31/2016	09/30/2015	03/31/2016	03/31/2016	DY1 Q4
Task Identification of safety net providers across the PPS and development of a comprehensive safety net provider directory	Project		In Progress	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Implement process for steering committee and clinical oversight of population health management, and use of targeted registries	Project		In Progress	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Implement a Learning Collaborative Model to improve population health, disseminate evidence-based practices and improve quality of care focused on asthma, diabetes, behavioral health conditions, maternal-child health and HIV AIDS	Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task Develop and implement a process to monitor and report to the Steering Committee and the State on status of population health, EHRs and patient registries	Project		In Progress	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Development of a data dictionary to support the running of patient registry data	Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task Development and implementation of a plan to conduct a needs assessment and gaps analysis of PCPs within the PPS to ascertain their readiness to achieve meaningful use standards										
Task Identification of primary care providers within the PPS and development of a PCP directory										
Task Development and implementation of a communication and engagement plan focused on primary care providers to engage them in process of achieving meaningful use standards										
Task Based on needs assessment and gaps analysis, development of a plan with staffing and budget to provide technical assistance to PCPs assisting them in achieving meaningful use standards										
Milestone #5 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.										
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										
Task Identification of safety net provider IT capabilities including capability to utilize patient registries for population health management										
Task Development of a needs assessment and gaps analysis of safety net providers capability in actively using EHRs and use of targeted registries										
Task Development and implementation of an interim plan to address gaps in safety net providers ability to actively share EHRs and use patient registries for population health management while IT platform is in planning stage										
Task Development of key metrics and system for tracking key metrics for all PPS projects; asthma, diabetes, behavioral health and HIV/AIDS										
Task Identification of safety net providers across the PPS and development of a comprehensive safety net provider directory										
Task Implement process for steering committee and clinical oversight of population health management, and use of targeted registries

Task Identification of primary care providers eligible for PCMH designation within the PPS and development of a PCP directory										
Task Development and implementation of a communication and engagement plan focused on primary care providers to engage them in process of achieving 2014 PCMH Level 3 certification and meaningful use										
Task Development and implementation of a plan to conduct a needs assessment and gaps analysis of PCPs within the PPS to ascertain their readiness to achieve 2014 Level 3 PCMH standards and meaningful use										
Task Based on needs assessment and gaps analysis, development of a plan, staffing and budget to provide technical assistance to PCPs pursuing PCMH designation and collaboratively assisting them in achieving 2014 PCMH Level 3 certification and meaningful use										
Task Implementation of a plan to provide technical assistance to PCPs assisting them in achieving 2014 level 3 PCMH certification and meaningful use										
Task Monitoring and Reporting of status of providers achieving 2014 level 3 PCMH certification and meaningful use										
Task Monitor and report to the Steering committee and the State on status of achievement of PCMH and MU										
Milestone #3 Ensure that all participating safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up.										
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	44	55	100	145	145	145	145	145	145	145

Task PPS uses alerts and secure messaging functionality.										
Task Subtask A - Start: Identify which HH at risk participating safety net providers have/do not have an EHR and is connected to the Bronx RHIO										
Task Develop a strategy to ensure EHR meets Bronx RHIO connectivity requirements										
Task Incorporate sharing of information through the Bronx RHIO into the care plan work flow process										
Task Subtask B - Start: Identify which HH at risk participating safety net providers use/do not use alerts and secure messaging										
Task Develop a strategy to help participating safety net providers use alerts and secure messaging										
Task Incorporate alerts and secure messaging functionality in the care plan work flow process										
Milestone #4 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM.										
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).										
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	44	55	100	145	145	145	145	145	145	145
Task Subtask A - Start: Determine which of the HH at risk participating providers have/do not have EHRs that meet PCMH Level standards										
Task Implementation of a plan to provide technical assistance to PCPs assisting them in achieving PCMH Level 3 certification

Milestone #5 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.										
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										
Task Identification of safety net provider IT capabilities including capability to utilize patient registries for population health management										
Task Development of a needs assessment and gaps analysis of safety net providers capability in actively using EHRs and use of targeted registries										
Task Development and implementation of an interim plan to address gaps in safety net providers ability to actively share EHRs and use patient registries for population health management while IT platform is in planning stage										
Task Development of key metrics and system for tracking key metrics for all PPS projects; asthma, diabetes, behavioral health and HIV/AIDS										
Task Identification of safety net providers across the PPS and development of a comprehensive safety net provider directory										
Task Implement process for steering committee and clinical oversight of population health management, and use of targeted registries										
Task Implement a Learning Collaborative Model to improve population health, disseminate evidence-based practices and improve quality of care focused on asthma, diabetes, behavioral health conditions, maternal-child health and HIV AIDS										
Task Develop and implement a process to monitor and report to the Steering Committee and the State on status of population health, EHRs and patient registries										
Task Development of a data dictionary to support the running of patient registry data										
Milestone #6 Develop a comprehensive care management plan for each patient to engage him/her in care and to reduce patient risk

Project 2.b.i – Ambulatory Intensive Care Units (ICUs)

IPQR Module 2.b.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The Ambulatory ICU (AICU) is designed to improve care and decrease unnecessary hospital utilization for multimorbid patients with a past history of, or very high risk for, re-hospitalizations.

1. Risk: Patient Complexity. Assessing the target population (i.e., patients with multiple mental health and/or medical illnesses) is labor and time intensive. Each assessment lasts two or more hours and involves multiple providers and specialists across the continuum of services – primary care, specialty health care, mental health care, substance abuse, housing, and legal services. Mitigation Strategy: We plan to begin with two AICUs at Urban Health Plan (UHP) and Bronx-Lebanon Hospital Center (BLHC). Both organizations have considerable leadership experience in team-based assessments and care of high-risk patients. An advanced telemedicine capability will allow team members, specialists, and patients to be involved remotely, increasing availability and efficiency.
2. Risk. Referral and Engagement. Community providers may be reluctant to refer patients to the AICU. In the past, organizations competed for patients. Mitigation: Collaboration with Stakeholder Engagement CFW to develop relationships between community providers and AICUs to enhance communication and education strategy as well as establishing other AICUs at partner clinical sites will help overcome this barrier.
3. Risk. Staff development. The experience and capacities of professional staff – including physicians, social workers, and nurses – to be able to consider, address and treat the variety of problems presented by AICU cases need to be broadened. Mitigation Strategy: Intensive education on the purpose and methods of an AICU will help professionals realize they are involved in the entirety of the patient's situation from keeping an accurate patient's problem list to consulting with legal aid attorneys.
4. Risk. Demonstrating Effectiveness. With complex patients success does not happen overnight and differences made by the AICU will be challenging to demonstrate. For a time, such patients will continue to go to the emergency department, miss appointments, and have personal crises. Mitigation Strategy: Our experience with a pilot AICU team's efforts is promising. Our first 113 patients showed a 28% cost decrease from inpatient and emergency department visits during the first year. Qualitative assessments showing increased provider and patient satisfaction, along with decreased costs within the first year will make a powerful argument for the AICU's utility and increase referrals in later years.
5. Risk. Electronic Health Record Compatibility. UHP, BLHC, and other providers use a variety of electronic medical record platforms that are currently not interoperable. Mitigation Strategy: We anticipate meeting this challenge by sharing reports extracted from EMRs used by UHP and BLHC. Communication to outside providers will be done through a secure health messaging system.
6. Risk. PCMH Level 3. The challenges involved in getting all sites to PCMH 2014 Level 3 are formidable. Mitigation Strategy: The AICU are likely to attain 2014 PCMH standards because they are in practice settings already working to attain these standards. The PCMH cross-functional workgroup focuses on fulfillment of this requirement.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

7. Risk. Cultural Competency. The South Bronx is a heterogeneous population using a variety of languages. Mitigation Strategy: Work closely with Workforce and Stakeholder Engagement to develop a gap analysis that will identify cultural and health needs of the population served to develop strategy for health literacy and cultural competence.

