Quarterly Report - Implementation Plan for Southern Tier Rural Integrated Performing Provider System, Inc.

Year and Quarter: DY1, Q1 **Application Status:** 📄 Submitted

Status By Section

Section	Description	Status
Section 01	Budget	✅ Completed
Section 02	Governance	✅ Completed
Section 03	Financial Stability	✅ Completed
Section 04	Cultural Competency & Health Literacy	✅ Completed
Section 05	IT Systems and Processes	✅ Completed
Section 06	Performance Reporting	✅ Completed
Section 07	Practitioner Engagement	✅ Completed
Section 08	Population Health Management	✅ Completed
Section 09	Clinical Integration	✅ Completed
Section 10	General Project Reporting	✅ Completed

Status By Project

Project ID	Project Title	Status
2.a.i	Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management	✅ Completed
2.b.iv	Care transitions intervention model to reduce 30 day readmissions for chronic health conditions	✅ Completed
2.b.vii	Implementing the INTERACT project (inpatient transfer avoidance program for SNF)	✅ Completed
2.c.i	Development of community-based health navigation services	✅ Completed
2.d.i	Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care	✅ Completed
3.a.i	Integration of primary care and behavioral health services	✅ Completed
3.a.ii	Behavioral health community crisis stabilization services	✅ Completed
3.b.i	Evidence-based strategies for disease management in high risk/affected populations (adult only)	✅ Completed
3.g.i	Integration of palliative care into the PCMH Model	✅ Completed
4.a.iii	Strengthen Mental Health and Substance Abuse Infrastructure across Systems	✅ Completed
4.b.ii	Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer)	✅ Completed

Section 01 – Budget

IPQR Module 1.1 - PPS Budget Report

Instructions :

This table contains five budget categories. Please add rows to this table as necessary in order to add your own additional categories and sub-categories. The budget categories used in this table should reflect the budget categories you used in your application. If budget entered varies from PPS application or previous implementation plan submission, please describe changes and justifications in box provided.

Budget Items	DY1 (\$)	DY2 (\$)	DY3 (\$)	DY4 (\$)	DY5 (\$)	Total (\$)
Waiver Revenue	33,827,204	36,048,681	58,295,242	51,620,214	33,827,204	213,618,545
Cost of Project Implementation & Administration	13,831,928	25,791,713	18,366,747	17,278,634	8,375,104	83,644,126
Administrative Costs	1,758,177	2,909,088	2,976,044	3,045,025	3,116,098	13,804,432
Project Costs	12,073,751	22,882,625	15,390,703	14,233,609	5,259,006	69,839,694
Revenue Loss	0	5,420,976	14,094,538	22,768,102	31,441,663	73,725,279

IPQR Module 1.2 - PPS Flow of Funds

Instructions :

In the table below, please detail your PPS's projected flow of DSRIP funds for the next five years, splitting out the flow of funds by provider type. The provider types match the categories used for the Speed & Scale portion of your Project Plan Application.

- This table requires your funds flow projections on an annual basis. Subsequent quarterly reports will require you to submit your actual distribution of funds to these provider categories on a quarterly basis.
- These quarterly submissions of actual funds distribution will ultimately be required at the provider level (as opposed to the provider type level required here)

Funds Flow Items	DY1 (\$)	DY2 (\$)	DY3 (\$)	DY4 (\$)	DY5 (\$)	Total (\$)
Waiver Revenue	33,827,204	36,048,681	58,295,242	51,620,214	33,827,204	213,618,545

✓ IPQR Module 1.3 - Prescribed Milestones

Instructions :

Please enter baseline target dates and work breakdown tasks with target dates for each of the milestones below.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Complete funds flow budget and distribution plan and communicate with network	In Progress	Funds Flow Budget and Distribution Plan, signed off by your Finance Committee, including details of your approach to funds flow on a whole-PPS and project-by-project basis; evidence of involvement of provider network in developing funds flow methodology.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task Step 1 - Prepare an initial PPS Level budget for Administration, Revenue Loss, Project Costs, Incentives & Contingencies.	In Progress	In Progress - The PPS developed an initial budget as part of the application and subsequent June 1 Domain 1 project plan submission. The recently seated Finance Committee is reviewing this budget, concurrent with efforts to develop the Funds Flow and Distribution Plan (e.g., Step 2 in this Milestone) and is on target for DY1, Q2 submission. On target for completion date.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - Create a funds flow and distribution plan that is transparent and incentivizes the providers to meet the various requirements of DSRIP	In Progress	In Progress - The Q1 update reports the Funds Flow model as in progress. In Q1 the PPS Finance team (Finance Manager and Finance Workgroup) developed an overview on Funds Flow Guiding Principles which was presented by the Executive Director to the PPS Stakeholders during the 6/26/15 meeting. Additionally, following Q1 the Finance Committee and Board of Directors have reviewed updated movements for Funds Flow guiding principles and are on target for finalization by the scheduled completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 3 - Distribute funds flow and distribution plan to Finance Committee for initial review	In Progress	In Progress - Funds flow model under development and is currently a recurring topic on the Finance Committee agenda. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - Review feedback from Finance Committee, revise funds flow along with distribution plan and adjust accordingly.	In Progress	In Progress with no expected roadblocks. Completion of this step is dependent upon completion of Step 3. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 5 - Distribute plan to PPS leadership for review and adjust accordingly.	In Progress	In Progress with no expected roadblocks. Ultimate completion of this step is dependent upon completion of previous steps within this milestone. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 6 - Distribute finalized funds flow and distribution plan to Finance Committee for approval.	In Progress	In Progress with no expected roadblocks. Ultimate completion of this step is dependent upon completion of previous steps within this milestone. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task	In Progress	In Progress with no expected roadblocks. Ultimate completion of this step is	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Step 7 - Distribute funds flow and distribution plan to PPS Network partners.		dependent upon completion of previous steps within this milestone. On target for completion date.					
Task Step 8 - Hold education sessions for PPS partners on the funds flow and distribution plan in order to promote transparency and build trust among the network.	In Progress	In Progress with no expected roadblocks. As previously stated the PPS Stakeholders received initial training via the 6/26/15 Stakeholders meeting and will continue to be updated as final plans are approved and/or are requested by the PAC Executive Council or Stakeholders. Ultimate completion of this step is dependent upon completion of previous steps within this milestone. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

Section 02 – Governance

IPQR Module 2.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Finalize governance structure and sub-committee structure	In Progress	This milestone must be completed by 9/30/2015. Governance and committee structure, signed off by PPS Board.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	YES
Task Step 1 - Establish a Board of Directors, governed by bylaws, responsible for the direction and financial stability of the PPS. The Board of Directors shall initially include each of the six CEO's of the partnering health systems and federally qualified health centers. In addition, five board members shall be seated after nomination from the Community Based Organizations Stakeholder group (PAC).	Completed	Complete - The Care Compass Network Board of Directors was seated as a full board on April 8, 2015. The full board includes the CEOs of the PPS six member organizations as well as five board members voted from the PPS Stakeholders, as facilitated through the PAC Executive Council. Additionally, the PPS Executive Director is the 12th member of the board and serves as a non-voting member. During the April 8 and May 12 board meetings all past board actions were ratified by the fully seated board, including adoption of CCN Bylaws.	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
Task Step 2 - Define and establish four primary operating committees which report to the board of directors, including the Finance Governance Committee, IT & Data Governance Committee, Clinical Governance Committee, and Compliance/Audit Committee.	In Progress	In Progress - As outlined in PPS Bylaws, the PPS will be comprised of four committees which report to the Board of Directors. These include the Finance Committee, Clinical Governance Committee, IT & Data Governance Committee, and Compliance and Audit Committee. Each committee is in progress of identifying a slate of qualified candidates for presentation to the board. Each committee is on track for final committee slates to be presented and approved by the Board of Directors in DY1, Q2 as scheduled.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Milestone #2 Establish a clinical governance structure, including clinical quality committees for each DSRIP project	In Progress	This milestone must be completed by 12/31/2015. Clinical Quality Committee charter and committee structure chart	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task Step 1 - Following requirements prescribed by	In Progress	In Progress - The Clinical Governance Workgroup presented a draft of the Clinical Governance structure to the Board of Directors on 5/12/15 which	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
the STRIPPS Bylaws, establish a Clinical Governance Committee framework, which is responsible for overall PPS Clinical Governance. The Clinical Governance Committee will include a direct reporting relationship to the Board of Directors and include a multi-disciplinary group of clinical professionals, from across the PPS, including 12 members from partner organizations - three per Regional Performing Unit ("RPU").		highlighted the reporting relationship between the Clinical Governance Committee and the RPU Quality Committees, as well as with the Board of Directors (both up and down). The RPU Quality Committee infrastructure illustrated the suggested multi-disciplinary framework as suggested by the Clinical Governance Committee acting Chair (Dr. David Evelyn, CMO Cayuga Medical Center) based on DSRIP requirements. Efforts to identify these skillsets from across the PPS on the Clinical Governance Committee are in progress and on target for a final slate of candidates to be presented to the Board of Directors for ratification in DY1, Q2.					
Task Step 2 - For each of the four PPS Regional Performing Units (RPUs), establish a RPU Quality Committees, which will report to the overarching PPS Clinical Governance Committee. Each RPU Clinical Quality Committee shall be comprised of 6-10 members.	In Progress	In Progress - The Clinical Governance Workgroup presented a draft of the Clinical Governance structure to the Board of Directors on 5/12/15 which highlighted the reporting relationship between the Clinical Governance Committee and the RPU Quality Committees, as well as with the Board of Directors (both up and down). The RPU Quality Committee infrastructure illustrated the suggested multi-disciplinary framework as suggested by the Clinical Governance Committee acting Chair (Dr. David Evelyn, CMO Cayuga Medical Center) based on DSRIP requirements. Efforts to identify these skillsets from across the PPS on the Clinical Governance Committee are in progress and on target for a final slate of candidates to be presented to the Board of Directors for ratification in DY1, Q2.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 3 - Ensure the Clinical Governance Framework includes adequate RPU based Quality Committees (subcommittees to the PPS level Clinical Governance Committee), with a suggested minimum framework as follows: a. Behavioral Health Committee (with specific focus on projects 3ai Integration of Primary Care and Behavioral Health, 3aii Crisis Stabilization, and 4aiii Infrastructure). b. Disease Management Committee (with specific focus on projects 2biv Care Transitions, 2bvii INTERACT, 3bi Chronic Disease CVD, 3gi Palliative Care, and 4bii Chronic Disease/COPD). c. Onboarding Committee (with specific focus	In Progress	In Progress - The Clinical Governance Workgroup presented a draft of the Clinical Governance structure to the Board of Directors on 5/12/15 which highlighted the reporting relationship between the Clinical Governance Committee and the RPU Quality Committees, as well as with the Board of Directors (both up and down). The RPU Quality Committee infrastructure illustrated the suggested multi-disciplinary framework as suggested by the Clinical Governance Committee acting Chair (Dr. David Evelyn, CMO Cayuga Medical Center) based on DSRIP requirements. Efforts to identify these skillsets from across the PPS on the Clinical Governance Committee are in progress and on target for a final slate of candidates to be presented to the Board of Directors for ratification in DY1, Q2.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Committee, Disease Management Committee, and Onboarding Committee) shall nominate a representative to the Clinical Governance Committee, to achieve three RPU representatives on the Clinical Governance Committee, representative of a multi-disciplinary group. The member slate should be ratified by the Stakeholders / PAC, as well as the PAC Executive Council, who will present the slates to the Board of Directors for final approval.							
Milestone #3 Finalize bylaws and policies or Committee Guidelines where applicable	In Progress	This milestone must be completed by 9/30/2015. Upload of bylaws and policies document or committee guidelines.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	YES
Task Step 1 - Establish bylaws to serve as a guide for the authority, operations, and functionality of the Board of Directors, as well as define Committees which shall report to the Board of Directors. In addition, the bylaws will contain language which outlines the structure of the Committees, including the number of seats, purpose/goals, and requirements. Once completed, the bylaws will be reviewed and adopted by the Board of Directors.	Completed	Complete - The Care Compass Network Board of Directors was seated as a full board on April 8, 2015. The full board includes the CEOs of the PPS six member organizations as well as five board members voted from the PPS Stakeholders, as facilitated through the PAC Executive Council. Additionally, the PPS Executive Director is the 12th member of the board and serves as a non-voting member. During the April 8 and May 12 board meetings all past board actions were ratified by the fully seated board, including adoption of CCN Bylaws.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - Before establishing each Committee which reports to the Board of Directors, establish a methodology for seating positions which considers the RPU needs by domain, such as Stakeholder and technical/clinical expertise representation, to be included. The Board of Directors will review and approve the Committee resolutions for prior to seats being filled.	In Progress	In Progress - The methodologies for seating the Four Committees which report to the Board of Directors are on schedule to be presented in DY1, Q2.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 3 - Once completed, the governance	In Progress	In Progress - The PPS SharePoint site has been created and users added from across the PPS. The SharePoint has been used actively going back to	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

documents, including bylaws, meeting minutes, and related attachments or amendments shall be uploaded to the PPS SharePoint for central access by PPS members.		the PPS DSRIP application stage and contains many project planning related documents. As PPS policies and procedures are created they will continued to be posted to the site. Overall on track for completion by DY1, Q2 as scheduled.					
Milestone #4 Establish governance structure reporting and monitoring processes	In Progress	This milestone must be completed by 12/31/2015. Governance and committee structure document, including description of two-way reporting processes and governance monitoring processes	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task Step 1 - Develop a governance and committee governance structure reporting and monitoring process, as defined PPS bylaws and supplemented by PowerPoint presentation ("governance and committee structure document"), which aligns with the bylaws requirements and allows for two-way reporting processes and the governance monitoring process.	In Progress	In Process - The Board of Directors was fully seated in Q1 and committees which report to the board are scheduled for completion in Q2. Each committee is permitted by Bylaws to establish the necessary subcommittee structure to achieve their goals. Once seated in Q2, and subcommittee structures have been finalized, the governance and committee governance structure process documents will be finalized and made available to PPS members. On track for completion by DY1, Q3 as scheduled.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 2 - Include in each regular board meeting a placeholder for each standing Committee (IT Governance, Clinical Governance, Finance Governance, and Compliance & Audit Committees) to present updates. In addition, standard materials to support the Board of Directors meeting will include agenda, report from each Committee, report from the PAC Executive Council, report from the Coordinating Council, and report from the Executive Director.	In Progress	In Progress - The Board of Directors was fully seated in Q1 and placeholders for standing committees have been included. Once each Committee has been fully seated and approved by the Board of Directors in Q2 this step will be reported as complete.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 3 - Following each meeting, the related materials will be uploaded to the established PPS SharePoint for central access by PPS partner organizations.	In Progress	In Progress - As of Q1 the Care Compass Network SharePoint site has been created, members from the PPS added, and has been utilized for the upload of PPS related documents. Once the PPS Committee and RPU infrastrucutre (as needed) is approved by the Board of Directors in Q2 the SharePoint structure will be updated to allow for meeting materials to be centrally available by PPS partner organizations.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - Following each meeting, the Committee chairperson, Executive Director, and	In Progress	In Progress - The Board of Directors was fully seated in Q1 and each of the four Committees to the board are scheduled to be seated and approved by the Board in Q2. On target for completion in Q2 as scheduled.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

other responsible persons will provide Committee updates reflective of the Board of Directors meeting.							
Task Step 5 - The PPS Project Management Office (PMO), or alternate designee, will monitor the PPS governance and committee structures and reporting developments. A dashboard will be created and managed by the PMO which monitors performance, such as the achievement of two-way reporting during each monthly/quarterly cycle, obtention of minutes, agendas, and other materials. As needed, updates, including identification and communication of missing reports, will be communicated through the associated Committees and/or Committee chairs so changes can obtain the appropriate approval(s) and PPS SharePoint documentation can be updated to align with the current governance model.	In Progress	In Process - The Board of Directors was fully seated in Q1 and committees which report to the board are scheduled for completion in Q2. Each committee is permitted by Bylaws to establish the necessary subcommittee structure to achieve their goals. Once seated in Q2, and subcommittee structures have been finalized, the governance and committee governance structure process documents will be finalized and made available to PPS members. Once overall structures are in place the PMO or alternate designee will finalize the dashboard for performance management purposes. On track for completion by DY1, Q3 as scheduled.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Milestone #5 Finalize community engagement plan, including communications with the public and non-provider organizations (e.g. schools, churches, homeless services, housing providers, law enforcement)	In Progress	Community engagement plan, including plans for two-way communication with stakeholders.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	NO
Task Step 1 - Establish a PPS Communication Workgroup to oversee the development of PPS internal and external communications, such as public facing website, PPS newsletter, PPS SharePoint (including structure, content framework, and delegation of access/rights).	In Progress	In Progress - The Communications Workgroup was one of the first teams developed to ensure all PPS Stakeholders and Project Leaders could easily share rapidly changing/updating information. Care Compass Network initially launched a "Sharepoint" site for all internal communications. The workgroup developed a list of potential names and logos for the Board approved the logo and name Care Compass Network. We also developed a communications plan that targeted various constituencies important to be in the loop on all aspects of the PPS development. The group then began work on developing a public facing website to support a growing number of Community Based Organizations and their information needs related to DSRIP. This site was	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
		launched in the first quarter of 2014. We have hired a freelance writer to work in collaboration with the Communications Workgroup. Another pressing need that the Workgroup developed was a "DSRIP 101" powerpoint presentation that could be used as a go-to presentation for anyone in the PPS to use in their community, with their organization or the community at large. The workgroup is currently working on a similar presentation targetted more to the healthcare workforce to introduce them to Care Compass Network and the concepts around DSRIP. And finally, the Community Needs Assessment Team has collaborated with the Communications Team to develop and maintain a Healthcare Panel where we will continue to seek input from various audiences critical to the development of services in the communities we serve. The team meets twice monthly with frequent e-mail updates throughout the month. This metric is mostly complete and in progress towards Q2 (09/30/15) completion.					
Task Step 2 - The PPS Communications Workgroup consisting of provider and CBO representatives within the PPS will develop a five year Community Engagement Plan, which includes milestones for each DSRIP quarter.	In Progress	In Progress - PPS Communications Workgroup established. Community Engagement Plan is evolving into a robust plan taking into account the diversity and breadth of the PPS. Education materials, newsletters, hiring of appropriate staff, and public facing websites have begun - as mentioned in Step 1 - and will play an integral piece within the 5 year Community Engagement Plan. On track for finalization of the five year Community Engagement Plan by DY1, Q3 as scheduled.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 3 - The PPS Communications Workgroup will take the draft five year plan to the key stakeholders for content review. This will allow for adequate representation from across the PPS based on RPU, project, etc. A focus will be to ensure communications with both PPS public and non-public provider organizations, such as schools, churches, homeless services, housing providers, law enforcement, transportation/dietician services, etc. are included. At minimum the review teams should include RPU leadership, CBO Council, PAC Executive Council, and the stakeholders/ PAC meeting.	In Progress	In Progress - PPS Communications Workgroup established. Community Engagement Plan is evolving into a robust plan taking into account the diversity and breadth of the PPS. Education materials, newsletters, hiring of appropriate staff, and public facing websites have begun - as mentioned in Step 1 - and will play an integral piece within the 5 year Community Engagement Plan. On track for drafting of the plan and internal review from Stakeholders prior to finalization. Completion of this step is on track for achievement by DY1, Q3 as scheduled.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task	In Progress	In Progress - The plan development is on track and the Stakeholders meeting	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

Step 4 - Leveraging input from the various constituents, the PPS Communications Workgroup will present the revised five year plan to the PPS Stakeholders / PAC group for review and approval.		remains active. Once complete the plan will be submitted to the PAC Executive Council, followed by the Stakeholders group for review, comment, and approval.					
Task Step 5 - The PPS Communications Workgroup will present the Stakeholders/PAC approved five year plan to the Board of Directors for final review and approval.	In Progress	In Progress - The plan development is on track and the requisite Stakeholders review remains achievable. Once the prior steps in this milestone are complete the plan will be submitted to the Board of Directors for approval.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 6 - Once finalized, associated documentation and plans will be posted to the appropriate forums (for example, the PPS Public Facing Website for delivery of non-provider and public information and PPS SharePoint for internal stakeholder communications) for archiving and communication purposes.	In Progress	In Progress - To be completed upon board approval of the plan. On target for DY1, Q3 completion.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Milestone #6 Finalize partnership agreements or contracts with CBOs	In Progress	Signed CBO partnership agreements or contracts.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	NO
Task Step 1 - Establish CBO Council which will lead the CBO facilitation process as related to the various DSRIP requirements. The CBO Council should include membership allocated by RPU.	Completed	Complete - Starting 5/12/15 the CBO Engagement Council convened and includes representation from across each RPU. From the CBO Engagement Council leads were nominated for each RPU and efforts have begun to coordinate engagement with Stakeholders from across the PPS. During Q1, the CBO Engagement Council achieved the development and distribution of the Pre Engagement Survey, as coordinated with input from the IT consultants from WeiserMazars, the Coordinating Council (PPS Project Leads), and the Stakeholders PAC meeting.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - The CBO Council should coordinate the development of a CBO contact list for each Regional Performing Unit (RPU). The list should consider impacting factors, such as overlapping RPU and/or overlapping PPS involvement.	In Progress	In Progress - The contact list is in development and includes the list of all partnering organizations. In order to divide this list into RPU the CBO Council devised an assessment wherein it was asked what predominant county their organization provides services. From this self-indicated county, RPU designation was chosen. Inputs to the development of this list are underway as of Q2, including results from the PreEngagement Survey as well as information gathered from RPU based Stakeholder meetings. Completion of	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
		this step is on target for the DY1, Q2 due date					
Task Step 3 - Leveraging the CBO Contact List, an outreach plan for CBO contracting should be developed at the RPU level.	In Progress	In Progress - The contact list is in development and includes the list of all partnering organizations. Once finalized, as part of Step 2 in this Milestone, the Provider Relations staff will develop an outreach plan for CBO Contracting at the RPUs, in conjunction with associated governing bodies such as the Clinical Governance Committee, Executive Director, and legal counsel as appropriate. On track for completion by the scheduled due date of DY1, Q3.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - In conjunction with the development of the outreach plan, the PPS will assist CBOs with a Readiness Assessment to identify CBO current state with regards to DSRIP plans.	In Progress	In Progress - The PPS has developed a Pre-Engagement Assessment via the CBO Engagement Council. The assessment is a survey seeking to allow organizations to self-indicate where they fall within a spectrum of DSRIP knowledge and related demographics, providing Care Compass Network an understanding of their organizational profile and overall readiness to participate with Care Compass Network. The survey was distributed on 6/26/15 and results are being tabulated in Q2 by PPS Provider Relations staff for dissemination and collaboration with RPU Leads and CBO Engagement Council discussion and review. On target for completion by the required due date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 5 - Using the output from the outreach plan and readiness assessment, the PPS will develop performance based measures for inclusion with each CBO partnership agreement. The performance based measures will align the CBOs DSRIP participation with the PPS funds flow model and infrastructure or service/performance related terms of the partnership agreement.	In Progress	In Progress - The PPS has developed a Pre-Engagement Assessment via the CBO Engagement Council. The assessment is a survey seeking to allow organizations to self-indicate where they fall within a spectrum of DSRIP knowledge and related demographics, providing Care Compass Network an understanding of their organizational profile and overall readiness to participate with Care Compass Network. The survey was distributed on 6/26/15 and results are being tabulated in Q2 by PPS Provider Relations staff for dissemination and collaboration with RPU Leads and CBO Engagement Council discussion and review and inclusion as a factor when developing of performance based measures. On target for completion by the required due date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 6 - Present draft partnership agreements (e.g., performance contracts) to each identified CBO for review and negotiation.	In Progress	In Progress - Care Compass Network legal counsel has begun to draft the standardized partnership agreement for distribution in Q2. In addition, the PPS Finance team will include concepts from the Funds Flow model when prepared in Q2. Once drafted the contract will be distributed for a 30 day review period in Q2 and initial execution of contracts within Q2/Q3. On target for completion by DY1, Q3 as scheduled.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 7 - Consider input and negotiations with CBOs to finalize and execute contracts. Step 9 - Migrate contracts to the contract management process to allow for ongoing contract monitoring at the RPU level.		track for completion by DY1, Q3 as scheduled.					
Milestone #8 Inclusion of CBOs in PPS Implementation.	In Progress	Explain your plans for contracting with CBOs and their continuing role as your PPS develops over time; detail how many CBOs you will be contracting with and by when; explain how they will be included in project delivery and in the development of your PPS network.	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	NO
Task Step 2 - Distribute the PPS Contract to CBO members. Utilize PPS Provider Relations professionals to coordinate the overall contracting process.	In Progress	In Process - To be completed following Step 1 above, estimated for DY1, Q2.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 3 - Create a contracting management system to track CBO contracts pursued by the PPS, contract terms (dates), and aligned with which project(s) they have been engaged for.	In Progress	In Progress - The final count of CBOs contracted with will be completed following the updated Partner Organization list and Gap Assessment prepared as part of Step 1 above.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 1 - Through PPS Provider Relations staff and involvement from the CBO Engagement Council identify gaps in CBO involvement at the RPU level. This may include leveraging results of the CBO Engagement Council Pre Engagement Survey, as well as Partner Organization List.	In Progress	In Progress - The CBO Engagement Council has been formed and the survey distributed on 6/26. Membership GAP analysis will be performed following gathering of survey data in Q2.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Milestone #9 Finalize workforce communication and engagement plan	In Progress	Workforce communication & engagement plan, including plans for two-way communication with all levels of the workforce, signed off by PPS workforce governance body (e.g. workforce transformation committee).	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	NO
Task Step 1 - Conduct dialogue to create mutually acceptable guidelines among key stakeholders regarding workforce requirements and sensitivities. Upon development the guidelines should be approved by the Board of Directors.	In Progress	In Progress - The Workforce Development and Transition Team (WDTT) has been established and is procuring vendor services/consultants to achieve the completion of this step to implementation. On target for Board approval of guidelines by the Board of Directors in Q2.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - Commission a workforce communications sub-committee that has	In Progress	In Progress - The Workforce Development and Transition Team (WDTT) has been established and is procuring vendor services/consultants to achieve the completion of this step to implementation. The WDTT has solicited	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

A key risk to the development and execution of the Governance Workstream will be the risk of an organization's lack of understanding or vision around their future role in DSRIP. To mitigate the risk, the PPS will implement tools and programs to promote DSRIP education and make available internal consultants with links to outside resources. Education tools such as a public facing website, workshops, or guest speakers hosted through the Stakeholders/PAC meeting, and the assignment of RPU Leads and Provider Relations professionals, assigned to each RPU, will be critical to the mitigation of this risk.

A secondary risk facing the development and execution of the Governance Workstream is the current state position of some CBO members, in particular those that are not prepared to make a DSRIP related decision. DSRIP decisions may include their ability or requirements to enter into participation agreements/contracts with the PPS as related to DSRIP timetables as well as other external factors which would impact their ability to make DSRIP related decisions (e.g., lack of DSRIP education, burdensome internal governance). Similar to the first mitigation plan mentioned above, a key step to reduce this risk exposure will be to provide education forums to the CBO members to promote dissemination of DSRIP requirements. The CBO Council will develop RPU based CBO outreach plans and readiness assessments with the intent of reaching out to CBO's where they are and making resources available to them to help promote their participation in DSRIP.

A third risk facing the development and execution of the Governance Workstream is the large nine county territory and regional approach of the PPS. There is a risk that as local RPUs mature and operationalize over the five year period they may begin to segregate or create regional silos, relationships, or otherwise which may become misaligned with overall PPS efforts. To mitigate this risk, the PPS will assign a strong Project Manager, staffed at the central PPS office, to oversee the RPU functionality and be responsible for completion of established milestones. In addition, the PPS will assign a Provider Relations professional to each RPU with specific focus on maintaining provider education, contracts, and ability to meet contractual terms (e.g., achievement of patient consents, surveys, etc.). These members will be imbedded with existing Project Leads/team meetings, Coordinating Councils, CBO Engagement Councils, and other discussions as appropriate to ensure the PPS level focus and direction is maintained at each individual RPU organized level. Additionally, we have created a position, "Project Management Coordinator", which has been designed to work for each RPU and promote the cross-pollination between Project Managers and align PPS needs at the RPU level.

IPQR Module 2.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

As compared to other DSRIP related workstreams the Governance Workstream does not have as many major dependencies. However, two primary and leading dependencies with direct impact to the Governance Workstream include:

- 1) The Governance Workstream requirement for the establishment of provider agreements/contracts is directly dependent on Financial Sustainability Workstream. This interdependency will be further facilitated through the PPS Funds Flow model.
- 2) The Governance Workstream's broad requirement for development of PPS representation, communication, and engagement is directly dependent on many of the requirements and plans established by project 2.a.i. For example, project 2.a.i. outlines detailed plans for patient reception of healthcare & community support, patient integration with the IDS, transition towards value-based payment reform, etc. These plans from project 2.a.i. will help serve as a baseline for how some Governance Workstream plans are developed.

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 2.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for the development of your governance structure and processes and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
South RPU Lead	Robin Kinslow-Evans, Interim Executive Director / Care Compass Network	Responsible for alignment of RPU needs at the Governance Level and Coordination of Common Projects where PPS overlap occurs.
North RPU Lead	Amy Gecan, Director System Integration and Operations / Cayuga Medical Center	Responsible for alignment of RPU needs at the Governance Level and Coordination of Common Projects where PPS overlap occurs.
East RPU Lead	Greg Rittenhouse, VP, COO, Home Care / UHS	Responsible for alignment of RPU needs at the Governance Level and Coordination of Common Projects where PPS overlap occurs.
West RPU Lead	Laura Manning / Guthrie Robin Stawasz / CareFirst	Responsible for alignment of RPU needs at the Governance Level and Coordination of Common Projects where PPS overlap occurs.
Project Managers	Dawn Sculley, Emily Pape / Care Compass Network	Alignment of RPU project needs from staffing, resource, timing, and contracting basis - as coordinated with Provider Relations professionals. Responsible for performance and consolidation of results monthly to the Project Management Office (PMO).
Provider Relations Professionals	Julie Ramage, Jessica Grenier / Care Compass Network	Responsible for maintenance of Partner Organization list for accuracy, completeness, and pertinence to the PPS. Will also coordinate PPS contracting efforts and provide CBO and provider education.
Project Management Coordinator	Rachael Mott, Project Management Coordinator / Care Compass Network	Responsible for alignment of RPU needs at the Governance Level and Coordination of Common Projects where PPS overlap occurs, including sustainment of vision for how all regions come together to achieve milestones.
Director, Project Management	Mark Ropiecki, Director PMO / Care Compass Network	Responsible for overall vision for PPS Project Management Office, with outputs including plan delivery and quarterly consolidation of results to DOH/IA.
Executive Director	Robin Kinslow-Evans, Interim Executive Director / Care Compass Network	Reports to the Board of Directors and promotes alignment of standards across the PPS/RPUs, Overall PPS Guidance.
PPS Compliance Team	Ann Homer, Interim Consultant, Rebecca Kennis, PPS Compliance Officer	Responsible for overall development and maintenance of PPS Compliance program, including items such as training, data security, user agreements, privacy, and technology compliance with reports to the Board of Directors.
Board of Directors	Chair - Matthew Salanger, President and CEO / UHS Vice Chair - Kathryn Connerton, President and CEO / Our Lady of	General management of the affairs, property, and business of the Corporation.

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
	Lourdes Hospital	
IT & Data Governance Committee	Co-Chair - Bob Duthe, CIO / Cayuga Medical Center Co-Chair, Rob Lawlis, Executive Director / Cayuga Area Plan	Responsible for development of PPS IT strategy and implementation of PPS IT requirements. Overall responsibility for PPS IT plan reports to the Board of Directors.
Clinical Governance Committee	Chair - Dr. David Evelyn, Chief Medical Officer / Cayuga Medical Center	Responsible for development of Clinical Governance Structure and coordination with PPS stakeholders, including RPU Leads, to successfully seat regional Quality Committees. Overall responsibility for PPS Clinical Governance reports to the Board of Directors.
Finance Committee	Chair - David MacDougall / UHS	Responsible for Funds Flow Model, Financing Input to Contracts & Performance Metrics. Overall responsibility for Finance Governance reports to the Board of Directors.
Legal Counsel	Bond, Shoeneck, & King	Responsible for contracts and regulatory guidance.
PAC Executive Council	Lenore Boris, JD, PhD, PAC Executive Council Chair	The PAC Executive Council is responsible for the overall coordination of PPS information to the PPS Stakeholders group. The PAC Executive council is also responsible for reporting PPS Stakeholder updates to the Board of Directors. This also include seating of Stakeholder members to the Board of Directors.
CBO Engagement Council	Robin Kinslow-Evans, Interim Executive Director	The CBO Engagement Council is an interim council responsible for the integration of RPU Leads and their associated teams as they plan the development of RPUs. This allows for the development of RPU operations to coordinate at the PPS level. Primary goals include the identification of PPS members within each RPU, identification of education concerns and development of education opportunities at the PPS and local RPU level.

Module 2.6 - IPQR Module 2.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Providers	CBO / PAC Member	Responsible for partnership agreement/contract, workforce transition, education, and PPS PAC representation.
Public Agencies	CBO / PAC Member	Responsible for partnership agreement/contract, workforce transition, education, and PPS PAC representation.
Medicaid Beneficiaries	Beneficiaries	Responsible for community engagement plan/outreach.
Long-Term Care Providers	CBO / PAC Member	Responsible for partnership agreement/contract, workforce transition, education, and PPS PAC representation.
Social Service Agencies	CBO / PAC Member	Responsible for partnership agreement/contract, workforce transition, education, and PPS PAC representation.
Patients	Beneficiary	Responsible for community engagement plan/outreach, website, and publications.
Overlapping PPS (FLPPS, Leatherstocking, Central NY PPS, Westchester PPS)	Coordinated Project Plan Implementation in shared regional areas	Responsible for scheduled touch points, coordinated project approach (e.g., for 7 of 11 overlapping projects), and identifying potential for joint operations.
PPS Member Organizations (Hospital Health Systems, Affiliates, & FCQH)	PPS PAC Representation, PPS Board Representation. Includes UHS, Lourdes, Guthrie, Cayuga Medical Center, Cortland Regional Medical Center, Family Health Network	Responsible for partnership agreement/contract, workforce transition education, PPS PAC representation, and PPS Board representation.
External Stakeholders		
NYS Department of Health (DOH)	Key Stakeholder	Responsible for quarterly reports, and patient outcomes.
OASAS	Key stakeholder	Responsible for PPS updates and inclusion of recent guidances.
OMH	Key Stakeholder	Responsible for PPS updates and inclusion of recent guidances.
MCOs/ACOs	Key Stakeholder	Responsible for annual outreach and discussions.
County Law Enforcement Agencies	Support and Guide, Participant	Responsible for alignment of procedures with DSRIP goals.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 2.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

The development of an IT infrastructure to support the needs of the PPS in the "performance years" will be a critical need to be focused on from the start of DSRIP. The CBO readiness assessment will help to benchmark current CBO capabilities, along with the subsequent development of performance based partnership agreements will be vital tools for moving towards the development of an IT infrastructure that allows for creation of the multi-faceted requirements of DSRIP.

IPQR Module 2.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The success of the Governance Workstream will be measured in several ways, including:

- 1 - Successful provider agreements/contracts from across each RPU in support of various PPS performance and DSRIP goals.
- 2 - Establishment and finalization (e.g., successful seating) of a PPS Governance model.

IPQR Module 2.9 - IA Monitoring

Instructions :

Agency Coordination Plan: The IA recommends specifically identifying the state agencies that PPS has reached out to or are planning to reach out to as opposed to using the term CBO as a catch all term.

Stakeholders: IA recommends identifying specific people to participate from external stakeholders and identify them.

Section 03 – Financial Stability

✓ IPQR Module 3.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Finalize PPS finance structure, including reporting structure	In Progress	This milestone must be completed by 12/31/2015. PPS finance structure chart / document, signed off by PPS Board.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task Step 1 - Create organizational chart for functions related to finance including the roles and responsibilities of the Finance Committee. Note: The chart should clearly articulate and define the financial relationship model between the application Lead Entity (UHS) and the STRIPPS NewCo ("Care Compass Network").	In Progress	In Progress - The PPS hired a full time Finance Manager in Q1 (April 2015) and has formally seated the Finance Committee as of Q2. Towards meeting this step to implementation, the PPS Bylaws detail those core requirements of the Finance Committee and several presentations to the Board of Directors have occurred which illustrating the corresponding committees which report to the board. The final organizational chart which includes financial relationships will be finalized in Q2 as scheduled, concurrent with Finance Committee review and development of budget and funds flow guidance's.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - PAC Executive Council to solicit nine nominations for the Finance Committee.	Completed	Complete - The PAC Executive Council reviewed the requested skillset of potential Finance Committee members during the June 5, 2015 PAC Executive Council meeting. A call for nominations from the Stakeholders group was subsequently presented during the Friday 6/12/15 Stakeholders meeting (attached slide 9 of 33).	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
Task Step 3 - PAC to discuss and rank order the slate of nine nominations.	Completed	Complete - Once the full slate was prepared, the bios for the Stakeholders slate were distributed to the PAC Executive council on 6/24/15 (attached) for final review by the PAC Executive Council and ranking prior to submission to the Stakeholders group for confirmation at the 6/26/15 meeting. Following approval by the Stakeholders, the Finance Committee slate was presented to the Board of Directors during the July 14, 2015 meeting for action. To note continued progress beyond Q1 and this step to implementation, the Board of Directors voted and approved five members from the Stakeholders list to the Finance Committee during the July 14, 2015 meeting.	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
Task	In Progress	In Progress - This step is noted as In Progress for DY1Q1, which covers the	04/01/2015	07/14/2015	09/30/2015	DY1 Q2	

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Step 4 - Board of Directors to approve five from the slate of nine to officially seat the Finance Committee.		progress made during the April to June timeframe. Note, as previously stated in this milestone, this step has been completed during the Q2 timeframe and will be reported as such during the October 31 quarterly report, reflective of progress achieved during the July - September timeframe.					
Task Step 5 - Finance Committee to set a tentative schedule of future meetings.	In Progress	In Progress - This step is noted as In Progress for DY1Q1, which covers the progress made during the April to June timeframe. Note, this step will be reported as Complete during the Q2 reporting in October. The Finance Committee Meetings for June 2015 through 2016 were established during the Finance Committee meeting on 08/03/2015.	04/01/2015	08/03/2015	09/30/2015	DY1 Q2	
Task Step 6 - Present finance organizational chart to PPS Board of Directors for approval.	In Progress	In Progress - The Finance Committee's development of this step will be performed concurrent to Step 1 of this milestone. This step is on target for completion in DY1, Q2 as scheduled.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Milestone #2 Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	In Progress	This milestone must be completed by 3/31/2016. Network financial health current state assessment (to be performed at least annually). The PPS must: - identify those providers in their network that are financially fragile, including those that have qualified as IAAF providers; -- define their approach for monitoring those financially fragile providers, which must include an analysis of provider performance on the following financial indicators: days cash on hand, debt ratio, operating margin and current ratio; -- include any additional financial indicators that they deem necessary for monitoring the financial sustainability of their network providers	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	YES
Task Step 1 - Prepare a list of all providers in the PPS including Provider Type, Safety-Net Status, IAAF, VAP, PCMH, Contact Info, etc.	In Progress	In Progress -The PPS initially created a Partner Organization database of PPS members based off of information from the DSRIP application period. To further detail this list (e.g., PCMH, Provider Type, etc.) the CBO Engagement Council developed a PreEngagement Survey which was distributed to the Stakeholders during the Friday 6/26/2015 meeting. These survey responses are in process of being integrated to the Partner Organization database to create the comprehensive PPS list of all providers. Additionally, several key members of the PPS including the PPS Finance Manager, Director of Project Management, and Executive Director have received Salient training and have begun to meet weekly to leverage Salient data to further detail PPS organizational profiles. The overall management and maintenance of the Partner Organization list/databases is managed by the PPS Provider Relations and Outreach Coordinator team, effective July 2015.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 2 - Prepare an initial Financial	In Progress	In Progress - The PPS has begun to review publically available information and is developing a financial assessment tool for survey purposes. The PPS	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

Assessment Survey including inquiries regarding the following financial indicators: days cash on hand, debt ration, operating margin, current ratio, etc.		is also discussing with legal counsel the benefits of using a third party consultant to gather financial information, concurrent with wage and position reviews as part of the Workforce efforts. Overall progress is on track for the DY1, Q3 timeframe as scheduled.					
Task Step 3 - Distribute Financial Assessment Survey to Finance Committee for review and input regarding what other key indicators should be reviewed.	In Progress	In Progress - This step is on target for completion by the scheduled timeframe of DY1, Q3. To highlight related progress, the Finance Committee was fully seated and approved by the Board of Directors in DY1, Q2. The PPS Finance Manager is drafting materials, aided by PPS consultants from MS Hall and Associates, which will be presented to the Finance Committee in an upcoming monthly meeting.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - Review feedback from Finance Committee and finalize Financial Assessment Survey accordingly.	In Progress	In Progress - Dependent upon completion of Step 3. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 5 - Distribute Survey to all members of the PPS using finalized Financial Assessment Survey.	In Progress	In Progress - Dependent upon completion of Step 4. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 6 - Compile Survey results into complete data set.	In Progress	In Progress - Dependent upon completion of Step 5. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 7 - Analyze survey results and identify those providers who are financially fragile based on indicators that finance committee agreed to.	In Progress	In Progress - Dependent upon completion of Step 6. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 8 - Prepare report of those providers who are financially fragile and present results to Finance Committee.	In Progress	In Progress - Dependent upon completion of Step 7. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 9 - For those providers who are identified as "Financially fragile" based on survey analysis, open dialogue between finance manager and provider to review the results of the survey.	In Progress	In Progress - Dependent upon completion of Step 7. On target for completion date.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 10 - Finance manager to determine if	In Progress	In Progress - Dependent upon completion of Step 7. On target for completion	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

Task Step 11 - If provider is still deemed Financially Fragile, provider to supply Finance Manager with plan on how provider plans on to move towards Financial Stability.	In Progress	In Progress - Dependent upon completion of Step 7. On target for completion date.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 12 - Financial Assessment Survey will be required quarterly for those who are deemed Financially Fragile until the Finance Manager deems they have reached Financially Stability for a period of time.	In Progress	In Progress - Dependent upon completion of Step 7. On target for completion date.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 13 - Financial Assessment Survey will be disbursed annually.	In Progress	In Progress - Dependent upon completion of Milestone 1 Step 4. On target for completion date.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Milestone #3 Finalize Compliance Plan consistent with New York State Social Services Law 363-d	In Progress	This milestone must be completed by 12/31/2015. Finalized Compliance Plan (for PPS Lead).	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task Step 1 - Compliance Officer to complete a review of NY Social Services Law 363-d, determine scope and requirements of compliance program and plan based upon the DSRIP related requirements that are within the scope of responsibilities of the PPS Lead and the NewCo (STRIPPS, dba: Care Compass Network).	In Progress	In Progress - The PPS had leveraged a consulting service to obtain Compliance related services and in DY1, Q2 will hire a full time PPS Compliance Officer. The Finance Manager and CCN Compliance Officer are collaborating to achieve this step by the required deadline.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 2 - Develop written policies and procedures that define and implement the code of conduct and other required elements of the PPS Lead compliance plan that are within the scope of responsibilities of the PPS Lead and the NewCo (STRIPPS, dba: Care Compass Network).	In Progress	In Progress - The PPS had leveraged a consulting service to obtain Compliance related services and in DY1, Q2 will hire a full time PPS Compliance Officer. The Finance Manager and CCN Compliance Officer are collaborating to achieve this step by the required deadline.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Task Step 3 - Obtain confirmation from PPS network providers that they have implemented a compliance plan consistent with the NY State Social Services Law 363-d.	In Progress	In Progress - The PPS had leveraged a consulting service to obtain Compliance related services and in DY1, Q2 will hire a full time PPS Compliance Officer. The Finance Manager and CCN Compliance Officer are collaborating to achieve this step by the required deadline.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - Develop requirements to be included in the PPS Provider Operating Agreement that the network providers will maintain a current compliance plan to meet NY State requirements for a provider.	In Progress	In Progress - The PPS had leveraged a consulting service to obtain Compliance related services and in DY1, Q2 will hire a full time PPS Compliance Officer. The Finance Manager and CCN Compliance Officer are collaborating to achieve this step by the required deadline.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 5 - Obtain Executive Body approval of the Compliance Plan and Implement the plan.	In Progress	In Progress - Dependent upon completion of prior steps in milestone. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Milestone #4 Develop detailed baseline assessment of revenue linked to value-based payment, preferred compensation modalities for different provider-types and functions, and MCO strategy.	In Progress	This milestone must be completed by 3/31/2016. Value-based payment plan, signed off by PPS board	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	YES
Task Step 1 - Establish VBP committee comprised of members from PPS constituency with representation from all provider types. VBP Committee will seek to follow & leverage industry wide VBP Preparatory Strategies via HANYS.	In Progress	In Progress - This step is noted as In Progress for DY1Q1, which covers the progress made during the April to June timeframe. Note, this step will be reported as Complete during the Q2 reporting in October. The Finance Committee established the VBP committee as an order of business during the 8/3/15 meeting.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - Cultivate pathways between VBP Committee and the rest of the system in order to survey and educate current landscape of existing VBP arrangements amongst PPS providers in PPS.	In Progress	In Progress - VBP Committee meeting schedule being established. On target for completion date.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 3 - Create education and communication plan, including the myriad components intrinsic to VBP, particularly the different strata of risk.	In Progress	In Progress - VBP Committee meeting schedule being established. On target for completion date.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task	In Progress	In Progress - VBP Committee meeting schedule being established. On target	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Step 4 - Secure educational resources for outreach endeavors.		for completion date.					
Task Step 5 - Carry out education and outreach endeavors for PPS providers ensuring a thorough understanding of the various VBP models and methods. Coordinate regional payor forums with providers in the region.	In Progress	In Progress - VBP Committee meeting schedule being established. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 6 - Create a readiness self-assessment survey (High, Moderate, Low) for individual providers within the PPS to assess the varying levels of evolution as movement towards fully implemented VBP occurs. The self-assessment survey will include the following (per the state): Degree of experience operating in VBP models and preferred compensation modalities; Degree of sophistication in ability to negotiate plan contracts, monitor and report on service types; Estimated volume of Medicaid Managed Care spending received by the network. Estimate of total cost of care for specific services (modeled along bundles Status of requisite IT linkages for network funds flow monitoring. Provider ability (financial stability) and willingness to take downside risk in a risk sharing arrangement. Level of assistance needed to negotiate plan options with Medicaid Managed Care (High, Moderate, Low).	In Progress	In Progress - VBP Committee meeting schedule being established. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 7 - Distribute the readiness self-assessment survey to all providers to establish accurate baseline.	In Progress	In Progress - VBP Committee meeting schedule being established. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 8 - Collect, assemble, and analyze readiness self-assessment survey results.	In Progress	In Progress - VBP Committee meeting schedule being established. On target for completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

implementation of the VBP model, including NYS VBP Roadmap, existing ACO and MCO models, and other VBP models in the current marketplace.							
Task Step 4 - Analyze matrix of existing mechanisms both helping and hindering the implementation of VBP at the provider level of our PPS in order to identify which providers are best equipped to lead the movement towards VBP based on their current level of VBP engagement.	In Progress	In Proce - The NY DSRIP team provided VBP Roadmap guidance on July 22, 2015. This information will be presented at the first PPS VBP Committee for achievement of the related steps in this milestone.	04/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task Step 5 - Identify within the PPS providers who fall into one of three tiers: 1) Established - Providers currently utilizing VBP models 2) Enthusiastic and/or Equipped - Providers who are eager to pursue the movement towards VBP models and/or equipped to do so based on the helping/hindering matrix 3) Providers who need additional resources in order to start the movement towards utilizing a VBP model.	In Progress	In Proce - The NY DSRIP team provided VBP Roadmap guidance on July 22, 2015. This information will be presented at the first PPS VBP Committee for achievement of the related steps in this milestone.	04/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task Step 6 - Coordinate regional payor forums with PPS providers.	In Progress	In Proce - The NY DSRIP team provided VBP Roadmap guidance on July 22, 2015. This information will be presented at the first PPS VBP Committee for achievement of the related steps in this milestone.	04/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task Step 7 - Re-assess current landscape of VBP adoption throughout PPS by updating VBP Baseline Assessment, reviewing new information if available from the state and feedback from PPS Providers and MCOs regarding the payor forums, as well as lessons learned from early adopters.	In Progress	In Proce - The NY DSRIP team provided VBP Roadmap guidance on July 22, 2015. This information will be presented at the first PPS VBP Committee for achievement of the related steps in this milestone.	04/01/2015	12/31/2016	12/31/2016	DY2 Q3

✓ IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

The first risk centers upon provider buy-in, openness, and cooperation within the DSRIP project in an effort to maintain financial sustainability. Success is inherently built upon trust existing between the PPS and its partners. Therefore, if we do not achieve buy-in and its subsequent result, openness, we will be significantly hindered in monitoring and sustaining the financial wherewithal of the PPS' partners. In an effort to mitigate this risk, through the Practitioner Engagement Plan we will establish educational resources, regularly held information meetings, and transparent communication lines between all entities involved. A funds distribution plan will be created and disseminated among the PPS partners to ensure clarity, vision, and confidence.