8. Risk. Ability to link patients to care coordination. Mitigation. Leverage the two Health Homes in the PPS and the centralized Care Coordination Clearinghouse to identify and link patients to appropriate care coordination.

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 2.b.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Patient Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q3 should include patients previously reported in DY1 Q2 plus new patients engaged in DY1 Q3. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
100% Actively Engaged By	Expected Patient Engagement

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task Develop system for tracking selected population health metrics and utilization for ambulatory ICU patient population										
Task Analyze related quality metrics and utilization data and focus on areas in need of improvement using PDSA rapid improvement cycles										
Task Develop and deliver training for staff to collect, track and report patient data										
Milestone #4 Establish care managers co-located at each Ambulatory ICU site.										
Task PPS has co-located health home care managers and social support services.										
Task Develop plan to ensure Health Home Case Managers are co-located at AMB-ICUs										
Task Develop a list of social services resources within the PPS to be used to support the AMB-ICU population										
Task Engage social services resources within the PPS in serving patient population in AMB-ICUs										
Task Implement plan to co-located Health Home Case Managers at AMB-ICUs										
Milestone #5 Ensure that all safety net project participants are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including Direct exchange (secure messaging), alerts and patient record look up.										
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	24	49	74	99	124	149	149	149	149
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	1	6	11	16	21	21	21	21
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	1	1	1	1	1	1	1	1	1

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2	
Task PPS uses alerts and secure messaging functionality.											
Task Identification of safety net providers across the PPS and development of a comprehensive safety net provider directory including an it assessment (current state and gap) for all PPS providers											
Task Development of a plan to educate patients/clients on the RHIO Consent to ensure their understanding of the form											
Task Selection of a PPS wide IT platform and plan for engaging all providers in using the selected platform											
Task Identification of safety net provider IT capabilities including current status in regards to: EHR implementation, participation in the RHIO, secure messaging systems, alerts systems											
Task Development of a needs assessment and gaps analysis focused on safety net providers IT needs											
Task Development of a plan to address safety net providers needs based on data from the needs assessment and gaps analysis											
Task Implementation of plan to address safety net providers IT needs and monitoring system to track progress											
Task Monitor and report to the Steering Committee and to the State on status of sharing of EHRs and RHIO consent											
Task Development and implementation of a PPS wide plan for sharing EHR systems, PPS wide engagement in the RHIO, secure messaging and alerts systems											
Milestone #6 Ensure that EHR systems used by participating providers meet Meaningful Use and PCMH Level 3 standards and/or APCM.											
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).											
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	0	0	0	0	0	0	0	24	49	74	99
Task Develop a plan to provide technical assistance to PCPs assisting them in achieving PCMH Level 3 certification and meaningful use

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task Develop a system to monitor and report to the steering committee and the State on status of achievement of PCMH Level 3 every quarter										
Task Development and implementation of a plan to conduct a needs assessment and gaps analysis of PCPs within the PPS to ascertain their readiness to achieve PCMH Level 3 standards and meaningful use										
Task Identification of primary care providers within the PPS and development of a PCP directory										
Task Development and implementation of a communication and engagement plan focused on primary care providers to engage them in process of achieving PCMH Level 3 certification and meaningful use										
Task Based on needs assessment and gaps analysis, development of a plan with staffing and budget to provide technical assistance to PCPs assisting them in achieving PCMH Level 3 certification and meaningful use										
Milestone #7 Implementation of a secure patient portal that supports patient communication and engagement as well as provides assistance for self-management.										
Task Secure patient portal supporting patient communication and engagement.										
Task Develop a secure patient portal to support patient communication and engagement for the ambulatory ICU population										
Task Implement a secure patient portal to support patient communication and engagement for the ambulatory ICU population										
Task Develop a training plan to implement secure patient portal supporting patient communication and engagement for the ambulatory ICU population										
Task Implement a training plan to implement secure patient portal supporting patient communication and engagement for the ambulatory ICU population										
Task Monitor and report on the implementation of a secure patient

portal to support patient communication and engagement for the ambulatory ICU population										
Milestone #8 Establish a multi-disciplinary, team-based care review and planning process to ensure that all Ambulatory ICU patients benefit from the input of multiple providers.										
Task Policies and procedures are in place for team based care planning.										
Task Research internal and external best practices/models in Team Based Care that includes multi-disciplinary case conferences and care planning meetings for each ambulatory ICU patient										
Task Pilot Team Based Care case review and planning during Interdisciplinary case conferences										
Task Identify internal and/or external trainers who are proficient at training on Team Based Care, case review and planning, and multi disciplinary case conferences										
Task Obtain or Develop training materials on Team Based Care Review										
Task Implement training on Team Based Care planning and multi disciplinary case conferences										
Task Develop policies and procedures on team-based case review and planning										
Task Develop and implement protocols/work flow for Team Based Care and Interdisciplinary Case Conferences										
Milestone #9 Deploy a provider notification/secure messaging system to alert care managers and Health Homes of important developments in patient care and utilization.										
Task EHR System with Real Time Notification System is in use.										
Task Develop real time notification system in EMRs for ambulatory ICU population										
Task Implement system real time notification system in EMRs for ambulatory ICU population										
Task Develop a training plan to implement provider notification/secure

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
messaging system to alert care managers and Health Homes of important developments in patient care and utilization for ambulatory ICU population .										
Task Implement a training plan provider notification/secure messaging system to alert care managers and Health Homes of important developments in patient care and utilization for ambulatory ICU population										
Task Monitor and report on the implementation of provider notification/secure messaging system to alert care managers and Health Homes of important developments in patient care and utilization for ambulatory ICU population .										
Milestone #10 Use EHRs and other technical platforms to track all patients engaged in the project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task Monitor and report on number of engaged ambulatory ICU patients										
Task Develop process for identifying patients for ambulatory ICU patient registry										
Task Implement process for identifying patients for ambulatory ICU patient registry										
Task Develop most effective and efficient platform for reporting on number of engaged patients										

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Milestone #1 Ensure Ambulatory ICU is staffed by or has access to a network of providers including medical, behavioral health, nutritional, rehabilitation and other necessary provider specialties that is sufficient to meet the needs of the target population.										
Task PPS has recruited adequate specialty resources within the community including medical, behavioral, nutritional, rehabilitation, and other necessary providers to meet the population needs.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task PPS has established a standard clinical protocol for Ambulatory ICU services.										
Task Assess whether the network of providers serving the ambulatory ICU is sufficient to serve the ambulatory ICU population										
Task Develop list of network of providers that can currently serve the ambulatory ICU population										
Task Continuously assess network of providers and ensure capacity to serve ambulatory ICU patients										
Task Develop and pilot clinical protocols for provision of AMB-ICU services										
Task If gaps analysis demonstrates gaps in network of providers, develop a plan with workforce to fill those gaps										
Task Bring successful ambulatory ICU clinical protocols to scale										
Task Develop and finalize standardized work flow, clinical protocols, and policies and procedures										
Task If analysis demonstrates gaps in network of providers, implement a plan with workforce to fill gaps to serve the ambulatory ICU population										
Task Train staff on standardized work flow, clinical protocols, and policies and procedures										
Milestone #2 Ensure Ambulatory ICU is integrated with all relevant Health Homes in the community.										
Task Each identified Ambulatory ICU has established partnerships with the local Health Home based on the Nuka Model.										
Task Partner with the two Health Homes in the PPS to ensure that all AMB-ICU patients have an assigned Health Home Case Manager										
Task Compile list of community resources; housing, rehabilitation, behavior health, social services, home care etc. within the PPS to serve the ambulatory ICU population										
Task Implement protocols and policies and procedures outlining how

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Health Home and community based services serve the Ambulatory ICUs										
Task Develop system for tracking the number of ambulatory ICU patients with an assigned Health Home Case Manager										
Task Develop protocols and policies outlining how Health Home and community services serve the Ambulatory ICUs										
Task Develop staff training on protocols and policies outlining how Health Home and community services serve the Ambulatory ICUs										
Task Implement staff training on protocols and policies outlining how Health Home and community services serve the Ambulatory ICUs										
Milestone #3 Use EHRs and other technical platforms to track all patients engaged in the project, including collecting community data and Health Home referrals.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task Clearly define inclusion criteria for entry to ambulatory ICU project										
Task Assess current IT capacity to create registry of ambulatory ICU patients										
Task Develop methodology for identifying ambulatory ICU patients through EMR reporting tools										
Task Engage health plans to share data that will identify high cost/high utilization patients that may be appropriate for inclusion in ambulatory ICU project										
Task Identify multiple mechanisms for identifying ambulatory ICU patients										
Task Develop a patient registry at each ambulatory ICU that is updated each quarter										
Task Based on ambulatory ICU definition, develop report to run a patient registry list

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project 2.b.iv – Care transitions intervention model to reduce 30 day readmissions for chronic health conditions

IPQR Module 2.b.iv.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: managing a patient's social determinants of health that adversely impacts their risk for readmission (e.g. homelessness). Mitigation: The PPS will co-locate care coordinators at PCPs sites in order to connect patients to social services that will facilitate their compliance with discharge instructions.