Our second risk deals with the potential for Medicaid Managed Care Organizations not negotiating in good faith with the providers within Care Compass Network. This will impact the overall success of the PPS' providers' movement towards value based payments. Flexibility, integrity, and willingness to collaborate with Care Compass Network's providers is essential, especially when there is the potential for MCOs to hold fast to self-serving levels of reimbursement rates due to market dominance. To mitigate this potential risk, we plan on providing open forums between MCOs and our providers in order to promote healthy dialogue and cooperation, while ensuring confidentiality amongst Care Compass Network members.

As the Care Compass Network progresses towards achieving DSRIP's goals, developing a process for analyzing provider performance and its alignment with the flow of funds are imperative. The analysis of provider performance must be comprehensive yet clean, in order to avoid any confusion and provide a clear picture to the administration and its partners. This will allow the Finance and Clinical Domains to determine where resources need to be supplemented and/or diverted in order to maximize the impact on the patient population of the Care Compass Network as well as minimize any repercussions.

Our final risk regards the inability to firmly grasp both the financial sustainability ends and means of DSRIP due to the ambiguity of DSRIP information provided by the State. This impacts our project's goals by significantly hindering our ability to prepare and sufficiently scale our financial efforts in a sustainable way. Without a proper end in sight and to-date-porous means to get there, we are limited in our capacity to fully implement. Our mitigating strategy is to mimic the model established for health homes, limit fixed costs, and, above all else, to remain financially flexible.

✓ IPQR Module 3.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

There are four primary interdependencies with other workstreams, as related to the Financial Sustainability workstream, including:

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

- Governance – The support of the Board is pivotal to ensuring the cooperation and buy-in of the partners within the Care Compass Network as the Finance Domain works to maintain financial sustainability and develop the flow of funds.
- Reporting Requirements - The financial success of the PPS is directly tied to meeting the reporting requirements. In order to complete these reports, data will have to be pulled from many sources, including providers, RHIOs and the Department of Health.
- DSRIP Projects – As the Care Compass Network works to engage and intervene for the beneficiaries, the projects that have been selected are to enhance the available toolkit. Understanding which tool is applicable and how to augment the coordination of care in a sustainable manner are integral to the flow of funds.
- Workforce – In order to redesign the coordination of care in a sustainable manner, workforce and finance must work with the partners of Care Compass Network to identify opportunities of training and redeploying current resources in revised roles.

 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 3.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Finance Manager	Bob Carangelo / Care Compass Network	<p>Responsible for development and management of the Finance Office and its specific functions. The individual will provide guidance and oversight around the Funds Flow Plan, the Financial Stability Plan, and other relevant processes. The responsibilities include ensuring that funds are managed and distributed according to the approved plan, that reporting requirements are met and that communication regarding the Finance related functions is timely and accurate. Responsible for the daily operation of the Finance Office, including programmatic development of the infrastructure tools critical to the Funds Flow Plan and the related banking, accounts payable and general ledger functions.</p> <p>Primary contact for the PPS Lead finance function for conducting DSRIP related business and responsible for their organization's execution of their DSRIP related finance responsibilities and participation in finance related strategies.</p>
Financial Analysts	Multiple - Currently Consultants	<p>Responsible for assisting in the continuity of operations of the data aspects of the Finance Office and providing assistance to the Finance Office as it relates to data analysis, acquisition and reporting. This position will be responsible for developing and distributing the defined report data set(s) to the designated stakeholders.</p> <p>This position(s) will be responsible for working with the Finance Manager and Finance Committee to determine and monitor the reporting protocols/requirements for the PPS providers, the governing body, and DOH.</p>
Accounts Payable Staff	Purchased Services - UHS AP Department	<p>Coordinated by the CCN Finance Manager, the AP service acquired through UHS, Inc. is responsible for the day-to-day operations of the Accounts Payable function, including drafting policies and procedures when needed, monitoring the accounts</p>

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project

IPQR Module 3.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Robin Kinslow-Evans, Interim Executive Director	PPS DSRIP Executive Director	The DSRIP Executive Director has overarching responsibility for oversight of the DSRIP initiative for the PPS
Mark Ropiecki, Director Project Management	PPS Project Management Director	PMO oversight and leadership for finance related projects, VBP strategy, and for the overall implementation plan deliverables that affect finance function reporting
Dawn Sculley, Project Manager - South RPU & Emily Pape, Project Manager - West RPU	PPS Project Managers	Collaboration with finance re: PPS Project Implementation, status of projects, reporting required to meet DOH requirements.
Robin Kinslow-Evans, Interim Executive Director	South RPU Lead	Alignment of RPU needs at the Governance Level, Coordination of Common Projects where PPS overlap occurs, general oversight of project implementation efforts at the local level.
Amy Gecan, Director System Integration and Operations (Cayuga Medical Center)	North RPU Lead	Alignment of RPU needs at the Governance Level, Coordination of Common Projects where PPS overlap occurs, general oversight of project implementation at the local level.
Greg Rittenhouse, VP, COO, Home Care (UHS)	East RPU Lead	Alignment of RPU needs at the Governance Level, Coordination of Common Projects where PPS overlap occurs, general oversight of project implementation efforts at the local level.
Laura Manning (Guthrie)	West RPU co-lead	Alignment of RPU needs at the Governance Level, Coordination of Common Projects where PPS overlap occurs, general oversight of project implementation efforts at the local level.
Robin Stawasz (CareFirst)	West RPU co-lead	Alignment of RPU needs at the Governance Level, Coordination of Common Projects where PPS overlap occurs, general oversight of project implementation efforts at the local level.
Ann Homer, Corporate Compliance and Privacy Officer, Family Health Network	PPS Compliance Officer Advisor	Consulting arrangement to help provide oversight of PPS Compliance Plan and related training, education, and reporting requirements of the plan.
Rebecca Kennis, Care Compass Network Compliance Officer	PPS Compliance Officer	PPS Compliance Officer responsible for overall development and implementation of the Compliance function. Also provides Data Security and Privacy Officer roles.
Internal Audit	TBD	Oversight of internal control functions; completion of audit

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
	Manager Internal Audit	processes related to funds flow, network provider reporting, and other finance related control processes
PPS Finance Committee	Dave MacDougall, Care Compass Network Finance Committee Chair	Board level oversight and responsibility for the PPS Finance function; Review and approval of finance related policies and procedures; oversight of PPS Lead role, responsibilities and deliverables; collaboration with the Compliance Committee for audit and compliance related processes.
PPS Human Resources	UHS Human Resources	The PPS purchases HR services from the UHS, Inc. Human Resources department. Services include training materials, recruitment, support services such as time clock management, and development of PPS related HR programs and policies.
Matthew Salanger, UHS CEO, Care Compass Network Board of Directors Chair	Boards of Directors for PPS Network Partners	The PPS Board of Directors retains general power to manage and control the affairs, property, and business of the corporation and have the full power by majority vote, unless otherwise noted within the Bylaws. The Board of Directors has full authority with respect to the distribution and payment of monies received and owed by the corporation from time to time, subject to the rights of the Members.
Multiple	PPS Partner Organization Leaders (e.g., CEOs, Executive Directors, etc.)	PPS Network Provider partners' CEOs are responsible for their organization's' execution of their DSRIP responsibilities, they will contribute to the success of the finance function and finance related strategies
External Stakeholders		
New York State Department of Health	NY DOH defines the DSRIP requirements	The PPS Lead and PPS finance function has responsibility for the overall administration of DSRIP reporting to DOH and the funds flow process.
PPS Stakeholders	Community Representatives	Community needs and interests are significant influencers of DSRIP projects and will contribute to the adoption and buy-in across the network. Communication regarding DSRIP status, results, and future strategies will be important to maintain their contribution and influence.
Government Agencies / Regulators	Government Agencies / Regulators	County and State agencies and regulatory bodies will have oversight and influence in a number of DSRIP related areas - including the importance of waivers or regulatory relief, construction / renovation projects, and other items related to DSRIP. Communication with them regarding DSRIP status, results, future strategies and their role in DSRIP success will be important.

✓ IPQR Module 3.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The Finance and IT Governance Domains will work together on the development of sharing data and analytics to measure the Care Compass Network's partners' financial sustainability as well as performance in a quick, clean and compliant process. The population health team will support the clinical and finance domains in the education and outreach as Care Compass Network's partners' move towards Value Based Payment arrangements as well as analyzing the impact of the different projects. To support these functions the IT access across the PPS should promote collaboration of PPS financial sustainability data and reports and project reporting, etc. In addition, the IT systems will need to be adequate to support and monitor financial sustainability (e.g., PPS financial analysis reports, performance metrics reporting, PPS specific financial statements, etc.).

✓ IPQR Module 3.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

As the Care Compass Network progresses towards the various requirements of the DSRIP Projects, Population Health, Finance and the PMO Director will work together to analyze the performance of the Network's partners. If a provider's performance is deemed unsatisfactory, the PMO director, Clinical Domain and Finance will develop a new strategy in order to remedy the situation. If any changes are required to be made to the flow of funds, the strategy must be presented and signed off on by both the Finance Committee and Governance Board.

The Finance Manager will annually perform a financial survey of the Network's partners in order to monitor the financial sustainability. The results of the survey will be prepared in a summary report and presented to the Finance Committee for review. For those providers who are financially fragile, the Finance Office will work with the provider on a plan to move towards financial stability.

Both the Financial Sustainability and performance analysis will be developed into dashboards and shared with the Finance committee and Governance Board on an on-going basis.

IPQR Module 3.9 - IA Monitoring

Instructions :

Section 04 – Cultural Competency & Health Literacy

IPQR Module 4.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Finalize cultural competency / health literacy strategy.	In Progress	This milestone must be completed by 12/31/2015. Cultural competency / health literacy strategy signed off by PPS Board. The strategy should: -- Identify priority groups experiencing health disparities (based on your CNA and other analyses); -- Identify key factors to improve access to quality primary, behavioral health, and preventive health care -- Define plans for two-way communication with the population and community groups through specific community forums -- Identify assessments and tools to assist patients with self-management of conditions (considering cultural, linguistic and literacy factors); and -- Identify community-based interventions to reduce health disparities and improve outcomes.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task Step 1 - Establish Cultural Competency Committee (CCC) to meet regularly and be responsible for overseeing cultural competency and health literacy throughout the DSRIP project timeline.	Completed	Complete - The Cultural Competency workgroup was active for most of 2015 and the Chair (Annie Bishop) announced a call for members to the Stakeholders group on 6/12/15 (see attached, slide 7). The first meeting of the CCN Cultural Competency Committee occurred on 6/26/15. Also attached is a copy of the distribution which was sent following the meeting, including a copy of the CCN implementation plan to the Cultural Competency Committee members.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - CCC to review CNA to identify priority/focus groups with outstanding health disparities and needs.	In Progress	In Progress - CCC currently reviewing the community needs assessment, project plan requirements, and gathering input from CCC members to develop a mature understanding of the PPS disparities and needs. On track for completion by DY1, Q2 as scheduled.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 3 - CCC to identify recurring themes and key factors from the CNA which are suggested	In Progress	In Progress - The Cultural Competency Committee (CCC) was established on 6/26/15 and is in progress towards meeting this step by the September 30 completion date. The committee is planning to meet on a bi-weekly basis until	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

to improve access to primary/behavioral/preventive health care.		deemed appropriate to reduce frequency (e.g., monthly).					
Task Step 4 - Obtain sign off on strategy to ensure standardized PPS Partner Evaluation, Implementation and Training of Cultural Competency and Health Literacy by PPS Board.	In Progress	In Progress - Following the formation of the Cultural Competency Committee (CCC) in Q1, as noted in Step 1 of Milestone 1, the CCC began development of the Cultural Competency and Health Literacy strategy. The strategy is scheduled for informational presentation to the board on August 11 and presentation for approval by the Board of Directors on September 8. The CCC is on track for completion of this step to implementation by the scheduled date of September 30, 2015.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 5 - CCC to establish forum for bidirectional communication with community members and community groups.	In Progress	In Progress - The Cultural Comptency Committee (CCC) has initiated bi-directional communication with community members through the candidate seating process whereby members were sought from the PPS Stakeholders meeting, which includes PPS participants from across the nine county terriroty. This topic will continue as a point of discussion for future Cultural Competency Committee (CCC) meetings effective Q2.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 6 - PPS to require participation in organizations Cultural Competency/Health Literacy Evaluation, Implementation and Training with Partners through contracting process.	In Progress	In Progress - The PPS legal counsel has drafted the PPS standardized Partner Organization agreement which, in the current draft form, includes the requirement for Partner Organization achievement of CCC related topics, such as completion of the Cultural Competency & Health Literacy Plan and survey requirements. The agreement is scheduled to be distributed for a 30 day review period by the PPS stakeholders in August, after which contract terms will be finalized by the PPS legal counsel and leveraged for contract execution.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 7 - CCC to team up with Workforce Development Team and PPS Partner Human Resources/Employee Development departments to administer PPS contractually required Nathan Kline Assessment Survey (NKAS) survey.	In Progress	In Progress - Following the establishment of the Cultural Competency Committee (CCC) in June 2015, progress towards this step to implementation will be continued to be pursued in Q2. Both the CCC Chair (Annie Bishop) as well as the Workforce Development Team chair (Lenore Boris, JD, PhD) are extremely active members of the PPS and have concurrently serve roles in the Coordinating Council as well as the PAC Executive Council. They are positioned well as well informed leaders of the PPS to align the CCC and Workforce Development teams efforts.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 8 - CCC to train on and implement member-specific relevant evidence-based cultural competency/health literacy tools and assessments which are expected to promote positive health outcomes and promote self-	In Progress	In Progress - To be completed following the continued movement and progress from steps previously outlined in this milestone.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- (1) Cultural Competency Committee Formation - There exists a strong need/risk associated with the successful PPS development regarding cultural competency and related PPS collaboration efforts to include membership from a broad spectrum. Without this committee and representation, the PPS may not properly represent the nine county region or needs of the PPS as identified by the Community Needs Assessment. Without this committee, STRIPPS risks losing sight of cultural competency throughout the DSRIP timeframe. To mitigate this risk, STRIPPS will establish a Cultural Competency Committee (CCC) which will be responsible for the promotion of Cultural Competency and Health Literacy. To ensure committee establishment, the CCC will be promoted at various STRIPPS meetings, such as the existing Stakeholder/ PAC Meetings, to promote the CCC and foster voluntary membership by PPS participants. STRIPPS will also look to established cultural competency groups (e.g., at the RPU level) to partake in the CCC.
- (2) Stakeholder Buy-In - Another risk in STRIPPS' Cultural Competency/Health Literacy strategy is the ability to obtain buy-in from both the community members and the front-line health care provider staff. Both Medicaid beneficiaries and professionals working at CBOs or health care services will need to appreciate the impact that sensitivity to cultural competency needs and health literacy gaps can have on patient outcomes. STRIPPS will mitigate this risk of a lack of buy-in by providing education and awareness campaigns through the use of ongoing training for providers, CBOs, and ongoing dialogue about cultural sensitivity issues with community member focus groups through RMS. The CCC will also periodically develop materials for presentation to the Stakeholders / PAC meeting to promote PPS wide awareness of related issues.
- (3) Cultural Competency Participation - Another risk that exists with deploying a PPS-wide Cultural Competency training is reluctance from front-line staff and others required to participate in the training sessions. STRIPPS will need to mitigate the risk that exists with our partner network to implement training and or participate in training related to cultural competency and health literacy. It will be imperative that all participating providers are involved in the ongoing, targeted education set forth by the PPS. STRIPPS providers who already give Cultural Competency trainings may perceive this as an additional requirement. It is possible that resistance will surface preventing successful deployment and training of this important topic. A mitigation strategy for this risk is to leverage existing training programs already in place at PPS organizations and leverage where possible. To achieve the desired outcomes, we will collaborate with PPS partners to ensure that these existing trainings incorporate the sensitivities detected by the CNA (as applicable). This way, employees will only be required to do one Cultural Competency training which aligns to the PPS Cultural Competency training.
- (4) Geographic Disparity - Regional differences within STRIPPS, notably with the vast geography of the area, lends to the need for ongoing updates to the STRIPPS Cultural Competency training. Due to these variances, a risk exists for outdated training which may no longer be applicable to the diversity in the STRIPPS area. The CCC will regularly use the CNA and the PPS marketing research vendor to monitor changes to the demographics of the area and include these changes in trainings. The CCC will also leverage the PPS Communications Coordinator to ensure communications across the RPUs and PPS are aligned where possible. In addition, the CCC will leverage the PPS Project Management Coordinator to ensure implementation efforts are aligned from a PMO perspective, at the RPU level, and standardized at the PPS level as possible.

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

✓ IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

As Cultural Competency and Health Literacy are an essential component of planning and delivering DSRIP goals, we have identified a spread of interdependencies for multiple Workstreams, as follows:

- (1) Project Teams -- will work with the Project Teams on developed materials for beneficiary distribution to ensure health literacy level is appropriate and confirm cultural sensitivity/effectiveness of materials.
- (2) Practitioner Engagement -- will need support from providers across the area to be open to modifying their practices and adhere to cultural competency training. Implementing health literacy sensitive literature for beneficiaries will also be an important part of practitioner engagement. Having a provider base which embraces Cultural Competency will be imperative to the success of the Cultural Competency initiatives from the CCC.
- (3) Communications Team -- will work with Communications Team to ensure topic of Health Literacy and Cultural Competency is an ongoing, promoted effort throughout the PPS and all partner organizations.
- (4) Finance -- will work with the Finance team to approve and purchase Cultural Competency evaluation tools, such as the NKAS and CLAS standards. Will also need involvement from Finance for funding marketing materials and other necessary items.
- (5) Workforce Development Team -- will work with the Workforce Development Team for promotion of ongoing cultural competency training for redeployed workforce, and to educate frontline and background PPS workforce on importance of cultural competency and health literacy.
- (6) Information Technology (IT) -- will need the assistance of IT to deploy training, to track training results (e.g., attendance or otherwise), and to provide reports on training.
- (7) Performance Reporting -- will need involvement from the Performance Reporting team to provide feedback to the RPUs and to send STRIPPS reportable data (training data) to NYS.
- (8) Population Health -- will need involvement from Population Health team to monitor baseline metrics, changes in the demographics, and other data sets such as the diversity of a STRIPPS RPU.
- (9) PPS Governance -- will leverage the Governance structure from the PPS to obtain a draft of quality Cultural Competency policies, as well as final policy approval. In addition, we will leverage the PPS Governance structure to prepare and approve a Cultural Competency Strategy and overall Training Strategy.
- (10) Current PPS Human Resources/Employee Development Departments -- will work with these departments to ensure training is implemented and enforced throughout DSRIP timeframe. With the help of members from our CBO Council, which will help create RPU based training opportunities, we will leverage HR/ED teams to confirm training strategies are effective and inline with any pre-existing related training efforts. When possible, DSRIP related trainings will leverage existing training platforms.
- (11) Stakeholders / PAC - will require cooperation from the PAC as Stakeholders of DSRIP concerted efforts for the Medicaid beneficiary population to promote positive health outcomes, and reduce ED/inpatient hospitalizations in a culturally competent manner for both the PPS geographic region as well as the PPS' related DSRIP goals.

IPQR Module 4.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Workforce Development Team (WDTT)	Lenore Boris / SUNY Upstate Binghamton Clinical Campus	Responsible for ongoing training.
Cultural Competency Committee	Anne Bishop / UHS Multiple Members	Responsible for regular meetings and establishment of training.
Provider Engagement Team	Regional Performance Unit Provider Relations Staff / Care Compass Network	Responsible for Provider Education, Agreements/Contracts, and functioning as a central source for Provider PPS/DSRIP related questions.
Communications Team	Christina Boyd / UHS	Responsible for ongoing Cultural Competency Messages to PPS.
PPS Partner Employee Development	CBO Council	Responsible for PPS Partner employee development, and establishment of training.
Additional Partners	All PPS Partners	Need to take Nathan Kline Cultural Competency Assessment.

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 4.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Stakeholders / PAC	Support / Enforce training	Responsible for supporting provided education, training, and Cultural Competency related PPS updates.
Project Teams	Attend initial meeting to establish process, submit patient materials to CCC for approval	Responsible for support/enforcement/discipline when needed, preparing Quarterly Reports and submitting these to the PMO for Governance Reporting & State Submissions.
PPS	Support financially, facilitate training, set policies and procedures, support training and tracking of training. Integrate RPU level leadership to align the Cultural Comp workstream with formation of each RPU.	Responsible for support/enforcement/discipline when needed, preparing Quarterly Reports and submitting these to the PMO for Governance Reporting & State Submissions.
External Stakeholders		
Community Based Organizations (CBOs)	Implement policies and procedures, Participate in the CCC, Guide training as needed in their organization.	Responsible for support, enforcement, and training as well as providing education when needed.
Multiple external	Support and Guide, Participant	Responsible for meaningful involvement to support and guide the content of the Cultural Competency training and awareness campaigns as well as promoting operating in diverse geographies.

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 4.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

Cultural Competency is reliant upon a shared IT infrastructure for the reporting of Cultural Competency Training. It is possible that the training itself will also be administered for this workstream with a single, shared IT infrastructure, though it is also possible that each Regional Performance Unit (RPU) will be able to implement trainings through their own, currently established systems. Initially, PPS wide trainings will be developed for distribution at the PPS level through existing forums, such as the Stakeholders/PAC meetings, however as we evolve into future DSRIP years the focus will shift so trainings can become more RPU centric and customized at the RPU level as appropriate. However, the option to execute education and presentations at the Stakeholders/PAC level will remain as a constant for PPS level announcements, as will the communication of information through the public facing website or blast communications from the PPS Communications Coordinator. The effectiveness of priority education or awareness campaigns can be measured as needed through utilization of the RMS research panel.

IPQR Module 4.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The PPS will look to continually re-evaluate cultural competency and sensitivity to health literacy through the usage of the Nathan Kline Cultural Competency Assessment. Comparing results of DY5 Nathan Kline Cultural Competency Assessment reports to initial, DY0 reports from all PPS partners will be able to show a qualitative progression of cultural competency across the region. Additionally, RMS, STRIPPS' market research vendor, will serve as a vehicle for obtaining provider feedback which will be imperative to adjusting and updating cultural competency training throughout the DSRIP timeline. This research can be geared to provide valuable information to measure the effectiveness of provider feedback on strategies and training. Post-training assessment and evaluation will also be used to obtain feedback and to react to recommendations to modify training to ensure relevance to the cultural characteristics of our population.

Section 05 – IT Systems and Processes

IPQR Module 5.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.
Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	In Progress	Detailed IT current state assessment. Relevant QEs (RHIOs/HIEs) should be involved in performing this assessment.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	NO
Task Step 1 - Establish an IT Governance structure in accordance with CCN bylaws and with appropriate representation across PPS entities & areas of expertise. The IT Governance Structure will be approved by the CCN Board.	In Progress	In Progress - In Q1 the PPS IT Workgroup, combined with input from the IT consultants from WeiserMazars who have been engaged to help develop the PPS IT Roadmap have begun to draft the IT Governance structure, with considerations for skillset, PPS regional representation, and experience. A formal presentation of the IT Governance structure will be presented to the Board of Directors in DY1, Q2, followed by seating of candidates. Overall on track for completion in DY1, Q2 as scheduled.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - Perform data gathering of the IT environment and specifically in terms of the capabilities of all the participating PPS members, and conduct needs assessment.	In Progress	In Progress - The data gathering of the IT environment for the PPS is in process by a consulting firm (WeiserMazars). The WeiserMazars engagement includes several deliverables which have been aligned with DSRIP goals associated with this milestone and related steps. The WeiserMazars team reports progress weekly to the IT Workgroup and has incorporated efforts from other PPS groups to their workstream. For example, the CBO Engagement Council distributed a Pre Engagement Survey to the PPS Stakeholders group on 6/26/15. Prior to distribution, the CBO Engagement Council requested feedback from the IT Workgroup, including WeiserMazars, so IT related needs could be identified in the Pre Engagement Survey. Following survey distribution and gathering of results in DY1, Q2 the CBO Engagement Council, facilitated through the Provider Relations team, has shared results from the survey with the IT Workgroup for inclusion with the	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

		analysis of the PPS IT environment. Overall on track for completion of this milestone by DY1, Q2 as scheduled.					
Task Step 3 - Develop high level IT vision which appropriately incorporates and addresses data analytics, population health, EMR technology, telehealth, & home monitoring.	In Progress	In Progress - As previously noted, development of this step is in process via the IT Workgroup and WeiserMazars consultants and is on target for completion by the scheduled completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - Perform gap analysis that identifies the ability of the current IT environment to support and achieve the organization's desired outcomes.	In Progress	In Progress - As previously noted, development of this step is in process via the IT Workgroup and WeiserMazars consultants and is on target for completion by the scheduled completion date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 5 - Identify and define relevant alternative IT strategies in order for the organization to attain the identified IT Vision, support the organization's strategic DSRIP goals, and successfully address the findings/recommendations of the needs/gap analysis.	In Progress	In Progress - As previously noted, development of this step is in process via the IT Workgroup and WeiserMazars consultants and is on target for completion by the scheduled completion date.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 6 - Develop IT strategic plan and associated Action Plan that includes the timeframe in which the component projects should be initiated, the anticipated elapsed time, the required resources, and the dependencies with other initiatives as well as the associated costs.	In Progress	In Progress - As previously noted, development of this step is in process via the IT Workgroup and WeiserMazars consultants and is on target for completion by the scheduled completion date.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Milestone #2 Develop an IT Change Management Strategy.	In Progress	IT change management strategy, signed off by PPS Board. The strategy should include: -- Your approach to governance of the change process; -- A communication plan to manage communication and involvement of all stakeholders, including users; -- An education and training plan; -- An impact / risk assessment for the entire IT change process; and -- Defined workflows for authorizing and implementing IT changes	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	NO
Task	In Progress	In Progress - In Q1 the PPS IT Workgroup, combined with input from the IT	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Step 1 - Develop plan to imbed change management strategy into provider relations function.		consultants from WeiserMazars who have been engaged to help develop the PPS IT Roadmap have begun to draft the IT Governance structure, with considerations for skillset, PPS regional representation, and experience. The IT Governance structure will include a Change Management Subcommittee including four RPU Change Management subcommittees to allow for regional management of project needs. The assignment of RPU Leads to facilitate this process will be completed in DY1, Q2 via the CBO Engagement Council. Additionally, the PPS will hire Provider Relations Professionals to further assist with change management strategy project design execution. Overall on track for completion in DY1, Q2 as scheduled.					
Task Step 2 -Develop charter for change management advisory group, including periodic monitoring of the effectiveness of the change management process.	In Progress	In Progress - The IT Governance structure, including the description of the Change Management subcommittee will be presented to the Board of Directors for approval in DY1, Q2. Following approval, the subcommittee Charter document will be prepared. On target for completion by the assigned due date.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 3 - Review gap analysis and understand types of changes potentially needed.	In Progress	In Progress - The PPS has partnered with consultants from the WeiserMazars practice to develop an IT Roadmap towards the achievement of steps in this milestone. The team, along with input from the IT Workgroup, will perform a comprehensive PPS wide IT needs assessment and IT Strategy Development, including gap analysis. The completion of the gap analysis has been aligned with the timing for this metric and is on target for completion by the assigned date due.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - Develop a communication plan to communicate the approved required changes through a variety of mechanisms to ensure all PPS members have been notified.	In Progress	In Progress - The IT Governance structure, including the description of the Change Management subcommittee will be presented to the Board of Directors for approval in DY1, Q2. Following approval, the subcommittee Charter document will be prepared, acting on which related deliverables, including the establishment of the communication plan with focus on change management needs will be developed. On target for completion by the assigned due date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 5 - Develop training and education strategy on the change management process and required approvals.	In Progress	In Progress - The IT Governance structure, including the description of the Change Management subcommittee will be presented to the Board of Directors for approval in DY1, Q2. Following approval, the subcommittee Charter document will be prepared, acting on which related deliverables, including development of training and education strategies on the change management process will be completed. In addition, as necessary the Change Management Committee will coordinate with the Workforce Development team for alignment of PPS training programs under	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

		development. On target for completion by the assigned due date.					
Task Step 6 - Establish process for authorizing and implementing IT changes in accordance with CCN bylaws and subsequent guidance from the IT & Data Governance Committee.	In Progress	In Progress - The IT Governance structure, including the description of the Change Management subcommittee will be presented to the Board of Directors for approval in DY1, Q2. Following approval, the subcommittee Charter document will be prepared, acting on which related deliverables, including the establishment of processes for authorizing and implementing IT changes in accordance with CCN Bylaws and overall guidance from the IT Data & Governance committee will be completed. On target for completion by the assigned due date.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Milestone #3 Develop roadmap to achieving clinical data sharing and interoperable systems across PPS network	In Progress	Roadmap document, including current state assessment and workplan to achieve effective clinical data sharing and interoperable systems where required. The roadmap should include: -- A governance framework with overarching rules of the road for interoperability and clinical data sharing; -- A training plan to support the successful implementation of new platforms and processes; and -- Technical standards and implementation guidance for sharing and using a common clinical data set -- Detailed plans for establishing data exchange agreements between all providers within the PPS, including care management records (completed subcontractor DEAs with all Medicaid providers within the PPS; contracts with all relevant CBOs including a BAA documenting the level of PHI to be shared and the purpose of this sharing).	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	NO
Task Step 1 - Leverage the needs assessment of the IT strategy and define specific data exchange and system interoperability requirements.	In Progress	In Progress - The PPS has partnered with consultants from the WeiserMazars practice to develop an IT Roadmap towards the achievement of steps in this milestone. The team, along with input from the IT Workgroup, will perform a comprehensive PPS wide IT needs assessment and IT Strategy Development. Following development of the plan, the IT Technical Workgroup will review results in DY1, Q2 and DY1, Q3 to define specific data exchange and system interoperability requirements. On track for completion by DY1, Q3.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 2 - Develop plan to incorporate data sharing agreements and consent agreements with all participating organizations.	In Progress	In Progress - In consultation with the PPS legal counsel, a standard PPS Partner Organization agreement was being developed in Q1 and will include language surrounding data sharing and consenting. The expected delivery of this contract to the PPS members is DY1, Q2. In addition, the IT and Data Governance structure designed in Q1 and implemented in Q2 will allow for data sharing and consenting discussions to occur from cross-disciplinary	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

		teams in DY1, Q2. The PPS Compliance Program, as well as the IT and Data Governance program, will further collaborate towards development of the plan to incorporate data sharing agreements and consent agreements with participating provider agreements by the assigned due date of DY1, Q3.					
Task Step 3 - Define data governance structure.	In Progress	In Progress - The IT Data Governance Committee is scheduled to present the committee structure and seat the related candidates through review by the Board of Directors in DY1, Q2. Following the establishment of the format and members, the seated committees will review the current PPS infrastructure and suggest additional workgroups or subcommittees or membership as deemed necessary to the IT Data & Governance Committee for consideration. On target for overall completion by DY1, Q3 as scheduled.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - Develop training strategy.	In Progress	In Progress - The development of the training strategy will be coordinated through the IT and Data Governance Committee structure along with the Workforce Development Team. In Q1 the PPS has acquired consultants and begun to seat members to the various workgroups. These teams will continue to collaborate in Q2 and Q3 towards an IT training strategy which is aligned with other PPS training needs.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 5 - Develop a communication plan.	In Progress	In Progress - The IT Data Governance Committee is scheduled to present the committee structure and seat the related candidates through review by the Board of Directors in DY1, Q2. By initial design, it will include an IT Clinical Workgroup to allow for clinical input directly to the IT workstream. Additionally, a seat on the IT Data Governance Committee is reserved for a member of the PPS Finance Committee to allow for financial representation to be present as PPS IT strategy is developed. Further, a seat on the IT and Data Governance Committee has also been reserved for a member from the Clinical Governance Committee, to allow for clinical representation to be present as PPS IT strategy is developed. The communication plan will be reviewed by these audiences to ensure proper representation has been considered. On target for overall completion by DY1, Q3 as scheduled.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 6 - Develop technical architecture to ensure interoperability among all PPS systems.	In Progress	In Progress - This will be drafted by the PPS Technical Workgroup, a component of the technology Advisory Subcommittee, which reports to the IT & Data Governance Committee. Details of this plan will then be coordinated with the IT Workgroup Subcommittee as well as the Clinical IT Workgroup.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 7 - Evaluate business continuity and data security, confidentiality and integrity controls.	In Progress	In Progress - The PPS has partnered with consultants from the WeiserMazars practice to develop an IT Roadmap towards the achievement of steps in this milestone. The team, along with input from the IT Workgroup, will perform a comprehensive PPS wide IT needs assessment and IT Strategy	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

		Development. The plan includes delivery of four primary milestones, which include the IT Needs Assessment, IT Gap Analysis, PPS Alternative Strategies, and detailed IT Roadmap.					
Task Step 8 - Develop transition plan to migrate paper-based providers to electronic data exchange.	In Progress	In Progress - This will be drafted by the PPS Technical Workgroup, a component of the technology Advisory Subcommittee, which reports to the IT & Data Governance Committee. Details of this plan will then be coordinated with the IT Workgroup Subcommittee.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Milestone #4 Develop a specific plan for engaging attributed members in Qualifying Entities	In Progress	PPS plan for engaging attributed members in Qualifying Entities, signed off by PPS Board. The plan should include your approach to outreach into culturally and linguistically isolated communities.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	NO
Task Step 1 - Perform an IT needs assessment for existing /new attributed members.	In Progress	In Progress - The PPS has partnered with consultants from the WeiserMazars practice to develop an IT Roadmap towards the achievement of steps in this milestone. The team, along with input from the IT Workgroup, will perform a comprehensive PPS wide IT needs assessment and IT Strategy Development. The plan includes delivery of four primary milestones, which include the IT Needs Assessment, IT Gap Analysis, PPS Alternative Strategies, and detailed IT Roadmap. The initial IT needs assessment is on target for completion in Q2, to be followed by the Gap Analysis in Q3, and future action plans and formalized comprehensive roadmap no later than Q4.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - Perform a gap analysis of existing patient engagement outreach programs, strategies and mechanisms.	In Progress	In Progress - The PPS has partnered with consultants from the WeiserMazars practice to develop an IT Roadmap towards the achievement of steps in this milestone. The team, along with input from the IT Workgroup, will perform a comprehensive PPS wide IT needs assessment and IT Strategy Development. The plan includes delivery of four primary milestones, which include the IT Needs Assessment, IT Gap Analysis, PPS Alternative Strategies, and detailed IT Roadmap. The initial IT needs assessment is on target for completion in Q2, to be followed by the Gap Analysis in Q3, and future action plans and formalized comprehensive roadmap no later than Q4.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 3 - Develop an action plan for new engagement channels.	In Progress	In Progress - The PPS has partnered with consultants from the WeiserMazars practice to develop an IT Roadmap towards the achievement of steps in this milestone. The team, along with input from the IT Workgroup, will perform a comprehensive PPS wide IT needs assessment and IT Strategy Development. The plan includes delivery of four primary milestones, which include the IT Needs Assessment, IT Gap Analysis, PPS Alternative Strategies, and detailed IT Roadmap. The initial IT needs assessment is on target for completion in Q2, to be followed by the Gap Analysis in Q3, and future action plans and formalized comprehensive roadmap no later than Q4.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

Task Step 4 - Develop metrics to ensure successful beneficiary engagement.	In Progress	In Progress - The PPS has partnered with consultants from the WeiserMazars practice to develop an IT Roadmap towards the achievement of steps in this milestone. The team, along with input from the IT Workgroup, will perform a comprehensive PPS wide IT needs assessment and IT Strategy Development. The plan includes delivery of four primary milestones, which include the IT Needs Assessment, IT Gap Analysis, PPS Alternative Strategies, and detailed IT Roadmap. The initial IT needs assessment is on target for completion in Q2, to be followed by the Gap Analysis in Q3, and future action plans and formalized comprehensive roadmap no later than Q4.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 5 - Establish progress reports on beneficiary engagement.	In Progress	In Progress - The PPS has partnered with consultants from the WeiserMazars practice to develop an IT Roadmap towards the achievement of steps in this milestone. The team, along with input from the IT Workgroup, will perform a comprehensive PPS wide IT needs assessment and IT Strategy Development. The plan includes delivery of four primary milestones, which include the IT Needs Assessment, IT Gap Analysis, PPS Alternative Strategies, and detailed IT Roadmap. The initial IT needs assessment is on target for completion in Q2, to be followed by the Gap Analysis in Q3, and future action plans and formalized comprehensive roadmap no later than Q4.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Milestone #5 Develop a data security and confidentiality plan.	In Progress	Data security and confidentiality plan, signed off by PPS Board, including: -- Analysis of information security risks and design of controls to mitigate risks -- Plans for ongoing security testing and controls to be rolled out throughout network.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	NO
Task Step 1 - Evaluate the existing data security and confidentiality plans and identify gaps to meet the needs of the PPS.	In Progress	In Progress - The evaluation of existing data security and confidentiality plans will be an effort led by the PPS Compliance Officer, through collaboration with the WeiserMazars consultants, IT Workgroup, IT & Data Governance Committee, PPS Executive Director, UHS Information Technology service teams, and the PPS Compliance and Audit Committee. Overall review will include the initial gap assessment as well as enhancement or development of policies or procedures to mitigate identified weaknesses. In addition, and through consult with the PPS legal counsel, amendments to the PPS standardized Partner Organization agreement may be pursued. The ongoing monitoring and communication of related plans, including development of training or amendment to security and confidentiality plans will be led by the Compliance Officer consistent with the communication channels previously described above. This is on track for completion by DY1, Q3 as scheduled.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

✓ IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- (1) IT Governance Structure - One risk to implementation will be gaining the cooperation of providers in the network to align the organizations IT priorities within the PPS. To mitigate this risk we will establish provider education opportunities, promoted through the CBO Council and the Provider Relations function to raise awareness of how PPS infrastructure benefits other incentive/penalty programs (e.g., meaningful use) to gain prioritization. Our PPS will also leverage provider contracts, facilitated through the funds flow model and provider relations, to provide payment incentives for participation.

- (2) RHIO Capacity - The RHIOs may not have the resources and capacities in place in time to support the infrastructure development to support the needs of one (or many) PPS. The mitigating strategy for this potential bottleneck will be to identify and secure when necessary alternative information submission methods which will satisfy the DSRIP requirements for select providers.

- (3) Technical Workforce - There is a risk that available technical resources available to the New York market will become limited and/or experience pricing inflations due to the urgency and magnitude of DSRIP efforts. As a primary mitigation plan we will pursue and encourage state-wide solutions to address the common theme and cross-over risk across the NY PPS population. In addition, we will collaborate with overlapping PPS to pursue talent sharing arrangements as an effort to both reduce costs and obtain the requisite talent resources. Another mitigation strategy will be to closely collaborate with regional partners, such as those who have had multiple shifts to their EMR profiles to identify leading practices in key areas to promote the development of efficient and effective strategies, such as development of reporting infrastructures and creation of strategic plans (e.g., focus efforts based on population centers). This may also include close collaboration with the RHIO's, as strategic partners who will be in the position of serving multi-PPS members.

✓ IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

- It Systems & Processes are dependent upon the following organizational workstreams:
- (1) Financial Sustainability - There is a direct dependency on the IT implementation plan with the funds flow model, specifically driven by specific sections of the CRFP application and related timing.

 - (2) Performance Reporting - Some reporting can be automatically performed through claims data, while some reporting will be achieved through

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

new capabilities implemented as a result of DSRIP. There exists a major dependency on the ability to report concurrent with the successful integration of systems and development quality of data which can be used for reporting purposes.

(3) Project Plans - The executing, timing, and prioritization of the IT workplan is reliant on stable projects for which technology can be built around. Further evolution of project plans, guidance's, and timeframes (e.g., the stability of project plans) will each impact the IT workplans.

(4) IT is dependent on each of the STRIPPS stakeholders synergy in operation implementation.

(5) The Provider Relations function will be central to the communication and management of IT needs with CBO's in the PPS. This includes both the development of consistent IT competency across PPS, including identification of the right RPU IT competencies.

(6) The IT implementation plan is also dependent to n the detailed Funds Flow methodology, which is supported by PPS policies, procedures, and other guidance's. This will serve as the framework from which PPS stakeholders and CBO's incenting will be performed.

IPQR Module 5.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Governance Development / Chief Information Officer	WeiserMazars Consulting Service (TBD at a future date)	Responsible for IT Governance, IT Landscaping - (Needs/Gap Assessment), Change Management, and IT Architecture.
Data Security & Information Technology Officer	TBD	Responsible for data security and confidentiality plan, Data Exchange Plan, and DEAA oversight.
Project Management Lead	Mark Ropiecki / Care Compass Network	Responsible for development and monitoring of Project Portfolio, Risk Register, Vendor Contracts, and Progress Reports.
IT Project Manager	Currently Consultants, Will be PPS Staffed once the IT Roadmap engagement is completed	Responsible for Execution and Management of Project Portfolio, Risk Register, Vendor Contracts, Progress Reports, and Collaboration with IT Workgroup(s) & Provider Relations.
IT Governance Committee Co-Chairs	Rob Lawlis / CAP Bob Duthe / Cortland Regional	Responsible for Application Strategy & Data Architecture.
IT Workgroup	Multiple	Responsible for development of detailed IT workplans and current state assessments.
PPS Provider Relations and Outreach Coordinator	Julie Rumage	Responsible for PPS provider relations, including contracting and education. In this role the Provider Relations team will also work as a primary point of contact for contracted entities and distribute PPS materials such as IT related plans or education resources. Further, this role will facilitate questions appropriately within the PPS IT governance structure.

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 5.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
All PPS Partners	Interface between PPS IT Strategy and front-line end users	Responsible for input into system design, testing, and training strategy.
RPU Project Managers	Oversight of EHR interfaces and interoperability	Responsible for patient engagement plan and reports to the Clinical Governance Committee and RPU Quality Committees.
PPS Compliance Officer	Plan Approver	Responsible for data security plan and reports to the Compliance & Audit Committee.
External Stakeholders		
RHIOs (all three)	Multiple	Responsible for roadmap for delivering new capabilities.
PCMH Vendors	Multiple	Responsible for roadmap for delivering new capabilities.

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

✓ IPQR Module 5.7 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Care Compass Network will measure the success of the Information Technology (IT) Implementation Plan through the IT & Data Governance Committee which will establish expectations with the responsible parties of each milestone task and direct the responsible parties to supply key performance metrics and reports on a monthly basis. At the close of each month, the IT Workgroup Subcommittee will report the percent completion of each IT Implementation Plan task, which will establish the percent completion of each associated milestone to the IT & Data Governance Committee. The Committee will report the performance of the overall IT plan to the Board of Directors and will be responsible for developing a communication strategy for sharing the information on a regular basis with its PPS members.

The percent completion analysis will be performed by actively monitoring two high level categories:
(1) the percent of required IT infrastructure both implemented and operational for each of the participating members; and
(2) the percent of participating members on track with their unique implementation plan(s).