Risk: Identifying placements with medical resources for homeless patients post discharge. Mitigation: The PPS will screen patients upon admission for unstable housing. We will connect patients with highest risk of readmission to our Ambulatory ICU program or to medical shelters. We also plan to implement a process to regularly communicate with homeless shelters with limited medical resources.

Risk: Ensuring patients with behavioral health issues comply with their discharge instructions. Mitigation: The PPS plans to draw upon its psychiatric resources at Bronx Lebanon Hospital and in the community to coordinate medical and behavioral health treatment. Patients with complex medical issues that are also seriously mentally ill will benefit from Ambulatory ICU level care. Patients with SMI and less complex medical issues will be linked to a primary care practice that co-locates both behavioral health and care coordination. Although substance abuse is a challenge to successfully treat, a more difficult subset are patients not willing to accept treatment referrals. We believe we can improve our process for engaging our referrals by making use of existing community resources, creating relationships between care coordinators/health navigators and patients and using peer resources.

Risk: Locating patients for follow up care post discharge. Many patients in the BLHC PPS are difficult to locate because they have unstable housing, are incarcerated, or do not have a phone. Mitigation: Issue, the project will collect caregiver contact information, personal cell phone numbers, expected addresses and pharmacies used for follow-up. For patients without phones, care coordinators will help them apply for the Obama phone.

Risk: Connectivity to care coordination does not occur. Mitigation: Work with the Care Coordination clearinghouse to identify and engage Care Coordination pre-discharge and to link them to the a care coordinator to work with them to develop and implement the care transition plan to ensure patient compliance with care and to provide the necessary support

The DSRIP start-up funds available are not sufficient in order to expand this project successfully and meet our patient engagement targets. The project plans to use the existing Care Transitions program at Bronx Lebanon to roll out this project.

Many patients at risk for readmission do not have the health benefit for all services needed. To address this challenge, the BLHC PPS will rely on its social service organizations such as JASA who have benefits entitlement navigators who can help people access services that they qualify for.

Providers participating in this project have different EHR systems that do not talk with each other. To help facilitate the sharing of patient data

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

across providers electronically, all participating organizations will have to join the Bronx RHIO which may not be financially realistic for some community based providers.

It is difficult for hospital discharge planners to follow up with patients who have been transitioned to residential care (i.e. hospice, nursing home, and/or assisted living) due to privacy and confidentiality restrictions. PPS plans to connect patients with a care coordinator who can act as a liaison between the hospital discharge planners and the residential care facilities.

Lack of communication between these out-of-network hospitals and providers within the PPS will make it difficult to follow up with the patients and connect them with the care they need to prevent their read

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 2.b.iv.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Patient Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q3 should include patients previously reported in DY1 Q2 plus new patients engaged in DY1 Q3. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
100% Actively Engaged By	Expected Patient Engagement
DY4,Q4	25,000

Patient Update		% of Semi-Annual Commitment To-Date	Semi-Annual Variance of Projected to Actual	% of Total Actively Engaged Patients To-Date
DY1, Q1	DY1,Q2			
0	1,188	118.80%	-188	4.75%

new integrated care team procedures and protocols										
Task Work with Workforce Committee to train providers about the new process										
Task Pilot new protocols										
Task Evaluate effectiveness of new process, and modify process as necessary										
Milestone #2 Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.										
Task A payment strategy for the transition of care services is developed in concert with Medicaid Managed Care Plans and Health Homes.										
Task Coordination of care strategies focused on care transition are in place, in concert with Medicaid Managed Care groups and Health Homes.										
Task PPS has protocol and process in place to identify Health-Home eligible patients and link them to services as required under ACA.										
Task Task 1 subtask start: Work with Steering and Stakeholder to Identify which network providers have existing contracts with MCOs for care transitions										
Task Work with Steering to identify areas for opportunity to negotiate, revise, or renew contracts with MCOs for care transitions (e.g. bundled payments, covered providers)										
Task Task 2 subtask start: Work with Steering to Identify whether or not MCOs provide transitional care services. If no, negotiate a contract with MCOs to provide transitions services										
Task Identify where duplication of workflows exist between the DSRIP Care Transitions program and MCOs providing transitional services										
Task Streamline the procedures, policies, protocols, workflows etc of the DSRIP Care Transitions program and the MCOs providers transitions services

Milestone #7 Use EHRs and other technical platforms to track all patients engaged in the project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task Task 1 subtask start: Refine Care Transitions patient eligibility criteria										
Task Develop actively engaged data collection specs										
Task Create patient tracking template to be used by providers										
Task Submit specs, tracking template, and protocols to IT										
Task Pilot tracking of patients										
Task Evaluate effectiveness of new process, and modify as necessary										
Task Monitor hard to reach patients that are impacting actively engaged counts										

Prescribed Milestones Current File Uploads

-----------------------	----------------	------------------	------------------	--------------------	--------------------

No Records Found

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.	
Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.	

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Ensure required social services participate in the project.	
Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.	
Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.	
Ensure that a 30-day transition of care period is established.	
Use EHRs and other technical platforms to track all patients engaged in the project.

Project 3.a.i – Integration of primary care and behavioral health services

IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: Partner engagement. Mitigation: Engage through phone, email, in-person; Define partner roles/expectations; Identify buy-in barriers; Provide education on integration models; share examples of successful integration models; Follow Up "Coach" calls for support; Develop Learning Collaborative for providers.

Risk: Workforce unfamiliar with integrated clinical practice may fail to adopt as required. Mitigation: Educate workforce on foundation of collaborative care/ integrated clinical practices; Communicate with providers discussing concerns/suggestions related to clinical care practices; provide implementation guidance according to new standards; Develop specific competencies defining role of team members; Develop training program addressing primary care/behavioral health topics; Develop written plan/flow chart with new practice design/workflow

Risk: Primary Care Providers failing to adopt new PCMH guidelines within required time frame. Mitigation: Educate providers/administrators on specific elements of PCMH guidelines; Develop toolkit that illustrates steps to achieve PCMH certification by DY3, Q4; Offer webinars/learning collaborative opportunities on PCMH certification process; Customize training-offering in-person consultation/support at provider sites; Offer trainings at centralized location after office hours; Create Help Line via phone/ email for providers with PCMH specialist/support person

Risk: Primary Care Providers may fail to implement screenings or not use screening tools as indicated. Mitigation: Educate providers on screening tools implementation; On-site training at provider locations; Group training at centralized location after office hours; Create Help Line via phone/email for providers from a screening tool specialist/support person

Risk: Insufficient quantity of behavioral health providers. Mitigation: Develop relationships with professional schools to recruit behavioral health providers; Hire peer mentor/recovery coaches to work with care team helping clients achieve wellness goals; Explore online therapy

Risk: Insufficient quantity of multilingual speaking behavioral health providers. Mitigation: Strengthen behavioral health skill set of providers who are multilingual; Recruit providers speaking non-English languages; Use multilingual peer mentor/recovery coaches; Offer free foreign language courses to existing staff; Create incentives for staff to learn foreign languages