The performance reports will include (as appropriate) analysis of enablement of key data sharing capabilities, required analytics, and enhanced clinical workflows. Additional reports will be utilized to regularly monitor and track the progress of the IT Implementation Plan rollout, by the various IT Workgroups and Committee, including:

- Annual update of the IT Implementation Action Plan – PPS member adoption of IT infrastructure, enablement of clinical workflows, sharing of key clinical information, use of tele-health and tele-monitoring technologies and application of population health analytics
- Annual Data Security Assessment
- Monthly Workforce Training Report
- Monthly Project Portfolio 'Earned Value' report for all IT related projects within DSRIP project portfolio
- HIE Usage Report

Section 06 – Performance Reporting

IPQR Module 6.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.
Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Establish reporting structure for PPS-wide performance reporting and communication.	In Progress	Performance reporting and communications strategy, signed off by PPS Board. This should include: -- The identification of individuals responsible for clinical and financial outcomes of specific patient pathways; -- Your plans for the creation and use of clinical quality & performance dashboards -- Your approach to Rapid Cycle Evaluation	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	NO
Task Step 1 - Identify and establish Regional Performing Units (RPU's) throughout STRIPPS.	Completed	Complete - Through collaboration with the CCN leadership team (Executive Director, Project Leads, Governance teams) the Care Compass Network created a model in Q1 which identifies Regional Performing Units (RPUs) through which PPS related efforts can be achieved at a local level. The RPU structure was presented to the PPS Stakeholders during the 4/17/15 meeting (see attached). Also, the Clinical Governance Chair Dr. David Evelyn incorporated the RPU model into the proposed Clinical Governance Committee framework by created Clinical Governance Quality Committees which operate by specialty at the RPU level. This model was presented to the Board of Directors during the 6/9/15 meeting (see attached agenda and Clinical Governance materials). Additionally, the functionality of the RPUs has since been incorporated to the CBO Engagement Council which during the meetings in May and June began to identify PPS members by RPU, create RPU teams/leaders, and develop the PPS PreEngagement Survey which was including shaping PPS constituents at the RPU level to better facilitate operations, such as training and outreach efforts.	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
Task Step 2 - Establish a PPS level Clinical Governance Committee with membership of 3	In Progress	In Progress - As outlined in PPS Bylaws, the PPS will be comprised of four committees which report to the Board of Directors. These include the Finance Committee, Clinical Governance Committee, IT & Data Governance	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
members from each of the Four RPU's to discuss Clinical Quality and performance measure.		Committee, and Compliance and Audit Committee. Each committee is in progress of identifying a slate of qualified candidates for presentation to the board. Each committee is on track for final committee slates to be presented and approved by the Board of Directors in DY1, Q2 as scheduled.					
Task Step 3 - The PPS will perform a current state assessment of existing reporting processes at the RPU level .	In Progress	In Progress - The Coordinating Council made motion for development of the CBO Engagement Council in Q1 to allow for reporting and education processes to be developed at the RPU level. Q1 progress included the development of RPU leaders, RPU teams which report weekly to the CBO Engagement Council, as well as formation of RPU based Stakeholder meetings. Continuing into Q2 the reporting processes will be further defined and refined as the four PPS Committees which report to the Board of Directors develop their associated sub-committees with consideration for reporting needs at the RPU level. Overall on track for completion of this step by DY1, Q2 as scheduled.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 4 - Develop RPU level Performance Measurement system based on medical record/Salient Reporting, as well as for those process measures that our project development groups are identifying as drivers of the outcomes we aim to realize.	In Progress	In Progress - In Q1 the PPS began building internal data analytic capabilities, including have three employees receive Salient training and sending additional PPS partners for Salient training. Additionally, professionals with a background in population health will be recruited in Q2 to further promote the achievement of metrics in this step. Concurrently, the project team leaders have begun to identify hot spots and target audiences based on their knowledge of the healthcare system and local industry. The alignment of project requirements and population health team capabilities will continue in the next few months towards the development of the RPU level Performance Measurement system. Additionally, in line with PPS governance development, PPS RPU quality committees are on track to be established and provide regional oversight to the performance measurement system in Q2. Overall on track towards completion in DY1, Q2 as scheduled.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 5- Within each RPU, there will be project based multidisciplinary representation of 6-10 members . These RPU level individuals will serve as the key leads who will hold the RPU partners accountable for the realization and continuous improvement of the multi-disciplinary care pathways underlying their respective projects.	In Progress	In Progress - As outlined in PPS Bylaws, the PPS will be comprised of four committees which report to the Board of Directors. These include the Finance Committee, Clinical Governance Committee, IT & Data Governance Committee, and Compliance and Audit Committee. Each committee is in progress of identifying a slate of qualified candidates for presentation to the board. Each committee is on track for final committee slates to be presented and approved by the Board of Directors in DY1, Q2 as scheduled. Additionally, in Q2 the Clinical Governance Committee will also be seating the respective subcommittee representatives through RPU quality committees (behavioral health, disease management, and onboarding) which is currently	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
		being organized by the RPU leads and PPS Provider Relations.					
Task Step 6- PPS-wide standardized care practices to be established by the Clinical Governance Committee and monitored at the RPU level.	In Progress	In Progress - As outlined in PPS Bylaws, the PPS will be comprised of four committees which report to the Board of Directors. These include the Finance Committee, Clinical Governance Committee, IT & Data Governance Committee, and Compliance and Audit Committee. In Q1 each committee was in progress of identifying a slate of qualified candidates for presentation to the board. Each committee is on track for final committee slates to be presented and approved by the Board of Directors in DY1, Q2 as scheduled. Additionally, in Q2 the Clinical Governance Committee will also be seating the respective subcommittee representatives through RPU quality committees (behavioral health, disease management, and onboarding) which is currently being organized by the RPU leads and PPS Provider Relations. On track to achieve this step by DY1, Q2 as scheduled.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 7 - Establish process for PPS to share/communicating state provided data (accessed through the MAPP Tool, Salient Tool and process measures) to providers through existing templates and Excel files as a short-term solution.	In Progress	In Progress - In Q1 the PPS developed the IT Infrastructure which will be Board approved and seated in Q2. The IT Governance model, along with PPS Data Security Officer are on track to complete the development of the process for PPS data use agreements and related compliance requirements by the DY1, Q2 timeframe.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 8 - Finalize arrangements with RPU providers to exchange key information (including additional quality and process metrics) with centralized PPS level analytics dept.	In Progress	In Progress - In consultation with the PPS legal counsel, a standard PPS Partner Organization agreement was being developed in Q1. The expected delivery of this contract to the PPS members is August 2015, and will serve as the standard agreement for PPS contracting, including arrangements with RPU providers to exchange key information with the centralized PPS level analytics department. On target for completion by the DY1, Q2 scheduled completion date.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 9 - Establish regular two-way reporting structure to govern the monitoring of performance based on both claims-based, non-hospital CAHPS DSRIP metrics and population health metrics (including MAPP PPS-specific Performance Measurement Portal and other process metrics). Results will be gathered by PPS Analytics and reported to the RPU's for performance management, and ultimately	In Progress	In Process - In Q1 the governance and reporting infrastructure designs (e.g., IT Data Governance Committee, RPU structures, etc.) have been designed. In Q2 these governing bodies are targeted for board approval and fulfillment of membership. Following the establishment of these teams, the two-way reporting structure will be implemented by the required timeframe of DY1, Q3.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
reported to the PPS Clinical Governance Committee.							
Task Step 10 - Finalize layered PPS-wide reporting structure: from the individual providers, through RPU, up to the PPS PMO and up to Clinical, IT and Financial Governance Council at the PPS Board. Performance and improvement information available (including, MAPP, Salient SIM tool and Excel spreadsheet for other process metrics) will be maximally integrated into this reporting structure. This reporting structure will define how providers are to be held accountable for their performance against PPS-wide, statewide and national benchmarks.	In Progress	In Process - In Q1 the governance and reporting infrastructure designs (e.g., IT Data Governance Committee, RPU structures, etc.) have been designed. In Q2 these governing bodies are targeted for board approval and fulfillment of membership. Following the establishment of these teams, the two-way reporting structure and communication channels between the various committees, councils, and workgroups will be implemented by the required timeframe of DY1, Q3.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 11 - Develop performance reporting dashboards, with different levels of detail for reports to the RPU's, PMO, the Clinical Quality, Finance, IT Committees and the PPS Board. The monthly Executive Board dashboard reports will be shown on overall performance of the PPS. The various dashboards will be linked and will have drill-down capabilities.	In Progress	In Progress - In the first quarter high level project based reports, including Domains 1 -4 have been prepared and presented to various Committees, Councils, Workgroups, as well as the Board of Directors. However, since Domain 2 - 4 project plans were not finalized in Q1 this step remains In Progress. Following the final submission of Domain 2 - 4 Implementation Plans on August 7, 2015, detailed performance reporting dashboards will be communicated to these groups at a frequency appropriate for each audience. On target for completion by the required due date.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Milestone #2 Develop training program for organizations and individuals throughout the network, focused on clinical quality and performance reporting.	In Progress	Finalized performance reporting training program.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	NO
Task Step 1 - After performing current state analyses and designing workflows, the PPS Workforce Strategy Team will create a dedicated training team to integrate new reporting processes and clinical metric monitoring workflows into retraining curriculum at the RPU level.	In Progress	In Progress - The Workforce Development and Transition Team (WDTT) has been formed and will be working towards development of the Workforce Strategy Team in Q2. On track towards completion of this step by the required deadline.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2 - This training team will integrate Lean,	In Progress	In Progress - Dependent upon step 1 of this milestone.	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

The cornerstones for effective performance reporting/management are: (1) a culture devoted to optimizing outcomes for patients; (2) clear responsibilities and accountability of staff for these outcomes; (3) optimizing and standardizing processes; and (4) continuous measurement of outcomes and the process-metrics that drive them. To accomplish these ambitious goals, our PPS must overcome address the following leading risks:

(1 & 2) PPS Geographic Presence & Differing Levels of Readiness- Our PPS has large a geographic foot print (200 miles * 100 miles) approx., with a population center in Broome County which contains approximately 30% of PPS attributed lives, with the remainder residing in eight other counties. The geographic spread of the PPS network is compounded by the longstanding professional independence of many providers and the different reporting cultures and workflows they have in place (e.g., IT systems, lack of IT systems, etc.). Designing and implementing a standard reporting workflow that will functionally work for the entire PPS, which includes members with varying levels of cultural resistance, commitment, DSRIP interest, and organization/leadership styles, will be a significant risk. Further, there are three RHIO's who connect providers in the PPS, however most IT connectivity happens in the Broome county and fades very quickly once moving into more rural areas. To mitigate these risks, we will pursue enhancement of IT connectivity of Skilled Nursing Facilities (SNFs) and other non-healthcare providers. We will also promote education and awareness around IT/infrastructure concepts such as Value Based Payments, which is a relatively new concept that will be vital towards the development of our performance monitoring system and allow for clear lines of accountability for patient care outcomes. The CBO Council will be leveraged to develop a CBO outreach plan based on providers by RPU. Further, the RPU Provider Relations Professionals and RPU Project Management leads will be vital in the coordination and alignment of IT milestone development as related to the entire nine county STRIPPS geographic region.

Our governance forms a structure with specific individuals / teams given responsibility for embedding performance reporting processes, and clear accountability for specific outcomes, whether on a project-by-project basis or across the whole PPS. There are many enthusiastic providers and strong performers amidst our partners, but the current fragmentation in the provider, IT connectivity and payment environment undermines our ability to create a common, outcomes-focused culture that spans organizational boundaries.

We will set the tone from the top of the PPS. The core members of the PPS, represented on its Governance Committees will be responsible for communicating the vision of a network in which providers only accept the highest standards of excellence for patient outcomes. Our training program will also be centered on this vision.

Our approach to creating these lines of accountability will be designed to ensure that front-line practitioners have the autonomy to determine which measures require the most focus, without overloading PPS leadership with more data and information than they can meaningfully process. Top-down designated accountability will need to be matched by strong provider engagement, to ensure that the performance reports which flow upwards are relevant to both the PPS leadership and to the improvement of patient care.

The provider engagement work, led by our Provider Relations Professionals, will be an important factor in mitigating this risk. They will be responsible for incentivizing providers throughout the network to participate in the PPS performance reporting systems, both professionally (improving quality of care) and financially.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

✓ IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

- (1) Our success with Performance Reporting has significant dependence on our Governance workstream. Without effective leadership and a clearly defined organizational structure, with clear responsibilities and lines of accountability, our ability to create a common culture and to embed performance reporting structures and processes will be severely hampered.
- (2) The Workforce Strategy workstream is also an important factor in our efforts to developing a consistent performance reporting culture and to embed the performance reporting framework we will establish. Training on the use of these systems – as well as the vision of STRIPPS (dba: Care Compass Network) as an organization where practitioners don't accept less than excellent quality – will need to be a central part of our broader training strategy for all the staff who are impacted by our workforce transformation.
- (3) The success of performance reporting relies on quick and accurate transfers of vital performance information. If providers cannot gather the right information, or an oversight committee fails to gather and distribute the aggregated data in a timely manner, the data will not be reported in such a way that it can be acted upon to improve clinical outcomes and ultimately improve performance throughout the network. A crucial dependency for our successful implementation of a performance reporting culture and processes is the work of the STRIPPS IT Transformation Group to customize existing systems and implement the new IT systems that will be required to support our reporting on patient outcome metrics.
- (4) Practitioner Engagement and Clinical Integration will both be absolutely crucial to the success of our efforts to create a common performance culture throughout the PPS network, and to embed the new performance reporting practices within business-as-usual clinical practice.
- (5) Finally, the financial Funds Flow model will be a major dependency for the Performance Reporting workstream. Performance metrics across the entire PPS will be modeled based on the Funds Flow model, which will be derived primarily on a pay for performance model.

Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

✓ IPQR Module 6.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
RPU Project Managers	Dawn Sculley (South) & Emily Pape (West), Care Compass Network	Responsible for identification and tracking of metrics related to projects, including their role in the performance reporting structures and processes in place for PPS level Clinical Governance Committee.
RPU Team members	Coordinating Council	Responsible for quality of clinical protocols, outcomes, and financial results per project as well as the realization and continuous improvement of the multi-disciplinary care pathways underlying their respective projects.
Provider Relations Staff	Julie Ramage & Jessica Grenier, Care Compass Network	Responsible for spreading and embedding common culture of continuous performance monitoring and improvement throughout Practitioner Professional Peer Groups. Responsible to PPS Clinical Governance Quality Committee for provider involvement in performance monitoring processes.
PPS IT and Data Analytics Group	Multiple	Responsible for ensuring the implementation, support, and updating of all IT and reporting systems to support performance monitoring framework. Also responsible for ensuring that the systems used provide valuable, accurate, and actionable measurement for providers and staff.
South RPU Lead	Robin Kinslow-Evans, Interim Executive Director (Care Compass Network)	Responsible for identification and tracking of metrics related to projects, including their role in the performance reporting structures and processes in place for PPS level Clinical Governance Committee.
North RPU Lead	Amy Gecan, Director System Integration and Operations (Cayuga Medical Center)	Responsible for identification and tracking of metrics related to projects, including their role in the performance reporting structures and processes in place for PPS level Clinical Governance Committee.
East RPU Lead	Greg Rittenhouse, VP, COO, Home Care (UHS)	Responsible for identification and tracking of metrics related to projects, including their role in the performance reporting structures and processes in place for PPS level Clinical Governance Committee.

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 6.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
PPS IT Staff	Reporting and IT System maintenance	Responsible for monitoring, tech support, and the upgrading of IT and reporting systems.
Providers	Organizations immediately responsible for delivering on the performance monitoring processes established across the PPS.	Responsible for promoting a culture of excellence and employing standardized care practices to improve patient care outcomes.
PPS Governance Body	Ultimately responsible for PPS meeting or exceeding our targets.	Responsible for prioritizing and improving patient care and financial outcomes for the entire PPS - Acts as a high-profile, organization-wide champion for a common culture, standardized reporting processes, care guidelines, and operating procedures. Additionally, the governing body is responsible for monthly executive meetings with patient outcomes as the main agenda item and reviewing patient outcome reports prepared by the sub-Committees.
PPS Finance Governance Committee	Responsible for collecting, analyzing, and handling financial outcomes from performance management system.	Responsible for electing key decision-makers to champion the performance management cause within the DSRIP projects and interfacing with the Clinical Quality Committee.
PPS Clinical Quality Governance Committee	Ultimately responsible for all clinical quality improvement across the whole network.	Responsible for monthly Executive Report for the Governance Body which includes patient care metrics updates as well as electing several key decision makers to champion the performance management cause within the DSRIP projects and interfacing with the Finance Committee.
External Stakeholders		
Managed Care Organizations (MCOs)	Providing data to the PPS, shared savings	Responsible for providing key information to the PPS and arranging shared savings agreements with the PPS in the later stages of DSRIP.
Community Based Organizations (CBO's)	Non health care providers who serve target population	The RHIO's should help in connecting CBO's to PPS. The Interfaces with CBO datasources would help in obtaining nonclinical data for PPS. Some of the measures are reportable and process measures would help in tracking the metrics.

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
County Dept. of Health or Mental Health Organizations	Healthcare Organizations which are not Hospitals, Primary Care/Speciality Care clinics.	Responsible for providing timely clinical data to PPS on usage and types of services.
County Law Enforcement Agencies	Community bodies which serve target population	Provide data to PPS on crisis intervention and diversion from ED.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

✓ IPQR Module 6.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

Our PPS will be using a number of IT solutions to accurately measure, monitor, and report on DSRIP and non-DSRIP metrics. Our IT Performance Transformation Group (PTG) will be responsible for interfacing with the clinical and finance leads of the DSRIP projects to ensure that dashboards, reports, and metrics-gathering software are accurate and have no usability issues. Initially, existing performance reporting structures within the larger provider organizations in the PPS will be leveraged to provide the staff and IT infrastructure needed to build up the evolving PPS-wide Performance Measurement system as planned. In the interim, a system of Excel files transferred from the state's MAPP tool and Salient's SIM tool, to the leading workstream committee, through the project leads, and down to the individual providers will serve as a bridge before the robust final system is fully ready for deployment. We are currently considering several options for the procurement of PPS-wide performance reporting systems, including collaborative buying solution with our neighboring PPS's. The final system will have to have the capabilities to aggregate information on projects & care processes from the providers to the workstream lead, and from the state to the providers, in a way that is accessible, while also sufficiently secure to protect patient information.

✓ IPQR Module 6.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The PPS success will be measured by our providers' understanding of their performance and how it is improved by our implementation of performance measurement. We will continually measure the level of engagement and involvement of providers in the performance reporting systems and processes that are established. In DY1 Q2, we will define metrics to measure providers' involvement in the PPS performance reporting structure (e.g. active users of performance reporting IT systems, involvement in feedback discussions with Clinical Quality & Finance Committee about performance dashboards). We will also set targets for performance against these metrics. The RPU Quality Committees and the RPU specific Performance Monitoring Leads will be held accountable for driving up these levels of involvement. Additionally, CBO contracts will be established leveraging a pay for performance model whereby contracted payments (excluding infrastructure build) will be based on achievement of results, rather than a grant based payment model.

Our front-lines will measure the outcomes that matter most to patients, and use our reporting and IT systems to monitor, evaluate, and identify the contributing processes and intermediate outcomes. They will be surveyed and interviewed to determine the level at which they find that the performance reporting system provides them with the right information, and the level at which they find that the information is clear and – most importantly – actionable.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

On a monthly basis, our RPU, overseen by the RPU Quality Committee, using the standardized measurement and reporting framework, provide their members with the relevant patient metrics, along with their deviation or improvement from the previous month. Our PPS Clinical Governance Committee and IT & Finance Governance Committee will then aggregate these reports and compile them into the Executive Report, which will be the top item during the monthly Governance meetings. The quarterly reports will show the variation in patient care outcomes between quarters, which will be easily accomplished using our monthly model. Tracking change in the metrics included on these dashboards over time will be the primary tool we use to evaluate the impact of our performance reporting systems and our efforts to embed a culture of continuous improvement.

IPQR Module 6.9 - IA Monitoring

Instructions :

Roles and Responsibilities: The IA recommends getting vacant positions filled ASAP to minimize project risk.

Stakeholders: IA recommends identifying specific people to participate from external stakeholders.

Section 07 – Practitioner Engagement

IPQR Module 7.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.
 Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Develop Practitioners communication and engagement plan.	In Progress	Practitioner communication and engagement plan. This should include: -- Your plans for creating PPS-wide professional groups / communities and their role in the PPS structure -- The development of standard performance reports to professional groups --The identification of profession / peer-group representatives for relevant governing bodies, including (but not limited to) Clinical Quality Committee	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	NO
Task Step 1 - At the PPS level, or within each Regional Performance Unit (RPU), appoint the following positions and responsibilities: (a) RPU Provider Relations professional who will coordinate provider relations, training, and touch point contact for key professional groups/ Participating Organizations. (b) RPU Quality Committees, comprised of RPU based physicians and professionals, each of which will report to the PPS Clinical Governance Committee. This group will be responsible for representing the interests and views of practitioners to the PPS Executive Body through the Clinical Governance Committee and representing the Executive Body's views to the various communities of practitioners. (c) RPU Leads / Project Manager(s) who, among other things, is responsible for	In Progress	In Progress - Care Compass Network has created job descriptions for each of these roles and begun to hire and/or acquire these services through Purchase Service Agreements from Partnering Organizations. Our RPU Quality Committees have begun development as we have created and dispersed to each RPU a list of skillsets needed for this committee. A slate will be devised and brought to the Stakeholders/PAC for nomination and final ratification via the Board of Directors in Q2.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

communication of cross-functional needs with the RPU Provider Relations professional. The RPU Lead will collaborate the RPU project, reporting, and governance needs with other RPU Leads/ Project Managers to allow strategies and methodologies to react uniformly and timely (when needed). (d) PPS Communications Coordinator, to promote development and distribution of internal and external PPS communications, and serve as a central connection for PPS related communications.							
Task Step 2 - Each RPU Quality Committee to develop draft communication and engagement plans, to be aligned where possible and approved by the Clinical Governance Committee. Key plans for development will include: i. Structures and processes for two-way communication between front-line practitioners and the Governance of the PPS; ii. Process for managing grievances rapidly and effectively; iii. High-level approach for the use of learning collaboratives; iv. Identification, creation, and communication of other forums for practitioners to discuss, collaborate, and shape how DSRIP will affect their practices.	In Progress	In Progress - The Clinical Governance Workgroup presented a draft of the Clinical Governance structure to the Board of Directors on 5/12/15 which highlighted the reporting relationship between the Clinical Governance Committee and the RPU Quality Committees, as well as with the Board of Directors (both up and down). The RPU Quality Committee infrastructure illustrated the suggested multi-disciplinary framework as suggested by the Clinical Governance Committee acting Chair (Dr. David Evelyn, CMO Cayuga Medical Center) based on DSRIP requirements. Efforts to identify these skillsets from across the PPS on the Clinical Governance Committee are in progress and on target for a final slate of candidates to be presented to the Board of Directors for ratification in DY1, Q2. Following the seating of these Quality Committees the development of the communication and engagement plans will be finalized. On target for completion by DY1, Q3.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 3 - Perform an inquiry with professional networks, committees, groups, or stakeholders to develop a process on communication and engagement strategy. This will involve seeking input with the practitioners themselves on their role in the DSRIP transformative process	In Progress	In Progress - The Clinical Governance Workgroup presented a draft of the Clinical Governance structure to the Board of Directors on 5/12/15 which highlighted the reporting relationship between the Clinical Governance Committee and the RPU Quality Committees, as well as with the Board of Directors (both up and down). The RPU Quality Committee infrastructure illustrated the suggested multi-disciplinary framework as suggested by the Clinical Governance Committee acting Chair (Dr. David Evelyn, CMO Cayuga Medical Center) based on DSRIP requirements. ✓ IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

There is currently a moderate level of engagement of our practitioner community, facilitated through alternating bi-weekly Stakeholder/PAC Council, Executive PAC Council, and monthly Clinical Governance Committee meetings. Two major risks to the implementation of the plans for practitioner engagement, including the achievement of milestones listed above, includes:

(1) Practitioner Availability - There is an immediate need to develop the training and education plan, after which there will be a small window within which we will be able to execute and deliver training. Aligning these timeframes with physician availability will be a key risk to the completion of the training and educational requirements. Particular milestones impacted significantly includes Step 3 from both sections above "Perform an inquiry with professional networks" and "implement the training and education program." To mitigate these risks, we will incorporate key physician leadership into each RPU Quality Committee and solicit input during the development of physician incentive plans. Electronic training, for example, could be considered to accommodate physician schedules, making training flexible to account for scheduling conflicts. Strategies such as these can be deliberated in RPU Quality Committee meetings. We will also incorporate a feedback section into the training and education materials to allow physicians to have another platform through which feedback, critique, and suggestions can be communicated to the RPU & PPS.

(2) Workforce Transition - Another major risk to implementation of the Practitioner Engagement workstream will be the development, communication, and activation of the Workforce transition road map, which will have impacts across the entire nine county PPS. If not developed and communicated with appropriate strategy, the concept and realization of workforce transition could deter or eliminate overall Practitioner Engagement. To mitigate this risk we will coordinate and communicate workforce plans at the PPS level, first developing a road map which outlines the workforce transition at the PPS board level (which includes CBO representation), after which execution of the plan can be performed through the Workforce Transition Lead, PPS Communications Coordinator, and RPU leadership. Timing of these deliverables will be decided by leadership to align as close as possible with related efforts (e.g., bed reduction plan) to avoid pre-mature discussion on related topics. The PPS Workforce Transition lead will be responsible for continuity of communications across the RPUs, facilitated by the PPS Communications Coordinator, to ensure consistent messaging and proper communication. Further, prior to the communication plan, clear metrics and background knowledge will have been obtained to understand the overall workforce transition impact as related to any one particular RPU, CBO, or practitioner/provider.

✓ IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

The Practitioner Engagement Workstream will in essence require a strong infrastructure and communication plan to promote activation and engagement of PPS practitioners. To meet the needs of the Practitioner Engagement Workstream there are three related primary major dependencies on other work streams, which include:

- (1) The inherent reliance on IT Infrastructure which will serve as a backbone with regards to overall practitioner engagement. As the Practitioner Engagement Workstream matures over time, the IT Infrastructure will also need to provide systems which inform the PPS about practitioner performance as related to DSRIP goals and related contracted terms.
- (2) Similarly, communication tools which allow for adequate communication channels both up and down the PPS structure will need to be developed at the PPS Governance level, by means of the Clinical Governance Committee. Communication will also need to be linear and granule whereby RPU specific needs, such as participation of RPU hospitals is obtained to support physician awareness campaigns. Clear articulation of DSRIP benefits (e.g., reduced administrative burden), structure, and vision will also be critical to promote "practitioner buy-in". These relational and RPU specific communication needs will be developed cross-functionally by the Communications Workgroup and CBO Council and be led by the RPU Provider Relations professional and the PPS Communications Coordinator.
- (3) A third major dependency includes the development of the funds flow and the related physician incentive models, which will help to engage providers outside of other incentive based models.

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 7.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
RPU Project Managers	Dawn Sculley / Care Compass Network Rachael Mott / Care Compass Network Emily Pape / Care Compass Network	Responsible for functioning as the liaison between the Project Management Office (PMO) and the Regional Performance Unit (RPU).
CBO Engagement Council	Multiple	Responsible for the identification of PPS CBOs/providers and allocation by responsible RPU as well as the ongoing identification of practitioners. Responsible for development of education and awareness campaigns for each RPU.
RPU Clinical Quality Committees	Multiple	Responsible for clinical quality communicated and delivered at the RPU level and RPU results; reports to the PPS Clinical Governance Committee.
RPU Provider Relations	Julie Ramage, South RPU Provider Relations / Care Compass Network Jessica Grenier, Provider Relations Care Compass Network	Responsible for managing physician relations, performing education, training, and coordinating agreements at each RPU as well as pursuing contracts with CBOs/providers.
Clinical Governance Leads	Multiple	Responsible for the accuracy, completeness, and timeliness of clinical reporting.

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 7.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Practitioners Network	Outreach and Engagement Activities	Responsible for attending training sessions, reporting to relevant Practitioner Champions, and the receipting/executing of practitioner agreement.
Workforce Group	Oversight of training, education, and identification of future needs	Responsible for input into practitioner education / training plan.
Clinical Governance Committee	Governance committee on which RPU Champions sit	Responsible for monitoring levels of practitioner engagement and forums for decision making about any changes to the practitioner engagement plan.
RPU Quality Committees	RPU specific quality committee, reporting to the PPS Clinical Governance Committee	Responsible for oversight of performance at the RPU level and quarterly reports for presentation at the Clinical Governance Committee.
FLPPS, Bassett & STRIPPS	Overlapping PPS's (FLPPS -Steuben & Schuyler Counties; Bassett - Delaware)	Responsible for the development of a patient engagement model which will leverage the benefits of dual PPS's without creating additional administrative burden (e.g., contracting, educational requirements, etc.).
External Stakeholders		
NYS Dept. of Health (DOH)	Key Stakeholder	Responsible for Quarterly Reports and Patient Outcomes.
Medicaid Enrollees	Beneficiaries	Care may be impacted by the nature and degree and approach of practitioner engagement and the related contracting efforts.
DSRIP Project Approval & Oversight Committee (PAOP)	Key Stakeholder	Responsible for Quarterly Reports and Patient Outcomes.

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

✓ IPQR Module 7.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

- '(1) For the Practitioner Engagement Workstream there is a significant need to have robust data transfer between CBOs and providers in a format that is relevant and usable. The PPS will also need to develop dashboards to help facilitate how information is provided to providers.
- (2) A core function of DSRIP is the PPSs underlying requirement to develop implementation plans which will use clinical data to drive DSRIP outcomes. To achieve this there are two primary IT Infrastructure expectations to be achieve:
- a. Facilitated/ IT developed communications throughout each of the four RPU's and more broadly across the nine county PPS;
 - b. The methodology and development of how clinical information can be used to drive decisions and DSRIP outcomes; &
 - c. Ongoing monitoring of progress through the RPU's to help drive provider/ CBO incentives and change, with primary focus on change towards achievement of the DSRIP goals.

✓ IPQR Module 7.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

- The success of the Practitioner Engagement Workstream will be measured through the monitoring and ultimate achievement of the following core measures:
- (1) Establishment of four Regional Performing Units (RPUs) which will allow for practitioner engagement and other DSRIP goals to be pursued and achieved at a localized level;
 - (2) The development of a training plan by the CBO Council to help educate providers and CBOs regarding the DSRIP program. This should include a variety of training programs or sessions based on the needs of the RPU, project modality, service type, etc.
 - (3) The development of a provider engagement contracting model and the subsequent monitoring activities. This will be measured through the number and type (e.g., Outreach or Engagement services, etc.) of provider agreements/contracts that are signed, versus the number of practitioners available.

IPQR Module 7.9 - IA Monitoring

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Roles and Responsibilities: The IA recommends getting vacant positions filled ASAP to minimize project risk.

Stakeholders: IA recommends identifying specific people to participate from external stakeholders.

Section 08 – Population Health Management

IPQR Module 8.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.
 Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Develop population health management roadmap.	In Progress	Population health roadmap, signed off by PPS Board, including: -- The IT infrastructure required to support a population health management approach -- Your overarching plans for achieving PCMH 2014 Level 3 certification in relevant provider organizations -- Defined priority target populations and define plans for addressing their health disparities.	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	NO
Task Step 1 - Perform a review of existing PPS supporting infrastructure/capabilities, including at minimum Population Health Management System capabilities (e.g., Salient, RHIO, CBO Systems, etc.) as well as the associated Lead System Experts (e.g., knowledge experts) for each system who can be available to support the needs of the PPS, which can be leveraged in addition to the MAPP tool.	In Progress	In Progress - The data gathering of the PPS IT environment began in Q1, facilitated through the PPS acquisition of the consulting firm WeiserMazars. The WeiserMazars engagement includes several deliverables which have been aligned with DSRIP goals associated with this milestone and related steps. The WeiserMazars team reports progress weekly to the IT Workgroup and has incorporated efforts from other PPS groups to their work stream. For example, the CBO Engagement Council distributed a Pre Engagement Survey to the PPS Stakeholders group on 6/26/15. Prior to distribution, the CBO Engagement Council requested feedback from the IT Workgroup, including WeiserMazars, so IT related needs could be identified in the Pre Engagement Survey. Following survey distribution and gathering of results in DY1, Q2 the CBO Engagement Council, facilitated through the Provider Relations team, has shared results from the survey with the IT Workgroup for inclusion with the analysis of the PPS IT environment. During Q1 the IT Workgroup also prepared a draft IT Governance framework which included the development of a Technical Workgroup which will focus on the details of this step. The IT Governance structure and seating of committee members is scheduled for DY1, Q2. Overall on track for completion of this milestone by DY1, Q2 as scheduled.	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Task Step 2 - Identify frequent visitors to healthcare organizations using existing systems and algorithms to determine target populations and health disparities within PPS, borrowing Health Homes population health management strategies.	In Progress	In Progress - In Q1 the PPS began building internal data analytic capabilities, including have three employees receive Salient training and sending additional PPS partners for Salient training. Additionally, professionals with a background in population health will be recruited in Q2 to further promote the achievement of metrics in this step. Concurrently, the project team leaders have begun to identify hot spots and target audiences based on their knowledge of the healthcare system and local industry. The alignment of project requirements and population health team capabilities will continue in the next few months. Overall on track towards completion in DY2, Q1 as scheduled.	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task Step 3 - Identify and/or develop standard reports and one-off reports which will be utilized based on the needs of each RPU, project, or overall PPS needs. These reports will be leveraged to analyze the PPS data population to stratify risk and guide PPS implementation and performance achievement efforts. For example, this effort will include benchmarking reports to provide baseline data to the responsible PPS members or performing data analysis to identify where the governing body (e.g., RPU, PPS) is making progress against DSRIP goals.	In Progress	In Progress - In Q1 the PPS began building internal data analytic capabilities, including have three employees receive Salient training and sending additional PPS partners for Salient training. Additionally, professionals with a background in population health will be recruited in Q2 to further promote the achievement of metrics in this step. Concurrently, the project team leaders have begun to identify hot spots and target audiences based on their knowledge of the healthcare system and local industry. The alignment of project requirements and population health team capabilities will continue in the next few months. The Overall on track towards completion in DY2, Q1 as scheduled.	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task Step 4 - Create a dashboard to periodically update the program planning and individual care management database and registries, available for easy access by all participating providers in the PPS. Build out a public facing dashboard derived from the internal database to monitor outcomes and successes of the program.	In Progress	In Progress - To be developed following the completion of Step 3 in this Milestone.	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task Step 5 - Complete workforce assessment for priority practice groups' care management capabilities, including staff skills and resources	In Progress	In Progress - A requisite for completion of the steps within this milestone include the PPS development of a functioning Clinical Governance Committee as well as a Workforce Development team. Following the development of the CGC framework in Q1 final approval from the Board of Directors will be	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

metrics for each clinical area to monitor progress in managing population health. As these guidelines are established and modified throughout the DSRIP period the Population Health Management team can align and refine the Population Health Roadmap.		and candidate slates. Overall on track towards completion of this step by the define due date of DY2, Q1.					
Task Step 10 - As needed, deploy staff support at provider level (as part of practitioner engagement training plan) to train providers to use and apply information learned from the registries, how to implement established care guidelines, develop disease pathways, determine effectiveness of interventions through team meetings, etc.	In Progress	In Progress - A requisite for completion of the steps within this milestone include the PPS development of a functioning Clinical Governance Committee. The framework for this Committee was drafted in Q1 and is being presented to the Board of Directors in Q2 for approval of both the framework and candidate slates. Overall on track towards completion of this step by the define due date of DY2, Q1.	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Milestone #2 Finalize PPS-wide bed reduction plan.	In Progress	PPS Bed Reduction plan, signed off by PPS Board. This should set out your plan for bed reductions across your network, including behavioral health units/facilities, in line with planned reductions in avoidable admissions and the shift of activity from inpatient to outpatient settings.	04/01/2015	09/30/2016	09/30/2016	DY2 Q2	NO
Task Step 1 - Appoint a PPS representative group, including representatives from each acute care provider, chartered off the Board of Directors to perform a PPS-wide bed reduction planning analysis. Given results from the analysis, a detailed review will be performed on the data and assumptions with advisory 3rd party consultant, resulting in a draft Bed Reduction Plan.	In Progress	In Progress - A requisite for completion of the steps within this milestone include the PPS development of a functioning Board of Directors. As noted in the Governance section, Milestone 1, Step 1, the PPS reports a Completed status of seating the Board of Directors and establishing the PPS Bylaws in DY1, Q1. Following the establishment of PPS governance infrastructure, the PPS has begun to plan for the Bed Reduction Plan milestone and steps by including discussions of the plan in the Executive Directors report to the board in DY1, Q2 meetings. Additional updates will be prepared for the Q2 report.	04/01/2015	09/30/2016	09/30/2016	DY2 Q2	
Task Step 2 - The PPS representative group will submit the draft Bed Reduction Plan to the Board of Directors for review. Upon review and consensus, the Board will finalize and sign the Bed Reduction Plan.	In Progress	In Progress - A requisite for completion of the steps within this milestone include the PPS development of a functioning Board of Directors. As noted in the Governance section, Milestone 1, Step 1, the PPS reports a Completed status of seating the Board of Directors and establishing the PPS Bylaws in DY1, Q1. Following the establishment of PPS governance infrastructure, the PPS has begun to plan for the Bed Reduction Plan milestone and steps by including discussions of the plan in the Executive Directors report to the board in DY1, Q2 meetings. Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Task Step 3 - Using the Board approved Bed Reduction Plan, an ongoing monitoring process will be developed which will allow for monitoring and reporting activities (e.g., Quarterly Reports) related to the Bed Reduction Plan.	In Progress	In Progress - A requisite for completion of the steps within this milestone include the PPS development of a functioning Board of Directors. As noted in the Governance section, Milestone 1, Step 1, the PPS reports a Completed status of seating the Board of Directors and establishing the PPS Bylaws in DY1, Q1. Following the establishment of PPS governance infrastructure, the PPS has begun to plan for the Bed Reduction Plan milestone and steps by including discussions of the plan in the Executive Directors report to the board in DY1, Q2 meetings. Additional updates will be prepared for the Q2 report.	04/01/2015	09/30/2016	09/30/2016	DY2 Q2	
Task Step 4 - Periodic content monitoring will be performed (e.g., quarterly) to summarize current state bed reduction impacts and be reported to the Project Management Office. Significant deviations from the Board approved Bed Reduction Plan will be submitted by the Director of Project Management to the Executive Director for formal review. If significant deviations are confirmed, the Bed Reduction Plan will be re-evaluated to confirm pertinence to the current operating environment, repeating Steps 1-3 above.	In Progress	In Progress - A requisite for completion of the steps within this milestone include the PPS development of a functioning Board of Directors. As noted in the Governance section, Milestone 1, Step 1, the PPS reports a Completed status of seating the Board of Directors and establishing the PPS Bylaws in DY1, Q1. Following the establishment of PPS governance infrastructure, the PPS has begun to plan for the Bed Reduction Plan milestone and steps by including discussions of the plan in the Executive Directors report to the board in DY1, Q2 meetings. Additional updates will be prepared for the Q2 report.	04/01/2015	09/30/2016	09/30/2016	DY2 Q2

IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

- 1) IT Infrastructure - Overall IT Infrastructure challenges include items such as CBO connectivity throughout the PPS, availability of accessible and relevant data, care management infrastructure, and the PPS IT team capable of leveraging available data for Population Health Management purposes. To mitigate this IT risk, we have vendored the services of a healthcare IT management solutions firm to perform a robust IT needs assessment, which will provide reports on IT governance, analytics, as well as a status report on PPS connectivity, including Gap Assessment. We have dedicated PPS resources that will be working collaboratively with these consultants to drive results in a relatively short period of time, from which future action plans can be developed.
- (2) CBO & Patient Engagement - Without the involvement of these members the ability for the PPS to perform outreach and/or engagement to the attributed patient population will be limited. To address and mitigate the risk the Coordinating Council has sponsored a sub-council, the CBO Council, which will be responsible for developing outreach efforts to CBO's, education programs, and serving as a single source contact to the CBOs, amongst other things. By properly educating the PPS CBO and provider members regarding DSRIP and what role they can play, and highlighting the benefits of the DSRIP program more members are expected to participate. In addition, the PPS is hiring Provider Relations and Patient Outreach professionals who will have significant focus on the CBO outreach as well as patient outreach efforts.
- (3) Bed Reduction Plan - A third risk is the knowledge that as DSRIP evolves the associated plans will need to evolve as well. While a bed reduction plan can be prepared based on our market, DSRIP, and industry knowledge to date, a risk exists whereby currently unknown market forces may have significant impact on the bed reduction plan. As our PPS contains multiple health systems and other involved organizations, the need to revisit the bed reduction plan will likely promote contentious discussions. In addition, the PPSs authority over hospitals to complete a bed reduction, as well as the required community support for a bed reduction plan will be difficult to achieve. To mitigate this risk we will adopt within the beds reduction plan a frame work which includes dispute resolution and amendment process from which any future edits, revisions, or clarifications can operate from. We will also leverage existing communication channels, such as through the CBO Council, Outreach Coordinators, and Provider Relations, to promote transparency of DSRIP plans through education forums. Additionally, due to the conflicts of interest inherently present within the PPS representative group commissioned to draft the Bed Reduction Plan, a 3rd party consultant is appropriate in order to minimize conflict and manage conflicts of interest.
- (4) Community Engagement/Awareness - Another leading risk to the successful implementation of population health management plans is the potential disconnect between Population Health Management plans and how services are currently performed at the community level. To mitigate we will develop an Ambassador Team, including key stakeholders such as members of the Board of Directors, local Chamber of Commerce, etc.
- (5) Overlapping PPSs - A final leading risk exists in two of our four RPUs (the West and the East RPUs), which overlap patient populations with other PPSs (FLPPS and Bassett PPS). To mitigate this risk, we have begun and will continue to collaborate with these PPS to develop RPU specific engagement plans which allow for collaboration with the multi-PPS region. This may include shared utilization of common consultants, alignment of policies, procedures, or consents, and sharing of data to promote overall NYS success with DSRIP goals.

✓ IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The Population Health Management Workstream is fairly complex and contains many interdependencies from across the PPS workstreams, including:

- (1) Practitioner Engagement - A primary output of the Population Health Team will include analyzed data including providers of all types. The ability for the PPS to actively engage with providers through agreements/contracts, as achieved through the Governance Workstream, will be critical to making use of information populated by the Population Health Management Team.
- (2) Clinical Integration - Similar to the above, a major dependency exists whereby the PPS will not be able to manage the health of a population through care coordination unless integration of the clinical information across the continuum has been achieved. An individual provider or CBO cannot expect to manage or leverage population health data unless they are integrated sufficiently with other providers or CBOs to the extent that they can work together/collaboratively to affect patient outcomes.
- (3) IT Systems and Processes - Population Health management is highly dependent on the ability for various data systems and processes to communicate with each other in a way which data can be analyzed and plans be created to promote behavioral change and outcomes. The Population Health Management Workstream will heavily rely on the development of IT systems to collect data and present the data in a relevant and useable format. This baseline will equip the Population Health team to analyze that data to come up with plans and direct change.
- (4) Workforce Transition - As workforce transition plans are executed over the DSRIP years, the expectation is that the transition will be commensurate with the achievement of specific pre-defined metrics (e.g., achievement of a number of patient outreaches, or patients with care coordinated models). The workforce transition plan will need to be communicated with the Population Health Management team so RPU's will better be able to track and monitor the effectiveness of the associated workforce transitions for CBO contract compliance (whereby CBO members are paid for performance).
- (5) Cultural Competency / Health Literacy - Developments and education plans organized by the Cultural Competency Committee (CCC) will serve as inputs to the Population Health Management team so appropriate PPS groups, categories, or populations, can be adequately monitored for progress as related to the plan.

 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 8.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Population Health	Multiple	Responsible for monitoring impacts of DSRIP projects and progress related to changes/projects implemented.
Analytics	Multiple	Responsible for performance of bed reduction plan reviews and public outreach for bed reduction plan.
PPS IT Services	UHS IT Department (Vendor)	Responsible for data warehouse and interfaces.
Compliance Officer	Rebecca Kennis, Compliance Officer / Care Compass Network	Responsible for Compliance Plan cognizant of Data Sharing requirement(s), Audits for Compliance, and Reports to Associated Committee.
Coordinating Council	Multiple	Responsible for respective roles in overall project coordination.
Outreach Workers	Multiple	Responsible for outreach to patient population.
RPU PCMH Working Groups	Multiple	Responsible for reporting progress to the Clinical Governance Committee.
Care Compass Network Board of Directors	Matthew Salanger, UHS CEO, Care Compass Network Chair of the Board	Care Compass Network Board of Directors is responsible for approval of the Bed Reduction Plan overall plan and approach.

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 8.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Partner CEOs	Multiple	Responsible for Board Member deliverables and providing hospital support for PPS events (e.g., forums, education/outreach).
Board of Directors	Governance	Responsible for overall PPS guidance.
RPU Leads	Leads RPU Operating Groups	Responsible for alignment of Pop Health results with DSRIP milestones and ongoing performance.
Care Coordination Teams	PPS Partner	Responsible for using Pop Health to develop and refine Care Coordination Strategies.
Primary Care Physicians	PPS Partner (See RPU Partner List)	Clinical group to be coordinated and contracted with at a PPS and RPU level.
Disease Management Teams	PPS Partner (See RPU Partner List)	Clinical group to be coordinated and contracted with at a PPS and RPU level.
Nursing Homes	PPS Partner (See RPU Partner List)	Clinical group to be coordinated and contracted with at a PPS and RPU level.
Non-Clinical CBOs	PPS Partner (See RPU Partner List)	Groups that may be engaged to help support DSRIP projects, such as support groups, charities, religious organizations, transportation services, housing services, etc.
External Stakeholders		
Managed Care Organizations (MCOs)	Key Stakeholder	Responsible for supporting patient health programs impacted by DSRIP.
Overlapping PPS - Finger Lakes PPS (Deb Blanchard, Janet King)	Adjacent or Overlapping PPSs with shared/similar patient populations	Responsible for coordination/customization of Population Health management approaches and the development of multi-PPS communication channels.
Overlapping PPS - Leatherstocking Collaborative Health Partners (Sue Van der Sommen)	Adjacent or Overlapping PPSs with shared/similar patient populations	Responsible for coordination/customization of Population Health management approaches and the development of multi-PPS communication channels.
Overlapping PPS - Central New York Care Collaborative (Kristen Heath)	Adjacent or Overlapping PPSs with shared/similar patient populations	Responsible for coordination/customization of Population Health management approaches and the development of multi-PPS communication channels.

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

✓ IPQR Module 8.7 - IT Expectations

Instructions :

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

The Population Health Management IT capabilities of the PPS are highlighted by a core team of trained professionals in the Salient system. Each of these five PPS Salient trained members has received Salient sponsored training and convene on a regular basis to determine baseline information and develop Salient specific skills which will be essential to future Population Health Management development and functionality. Additionally these members are from multiple PPS organizations and from a variety of backgrounds, which allows for diverse thought, perspective, and data gathering techniques to be leveraged. As the final IT needs assessment is completed by the IT consultants, additional IT developments will be identified and pursued. However, our initially expected IT resources for development include:

- (1) Identification available/existing PPS IT resources and subsequent plan developments to allow for the leveraging and utilization of these resources.
- (2) PPS Clinical Integration of IT Data - The pursuit of integrated clinical information across the continuum, to promote a providers ability to leverage population health data which is sufficiently integrated with other providers or CBOs to the extent that they can work together/collaboratively to affect patient outcomes.
- (3) PPS IT Systems and Processes - The development of data systems and processes communication tools which promotes data analysis which can be used to promote behavioral change and outcomes.'

✓ IPQR Module 8.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The success of this organizational workstream will be measured by progress towards achieving the following core Population Health Management milestones:

- (1) Development and implementation of the Internal as well a public facing dashboard to monitor DSRIP progress and outcomes.
- (2) Creation and implementation of a Population Health Roadmap with PCMH 2014 Level 3 certification strategy for all relevant providers.
- (3) A PPS wide bed reduction plan completed and endorsed by the Board of Directors.
- (4) Development and utilization of performance reports developed by the Population Health Management team across the applicable PPS members.

Section 09 – Clinical Integration

IPQR Module 9.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.
 Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Perform a clinical integration 'needs assessment'.	In Progress	Clinical integration 'needs assessment' document, signed off by the Clinical Quality Committee, including: -- Mapping the providers in the network and their requirements for clinical integration (including clinical providers, care management and other providers impacting on social determinants of health) -- Identifying key data points for shared access and the key interfaces that will have an impact on clinical integration -- Identify other potential mechanisms to be used for driving clinical integration	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	NO
Task Step 1 - Develop the design of a clinical integration needs assessment framework to identify the needs of the PPS, at the RPU level. These frameworks will outline a comprehensive vision inclusive of skillset, process, technology, and data requirements necessary for clinical integration as it pertains to each of the DSRIP target populations (including the technical requirements for data sharing and interoperability) and make considerations from the previously performed Community Needs Assessment (CNA).	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 2 - Assess existing care transition programs.	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. 		developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.					
Task Step 3 - Create a provider level map, incorporating the clinical integration framework with the community needs assessment and the DSRIP target populations using the Community Based Organization (CBO) Council and Provider Relations workers. This landscape per RPU will cover the entire continuum of the providers involved.	In Progress	In Progress - CBO Council meets regularly and provider relations staff have begun to be hired; map to be developed near-term.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4 - Analyze results of CNA in order to inform Clinical Integration Strategy.	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Milestone #2 Develop a Clinical Integration strategy.	In Progress	Clinical Integration Strategy, signed off by Clinical Quality Committee, including: -- Clinical and other info for sharing -- Data sharing systems and interoperability -- A specific Care Transitions Strategy, including: hospital admission and discharge coordination; and care transitions and coordination and communication among primary care, mental health and substance use providers -- Training for providers across settings (inc. ED, inpatient, outpatient) regarding clinical integration, tools and communication for coordination -- Training for operations staff on care coordination and communication tools	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	NO
Task Step 1 - For each RPU in the PPS, define what the target clinical integrated state should look like from a skillset, process, technology and	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
data perspective (including assessment and care protocols and specific attention to care transitions). At a core, the Outreach and Engagement needs for each RPU should be identified, as well as any functional barriers to achieving this from the perspective of both provider organizations and individual clinicians.		responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.					
Task Step 2 - Based on this target state and the gaps identified in the integrated care needs assessment, define and prioritize the steps required to close the gaps between current state and desired end state at both the care management and clinical quality level (to include any needs for people, process, technology, or data).	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 3 - Identify synergies between the RPU needs across the PPS. For example: the need for supportive IT infrastructure to enable data sharing. Leverage the results from this review to standardize work flows where possible.	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 4 - Conduct engagement exercise with practitioners and other stakeholders, focused on identifying the key clinical (and other) data that will be required to support effective information exchange at transitions of care with provider relations workers and RPU leads/managers operating as champions of this effort.	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 5 - Define incentives to encourage the behaviors and practices that underpin the target	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

state (e.g., multi-disciplinary care planning). These incentives might include financial / personnel support to providers looking to improve the efficiency of their operations in order to create more time for coordinated care practices; or the creation of shared back office service functions to improve the efficiency of provider organizations.		Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.					
Task Step 6 - Carry out consultation process on draft strategy with internal and external stakeholders to the transformation (including patients when appropriate).	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 7 - Finalize PPS strategy and roadmap document on clinical integration.	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
Task Step 8 - Develop and implement a process to formally track and monitor progress of the clinical integration strategy/ roadmap. Leverage PPS' regional structure to integrate (Individual providers inform RPU strategy, RPU strategy feeds upward to inform overall PPS approach).	In Progress	In Progress - Care Compass Network's Community Needs Assessment was completed by Research & Marketing Strategies at the onset of our DSRIP efforts. To date, the Clinical Governance Committee and IT Governance Committee are in the process of being seated. Skillsets, slates, and roles and responsibilities have been established. Care Compass Network has developed and has begun to utilize a Pre-Engagement Assessment. Therein, we have begun to identify particular providers, their services, IT components, and other pertinent organizational and clinical realities. This will aid in this completion of this task once the necessary committees have been formed.	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

✓ IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- 1) A leading major risk includes the patient consent process, which is a pivotal action item and potential bottleneck to the successful implementation of not just 2.a.i. but each of the 11 projects selected by our PPS. The successful receipt of patient consents will ultimately drive our PPS's ability to provide those essential Care Coordination services which have been selected as a result of the Community Needs Assessment to align PPS actions (e.g., projects, toolkits, interventions) with DSRIP goals. Without patient consents, we will have no patients for whom we can access data for purposes of care coordination. We will leverage multiple risk mitigation strategies to alleviate and reduce the overall risk exposure, however we understand it is ultimately each patients personal decision to choose whether or not to sign a consent. First, we will develop a PPS infrastructure which promotes engagement with patients to consent and share data. This will include the creation of Regional Performing Unit's (RPU's) which will allow for patient contacts to be made at a regional/local level. We will also leverage our knowledge from existing Health Homes within the PPS to develop our approach to implementing the 11 projects. For example, we have seen positive results with 'warm handoffs' with patients, which we've identified can be executed at a PPS level through our Navigators and Project 11 (2.d.i.) In addition, patients will be engaged through the Care Coordinators using existing services, new projects implemented as a result of DSRIP, and a Performance Management Team which will oversee work metrics at the RPU level.
- 2) A second major risk includes overall Provider Readiness & Awareness. Successful engagement of the providers is required for the success of DSRIP. To mitigate the provider readiness and awareness, we will place Provider Relations professionals within each RPU, assigned to build and manage the physician relations. Key actions will include providing education to providers regarding DSRIP goals and what potential impacts may be, overviewing benefits of leveraging the PPS for care coordination purposes (e.g., expected reduced 'no shows'), as well as monetary inputs for contracted services such as outreach and engagement. We also have developed an equitable governance structure which promotes transparency and allows for physician leaders from throughout the PPS to provide guidance and strategies for PPS provider readiness & awareness plan developments and to also serve as regional provider champions to promote DSRIP related activities.
- 3) A third major risk is the successful implementation of the IT connectivity strategy. Our PPS includes five health systems, a federally qualified health center, and multiple physician practices and community based organizations that span a nine county region. There exists a risk that some partners don't have any EMR connectivity while many others have not yet developed mature EMR practices which would allow for seamless integration with PPS needs. Failure to not connect providers to the network will seriously impede the PPS' ability to leverage required data to make patient related decisions. The integration and leveraging of existing platforms, complimented by upgrading existing systems and integration of systems throughout the network (as appropriate) is our primary risk mitigation strategy. This will be achieved by identifying the different stages of readiness for each partner and develop customized plans to successfully bring them into the network. The upgrading of existing systems and integration of systems throughout the network will greatly facilitate the risk mitigation efforts. Lastly, initial and ongoing education requirements will be determined, for which training will be made available to responsible persons.

Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

✓ IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

We have identified three leading major dependencies on other workstreams, including:

- 1) IT Systems and Processes - The core aspect of clinical integration will be reliant on the PPSs ability to create standardized platforms that allow for relational information to be shared when needed/appropriate centrally to the PPS for clinical integration related purposes.
- 2) Engagement of Practitioners - A secondary core dependency will be whether the PPS practitioners opt to participate with the PPS or not. In addition to making tools, educational or professional services available we will also leverage an empathetic approach whereby our understanding of the providers and the market they serve to communicate the benefits of DSRIP. For example, as a result of participating with the PPS the providers may experience less administrative burden and may also receive various benefits by further integrating with the PPS.
- 3) Governance - The overarching governance model is a prerequisite for how communications flow between the PPS and CBOs.

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 9.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Clinical Governance Committee	Dr. David Evelyn, CMO, Cayuga Medical Center, Care Compass Network Clinical Governance Committee Chair	Responsible for the development of PPS Clinical Quality Standards, RPU oversight, and reporting to the Board of Directors.
RPU Quality Committees	11 Total SubCommittees, Inclusive of more than 70 members.	Responsible for individual RPU clinical governance oversight, application of standards at the RPU level, reporting to the Clinical Governance Committee, and remediation strategies for Non-Performance.
Provider Relations	Julie Ramage, Provider Relations / Care Compass Network Jessica Grenier, Provider Relations / Care Compass Network	Responsible for managing physician relations, performing education, training, and coordinating agreements.
South RPU Lead	Robin Kinslow-Evans, Interim Executive Director (Care Compass Network)	Alignment of RPU needs at the Governance Level, including clinical integration.
North RPU Lead	Amy Gecan, Director System Integration and Operations (Cayuga Medical Center)	Alignment of RPU needs at the Governance Level, including clinical integration.
East RPU Lead	Greg Rittenhouse, VP, COO, Home Care (UHS)	Alignment of RPU needs at the Governance Level, including clinical integration.
West RPU Leads	Laura Manning (Guthrie) & Robin Stawasz (CareFirst)	Alignment of RPU needs at the Governance Level, including clinical integration.

Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 9.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
PPS Family Practitioners	Provider	Responsible for knowledge and integration of PPS Clinical Standards.
PPS Clinical Staff	Provider	Responsible for knowledge and integration of PPS Clinical Standards.
PPS Behavioral Health Providers	Provider	Responsible for knowledge and integration of PPS Clinical Standards along with the integration of PPS Clinical Standards and/or interventions.
PPS Project Management Office (Mark Ropiecki, Care Compass Network PMO Director)	PPS Reporting Agent	Responsible for monitoring and reporting results from clinical integration efforts.
Substance Abuse Professionals	Provider	Responsible for knowledge & integration of PPS Clinical Standards and/or interventions.
Providers of Services for People with Developmental Disabilities	Provider	Responsible for knowledge & integration of PPS Clinical Standards and/or interventions.
External Stakeholders		
Care Compass Network Patients	Key Stakeholder	Recipient of DSRIP care model.
Care Compass Network Family Members	Key Stakeholder	Recipient of DSRIP care model.
RMS Panel Participants	Medicaid Beneficiary Representation with recurring target audience of 400 beneficiaries	Recipients of DSRIP care model.
RHIOs - HealthLinkNY (Christina Galanis)	Vendor of information services	Participation in IT structure and sustainability
RHIOs - HealtheConnections (Robert Hack)	Vendor of information services	Participation in IT structure and sustainability
RHIOs - Rochester (Ted Kremer)	Vendor of information services	Participation in IT structure and sustainability

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 9.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Below we have identified three of the primary IT developments that will promote the Clinical Integration Workstream's ability to achieve DSRIP goals, including:

- (1) The early performance of a detailed IT Needs Assessment which will provide PPS-wide CBO and provider baseline IT information, among other things. The IT Needs Assessment will serve as an input to the development of the Connectivity Roadmap and for who to integrate CBOs and providers over the next five years.
- (2) Availability and/or development of relevant information from across the PPS CBO and Provider members. The ability for accurate data to be populated to common fields at the PPS level from across a range of stakeholders will be critical to the maturation of the Clinical Integration Workstream. As needed, reminders may need to be provided to promote consistent use of EMR fields or training made available to overview how to utilize new or upgraded systems.
- (3) Buy in from "downstream providers" to participate with our PPS/DSRIP. Participation will be promoted through various educational and outreach efforts coordinated through the CBO Council and executed by the RPU Provider Relations professionals.

IPQR Module 9.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting to measure the success of the Clinical Integration Workstream in the STRIPPS will be measured against several factors and milestones including:

- (1) Utilization of Provider Surveys - Provider Surveys will be performed at the direction of the CBO Council and executed through the dedicated RPU leads in accordance with timeframes and frequencies as determined by the CBO Council.
- (2) Patient Surveys - The PPS has engaged the vendor RMS to develop panel surveys to allow for adoption/consideration of patient and community input to the DSRIP plans. Patient Surveys, as part of the RMS panel population, are ongoing and can be modified as needed based on the needs and requests of the PPS. The PPS relationship with RMS is currently scheduled to continue through the end of the DSRIP five year program.
- (3) The successful development of the Clinical Integration Needs Assessment.
- (4) The successful development of Clinical Integration Strategy, as approved by the Clinical Governance Committee.

IPQR Module 9.9 - IA Monitoring:

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Instructions :

Roles and Responsibilities: The IA recommends getting vacant positions filled ASAP to minimize project risk.

Stakeholders: IA recommends identifying specific people to participate from external stakeholders.

New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Section 10 – General Project Reporting

IPQR Module 10.1 - Overall approach to implementation

Instructions :

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

Our PPS approach is to push down the functionality of the PPS to the Regional Performing Unit (RPU) level. Multiple leaders will be assigned to each RPU to promote consistency and effectiveness of project implementation, including an RPU Project Manager, an RPU Provider Relations Professional, Behavioral Health, and Disease Management professionals. In addition, we will have PPS staff such as the PPS Communications Coordinator, PPS Workforce Transition Lead, and PPS Project Management Coordinator to oversee application and consistency of projects at a cross-RPU basis. The approach for project specific implementation is based around five core modalities, as follows:

A) Engagement, communication, and education of providers and patients is considered to be the area of highest priority for project implementation focus, as all other project components could fail if not addressed sufficiently. Care Compass Network (CCN) will implement a Provider Relations functionality to ensure that communication, engagement, and education is streamlined across all projects and providers throughout the PPS network. STRIPPS will host a public website to ensure that the community also has the opportunity to participate, stay abreast of network changes, and have PPS related information readily available. As the CCN network evolves into an IDS, our CBO Engagement Council will help develop education on how individual CBO performance relates to overall PPS outcomes, define what support CBO's can receive from the PPS (e.g., in relation to their role as a participating provider), and filter and facilitate CBO communications throughout the PPS. Further, patients will be engaged and educated through projects 2di and 2ci, where a team of outreach workers and community health advocates will ensure that the maximum number of beneficiaries are engaged and connected to network resources.

B) Development of standardized treatment protocols and interventions across the PPS. Our approach will include pursuit of provider buy-in, applying resources to change existing work flows within the practice setting, a dedicated Care Coordination Team, and participation from a diverse group of providers in developing and championing the protocols for each project.

1) Utilize the Clinical Governance Committee to oversee the development of clinical protocols, relying on the RPU infrastructure (e.g., RPU Clinical Quality Committee, Provider Relations professionals, Outreach Coordinators, RPU Project Manager, etc.) to communication and deploy the tools as appropriate.

2) Implement Care Coordination efforts at the local RPU level to promote the successful deployment of protocols and interventions, following guidelines adopted by the Clinical Governance Committee.

3) Incorporate standardization of care needs into the IT strategy and vision, to ensure that the data elements needed to track progress, results, and reporting requirements exist at a PPS and RPU level. As needed, this model will be adapted based on the needs of the RPU (e.g., PPS overlap areas, patient service areas, etc.).

C) Leverage existing infrastructure and resources.

1) Identify, track and coordinate existing efforts for care coordination / care management and population health management with the 5 hospital systems and the 2 Medicaid Health Homes within the STRIPPS.

2) Build on the existing framework of clinical integration such as with Tompkins County through the Cayuga Area Physicians group ("CAP" - a Physician Hospital Organization) at the local RPU level.

3) Leverage the PPS resources such as the Rural Health Networks and other CBO's within STRIPPS to augment patient outreach and engagement for projects (in this example: 2ci and 2di).

New York State Department Of Health
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

- D) Development of a coordinated IT strategy and vision.
- E) The delegated leadership model that places project execution tasks at local RPUs.

IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

Instructions :

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

Our approach is to push down functioning of PPS to the lowest RPU level. (Add structure of PMO that is RPU specific) Potential to contract with FLPPS to manage the implementation of the 7 overlapping projects in Chemung and Steuben counties, as FLPPS controls the majority of outpatient providers in those counties and has the majority of covered lives. (Forming a collaboration committee to address the overlap with FLPPS and other bordering PPS's).

- 1) The cross over functionality is in PCMH accreditation for participating PCP's (3ai, 2ai, 3bi, 3gi);
- 2) IT committee will be coordinating efforts to implement EHR's, connecting providers to the RHIO's and ensuring that safety net providers meet Meaningful Use requirements by the end of DY3; Ensure everyone's efforts are coordinated and prioritizing those providers who are critical.
- 3) Outreach and navigation coordination for projects 2ci and 2di;
- 4) Communication Assess current state and identify a plan to get providers up to PCMH certification) need to mention workforce

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 10.3 - Project Roles and Responsibilities

Instructions :

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Project Management Office (PMO)	Mark Ropiecki, Care Compass Network Project Management Director	The PMO will be responsible for consolidating results from the RPU quarterly reports and delivering results to the DOH. The PMO will be responsible for oversight and management of the Project Manager leads at each RPU, addressing issues/risks as raised or identified by the RPU leadership teams. Further, the PMO will be responsible for identifying, prioritizing, and driving DSRIP efforts at the PPS level as well as at the RPU level. The PMO will monitor the implementation of cross-PPS organizational development initiatives (e.g., cross-over counties), such as IT infrastructure development and workforce transformation. The PMO will serve as a governance link between the RPU leadership teams and the PPS governance structure including the Board of Directors and the associated Committees (IT & Data Governance, Financial Governance, Clinical Governance, and Audit & Compliance Committees).
RPU Clinical Quality Committee	Dr. David Evelyn, Chair, Clinical Governance Committee (expected)	The RPU Quality Committees will ensure PPS Clinical Quality Standards, approaches, and methodologies, established by the PPS Clinical Governance Committee are implemented, monitored, and are effectively driving improvements in clinical outcomes and improved clinical integration. RPU Clinical Quality Committees will escalate any major quality issues / risks to the PPS Clinical Governance Committee. FCQC will ensure any overlap between project-specific clinical quality committees is managed (for example, where there is considerable overlap between two of our projects, we may consider merging the two clinical quality committees). The RPU Quality Committees will oversee and report on the performance metrics specific to their assigned RPU. The RPU Quality Committee will also ensure the associated RPU network providers have received adequate education and awareness regarding DSRIP goals, clinical requirements, and when necessary implementation

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Regional Performance Unit (RPU) Performance Management	Multiple	<p>plans/broader PPS agendas.</p> <p>Responsible for stratification of population health data to determine the patient profiles, categorization, and strategy for patient outreach and engagement approach by RPU. The RPU Performance Management team will also work closely with the PMO to monitor progress against DSRIP requirements, milestones, and associated vision/strategy plans. Will also work to perform data analysis on results each DSRIP quarter and determine if approaches are adequately achieving DSRIP goals or if approaches need to be modified based on results of analysis. These efforts can help to either align standard approaches across each RPU and when necessary customize approaches based on the specific needs of a particular RPU.</p>
Regional Performance Unit (RPU) Leadership	<p>RPU Leads (</p> <ul style="list-style-type: none"> * Amy Gecan (Cayuga Medical Ctr)- North RPU * Greg Rittenhouse (UHS) - East RPU * Robin Kinslow-Evans (UHS) - South RPU * Robin Stawaz (Care First) - West RPU 	<p>RPU Performance Leadership teams will include member(s) of the PMO, including at minimum one Lead Project Manager per RPU, the lead RPU Provider Relations professional, RPU specific Disease Management and Behavioral Health professionals, the RPU Outreach Coordinator, as well as PPS positions which will support multiple RPU's, such as the Workforce Transition Leader, IT Coordinator, PMO Coordinator, and Communications Coordinator. Together, these members will communicate RPU needs to the associated committee/council (e.g., CBO Council, Coordinating Council, Finance Committee, etc.) and drive implementation efforts as related to their functions. The RPU Leadership team members will work closely with CBO members and PPS support teams (e.g., IT, etc.) to oversee the implementation of the phased DSRIP plans for progress, identification and remediation of issues, and report development for periodic PPS meetings as well as quarterly DOH submissions.</p>
Project Leads	Multiple	<p>PPS Project Leads, along with their team, are members of the Coordinating Council and serve as the technical leaders for individual DSRIP projects and organizational sections. The Project Leads provide insight as to the development of integration, staffing, obtainment of consulting services, and otherwise to drive the planning, development, and execution of DSRIP related projects. This includes bringing the right people to the table, including identification of technical leaders from across the PPS, interviewing PPS candidates, or generating Requests for service Proposals for PPS services to be achieved through hired vendors/consultants. The Project Leads are also responsible for understanding the</p>

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects

Instructions :

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Finance Governance Committee	Determine funds flow; Monitor financial impact	Responsible for identifying flow of funds to providers based on project operating costs and monitoring the impact of the DSRIP projects.
Board of Directors	Overall PPS Guidance	Responsible for monthly Board Meetings and approval of key documents (Bylaws, policies, plans).
Clinical Governance Committee	Develops and manages PPS-wide clinical standards	Responsible for development of PPS Clinical Standards and monitoring of the quality of Clinical Standards Application.
Regional Performing Units (RPU)	Primary Operating Unit of the PPS	Responsible for reporting to the Clinical Governance Committee and identifying local RPU needs as related to DSRIP timelines (e.g., PPS overlap, regional clinical needs, etc.).
Workforce Team	Develops and manages the delivery of the workforce transformation strategy for each of the PPS RPUs.	Responsible for consolidating and managing the (re)training, redeployment, and new hire needs at the RPU level, preparing quarterly reports of workforce transformation numbers for the Project Management Office (PMO), and the alignment of the overall Workforce program to identify staffing needs, reassigning existing staff, and training.
IT & Data Governance Committee	Manages the overall PPS IT needs, as well as the needs of each RPU.	The IT & Data Gov. Com. will be responsible for managing the various PPS-wide IT & data transformation initiatives. The IT & Data Gov. Com will include member(s) of the PMO in appropriate working sub-committees, and seat the Director of Project Management as a non-voting Committee member to ensure IT related initiatives are appropriately integrated and communicated throughout the overall PPS implementation approach.
Provider Relations Team	Ensures professional groups are engaged (e.g., aware, educated, contracted) with the RPU/PPS needs.	Alongside the local RPU Clinical Quality Committees, the Provider Relations Professionals will be responsible for working closely with RPU identified CBOs/groups (e.g. Pediatrician community of practice, Community health worker community of practice etc.), as well as the CBO Council to develop and implement plans to promote provider/ CBO engagement.
Compliance and Audit Committee	Ensures PPS compliance on all applicable fronts (e.g., state,	Responsible for developing a PPS Compliance Plan, implementing

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
	federal, RPU, PPS, Board, etc.).	the PPS Compliance Plan, and reviewing PPS's conduct in terms of adherence to Compliance Plan and DSRIP guidelines, laws, and associated regulations.
CBO Engagement Council	Develops the PPS approach for relationship development with RPU CBOs.	Responsible for the development of provider outreach, education, and communication program, select provider contracting terms, and the allocation of providers/CBOs within responsible RPUs.
Coordinating Council	Coordinates, Plans, and Oversees the Project Plan Development and Allocation at the RPUs.	Responsible for leading each of the 11 PPS projects and domains/organizational sections. The Coordinating Council is initially responsible for the development of implementation plans and speed & scale documents and will later transition into oversight/advisors for each plan to connect the correct professionals to the development of the RPUs as DSRIP plans are executed and help promote overall IDS development.
Cultural Competence Committee	Manages the cultural competency and health literacy transformation process.	Responsible for developing, distributing, and operating the cultural competency educational program as well as the health literacy patient program.
External Stakeholders		
RMS Patient Panel	Patient / User group	We have engaged a patient panel with RMS to engage a patient population on a scheduled (e.g., monthly) basis to obtain key input, which will vary based on the needs of the PPS over time as the DSRIP model matures.
PPS Labor Unions (CSEA, NYSNA, SEIU and PEF)	Labor representation	We have held seats and membership to key councils and committees for Union representation to allow for Union participation. We will continue to engage with them on the specific changes to the workforce or otherwise as the DSRIP model matures.
Finger lakes PPS	Overlapping PPS	Some projects as related to the West RPU will have a direct impact to the Finger lakes PPS. Efforts to communicate and coordinate overlapping plans are being pursued for mutual agreement and approach.
Bassett PPS	Overlapping PPS	Some projects as related to the East RPU will have a direct impact to the Bassett PPS. Efforts to communicate and coordinate overlapping plans are being pursued for mutual agreement and approach.
Central NY PPS	Overlapping PPS	Some projects as related to multiple RPUs may have a direct impact to the Central NY PPS. Efforts to communicate and coordinate overlapping plans are being pursued for mutual agreement and approach.
NYS Office of Mental Health (OMH)	State Agency	Issues guidance, protocols for NYS (by default the PPS). Members

Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management

☑ IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Three major risks have been identified by a PPS representative group. These major risks, as well as the associated mitigation plans are listed as follows:

- 1) A leading major risk includes the patient consent process, which is a pivotal action item and potential bottleneck to the successful implementation of not just 2.a.i. but each of the 11 projects selected by our PPS. The successful receipt of patient consents will ultimately drive our PPS's ability to provide those essential Care Coordination services which have been selected as a result of the Community Needs Assessment to align PPS actions (e.g., projects, toolkits, interventions) with DSRIP goals. Without patient consents, we will have no patients for whom we can access data for purposes of care coordination. We will leverage multiple risk mitigation strategies to alleviate and reduce the overall risk exposure. First, we will develop a PPS infrastructure which promotes engagement with patients to consent and share data. This will include the creation of Regional Performing Units (RPU's) which will allow for patient contacts to be made at a regional/local level. We will also leverage our knowledge from existing Health Homes within the PPS to develop our approach to implementing the 11 projects. For example, we have seen positive results with 'warm handoffs' with patients. In addition, patients will be engaged through the Care Coordinators using existing services, new projects implemented as a result of DSRIP, and a Performance Management Team which will oversee work metrics at the RPU level.
- 2) A second major risk includes overall Provider Readiness & Awareness. To mitigate the provider readiness and awareness, we will place Provider Relations professionals within each RPU, assigned to build and manage the physician relations. Key actions will include providing education to providers regarding DSRIP goals and what potential impacts may be, overviewing benefits of leveraging the PPS for care coordination purposes (e.g., expected reduced 'no shows'), as well as monetary inputs for contracted services such as outreach and engagement. We also have developed an equitable governance structure which promotes transparency and allows for physician leaders from throughout the PPS to provide guidance and strategies for PPS provider readiness & awareness plan developments and to also serve as regional provider champions to promote DSRIP related activities.
- 3) A third major risk is the successful implementation of the IT connectivity strategy. Our PPS includes a diverse spectrum of organizations that span a nine county region. There exists a risk that some partners don't have any EMR connectivity while many others have not yet developed mature EMR practices which would allow for seamless integration with PPS needs. Failure to connect providers to the network will seriously impede the PPS' ability to leverage required data to make patient related decisions. The integration and leveraging of existing platforms, complimented by upgrading existing systems and integration of systems throughout the network (as appropriate) is our primary risk mitigation strategy. This will be achieved by identifying the different stages of readiness for each partner and develop customized plans to successfully bring them into the network. Towards this effort we have completed a PPS CRFP application which includes upgrading of the PPS wide IT infrastructure, including RHIO connectivity, Data Analytics & Performance management functions, EMR for Safety Net Providers, Care Management/ Population Health Management, Telehealth/Telemonitoring needs, and Web-based surveys. Lastly, initial and ongoing education

IPQR Module 2.a.i.2 - Project Implementation Speed

Instructions :

Please specify how many providers will have met all of the project requirements (as set out in the Project Plan Application) per quarter. These cumulative numbers must align with commitments in the PPS Application. Note: data entered into this table must represent CUMULATIVE figures.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 2.a.i.3 - Prescribed Milestones

Instructions :

Please enter baseline target dates and work breakdown tasks with target dates for each of the milestones below.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	Project	N/A	In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 1a. - Develop a Participating Organization (e.g., provider) Network List for the PPS to outline the Partner Organization (e.g., providers, Community Based Organization (CBO), social service organizations, etc.) demographics for the PPS Integrated Delivery System.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Step 1b. - Establish operating units for the PPS called Regional Performing Units (RPU) within which the PPS Participating Organizations from across the nine county region can be identified and engaged at a localized level.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 1c. Conduct a provider readiness survey and awareness campaign to position the PPS to contract with participating organizations and engage with safety net providers	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 1d. Initiate contracts with safety net providers.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 1e. Establish Participation Agreements for Participating Organizations within each RPU which contract PPS services required to achieve DSRIP goals, such as patient outreach and patient engagement. Manage ongoing process as needed.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 1f. - When appropriate, engage payers at a PPS leadership level roundtable, to be completed at minimum annually and supported by meeting	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
minutes.							
Task Step 1g. - The Provider Relations professionals will perform periodic (e.g., quarterly) assessments of PPS Partner Organizations to confirm relationships exist, are active, and overall participation and results are aligned with the contractual terms or overall needs of the PPS (e.g., updated CNA assessment, etc.) As a result of the quarterly reviews, any changes to the Provider Network List will be made and communicated, and the need for priority status may assigned to further engage PPS Participating Organizations where needed.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	Project	N/A	In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task PPS produces a list of participating HHs and ACOs.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Participating HHs and ACOs demonstrate real service integration which incorporates a population management strategy towards evolving into an IDS.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Regularly scheduled formal meetings are held to develop collaborative care practices and integrated service delivery.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Step 2d. - Identify PPS HH and ACOs and create a Network Provider List. Integrate the Health Home representatives to recurring Stakeholder/ PAC meetings to ensure appropriate Health Home representation exists.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Step 2e. - Review existing Health Home systems and capabilities, particularly the Health Home system architecture and how information is disseminated, and integrate leading practices/service models to the PPS Operating Model at the RPU level. On an ongoing basis, the RPU Project Managers will monitor results and progress to centrally communicate how to further refine the PPS approach or customize the service model at the RPU level.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Step 2f. To the extent possible, identify and leverage Health Home-specific IT elements including case management information sharing, care coordination templates, connectivity/relation to the RHIO, etc.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Step 2g. - To integrate the PPS and further promote the development of the integrated delivery system, assign an RPU Lead who will communicate and reinforce updates to and from the Clinical Governance Committee.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task Step 2h. - Note: There are currently no ACO's in place, nor in development, within the STRIPPS Partnering Organizations. This project requirement will be periodically reviewed for ongoing ACO pertinence.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	Project	N/A	In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Clinically Interoperable System is in place for all participating providers.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS has protocols in place for care coordination and has identified process flow changes required to successfully implement IDS.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS has process for tracking care outside of hospitals to ensure that all critical follow-up services and appointment reminders are followed.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS trains staff on IDS protocols and processes.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 3f. - Development of a Standard PPS Care Coordination Plan which will be informed by the Care Coordination needs assessment and developed based on guidance provided by the RPU Quality Committee as well as the Clinical Governance Committee. Upon finalization, the Standard PPS Care Coordination Plan will be shared appropriately with the Partnering Organizations and made available on the Care Compass Network SharePoint site. To promote consistency of IDS protocols, education or tutorials may also be provided.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 3g. - Implement a process to track performance within the Care Coordination Plan through periodic reporting, including services provided outside of hospitals in order to assist with service integration. RPU adherence to standards established by the Clinical Governance Committee, including Care Coordination Plans, will be monitored by the RPU Quality Committee.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	Project	N/A	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Primary Care Physicians	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Non-PCP Practitioners	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Hospitals	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Behavioral Health	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Skilled Nursing Facilities / Nursing Homes	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS uses alerts and secure messaging functionality.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Step 4g. - Perform a current state assessment of safety net connectivity to region-specific RHIOs. Expand on the efforts in project 2.a.i. Project Requirement 1a. development of a Participating Organization (e.g., provider) Network List for the PPS which outlines the Partner Organization (e.g., providers, Community Based Organization (CBO), payers, social service organizations, etc.) demographics for the PPS Integrated Delivery System by including EHR system and connectivity demographic overviews for the safety net providers in the PPS.	Project		In Progress	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task Step 4h. - Maintain ongoing communication with RHIO to identify potential capabilities relevant to PPS activities.	Project		In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task Step 4i. - Upon provider completion of project 2.a.i. Project Requirement 5, which includes leveraging a consulting service to assist with a PCMH & Meaningful Use readiness assessment, creation & implementation of the associated implementation plan(s), provide assistance with the application process, and formally document/retain certification related documentation; the PPS IT Coordinator will review and monitor the IT environment to confirm EHR system capabilities are in place are used and functioning as designed ensuring access to real-time data to improve interoperability. Periodic reviews will be performed and include evidence of alerts/secure messaging, availability of training materials, training(s) completed, and percentage of staff trained. The status of these reviews will be reported at minimally quarterly to the IT & Data Governance Committee and/or Clinical Governance Committee as appropriate.	Project		In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task Step 4j. - The PPS will support partners (e.g., CBOs, providers, etc.) in actively	Project		In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
sharing by promoting infrastructure build and/or other requirements as identified by the current state assessment above. As appropriate, partners will be contracted with the PPS for achievement of specific tasks, which will be monitored for completion as reported to the RPU Clinical Quality Committees for review.							
Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Project	N/A	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	Provider	Safety Net Primary Care Physicians	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Step 5c. - In conjunction with project 2.a.i. Project Requirement 4, utilize the PPS IT and Data Governance team to identify Safety Net Providers preparation requirements for activation with the RHIO. When needed, utilize the PPS IT Coordinator to coordinate resources needed for Safety Net Provider(s) activation with the appropriate RHIO.	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Task Step 5d. - Using the readiness assessment (See 2.a.i Milestone 1, Step 1c), determine PPS providers' status on achievement of PCMH and Meaningful Use requirements.	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Task Step 5e. - Identify and contract with a Consulting service to assist with a PCMH readiness assessment and implementation and collaborate with adjacent PPS' (as appropriate).	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Task Step 5f. - Leverage the PCMH Readiness Assessment as a baseline to create a Meaningful Use and PCMH implementation plan for PPS providers. The plan will include a current state assessment for each safety net provider and detail key milestones which will allow for a phased implementation approach towards PCMH and Meaningful Use DY3, Q4 requirements.	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Task Step 5g. - The RPU Provider Relations professionals will assist safety net providers with the associated application(s) throughout each phase of the PCMH Level 3 implementation plan.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task Step 5h. - Obtain and retain certification documentation substantiating safety net providers within the PPS have achieved Meaningful Use and PCMH Level 3 standards.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Project	N/A	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Step 6b. - Identify those person(s) responsible for review of population health data and provide requisite HIPAA, PHI, and regulatory training to ensure overall PPS compliance. As applicable, obtain DEAA, BAA, or other required arrangement.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 6c. - Identify data elements specified in DSRIP requirements.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 6d. - Initiate population health management with available patient data, such as Salient and participating provider clinical systems.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 6e. - Identify available patient health registries and population health software.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 6f. - Develop a population health stratification approach to confirm EHR completeness and validity.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 6g. - Develop a population health stratification approach to identify patient groups for targeting.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 6h. - Develop a defined population health registry for individual patients for enhanced care management and each RPU.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Step 6i. - Develop a dictionary of registry elements to ensure ease of implementation and standardization of use PPS-wide.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Step 6j. - Develop a monitoring process which allows for the RPU Leads to actively track patients for metrics such as status (engaged/not engaged) and	Project		In Progress	04/01/2015	09/30/2017	09/30/2017	DY3 Q2

system in order to survey and educate current landscape of existing VBP arrangements amongst PPS providers in PPS. (Step corresponds with Financial Sustainability Implementation Plan)							
Task Step 9d. - Create education and communication plan, including the myriad components intrinsic to VBP, particularly the different strata of risk. (Step corresponds with Financial Sustainability Implementation Plan)	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Step 9e. - Secure educational resources for outreach endeavors. (Step corresponds with Financial Sustainability Implementation Plan)	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task Step 9f. - Carry out education and outreach endeavors for PPS providers ensuring a thorough understanding of the various VBP models and methods. Coordinate regional payor forums with providers in the region. (Step corresponds with Financial Sustainability Implementation Plan)	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 9g. - Create a readiness self-assessment survey (High, Moderate, Low) for individual providers within the PPS to assess the varying levels of evolution as movement towards fully implemented VBP occurs. The self-assessment survey will include the following (per the state): Degree of experience operating in VBP models and preferred compensation modalities; Degree of sophistication in ability to negotiate plan contracts, monitor and report on service types; Estimated volume of Medicaid Managed Care spending received by the network. Estimate of total cost of care for specific services (modeled along bundles Status of requisite IT linkages for network funds flow monitoring. Provider ability (financial stability) and willingness to take downside risk in a risk sharing arrangement. Level of assistance needed to negotiate plan options with Medicaid Managed Care (High, Moderate, Low). (Step corresponds with Financial Sustainability Implementation Plan)	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 9h. - Distribute the readiness self-assessment survey to all providers to establish accurate baseline. (Step corresponds with Financial Sustainability Implementation Plan)	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 9i. - Collect, assemble, and analyze readiness self-assessment survey results. (Step corresponds with Financial Sustainability Implementation Plan)	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 9j - Prepare Initial VBP Baseline Assessment based on readiness self-assessment survey results and dialogue from providers. (Step corresponds	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
based system which focus' on an RVU and quality base. As noted in Step 1 above, Partnering Organizations will be contracted at the RPU level through Provider Relations professionals.							
Task Step 10f. - For physicians identified as "Independent Providers" the PPS will pursue value based contracts with their associated Medicaid MCO which includes the elements noted in Step 10b. section of the 2.a.i Implementation Plan.	Project		In Progress	04/01/2015	06/30/2019	06/30/2019	DY5 Q1
Task Step 10g. - The Provider Relations professionals, assigned at each RPU, will monitor contract compliance and pertinence of contractual terms to meet DSRIP goals as DSRIP implementation matures and develops. This may be achieved through leveraging the integrated delivery system model, including Population Health professionals as well as the PPS PMO. Results will be reviewed through the PPS PMO performance management process.	Project		In Progress	04/01/2015	06/30/2019	06/30/2019	DY5 Q1
Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.	Project	N/A	In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Community health workers and community-based organizations utilized in IDS for outreach and navigation activities.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 11b. - As noted above in Project 2.a.i Step 1f. and in line with the plan for project 2.d.i., the targeted patient population will be identified and consents subsequently obtained through the use of a robust contracted patient activation outreach worker team, as well as close collaboration with the community-based health navigation team (refer to Project 2.c.i.). These combined efforts, along with the training efforts that will occur through the patient activation training team for safety-net providers in the network, will ensure that the maximum number of individuals complete the PAM. Additionally, the PPS plans to embed the PAM survey in all safety-net practices at a minimum and will implement a process whereby all patients without insurance and all patients with Medicaid coverage will be given the PAM if it is determined they have not yet completed the survey. The PPS plans to leverage the RPU structure to achieve this efficiently and effectively (see attached for RPU structure).	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 11c. - A comprehensive incentive plan will be developed, which will compensate providers for their participation and will assign a value to each	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

PAM survey that is collected. Additionally, the patient activation training team will work with the provider relations component of the PPS to inform providers about the overall DSRIP initiative and PPS objectives, in addition to patient activation and the PAM.							
Task Step 11d. - A broad range of responsible individuals will receive training in the PAM, and the efforts will initially start out in the 9 hospitals within the PPS network, so that lessons learned can be applied as the project is expanded to other providers. To this effect, Project 2.a.i will work closely with Project 2.d.i. as well as with the Workforce Department group to ensure that the right skillset is matched up with each of the two position types.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.										
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.										
Task Step 1a. - Develop a Participating Organization (e.g., provider) Network List for the PPS to outline the Partner Organization (e.g., providers, Community Based Organization (CBO), social service organizations, etc.) demographics for the PPS Integrated Delivery System.										
Task Step 1b. - Establish operating units for the PPS called Regional Performing Units (RPU) within which the PPS Participating Organizations from across the nine county region can be identified and engaged at a localized level.										
Task Step 1c. Conduct a provider readiness survey and awareness campaign to position the PPS to contract with participating organizations and engage with safety net providers										
Task

Step 1d. Initiate contracts with safety net providers.										
Task Step 1e. Establish Participation Agreements for Participating Organizations within each RPU which contract PPS services required to achieve DSRIP goals, such as patient outreach and patient engagement. Manage ongoing process as needed.										
Task Step 1f. - When appropriate, engage payers at a PPS leadership level roundtable, to be completed at minimum annually and supported by meeting minutes.										
Task Step 1g. - The Provider Relations professionals will perform periodic (e.g., quarterly) assessments of PPS Partner Organizations to confirm relationships exist, are active, and overall participation and results are aligned with the contractual terms or overall needs of the PPS (e.g., updated CNA assessment, etc.) As a result of the quarterly reviews, any changes to the Provider Network List will be made and communicated, and the need for priority status may assigned to further engage PPS Participating Organizations where needed.										
Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.										
Task PPS produces a list of participating HHs and ACOs.										
Task Participating HHs and ACOs demonstrate real service integration which incorporates a population management strategy towards evolving into an IDS.										
Task Regularly scheduled formal meetings are held to develop collaborative care practices and integrated service delivery.										
Task Step 2d. - Identify PPS HH and ACOs and create a Network Provider List. Integrate the Health Home representatives to recurring Stakeholder/ PAC meetings to ensure appropriate Health Home representation exists.										
Task Step 2e. - Review existing Health Home systems and capabilities, particularly the Health Home system architecture and how information is disseminated, and integrate leading practices/service models to the PPS Operating Model at the RPU level. On an ongoing basis, the RPU Project Managers

will monitor results and progress to centrally communicate how to further refine the PPS approach or customize the service model at the RPU level.										
Task Step 2f. To the extent possible, identify and leverage Health Home-specific IT elements including case management information sharing, care coordination templates, connectivity/relation to the RHIO, etc.										
Task Step 2g. - To integrate the PPS and further promote the development of the integrated delivery system, assign an RPU Lead who will communicate and reinforce updates to and from the Clinical Governance Committee.										
Task Step 2h. - Note: There are currently no ACO's in place, nor in development, within the STRIPPS Partnering Organizations. This project requirement will be periodically reviewed for ongoing ACO pertinence.										
Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.										
Task Clinically Interoperable System is in place for all participating providers.										
Task PPS has protocols in place for care coordination and has identified process flow changes required to successfully implement IDS.										
Task PPS has process for tracking care outside of hospitals to ensure that all critical follow-up services and appointment reminders are followed.										
Task PPS trains staff on IDS protocols and processes.										
Task Step 3f. - Development of a Standard PPS Care Coordination Plan which will be informed by the Care Coordination needs assessment and developed based on guidance provided by the RPU Quality Committee as well as the Clinical Governance Committee. Upon finalization, the Standard PPS Care Coordination Plan will be shared appropriately with the Partnering Organizations and made available on the Care Compass Network SharePoint site. To promote consistency of IDS protocols, education or tutorials may also be provided.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task Step 4i. - Upon provider completion of project 2.a.i. Project Requirement 5, which includes leveraging a consulting service to assist with a PCMH & Meaningful Use readiness assessment, creation & implementation of the associated implementation plan(s), provide assistance with the application process, and formally document/retain certification related documentation; the PPS IT Coordinator will review and monitor the IT environment to confirm EHR system capabilities are in place are used and functioning as designed ensuring access to real-time data to improve interoperability. Periodic reviews will be performed and include evidence of alerts/secure messaging, availability of training materials, training(s) completed, and percentage of staff trained. The status of these reviews will be reported at minimally quarterly to the IT & Data Governance Committee and/or Clinical Governance Committee as appropriate.										
Task Step 4j. - The PPS will support partners (e.g., CBOs, providers, etc.) in actively sharing by promoting infrastructure build and/or other requirements as identified by the current state assessment above. As appropriate, partners will be contracted with the PPS for achievement of specific tasks, which will be monitored for completion as reported to the RPU Clinical Quality Committees for review.										
Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.										
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).										
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	0	0	0	0	0	0	0	0	0	0
Task Step 5c. - In conjunction with project 2.a.i. Project Requirement 4, utilize the PPS IT and Data Governance team to identify Safety Net Providers preparation requirements for activation with the RHIO. When needed, utilize the PPS IT Coordinator to coordinate resources needed for Safety Net Provider(s) activation with the appropriate RHIO.										
Task Step 5d. - Using the readiness assessment (See 2.a.i Milestone

1, Step 1c), determine PPS providers' status on achievement of PCMH and Meaningful Use requirements.										
Task Step 5e. - Identify and contract with a Consulting service to assist with a PCMH readiness assessment and implementation and collaborate with adjacent PPS' (as appropriate).										
Task Step 5f. - Leverage the PCMH Readiness Assessment as a baseline to create a Meaningful Use and PCMH implementation plan for PPS providers. The plan will include a current state assessment for each safety net provider and detail key milestones which will allow for a phased implementation approach towards PCMH and Meaningful Use DY3, Q4 requirements.										
Task Step 5g. - The RPU Provider Relations professionals will assist safety net providers with the associated application(s) throughout each phase of the PCMH Level 3 implementation plan.										
Task Step 5h. - Obtain and retain certification documentation substantiating safety net providers within the PPS have achieved Meaningful Use and PCMH Level 3 standards.										
Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.										
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										
Task Step 6b. - Identify those person(s) responsible for review of population health data and provide requisite HIPAA, PHI, and regulatory training to ensure overall PPS compliance. As applicable, obtain DEAA, BAA, or other required arrangement.										
Task Step 6c. - Identify data elements specified in DSRIP requirements.										
Task Step 6d. - Initiate population health management with available patient data, such as Salient and participating provider clinical systems.										
Task Step 6e. - Identify available patient health registries and

population health software.										
Task Step 6f. - Develop a population health stratification approach to confirm EHR completeness and validity.										
Task Step 6g. - Develop a population health stratification approach to identify patient groups for targeting.										
Task Step 6h. - Develop a defined population health registry for individual patients for enhanced care management and each RPU.										
Task Step 6i. - Develop a dictionary of registry elements to ensure ease of implementation and standardization of use PPS-wide.										
Task Step 6j. - Develop a monitoring process which allows for the RPU Leads to actively track patients for metrics such as status (engaged/not engaged) and performance against project milestones, to be included in reporting at the PPS level.										
Task Step 6k. - Perform periodic reviews of user access and system requirements to perform population health management.										
Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.										
Task Primary care capacity increases improved access for patients seeking services - particularly in high-need areas.										
Task All practices meet 2014 NCQA Level 3 PCMH and/or APCM standards.	0	0	0	0	0	0	0	0	75	151
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria.)										
Task Step 7d. - In conjunction with project 2.a.i. Project Requirement 4, utilize the PPS IT and Data Governance team to identify all participating PCPs for activation with the RHIO. When needed, utilize the PPS IT Coordinator to coordinate resources needed for Primary Care Providers (PCPs) activation with the

PPS providers in their move towards VBP.										
Task Step 8c. - Expand upon Baseline Assessment of VBP readiness creating a matrix of existing mechanisms both helping and hindering the implementation of the VBP model, including NYS VBP Roadmap, existing ACO and MCO models (as applicable), and other VBP models in the current marketplace.										
Task Step 8d. - Analyze matrix of existing mechanisms both helping and hindering the implementation of VBP at the provider level of our PPS in order to identify which providers are best equipped to lead the movement towards VBP based on their current level of VBP engagement.										
Task Step 8e. - Identify within the PPS providers who fall into one of three tiers: 1) Established - Providers currently utilizing VBP models 2) Enthusiastic and/or Equipped - Providers who are eager to pursue the movement towards VBP models and/or equipped to do so based on the helping/hindering matrix 3) Everyone else.										
Task Step 8f. - Coordinate regional payor forums with PPS providers.										
Task Step 8g. - Re-assess current landscape of VBP adoption throughout PPS by updating VBP Baseline Assessment, reviewing new information if available from the state and feedback from PPS Providers and MCOs regarding the payor forums as well as lessons learned from early adopters.										
Task Step 8h. - Perform Gap Analysis based on updated matrix of PPS landscape.										
Task Step 8i. - Coordinate additional regional payor forums with PPS providers based on Gap Analysis.										
Task Step 8j. - Collectively review the level of VBP engagement and continue to encourage open dialogue among the PPS providers regarding VBP models and adoption.										
Task

Step 8k. - Update, modify and finalize VBP Adoption Plan										
Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.										
Task PPS holds monthly meetings with Medicaid Managed Care plans to evaluate utilization trends and performance issues and ensure payment reforms are instituted.										
Task Step 9b. - Establish VBP committee comprised of members from PPS constituency with representation from all provider types. VBP Committee will seek to follow & leverage industry wide VBP Preparatory Strategies via HANYs. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9c. - Cultivate pathways between VBP Committee and the rest of the system in order to survey and educate current landscape of existing VBP arrangements amongst PPS providers in PPS. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9d. - Create education and communication plan, including the myriad components intrinsic to VBP, particularly the different strata of risk. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9e. - Secure educational resources for outreach endeavors. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9f. - Carry out education and outreach endeavors for PPS providers ensuring a thorough understanding of the various VBP models and methods. Coordinate regional payor forums with providers in the region. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9g. - Create a readiness self-assessment survey (High, Moderate, Low) for individual providers within the PPS to assess the varying levels of evolution as movement towards fully implemented VBP occurs. The self-assessment survey will include the following (per the state): Degree of experience operating in VBP models and preferred compensation modalities; Degree of sophistication in ability to negotiate plan contracts, monitor and report on service types; Estimated

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task Providers receive incentive-based compensation consistent with DSRIP goals and objectives.										
Task Step 10c. - Identify patient subgroups and populations and stratify by assigning risk values.										
Task Step 10d. - Conduct a provider analysis exercise to determine if the provider is better categorized as a "Large Organized Group Practice Provider" or an "Independent Provider."										
Task Step 10e. - Develop a contracting strategy which correlates DSRIP goals, timelines, patient risk stratification, and physician metrics and results with monetary incentive payments. As part of this process, a compensation model and implementation plan will be developed based on provider categorization. For "Large Organized Group Practice Providers" the PPS will integrate a value based system which focus' on an RVU and quality base. As noted in Step 1 above, Partnering Organizations will be contracted at the RPU level through Provider Relations professionals.										
Task Step 10f. - For physicians identified as "Independent Providers" the PPS will pursue value based contracts with their associated Medicaid MCO which includes the elements noted in Step 10b. section of the 2.a.i Implementation Plan.										
Task Step 10g. - The Provider Relations professionals, assigned at each RPU, will monitor contract compliance and pertinence of contractual terms to meet DSRIP goals as DSRIP implementation matures and develops. This may be achieved through leveraging the integrated delivery system model, including Population Health professionals as well as the PPS PMO. Results will be reviewed through the PPS PMO performance management process.										
Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.										
Task Community health workers and community-based organizations utilized in IDS for outreach and navigation activities.										
Task Step 11b. - As noted above in Project 2.a.i Step 1f. and in line

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
with the plan for project 2.d.i., the targeted patient population will be identified and consents subsequently obtained through the use of a robust contracted patient activation outreach worker team, as well as close collaboration with the community-based health navigation team (refer to Project 2.c.i.). These combined efforts, along with the training efforts that will occur through the patient activation training team for safety-net providers in the network, will ensure that the maximum number of individuals complete the PAM. Additionally, the PPS plans to embed the PAM survey in all safety-net practices at a minimum and will implement a process whereby all patients without insurance and all patients with Medicaid coverage will be given the PAM if it is determined they have not yet completed the survey. The PPS plans to leverage the RPU structure to achieve this efficiently and effectively (see attached for RPU structure).										
Task Step 11c. - A comprehensive incentive plan will be developed, which will compensate providers for their participation and will assign a value to each PAM survey that is collected. Additionally, the patient activation training team will work with the provider relations component of the PPS to inform providers about the overall DSRIP initiative and PPS objectives, in addition to patient activation and the PAM.										
Task Step 11d. - A broad range of responsible individuals will receive training in the PAM, and the efforts will initially start out in the 9 hospitals within the PPS network, so that lessons learned can be applied as the project is expanded to other providers. To this effect, Project 2.a.i will work closely with Project 2.d.i. as well as with the Workforce Department group to ensure that the right skillset is matched up with each of the two position types.										