Risk: Patient confusion regarding new concept of multiple providers in one location. Mitigation: Educate patients on integrated care; Offer workshops preparing patients for transition; Prepare multilingual Flyer for patients; Implement joint case conferences

Risk: Patients with severe illnesses/acute symptoms may not benefit from level of services offered onsite. Mitigation: Leverage existing Health Homes to develop referral process with PPS partners providing intensive services for those requiring services offsite; Walk-in appointments for crisis management; Weekend/evening availability; ER diversion plan; Create 24 hour warm line; Utilize Peer Mentors/Recovery Coaches

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Risk: Programs may make decisions without input from stakeholders, compromising person-centered care driven by patient choice. Mitigation: Institute advisory board consisting of patients, families, providers, community partners and engage patients in dialogue about services provided, satisfaction/suggestions to improve/maintain high-quality care

Risk: Connectivity to care coordination does not occur. Mitigation: Work with the Care Coordination clearinghouse to identify and engage Care Coordination pre-discharge and to link them to the a care coordinator to work with them to develop and implement the care transition plan to ensure patient compliance with care and to provide the necessary

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 3.a.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Patient Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q3 should include patients previously reported in DY1 Q2 plus new patients engaged in DY1 Q3. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
100% Actively Engaged By	Expected Patient Engagement
DY4,Q4	30,000

Patient Update		% of Semi-Annual Commitment To-Date	Semi-Annual Variance of Projected to Actual	% of Total Actively Engaged Patients To-Date
DY1, Q1	DY1,Q2			
0	9,777	1955.40%	-9,277	32.59%

Task Identify all participating primary care sites										
Task Finalize contracts/MOUs with PCP practices										
Task Establish policies and procedures outlining coordination of care and hand-offs between BH and PCP										
Task Establish training for providers on integrated model of care										
Task Institute clear workflows for assessment, referrals and follow up care to be provided										
Task Train providers on workflows and care coordination processes										
Task Develop a plan to provide technical assistance to PCPs assisting them in achieving PCMH Level 3 certification										
Task Develop a system to monitor and report to the steering committee on status of achievement of PCMH Level 3 every quarter										
Task Development and implementation of a plan to conduct a needs assessment and gaps analysis of PCPs within the PPS to ascertain their readiness to achieve PCMH Level 3 standards										
Task Identification of primary care providers within the PPS and development of a PCP directory										
Task Development and implementation of a communication and engagement plan focused on primary care providers to engage them in process of achieving PCMH Level 3 certification										
Task Based on needs assessment and gaps analysis, development of a plan with staffing and budget to provide technical assistance to PCPs assisting them in achieving PCMH Level 3 certification										
Task In coordination with the Workforce Committee, re-deploy and recruit staff necessary to support co-location										
Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
process.										
Task Regularly scheduled formal meetings are held to develop collaborative care practices.										
Task Coordinated evidence-based care protocols are in place, including medication management and care engagement processes.										
Task Identify group of providers to meet regularly to design collaborative care approach										
Task Establish training for providers on coordinated care models										
Task Establish policies and procedures for patients that need a warm transfer										
Task Train care team on workflows and care coordination										
Task Establish and implement a mechanism to track patients that receive a warm transfer										
Task Conduct a gap analysis to determine the success of the warm transfer and make any necessary changes to the system										
Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.										
Task Policies and procedures are in place to facilitate and document completion of screenings.										
Task Screenings are documented in Electronic Health Record.										
Task At least 90% of patients receive screenings at the established project sites (Screenings are defined as industry standard questionnaires such as PHQ-2 or 9 for those screening positive, SBIRT).										
Task Positive screenings result in "warm transfer" to behavioral health provider as measured by documentation in Electronic Health Record.	0	0	0	0	0	25	50	75	100	125
Task Establish training for providers on the various screening tools

Task Policies and procedures are in place to facilitate and document completion of screenings.										
Task Establish policies and procedures for patients that need a warm transfer										
Task Establish and implement a mechanism to track patients that receive a warm transfer										
Task Conduct a gap analysis to determine the success of the warm transfer and make any necessary changes to the system										
Task Train care team on workflows and care coordination										
Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.										
Task EHR demonstrates integration of medical and behavioral health record within individual patient records.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task Perform a current state assessment and gap analysis of EMR technology throughout the PPS, specifically looking at MU EMR's, RHIO Connectivity and Behavioral health/physical health Integration within EMR's										
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements										
Task Work with IT and Workforce Committee to develop and implement a training on EHR integration of medical and behavioral health records to inform providers										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting										
Task Finalize patient inclusion criteria and identification per NYS and PPS criteria including risk stratification criteria										
Task IT meets with Project workgroup to determine IT Requirements, including identifying fields and templates required for tracking patients, reporting, and risk stratification of patients

Task Work with IT and Workforce Committee to develop and implement a training on EHR integration of medical and behavioral health records to inform providers including psychiatrists										
Task Finalize patient inclusion criteria and identification per NYS and PPS criteria including risk stratification criteria										
Task Ensure that EHR systems used by participating providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.										
Task IT meets with Project workgroup to determine IT Requirements, including identifying fields and templates required for tracking patients, reporting, and risk stratification of patients										
Task Build discrete variables to track patients in EHR/Template, which will allow the PPS to track engaged patients.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task Create tracking and reporting system with IT platform.										
Task Create a dashboard tracking the progress of the projects engagement of actively engaged patients										
Task Develop current state assessment plan to determine the current landscape of EHR deployments, state of implemented interoperability between these systems, and levels of functional data sharing in the MS PPS provider network, including a list of PPS participant organizations to be queried										
Task Conduct data collection (survey of partners) for assessment utilizing tools such as email, phone, and in person assessments.										
Task Perform a current state assessment and gap analysis of EMR technology throughout the PPS, specifically looking at MU/RHIO Connectivity										
Task Provide PPS Recommendations and information to organizations procuring an EMR, which will meet PPS requirements including MU and RHIO Connectivity.										
Task Leverage the Stakeholder Engagement workgroup to communicate messages around financial and technical assistance programs offered by NYS and NYC.										
Task Work directly with RHIO on solutions to exchange behavioral health information among partners										
Task Discuss consent issues and options when exchanges Behavioral health information with RHIO										
Task Build a provider portal with the ability to view an integrated medical and behavioral health record of individual patients at the RHIO level.										
Task Build analytics analyzing behavioral health information among partners										
Task Monitor use of provider portal to ensure providers utilize the developed technology appropriately and make any adjustments to the provider portal as necessary throughout the process

Co-locate behavioral health services at primary care practice sites. All participating primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	
Develop collaborative evidence-based standards of care including medication management and care engagement process.	
Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Co-locate primary care services at behavioral health sites.	
Develop collaborative evidence-based standards of care including medication management and care engagement process.	
Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Implement IMPACT Model at Primary Care Sites.	
Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.	
Employ a trained Depression Care Manager meeting requirements of the IMPACT model.	
Designate a Psychiatrist meeting requirements of the IMPACT Model.	
Measure outcomes as required in the IMPACT Model.	
Provide "stepped care" as required by the IMPACT Model.	
Use EHRs or other technical platforms to track all patients engaged in this project.