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.										
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-

based providers.										
Task Step 1a. - Develop a Participating Organization (e.g., provider) Network List for the PPS to outline the Partner Organization (e.g., providers, Community Based Organization (CBO), social service organizations, etc.) demographics for the PPS Integrated Delivery System.										
Task Step 1b. - Establish operating units for the PPS called Regional Performing Units (RPU) within which the PPS Participating Organizations from across the nine county region can be identified and engaged at a localized level.										
Task Step 1c. Conduct a provider readiness survey and awareness campaign to position the PPS to contract with participating organizations and engage with safety net providers										
Task Step 1d. Initiate contracts with safety net providers.										
Task Step 1e. Establish Participation Agreements for Participating Organizations within each RPU which contract PPS services required to achieve DSRIP goals, such as patient outreach and patient engagement. Manage ongoing process as needed.										
Task Step 1f. - When appropriate, engage payers at a PPS leadership level roundtable, to be completed at minimum annually and supported by meeting minutes.										
Task Step 1g. - The Provider Relations professionals will perform periodic (e.g., quarterly) assessments of PPS Partner Organizations to confirm relationships exist, are active, and overall participation and results are aligned with the contractual terms or overall needs of the PPS (e.g., updated CNA assessment, etc.) As a result of the quarterly reviews, any changes to the Provider Network List will be made and communicated, and the need for priority status may assigned to further engage PPS Participating Organizations where needed.										
Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.										
Task PPS produces a list of participating HHs and ACOs.										
Task

Participating HHs and ACOs demonstrate real service integration which incorporates a population management strategy towards evolving into an IDS.										
Task Regularly scheduled formal meetings are held to develop collaborative care practices and integrated service delivery.										
Task Step 2d. - Identify PPS HH and ACOs and create a Network Provider List. Integrate the Health Home representatives to recurring Stakeholder/ PAC meetings to ensure appropriate Health Home representation exists.										
Task Step 2e. - Review existing Health Home systems and capabilities, particularly the Health Home system architecture and how information is disseminated, and integrate leading practices/service models to the PPS Operating Model at the RPU level. On an ongoing basis, the RPU Project Managers will monitor results and progress to centrally communicate how to further refine the PPS approach or customize the service model at the RPU level.										
Task Step 2f. To the extent possible, identify and leverage Health Home-specific IT elements including case management information sharing, care coordination templates, connectivity/relation to the RHIO, etc.										
Task Step 2g. - To integrate the PPS and further promote the development of the integrated delivery system, assign an RPU Lead who will communicate and reinforce updates to and from the Clinical Governance Committee.										
Task Step 2h. - Note: There are currently no ACO's in place, nor in development, within the STRIPPS Partnering Organizations. This project requirement will be periodically reviewed for ongoing ACO pertinence.										
Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.										
Task Clinically Interoperable System is in place for all participating providers.										
Task PPS has protocols in place for care coordination and has identified process flow changes required to successfully

implement IDS.										
Task PPS has process for tracking care outside of hospitals to ensure that all critical follow-up services and appointment reminders are followed.										
Task PPS trains staff on IDS protocols and processes.										
Task Step 3f. - Development of a Standard PPS Care Coordination Plan which will be informed by the Care Coordination needs assessment and developed based on guidance provided by the RPU Quality Committee as well as the Clinical Governance Committee. Upon finalization, the Standard PPS Care Coordination Plan will be shared appropriately with the Partnering Organizations and made available on the Care Compass Network SharePoint site. To promote consistency of IDS protocols, education or tutorials may also be provided.										
Task Step 3g. - Implement a process to track performance within the Care Coordination Plan through periodic reporting, including services provided outside of hospitals in order to assist with service integration. RPU adherence to standards established by the Clinical Governance Committee, including Care Coordination Plans, will be monitored by the RPU Quality Committee.										
Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.

Task PPS uses alerts and secure messaging functionality.										
Task Step 4g. - Perform a current state assessment of safety net connectivity to region-specific RHIOs. Expand on the efforts in project 2.a.i. Project Requirement 1a. development of a Participating Organization (e.g., provider) Network List for the PPS which outlines the Partner Organization (e.g., providers, Community Based Organization (CBO), payers, social service organizations, etc.) demographics for the PPS Integrated Delivery System by including EHR system and connectivity demographic overviews for the safety net providers in the PPS.										
Task Step 4h. - Maintain ongoing communication with RHIO to identify potential capabilities relevant to PPS activities.										
Task Step 4i. - Upon provider completion of project 2.a.i. Project Requirement 5, which includes leveraging a consulting service to assist with a PCMH & Meaningful Use readiness assessment, creation & implementation of the associated implementation plan(s), provide assistance with the application process, and formally document/retain certification related documentation; the PPS IT Coordinator will review and monitor the IT environment to confirm EHR system capabilities are in place are used and functioning as designed ensuring access to real-time data to improve interoperability. Periodic reviews will be performed and include evidence of alerts/secure messaging, availability of training materials, training(s) completed, and percentage of staff trained. The status of these reviews will be reported at minimally quarterly to the IT & Data Governance Committee and/or Clinical Governance Committee as appropriate.										
Task Step 4j. - The PPS will support partners (e.g., CBOs, providers, etc.) in actively sharing by promoting infrastructure build and/or other requirements as identified by the current state assessment above. As appropriate, partners will be contracted with the PPS for achievement of specific tasks, which will be monitored for completion as reported to the RPU Clinical Quality Committees for review.										
Milestone #5 Ensure that EHR systems used by participating safety net

Task Step 7d. - In conjunction with project 2.a.i. Project Requirement 4, utilize the PPS IT and Data Governance team to identify all participating PCPs for activation with the RHIO. When needed, utilize the PPS IT Coordinator to coordinate resources needed for Primary Care Providers (PCPs) activation with the appropriate RHIO.										
Task Step 7e. - Identify and contract with a Consulting service to assist with a PCMH readiness assessment and implementation and collaborate with adjacent PPS' (as appropriate).										
Task Step 7f. - Leverage the PCMH Readiness Assessment as a baseline to create a Meaningful Use and PCMH implementation plan for PPS providers. The plan will include a current state assessment for each PCP and detail key milestones which will allow for a phased implementation approach towards PCMH and Meaningful Use DY3, Q4 requirements.										
Task Step 7g. - Monitor primary care access/capacity by performing a PPS survey through existing RMS panel resources and using available provider surveys, such as the Consumer Assessment of Healthcare Providers and Systems (CAHPS) survey. Action plans will be developed, as needed, to address primary care access needs of the PPS.										
Task Step 7h. - The RPU Provider Relations professional will assist the PCPs with the associated application(s) throughout each phase of the PCMH Level 3 implementation plan.										
Task Step 7i. - Obtain and retain certification documentation substantiating safety net providers within the PPS have achieved Meaningful Use and PCMH Level 3 standards.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task Step 7j. - Provider Relations professionals will record, monitor, and communicate identified primary care physician needs by their assigned RPU.										
Milestone #8 Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.										
Task Medicaid Managed Care contract(s) are in place that include value-based payments.										
Task Step 8b. - Analyze the NYSDOH data related to the risk-adjusted cost of care as well as the potential (shared) savings, at both the total population level as per care bundle and subpopulation per the Value Based Purchasing (VBP) Roadmap, in order to identify best possible opportunities for PPS providers in their move towards VBP.										
Task Step 8c. - Expand upon Baseline Assessment of VBP readiness creating a matrix of existing mechanisms both helping and hindering the implementation of the VBP model, including NYS VBP Roadmap, existing ACO and MCO models (as applicable), and other VBP models in the current marketplace.										
Task Step 8d. - Analyze matrix of existing mechanisms both helping and hindering the implementation of VBP at the provider level of our PPS in order to identify which providers are best equipped to lead the movement towards VBP based on their current level of VBP engagement.										
Task Step 8e. - Identify within the PPS providers who fall into one of three tiers: 1) Established - Providers currently utilizing VBP models 2) Enthusiastic and/or Equipped - Providers who are eager to pursue the movement towards VBP models and/or equipped to do so based on the helping/hindering matrix 3) Everyone else.										
Task Step 8f. - Coordinate regional payor forums with PPS providers.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task Step 8g. - Re-assess current landscape of VBP adoption throughout PPS by updating VBP Baseline Assessment, reviewing new information if available from the state and feedback from PPS Providers and MCOs regarding the payor forums as well as lessons learned from early adopters.										
Task Step 8h. - Perform Gap Analysis based on updated matrix of PPS landscape.										
Task Step 8i. - Coordinate additional regional payor forums with PPS providers based on Gap Analysis.										
Task Step 8j. - Collectively review the level of VBP engagement and continue to encourage open dialogue among the PPS providers regarding VBP models and adoption.										
Task Step 8k. - Update, modify and finalize VBP Adoption Plan										
Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.										
Task PPS holds monthly meetings with Medicaid Managed Care plans to evaluate utilization trends and performance issues and ensure payment reforms are instituted.										
Task Step 9b. - Establish VBP committee comprised of members from PPS constituency with representation from all provider types. VBP Committee will seek to follow & leverage industry wide VBP Preparatory Strategies via HANYS. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9c. - Cultivate pathways between VBP Committee and the rest of the system in order to survey and educate current landscape of existing VBP arrangements amongst PPS providers in PPS. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9d. - Create education and communication plan, including the myriad components intrinsic to VBP, particularly the different strata of risk. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9e. - Secure educational resources for outreach endeavors. (Step corresponds with Financial Sustainability Implementation Plan)										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Implementation Plan)										
Task Step 9f. - Carry out education and outreach endeavors for PPS providers ensuring a thorough understanding of the various VBP models and methods. Coordinate regional payor forums with providers in the region. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9g. - Create a readiness self-assessment survey (High, Moderate, Low) for individual providers within the PPS to assess the varying levels of evolution as movement towards fully implemented VBP occurs. The self-assessment survey will include the following (per the state): Degree of experience operating in VBP models and preferred compensation modalities; Degree of sophistication in ability to negotiate plan contracts, monitor and report on service types; Estimated volume of Medicaid Managed Care spending received by the network. Estimate of total cost of care for specific services (modeled along bundles Status of requisite IT linkages for network funds flow monitoring. Provider ability (financial stability) and willingness to take downside risk in a risk sharing arrangement. Level of assistance needed to negotiate plan options with Medicaid Managed Care (High, Moderate, Low). (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9h. - Distribute the readiness self-assessment survey to all providers to establish accurate baseline. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9i. - Collect, assemble, and analyze readiness self-assessment survey results. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9j - Prepare Initial VBP Baseline Assessment based on readiness self-assessment survey results and dialogue from providers. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9k. - Disseminate preliminary results of readiness self-assessment survey analysis for review by PPS Providers. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9l. - Update, revise and finalize VBP Baseline Assessment										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
based on Providers & Boards review. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9m. - PPS Board to sign off on preference for PPS providers to contract with MCO's at their own discretion. (Step corresponds with Financial Sustainability Implementation Plan)										
Task Step 9n. - Established VBP Committee will coordinate with Medicaid MCOs to schedule monthly meetings to discuss utilization trends, performance issues and payment reform based on VBP Adoption Plan.										
Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.										
Task PPS submitted a growth plan outlining the strategy to evolve provider compensation model to incentive-based compensation										
Task Providers receive incentive-based compensation consistent with DSRIP goals and objectives.										
Task Step 10c. - Identify patient subgroups and populations and stratify by assigning risk values.										
Task Step 10d. - Conduct a provider analysis exercise to determine if the provider is better categorized as a "Large Organized Group Practice Provider" or an "Independent Provider."										
Task Step 10e. - Develop a contracting strategy which correlates DSRIP goals, timelines, patient risk stratification, and physician metrics and results with monetary incentive payments. As part of this process, a compensation model and implementation plan will be developed based on provider categorization. For "Large Organized Group Practice Providers" the PPS will integrate a value based system which focus' on an RVU and quality base. As noted in Step 1 above, Partnering Organizations will be contracted at the RPU level through Provider Relations professionals.										
Task Step 10f. - For physicians identified as "Independent Providers" the PPS will pursue value based contracts with their associated Medicaid MCO which includes the elements noted in Step 10b. section of the 2.a.i Implementation Plan.										
Task Step 10g. - The Provider Relations professionals, assigned at

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
each RPU, will monitor contract compliance and pertinence of contractual terms to meet DSRIP goals as DSRIP implementation matures and develops. This may be achieved through leveraging the integrated delivery system model, including Population Health professionals as well as the PPS PMO. Results will be reviewed through the PPS PMO performance management process.										
Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.										
Task Community health workers and community-based organizations utilized in IDS for outreach and navigation activities.										
Task Step 11b. - As noted above in Project 2.a.i Step 1f. and in line with the plan for project 2.d.i., the targeted patient population will be identified and consents subsequently obtained through the use of a robust contracted patient activation outreach worker team, as well as close collaboration with the community-based health navigation team (refer to Project 2.c.i.). These combined efforts, along with the training efforts that will occur through the patient activation training team for safety-net providers in the network, will ensure that the maximum number of individuals complete the PAM. Additionally, the PPS plans to embed the PAM survey in all safety-net practices at a minimum and will implement a process whereby all patients without insurance and all patients with Medicaid coverage will be given the PAM if it is determined they have not yet completed the survey. The PPS plans to leverage the RPU structure to achieve this efficiently and effectively (see attached for RPU structure).										
Task Step 11c. - A comprehensive incentive plan will be developed, which will compensate providers for their participation and will assign a value to each PAM survey that is collected. Additionally, the patient activation training team will work with the provider relations component of the PPS to inform providers about the overall DSRIP initiative and PPS objectives, in addition to patient activation and the PAM.										
Task Step 11d. - A broad range of responsible individuals will receive training in the PAM, and the efforts will initially start out in the 9 hospitals within the PPS network, so that lessons learned can

Project 2.b.iv – Care transitions intervention model to reduce 30 day readmissions for chronic health conditions

✓ IPQR Module 2.b.iv.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1. The first risk facing our project is a potential difficulty in engaging providers. This is especially true considering the variety of providers inherent to our project – we have a total of 261 providers across the spectrum of healthcare. It is obvious to us that we will have to deal with the risk of how to engage such a widely cast net. Nuance and particularity will be needed as we seek out the participation of these various providers. This has a direct impact on our project in that non-engaged providers equates to not being able to achieve the requirements set forth by the State for our project. Participation and collaboration are needed not only for the sake of the DSRIP project itself, but its larger endeavor of patient health and cost savings. A mitigation strategy will be the development of a comprehensive communications strategy by the PPS Provider Relations and Communications staff. These teams will be responsible to carry a unified message across their Regional Performance Units (RPU). Provider engagement and readiness will take place at the RPU level utilizing standardized education materials to guide providers as well as to facilitate patient engagement.
2. Our second risk focuses on an insufficient capacity for providers to expand access or add complexity to existing workflows. This will impact our project in that continued fragmentation of services, delays in post-acute care follow-up and readmissions within 30 days will be consequences of an unaltered work flow. To mitigate this risk we plan on implementing care management/coordination work flow system including standardized protocols. Utilization of care coordination software and an integrated electronic health record with connectivity to the RHIO are essential to creating capacity within the provider network. This will be a task done in conjunction with the IT Committee.
3. Our third identified risk centers on the consistent deployment of targeted interventions/solutions across the PPS. It is recognized there will be a degree of variability at the RPU level given availability of services and resources. This will impact the project by creating a varying level of participation by providers. The level of ability to accept and employ targeted inventions and solutions will affect the level to which the project is successful. To mitigate this risk, we propose a six-step approach to ensure consistent deployment of targeted interventions across the PPS and accomplish overall project goals: 1. ensure clinical partners are fully aware and appropriately engaged in the CTP program, 2. routine case identification of Medicaid participants is necessary for program enrollment, 3. engage Hospice as appropriate, 4. home visits by a CTP RN will be scheduled prior to patient discharge, 5. timely follow up with Care Providers, 6. utilize Remote Patient Monitoring (RPM).

IPQR Module 2.b.iv.4 - Prescribed Milestones

Instructions :

Please enter baseline target dates and work breakdown tasks with target dates for each of the milestones below.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.	Project	N/A	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Standardized protocols are in place to manage overall population health and perform as an integrated clinical team are in place.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1b. The 2biv Project Team, through the Clinical Governance Committee and Board of Directors will identify and adopt evidence-based Care Transition Intervention Models appropriate for implementation and adoption by the Performing Provider System (PPS).	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 1c. Using the approved Care Transition Protocols, the 2biv Project Team and Project Champion from each of the nine PPS hospitals will perform a facility gap analysis to identify differences between the hospital care transition operating model versus the PPS Care Transition Plan. Following the assessment, the PPS will engage with hospitals who meet the criteria of the PPS Care Transition Protocol for Care Transitions Work. Organizations who do not meet the criteria, if any, would have training provided on use of the standardized protocol.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task 1d. The PPS will leverage the Regional Performing Unit (RPU) model to ensure consistency as well as customizability throughout PPS. RPU-specific Clinical Governance subcommittees (e.g., quality committees) will be used to determine strategies at the RPU level as well as perform oversight of adherence to established Care Transition Protocols.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Milestone #2 Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.	Project	N/A	In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Task	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
A payment strategy for the transition of care services is developed in concert with Medicaid Managed Care Plans and Health Homes.							
Task Coordination of care strategies focused on care transition are in place, in concert with Medicaid Managed Care groups and Health Homes.	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Task PPS has protocol and process in place to identify Health-Home eligible patients and link them to services as required under ACA.	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Task 2d. The 2biv Project Team and PMO will collaborate with the Medicaid Managed Care organizations and Health Homes, with focus on strategy development with MCOs and Health Homes to: i) improve care coordination, access, and delivery, ii) strengthen the community and safety-net infrastructure, and iii) prevent illness and reduce disparities. Risk assessment will begin at admission. Within 24 hours of admission, the Care Transition RN will identify what each beneficiary requires for a smooth and safe transition from the acute care hospital. As part of this assessment, the team will leverage tools (e.g., screening tool) to identify whether the patient is i) Not Eligible for Health Home (HH) Services, ii) Eligible for HH and connected to a HH, or iii) Eligible for HH and not connected to a HH. The use of a standardized Care Transition Protocol (CTP) will identify the root cause for admission, assess/address clinical, functional, behavioral, available/lack of available resources and social determinants for each beneficiary. Data analytic and population health technologies will provide a foundation for quality improvement and enable beneficiaries to be effectively risk stratified. A longitudinal plan of care will be developed in concert with appropriate service and community based organizations including Health Homes. In an attempt to break down the barriers between systems (e.g., with MCOs) of mental health and long term care, and in recognition of the complex psycho-social needs of Medicaid beneficiaries as identified in the Care Compass Network community needs assessment, the CTP program will work to facilitate linkages with programs across systems. With the beneficiary's consent, the CTP program will refer to Health Homes within the PPS for ongoing care management services. A Health Home care manager will assist in coordinating the ongoing medical, mental health, substance abuse and social service needs	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

of qualifying beneficiaries. Wherever appropriate, beneficiaries will be referred for additional long term care services such as home delivered meals and personal emergency response services. Beneficiaries will also be referred to outpatient services offered through CBOs where appropriate.							
Task 2e. Collaboratively use claims data to identify gaps in care.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 2f. Seek community input in designing interventions through quarterly meetings either in-person or telephonically.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 2g. Commit resources to transitional care development including, but not limited to fiscal, human, and training resources.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task 2h. Create a Cross Continuum Team (CCT) made up of representatives from hospitals, discharge planning staff, Emergency Department (ED) staff, behavioral health staff, home care services, and medical directors and administrators from skilled nursing facilities. Members of the Cross Continuum Team can be selected to engage 2-3 beneficiaries in meetings to solicit feedback.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task 2i. Payer agreements will be reviewed for Managed Care Organizations (MCOs) with patients in the PPS region.	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Task 2j. Leverage telehealth strategies. (Beneficiaries suffering from chronic disease and are at an increased risk of re-hospitalization are candidates for the use of telehealth. Telemonitoring services have proven to be effective among Medicaid beneficiaries for managing such conditions as hypertension, Congestive Heart Failure (CHF), Chronic Obstructive Pulmonary Disease (COPD), and diabetes, with improved health outcomes and reductions in hospital admissions and emergency department usage. Telemonitoring promotes self-care behaviors and a sense of control for beneficiaries.)	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Milestone #3 Ensure required social services participate in the project.	Project	N/A	In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Required network social services, including medically tailored home food services, are provided in care transitions.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 3b. Identify required social service agencies using feedback from the CBO Engagement Council.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

Task 3c. Identify required social service agencies using responses to the PPS' readiness assessment.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 3d. Collaborate with the local social services department as well as other CBOs to identify beneficiaries. Community based organizations have been actively engaged since PPS inception. To further identify and cultivate the breadth of services required to deliver project interventions, a CBO Council has been established and meets weekly. The nine county PPS has been divided into four Regional Performance Units (RPUs) to better understand the resources at the community level, foster the relationships among CBOs, and target providers to support outreach, patient activation and care coordination. An Academic Detailing approach will be used to educate and engage providers on Care Transitions as well as other PPS DSRIP projects. Goals of academic modeling include, but are not limited to: improving clinician knowledge of new clinical guidelines or health threats, selecting treatments to increase effectiveness and safety or to decrease overuse, improving patient education by helping clinicians communicate vital information to patients, increasing diagnosis or screening for overlooked conditions, and increasing utilization of complimentary resources such as community-based public health programs.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Milestone #4 Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.	Project	N/A	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4

manager patient visits.							
Task 4f. Establish protocols regarding early notification of planned discharges and case manager patient visits through the Clinical Governance Committee.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 4g. Leverage RPU model to ensure consistency as well as customizability throughout PPS. RPU-specific Clinical Governance subcommittees will be used to determine strategies and effectiveness of implementation at the RPU level.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Milestone #5 Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.	Project	N/A	In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Policies and procedures are in place for including care transition plans in patient medical record and ensuring medical record is updated in interoperable EHR or updated in primary care provider record.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task 5b. Create a Cross Continuum Team made up of representatives from hospitals, discharge planning staff, ED staff, behavioral health staff, home care services, and medical directors and administrators from skilled nursing facilities. Members of the Cross Continuum Team can be selected to engage 2-3 beneficiaries in meetings to solicit feedback. Physician recommendation is key to patients' acceptance as well as the initial presentation of the programs to beneficiaries and caregivers.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 5c. Establish protocols for care record transition with Cross Continuum Team (CCT). Using the Eric Coleman model as a platform (an evidence based nationally recognized) protocol will be implemented inclusive of but not limited to the following four core pillars: 1. Medication reconciliation and teaching - using Medication tools from VNAA, 2. Ensuring follow up appointment with PCP after hospital discharge, 3. Disease/condition-specific teaching as well as recognition of signs and symptoms of worsening disease and how to appropriately respond, and 4. Personal Health Record is created with the patient to improve communication with providers-using document from VNAA.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Milestone #6 Ensure that a 30-day transition of care period is established.	Project	N/A	In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Policies and procedures reflect the requirement that 30 day transition of care period is implemented and utilized.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<p>Task 6c. Through the Clinical Governance Committee, identify appropriate policies and procedures to ensure a 30-day transition of care period with consideration of the following nine elements: 1. Outreach and Engagement - Prior to discharge the Care Transition nurse will identify what each beneficiary requires for a smooth and safe transition from the acute care hospital. This includes but is not limited to: gain knowledge of social and physical factors that affect functional status at discharge (transportation, medication, specialized medical equipment, financial ability to sustain independent living and their feasibility to acquire what is needed). 2. Health Literacy - Assessment of the beneficiary's and caregiver's level of engagement and empowerment is key to developing a safe discharge to home. Assessment of the beneficiary and caregiver's knowledge of the disease process must take place during the hospital stay as limited health literacy has been shown to undermine beneficiary follow up with primary care provider, decreased adherence to treatment protocols, and their own engagement in their care. 3. Meet Patients Physically Where They Are - The Care Transition nurse or appropriate healthcare representative (e.g. Community Health Advocate, Home Care agencies, etc.) will visit beneficiary while in inpatient setting and then visit the patient at home. Home visit(s) will emphasize best practices in care transitions including: medication reconciliation, follow-up with primary care physician and/or mental health clinician, awareness of worsening symptoms of a person's health condition, home safety, and connections to home and community-based supports. 4. Family/Caregiver Involvement - Family caregivers play a significant role in keeping loved ones living at home and in the community. The Care Transition nurse will engage with caregivers wherever possible and appropriate. Following the wishes of the beneficiary, family caregivers will be included in education about symptom management and medication management. Caregivers will be informed about support services and respite care to enable them to care for themselves while providing care. 5. Create Warm Hand Offs/ Minimize Hand Offs - Wherever possible, beneficiaries will be connected with CBOs where they have a preexisting relationship. 6. Community Navigation - Identified as a vital component of an effective 30 day transition of care plan, all beneficiaries will be introduced to the array of Community Navigation services within the PPS tailored to each beneficiary's unique profile. 7. Provide Incentives - Care Compass Network will develop guidelines and policy to incentivize beneficiaries for engagement and achievement of personal milestones. The Care Transition nurse will work within this framework. 8.</p>	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

robust broadband/Wi-Fi network. The Care Management System will connect to the RHIOs to provide a foundation in support of the PPS Integrated Delivery System. Investment in IT is a baseline requirement for successful care coordination. Utilization of care coordination software and an integrated electronic health record with connectivity to the RHIO are essential to creating capacity within the provider network. Utilization of Office Based Case Managers, RNs and Allied Health Professionals will also be an important factor. Technology such as Telehealth and telemedicine will connect patients to providers and allow for intervention and efficient access to patient information which will simplify providers work and simplifying processes will create capacity. To move toward a high reliability PPS, creating and imbedding disease management protocols in EHRs is a building block toward standardization and process optimization. CTI RN and PCP providers will be engaged to encourage beneficiaries to consent to the RHIOs where providers can gain access to historical medical data; current treatments and medications, medical and surgical history, and community based organization involvement.							

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Milestone #1 Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.										
Task Standardized protocols are in place to manage overall population health and perform as an integrated clinical team are in place.										
Task 1b. The 2biv Project Team, through the Clinical Governance Committee and Board of Directors will identify and adopt evidence-based Care Transition Intervention Models appropriate for implementation and adoption by the Performing Provider System (PPS).										
Task 1c. Using the approved Care Transition Protocols, the 2biv Project Team and Project Champion from each of the nine PPS hospitals will perform a facility gap analysis to identify differences between the hospital care transition operating model versus the PPS Care Transition Plan. Following the assessment, the PPS will engage with hospitals who meet the

criteria of the PPS Care Transition Protocol for Care Transitions Work. Organizations who do not meet the criteria, if any, would have training provided on use of the standardized protocol.										
Task 1d. The PPS will leverage the Regional Performing Unit (RPU) model to ensure consistency as well as customizability throughout PPS. RPU-specific Clinical Governance subcommittees (e.g., quality committees) will be used to determine strategies at the RPU level as well as perform oversight of adherence to established Care Transition Protocols.										
Milestone #2 Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.										
Task A payment strategy for the transition of care services is developed in concert with Medicaid Managed Care Plans and Health Homes.										
Task Coordination of care strategies focused on care transition are in place, in concert with Medicaid Managed Care groups and Health Homes.										
Task PPS has protocol and process in place to identify Health-Home eligible patients and link them to services as required under ACA.										
Task 2d. The 2biv Project Team and PMO will collaborate with the Medicaid Managed Care organizations and Health Homes, with focus on strategy development with MCOs and Health Homes to: i) improve care coordination, access, and delivery, ii) strengthen the community and safety-net infrastructure, and iii) prevent illness and reduce disparities. Risk assessment will begin at admission. Within 24 hours of admission, the Care Transition RN will identify what each beneficiary requires for a smooth and safe transition from the acute care hospital. As part of this assessment, the team will leverage tools (e.g., screening tool) to identify whether the patient is i) Not Eligible for Health Home (HH) Services, ii) Eligible for HH and connected to a HH, or iii) Eligible for HH and not connected to a HH. The use of a standardized Care Transition Protocol (CTP) will identify the root cause for admission, assess/address clinical, functional,

to the RHIOS's where providers can gain access to historical medical data; current treatments and medications, medical and surgical history, and community based organization involvement.										

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Milestone #1 Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.										
Task Standardized protocols are in place to manage overall population health and perform as an integrated clinical team are in place.										
Task 1b. The 2biv Project Team, through the Clinical Governance Committee and Board of Directors will identify and adopt evidence-based Care Transition Intervention Models appropriate for implementation and adoption by the Performing Provider System (PPS).										
Task 1c. Using the approved Care Transition Protocols, the 2biv Project Team and Project Champion from each of the nine PPS hospitals will perform a facility gap analysis to identify differences between the hospital care transition operating model versus the PPS Care Transition Plan. Following the assessment, the PPS will engage with hospitals who meet the criteria of the PPS Care Transition Protocol for Care Transitions Work. Organizations who do not meet the criteria, if any, would have training provided on use of the standardized protocol.										
Task 1d. The PPS will leverage the Regional Performing Unit (RPU) model to ensure consistency as well as customizability throughout PPS. RPU-specific Clinical Governance subcommittees (e.g., quality committees) will be used to determine strategies at the RPU level as well as perform oversight of adherence to established Care Transition Protocols.										
Milestone #2 Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
<p>Task A payment strategy for the transition of care services is developed in concert with Medicaid Managed Care Plans and Health Homes.</p>										
<p>Task Coordination of care strategies focused on care transition are in place, in concert with Medicaid Managed Care groups and Health Homes.</p>										
<p>Task PPS has protocol and process in place to identify Health-Home eligible patients and link them to services as required under ACA.</p>										
<p>Task 2d. The 2biv Project Team and PMO will collaborate with the Medicaid Managed Care organizations and Health Homes, with focus on strategy development with MCOs and Health Homes to: i) improve care coordination, access, and delivery, ii) strengthen the community and safety-net infrastructure, and iii) prevent illness and reduce disparities. Risk assessment will begin at admission.</p> <p>Within 24 hours of admission, the Care Transition RN will identify what each beneficiary requires for a smooth and safe transition from the acute care hospital. As part of this assessment, the team will leverage tools (e.g., screening tool) to identify whether the patient is i) Not Eligible for Health Home (HH) Services, ii) Eligible for HH and connected to a HH, or iii) Eligible for HH and not connected to a HH. The use of a standardized Care Transition Protocol (CTP) will identify the root cause for admission, assess/address clinical, functional, behavioral, available/lack of available resources and social determinants for each beneficiary. Data analytic and population health technologies will provide a foundation for quality improvement and enable beneficiaries to be effectively risk stratified. A longitudinal plan of care will be developed in concert with appropriate service and community based organizations including Health Homes.</p> <p>In an attempt to break down the barriers between systems (e.g., with MCOs) of mental health and long term care, and in recognition of the complex psycho-social needs of Medicaid beneficiaries as identified in the Care Compass Network community needs assessment, the CTP program will work to facilitate linkages with programs across systems. With the beneficiary's consent, the CTP program will refer to Health</p>										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Homes within the PPS for ongoing care management services. A Health Home care manager will assist in coordinating the ongoing medical, mental health, substance abuse and social service needs of qualifying beneficiaries. Wherever appropriate, beneficiaries will be referred for additional long term care services such as home delivered meals and personal emergency response services. Beneficiaries will also be referred to outpatient services offered through CBOs where appropriate.										
Task 2e. Collaboratively use claims data to identify gaps in care.										
Task 2f. Seek community input in designing interventions through quarterly meetings either in-person or telephonically.										
Task 2g. Commit resources to transitional care development including, but not limited to fiscal, human, and training resources.										
Task 2h. Create a Cross Continuum Team (CCT) made up of representatives from hospitals, discharge planning staff, Emergency Department (ED) staff, behavioral health staff, home care services, and medical directors and administrators from skilled nursing facilities. Members of the Cross Continuum Team can be selected to engage 2-3 beneficiaries in meetings to solicit feedback.										
Task 2i. Payer agreements will be reviewed for Managed Care Organizations (MCOs) with patients in the PPS region.										
Task 2j. Leverage telehealth strategies. (Beneficiaries suffering from chronic disease and are at an increased risk of re-hospitalization are candidates for the use of telehealth. Telemonitoring services have proven to be effective among Medicaid beneficiaries for managing such conditions as hypertension, Congestive Heart Failure (CHF), Chronic Obstructive Pulmonary Disease (COPD), and diabetes, with improved health outcomes and reductions in hospital admissions and emergency department usage. Telemonitoring promotes self-care behaviors and a sense of control for beneficiaries.)										
Milestone #3 Ensure required social services participate in the project.										
Task Required network social services, including medically tailored

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
home food services, are provided in care transitions.										
Task 3b. Identify required social service agencies using feedback from the CBO Engagement Council.										
Task 3c. Identify required social service agencies using responses to the PPS' readiness assessment.										
Task 3d. Collaborate with the local social services department as well as other CBOs to identify beneficiaries. Community based organizations have been actively engaged since PPS inception. To further identify and cultivate the breadth of services required to deliver project interventions, a CBO Council has been established and meets weekly. The nine county PPS has been divided into four Regional Performance Units (RPU) to better understand the resources at the community level, foster the relationships among CBOs, and target providers to support outreach, patient activation and care coordination. An Academic Detailing approach will be used to educate and engage providers on Care Transitions as well as other PPS DSRIP projects. Goals of academic modeling include, but are not limited to: improving clinician knowledge of new clinical guidelines or health threats, selecting treatments to increase effectiveness and safety or to decrease overuse, improving patient education by helping clinicians communicate vital information to patients, increasing diagnosis or screening for overlooked conditions, and increasing utilization of complimentary resources such as community-based public health programs.										
Milestone #4 Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.										
Task Policies and procedures are in place for early notification of planned discharges.	62	62	62	62	62	62	62	62	62	62

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
PPS has program in place that allows care managers access to visit patients in the hospital and provide care transition services and advisement.										
Task 4e. Through the Clinical Governance Committee and the IT Committee as needed, identify methods of early notification of planned discharges and case manager patient visits.										
Task 4f. Establish protocols regarding early notification of planned discharges and case manager patient visits through the Clinical Governance Committee.										
Task 4g. Leverage RPU model to ensure consistency as well as customizability throughout PPS. RPU-specific Clinical Governance subcommittees will be used to determine strategies and effectiveness of implementation at the RPU level.										
Milestone #5 Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.										
Task Policies and procedures are in place for including care transition plans in patient medical record and ensuring medical record is updated in interoperable EHR or updated in primary care provider record.										
Task 5b. Create a Cross Continuum Team made up of representatives from hospitals, discharge planning staff, ED staff, behavioral health staff, home care services, and medical directors and administrators from skilled nursing facilities. Members of the Cross Continuum Team can be selected to engage 2-3 beneficiaries in meetings to solicit feedback. Physician recommendation is key to patients' acceptance as well as the initial presentation of the programs to beneficiaries and caregivers.										
Task 5c. Establish protocols for care record transition with Cross Continuum Team (CCT). Using the Eric Coleman model as a platform (an evidence based nationally recognized) protocol will be implemented inclusive of but not limited to the following four core pillars: 1. Medication reconciliation and teaching - using Medication tools from VNAA, 2. Ensuring follow up appointment with PCP after hospital discharge, 3. Disease/condition-specific										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
teaching as well as recognition of signs and symptoms of worsening disease and how to appropriately respond, and 4. Personal Health Record is created with the patient to improve communication with providers-using document from VNAA.										
Milestone #6 Ensure that a 30-day transition of care period is established.										
Task Policies and procedures reflect the requirement that 30 day transition of care period is implemented and utilized.										
Task 6c. Through the Clinical Governance Committee, identify appropriate policies and procedures to ensure a 30-day transition of care period with consideration of the following nine elements: 1. Outreach and Engagement - Prior to discharge the Care Transition nurse will identify what each beneficiary requires for a smooth and safe transition from the acute care hospital. This includes but is not limited to: gain knowledge of social and physical factors that affect functional status at discharge (transportation, medication, specialized medical equipment, financial ability to sustain independent living and their feasibility to acquire what is needed). 2. Health Literacy - Assessment of the beneficiary's and caregiver's level of engagement and empowerment is key to developing a safe discharge to home. Assessment of the beneficiary and caregiver's knowledge of the disease process must take place during the hospital stay as limited health literacy has been shown to undermine beneficiary follow up with primary care provider, decreased adherence to treatment protocols, and their own engagement in their care. 3. Meet Patients Physically Where They Are - The Care Transition nurse or appropriate healthcare representative (e.g. Community Health Advocate, Home Care agencies, etc.) will visit beneficiary while in inpatient setting and then visit the patient at home. Home visit(s) will emphasize best practices in care transitions including: medication reconciliation, follow-up with primary care physician and/or mental health clinician, awareness of worsening symptoms of a person's health condition, home safety, and connections to home and community-based supports. 4. Family/Caregiver Involvement - Family caregivers play a significant role in keeping loved ones living at home and in the community. The Care Transition nurse will engage with caregivers wherever possible and appropriate. Following the wishes of the beneficiary, family caregivers will be included in education about symptom management and medication management. Caregivers will be informed about support

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
services and respite care to enable them to care for themselves while providing care. 5. Create Warm Hand Offs/ Minimize Hand Offs - Wherever possible, beneficiaries will be connected with CBOs where they have a preexisting relationship. 6. Community Navigation - Identified as a vital component of an effective 30 day transition of care plan, all beneficiaries will be introduced to the array of Community Navigation services within the PPS tailored to each beneficiary's unique profile. 7. Provide Incentives - Care Compass Network will develop guidelines and policy to incentivize beneficiaries for engagement and achievement of personal milestones. The Care Transition nurse will work within this framework. 8. Create Virtual Support Groups/ RMS Panel - Beneficiaries will be offered the option to participate with their peers in diagnosis specific, social support groups, or as a member on the CHNA Panel. 9. Maximize Physician Support - Physician recommendation is a key contributor to patient's acceptance as well as the initial presentation of the programs to beneficiaries and caregivers. Discuss all standards of care being utilized to insure understanding.										
Task 6d. Leverage RPU model to ensure consistency as well as customizability throughout PPS. RPU-specific Clinical Governance subcommittees will be used to determine strategies at the RPU level.										
Task 6e. Cross continuum team to meet (e.g., monthly or as needed) to monitor performance of participating organizations. QA Plan reviewed by the cross continuum team would include PPS use claims and lab reporting and related data fields and be reported to the associated RPU Quality Committee as required.										
Task 6f. Adjust procedures and protocols accordingly, informed by provider performance.										
Milestone #7 Use EHRs and other technical platforms to track all patients engaged in the project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task 7b. Leverage telehealth platforms. (Beneficiaries suffering from chronic disease and are at an increased risk of re-hospitalization are candidates for the use of telehealth. Telemonitoring services have proven to be effective among

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Medicaid beneficiaries for managing such conditions as hypertension, CHF, COPD, and diabetes, with improved health outcomes and reductions in hospital admissions and emergency department usage. Telemonitoring promotes self-care behaviors and a sense of control for beneficiaries.)										
Task 7c. Care Transitions will utilize existing and new referral management technologies to enhance the patient referral process. A care management system will support the development of patient care plans across various care settings with alerts and automated follow-up reminders and Telehealth will be used to monitor patients in the community through a required and developing robust broadband/Wi-Fi network. The Care Management System will connect to the RHIOs to provide a foundation in support of the PPS Integrated Delivery System. Investment in IT is a baseline requirement for successful care coordination. Utilization of care coordination software and an integrated electronic health record with connectivity to the RHIO are essential to creating capacity within the provider network. Utilization of Office Based Case Managers, RNs and Allied Health Professionals will also be an important factor. Technology such as Telehealth and telemedicine will connect patients to providers and allow for intervention and efficient access to patient information which will simplify providers work and simplifying processes will create capacity. To move toward a high reliability PPS, creating and imbedding disease management protocols in EHRs is a building block toward standardization and process optimization. CTI RN and PCP providers will be engaged to encourage beneficiaries to consent to the RHIOs' where providers can gain access to historical medical data; current treatments and medications, medical and surgical history, and community based organization involvement.

IPQR Module 2.b.iv.6 - IA Monitoring

Instructions :

Milestone 5: The IA recommends spelling out the methodology for how this milestone will be accomplished.

Milestone 6: The IA recommends spelling out the methodology for how this milestone will be accomplished.

Milestone 7: The IA recommends that the PPS use claims and lab reporting as well as tele-health in the performance of this project. The PPS should be identifying home care services as well as care managers connected by the RHIO to assure that the patient is receiving services in transitioning to other settings to make the transition successful and avoid re-admissions.