Project 3.c.i – Evidence-based strategies for disease management in high risk/affected populations (adults only)

IPQR Module 3.c.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

<p>Risk: Assuring all providers are trained on the selected best practices for management of diabetes</p> <p>Mitigation</p> <ul style="list-style-type: none">- Select the evidence-based best practice for disease management and share with BLHCPPS partners- Identify all providers that need to be trained by coordinating training across the BLHCPPS- Select and train master trainers to facilitate training across the BLHCPPS- Develop a timetable to ensure all required providers will be trained and to implement best practices- Develop tracking tool to monitor training to ensure that all providers requiring training participate in this process <p>Risk: Partial adherence by providers of the evidence based practices, E.g. Not meeting the 80% participation of the required primary care practices within the BLHCPPS.</p> <p>Mitigation</p> <ul style="list-style-type: none">- Develop communication/engagement plan to engage providers that are not participating- Identify providers champion in the selected best practice to communicate the message- Develop a BLHCPPS learning collaborative to ensure implementation- Monitor effectiveness of the learning collaborative- Report on the outcomes of the learning collaborative <p>Risk: Insufficient staff as required for the described care coordination team to cover the number of patients within the target population who will need this service.</p> <p>Mitigation strategy</p> <ul style="list-style-type: none">• Workforce committee will be created to address definitions by repurpose and hire new staff• Collaboration with CBO's to leverage staffing needs.• Stanford disease model to be provided by Community partners• Develop care coordination teams (including diabetes educators, nursing staff, behavioral health providers, pharmacy, community health workers, and Health Home care managers) to improve health literacy, patient self-efficacy, and patient self-management <p>Risk: Ensure coordination with the Medicaid Managed Care organizations serving the target population.</p> <p>Mitigation Strategy</p> <ul style="list-style-type: none">- Share BLHCPPS initiative with MCOs to discuss coordination efforts and- Engage MCOs in regular meetings to share strategies
--

New York State Department Of Health
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

- Identify MCOs serving the target population and gaps in care and coverage are by MCO in the target community
- Establish a contract with MCOs to provide coverage and payment for services
- Have MCOs share data with BLHCPPS partners on a quarterly basis to assess coordination of provision of quality value based services
- Align with Finance Workgroup Plan

Risk: Many BLHCPPS partners do not have EHRs or other technical platforms to track all patients engaged in this project.

Mitigation Strategy

- Collaborate with the PCMH and IT Committees to identify partners current technical platforms
- Create a timeline and plan to develop a tracking tool in conjunction with IT Committee, that can be used by all BLHCPPS partners who do not have a technical platform to monitor their progress
- Work with the PCMH and IT Committees to align work with IT Workgroup Plan for technical assistance and implementation
- Link current IT infrastructures and disease registries so that patient care can be tracked and information shared between care providers.

Risk: Failure to meet the 2014 NCQA standards, Meaningful Use, and/or PCMH Level 3 standards by the end of Demonstration Year 3 for EHR systems used by participating safety net providers

Mitigation Strategy

- Identify where the providers are in terms of meeting the Meaningful Use and PCMH Level 3
- Use a learning collaborative to share best practices
- Track partners that are not meeting the standards
- Develop a plan to provide technical assistance to providers not meeting the standards

Risk: Connectivity to care coordination does not occur. Mitigation: Work with the Care Coordination clearinghouse to identify and engage Care Coordination pre-discharge and to link them to the a care coordinator to work with them to develop and implement the care transition plan

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 3.c.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Patient Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q3 should include patients previously reported in DY1 Q2 plus new patients engaged in DY1 Q3. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
100% Actively Engaged By	Expected Patient Engagement
DY3,Q4	20,000

Patient Update		% of Semi-Annual Commitment To-Date	Semi-Annual Variance of Projected to Actual	% of Total Actively Engaged Patients To-Date
DY1, Q1	DY1,Q2			
0	7,760	204.21%	-3,960	38.80%

pharmacists, dieticians, community health workers, and Health Home care managers where applicable.										
Task Care coordination processes are established and implemented.										
Task Task 2 Subtask: Develop care coordination team										
Task Task 3 Subtask: Care coordination processes are established and implemented										
Milestone #4 Develop "hot spotting" strategies, in concert with Health Homes, to implement programs such as the Stanford Model for chronic diseases in high risk neighborhoods.										
Task If applicable, PPS has Implemented collection of valid and reliable REAL (Race, Ethnicity, and Language) data and uses the data to target high risk populations, develop improvement plans, and address top health disparities.										
Task If applicable, PPS has established linkages to health homes for targeted patient populations.										
Task If applicable, PPS has implemented Stanford Model through partnerships with community-based organizations.										
Task Task 2 subtask: Implement Stanford model for high-risk population in our PPS health homes by establishing linkage with health homes in PPS.										
Task Task 3 subtask start: Define clinical criteria for patient referral to Stanford model										
Task Select community based organization(s) group to deliver Stanford model by outreaching to Partners with interested CBO with support of Stakeholder Engagement Workgroup										
Task Make partnership agreement with community based organization to deliver Stanford model with support of Stakeholder Engagement Workgroup										
Task Train staff/peers to deliver Stanford										
Task IT committee to assist in the delivery of IT/EHR "prompts" for referrals to Stanford										
Task Instruct PCP's core managers in use of QTAC electronic patient

referral portal to Stanford classes. Engage Bronx RHIO to ID pool of patients for Stanford Model											
Task Community group/ peer outreach to patients living in hot spots											
Task Provide Stanford course to designated populations such as patients in high risk neighborhoods											
Milestone #5 Ensure coordination with the Medicaid Managed Care organizations serving the target population.											
Task PPS has agreement in place with MCO related to coordination of services for high risk populations, including smoking cessation services, hypertension screening, cholesterol screening, and other preventive services relevant to this project.											
Task Task 1 subtask: Develop coordination of services agreement with MCO for high risk populations and preventive care services with the support of the Steering Committee											
Milestone #6 Use EHRs or other technical platforms to track all patients engaged in this project.											
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.											
Task PPS uses a recall system that allows staff to report which patients are overdue for which preventive services and to track when and how patients were notified of needed services.											
Task Task 1 subtask: Identify and track all patients in project with the support of the IT Committee.											
Task Task 2 subtask: Use a recall system to identify and outreach patients requiring services with the support of the IT Committee.											
Milestone #7 Meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3 for EHR systems used by participating safety net providers.											
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).											
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	0	0	0	0	0	0	0	5	25	65	100

New York State Department Of Health
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project 3.d.ii – Expansion of asthma home-based self-management program

IPQR Module 3.d.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk #1: Lack of patient and community awareness regarding the benefits of participation in home visitation programs.

Mitigation #1: Develop a screening tool for use in identifying who needs a home assessment. Utilize screen as an education tool to teach patients why home visit is useful.

Tool to be used in:

- Emergency Room visit
- In-patient units
- OPD Clinic

Risk #2: Patient non-compliance with home visitation services.

Mitigation #2:

- In addition to setting up telephone appointment CHW would show up at door if there is not telephone response
- Further education
- Involvement of other relevant CBOs, including child welfare, mental health agencies

Risk #3: Challenges in identifying and hiring a workforce that can appropriately address asthma issues in the community.

Mitigation #3:

- Work with 1199 workforce training and development team to assist with identifying potential workforce
- Work closely with PPS Workforce Committee

Risk #4: Lack of patient/family engagement in psycho-social interventions.

Mitigation #4: Train staff in Motivational Interviewing, an EBM intervention shown to effectively engage families.

Risk #5: Lack of availability of mental health and social service resources

Mitigation #5: Develop a resource manual and engage appropriate PPS Partners in addition to other CBOs to commit to providing services for their clients in the programs. Integrate the resource into PPS website and other electronic platforms.

New York State Department Of Health
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Risk #6: Inadequate programs and/or financial capacity to address the Integrated Pest Management (IPM) needs of the patients identified

Mitigation #6: Work with health home at risk and DOH Asthma program to provide additional support for clients unable to afford IPM interventions. Potentially, negotiate with IPM companies to secure subsidized cost of certain products. Work with Finance Committee to identify payment support options.

Risk #7: Inconsistent implementation of evidence based asthma guidelines across PPS providers.

Mitigation #7: Develop standardized processes and requirements for partners.

- Conduct an evaluation of community providers to assess their level of compliance with the guidelines thereby identifying those that need to be trained on implementation of the guidelines
- Develop mechanism to train providers to be compliant with Asthma Guidelines and monitor appropriate use

Risk #8: Difficulty with obtaining RHIO consent form/authorization for data sharing as well as the provision of other services by the PPS.

Mitigation #8: Address in close collaboration with IT Committee.