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project 2.b.vii – Implementing the INTERACT project (inpatient transfer avoidance program for SNF)

IPQR Module 2.b.vii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The three main risks to implementation are:

1. Concerns over level of commitment and participation of the 24 different facilities in 7 different counties. (Chemung and Steuben Nursing Facilities have opted to sign commitment to FLPPS) Communication and cooperation in obtaining information from some facilities has been extremely difficult. While all facilities have signed the letter of intent to join the PPS, the participation has been minimal.
 - a. Mitigation: A letter will be drafted by the governing body of STRIPPS to each facility/provider outlining expected level of participation. If a facility/provider is unable to continue the commitment required, a root cause analysis will be conducted to assist affected facility(s) to determine provider specific risks and mitigation factors. Some of the mitigation factors may be provider specific or may reflect suspected barriers. If there can be no resolution due to factors out of the realm of the PPS or the provider to overcome, a process will be explored to assist them in resigning from the PPS.
2. Varying capabilities and statuses of facilities that have a fully implemented/integrated electronic health records.
 - a. Facilities should receive education that tracking/trending improvements in quality of care to the residents can be achieved most efficiently with an electronic health record that allows increased accessibility, sharing of data, and analysis of data. Proof of education should be required from each participating facility.
 - b. The PPS is proposing to offer an E.H.R. lite system for facilities who do not have an implemented electronic health record and to make that available through a lease. Monitoring of E.H.R. implementation by the IT section of the PPS will be required measure successful mitigation to this risk.
3. Full engagement of the hospital systems in the INTERACT process. The facilities will need commitments from the hospital providers to identify and solve systemic issues which also contribute to re-hospitalizations and unnecessary emergency department visits.
 - a. Assistance, collaboration and streamlining process from the care transitions group will help overcome this risk.
 - b. Educational opportunities for hospital systems on evidenced based care transitions, pathways, and preventative protocols that can be implemented across all settings.

include applicable metrics in Attachment J.							
Task Service and quality outcome measures are reported to all stakeholders.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 9e. Form a PPS quality committee that includes SNF representation.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 9f. After establishing baseline data the Interdisciplinary Team within the SNF will develop a quality improvement plan using the INTERACT quality improvement principles as a guide. Root cause analysis of transfers to hospitals to be used as data in development of the quality improvement plan. Each SNF to report out put of the quality improvement plan to the PMO office along with a timeline for implementing the quality improvement plan. A progress report to be submitted by the SNF to the PMO to communicate progress of the recommended improvements on a pre-determined basis (e.g., monthly/quarterly as appropriate).	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 9g. The project team and PMO to identify metrics to be used (such as Attachment J metrics) through the Clinical Governance Committee. Additionally, alternative or substitutive interventions as identified during the root cause analysis process will be validated by the Clinical Governance Committee and Board of Directors prior to adoption by the 2bvii Project Team.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Milestone #10 Use EHRs and other technical platforms to track all patients engaged in the project.	Project	N/A	In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 10b. PMO and project team will review and determine criteria and metrics for counting/tracking patient engagement--EHR data, encounter data, INTERACT tool usage, etc. as well as the associated integration efforts for population health purposes with oversight from both the Clinical Governance Committee and the IT & Data Governance Committee.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 10c. The PPS will analyze SNFs for alignment opportunities with the identified criteria and metric requirements. As needed the PPS will pursue the facilitation of resources to track patients engaged in the project, such as the alignment of SNF EHR/EHR Lite tools with INTERACT toolkits.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task PPS evaluates and creates action plans based on key quality metrics, to include applicable metrics in Attachment J.										
Task Service and quality outcome measures are reported to all stakeholders.										
Task 9e. Form a PPS quality committee that includes SNF representation.										
Task 9f. After establishing baseline data the Interdisciplinary Team within the SNF will develop a quality improvement plan using the INTERACT quality improvement principles as a guide. Root cause analysis of transfers to hospitals to be used as data in development of the quality improvement plan. Each SNF to report out put of the quality improvement plan to the PMO office along with a timeline for implementing the quality improvement plan. A progress report to be submitted by the SNF to the PMO to communicate progress of the recommended improvements on a pre-determined basis (e.g., monthly/quarterly as appropriate).										
Task 9g. The project team and PMO to identify metrics to be used (such as Attachment J metrics) through the Clinical Governance Committee. Additionally, alternative or substitutive interventions as identified during the root cause analysis process will be validated by the Clinical Governance Committee and Board of Directors prior to adoption by the 2bvii Project Team.										
Milestone #10 Use EHRs and other technical platforms to track all patients engaged in the project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task 10b. PMO and project team will review and determine criteria and metrics for counting/tracking patient engagement--EHR data, encounter data, INTERACT tool usage, etc. as well as the associated integration efforts for population health purposes with oversight from both the Clinical Governance Committee and the IT & Data Governance Committee.										
Task 10c. The PPS will analyze SNFs for alignment opportunities with the identified criteria and metric requirements. As needed

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
the PPS will pursue the facilitation of resources to track patients engaged in the project, such as the alignment of SNF EHR/EHR Lite tools with INTERACT toolkits.										
Task 10d. The project team in conjunction with the Workforce team and IT team to identify workflows impacted due to new technology and document new workflows for the impacted SNFs.										
Task 10e. Utilize the Workforce team to train staff on technology and workflow.										

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Milestone #1 Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at http://interact2.net .										
Task INTERACT principles implemented at each participating SNF.										
Task Nursing home to hospital transfers reduced.	23	23	23	23	23	23	23	23	23	23
Task INTERACT 3.0 Toolkit used at each SNF.	9	9	9	9	9	9	9	9	9	9
Task 1d. SNF INTERACT Project Champion to perform a baseline assessment of staff to identify existing INTERACT expertise within their facility and work with the Workforce Development and Transition Team (WDTT) to determine staffing needs .										
Task 1e. Within each participating SNF, evaluate current processes and tools and compare them to the tools in the INTERACT program. Integrate INTERACT tools into the daily work flow using the INTERACT implementation guide.										
Task 1f. The PPS INTERACT Project team, PMO, and Finance Manager will incorporate the core components of the 2bvii project to the PPS budget and funds flow model. Once finalized and approved by the Finance Committee and Board of Directors the PPS will negotiate INTERACT implementation contracts with the associated SNFs.										
Task 1g. As part of the contracting process, identify an INTERACT Project Champion for each SNF to provide on-site project										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
oversight as well as communication with the PPS PMO and Project Team for reporting purposes. PMO to draft a letter to each facility/provider outlining expected level of participation in the project as well as benefits available for collaborating in these efforts with the PPS. If facility/provider is unable to continue the commitment required, PMO will conduct a root cause analysis to assist the affected facility(s) to determine provider specific risks and mitigation factors.										
Task 1h. INTERACT Champion at each contracted SNF facility to ensure INTERACT principles are incorporated into the facilities' Quality Assurance and Process Improvement (QAPI) process and report to PMO.										
Milestone #2 Identify a facility champion who will engage other staff and serve as a coach and leader of INTERACT program.										
Task Facility champion identified for each SNF.	0	0	0	0	0	0	0	0	0	0
Task 2b. Identify an INTERACT champion per facility.										
Task 2c. Identify an INTERACT Co-Champion per facility.										
Task 2d. Train INTERACT Champion and Co-Champion on INTERACT principles.										
Milestone #3 Implement care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.										
Task Care pathways and clinical tool(s) created to monitor chronically-ill patients.										
Task PPS has developed and implemented interventions aimed at avoiding eventual hospital transfer and has trained staff on use of interventions in alignment with the PPS strategic plan to monitor critically ill patients and avoid hospital readmission.										
Task 3c. Project team and Project Management Office to assess existing care pathways and other clinical tools for monitoring chronically ill patients. The project team and PMO will identify the common care paths and create educational tools and present for review by the Clinical Governance Committee for review and adoption.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task 3d. The educational tools created in Step 3c will be distributed to the SNFs and hospitals by the Provider Relations to be used as guidance in evaluating and monitoring patients. As needed additional education can be provided by the project lead and/or the trainer from the Workforce team.										
Task 3e. Workforce team and Provider Relations will educate hospital representatives on care pathways and preventive protocols created in step 3c in effort to align these throughout the PPS.										
Task 3f. Incorporate care pathway tools into SNF daily procedures. Staff within the SNF to provide feedback as necessary to the INTERACT champion & co-champion within the SNF.										
Task 3g. The INTERACT champion, co-champions and project team will meet at a minimum of once a year to review INTERACT care paths and related practice guidelines. The project team will adjust as needed using the Clinical Governance Committee.										
Milestone #4 Educate all staff on care pathways and INTERACT principles.										
Task Training program for all SNF staff established encompassing care pathways and INTERACT principles.	0	0	0	0	0	0	0	0	0	0
Task 4b. Use INTERACT Champions in each facility to provide training sessions encompassing care pathways and INTERACT principles (e.g., annually or as seen appropriate by related parties) to all key staff including MD, FNP, PA etc. Record SNF training dates along with the number of staff trained. Review the content of the training annually with the Clinical Governance Committee and evaluate for adjustments needed.										
Task 4c. Each SNF will incorporate training of care pathways and INTERACT principles into new clinical staff orientation.										
Milestone #5 Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.										
Task Advance Care Planning tools incorporated into program (as evidenced by policies and procedures).										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task 5b. Social Services Departments within each participating SNF to evaluate current Advance Care Planning tools and validate that usage is reflected in policies and procedures.										
Task 5c. Social Services Departments within each participating SNF and facility INTERACT champion to ensure Advance Care Planning tools meet the requirements of the INTERACT program. The Social Services Department and SNF Interact Champion/Co-Champion will adjust tools as needed working with the PMO and advised by the Clinical Governance Committee. The entire Interdisciplinary Team within the SNF will be educated on any changes to the Care Planning Tools within the month following the updates.										
Task 5d. The facility INTERACT champion and/or co-champion will audit use of advance care planning tools within the SNF and provide audit results to the PMO for review with the Clinical Governance Committee. The audits must be performed annually at a minimum.										
Task 5e. Social Services Department within each participating SNF to conduct meetings with residents and family members using the facility established Advance Care Planning tools.										
Task 5f. The facility INTERACT champion and/or co-champion and Social Services Department within the SNF will reassess Advance Care Planning tools annually at a minimum. The INTERACT champion, co-champion and Social Services Department within the SNF will update the tools as required. The entire Interdisciplinary team within the SNF will be educated on any changes to the Care Planning Tools within the month following the updates.										
Milestone #6 Create coaching program to facilitate and support implementation.										
Task INTERACT coaching program established at each SNF.	0	0	0	0	0	0	0	0	0	0
Task 6b. Identify an INTERACT Champion located within each SNF. This Champion will be used for train-the-trainer programs within each respective organization to facilitate sustainability.										
Task 6c. Leverage Champions and facility Co-Champions in order to ensure continuity of training programs across units (facilities

and RPU).										
Task 6d. Integrate training efforts and needs with existing Performing Provider System (PPS) resources, such as the Workforce Strategy team and relationships built through the Provider Relations team.										
Task 6e. Each SNF will prepare standardized progress reports (e.g., monthly) to the Care Compass Network PMO. The progress reports will include overview of key metrics, deliverables, as well as areas of success and implementation challenges at a minimum in order to assist the SNF during the implementation process.										
Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.										
Task Patients and families educated and involved in planning of care using INTERACT principles.										
Task 7b. The Project Team, in conjunction with the PMO and Workforce Team (as needed) will create an educational strategy which will be leveraged for patient and family/caretakers distribution to supplement information found on INTERACT website regarding care planning. The strategy will outline the materials to be distributed, methods for refreshing materials for pertinence, as well as what the delivery method(s) will be for distribution. The plan will, at minimum, incorporate concepts as further outlined in the steps outlined in this plan.										
Task 7c. The PPS will collaborate and/or engage with local governing units (e.g., Social Service agencies) to facilitate patient and family/caretaker discussions with each participating facility.										
Task 7d. The PPS will facilitate the achievement of interdisciplinary meetings focused on advanced care planning for the PPS community of related providers.										
Task 7e. Identify Stop and Watch tool in SNF admissions packet and discuss with family members.										
Task 7f. The comprehensive training strategy, materials, and distribution methods (as well as targeted audiences) will be

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
delivered on at minimum an annual basis beginning in DSRIP year 2.										
Milestone #8 Establish enhanced communication with acute care hospitals, preferably with EHR and HIE connectivity.										
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria.)										
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	9	9	9	9	9	9	9	9	9	9
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	23	23	23	23	23	23	23	23	23	23
Task 8d. The 2bvii Project Team will engage with safety net Skilled Nursing Facilities (SNFs) in the development of enhanced communication tools which will allow for increased functionality such as the generation and delivery of CCD files or delivery of system generated reports which can be aligned with acute care hospital. As required, the PPS will promote SNF staff training on use of health information exchange with assistance of systems and functionality. Training will include, as identified, education with facilities regarding the sharing of data through data agreements such as the DURSA or BAA.										
Task 8e. SNF facilities are to receive education to inform them tracking/trending improvements in quality of care can be achieved most efficiently with an electronic health record that allows increased accessibility, sharing of data and analysis of data. Proof of education from each participating facility shall be reported to the PMO.										
Task 8f. Each participating SNF to create and communicate a Nursing Home Capabilities List to local hospital emergency room staff, local hospital discharge planners and local hospital physicians at a minimum.										
Milestone #9 Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.										
Task Membership of quality committee is representative of PPS staff involved in quality improvement processes and other stakeholders.

Project 2.c.i – Development of community-based health navigation services

IPQR Module 2.c.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Three major risks have been identified in development of the Community Based Health Navigator (CBHN) project to assist patients to access healthcare services efficiently. These include the following along with the mitigation strategy that has developed to decrease the risks identified.

- 1) The first risk is that the target population will not be aware or utilize health care and community resources available. It was identified during the community needs assessments that a low percentage of Medicaid recipients were not aware of health care and community resources. The potential impact of this risk to the project is continued inefficient use of available resources, resulting in both continued poor health of the target population and high costs of the system. To mitigate the risk, strategic marketing and community outreach as well as branding, use of social media is necessary to increase awareness and understanding for the beneficiary population. A consistent message will be developed which will be clear and at a level of understanding to consider limited cognitive skills. Means of distribution will be used that are successful in reaching the Medicaid recipients. Multiple distribution sites for material will be determined and a coordinated effort will be made with other projects.
- 2) Our second risk comes out of first, namely that once engaged, the target population will not be able to get the services needed because there is not sufficient healthcare resources, especially primary care physicians. The impact of this risk is continued inefficient use of available resources, especially use of ER and emergency transport. Our mitigation strategy includes Regional Performing Units and clinical integration teams establishing mechanisms and protocols for reporting gaps in service needs. Community Health Advocates (CHA) will facilitate the connection to clinical services. CHA's will coordinate non-clinical resources and set processes to identify and report any issues. Information about community resources will be routinely updated and stored in data bases, categorized by county, in an effort to maximize utilization of current resources.
- 3) Our final risk is a lack of transportation for our target population, especially in rural areas. The impact of this to the project success is continued inefficient use of available resources, resulting in both continued poor health of the target population and high costs to the system, also continued inappropriate use of the ER and emergency transport. Our mitigation strategy includes 211 providers and CHA providers tracking gaps in transportation availability to primary care resources. Gaps will identify specific areas and times of day and week that Medicaid recipients have not been able to find transportation. Reports identifying this information will be elevated to the project management level. The project management will coordinate meetings with all transportation providers to review the gaps and work together to develop a transportation system to fill the gaps and provide the resources necessary. The meeting could include public transportation providers, Commercial providers, human service providers, volunteer transportation, county sponsored services and personal transportation providers. These providers will be organized to provide a Transportation Committee to provide expertise and planning around transportation- related issues to support the 2c.i. project. Coordination with other projects throughout the PPS provider area will also be considered to evaluate possible solutions and resources. We will also build on existing services and networks established within our PPS to help mitigate risks such as transportation.

IPQR Module 2.c.i.4 - Prescribed Milestones

Instructions :

Please enter baseline target dates and work breakdown tasks with target dates for each of the milestones below.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.	Project	N/A	In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Community-based health navigation services established.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 1b. Identify PPS Partners - Care Compass Network will assess the current PPS landscape to identify existing/established CBOs who currently provide navigation services. Scope of services provided, training received, and ability to train others, potential credentialing, existing networks of navigation and navigation-related services, IT capabilities, and other pertinent areas of existing infrastructure and operations will be assessed via a Pre-Engagement Assessment created by the CBO Engagement Council.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 1c. Develop Navigator Roles - Using the results of the Pre-Engagement Assessment, the Project 2ci Team, Project Management Office, and Workforce Team of Care Compass Network will work in tandem with the CBOs with established navigation services to develop and define the CCN Community Health Advocate (CCN is employing the term "community health advocate" to delineate between NYS Health Exchange Navigators and navigators specific to this project) role and the description of services provided by this role. Existing CHA competencies and functions will be modified to address any gaps in current services provided as indicated in the Community Needs Assessment. The Onboarding Quality Committees within each Regional Performing Unit (RPU) will monitor the progress and results of these roles on an ongoing basis.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 1d. Training and Resources - Care Compass Network's Workforce Team and the Project 2ci Team will work in conjunction with the contracted organizations providing navigation services to develop a robust training program/resource guide. An initial training will be mandatory for organizations who contract with the PPS to perform Project 2ci related navigation services, supplemented by a community related resource guide. An ongoing, regular training schedule will	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Milestone #1 Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.										
Task Community-based health navigation services established.										
Task 1b. Identify PPS Partners - Care Compass Network will assess the current PPS landscape to identify existing/established CBOs who currently provide navigation services. Scope of services provided, training received, and ability to train others, potential credentialing, existing networks of navigation and navigation-related services, IT capabilities, and other pertinent areas of existing infrastructure and operations will be assessed via a Pre-Engagement Assessment created by the CBO Engagement Council.										
Task 1c. Develop Navigator Roles - Using the results of the Pre-Engagement Assessment, the Project 2ci Team, Project Management Office, and Workforce Team of Care Compass Network will work in tandem with the CBOs with established navigation services to develop and define the CCN Community Health Advocate (CCN is employing the term "community health advocate" to delineate between NYS Health Exchange Navigators and navigators specific to this project) role and the description of services provided by this role. Existing CHA competencies and functions will be modified to address any gaps in current services provided as indicated in the Community Needs Assessment. The Onboarding Quality Committees within each Regional Performing Unit (RPU) will monitor the progress and results of these roles on an ongoing basis.										
Task 1d. Training and Resources - Care Compass Network's Workforce Team and the Project 2ci Team will work in conjunction with the contracted organizations providing navigation services to develop a robust training program/resource guide. An initial training will be mandatory for organizations who contract with the PPS to perform Project 2ci related navigation services, supplemented by a community related resource guide. An ongoing, regular training schedule will be established for quality improvement and efficiency. Inherent to ongoing training will be the cross-pollination of Community Health Advocates from across the PPS. Best practices will be discussed and assessed by CHAs from

Milestone #2 Develop a community care resource guide to assist the community resources and ensure compliance with protocols, under direction from a collaborating program oversight group of medical/behavioral health, community nursing, and social support services providers.										
Task Resource guide completed, detailing medical/behavioral/social community resources and care protocols developed by program oversight committee.										
Task 2b. The 2ci Project Team will develop a Program Oversight Group to develop a Community Care Resource Guide. The Program Oversight Group will be comprised of members from the 2ci Project Team, PMO, Workforce Development Team, as well as representatives from medical/behavioral health, 211 centers, community nursing, and social services providers (including faith based organizations that provide support for chronic illness, etc.). Once developed the Resource Guide will

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
be approved by the Clinical Governance Committee and be used to supplement PPS navigation related training efforts (as outlined in Milestone 1). Review of this resource will occur annually at a minimum for any potential alterations.										
Task 2c. The Clinical Governance Committee, through the responsible Onboarding Quality Committee (e.g., an oversight committee) will review performance and adherence to established policies, procedures, metric outcomes, and deliverables. As needed amendments to the Community Care Resource Guide will be identified by the Program Oversight Group and/or Quality Committee and presented to the Clinical Governance Committee for endorsement. Any resource guide changes will be directly communicated, supplemented by training (if required), and openly published (e.g., CCN website, SharePoint) to ensure all PPS partners have access to PPS guidances.										
Task 2d. The Workforce Team will work in conjunction with the Project Management Office to modify training materials to train navigators using tools such as classroom techniques, small groups, 1-on-1 training, modeling, and/or shadowing. Regularly scheduled re-training will be established to allow for new partners/CHAs to receive training.										
Milestone #3 Recruit for community navigators, ideally spearheaded by residents in the targeted area to ensure community familiarity.										
Task Navigators recruited by residents in the targeted area, where possible.										
Task 3b. The PPS will leverage the Workforce Development Team to provide oversight to the creation/review of community navigator job descriptions, roles/responsibilities, with consideration for regional needs of the nine county PPS (as appropriate).										
Task 3c. The Workforce Development Team will work with the Project Management Office to provide PPS partner organizations support related to their recruitment of Community Health Advocates/Community Navigators with consideration for how to obtain input from the local community talent pool.										
Task 3d. The Workforce Development Team and Provider Relations Team will collaborate with PPS Partners to confirm they have available tools and resources, including PPS developed

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
resource guides to facilitate the training of new community navigators. As required by the PPS partner organization contract the existing and newly hired community navigators will receive and certify completion of PPS training materials.										
Milestone #4 Resource appropriately for the community navigators, evaluating placement and service type.										
Task Navigator placement implemented based upon opportunity assessment.										
Task Telephonic and web-based health navigator services implemented by type.										
Task 4c. The Project 2ci Team and PMO will perform an assessment of existing community navigators, including identification of potential locations and number of required navigators based on established, navigator service type (e.g., in person, telephonic, web-based), and evolving regional needs and DSRIP requirements (e.g., project plan, speed and scale, etc.)										
Task 4d. The Project 2ci and PMO teams will create site location directory of navigator services by service type. As identified, staffing shortages (e.g., by skillset, staffing numbers, etc.) will be communicated to PPS partners, documented and presented to the associated Onboarding Quality Committees at the appropriate Regional Performing Unit, and a remediation plan/roadmap developed.										
Milestone #5 Provide community navigators with access to non-clinical resources, such as transportation and housing services.										
Task Navigators have partnerships with transportation, housing, and other social services benefitting target population.										
Task 5b. Project Management Office will assess existing non-clinical resources and their relationships to CBOs providing navigation services in order to utilize and maximize current resource base.										
Task 5c. Project Management Office will coordinate maintenance and enhancement of existing non-clinical resources in the comprehensive resource guide for navigators.										
Task 5d. Project Management Office will ensure delivery of training and orient all community navigators to non-clinical resources by

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
partnering with the eight participating providers using existing curriculums which will be reviewed and modified to create standard protocols then used to train navigators using classroom techniques, small groups, 1-on-1 training, modeling, and shadowing. Additionally, Industry on line training through associations or contractors will be included to provide additional support and reinforcement to understand vital concepts.										
Milestone #6 Establish case loads and discharge processes to ensure efficiency in the system for community navigators who are following patients longitudinally.										
Task Case loads and discharge processes established for health navigators following patients longitudinally.										
Task 6b. The 2ci Project Team and PMO will collaborate with the Program Oversight Group to identify hot spotting opportunities/approaches for where navigators are needed within the PPS. Following initial assessments, the Program Oversight Group will help to monitor the optimal patient-to-community health advocate ratio by comparing previous ratios and workflows and what is needed for meeting established Speed and Scale needs.										
Task 6c. The 2ci Project Team and PMO will collaborate with the Program Oversight Group to determine what constitutes a 'graduation from the navigation program' to identify patients by status/buckets (e.g., Navigation services no longer required, On Watch for a certain period of time, Close Supervision Suggested, etc.). As appropriate standards and protocols, such as the definition of 'close supervision suggested' will be endorsed by the Clinical Governance Committee.										
Task 6d. The 2ci Project Team, PMO, and participating CBOs will develop discharge processes for patients who receive navigation services. Triggers for discharge, proper follow up post-discharge, and other methodological considerations will be borrowed from existing discharge processes, synthesized with current and future needs, and/or created anew. These processes will be assessed and approved by the Clinical Governance Committee.										
Task 6e. As required, the IT & Data Governance Committee will be solicited to identify tools/resources required for the tracking of patient flows, databases, and/or reporting.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Milestone #7 Market the availability of community-based navigation services.										
Task Health navigator personnel and services marketed within designated communities.										
Task 7b. The 2ci Project Team and PMO will conduct an assessment to identify community hot spots in need of community health advocates. Once complete, the Project 2ci Team will work in tandem with the Project Management Office along with the CCN marketing and outreach planning team to create a marketing plan which promotes the available service needs to place required workers in said hot spots.										
Task 7c. As part of the marketing plan, there will be targeted outreach strategies to different audiences (i.e., Providers, patients, community organizations, community leaders, etc.). The CCN Marketing and Communications team will reassess the efficacy of the marketing plan versus achievement of outcomes to determine if strategies need to be modified. Additionally, the PPS will collaborate with adjacent PPSs ('overlapping PPSs') to align communication strategies where possible.										
Milestone #8 Use EHRs and other technical platforms to track all patients engaged in the project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task 8b. The 2ci Project Team, in collaboration with the PMO and IT Workgroup will develop a set of standard Electronic Health Record (EHR) or other technical platform core requirements for organizations participating in the 2ci project to confirm navigated patient related services are properly documented and recorded and aligned with DSRIP needs.										
Task 8c. As required, the PPS will provide technical assistance and training to CHA organizations to assure appropriate utilization and implementation of EMRs and/or other technical platforms to track all patients engaged in the 2ci project.

Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.	
Develop a community care resource guide to assist the community resources and ensure compliance with protocols, under direction from a collaborating program oversight group of medical/behavioral health, community nursing, and social support services providers.	
Recruit for community navigators, ideally spearheaded by residents in the targeted area to ensure community familiarity.	
Resource appropriately for the community navigators, evaluating placement and service type.	
Provide community navigators with access to non-clinical resources, such as transportation and housing services.	
Establish case loads and discharge processes to ensure efficiency in the system for community navigators who are following patients longitudinally.	
Market the availability of community-based navigation services.	
Use EHRs and other technical platforms to track all patients engaged in the project.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 2.c.i.6 - IA Monitoring

Instructions :

Milestone 1: The IA recommends a more specific plan for this milestone. Examples include, develop navigator role and description of services needed, develop robust training program, evaluate training efficacy and modify as needed, develop community resource guide to include social services, bring together navigators to compare notes and learn from each other periodically, evaluate results of patients (have ED visits and inpatient admissions been reduced), determine improvements needed, make modifications, etc.

Milestone 2: PPS should look beyond the 211 as a resource for developing the resource guide. CBOs would be a great resource for knowing about organizations like cooperative extensions, faith based organizations that provide support groups for chronic illness, etc.

Milestone 6: The IA recommends identifying the optimal patient to navigator ratio and determining hot spotting to determine where navigators are needed. From that once patients are engaged determine what constitutes a "graduation from the program" and put patients in buckets such as no longer needed, on watch for certain period of time, close supervision needed, identify behaviors that will need close supervision, etc.

Milestone 7: The IA recommends developing a marketing plan that recognizes areas where navigators are needed and populations who are in most need based on data analysis.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project 2.d.i – Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care

IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk A) The greatest challenge with implementing project 2di will be to identify the target population and obtain their consent for completing the PAM, allowing the PPS to track this information and connecting it to the RHIO. This challenge will be overcome through the use of a robust patient activation outreach worker team (the team tasked with actively seeking to engage patients outside the clinical setting and "hot-spotting"), as well as close collaboration with the community-based health navigation team (2ci). These combined efforts, along with the training efforts that will occur through the patient activation training team for safety-net providers in the network, will ensure that the maximum number of individuals complete the PAM. Additionally, the PPS plans to embed the PAM survey in all safety-net practices at a minimum and will implement a process whereby all patients without insurance and all patients with Medicaid coverage will be given the PAM if it is determined they have not yet completed the survey. Risk B) The next challenge with implementing project 2di will be engaging providers in the project and obtaining provider buy-in for administering the PAM survey. This will be overcome through development of a comprehensive incentive plan, which will compensate providers for their participation and will assign a value to each PAM survey that is collected. Additionally, the patient activation training team will work with the provider relations component of the PPS to inform providers about the overall DSRIP initiative and PPS objectives, in addition to patient activation and the PAM. Risk C) The final challenge will be the risk of not meeting the number of actively engaged in the timeline the PPS has committed to. There are several contributing factors that could impact the PPS's ability to meet the metrics: 1) The DOH plans to contract with Insignia on behalf of NYS. If the DOH does not finalize an agreement quickly enough, this could potentially put the PPS behind schedule in terms of onboarding/training individuals on the PAM; 2) The PPS could inadvertently omit key hotspots, or overlook areas outside of the healthcare system where the target populations congregate, thereby missing opportunities for conducting the PAM. This will be overcome by a thorough data analysis showing where the known LU and UI currently receive services, and working closely with non-health care CBO's to target individuals outside of the health care system; 3) If the PPS does not hire the right staff for both the training team and the outreach worker team, the process of recruiting and re-training additional staff could put the PPS behind in meeting its numbers. This will be overcome by ensuring that a broad range of individuals receive training in the PAM, and the efforts will initially start out in the 9 hospitals within the network, so that lessons learned can be applied as the project is expanded to other providers. Project 2di will work closely with the Workforce Department to ensure that the right skillset is matched up with each of the two position types.

RPU Leads in the CBO Engagement Council) to educate and gauge partner interest and expertise for the initial round of Insignia training. In addition, the 2di Project Team will collaborate with the PPS Provider Relations team to identify CBOs for PAM survey training team/administration based on results from the PPS Pre-engagement Assessment (e.g., organizations with indicated skillsets/expertise in outreach/patient activation). Organizations attending the initial Insignia training session on 9/29/2015 will participate on the PAM training team.							
Task 2d. Members of the Care Compass Network PAM Training Team (e.g., those trained by Insignia on 9/29) will be contracted with the PPS, starting in October 2015, to receive payment for subsequently training either (a) their internal organization, or (b) training other PPS 2di participating organizations, in the utilization of the PAM Survey system. The Care Compass Network Project Management Office will centrally coordinate future training efforts, a process which will be aligned with the execution of partner contracts. The Care Compass Network Project Management team will subsequently track training and refresher course participation on an ongoing basis using a roster for individuals trained and monthly reports from partners/Trainers.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	Project	N/A	In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Analysis to identify "hot spot" areas completed and CBOs performing outreach engaged.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 3b. Identify who will conduct the analysis for "hot spots".	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 3c. Identify "hot spots" by analyzing utilization patterns for the uninsured using SPARCS (Statewide Planning And Research Cooperative System) "self-pay" category. Leveraging the local expertise of RPU members, assess emergency department and other utilization patterns. Additionally, focus will be given to Emergency Departments that serve a high percentage of the uninsured by zip code as tracked by hospitals.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 3d. Identify "hot spots" by analyzing the utilization low-utilizing and/or non-utilizing Medicaid enrollee Salient related data and reports. Leveraging the local expertise from each of the four Regional Performance Unit members, the 2di Project Team will also assess non-healthcare resource use for both non-	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
5c. The 2di Project Team will work with the Health Literacy and Cultural Competency Committee ("CCC") to review and develop training materials which promote appropriate health literacy and engagement approaches and awareness. This will be performed in addition to or in conjunction with the annually required Partner Organization cultural competency and health literacy training which will also be coordinated by the CCC.							
Task 5d. Identify the appropriate number of individuals from the associated partners/CBOs who would need to be trained in patient activation in order for the PPS to achieve the target speed and scale population based on the findings of the "hot spot" analysis.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 5e. Using the PAM Survey Training Team convened on 9/29 through the facilitated Insignia Health training session, provide training on patient activation and PAM as a PPS to participating organizations. Similarly, the Care Compass Network Project Management Office will track training and refresher course participation on an ongoing basis using a roster for individuals trained and monthly reports from partners. Additionally, the appropriateness with regards to number of trained PAM members from throughout the PPS will be evaluated (e.g., monthly) using Insignia standard reports, to determine if the PPS hot-spot and other planning models have allocated enough resources for patient activation related efforts. As needed plan modifications will be defined and coordinated through the appropriate clinical governance structures.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. • Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104. Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Procedures and protocols established to allow the PPS to work with the member's MCO and assigned PCP to help reconnect that beneficiary to his/her designated PCP.							
Task 6b. Care Compass Network will develop a focus team to align the steps and deliverables associated with this milestone with HIPAA and legal requirements to receive MCO enrollee lists.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 6c. Non Utilizing - The PPS project team will develop a procedure/protocol for connecting non-utilizing enrollees with PCPs. The focus will aim to identify the initial PCP (if any) previously identified by the patient, from where the CCN care coordination or navigation services will attempt to consent the patient and educate them regarding the benefits of collaboration with a PCP and utilization of other PPS benefits.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 6d. Low Utilizing - The PPS project team will develop a procedure/protocol for connecting low-utilizing patients with PCPs. The focus will aim to identify the patients corresponding PCP (if any) and utilize PPS care coordination or navigation services to re-establish patient connectivity to PCP resources already available to the member. As appropriate available claims data on recent encounters may be utilized to promote the re-engagement process with the PCP.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 6e. As required, obtain input at the RPU/PPS level through the Clinical Governance Committee for related procedures and protocols.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	Project	N/A	In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task For each PAM(R) activation level, baseline and set intervals toward improvement determined at the beginning of each performance period (defined by the state).	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 7b. Identify cohorts using PAM survey and assess initial baselines as compared to expected results. Using these, set intervals of improvement for each beneficiary cohort leveraging the Clinical Governance Committee	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task 17c. Develop PPS-wide Population health management strategy via Population Health team, including patient registries for tracking purposes.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task 17c. Collaborate among project participants to determine whether or not a patient has taken the PAM by both screening participants as well as coding appropriately for LUs, NUs, and the uninsured by using a shared IT resource.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.										
Task Partnerships with CBOs to assist in patient "hot-spotting" and engagement efforts as evidenced by MOUs, contracts, letters of agreement or other partnership documentation.										
Task 1b. Assess the knowledge and potential readiness of willing Community Based Organizations (CBOs) and other partners through Pre-Engagement Assessment.										
Task 1c. Determine whether or not the Performing Provider System (PPS) is held to the state contracting requirements with the aid of the Care Compass Network Compliance Officer and the Compliance & Audit Committee.										
Task 1d. Develop contracts to establish PPS and CBO/partner agreements.										
Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.										
Task Patient Activation Measure(R) (PAM(R)) training team established.										
Task 2b. Contract with Insignia for PAM training for select individuals on Project Team or from PPS partners (e.g., health systems, hospitals, CBOs, etc.) utilizing the PAM survey.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task 2c. Leverage the Project 11 Planning team to identify and solicit organizations and/or individuals to join the PAM Survey Training Team. In this effort the project planning team will leverage local expertise at the RPU level (through RPU Leads in the CBO Engagement Council) to educate and gauge partner interest and expertise for the initial round of Insignia training. In addition, the 2di Project Team will collaborate with the PPS Provider Relations team to identify CBOs for PAM survey training team/administration based on results from the PPS Pre-engagement Assessment (e.g., organizations with indicated skillsets/expertise in outreach/patient activation). Organizations attending the initial Insignia training session on 9/29/2015 will participate on the PAM training team.										
Task 2d. Members of the Care Compass Network PAM Training Team (e.g., those trained by Insignia on 9/29) will be contracted with the PPS, starting in October 2015, to receive payment for subsequently training either (a) their internal organization, or (b) training other PPS 2di participating organizations, in the utilization of the PAM Survey system. The Care Compass Network Project Management Office will centrally coordinate future training efforts, a process which will be aligned with the execution of partner contracts. The Care Compass Network Project Management team will subsequently track training and refresher course participation on an ongoing basis using a roster for individuals trained and monthly reports from partners/Trainers.										
Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.										
Task Analysis to identify "hot spot" areas completed and CBOs performing outreach engaged.										
Task 3b. Identify who will conduct the analysis for "hot spots".										
Task 3c. Identify "hot spots" by analyzing utilization patterns for the uninsured using SPARCS (Statewide Planning And Research Cooperative System) "self-pay" category. Leveraging the local expertise of RPU members, assess emergency department and other utilization patterns. Additionally, focus will be given to Emergency Departments that serve a high percentage of the uninsured by zip code as tracked by hospitals.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task 3d. Identify "hot spots" by analyzing the utilization low-utilizing and/or non-utilizing Medicaid enrollee Salient related data and reports. Leveraging the local expertise from each of the four Regional Performance Unit members, the 2di Project Team will also assess non-healthcare resource use for both non-utilizing and low-utilizing Medicaid enrollees.										
Task 3e. Identify which CBOs are geographically and organizationally aligned to outreach to these populations through responses from Pre-engagement Assessment.										
Task 3f. Contract with CBOs for outreach endeavors and track deliverables by incorporating a monthly reporting system outline in contract terms. This effort will be aligned with the performance monitoring process happening at the RPU level wherein partner efforts to administer PAM surveys and engage patients is recorded and reported up to the Project Management Office at "hot spot" locations. Course correct where appropriate as advised by the RPU-specific Onboarding Quality Subcommittees which report to the PPS Clinical Governance Committee.										
Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.										
Task Community engagement forums and other information-gathering mechanisms established and performed.										
Task 4b. Utilize a vendor (RMS) to distribute a panel which can be used to identify where community forums can be held.										
Task 4c. Work with CBOs to facilitate the forums to obtain input and engagement from the target populations.										
Task 4d. Identify individuals or groups who are willing to do the presentations.										
Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.										
Task PPS Providers (located in "hot spot" areas) trained in patient activation techniques by "PAM(R) trainers".										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task 5b. Identify and document which providers and CBOs will participate in the various components of the 2di project. Revisit this list as appropriate based on on-going Hot Spot analysis (as described later within this milestone).										
Task 5c. The 2di Project Team will work with the Health Literacy and Cultural Competency Committee ("CCC") to review and develop training materials which promote appropriate health literacy and engagement approaches and awareness. This will be performed in addition to or in conjunction with the annually required Partner Organization cultural competency and health literacy training which will also be coordinated by the CCC.										
Task 5d. Identify the appropriate number of individuals from the associated partners/CBOs who would need to be trained in patient activation in order for the PPS to achieve the target speed and scale population based on the findings of the "hot spot" analysis.										
Task 5e. Using the PAM Survey Training Team convened on 9/29 through the facilitated Insignia Health training session, provide training on patient activation and PAM as a PPS to participating organizations. Similarly, the Care Compass Network Project Management Office will track training and refresher course participation on an ongoing basis using a roster for individuals trained and monthly reports from partners. Additionally, the appropriateness with regards to number of trained PAM members from throughout the PPS will be evaluated (e.g., monthly) using Insignia standard reports, to determine if the PPS hot-spot and other planning models have allocated enough resources for patient activation related efforts. As needed plan modifications will be defined and coordinated through the appropriate clinical governance structures.										
Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). <ul style="list-style-type: none"> • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. • Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104.										
Task Procedures and protocols established to allow the PPS to work with the member's MCO and assigned PCP to help reconnect that beneficiary to his/her designated PCP.										
Task 6b. Care Compass Network will develop a focus team to align the steps and deliverables associated with this milestone with HIPAA and legal requirements to receive MCO enrollee lists.										
Task 6c. Non Utilizing - The PPS project team will develop a procedure/protocol for connecting non-utilizing enrollees with PCPs. The focus will aim to identify the initial PCP (if any) previously identified by the patient, from where the CCN care coordination or navigation services will attempt to consent the patient and educate them regarding the benefits of collaboration with a PCP and utilization of other PPS benefits.										
Task 6d. Low Utilizing - The PPS project team will develop a procedure/protocol for connecting low-utilizing patients with PCPs. The focus will aim to identify the patients corresponding PCP (if any) and utilize PPS care coordination or navigation services to re-establish patient connectivity to PCP resources already available to the member. As appropriate available claims data on recent encounters may be utilized to promote the re-engagement process with the PCP.										
Task 6e. As required, obtain input at the RPU/PPS level through the Clinical Governance Committee for related procedures and protocols.										
Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.										
Task For each PAM(R) activation level, baseline and set intervals toward improvement determined at the beginning of each performance period (defined by the state).										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task 7b. Identify cohorts using PAM survey and assess initial baselines as compared to expected results. Using these, set intervals of improvement for each beneficiary cohort leveraging the Clinical Governance Committee structure ensuring that patient activation strategies are developed and updated annually as appropriate. Initial baselines to be determined based on data and trends available from Insignia and/or other sources (e.g., Salient).										
Task 7c. Review results to modify cohort or baselines at the beginning of each performance period as needed and set targeted intervals toward improvement.										
Task 7d. Report changes in PAM activation level cohorts to Onboarding Subcommittees for performance monitoring. Additionally, the 2di Project Team will review ongoing PPS results and trends with experts from Insignia Health to ensure proper distribution and avoidance of false positives and/or outliers have been properly identified and remediated.										
Milestone #8 Include beneficiaries in development team to promote preventive care.										
Task Beneficiaries are utilized as a resource in program development and awareness efforts of preventive care services.										
Task 8b. Create a PPS strategy for how beneficiaries will be selected, including the utilization of the RMS vendor.										
Task 8c. Consult with RMS on tactics to engage beneficiaries in a manner that will result in their participation.										
Task 8d. Identify preventive care specialists to educate beneficiaries in preventive care.										
Milestone #9 Measure PAM(R) components, including: <ul style="list-style-type: none"> • Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. • If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score. • Individual member's score must be averaged to calculate a baseline measure for that year's cohort.

Task 15d. Organize forum between navigators and PPS partners providing services specifically to these populations for education and informative purposes.										
Task 15e. Obtain and/or develop training for navigators on insurance options and healthcare resources specific to UI, NU, and LU populations. Execution of training for navigators related to the 2di project will be incorporated to training also provided as a result of the 2ci project. Through the Project Management Office, Care Compass Network will track training and refresher course participation on an ongoing basis using a roster for individuals trained and monthly reports from partners.										
Task 15f. At a minimum, PPS protocols will be reviewed on an annual basis. During this time, the 2di Project team will also review the current insurance options landscape and adjust the impacted training strategies accordingly.										
Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.										
Task Timely access for navigator when connecting members to services.										
Task 16b. Develop a priority matrix to assist with referring patients to necessary primary and preventative services in conjunction with the Clinical Governance Committee.										
Task 16c. Analyze social determinants and mitigation strategies utilizing the expertise of the Clinical Governance Committee.										
Task 16d. Execute the steps of Project 2.c.i including, but not limited to, developing protocols, training, and utilizing technical platforms to track patients in order to ensure appropriate and timely access for navigators.										
Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.										
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task 17b. Develop PPS-wide IT Vision and Strategy, including assessment of EHRs and other IT platforms and their utilization within all partners, through IT vendor.										
Task 17c. Develop PPS-wide Population health management strategy via Population Health team, including patient registries for tracking purposes.										
Task 17c. Collaborate among project participants to determine whether or not a patient has taken the PAM by both screening participants as well as coding appropriately for LUs, NUs, and the uninsured by using a shared IT resource.										

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.										
Task Partnerships with CBOs to assist in patient "hot-spotting" and engagement efforts as evidenced by MOUs, contracts, letters of agreement or other partnership documentation.										
Task 1b. Assess the knowledge and potential readiness of willing Community Based Organizations (CBOs) and other partners through Pre-Engagement Assessment.										
Task 1c. Determine whether or not the Performing Provider System (PPS) is held to the state contracting requirements with the aid of the Care Compass Network Compliance Officer and the Compliance & Audit Committee.										
Task 1d. Develop contracts to establish PPS and CBO/partner agreements.										
Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.										
Task Patient Activation Measure(R) (PAM(R)) training team established.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task 2b. Contract with Insignia for PAM training for select individuals on Project Team or from PPS partners (e.g., health systems, hospitals, CBOs, etc.) utilizing the PAM survey.										
Task 2c. Leverage the Project 11 Planning team to identify and solicit organizations and/or individuals to join the PAM Survey Training Team. In this effort the project planning team will leverage local expertise at the RPU level (through RPU Leads in the CBO Engagement Council) to educate and gauge partner interest and expertise for the initial round of Insignia training. In addition, the 2di Project Team will collaborate with the PPS Provider Relations team to identify CBOs for PAM survey training team/administration based on results from the PPS Pre-engagement Assessment (e.g., organizations with indicated skillsets/expertise in outreach/patient activation). Organizations attending the initial Insignia training session on 9/29/2015 will participate on the PAM training team.										
Task 2d. Members of the Care Compass Network PAM Training Team (e.g., those trained by Insignia on 9/29) will be contracted with the PPS, starting in October 2015, to receive payment for subsequently training either (a) their internal organization, or (b) training other PPS 2di participating organizations, in the utilization of the PAM Survey system. The Care Compass Network Project Management Office will centrally coordinate future training efforts, a process which will be aligned with the execution of partner contracts. The Care Compass Network Project Management team will subsequently track training and refresher course participation on an ongoing basis using a roster for individuals trained and monthly reports from partners/Trainers.										
Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.										
Task Analysis to identify "hot spot" areas completed and CBOs performing outreach engaged.										
Task 3b. Identify who will conduct the analysis for "hot spots".										
Task 3c. Identify "hot spots" by analyzing utilization patterns for the uninsured using SPARCS (Statewide Planning And Research Cooperative System) "self-pay" category. Leveraging the local

expertise of RPU members, assess emergency department and other utilization patterns. Additionally, focus will be given to Emergency Departments that serve a high percentage of the uninsured by zip code as tracked by hospitals.										
Task 3d. Identify "hot spots" by analyzing the utilization low-utilizing and/or non-utilizing Medicaid enrollee Salient related data and reports. Leveraging the local expertise from each of the four Regional Performance Unit members, the 2di Project Team will also assess non-healthcare resource use for both non-utilizing and low-utilizing Medicaid enrollees.										
Task 3e. Identify which CBOs are geographically and organizationally aligned to outreach to these populations through responses from Pre-engagement Assessment.										
Task 3f. Contract with CBOs for outreach endeavors and track deliverables by incorporating a monthly reporting system outline in contract terms. This effort will be aligned with the performance monitoring process happening at the RPU level wherein partner efforts to administer PAM surveys and engage patients is recorded and reported up to the Project Management Office at "hot spot" locations. Course correct where appropriate as advised by the RPU-specific Onboarding Quality Subcommittees which report to the PPS Clinical Governance Committee.										
Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.										
Task Community engagement forums and other information-gathering mechanisms established and performed.										
Task 4b. Utilize a vendor (RMS) to distribute a panel which can be used to identify where community forums can be held.										
Task 4c. Work with CBOs to facilitate the forums to obtain input and engagement from the target populations.										
Task 4d. Identify individuals or groups who are willing to do the presentations.										
Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task PPS Providers (located in "hot spot" areas) trained in patient activation techniques by "PAM(R) trainers".										
Task 5b. Identify and document which providers and CBOs will participate in the various components of the 2di project. Revisit this list as appropriate based on on-going Hot Spot analysis (as described later within this milestone).										
Task 5c. The 2di Project Team will work with the Health Literacy and Cultural Competency Committee ("CCC") to review and develop training materials which promote appropriate health literacy and engagement approaches and awareness. This will be performed in addition to or in conjunction with the annually required Partner Organization cultural competency and health literacy training which will also be coordinated by the CCC.										
Task 5d. Identify the appropriate number of individuals from the associated partners/CBOs who would need to be trained in patient activation in order for the PPS to achieve the target speed and scale population based on the findings of the "hot spot" analysis.										
Task 5e. Using the PAM Survey Training Team convened on 9/29 through the facilitated Insignia Health training session, provide training on patient activation and PAM as a PPS to participating organizations. Similarly, the Care Compass Network Project Management Office will track training and refresher course participation on an ongoing basis using a roster for individuals trained and monthly reports from partners. Additionally, the appropriateness with regards to number of trained PAM members from throughout the PPS will be evaluated (e.g., monthly) using Insignia standard reports, to determine if the PPS hot-spot and other planning models have allocated enough resources for patient activation related efforts. As needed plan modifications will be defined and coordinated through the appropriate clinical governance structures.										
Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing

Task 13b. Get patient activation training for the CHAs and 211 staff (if needed)										
Task 13c. Organize regular meetings between community navigators and PAM surveyers for best practices and ongoing dialogue.										
Milestone #14 Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.										
Task Community navigators prominently placed (with high visibility) at appropriate locations within identified "hot spot" areas.	378	378	378	378	378	378	378	378	378	378
Task 14b. Assess "hot spots" locales.										
Task 14c. Analyze Pre-Engagement assessment for CBOs located within "hot spots."										
Task 14d. Contract with CBOs in "hot spots" to allow navigators' placement.										
Milestone #15 Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.										
Task Navigators educated about insurance options and healthcare resources available to populations in this project.										
Task 15b. Research the current landscape of insurance through NYS Health Exchange and other insurance providers/resources.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task 15c. The 2di Project Team will leverage existing PPS information, such as the Pre-engagement assessment for partners who provide services specifically to these populations.										
Task 15d. Organize forum between navigators and PPS partners providing services specifically to these populations for education and informative purposes.										
Task 15e. Obtain and/or develop training for navigators on insurance options and healthcare resources specific to UI, NU, and LU populations. Execution of training for navigators related to the 2di project will be incorporated to training also provided as a result of the 2ci project. Through the Project Management Office, Care Compass Network will track training and refresher course participation on an ongoing basis using a roster for individuals trained and monthly reports from partners.										
Task 15f. At a minimum, PPS protocols will be reviewed on an annual basis. During this time, the 2di Project team will also review the current insurance options landscape and adjust the impacted training strategies accordingly.										
Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.										
Task Timely access for navigator when connecting members to services.										
Task 16b. Develop a priority matrix to assist with referring patients to necessary primary and preventative services in conjunction with the Clinical Governance Committee.										
Task 16c. Analyze social determinants and mitigation strategies utilizing the expertise of the Clinical Governance Committee.										
Task 16d. Execute the steps of Project 2.c.i including, but not limited to, developing protocols, training, and utilizing technical platforms to track patients in order to ensure appropriate and timely access for navigators.										
Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.

Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.										
Task 17b. Develop PPS-wide IT Vision and Strategy, including assessment of EHRs and other IT platforms and their utilization within all partners, through IT vendor.										
Task 17c. Develop PPS-wide Population health management strategy via Population Health team, including patient registries for tracking purposes.										
Task 17c. Collaborate among project participants to determine whether or not a patient has taken the PAM by both screening participants as well as coding appropriately for LUs, NUs, and the uninsured by using a shared IT resource.

IPQR Module 2.d.i.6 - IA Monitoring

Instructions :

Milestone 2: The IA recommends providing more detail about how CBOs will be selected and how will training be tracked and measured.

Milestone 3: The IA recommends adding tasks that will determine how CBO services will be tracked and measured and course correction applied if needed and more specific detail needed to define how hot spots would be identified for analysis to be completed.

Milestone 5: The IA recommends providing the methodology here for how all of this will get done. This is a key milestone for this project, be specific.

Milestone 6: The IA recommends an expansion of the task list to identify tasks associated with all variables in the milestone.

Milestone 7: This task list is not sufficient to relay methodology for accomplishing milestone.

Milestone 15: The IA recommends adding tasks that identify how and when training will be provided, tracked and measured and how the insurance information will be kept up to date.

Milestone 17: The IA recommends more specificity especially relative to how the uninsured will get into the database and how the information will be kept current and how this will be tied in to the overall IT strategy.

Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project 3.a.i – Integration of primary care and behavioral health services

IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

#1 Risk – There is a risk that there is not a sufficient number of PCMH level 3 providers in the PPS. As a result, if not proactively managed through more care coordination or we may lose interest of the current PCMH Level 3 providers already in our network. To mitigate this risk we will determine levels of readiness of the participating Primary Care Physicians (PCPs) through the PreEngagement Survey. We will also provide metrics demonstrating increased productivity and improved health outcomes.

#2 Risk - A second risk is that Medicaid patients may access primary care through the ED or Walk-in settings and won't be captured. To mitigate this risk, we will engage ED and walk-ins with 3ai project.

#3 Risk – A third risk is that patients are too spread out within PPS. This poses a risk to integrating services in a way that reaches patients.
Mitigation – continuous education to providers

#4 Risk – A fourth risk is the expected limited resources for community based management. To mitigate this risk we will collaborate with other projects, as well as within the PPS RPU infrastructure to identify overlap in resources to consolidate where possible (for example, using population health resources to identify the most effective services for patients).

#5 Risks – A final risk is noted in instances where primary care providers may not be aware of behavioral health solutions. To mitigate this risk, we will make available education and training for providers.

participate in project 3ai. Following the assessment, a series of primary care (PC) pilot sites will be identified for project 3ai.										
Task 1d. The PPS will engage with the associated partners and provide support and/or incentives to PC sites to attain Level 3 PCMH status (for example, by developing a PCMH Quality Committee in the North Regional Performance Unit (RPU) to facilitate the region's attainment of Level 3 PCMH status, by contracting with a consultant as mentioned in Project 2.a.i's Implementation Plan, and/or via the Change Management Subcommittee of the IT Committee). The 3ai Project Team and associated Behavioral Health Quality Committees will develop and monitor performance metrics on productivity and health outcomes to support and encourage attainment of PCMH status (to address Risk #1).										
Task 1e. The 3ai Project Team and CCN PMO will work with PC sites to confirm necessary waivers, licensure, and/or certification or inclusion of new services on operating certificate and/or designation an Integrated Outpatient Services Clinic are in place.										
Task 1f. The 3ai Project Team and CCN will confirm and document each integrated site has negotiated contracts with Managed Care Organizations (as required) to reflect delivery of on site behavioral health (BH) services.										
Task 1g. The CCN PMO will promote the integration of differing cultures in primary and Behavioral Health (BH) care by developing and disseminating training, and encouraging cross specialty shadowing and collaboration. (Risk #5) The PMO will leverage the training functionality developed by the Workforce Development team as well as the Provider Relations team to assist with program development and program dissemination.										
Task 1h. The 3ai Project Team and CCN PMO to develop a strategy to engage partner Emergency Departments and Walk-In Clinics in project plans in order to address patients not being captured due to seeking primary care in ED or Walk-In clinics (Risk #2). Implement strategies to address this issue, as appropriate.										
Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Provider Relations will facilitate the delivery and tracking of training.										
Task 7g. The Care Compass Network PMO will perform implementation related reviews and/or reporting requirements to confirm and document BH sites have incorporated into policies the implementation of U.S. Preventive Task Force recommended screenings for all clients.										
Task 7h. Client-facing staff receives training on Preventive screening tool(s), how to integrate screening into patient work flow, add information to patient chart, referral and follow up. PMO will coordinate development of training material with approval from the Clinical Governance Committee. Workforce Project Manager and Provider Relations will facilitate the delivery and tracking of training.										
Milestone #8 Use EHRs or other technical platforms to track all patients engaged in this project.										
Task EHR demonstrates integration of medical and behavioral health record within individual patient records.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task 8c. The 3ai Project Team and CCN PMO will work with PC sites to confirm BH sites have obtained necessary waivers to be able to integrate BH and PC Medical Record.										
Task 8d. CCN PMO to develop educational tools for BH staff regarding elements of a PC Medical Record with approval from the Clinical Governance Committee. Workforce Project Manager and Provider Relations will facilitate the delivery and tracking of training.										
Task 8e. CCN will engage with the PC site to develop efficient flow of clinical information between providers using CQI principals.										
Task 8f. CCN engages with PC site to track actively engaged patients by reporting on frequency of screening, referral, and follow up for milestone reporting using the EHR.										
Milestone #9 Implement IMPACT Model at Primary Care Sites.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task PPS has implemented IMPACT Model at Primary Care Sites.	0	0	0	0	0	0	0	0	0	0
Milestone #10 Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.										
Task Coordinated evidence-based care protocols are in place, including a medication management and care engagement process to facilitate collaboration between primary care physician and care manager.										
Task Policies and procedures include process for consulting with Psychiatrist.										
Milestone #11 Employ a trained Depression Care Manager meeting requirements of the IMPACT model.										
Task PPS identifies qualified Depression Care Manager (can be a nurse, social worker, or psychologist) as identified in Electronic Health Records.										
Task Depression care manager meets requirements of IMPACT model, including coaching patients in behavioral activation, offering course in counseling, monitoring depression symptoms for treatment response, and completing a relapse prevention plan.										
Milestone #12 Designate a Psychiatrist meeting requirements of the IMPACT Model.										
Task All IMPACT participants in PPS have a designated Psychiatrist.										
Milestone #13 Measure outcomes as required in the IMPACT Model.										
Task At least 90% of patients receive screenings at the established project sites (Screenings are defined as industry standard questionnaires such as PHQ-2 or 9 for those screening positive, SBIRT).										
Milestone #14 Provide "stepped care" as required by the IMPACT Model.										
Task In alignment with the IMPACT model, treatment is adjusted based on evidence-based algorithm that includes evaluation of patient after 10-12 weeks after start of treatment plan.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Milestone #15 Use EHRs or other technical platforms to track all patients engaged in this project.										
Task EHR demonstrates integration of medical and behavioral health record within individual patient records.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.										
Task All practices meet NCQA 2014 Level 3 PCMH and/or APCM standards by the end of DY3.	0	0	0	0	0	0	0	0	0	0
Task Behavioral health services are co-located within PCMH/APC practices and are available.	0	0	0	0	0	0	0	0	0	0
Task 1c. The 3ai Project Team will perform a review of PPS partners to understand the number of Medicaid recipients, facility PCMH status, and overall readiness/interest level of the site to participate in project 3ai. Following the assessment, a series of primary care (PC) pilot sites will be identified for project 3ai.										
Task 1d. The PPS will engage with the associated partners and provide support and/or incentives to PC sites to attain Level 3 PCMH status (for example, by developing a PCMH Quality Committee in the North Regional Performance Unit (RPU) to facilitate the region's attainment of Level 3 PCMH status, by contracting with a consultant as mentioned in Project 2.a.i's Implementation Plan, and/or via the Change Management Subcommittee of the IT Committee). The 3ai Project Team and associated Behavioral Health Quality Committees will develop and monitor performance metrics on productivity and health outcomes to support and encourage attainment of PCMH status (to address Risk #1).										
Task 1e. The 3ai Project Team and CCN PMO will work with PC

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
sites to confirm necessary waivers, licensure, and/or certification or inclusion of new services on operating certificate and/or designation an Integrated Outpatient Services Clinic are in place.										
Task 1f. The 3ai Project Team and CCN will confirm and document each integrated site has negotiated contracts with Managed Care Organizations (as required) to reflect delivery of on site behavioral health (BH) services.										
Task 1g. The CCN PMO will promote the integration of differing cultures in primary and Behavioral Health (BH) care by developing and disseminating training, and encouraging cross specialty shadowing and collaboration. (Risk #5) The PMO will leverage the training functionality developed by the Workforce Development team as well as the Provider Relations team to assist with program development and program dissemination.										
Task 1h. The 3ai Project Team and CCN PMO to develop a strategy to engage partner Emergency Departments and Walk-In Clinics in project plans in order to address patients not being captured due to seeking primary care in ED or Walk-In clinics (Risk #2). Implement strategies to address this issue, as appropriate.										
Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.										
Task Regularly scheduled formal meetings are held to develop collaborative care practices.										
Task Coordinated evidence-based care protocols are in place, including medication management and care engagement processes.										
Task 2c. Develop collaborative care protocols for integrating evidence based Behavioral Health screening tools into PC sites. Protocols will be approved by the Clinical Governance Committee and recertified on an annual basis.										
Task 2d. Develop protocols for assessment, crisis/high risk response plan, and treatment, including integrated care plan, follow-up, and management/monitoring of response to treatment in the case of positive screening results. Protocols will be endorsed by the Clinical Governance Committee and approved by the

Board of Directors and be recertified by Clinical Governance Committee at minimum annually.										
Task 2e. Protocols will be endorsed by the Clinical Governance Committee and approved by the Board of Directors and be recertified by Clinical Governance Committee at minimum annually to allow continuous process improvement, as indicated.										
Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.										
Task Policies and procedures are in place to facilitate and document completion of screenings.										
Task Screenings are documented in Electronic Health Record.										
Task At least 90% of patients receive screenings at the established project sites (Screenings are defined as industry standard questionnaires such as PHQ-2 or 9 for those screening positive, SBIRT).										
Task Positive screenings result in "warm transfer" to behavioral health provider as measured by documentation in Electronic Health Record.	0	0	0	0	0	0	0	0	0	0
Task 3e. 3ai Team to identify leading evidenced-based standardized BH screening tools (including PHQ-2, PHQ-9, SBIRT and OASAS-approved tools for SA). Submit tool(s) for approval to the Clinical Governance Committee for PPS-wide adoption. Clinical Governance to recertify annually.										
Task 3f. 3ai Team to identify appropriate staffing models based on NYS guidelines and regulations. Contracts with PC sites will reflect the recommendations from the 3ai Team.										
Task 3g. Client-facing staff will receive training on basic behavioral health challenges most commonly seen in primary care, including depression, substance use and anxiety, as well as recognizing the signs and symptoms of more complex conditions. PMO will coordinate development of training material with approval from the Clinical Governance Committee. Workforce Committee will implement training.

Task 3h. Client-facing staff will receive PPS facilitated training on BH screening tool, how to integrate screening into patient work flow, add information to patient chart, referral and follow up. The 3ai project team, PMO, and Workforce Development team will coordinate development of training material with approval from the Clinical Governance Committee with special consideration for how planning and implementation efforts can be achieved without interfering with existing practice flows. The Workforce Project Manager and Provider Relations team will oversee the direct implementation and delivery of training.										
Task 3i. The Care Compass Network PMO will perform implementation related reviews and/or reporting requirements to confirm and document PC sites incorporate into policies the implementation of BH screenings for clients.										
Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.										
Task EHR demonstrates integration of medical and behavioral health record within individual patient records.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task 4c. The Care Compass Network PMO and PC sites will develop timelines for waiver approval to integrate BH and PC Medical Record.										
Task 4d. The 3ai Project Team, in collaboration with the Workforce Development and PMO teams will develop training material to educate PC staff regarding elements of a BH Medical Record with approval from the Clinical Governance Committee. Workforce Committee and Provider Relations teams will subsequently implement training.										
Task 4e. CCN will engage with the PC site to develop efficient flow of clinical information between providers using CQI principals.										
Task 4f. CCN engages with PC site to track actively engaged patients by reporting on frequency of screening, referral, and follow up for milestone reporting using the EHR.										
Milestone #5 Co-locate primary care services at behavioral health sites.

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task PPS has achieved NCQA 2014 Level 3 PCMH or Advanced Primary Care Model Practices by the end of DY3.	0	0	0	0	0	0	0	0	0	0
Task Primary care services are co-located within behavioral Health practices and are available.	0	0	0	0	0	0	0	0	0	0
Task Primary care services are co-located within behavioral Health practices and are available.	0	0	0	0	0	0	0	0	0	0
Task 5d. The 3ai Project Team will perform a review of PPS BH partners to understand the number of Medicaid recipients, facility PCMH status, and overall readiness/interest level of the site to participate in project 3ai. Following the assessment, a series of BH pilot sites will be identified for project 3ai. Potential Article 31 Clinics offer a combination of mental health services, substance abuse treatment, and services for the developmentally disabled. CCN PMO and BH sites will identify space for medical procedures in accordance with DOH/OMH/OASAS regulations and/or Integrated Outpatient Services requirements, and apply for waivers/licenses as appropriate.										
Task 5e. The PPS will engage with the associated partners and provide support and/or incentives to ensure integrated sites have negotiated contracts with Managed Care Organizations (MCOs) to reflect delivery of on site primary care services with no medically unreasonable treatment limits and in keeping with state parity and other insurance laws. CCN PMO and Behavioral Health Subcommittee to support integrated sites' development through the development and dissemination of best practices. Note: Article 31 sites have authority or secured waivers that allow for on-site preventative and evaluation and management (E/M) services.										
Task 5f. Logistics of Integration - BH sites will complete necessary physical space and/or workflow accommodations to provide integrated services. CCN PMO, CCN Compliance, IT and Change Management committees will assist sites in completing logistical requirements of integration.										
Task 5g. BH sites will offer primary care services during all practice hours. CCN will ensure behavioral health clinic policies and procedures reflect U.S. Preventive Services Task Force recommended screenings for all clinic clients, such as: lipids,

hypertension, tobacco, alcohol, and breast/colon/cervical cancer. Related clinical standards adopted by the PPS will be prepared by the 3ai Project Team and PMO and presented to the Clinical Governance Committee and Board of Directors for approval.										
Milestone #6 Develop collaborative evidence-based standards of care including medication management and care engagement process.										
Task Regularly scheduled formal meetings are held to develop collaborative care practices.										
Task Coordinated evidence-based care protocols are in place, including a medication management and care engagement process.										
Task 6c. CCN PMO/Provider Relations will reach out to partners to gather information regarding existing practice protocols for care engagement, screening, assessment, medication management, and treatment.										
Task 6d. RPU Behavioral Health Subcommittees to adopt/develop protocols for care engagement, screening, assessment, crisis/high risk response plan, medication management and treatment including development of an integrated care plan, follow - up, and management for at least one target condition (e.g. diabetes, hypertension, obesity, chronic pain). Protocols will be based on the US Preventative Task Force Guidances. Clinical Governance will approve protocols and recertify annually.										
Task 6e. Develop collaborative care models for integrated services. Establish criteria for collaboration between providers, including opportunities for cross training in PC and BH settings, to ensure a comprehensive care plan is developed and executed for patients. CCN RPU leaders, in their roles on the Behavioral Health Subcommittees, will initiate and implement opportunities for cross training.										
Milestone #7 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.										
Task Screenings are conducted for all patients. Process workflows

IPQR Module 3.a.i.6 - IA Monitoring

Instructions :

Stakeholders: No SUD providers are identified specifically. It is not clear if behavioral health providers in this case includes SUD, please clarify and add if needed.

Model 1, Milestone 3: The IA recommends additional detail for how this milestone will be accomplished. The PPS needs to add task re: training of staff on the use of screening tools and assess how they can be effectively integrated into practices without disrupting practice flow.

Model 2, Milestone 5: The IA recommends more specificity about how this will be achieved and add a task that addresses the logistics of the integration. Extend time frame for completion to allow for space renovations to be completed.

Model 2, Milestone 6: The IA recommends more specificity about how this will be achieved, including tasks for initiation and implementation of cross training.

Model 2, Milestone 7: The IA recommends more specificity about how this will be achieved.

Project 3.a.ii – Behavioral health community crisis stabilization services

IPQR Module 3.a.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

- 1) Risk: Lack of buy-in by community, providers, and law enforcement. For well over 30 years, response personnel have been trained that when an individual experiences a behavioral health crisis and is not considered safe, the individual should be transported to the nearest hospital emergency department. Most after-hour phone messages indicate that if the individual is in crisis they should go to the emergency department. Creating acceptance and trust throughout the community that an alternative approach to a behavioral health crisis can be safe and effective will be a challenge, particularly when services such as mobile crisis, respite, and peer support have not been traditionally available and/or have not been consistently utilized. To mitigate this risk will take careful development of education and training throughout the PPS about this project and its benefits. This education will need to be part of an overall strategy of the PPS to change the perception of how health care and behavioral health care services will be provided within the region. In addition, there will need to be a focus on encouraging the community members to allow individuals, other than law enforcement, into their homes or other community settings to provide the intervention.
- 2) Our second risk centers on the lack of, or use of, a consistent evidence based screening/assessment tool with appropriate decision matrix regarding level of care. At present there is a patchwork of crisis intervention strategies throughout the PPS, each developed by the individual agency that provides the service. Part of the success of this project will be to ensure that evidence based, standardized tools are used as the basis of the assessment, decision making, and data collection process. Gaining acceptance and utilization by behavioral health providers will require time, training, follow-through, and data that can demonstrate that this approach provides better outcomes for the individual in crisis. To mitigate this risk, the Behavioral Health team leaders have interviewed a vendor who has validated, evidence based screening and assessment tools for all levels of Behavioral Health projects. This would provide a way of providing standardized screenings, assessments, level of care decisions and also collection of necessary data.
- 3) Our third risk is the lack of ability to share protected health information in a real time, crisis situation. Providers will need to have access to a secure portal and there will need to be clear protocols regarding what information can be shared throughout a crisis event. Because no one agency will be providing all of the services within this project, there may be confusion regarding what information can be shared with whom, and when. Lack of clarity, solid protocols, and training regarding data sharing may result in providers not using the services appropriately which would reduce the effectiveness of this project. In addition, a method for obtaining Individual consent will have to be developed. To mitigate this we will work to ensure that clarification, written protocols, and training occur prior to and throughout the implementation of the project. It is important that all providers understand and operate under all privacy and security regulations for sharing of private data and protected health information. The PPS will need to develop and implement an appropriate consent form.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 3.a.ii.4 - Prescribed Milestones

Instructions :

Please enter baseline target dates and work breakdown tasks with target dates for each of the milestones below.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	Project	N/A	In Progress	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task PPS has established a crisis intervention program that includes outreach, mobile crisis, and intensive crisis services.	Project		In Progress	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task 1b. 3a.ii Team will develop a crisis intervention program and perform an assessment to determine, for each Regional Performance Unit (RPU) as well as overlapping PPSs, which agencies (including the respective local governance units "LGUs" for each of the nine counties) or individual provider(s) can best meet the project needs. Project components will include mobile crisis intervention, phone triage, observation beds, and community respite services. Engaged agencies/individuals are expected to include county mental health agencies, Directors of Community Services, law enforcement, and CBOs offering behavioral health and respite services. Program will create alternative ways (compared to ED admission) for patients and families to seek out crisis stabilization services, especially in cases when patient does not require intensive inpatient care. Program approaches for each RPU are listed in steps 1c-1f within this milestone.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 1c. Based on initial assessments of overall PPS partner readiness and willingness to participate in the project, the 3a.ii Project Team will initially pursue engaging a crisis intervention program through a mobilized Southern RPU (Broome/Tioga Counties) to fully implement a total Crisis Stabilization Service built on the existing CPEP services housed by PPS member United Health Services Hospitals (UHSH). Engaged services are expected to include a minimum of phone triage, mobile crisis, and observation beds. The PPS will also collaborate with Catholic Charities for the development of community based crisis respite beds/apartments.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 1d. Repeat model for the North RPU by identifying available resources,	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
readiness, and adjusting plan as necessary for local needs. CCN PMO will coordinate services with PPSs with overlapping coverage to identify economies of scale.							
Task 1e. Repeat model for the West RPU by identifying available resources, readiness, and adjusting plan as necessary for local needs. CCN PMO will coordinate services with PPSs with overlapping coverage to identify economies of scale.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 1f. Repeat model for the East RPU by identifying available resources, readiness, and adjusting plan as necessary for local needs. CCN PMO will coordinate services with PPSs with overlapping coverage to identify economies of scale.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Milestone #2 Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.	Project	N/A	In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task PPS has implemented diversion management protocol with PPS Hospitals (specifically Emergency Departments).	Project		In Progress	04/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task 2b. The 3aii Project Team will develop a PPS profiling map of health homes, emergency room, and hospital services to understand existing linkages and workflows for each RPU. As a result of the assessment, a phased approach for remediation of missing or enhanced linkages, including communication requirements will be prepared.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 2c. Using the profiling map the 3aii Project Team will engage CBOs, ED, and hospitals to develop and implement diversion protocols from ED and inpatient services. Protocols prepared by these workgroups will be presented to the Clinical Governance Committee and Board of Directors for approval - and recertified annually for pertinence. The 3aii Project Team and PMO will develop educational material related to Crisis Stabilization Services offered under this program for law enforcement and the medical community (e.g., barrier identified as Risk #1) and leverage the Workforce Team and Provider Relations to distribute and communicate education/training. Materials prepared will also be made centrally available to all PPS members by posting to the CCN website, SharePoint, etc.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Milestone #3	Project	N/A	In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Establish agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.							
Task PPS has engaged MCO in negotiating coverage of services under this project and/or MCO provides coverage for services in project.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 3b. The PPS would have an initial conversation with the MCOs to discuss the approach on how to include services not currently covered today. The discussion will outline a framework which will include a summary whereby the the CCN PMO will conduct a quantitative and qualitative needs assessment of the affected population to understand service array utilization of the continuum of care, the organizations providing them, and corresponding expected level of effort. In addition, the PPS will seek to understand needed services to address related issues of the affected population not currently covered by Medicaid. For example, this will help to understand what services in the community would effectively help to avoid utilization of more expensive services.	Project		In Progress	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task 3c. With an understanding on the approach, the PPS PMO and Analytics team will perform a review of available data to identify trends and understand the continuum of care to develop a prototype model for crisis management whose intent is to reduce hospital leverage / ED use. Other key stakeholders to include in this review include police departments, EMT transports, etc. Upon completion the PPS will meet with MCOs to share the data and analysis and work together to develop a payment methodology to include currently uncovered services that are found to be essential in avoiding hospital use for this population.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Milestone #4 Develop written treatment protocols with consensus from participating providers and facilities.	Project	N/A	In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Regularly scheduled formal meetings are held to develop consensus on treatment protocols.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Coordinated treatment care protocols are in place.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 4c. Develop written Crisis Stabilization protocols in tandem with the 3aii Project Team, participating agencies, providers, CBOs, and collaboration with other PPSs. Once developed, the protocols will be submitted to the Clinical	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Governance Committee (CGC) and Board of Directors for approval. Each year, the CGC will approve and recertify previously adopted protocols. (Risk #3) On an ongoing basis, the respective regional performance unit Behavioral Health Subcommittee will provide oversight and monitoring for adherence and efficacy of plans. Provider remediation or protocol amendment (e.g., based on regional customization or alignment with new leading practices) will be made available to the Clinical Governance Committee.							
Task 4d. CCN will require participating agencies, providers, and CBOs to follow the adopted training related to the agreed upon protocols as part of the contracting process.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Milestone #5 Include at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services.	Project	N/A	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task PPS includes at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services in provider network	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task PPS evaluates access to psychiatric services (in terms of community needs assessment, geographic access, wait times, and other measures), identifies improvement areas, and implements improvement steps.	Provider	Safety Net Hospitals	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 5c. The 3aii Project Team and CCN PMO will pursue contracting with identified hospitals within the PPS based off evaluation of implementation criteria such as offering of specialty psychiatric services/crisis oriented-psychiatric services, and overall readiness/willingness to engage in 3aii related work. Based on the initial assessments, the 3aii Project Team expects to engage with United Health Services, Inc., Cayuga Medical Center, and Cortland Regional Medical Center for this project.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 5d. On at least an annual basis, the 3aii Project Team and PMO will present to each regional performance unit Behavioral Health Subcommittee (e.g., 3aii Quality Committee) an evaluation and report of crisis-oriented psychiatric services availability, geographic access, wait times, etc. to identify areas for improved access. As required and advised by the BH Quality Committee, the PMO will implement improvement plans (e.g., such as improvement efforts or program expansion efforts).	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Milestone #6	Project	N/A	In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Expand access to observation unit within hospital outpatient or at an off campus crisis residence for stabilization monitoring services (up to 48 hours).							
Task PPS includes hospitals with observation unit or off campus crisis residence locations for crisis monitoring.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task PPS evaluates access to observation unit or off campus crisis residence services (in terms of community needs assessment, geographic access, wait times, and other measures), identifies improvement areas, and implements improvement steps.	Provider	Safety Net Hospitals	In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task PPS evaluates access to observation unit or off campus crisis residence services (in terms of community needs assessment, geographic access, wait times, and other measures), identifies improvement areas, and implements improvement steps.	Provider	Safety Net Clinics	In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task PPS evaluates access to observation unit or off campus crisis residence services (in terms of community needs assessment, geographic access, wait times, and other measures), identifies improvement areas, and implements improvement steps.	Provider	Safety Net Behavioral Health	In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 6e. Using the review performed of 3a ii related health care linkages and workflows, the Project 3a ii Team and PMO will pursue contracts (as necessary) with PPS health care providers to offer observation beds in Safety Net Hospitals. Team has initially identified a Phase I approach for collaboration with Cortland Regional Medical Center and Cayuga Medical Center for the expansion of access to observation units. In Phase II the 3a ii Project Team will identify strategies for the remaining regions/providers.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 6f. CCN PMO to contract with PPS CBOs to maintain community-based respite beds (safety net clinics and/or safety net behavioral health providers) that offer crisis intervention and observation services within the community for those individuals who can be stabilized outside of hospital setting.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 6g. Annually, PMO will present to RPU Behavioral Health Subcommittees an evaluation of off-campus residence service availability, geographic access, wait times, etc. to identify areas for improved access. PMO implements improvement plans.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Milestone #7	Project	N/A	In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.							
Task PPS includes mobile crisis teams to help meet crisis stabilization needs of the community.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task Coordinated evidence-based care protocols for mobile crisis teams are in place.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 7c. The 3aii Project Team to perform an assessment of PPS needs (e.g., based on community needs assessment, Salient data, etc.) as well as PPS Partner service offerings, capabilities, and readiness/ability to partner with CCN in the deployment of mobile crisis teams to provide crisis stabilization services using evidenced-based protocols developed by medical staff. Based on initial reviews the 3aii Project Team has identified the UHS Comprehensive Psychiatric Emergency Program (CPEP) as a pilot in delivery of the mobile intervention services to the PPS.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 7d. The PPS, in collaboration with existing leading practices and partner protocols will develop/adopt evidence-based protocols for mobile intervention for use by mobile intervention teams. Identified protocol(s) will be endorsed by the Clinical Governance Committee, approved by the Board of Directors, and subsequently recertified on, at minimum, an annual basis by the Clinical Governance Committee.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 7e. The 3aii Project Team will identify strategies to provide/deliver mobile crisis teams/services throughout the PPS as needs exist (e.g., by RPU.)	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 7f. Annually, the PMO will present to RPU Behavioral Health Subcommittees (e.g., 3aii Quality Committees by region) an evaluation of mobile crisis service availability, geographic access, wait times, etc. to identify areas for improved access. The PMO will collaborate with partners to implement improvement plans identified by the quality committees (as required by PPS partner contracts).	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Milestone #8 Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration	Project	N/A	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

Year (DY) 3.							
Task EHR demonstrates integration of medical and behavioral health record within individual patient records.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Primary Care Physicians	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Non-PCP Practitioners	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Hospitals	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	Provider	Safety Net Behavioral Health	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Alerts and secure messaging functionality are used to facilitate crisis intervention services.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 8g. 3a11 Team to identify EHR or other IT platform(s) for behavioral health screening/assessment tool, collection, sharing and storage of data. EHR or other IT platform(s) to meets several requirements which facilitate intervention services (for example, integrated medical/behavioral health record, ability to track patients, ability to report agency-level performance metrics, RHIO/SHIN-NY connectivity, alerts and secure messaging). CCN PMO to coordinate review and approval of IT solutions with the IT Committee (and the associated review processes) and align vendor solutions with project needs as well as the broader IT Vision of the PPS.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 8h. The PPS will execute a contract with the selected vendor for the delivery of services. The CCN PMO/Provider Relations to oversee roll out of EHR or other IT platform to contracted agencies, providers, and CBOs offering crisis stabilization services. Rollout includes readiness assessment, training, workflow optimization, and go live. (Risk #3) As part of the implementation process, PPS Partners will be required to submit documentation such as certifications, training attestations/rosters, or system reports to confirm achievement of key implementation/integration milestones.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Milestone #9 Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.	Project	N/A	In Progress	04/01/2015	09/30/2017	09/30/2017	DY3 Q2
Task PPS has implemented central triage service among psychiatrists and	Project		In Progress	04/01/2015	09/30/2017	09/30/2017	DY3 Q2

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
behavioral health providers.							
Task 9b. The PPS (through collaboration by the project team as well as stakeholders) will identify potential providers of a central triage service crisis stabilization services, as outlined by the PPS and/or by the respective regional performance unit. As part of this process, the 3aii Project Team will perform an assessment to align project requirements with the availability and needs of the community (e.g., central triage service). A strategy will be developed to connect triage service provider(s) identified with participating providers of behavioral health services, mobile intervention, inpatient observation, and community respite services. The finalized plans will serve as a baseline for operating/contractual agreements with PPS members participating in project 3aii.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task 9c. As part of the Care Compass Network contract, the centralized phone triage provider(s) will be required to use a standard assessment tool, approved by the Clinical Governance Committee and recertified annually.	Project		In Progress	04/01/2015	06/30/2017	06/30/2017	DY3 Q1
Milestone #10 Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care.	Project	N/A	In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task PPS has created an active quality subcommittee that reports to PPS quality committee that is representative of medical and behavioral health staff and is specifically focused on integration of primary care and behavioral health services within practice sites and other behavioral health project initiatives. Note: Only one quality sub-committee is required for medical and behavioral health integration projects in Domain 3a.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Quality committee identifies opportunities for quality improvement and use of rapid cycle improvement methodologies, develops implementation plans, and evaluates results of quality improvement initiatives.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task PPS evaluates and creates action plans based on key quality metrics, to include applicable metrics listed in Attachment J Domain 3 Behavioral Health Metrics.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task PPS quality subcommittee conducts and/or reviews self-audits to ensure compliance with processes and procedures developed for this project.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Service and quality outcome measures are reported to all stakeholders including PPS quality committee.							
Task 10f. CCN to seat Regional Performance Unit Behavioral Health Subcommittees. Each committee will be comprised of local medical and behavioral health experts who can evaluate the crisis stabilization program and integration of primary care and behavioral health services.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 10g. CCN PMO regularly reports key quality metrics (including Appendix J metrics Domain 3 Behavioral Health metrics) to RPU Behavioral Health Subcommittees. Behavioral Health Subcommittees identifies opportunities for quality improvement; PMO develops implementation plans, committee and PMO evaluate results of quality improvement initiatives. CCN to distribute service and quality outcome measures to Care Compass Network quality committee(s) as well as to the stakeholders through platforms such as the Stakeholders meeting and/or website.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Milestone #11 Use EHRs or other technical platforms to track all patients engaged in this project.	Project	N/A	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 11b. 3aai Team to identify EHR or other IT platform(s) for behavioral health screening/assessment tool, collection, sharing and storage of data. EHR or other IT platform(s) to meets several requirements which facilitate intervention services (for example, integrated medical/behavioral health record, ability to track patients, ability to report agency-level performance metrics, RHIO/SHIN-NY connectivity, alerts and secure messaging). CCN PMO to execute a contract with the selected vendor.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 11c. CCN PMO/Provider Relations to oversee roll out of EHR or other IT platform to contracted agencies, providers, and CBOs offering crisis stabilization services. Rollout includes readiness assessment, training, workflow optimization, and go live. (Risk #3)	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 11d. The IT Project Manager and 3aai Project Team will prepare a validation checklist to be used as each partner completes implementation and related connectivity requirements. After the initial assessment, the PPS Population	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4

Health team will provide feedback regarding the accuracy/validity of data to PPS partners to promote the accuracy, completion, timeliness, and validity of data transmitted and gathered/reported in the EHR/technical platform and related interfaces.							

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Milestone #1 Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.										
Task PPS has established a crisis intervention program that includes outreach, mobile crisis, and intensive crisis services.										
Task 1b. 3aii Team will develop a crisis intervention program and perform an assessment to determine, for each Regional Performance Unit (RPU) as well as overlapping PPSs, which agencies (including the respective local governance units "LGUs" for each of the nine counties) or individual provider(s) can best meet the project needs. Project components will include mobile crisis intervention, phone triage, observation beds, and community respite services. Engaged agencies/individuals are expected to include county mental health agencies, Directors of Community Services, law enforcement, and CBOs offering behavioral health and respite services. Program will create alternative ways (compared to ED admission) for patients and families to seek out crisis stabilization services, especially in cases when patient does not require intensive inpatient care. Program approaches for each RPU are listed in steps 1c-1f within this milestone.										
Task 1c. Based on initial assessments of overall PPS partner readiness and willingness to participate in the project, the 3aii Project Team will initially pursue engaging a crisis intervention program through a mobilized Southern RPU (Broome/Tioga Counties) to fully implement a total Crisis Stabilization Service built on the existing CPEP services housed by PPS member United Health Services Hospitals (UHSH). Engaged services are expected to include a minimum of phone triage, mobile crisis, and observation beds. The PPS will also collaborate with Catholic Charities for the development of community based crisis respite beds/apartments.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Task 1d. Repeat model for the North RPU by identifying available resources, readiness, and adjusting plan as necessary for local needs. CCN PMO will coordinate services with PPSs with overlapping coverage to identify economies of scale.										
Task 1e. Repeat model for the West RPU by identifying available resources, readiness, and adjusting plan as necessary for local needs. CCN PMO will coordinate services with PPSs with overlapping coverage to identify economies of scale.										
Task 1f. Repeat model for the East RPU by identifying available resources, readiness, and adjusting plan as necessary for local needs. CCN PMO will coordinate services with PPSs with overlapping coverage to identify economies of scale.										
Milestone #2 Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.										
Task PPS has implemented diversion management protocol with PPS Hospitals (specifically Emergency Departments).										
Task 2b. The 3a ii Project Team will develop a PPS profiling map of health homes, emergency room, and hospital services to understand existing linkages and workflows for each RPU. As a result of the assessment, a phased approach for remediation of missing or enhanced linkages, including communication requirements will be prepared.										
Task 2c. Using the profiling map the 3a ii Project Team will engage CBOs, ED, and hospitals to develop and implement diversion protocols from ED and inpatient services. Protocols prepared by these workgroups will be presented to the Clinical Governance Committee and Board of Directors for approval - and recertified annually for pertinence. The 3a ii Project Team and PMO will develop educational material related to Crisis Stabilization Services offered under this program for law enforcement and the medical community (e.g., barrier identified as Risk #1) and leverage the Workforce Team and Provider Relations to distribute and communicate education/training. Materials prepared will also be made centrally available to all PPS members by posting to the CCN website, SharePoint, etc.										
Milestone #3 Establish agreements with the Medicaid Managed Care

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
organizations serving the affected population to provide coverage for the service array under this project.										
Task PPS has engaged MCO in negotiating coverage of services under this project and/or MCO provides coverage for services in project.										
Task 3b. The PPS would have an initial conversation with the MCOs to discuss the approach on how to include services not currently covered today. The discussion will outline a framework which will include a summary whereby the the CCN PMO will conduct a quantitative and qualitative needs assessment of the affected population to understand service array utilization of the continuum of care, the organizations providing them, and corresponding expected level of effort. In addition, the PPS will seek to understand needed services to address related issues of the affected population not currently covered by Medicaid. For example, this will help to understand what services in the community would effectively help to avoid utilization of more expensive services.										
Task 3c. With an understanding on the approach, the PPS PMO and Analytics team will perform a review of available data to identify trends and understand the continuum of care to develop a prototype model for crisis management whose intent is to reduce hospital leverage / ED use. Other key stakeholders to include in this review include police departments, EMT transports, etc. Upon completion the PPS will meet with MCOs to share the data and analysis and work together to develop a payment methodology to include currently uncovered services that are found to be essential in avoiding hospital use for this population.										
Milestone #4 Develop written treatment protocols with consensus from participating providers and facilities.										
Task Regularly scheduled formal meetings are held to develop consensus on treatment protocols.										
Task Coordinated treatment care protocols are in place.										
Task 4c. Develop written Crisis Stabilization protocols in tandem with the 3aii Project Team, participating agencies, providers, CBOs, and collaboration with other PPSs. Once developed, the protocols will be submitted to the Clinical Governance

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Committee (CGC) and Board of Directors for approval. Each year, the CGC will approve and recertify previously adopted protocols. (Risk #3) On an ongoing basis, the respective regional performance unit Behavioral Health Subcommittee will provide oversight and monitoring for adherence and efficacy of plans. Provider remediation or protocol amendment (e.g., based on regional customization or alignment with new leading practices) will be made available to the Clinical Governance Committee.										
Task 4d. CCN will require participating agencies, providers, and CBOs to follow the adopted training related to the agreed upon protocols as part of the contracting process.										
Milestone #5 Include at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services.										
Task PPS includes at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services in provider network										
Task PPS evaluates access to psychiatric services (in terms of community needs assessment, geographic access, wait times, and other measures), identifies improvement areas, and implements improvement steps.	0	0	0	0	0	3	3	3	3	3
Task 5c. The 3aii Project Team and CCN PMO will pursue contracting with identified hospitals within the PPS based off evaluation of implementation criteria such as offering of specialty psychiatric services/crisis oriented-psychiatric services, and overall readiness/willingness to engage in 3aii related work. Based on the initial assessments, the 3aii Project Team expects to engage with United Health Services, Inc., Cayuga Medical Center, and Cortland Regional Medical Center for this project.										
Task 5d. On at least an annual basis, the 3aii Project Team and PMO will present to each regional performance unit Behavioral Health Subcommittee (e.g., 3aii Quality Committee) an evaluation and report of crisis-oriented psychiatric services availability, geographic access, wait times, etc. to identify areas for improved access. As required and advised by the BH Quality Committee, the PMO will implement improvement plans (e.g., such as improvement efforts or program expansion

Milestone #7 Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.										
Task PPS includes mobile crisis teams to help meet crisis stabilization needs of the community.										
Task Coordinated evidence-based care protocols for mobile crisis teams are in place.										
Task 7c. The 3aai Project Team to perform an assessment of PPS needs (e.g., based on community needs assessment, Salient data, etc.) as well as PPS Partner service offerings, capabilities, and readiness/ability to partner with CCN in the deployment of mobile crisis teams to provide crisis stabilization services using evidenced-based protocols developed by medical staff. Based on initial reviews the 3aai Project Team has identified the UHS Comprehensive Psychiatric Emergency Program (CPEP) as a pilot in delivery of the mobile intervention services to the PPS.										
Task 7d. The PPS, in collaboration with existing leading practices and partner protocols will develop/adopt evidence-based protocols for mobile intervention for use by mobile intervention teams. Identified protocol(s) will be endorsed by the Clinical Governance Committee, approved by the Board of Directors, and subsequently recertified on, at minimum, an annual basis by the Clinical Governance Committee.										
Task 7e. The 3aai Project Team will identify strategies to provide/deliver mobile crisis teams/services throughout the PPS as needs exist (e.g., by RPU.)										
Task 7f. Annually, the PMO will present to RPU Behavioral Health Subcommittees (e.g., 3aai Quality Committees by region) an evaluation of mobile crisis service availability, geographic access, wait times, etc. to identify areas for improved access. The PMO will collaborate with partners to implement improvement plans identified by the quality committees (as required by PPS partner contracts).										
Milestone #8 Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among

Milestone #9 Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.										
Task PPS has implemented central triage service among psychiatrists and behavioral health providers.										
Task 9b. The PPS (through collaboration by the project team as well as stakeholders) will identify potential providers of a central triage service crisis stabilization services, as outlined by the PPS and/or by the respective regional performance unit. As part of this process, the 3aii Project Team will perform an assessment to align project requirements with the availability and needs of the community (e.g., central triage service). A strategy will be developed to connect triage service provider(s) identified with participating providers of behavioral health services, mobile intervention, inpatient observation, and community respite services. The finalized plans will serve as a baseline for operating/contractual agreements with PPS members participating in project 3aii.										
Task 9c. As part of the Care Compass Network contract, the centralized phone triage provider(s) will be required to use a standard assessment tool, approved by the Clinical Governance Committee and recertified annually.										
Milestone #10 Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care.										
Task PPS has created an active quality subcommittee that reports to PPS quality committee that is representative of medical and behavioral health staff and is specifically focused on integration of primary care and behavioral health services within practice sites and other behavioral health project initiatives. Note: Only one quality sub-committee is required for medical and behavioral health integration projects in Domain 3a.										
Task Quality committee identifies opportunities for quality improvement and use of rapid cycle improvement methodologies, develops implementation plans, and evaluates results of quality improvement initiatives.										
Task PPS evaluates and creates action plans based on key quality metrics, to include applicable metrics listed in Attachment J

who can be stabilized outside of hospital setting.										
Task 6g. Annually, PMO will present to RPU Behavioral Health Subcommittees an evaluation of off-campus residence service availability, geographic access, wait times, etc. to identify areas for improved access. PMO implements improvement plans.										
Milestone #7 Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.										
Task PPS includes mobile crisis teams to help meet crisis stabilization needs of the community.										
Task Coordinated evidence-based care protocols for mobile crisis teams are in place.										
Task 7c. The 3aai Project Team to perform an assessment of PPS needs (e.g., based on community needs assessment, Salient data, etc.) as well as PPS Partner service offerings, capabilities, and readiness/ability to partner with CCN in the deployment of mobile crisis teams to provide crisis stabilization services using evidenced-based protocols developed by medical staff. Based on initial reviews the 3aai Project Team has identified the UHS Comprehensive Psychiatric Emergency Program (CPEP) as a pilot in delivery of the mobile intervention services to the PPS.										
Task 7d. The PPS, in collaboration with existing leading practices and partner protocols will develop/adopt evidence-based protocols for mobile intervention for use by mobile intervention teams. Identified protocol(s) will be endorsed by the Clinical Governance Committee, approved by the Board of Directors, and subsequently recertified on, at minimum, an annual basis by the Clinical Governance Committee.										
Task 7e. The 3aai Project Team will identify strategies to provide/deliver mobile crisis teams/services throughout the PPS as needs exist (e.g., by RPU.)										
Task 7f. Annually, the PMO will present to RPU Behavioral Health Subcommittees (e.g., 3aai Quality Committees by region) an evaluation of mobile crisis service availability, geographic access, wait times, etc. to identify areas for improved access.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
The PMO will collaborate with partners to implement improvement plans identified by the quality committees (as required by PPS partner contracts).										
Milestone #8 Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.										
Task EHR demonstrates integration of medical and behavioral health record within individual patient records.										
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	3	3	3	3	3	3	3	3	3	3
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	12	12	12	12	12	12	12	12	12	12
Task Alerts and secure messaging functionality are used to facilitate crisis intervention services.										
Task 8g. 3aii Team to identify EHR or other IT platform(s) for behavioral health screening/assessment tool, collection, sharing and storage of data. EHR or other IT platform(s) to meets several requirements which facilitate intervention services (for example, integrated medical/behavioral health record, ability to track patients, ability to report agency-level performance metrics, RHIO/SHIN-NY connectivity, alerts and secure messaging). CCN PMO to coordinate review and approval of IT solutions with the IT Committee (and the associated review processes) and align vendor solutions with project needs as well as the broader IT Vision of the PPS.										
Task 8h. The PPS will execute a contract with the selected vendor for the delivery of services. The CCN PMO/Provider Relations to oversee roll out of EHR or other IT platform to contracted agencies, providers, and CBOs offering crisis stabilization

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
services. Rollout includes readiness assessment, training, workflow optimization, and go live. (Risk #3) As part of the implementation process, PPS Partners will be required to submit documentation such as certifications, training attestations/rosters, or system reports to confirm achievement of key implementation/integration milestones.										
Milestone #9 Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.										
Task PPS has implemented central triage service among psychiatrists and behavioral health providers.										
Task 9b. The PPS (through collaboration by the project team as well as stakeholders) will identify potential providers of a central triage service crisis stabilization services, as outlined by the PPS and/or by the respective regional performance unit. As part of this process, the 3aii Project Team will perform an assessment to align project requirements with the availability and needs of the community (e.g., central triage service). A strategy will be developed to connect triage service provider(s) identified with participating providers of behavioral health services, mobile intervention, inpatient observation, and community respite services. The finalized plans will serve as a baseline for operating/contractual agreements with PPS members participating in project 3aii.										
Task 9c. As part of the Care Compass Network contract, the centralized phone triage provider(s) will be required to use a standard assessment tool, approved by the Clinical Governance Committee and recertified annually.										
Milestone #10 Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care.										
Task PPS has created an active quality subcommittee that reports to PPS quality committee that is representative of medical and behavioral health staff and is specifically focused on integration of primary care and behavioral health services within practice sites and other behavioral health project initiatives. Note: Only one quality sub-committee is required for medical and behavioral health integration projects in Domain 3a.										
Task Quality committee identifies opportunities for quality

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
improvement and use of rapid cycle improvement methodologies, develops implementation plans, and evaluates results of quality improvement initiatives.										
Task PPS evaluates and creates action plans based on key quality metrics, to include applicable metrics listed in Attachment J Domain 3 Behavioral Health Metrics.										
Task PPS quality subcommittee conducts and/or reviews self-audits to ensure compliance with processes and procedures developed for this project.										
Task Service and quality outcome measures are reported to all stakeholders including PPS quality committee.										
Task 10f. CCN to seat Regional Performance Unit Behavioral Health Subcommittees. Each committee will be comprised of local medical and behavioral health experts who can evaluate the crisis stabilization program and integration of primary care and behavioral health services.										
Task 10g. CCN PMO regularly reports key quality metrics (including Appendix J metrics Domain 3 Behavioral Health metrics) to RPU Behavioral Health Subcommittees. Behavioral Health Subcommittees identifies opportunities for quality improvement; PMO develops implementation plans, committee and PMO evaluate results of quality improvement initiatives. CCN to distribute service and quality outcome measures to Care Compass Network quality committee(s) as well as to the stakeholders through platforms such as the Stakeholders meeting and/or website.										
Milestone #11 Use EHRs or other technical platforms to track all patients engaged in this project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task 11b. 3aai Team to identify EHR or other IT platform(s) for behavioral health screening/assessment tool, collection, sharing and storage of data. EHR or other IT platform(s) to meets several requirements which facilitate intervention services (for example, integrated medical/behavioral health record, ability to track patients, ability to report agency-level performance metrics, RHIO/SHIN-NY connectivity, alerts and

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 3.a.ii.6 - IA Monitoring

Instructions :

Milestone 1: The role of LGUs, recipients and families should be delineated by the PPS. Moreover, the PPS further clarify their plans to develop a crisis intervention program that includes all components and how it will serve the counties in the PPS area.