Risk #9: Challenge with the provision of asthma educational resources to community providers for patients/families.

Mitigation #9: Addressed in close collaboration with Finance Committee. Workforce Committee will be involved as it relates to the development of educational resources that are culturally and linguistically appropriate as well as developing community based forums for providers to refer patients on asthma and other co-morbidities.

Risk #10: Many providers do not have electronic platforms that are needed to coordinate care

Mitigation #10: Will work with IT and Steering Committee to develop inexpensive electronic alternative platforms for providers that do not have an EHR, such as a HIPAA compliant database such as an Excel spreadsheet to track.

Risk #11: Connectivity to care coordination does not occur.

Mitigation #11: Work with the Care Coordination clearinghouse to identify and engage Care Coordination pre-discharge and to link them to the a care coordinator to work with them to develop and implement the care transition plan to ensure patient compliance with care and to provide the necessary support

Bronx-Lebanon Hospital Center (PPS ID:27)

IPQR Module 3.d.ii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Patient Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q3 should include patients previously reported in DY1 Q2 plus new patients engaged in DY1 Q3. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
100% Actively Engaged By	Expected Patient Engagement
DY4,Q4	18,000

Patient Update		% of Semi-Annual Commitment To-Date	Semi-Annual Variance of Projected to Actual	% of Total Actively Engaged Patients To-Date
DY1, Q1	DY1,Q2			
0	2,728	151.56%	-928	15.16%

IPQR Module 3.d.ii.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Expand asthma home-based self-management program to include home environmental trigger reduction, self-monitoring, medication use, and medical follow-up.	Project	N/A	Completed	04/01/2015	04/28/2015	04/01/2015	04/28/2015	06/30/2015	DY1 Q1
Task PPS has developed a strategy for the collaboration of community medical and social services providers to assess a patient's home and provide self-management education for the appropriate control of asthma.	Project		Completed	04/01/2015	04/28/2015	04/01/2015	04/28/2015	06/30/2015	DY1 Q1
Task Create tools to identify & refer ED/OPD inpatient patients to the asthma project – select those patients who demonstrate asthma exacerbations/symptoms	Project		Completed	04/01/2015	04/28/2015	04/01/2015	04/28/2015	06/30/2015	DY1 Q1
Task Develop home environmental screening for patients requiring intensive services – assess control over asthma	Project		Completed	04/01/2015	04/28/2015	04/01/2015	04/28/2015	06/30/2015	DY1 Q1
Task Define levels of service based risk and create scoring tool regarding asthma triggers.	Project		Completed	04/01/2015	04/28/2015	04/01/2015	04/28/2015	06/30/2015	DY1 Q1
Milestone #2 Establish procedures to provide, coordinate, or link the client to resources for evidence-based trigger reduction interventions. Specifically, change the patient's indoor environment to reduce exposure to asthma triggers such as pests, mold, and second hand smoke.	Project	N/A	In Progress	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task PPS has developed intervention protocols and identified resources in the community to assist patients with needed evidence-based trigger reduction interventions.	Project		In Progress	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Create an operation's manual to outline all details of program	Project		In Progress	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1

Milestone #1 Expand asthma home-based self-management program to include home environmental trigger reduction, self-monitoring, medication use, and medical follow-up.										
Task PPS has developed a strategy for the collaboration of community medical and social services providers to assess a patient's home and provide self-management education for the appropriate control of asthma.										
Task Create tools to identify & refer ED/OPD inpatient patients to the asthma project – select those patients who demonstrate asthma exacerbations/symptoms										
Task Develop home environmental screening for patients requiring intensive services – assess control over asthma										
Task Define levels of service based risk and create scoring tool regarding asthma triggers.										
Milestone #2 Establish procedures to provide, coordinate, or link the client to resources for evidence-based trigger reduction interventions. Specifically, change the patient's indoor environment to reduce exposure to asthma triggers such as pests, mold, and second hand smoke.										
Task PPS has developed intervention protocols and identified resources in the community to assist patients with needed evidence-based trigger reduction interventions.										
Task Create an operation's manual to outline all details of program implantation functions, including educational services, care coordination, and home visit interventions.										
Task Create a staff training manual to educate staff on environmental

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Expand asthma home-based self-management program to include home environmental trigger reduction, self-monitoring, medication use, and medical follow-up.	

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Establish procedures to provide, coordinate, or link the client to resources for evidence-based trigger reduction interventions. Specifically, change the patient's indoor environment to reduce exposure to asthma triggers such as pests, mold, and second hand smoke.	
Develop and implement evidence-based asthma management guidelines.	
Implement training and asthma self-management education services, including basic facts about asthma, proper medication use, identification and avoidance of environmental exposures that worsen asthma, self-monitoring of asthma symptoms and asthma control, and using written asthma action plans.	
Ensure coordinated care for asthma patients includes social services and support.	
Implement periodic follow-up services, particularly after ED or hospital visit occurs, to provide patients with root cause analysis of what happened and how to avoid future events.	
Ensure communication, coordination, and continuity of care with Medicaid Managed Care plans, Health Home care managers, primary care providers, and specialty providers.	
Use EHRs or other technical platforms to track all patients engaged in this project.

Project 3.f.i – Increase support programs for maternal & child health (including high risk pregnancies) (Example: Nurse-Family Partnership)

✓ IPQR Module 3.f.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: It is difficult to reach and engage high risk women because they are not often in care, they do not engage in those activities where there is outreach, such as health fairs, workshops etc, and they are often isolated demographically, racially and culturally. Mitigation: To address this challenge, the BLHC PPS plans to hire flexible CHWs with the ability to work evenings and weekends. In addition, the PPS will train the CHWs on how to outreach to high risk women.

Risk: The PPS does not know who the State approved CHW trainers are and if the CHWs can start seeing patients before they have been trained by a state approved trainer. Mitigation: The PPS will seek guidance from the state about this issue.

Risk: It is difficult to find CHW supervisors and CHWs with a maternal child health background because maternal child health was not a big focus until recently. Mitigation: The PPS will address this challenge by recruiting from community colleges and PPS partners who have similar programs, providing on-going training on Maternal and child health issues, and employing a Community Health Worker Coordinator with maternal and child health background.

Risk: That the project has goals that cannot be met within the required timeframe because of a delay in funds for implementation which resulted in a delay in hiring and deploying CHWs. Mitigation: The PPS plans to establish process for a timely deployment of CHWs. In addition, the PPs will work with the Workforce Committee to coordinate trainings and redeployment.

Risk: That it will be difficult to coordinate with managed care plans because there are no established linkages that connects their patients to the Maternal and Child Health program. Mitigation: To address this challenge, the PPS will develop a strategic plan to reach out to MCOs around a variety of issues including the Maternal and Child Health program.

Risk: That it will be difficult to track patients without an IT platform where patient information can be shared across providers. Mitigation: To address this challenge in the interim, this project will use paper intake assessment form to collect patient data, translate that information into a flat file, and submit to the Bronx RHIO to share across providers. In the future, the BLHC PPS will work with IT Committee to develop data fields that will capture the necessary patient information in a provider's EMR, and this information will be shared across providers using the Bronx RHIO.

Risk: That it will be a challenge to engage family in DY1 due to a slow hiring process. It will take at least 6 months to bring on and train staff, possibly affecting the number of index patients served within this period. Mitigation: The PPS plans to identify existing CHW staff and leverage existing programs with maternal and child health components to engage families until CHW staff can be hired.

Risk: Making sure appropriate referrals are made, information is shared, and progress reports are submitted on a timely basis. Mitigation: The PPS will address this by collaborating with the PPS' IT Committee to expand the current EMR to include referral feedback loops with community

partners.

Risk: Ability to link patients to care coordination. Mitigation. Leverage the two Health Homes in the PPS and the centralized Care Coordination Clearinghouse to identify and link patients to appropriate care coordination.

Risk: Since both CHW and NFP serve low income pregnant woman, another challenge is differentiating the target population for CHW program versus the NFP program. Mitigation: The NFP program will serve primarily patients with highly complex medical conditions that could benefit from clinical support.

Risk: Ensuring a seamless collaboration between the CHW and the NFP providers. Mitigation: NFP nurses will be available to participate in joint CHW and NFP meetings in order to st

IPQR Module 3.f.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Patient Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q3 should include patients previously reported in DY1 Q2 plus new patients engaged in DY1 Q3. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
100% Actively Engaged By	Expected Patient Engagement

Task Communicate results to stakeholders										
Task Develop protocols/policies/procedures to improve areas										
Task Pilot protocols										
Task Evaluate pilot impacts										
Task Expand pilots with successful outcomes										
Task Create an ongoing evaluation schedule to fuel quality improvement										
Task Task 4 subtask: Create a stakeholder communication plan on quality outcome measures										
Milestone #4 Use EHRs or other IT platforms to track all patients engaged in this project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task Task 1 subtask start: Determine participating patient criteria										
Task Develop actively engaged data collection specs										
Task Create patient tracking template to be used by providers										
Task Submit specs, tracking template, and protocols to IT										
Task Monitor hard to reach patients that are impacting actively engaged counts										
Milestone #5 Identify and engage a regional medical center with expertise in management of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center).										
Task PPS has identified and engaged with a regional medical center to address the care of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center). Assessment of the volume of high-risk pregnancies to be obtained through the CNA.										
Milestone #6 Develop a multidisciplinary team of experts with clinical and social support expertise who will co-manage care of the high-risk

mother and infant with local community obstetricians and pediatric providers.										
Task PPS has assembled a team of experts, including the number and type of experts and specialists and roles in the multidisciplinary team, to address the management of care of high-risk mothers and infants.										
Task PPS has established MOUs or joint operating agreements with substantive multidisciplinary team responsible for co-managing care of high-risk mothers and infants.										
Milestone #7 Develop service MOUs between multidisciplinary team and OB/GYN providers.										
Task PPS has identified and established MOUs or joint operating agreements between multidisciplinary team and OB/GYN providers.										
Milestone #8 Utilize best evidence care guidelines for management of high risk pregnancies and newborns and implement uniform clinical protocols based upon evidence-based guidelines.										
Task PPS has developed/adopted uniform clinical protocols guidelines based upon evidence-based standards agreed to by all partners.										
Task PPS has established best practice guidelines, policies and procedures, and plans for dissemination and training for interdisciplinary team on best practices.										
Task Training has been completed.										
Milestone #9 Ensure that all PPS safety net providers are actively sharing EHR systems or other IT platforms with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.										
Task EHR or other IT platforms, meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
women who are or may be at high-risk.										
Task Task 1 subtask start: Determine the inclusion and exclusion criteria for a high risk referral to NFP program										
Task Determine potential intake points and referral sources										
Task Develop a process to refer women into the NFP program										
Milestone #3 Establish a quality oversight committee of OB/GYN and primary care providers to monitor quality outcomes and implement new or change activities as appropriate.										
Task Membership of quality committee is representative of PPS staff involved in quality improvement processes and other stakeholders.										
Task Quality committee identifies opportunities for quality improvement and use of rapid cycle improvement methodologies, develops implementation plans, and evaluates results of quality improvement initiatives.										
Task PPS evaluates and creates action plans based on key quality metrics, to include applicable metrics listed in Attachment J Domain 3 Perinatal Care Metrics.										
Task Service and quality outcome measures are reported to all stakeholders.										
Task Task 1 subtask start: Identify OB/GYN and primary care providers interested in joining the oversight committee										
Task Identify PPS staff involved in the quality improvement process										
Task Identify other stakeholders that should be on the quality oversight committee										
Task Identify co chairs for the committee										
Task Select members from the above mentioned groups										
Task Create a charter for the committee with goals and objectives										
Task Facilitate a kick off meeting

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task Develop a schedule of ongoing meetings										
Task Task 2 subtask start: Determine potential areas for improvement										
Task Collect and analyze data										
Task Communicate results to stakeholders										
Task Create a ongoing evaluation schedule to fuel quality improvement										
Task Task 3 subtask start: Determine potential areas for improvement										
Task Collect and analyze data										
Task Communicate results to stakeholders										
Task Develop protocols/policies/procedures to improve areas										
Task Pilot protocols										
Task Evaluate pilot impacts										
Task Expand pilots with successful outcomes										
Task Create an ongoing evaluation schedule to fuel quality improvement										
Task Task 4 subtask: Create a stakeholder communication plan on quality outcome measurers										
Milestone #4 Use EHRs or other IT platforms to track all patients engaged in this project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task Task 1 subtask start: Determine participating patient criteria										
Task Develop actively engaged data collection specs										
Task Create patient tracking template to be used by providers										
Task Submit specs, tracking template, and protocols to IT

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task Monitor hard to reach patients that are impacting actively engaged counts										
Milestone #5 Identify and engage a regional medical center with expertise in management of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center).										
Task PPS has identified and engaged with a regional medical center to address the care of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center). Assessment of the volume of high-risk pregnancies to be obtained through the CNA.										
Milestone #6 Develop a multidisciplinary team of experts with clinical and social support expertise who will co-manage care of the high-risk mother and infant with local community obstetricians and pediatric providers.										
Task PPS has assembled a team of experts, including the number and type of experts and specialists and roles in the multidisciplinary team, to address the management of care of high-risk mothers and infants.										
Task PPS has established MOUs or joint operating agreements with substantive multidisciplinary team responsible for co-managing care of high-risk mothers and infants.										
Milestone #7 Develop service MOUs between multidisciplinary team and OB/GYN providers.										
Task PPS has identified and established MOUs or joint operating agreements between multidisciplinary team and OB/GYN providers.										
Milestone #8 Utilize best evidence care guidelines for management of high risk pregnancies and newborns and implement uniform clinical protocols based upon evidence-based guidelines.										
Task PPS has developed/adopted uniform clinical protocols guidelines based upon evidence-based standards agreed to by all partners.										
Task PPS has established best practice guidelines, policies and procedures, and plans for dissemination and training for interdisciplinary team on best practices.

Task Training has been completed.										
Milestone #9 Ensure that all PPS safety net providers are actively sharing EHR systems or other IT platforms with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.										
Task EHR or other IT platforms, meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task EHR or other IT platforms, meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task EHR or other IT platforms, meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task PPS uses alerts and secure messaging functionality.										
Milestone #10 Ensure that EHR systems or other IT platforms used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.										
Task EHR or other IT platforms meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).										
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	0	0	0	0	0	0	0	0	0	0
Milestone #11 Use EHRs or other IT platforms to track all patients engaged in this project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Milestone #12 Develop a Community Health Worker (CHW) program on the model of the Maternal and Infant Community Health Collaboratives (MICHC) program; access NYSDOH-funded CHW training program.										
Task PPS developed a work plan to use NYSDOH CHW training program and ensure CHW-trained members are integrated into the multidisciplinary team. PPS has obtained DOH funding for

CHW training.										
Task										
Task 1 subtask: Identify NYS DOH funded CHW training program										
Task										
Determine role of CHWs in relation to the rest of the care team										
Task										
Develop CHW curriculum based on existing MICHC program curriculum										
Task										
Create a plan to incorporate NYSDOH training into CHWs onboarding process and ongoing education										
Task										
Obtain funding from DOH for CHW training										
Task										
Contract with NYS DOH funded CHW training program to train CHWs										
Milestone #13										
Employ a Community Health Worker Coordinator responsible for supervision of 4 - 6 community health workers. Duties and qualifications are per NYS DOH criteria.										
Task										
PPS has named assigned CHW Coordinator(s) or timeline for hiring CHW Coordinator(s).										
Task										
Task 1 subtask: Determine education/work experience of CHW coordinator										
Task										
Determine administrative duties of CHW coordinator										
Task										
Determine program development duties of CHW coordinator										
Task										
Based on the above, develop a job description for CHW coordinator										
Task										
Develop a timeline to hire and train CHW Coordinator										
Task										
Assign hired CHWS to CHW Coordinator for supervision										
Milestone #14										
Employ qualified candidates for Community Health Workers who meet criteria such as cultural competence, communication, and appropriate experience and training.										
Task										
PPS has developed a CHW workforce strategy and attendant qualifications of CHW(s) who meet the following criteria: 1) Indigenous community resident of the targeted area;

2) Writing ability sufficient to provide adequate documentation in the family record, referral forms and other service coordination forms, and reading ability to the level necessary to comprehend training materials and assist others to fill out forms; 3) Bilingual skills, depending on the community and families being served; 4) Knowledge of the community, community organizations, and community leaders; 5) Ability to work flexible hours, including evening and weekend hours.										
Task Task 1 subtask: Develop a CHW workforce recruitment, hiring, and training strategy to ensure staff meet the DSRIP defined criteria										
Task Advertise/Recruit internally as well as externally (community colleges) for hiring CHWs										
Task Screen potential candidates for comprehension, writing skills (using writing samples), computer skills, bilingual/multilingual abilities, and work hour flexibility										
Task Hire CHWs who meet requirements										
Milestone #15 Establish protocols for deployment of CHW.										
Task PPS has established timelines to complete protocols (policies and procedures) for CHW program, including methods for new and ongoing training for CHWs.										
Task PPS has developed plans to develop operational program components of CHW.										
Task Identify protocols that need to be completed for the CHW program										
Task Identify individuals assigned to work on protocols										
Task Determine when protocols can be completed										
Task Develop a timeline to complete protocols										
Task Combine protocols into a manual to distribute to CHWs										
Task Train CHWs on new protocols										
Task Conduct an evaluate to measure the effectiveness of the

Implement an evidence-based home visitation model, such as the Nurse Family Partnership, for pregnant high- risk mothers including high-risk first time mothers.	
Develop a referral system for early identification of women who are or may be at high-risk.	
Establish a quality oversight committee of OB/GYN and primary care providers to monitor quality outcomes and implement new or change activities as appropriate.	
Use EHRs or other IT platforms to track all patients engaged in this project.	
Identify and engage a regional medical center with expertise in management of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center).	
Develop a multidisciplinary team of experts with clinical and social support expertise who will co-manage care of the high-risk mother and infant with local community obstetricians and pediatric providers.	
Develop service MOUs between multidisciplinary team and OB/GYN providers.	
Utilize best evidence care guidelines for management of high risk pregnancies and newborns and implement uniform clinical protocols based upon evidence-based guidelines.	
Ensure that all PPS safety net providers are actively sharing EHR systems or other IT platforms with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	
Ensure that EHR systems or other IT platforms used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or ACPM by the end of Demonstration Year 3.	
Use EHRs or other IT platforms to track all patients engaged in this

Project 4.a.iii – Strengthen Mental Health and Substance Abuse Infrastructure across Systems

IPQR Module 4.a.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1. Not enough buy-in from community schools for program
 - a. Develop relationships with school principals/staff
 - b. Provide education on benefits of MEB screening and referral services to school administrators
2. Too few resources to start up and maintain the program
 - a. Outline funding streams with HR and Finance committee
3. Challenges Integrating SMHC into school infrastructure
 - a. Hire SMHC with previous school experience
4. Challenges retaining and maintaining new staff
 - a. Retraining staff already in similar programs in the PPS
5. Inadequate referral network in place
 - a. Maintain collaborative relationships through frequent in-person contact
 - b. Develop clear guidelines for referral procedures
 - c. Demonstrate to referral providers the benefits of receiving school referrals
6. Lack of buy in from parents, guardians, caregivers for services
 - a. Educate students/parents/caregivers about new opportunities for school-based interventions
 - b. Develop culturally-relevant interventions to reduce stigma
7. No focus on the broad intervention into the system including family dynamics
 - a. Expand on SMHC capacity to screen/educate parents/caregivers of identified children
 - b. Expand school sites to include community colleges
8. Stigma around mental illness
 - a. Education and awareness through school assembly
 - b. Bring discussion into global school conversation
9. Being unable to sustain care over medically appropriate period of time
 - a. Develop appropriate referral streams to long-term care

PPS Defined Milestones Narrative Text

Milestone Name	Narrative Text
Organize and convene citywide MHSA Workgroup meetings	All four Performing Provider Systems ("PPSs") pursuing the MHSA Project in New York City – specifically, Bronx Partners for Health Communities ("BPHC"), Community Care of Brooklyn ("CCB"), OneCity Health, and Bronx Health Access ("Bronx Access") – have identified representatives to participate in a Workgroup that is helping to guide project concept development and implementation. Since the beginning of 2015, representatives from the Office of School Health and DOHMH have participated in Workgroup meetings as advisory members, and the Workgroup has convened regularly to jointly develop a project concept document. As of 7/30/15, MHSA Workgroup meetings have been replaced with Selection Committee meetings to identify a Lead Agency to implement and manage the project. Once the Lead Agency has been selected and is in place, the full Workgroup meetings will resume.
Establish formalized structure for cross-PPS collaboration on governance and implementation of MHSA project	
Review existing programs and CBOs providing MHSA services, as well as adaptations of CC based model.	
Develop detailed MHSA project operational plan for Collaborative Care Adaptation in schools	
Implement Collaborative Care (CC) Adaptation in schools	
Design young adult-interfacing MHSA programs (for those ages 21-25 yrs)

DSRIP Implementation Plan Project

Bronx-Lebanon Hospital Center (PPS ID:27)

Project 4.c.ii – Increase early access to, and retention in, HIV care

IPQR Module 4.c.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Major risk: Developing effective cultural competency across multiple regions and sub-groups. To mitigate the PPS will utilize expertise in various CBOs to ensure the quality of cultural competence strategies

Risk: Maintaining funding streams to support peer services beyond DSRIP. Mitigation: Multiple funding streams exist that provide support to many agencies utilizing this service. Sustainability planning will begin immediately upon implementation. Improved revenue from reduced no-shows will support the provision of services

Risk: Managing relapse and recidivism among peers. Mitigation: The PPS will train supervisors on how to recognize relapse and engage peers in support to reengage in recovery activities

Risk: Difficulty in successfully integrating peers into workplace. Mitigation: The PPS will offer training and support to sites who host peer navigators

Risk: Develop or adapt a curriculum that meets the needs of various partners within the PPS and for a culturally diverse target population. Mitigation: Allow the curriculum the flexibility to adapt new challenges as they present themselves. There are several evidence-based curriculum that can be adapted to meet the needs of the multiple partners and a culturally diverse target population

Risk: Difficulty in engaging diverse groups through multiple media. Mitigation: The PPS will utilize the initial Community Needs Assessment to drive the development as well as ongoing community engagement to develop specific media campaigns. Community outreach will be conducted to develop an understanding of the most effective tools. The PPS will participate in a city-wide collaborative which will lend an added perspective and expertise to the campaign.

Risk: Disparate quality standards and outcomes. Mitigation: The PPS will develop a policy and procedure manual to standardize service delivery. A Quality Improvement plan will be developed to ensure providers perform. Low-performing providers will be offered technical assistance to meet PPS Quality standards

Risk: Maintain a level of participation from relevant CBOs while reaching out for their support and expertise. Mitigation: The larger committees within the PPS are working to continue to build on CBO partnerships. CBOs will maintain positions of leadership. The workgroup will commit to maintaining active communication with CBOs as the project develops

Risk: Lack of integration with other HIV projects that can create confusion and duplication of media outreach. Mitigation: The PPS will seek to develop collaborative relations with parallel organizations providing media outreach and maintain participation in all city-wide 4cii collaboratives

Attestation

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Bronx-Lebanon Hospital Center', that all information provided on this Quarterly report is true and accurate to the best of my knowledge, and that, following initial submission in the current quarterly reporting period as defined by NY DOH, changes made to this report were pursuant only to documented instructions or documented approval of changes from DOH or DSRIP Independent Assessor.