Milestone 2: The IA recommends a clear methodology for achieving the milestone with more detail on how this will be accomplished. The PPS should outline possible barriers among providers in the different systems.

Milestone 4: The IA recommends a clear methodology for achieving the milestone with more detail on how this will be accomplished. The PPS should outline possible barriers among providers in the different systems.

Milestone 5: The IA recommends a clear methodology for achieving the milestone.

Milestone 6: The IA recommends a clear methodology for achieving the milestone.

Milestone 7: The IA recommends a clear methodology for achieving the milestone.

Milestone 8: The IA recommends a clear methodology for achieving the milestone.

Milestone 9: The IA recommends a clear methodology for achieving the milestone. The PPS should ensure these stakeholders are part of the assessment process and there should also be more detail regarding the steps toward implementation of the central triage service. Additional information is needed regarding methods of triage, and what providers may be involved.

Milestone 11: The IA recommends a clear methodology for achieving the milestone.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project 3.b.i – Evidence-based strategies for disease management in high risk/affected populations (adult only)

IPQR Module 3.b.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1. Our first risk is the difficulty in the establishment of Electronic medical records (EMR) at all safety net provider settings. This will impact our project in that an integrated EMR infrastructure will improve the ability of providers to coordinate care across the continuum and ensure appropriate utilization of resources. A lack of this will hinder the interconnectivity of providers touching Medicaid beneficiaries. Our strategy to manage this risk is the PPS through project 2ai will assess the EMR status for each provider and identify the barriers for attaining EMRs. Funds have been budgeted to build the IT infrastructure, and onsite IT staff will need to be available to support implementation and training. Providers currently without EMRs could consider joining groups with EMRs already in place.
2. Our second identified risk is the inability of all Safety net providers to meet Meaningful Use and PCMH requirements by DY3. This will impact our project in that the burden on primary care providers to meet the requirements of MU, PCMH and the multiple requirements for project 3bi may have a negative impact on their ability to provide open access to patients in primary care, which is essential to managing chronic disease and avoiding unnecessary acute care visits. In order to mitigate this risk providers will need ongoing education on MU and PCMH requirements. Support through realignment of office staff duties and EMR functionality will need to be considered to fulfill all the requirements. Pre-visit planning, use of laptops in the waiting room and "top of license" roles and responsibilities have been concepts used by other systems to manage the increasing demands in the primary care setting. The PPS will develop a structure through project 2ai to support these transitions and monitor, troubleshoot barriers and provide feedback on attainment of MU and PCMH requirements.
3. Our third risk is the difficulty in obtaining provider buy-in to standard treatment protocols. This will impact our project in that the implementation of standard treatment protocols for cardiovascular disease management will provide beneficiaries and providers throughout the continuum with a consistent medical plan and thereby allow all to be active participants in meeting optimal clinical outcomes. Our mitigating strategy centers on the Clinical Governance Committee being established to identify the standard treatment protocols throughout the PPS. Once established provider education will be needed along with identification of ways to integrate these standards in EMRs to make it easy to comply. "Click count" and the ability to readily schedule follow-up visits should be considerations. Processes to make referrals user friendly for community supports along with the development of feedback loops from these referrals will be established.

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 3.b.i.4 - Prescribed Milestones

Instructions :

Please enter baseline target dates and work breakdown tasks with target dates for each of the milestones below.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	Project	N/A	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS has implemented program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 1b. Assess system readiness for population health providers, IT infrastructure, and CBOs through the PPS' Pre-Engagement Assessment to be disseminated by the CBO Engagement Council as well as each respective Regional Performance Unit (RPU) Operating Group.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 1c. Data Analytics - The PPS Salient team will work in conjunction with the Population Health workgroup in order to identify patients with cardiovascular disease within our PPS region. The associated methodologies, assumptions, and results will be presented to the respective Disease Management subcommittees of the Clinical Governance Committee for review and identification of potential gaps in the analysis.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 1d. Interventions - The PPS will adopt and/or develop evidence based strategies - such as the Million Hearts Campaign, JNC-8, AHA 2013, ACC - for implementation based on beneficiary risk in conjunction with the 3bi Project Team and the Clinical Governance Committee. These interventions will be used in tandem with other industry standards such as blood pressure checks, lipids, smoking and other health assessment screenings at primary care provider visits to determine criteria for patient risk stratification.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 1e. Identify process to risk stratify beneficiaries with cardiovascular disease for intervention. An acuity score will be developed by the Project 3bi Team working with the Project Management Office. This acuity score will determine a level of risk and the subsequent health management interventions needed, i.e.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

preventive services, lifestyle coaching, transitional care, complex care management, and/or palliative care. The acuity score and subsequent interventions will be presented to the Disease Management subcommittee and Clinical Governance Committee for review, alterations, and approval. Reassessment of acuity score and interventions will occur annually at a minimum.							
Task 1f. Patient Supports - The Project Leaders and PMO representation from Projects 3bi and Project 2ci will work together to identify community-based organizations (e.g., Social Services) offering the necessary patient supports for medicaid beneficiaries with cardiovascular disease. The PPS Community Navigation Team will leverage the Community Health Advocates (CHAs) and defined care management protocols to further promote navigation of cardiovascular disease patients through the healthcare system.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 1g. Metrics - The PPS will leverage population health data at the organizational/office level as well as the PPS level in order to review quality of the program and patient activation levels (e.g., through PAM survey results and trends). Blood pressure and smoking cessation will be the initial focus for year one, after which the efficacy will be reviewed to determine if either additional metrics should be isolated or if remediation efforts need to be addressed related to blood pressure and smoking cessation efforts. Identified gaps and alterations to plan will be identified, remediation or plan ammendments drafted by the project team, and presented to the Disease Management Quality Committee for oversight and approval.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 1h. Each participating provider shall determine a Project 3bi Champion. This Champion will participate in Cardiovascular Disease Management-related training created by and provided by the Workforce team collaborating with the Project Management Office. The Project Chamption will then conduct training at their respective facility to the related support staff, including topics such as care coordination processes, blood pressure measurement, protocol regarding patients with repeated elevated blood pressure, patient self-management, follow-up procedures, home blood pressure monitoring, and Million Lives Campaign strategies. As required by partner contract agreements the champion will also be responsible for the provision of training date(s), attendees, and written materials (as well as Q/A items) to the PMO.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	Provider	Primary Care Physicians	In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 3c. Conduct a readiness assessment including MU and PCMH status of participating safety net providers.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 3d. Develop plan to support providers in the attainment of MU.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 3e. Develop plan to support providers in the attainment of PCMH level 3 - 2014 standards.	Project		In Progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	Project	N/A	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 4b. Develop a methodology and requirements to identify the data elements to collect on the population for reporting in order to establish a baseline in conjunction with the IT & Data Governance Committee as well as the Analytics Team.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 4c. The Project Management Office will work with partners and/or alongside EHR vendors to acquire required validation of EHR connectivity and capabilities, including formal documentation/retention of certification related documents and EHR reminder functionality. The PPS IT Project Manager will review and monitor the IT environment to confirm EHR system capabilities are in place and used and functioning as designed, ensuring access to real-time data to improve interoperability. Periodic reviews will be performed and include evidence of alerts/secure messaging, availability of training materials, and status of prior review remediation status. The status of these reviews will be reported to the IT & Data Governance Committee and/or Clinical Governance Committee as appropriate.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 4d. As required and appropriate, partners will be contracted with for achievement of specific tasks (e.g., build and maintenance of EMR modification to provide reminders), which will be monitored for completion as reported to the project team and PMO. Upon completion, validity of system enhancements will be reviewed and validated as described in step 4c.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task Clinically Interoperable System is in place for all participating providers.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Care coordination teams are in place and include nursing staff, pharmacists, dieticians, community health workers, and Health Home care managers where applicable.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Care coordination processes are in place.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 7d. The 3bi Project Team and PMO will develop care coordination teams by achieving four core foundational requirements: assessing available resources, assessing the patient demographics, providing education where required, and adopting applicable standards.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 7e. Assess Resources - The 3bi Project Team and PMO will work in tandem with the Population Health workgroup to assess availability of current care coordination and disease management resources in the PPS. Assess Patients - The 3bi Project Team, in conjunction with the PPS Analytics Team will develop a process to risk stratify beneficiaries for connection with care coordination based on the results of the Population Health data results and risk stratification review.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 7f. Education - The Workforce team along with the Project Management Office will create Care Coordination teams within each office/practice and will include nurses, pharmacists, dieticians, community health workers, health home care managers, and others where applicable. Once established, the Workforce team will oversee the education to providers on these resources and create referral processes through the EMR to connect with providers of care coordination.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 7g. Standards - Adopt/develop standards for cardiovascular disease management / care coordination in conjunction with the Clinical Governance Committee and, more specifically, disease management subcommittees.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Milestone #8 Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	Project	N/A	In Progress	04/01/2015	09/30/2017	09/30/2017	DY3 Q2

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
in the community in conjunction with the Clinical Governance Committee and, more specifically, the disease management subcommittees.							
Task 18f. Utilize "measure up, pressure down" planks as the standards for BP management by providers.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Milestone #19 Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.	Project	N/A	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task PPS has agreement in place with MCO related to coordination of services for high risk populations, including smoking cessation services, hypertension screening, cholesterol screening, and other preventive services relevant to this project.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 19b. Define Population - As defined in the 3bi project plan the affected population includes cardiovascular patients. As such, the first step towards achievement of this milestone will involve the PMO and Population Health team performing a defined population review to understand the affected cardiovascular disease population in the PPS by associated MCO.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 19c. Risk Stratify - Following the affected patient review, the population will be risk stratified to identify high risk versus rising risk cardiovascular populations.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 19d. Organize - Organize a PPS approach for care coordination efforts by the affected population. For each, arrange an associated provider network comprised of primary care physicians and medical cardiologists who are willing to serve this high risk population. The provider network should isolate (as possible) a narrow high performance network of providers (e.g., low cost/high volume) based on available metrics.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 19e. Meet with MCOs to discuss the utilization of narrow high performing network for the defined affected population based on the PPS allocation of rising versus high risk populations. Note that this will need to be performed in for each Managed Care Organizations network.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Milestone #20 Engage a majority (at least 80%) of primary care providers in this project.	Project	N/A	In Progress	04/01/2015	12/31/2016	12/31/2016	DY2 Q3

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
20b. Identify PCPs and evaluate their ability to meet the project requirements.							
Task 20c. Educate providers on the projects and seek their input on implementation.	Project		In Progress	04/01/2015	12/31/2016	12/31/2016	DY2 Q3

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Milestone #1 Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.										
Task PPS has implemented program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.										
Task 1b. Assess system readiness for population health providers, IT infrastructure, and CBOs through the PPS' Pre-Engagement Assessment to be disseminated by the CBO Engagement Council as well as each respective Regional Performance Unit (RPU) Operating Group.										
Task 1c. Data Analytics - The PPS Salient team will work in conjunction with the Population Health workgroup in order to identify patients with cardiovascular disease within our PPS region. The associated methodologies, assumptions, and results will be presented to the respective Disease Management subcommittees of the Clinical Governance Committee for review and identification of potential gaps in the analysis.										
Task 1d. Interventions - The PPS will adopt and/or develop evidence based strategies - such as the Million Hearts Campaign, JNC-8, AHA 2013, ACC - for implementation based on beneficiary risk in conjunction with the 3bi Project Team and the Clinical Governance Committee. These interventions will be used in tandem with other industry standards such as blood pressure checks, lipids, smoking and other health assessment screenings at primary care provider visits to determine criteria for patient risk stratification.										
Task 1e. Identify process to risk stratify beneficiaries with cardiovascular disease for intervention. An acuity score will be developed by the Project 3bi Team working with the Project

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
Management Office. This acuity score will determine a level of risk and the subsequent health management interventions needed, i.e. preventive services, lifestyle coaching, transitional care, complex care management, and/or palliative care. The acuity score and subsequent interventions will be presented to the Disease Management subcommittee and Clinical Governance Committee for review, alterations, and approval. Reassessment of acuity score and interventions will occur annually at a minimum.										
Task 1f. Patient Supports - The Project Leaders and PMO representation from Projects 3bi and Project 2ci will work together to identify community-based organizations (e.g., Social Services) offering the necessary patient supports for medicaid beneficiaries with cardiovascular disease. The PPS Community Navigation Team will leverage the Community Health Advocates (CHAs) and defined care management protocols to further promote navigation of cardiovascular disease patients through the healthcare system.										
Task 1g. Metrics - The PPS will leverage population health data at the organizational/office level as well as the PPS level in order to review quality of the program and patient activation levels (e.g., through PAM survey results and trends). Blood pressure and smoking cessation will be the initial focus for year one, after which the efficacy will be reviewed to determine if either additional metrics should be isolated or if remediation efforts need to be addressed related to blood pressure and smoking cessation efforts. Identified gaps and alterations to plan will be identified, remediation or plan amendments drafted by the project team, and presented to the Disease Management Quality Committee for oversight and approval.										
Task 1h. Each participating provider shall determine a Project 3bi Champion. This Champion will participate in Cardiovascular Disease Management-related training created by and provided by the Workforce team collaborating with the Project Management Office. The Project Champion will then conduct training at their respective facility to the related support staff, including topics such as care coordination processes, blood pressure measurement, protocol regarding patients with repeated elevated blood pressure, patient self-management, follow-up procedures, home blood pressure monitoring, and Million Lives Campaign strategies. As required by partner contract agreements the champion will also be responsible for

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
the provision of training date(s), attendees, and written materials (as well as Q/A items) to the PMO.										
Task 1i. IT Tools and Support - The Project 3bi Team will collaborate with the IT Workgroup to develop necessary IT Tools and support such as provider alerts and patient reminders as per defined care management goals within EHRs. These metrics will be created to align with 2014 PCMH Level 3 standards and/or Meaningful Use requirements.										
Milestone #2 Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.										
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task PPS uses alerts and secure messaging functionality.										
Task 2e. Assess connectivity of PPS providers in all settings- to RHIO, secure messaging capability, etc through the PPS' Pre-Engagement Assessment to be disseminated by the CBO Engagement Council as well as each respective Regional Performance Unit (RPU) Operating Group.										
Task 2f. Develop plan to connect all providers- begin with high volume / well engaged providers.										
Task 2g. Develop outreach plans and a PPS consent for patients to participate in the exchange.										
Task 2h. Develop standards for provider alerts in the EMR in conjunction with the Clinical Governance and IT & Data Governance Committees .										
Milestone #3 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

and/or APCM by the end of Demonstration Year 3.										
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).										
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	0	0	0	0	0	0	0	0	0	0
Task 3c. Conduct a readiness assessment including MU and PCMH status of participating safety net providers.										
Task 3d. Develop plan to support providers in the attainment of MU.										
Task 3e. Develop plan to support providers in the attainment of PCMH level 3 - 2014 standards.										
Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task 4b. Develop a methodology and requirements to identify the data elements to collect on the population for reporting in order to establish a baseline in conjunction with the IT & Data Governance Committee as well as the Analytics Team.										
Task 4c. The Project Management Office will work with partners and/or alongside EHR vendors to acquire required validation of EHR connectivity and capabilities, including formal documentation/retention of certification related documents and EHR reminder functionality. The PPS IT Project Manager will review and monitor the IT environment to confirm EHR system capabilities are in place and used and functioning as designed, ensuring access to real-time data to improve interoperability. Periodic reviews will be performed and include evidence of alerts/secure messaging, availability of training materials, and status of prior review remediation status. The status of these reviews will be reported to the IT & Data Governance Committee and/or Clinical Governance Committee as appropriate.										
Task 4d. As required and appropriate, partners will be contracted

with for achievement of specific tasks (e.g., build and maintenance of EMR modification to provide reminders), which will be monitored for completion as reported to the project team and PMO. Upon completion, validity of system enhancements will be reviewed and validated as described in step 4c.										
Milestone #5 Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).										
Task PPS has implemented an automated scheduling system to facilitate tobacco control protocols.										
Task PPS provides periodic training to staff to incorporate the use of EHR to prompt the use of 5 A's of tobacco control.										
Task 5c. Educate providers and office staff on the "5A's" - Ask, Assess, Advise, Assist, and Arrange.										
Task 5d. Develop 5As assessment tool in the EMRs including hard stop prompts.										
Task 5e. Develop process for smoking cessation referrals through EMR secure messaging .										
Task 5f. Develop process for provider feedback.										
Milestone #6 Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.										
Task Practice has adopted treatment protocols aligned with national guidelines, such as the National Cholesterol Education Program (NCEP) or US Preventive Services Task Force (USPSTF).										
Task 6b. Obtain PPS approval for hypertension protocol from the Clinical Governance Committee - suggest existing guidance such as "JNC8".										
Task 6c. Obtain PPS approval for cholesterol protocol from the Clinical Governance Committee- suggest existing guidance such as "AHA 2013" guidelines.										
Task 6d. Educate providers on these protocols .										
Milestone #7 Develop care coordination teams including use of nursing staff,

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4	DY3,Q1	DY3,Q2
pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.										
Task Clinically Interoperable System is in place for all participating providers.										
Task Care coordination teams are in place and include nursing staff, pharmacists, dieticians, community health workers, and Health Home care managers where applicable.										
Task Care coordination processes are in place.										
Task 7d. The 3bi Project Team and PMO will develop care coordination teams by achieving four core foundational requirements: assessing available resources, assessing the patient demographics, providing education where required, and adopting applicable standards.										
Task 7e. Assess Resources - The 3bi Project Team and PMO will work in tandem with the Population Health workgroup to assess availability of current care coordination and disease management resources in the PPS. Assess Patients - The 3bi Project Team, in conjunction with the PPS Analytics Team will develop a process to risk stratify beneficiaries for connection with care coordination based on the results of the Population Health data results and risk stratification review.										
Task 7f. Education - The Workforce team along with the Project Management Office will create Care Coordination teams within each office/practice and will include nurses, pharmacists, dieticians, community health workers, health home care managers, and others where applicable. Once established, the Workforce team will oversee the education to providers on these resources and create referral processes through the EMR to connect with providers of care coordination.										
Task 7g. Standards - Adopt/develop standards for cardiovascular disease management / care coordination in conjunction with the Clinical Governance Committee and, more specifically, disease management subcommittees.										
Milestone #8 Provide opportunities for follow-up blood pressure checks

without a copayment or advanced appointment.										
Task All primary care practices in the PPS provide follow-up blood pressure checks without copayment or advanced appointments.	0	0	0	0	0	0	0	0	0	241
Task 8b. Assess availability of current practice for blood pressure checks with no copay or appointment required .										
Task 8c. Develop PPS protocol for the provision of this service as a standard of care in conjunction with the Clinical Governance Committee.										
Task 8d. Identify the support needed for practices to offer this service and document in the EMRs.										
Milestone #9 Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.										
Task PPS has protocols in place to ensure blood pressure measurements are taken correctly with the correct equipment.										
Task 9b. Identify evidence based practice for blood pressure measurement in conjunction with the Clinical Governance Committee and, more specifically, the disease management subcommittees.										
Task 9c. Create the competency for staff training and annual assessment.										
Task 9d. Create PPS protocol to require all staff taking blood pressures take/pass an annual competency test.										
Milestone #10 Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.										
Task PPS uses a patient stratification system to identify patients who have repeated elevated blood pressure but no diagnosis of hypertension.										
Task PPS has implemented an automated scheduling system to facilitate scheduling of targeted hypertension patients.

Task PPS provides periodic training to staff to ensure effective patient identification and hypertension visit scheduling.										
Task 10d. Create risk stratification tool to identify beneficiaries in need of follow-up appointments for BP management.										
Task 10e. Develop alert in the EMR for beneficiaries with repeat elevated blood pressure readings.										
Task 10f. Utilize "measure up, pressure down" for BP management (Million Hearts Campaign).										
Milestone #11 Prescribe once-daily regimens or fixed-dose combination pills when appropriate.										
Task PPS has protocols in place for determining preferential drugs based on ease of medication adherence where there are no other significant non-differentiating factors.										
Task 11b. Establish alert in the EMRs as reminders for once daily regimens.										
Task 11c. Engage pharmacists in recommending once daily regimens as substitutions for other regimens.										
Task 11d. Engage managed care payers in offering once daily regimens as formulary options.										
Milestone #12 Document patient driven self-management goals in the medical record and review with patients at each visit.										
Task Self-management goals are documented in the clinical record.										
Task PPS provides periodic training to staff on person-centered methods that include documentation of self-management goals.										
Task 12c. The education of staff on the development of self management goals with beneficiaries will be done by the collaborative efforts of the Project Management Office, the Provider Relations team, and the Communications Team. Forums will be held within each RPU for the participating providers.										
Task 12d. The 3bi Project Team will collaborate with the PPS IT

Committee and/or Clinical Governance Committee to develop standards of data elements to identify partner EMR capability of reaching the required elements of the standard of care (e.g., documentation of beneficiary self management goals.)										
Task 12e. Once approved, the 3bi Project Team and PMO will conduct a survey/assessment with partners to understand current system capabilities. As identified, system functionality deficiencies or gaps will be reported to the IT Committee and PPS partner 3bi Project Champion for identification of remediation solutions.										
Task 12f. The IT Workgroup will identify EMR reporting requirements to document and verify utilization and implementation of standards of care within the EMR which are in place to document patient driven self-management goals in the medical record and review of said goals.										
Task 12g. PPS Partner status reports will be reported to the PPS Disease Management Quality Committee for review and any necessary improvements to be pursued as appropriate.										
Milestone #13 Follow up with referrals to community based programs to document participation and behavioral and health status changes.										
Task PPS has developed referral and follow-up process and adheres to process.										
Task PPS provides periodic training to staff on warm referral and follow-up process.										
Task Agreements are in place with community-based organizations and process is in place to facilitate feedback to and from community organizations.										
Task 13d. Identify resources to provide beneficiary support for lifestyle changes- CDSMP.										
Task 13e. Develop a 2 way referral process from the EMR: provider to CBO and CBO feedback to provider.										
Task 13f. Train staff on the referral process including appropriate beneficiaries for referral.

Milestone #14 Develop and implement protocols for home blood pressure monitoring with follow up support.										
Task PPS has developed and implemented protocols for home blood pressure monitoring.										
Task PPS provides follow up to support to patients with ongoing blood pressure monitoring, including equipment evaluation and follow-up if blood pressure results are abnormal.										
Task PPS provides periodic training to staff on warm referral and follow-up process.										
Task 14d. Develop protocols for home BP monitoring based on risk (self monitor vs telehealth) in conjunction with the Clinical Governance Committee and, more specifically, the disease management subcommittees.										
Task 14e. Identify resource for home BP cuffs if needed to support compliance .										
Task 14f. Develop method for beneficiary follow up reporting- phone, web program, telehealth, etc.										
Milestone #15 Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.										
Task PPS has implemented an automated scheduling system to facilitate scheduling of targeted hypertension patients.										
Task 15b. Identify beneficiaries through EMR functionality and/or claims data.										
Task 15c. Develop process for scheduling patients for office visit.										
Task 15d. Develop process for BP screening outside of office setting in a community "hot spot".										
Milestone #16 Facilitate referrals to NYS Smoker's Quitline.										
Task PPS has developed referral and follow-up process and adheres to process.										
Task 16b. Develop process for referral to quitline preferably through

Hearts Campaign.										
Task 18d. Develop methods to risk stratify the population with CV or potential CV disease.										
Task 18e. Create processes to screen BPs with beneficiary health care contact and in the community in conjunction with the Clinical Governance Committee and, more specifically, the disease management subcommittees.										
Task 18f. Utilize "measure up, pressure down" planks as the standards for BP management by providers.										
Milestone #19 Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.										
Task PPS has agreement in place with MCO related to coordination of services for high risk populations, including smoking cessation services, hypertension screening, cholesterol screening, and other preventive services relevant to this project.										
Task 19b. Define Population - As defined in the 3bi project plan the affected population includes cardiovascular patients. As such, the first step towards achievement of this milestone will involve the PMO and Population Health team performing a defined population review to understand the affected cardiovascular disease population in the PPS by associated MCO.										
Task 19c. Risk Stratify - Following the affected patient review, the population will be risk stratified to identify high risk versus rising risk cardiovascular populations.										
Task 19d. Organize - Organize a PPS approach for care coordination efforts by the affected population. For each, arrange an associated provider network comprised of primary care physicians and medical cardiologists who are willing to serve this high risk population. The provider network should isolate (as possible) a narrow high performance network of providers (e.g., low cost/high volume) based on available metrics.										
Task 19e. Meet with MCOs to discuss the utilization of narrow high performing network for the defined affected population based

Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.	0	0	0	0	0	0	0	0	0	0
Task PPS uses alerts and secure messaging functionality.										
Task 2e. Assess connectivity of PPS providers in all settings- to RHIO, secure messaging capability, etc through the PPS' Pre-Engagement Assessment to be disseminated by the CBO Engagement Council as well as each respective Regional Performance Unit (RPU) Operating Group.										
Task 2f. Develop plan to connect all providers- begin with high volume / well engaged providers.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
Task 2g. Develop outreach plans and a PPS consent for patients to participate in the exchange.										
Task 2h. Develop standards for provider alerts in the EMR in conjunction with the Clinical Governance and IT & Data Governance Committees .										
Milestone #3 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.										
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).										
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.	0	241	241	241	241	241	241	241	241	241
Task 3c. Conduct a readiness assessment including MU and PCMH status of participating safety net providers.										
Task 3d. Develop plan to support providers in the attainment of MU.										
Task 3e. Develop plan to support providers in the attainment of PCMH level 3 - 2014 standards.										
Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.										
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.										
Task 4b. Develop a methodology and requirements to identify the data elements to collect on the population for reporting in order to establish a baseline in conjunction with the IT & Data Governance Committee as well as the Analytics Team.										
Task 4c. The Project Management Office will work with partners and/or alongside EHR vendors to acquire required validation of EHR connectivity and capabilities, including formal documentation/retention of certification related documents and EHR reminder functionality. The PPS IT Project Manager will review and monitor the IT environment to confirm EHR system capabilities are in place and used and functioning as designed,

Project Requirements (Milestone/Task Name)	DY3,Q3	DY3,Q4	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4	DY5,Q1	DY5,Q2	DY5,Q3	DY5,Q4
ensuring access to real-time data to improve interoperability. Periodic reviews will be performed and include evidence of alerts/secure messaging, availability of training materials, and status of prior review remediation status. The status of these reviews will be reported to the IT & Data Governance Committee and/or Clinical Governance Committee as appropriate.										
Task 4d. As required and appropriate, partners will be contracted with for achievement of specific tasks (e.g., build and maintenance of EMR modification to provide reminders), which will be monitored for completion as reported to the project team and PMO. Upon completion, validity of system enhancements will be reviewed and validated as described in step 4c.										
Milestone #5 Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).										
Task PPS has implemented an automated scheduling system to facilitate tobacco control protocols.										
Task PPS provides periodic training to staff to incorporate the use of EHR to prompt the use of 5 A's of tobacco control.										
Task 5c. Educate providers and office staff on the "5A's" - Ask, Assess, Advise, Assist, and Arrange.										
Task 5d. Develop 5As assessment tool in the EMRs including hard stop prompts.										
Task 5e. Develop process for smoking cessation referrals through EMR secure messaging .										
Task 5f. Develop process for provider feedback.										
Milestone #6 Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.										
Task Practice has adopted treatment protocols aligned with national guidelines, such as the National Cholesterol Education Program (NCEP) or US Preventive Services Task Force (USPSTF).										
Task 6b. Obtain PPS approval for hypertension protocol from the Clinical Governance Committee - suggest existing guidance

such as "JNC8".										
Task 6c. Obtain PPS approval for cholesterol protocol from the Clinical Governance Committee- suggest existing guidance such as "AHA 2013" guidelines.										
Task 6d. Educate providers on these protocols .										
Milestone #7 Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.										
Task Clinically Interoperable System is in place for all participating providers.										
Task Care coordination teams are in place and include nursing staff, pharmacists, dieticians, community health workers, and Health Home care managers where applicable.										
Task Care coordination processes are in place.										
Task 7d. The 3bi Project Team and PMO will develop care coordination teams by achieving four core foundational requirements: assessing available resources, assessing the patient demographics, providing education where required, and adopting applicable standards.										
Task 7e. Assess Resources - The 3bi Project Team and PMO will work in tandem with the Population Health workgroup to assess availability of current care coordination and disease management resources in the PPS. Assess Patients - The 3bi Project Team, in conjunction with the PPS Analytics Team will develop a process to risk stratify beneficiaries for connection with care coordination based on the results of the Population Health data results and risk stratification review.										
Task 7f. Education - The Workforce team along with the Project Management Office will create Care Coordination teams within each office/practice and will include nurses, pharmacists, dieticians, community health workers, health home care managers, and others where applicable. Once established, the

Workforce team will oversee the education to providers on these resources and create referral processes through the EMR to connect with providers of care coordination.										
Task 7g. Standards - Adopt/develop standards for cardiovascular disease management / care coordination in conjunction with the Clinical Governance Committee and, more specifically, disease management subcommittees.										
Milestone #8 Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.										
Task All primary care practices in the PPS provide follow-up blood pressure checks without copayment or advanced appointments.	241	241	241	241	241	241	241	241	241	241
Task 8b. Assess availability of current practice for blood pressure checks with no copay or appointment required .										
Task 8c. Develop PPS protocol for the provision of this service as a standard of care in conjunction with the Clinical Governance Committee.										
Task 8d. Identify the support needed for practices to offer this service and document in the EMRs.										
Milestone #9 Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.										
Task PPS has protocols in place to ensure blood pressure measurements are taken correctly with the correct equipment.										
Task 9b. Identify evidence based practice for blood pressure measurement in conjunction with the Clinical Governance Committee and, more specifically, the disease management subcommittees.										
Task 9c. Create the competency for staff training and annual assessment.										
Task 9d. Create PPS protocol to require all staff taking blood pressures take/pass an annual competency test.										
Milestone #10 Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of

hypertension and schedule them for a hypertension visit.										
Task PPS uses a patient stratification system to identify patients who have repeated elevated blood pressure but no diagnosis of hypertension.										
Task PPS has implemented an automated scheduling system to facilitate scheduling of targeted hypertension patients.										
Task PPS provides periodic training to staff to ensure effective patient identification and hypertension visit scheduling.										
Task 10d. Create risk stratification tool to identify beneficiaries in need of follow-up appointments for BP management.										
Task 10e. Develop alert in the EMR for beneficiaries with repeat elevated blood pressure readings.										
Task 10f. Utilize "measure up, pressure down" for BP management (Million Hearts Campaign).										
Milestone #11 Prescribe once-daily regimens or fixed-dose combination pills when appropriate.										
Task PPS has protocols in place for determining preferential drugs based on ease of medication adherence where there are no other significant non-differentiating factors.										
Task 11b. Establish alert in the EMRs as reminders for once daily regimens.										
Task 11c. Engage pharmacists in recommending once daily regimens as substitutions for other regimens.										
Task 11d. Engage managed care payers in offering once daily regimens as formulary options.										
Milestone #12 Document patient driven self-management goals in the medical record and review with patients at each visit.										
Task Self-management goals are documented in the clinical record.										
Task PPS provides periodic training to staff on person-centered methods that include documentation of self-management goals.

Task 12c. The education of staff on the development of self management goals with beneficiaries will be done by the collaborative efforts of the Project Management Office, the Provider Relations team, and the Communications Team. Forums will be held within each RPU for the participating providers.										
Task 12d. The 3bi Project Team will collaborate with the PPS IT Committee and/or Clinical Governance Committee to develop standards of data elements to identify partner EMR capability of reaching the required elements of the standard of care (e.g., documentation of beneficiary self management goals.)										
Task 12e. Once approved, the 3bi Project Team and PMO will conduct a survey/assessment with partners to understand current system capabilities. As identified, system functionality deficiencies or gaps will be reported to the IT Committee and PPS partner 3bi Project Champion for identification of remediation solutions.										
Task 12f. The IT Workgroup will identify EMR reporting requirements to document and verify utilization and implementation of standards of care within the EMR which are in place to document patient driven self-management goals in the medical record and review of said goals.										
Task 12g. PPS Partner status reports will be reported to the PPS Disease Management Quality Committee for review and any necessary improvements to be pursued as appropriate.										
Milestone #13 Follow up with referrals to community based programs to document participation and behavioral and health status changes.										
Task PPS has developed referral and follow-up process and adheres to process.										
Task PPS provides periodic training to staff on warm referral and follow-up process.										
Task Agreements are in place with community-based organizations and process is in place to facilitate feedback to and from community organizations.										

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

Task 13d. Identify resources to provide beneficiary support for lifestyle changes- CDSMP.										
Task 13e. Develop a 2 way referral process from the EMR: provider to CBO and CBO feedback to provider.										
Task 13f. Train staff on the referral process including appropriate beneficiaries for referral.										
Milestone #14 Develop and implement protocols for home blood pressure monitoring with follow up support.										
Task PPS has developed and implemented protocols for home blood pressure monitoring.										
Task PPS provides follow up to support to patients with ongoing blood pressure monitoring, including equipment evaluation and follow-up if blood pressure results are abnormal.										
Task PPS provides periodic training to staff on warm referral and follow-up process.										
Task 14d. Develop protocols for home BP monitoring based on risk (self monitor vs telehealth) in conjunction with the Clinical Governance Committee and, more specifically, the disease management subcommittees.										
Task 14e. Identify resource for home BP cuffs if needed to support compliance .										
Task 14f. Develop method for beneficiary follow up reporting- phone, web program, telehealth, etc.										
Milestone #15 Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.										
Task PPS has implemented an automated scheduling system to facilitate scheduling of targeted hypertension patients.										
Task 15b. Identify beneficiaries through EMR functionality and/or claims data.										
Task 15c. Develop process for scheduling patients for office visit.

Task 15d. Develop process for BP screening outside of office setting in a community "hot spot".										
Milestone #16 Facilitate referrals to NYS Smoker's Quitline.										
Task PPS has developed referral and follow-up process and adheres to process.										
Task 16b. Develop process for referral to quitline preferably through EMR.										
Task 16c. Develop process for provider feedback on referral.										
Task 16d. Educate providers and office staff on referral process and beneficiary education.										
Milestone #17 Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases.										
Task If applicable, PPS has Implemented collection of valid and reliable REAL (Race, Ethnicity, and Language) data and uses the data to target high risk populations, develop improvement plans, and address top health disparities.										
Task If applicable, PPS has established linkages to health homes for targeted patient populations.										
Task If applicable, PPS has implemented Stanford Model through partnerships with community-based organizations.										
Task 17d. Identification of high risk neighborhoods and development of strategies to engage beneficiaries.										
Task 17e. Develop processes to link with patients through Medicaid health home relationships.										
Task 17f. Utilize CDSMP for beneficiary engagement in lifestyle changes .										
Milestone #18 Adopt strategies from the Million Hearts Campaign.										
Task Provider can demonstrate implementation of policies and	241	241	241	241	241	241	241	241	241	241

Task Provider can demonstrate implementation of policies and procedures which reflect principles and initiatives of Million Hearts Campaign.	0	0	0	0	0	0	0	0	0	0
Task 18d. Develop methods to risk stratify the population with CV or potential CV disease.										
Task 18e. Create processes to screen BPs with beneficiary health care contact and in the community in conjunction with the Clinical Governance Committee and, more specifically, the disease management subcommittees.										
Task 18f. Utilize "measure up, pressure down" planks as the standards for BP management by providers.										
Milestone #19 Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.										
Task PPS has agreement in place with MCO related to coordination of services for high risk populations, including smoking cessation services, hypertension screening, cholesterol screening, and other preventive services relevant to this project.										
Task 19b. Define Population - As defined in the 3bi project plan the affected population includes cardiovascular patients. As such, the first step towards achievement of this milestone will involve the PMO and Population Health team performing a defined population review to understand the affected cardiovascular disease population in the PPS by associated MCO.										
Task 19c. Risk Stratify - Following the affected patient review, the population will be risk stratified to identify high risk versus rising risk cardiovascular populations.										
Task 19d. Organize - Organize a PPS approach for care coordination efforts by the affected population. For each, arrange an

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

IPQR Module 3.b.i.6 - IA Monitoring

Instructions :

- Milestone 1: The IA recommends identifying tasks specific to cardiovascular disease (what will be the program components). These should include data analysis to identify patients, interventions to control blood pressure and cholesterol at a minimum, supports for patients such as care management protocols, identification of CBOs for social service services, metrics to measure efficacy of interventions and course correction, if needed, provider training around protocols, IT tools and support.
- Milestone 4: Add tasks on how PPS will assure that all providers are connected appropriately and that their EHRs are appropriately modified to provide reminders.
- Milestone 7: The IA recommends adding tasks that will provide the methodology for how PPS will develop care coordination teams.
- Milestone 12: Recommend the PPS include a plan to monitor adherence to the plan/documentation and make any necessary improvements post-implementation.
- Milestone 19: The IA recommends adding tasks that identify how PPS will form agreements with MCOs, (for example, PPS will meet with them, identify their role, get their buy in, write agreements, execute agreements, coordinate care management activities, synchronize messaging, etc.).

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project 3.g.i – Integration of palliative care into the PCMH Model

IPQR Module 3.g.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The first risk within Project 3.g.i centers on the training of physicians, nurses, and other staff within PCMH sites and on referrals. Insufficient training runs the risk of impacting our project by potentially resulting in fewer referrals to palliative care, along with inappropriate referrals. These could be potentially inappropriate by referring people who do not truly need palliative care and not referring those who do. A strategy to mitigate this risk is to provide intensive initial training followed by subsequent retraining throughout the five year DSRIP period.

A second risk for our project is an inability to follow through on referrals to Medicaid beneficiaries due to their lack of engagement. Whether they are unwilling to or unable to make appointments, we run the risk of not providing palliative care. This will impact our project by not allowing palliative care providers to provide the appropriate services. A strategy to mitigate this risk is through the inclusion of palliative care into the PAM survey. This would allow for the activation of patients and their awareness of available palliative care. Furthermore, the development of processes that ensure both appropriate referrals from PCMH sites and the follow through on said referrals would mitigate this risk. The need for knowledge of and inclusion of transportation services is a must to ensure Medicaid beneficiaries' participation.

A third risk to our project is inconsistent and non-uniform functionality of clinical and non-clinical staff within palliative care providers across the PPS. The lack of consistent training results in deficiencies and gaps between providers and thus their patients. Inconsistent results and incoherent data are the two main impacts this would have on our project. A mitigating strategy would be the standardization of specific protocols on a prescribed basis for all participating sites. This is possible with the aid of Clinical Governance Committee and the general strategy PPS-wide to standardize clinical protocols to ensure quality of care. There would need to be initial training and subsequent training on a regular basis throughout the DSRIP period.

The fourth and final risk to our project is the uptake of eMOLST technology. Both the training and technology components could impact our project. This impact would be felt in the potential risk of insufficient funding for the technology and, moreover, the lack of appropriate extant technology within our sites, limiting the implementation of eMOLST. The impact this would have on our project is the lower amounts of advance directives for patients, which would generate more admissions to emergency departments and ICUs. Functionality would be drastically impacted resulting in more admissions and higher cost services being utilized. To mitigate this risk, there would need to be an inclusion of eMOLST within the larger, PPS-wide IT implementation plan. This would need to be coordinated and systematized by the PPS IT team.

IPQR Module 3.g.i.4 - Prescribed Milestones

Instructions :

Please enter baseline target dates and work breakdown tasks with target dates for each of the milestones below.

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Integrate Palliative Care into appropriate participating PCPs that have, or will have, achieved NCQA PCMH and/or APCM certification.	Project	N/A	In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task PPS has identified primary care providers integrating palliative care services into their practice model. Primary care practices using PCMH and/or APCM have been included. The PPS has received agreement from those PCPs not PCMH and/or APCM certified to become certified to at least Level 1 of the 2014 NCQA PCMH and/or APCM by Demonstration Year 3.	Provider	Primary Care Physicians	In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 1b. Develop Pre-Engagement Assessment and disperse among potential partners within PPS.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task 1c. Analyze data from Pre-Engagement Assessment to ascertain what Primary Care Providers (PCPs) are currently PCMH certified and those who are in the process of obtaining certification.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task 1d. Develop agreements with PCPs committing to integrate palliative care into their practice model.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Milestone #2 Develop partnerships with community and provider resources including Hospice to bring the palliative care supports and services into the practice.	Project	N/A	In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task The PPS has developed partnerships with community and provider resources including Hospice to bring the palliative care supports and services into the PCP practice.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 2b. Develop Pre-Engagement Assessment and disperse among potential partners within PPS.	Project		In Progress	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task 2c. Analyze data from Pre-Engagement Assessment to ascertain what hospice providers already exist within the PPS.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task 2d. Include available hospice providers in community resources developed by Project 2.c.i.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Milestone #3 Develop and adopt clinical guidelines agreed to by all partners including services and eligibility.	Project	N/A	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task PPS has developed/adopted clinical guidelines agreed to by all partners including services and eligibility, that include implementation, where appropriate, of the DOH-5003 Medical Orders for Life Sustaining Treatment (MOLST) form. PPS has trained staff addressing role-appropriate competence in palliative care skills.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 3b. The 3gi Project Team is comprised of key palliative care and hospicare entities from throughout the Care Compass Network nine county community. The Project 3gi Team will convene to determine clinical guidelines which serve as palliative care triggers, using existing standards where applicable. Special consideration will be given to the guidelines, services, and implementation of the MOLST (Medical Orders for Life Sustaining Treatment) and electronic based "e-MOLST" forms, as well as CAPC (Center for the Advancement of Palliative Care) guidance. Once the comprehensive project plan and requirements has been drafted by the Project 3gi Team they will be presented to the PPS Clinical Governance Committee for review. The Clinical Governance Committee is comprised of PPS regional as well as specialty representation. The Clinical Governance Committee will review, revise (where necessary), and endorse the project 3gi clinical guidelines. Lastly, the Clinical Governance Committee will present the PPS Board of Directors with the proposed project 3gi clinical standards and related guidance's for formal review and approval.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 3c. The CCN Provider Relations team along with the Project Management Office and Project 3gi Team will develop provider education/training forums where the clinical guidelines will be discussed. Clarity, transparency, and accountability to the clinical guidelines (among other topics) will be discussed as agreement from all partners is met. Re-assessment of clinical guidelines will formally occur annually by the Clinical Governance Committee, or more frequently as identified by the project team and/or regional PPS 3gi quality committees (e.g., Disease Management).	Project		In Progress	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
Milestone #4	Project	N/A	In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Southern Tier Rural Integrated Performing Provider System, Inc. (PPS ID:44)

Project Requirements (Milestone/Task Name)	Reporting Level	Provider Type	Status	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Engage staff in trainings to increase role-appropriate competence in palliative care skills and protocols developed by the PPS.							
Task Staff has received appropriate palliative care skills training, including training on PPS care protocols.	Project		In Progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 4b. Train PCP staff to identify established "clinical triggers" in patients and how to refer these to appropriate PCMH.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 4c. Develop PPS care protocols in conjunction with the Clinical Governance Committee.	Project		In Progress	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task 4d. Train PCMH staff on PPS care protocols.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Milestone #5 Engage with Medicaid Managed Care to address coverage of services.	Project	N/A	In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task PPS has established agreements with MCOs that address the coverage of palliative care supports and services.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 5b. Identify MCOs within the Care Compass Network nine county region.	Project		In Progress	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task 5c. Initiate discussions with MCOs, legal counsel, compliance, and/or the Department of Health (as required) to identify approaches and solutions relative to palliative care supports and offerings provided by MCOs as aligned with DSRIP goals.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 5d. Engage with MCOs to understand, for palliative care services not currently covered, how to build associated rates into existing programs.	Project		In Progress	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Milestone #6 Use EHRs or other IT platforms to track all patients engaged in this project.	Project	N/A	In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.	Project		In Progress	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 6b. Partner the 3gi Project Team with IT consultants and the PPS IT Project Manager in order to develop appropriate platforms for tracking 3gi patients in conjunction with the IT & Data Governance Committee and overall infrastructure/IT Vision developed by the PPS.	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task	Project		In Progress	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

Project 4.a.iii – Strengthen Mental Health and Substance Abuse Infrastructure across Systems

IPQR Module 4.a.iii.1 - PPS Defined Milestones

Instructions :

Please enter and update baseline target dates, as well as work breakdown tasks with target dates for PPS-defined milestones. For Domain 4 projects, these milestones must align with content submitted in the PPS Application.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone Milestone 1 - Participate in MEB health promotion and MEB disorder prevention partnerships.	In Progress	Participate in MEB health promotion and MEB disorder prevention partnerships.	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1a. Leveraging the 4a.iii MEB project team, identify evidence-based screening tools which can meet DSRIP goals of strengthening mental health and substance abuse infrastructure of the PPS. Identified tools should be validated by the PPS Clinical Governance Committee and approved for PPS adoption by the Board of Directors.	In Progress	insert progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1b. Identify those primary and specialty care providers in each of the four regions of the PPS with whom the PPS can engage in the screening process and the associated staff education.	In Progress	insert progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1c. Identify and procure the evidence based targeted intervention services, for approval by CCN Clinical Governance Committee and Board of Directors.	In Progress	insert progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1d. Engage with partner agencies across the PPS region to provide the targeted intervention services and associated training requirements.	In Progress	insert progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4

Project 4.b.ii – Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer

IPQR Module 4.b.ii.1 - PPS Defined Milestones

Instructions :

Please enter and update baseline target dates, as well as work breakdown tasks with target dates for PPS-defined milestones. For Domain 4 projects, these milestones must align with content submitted in the PPS Application.

Milestone/Task Name	Status	Description	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone Milestone 1 - Increase community partner participation in COPD prevention and management.	In Progress	Increase community partner participation in COPD prevention and management.	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1a. The CBO Engagement Council will produce and disseminate a Pre-Engagement Assessment wherein providers' scope of services will be gathered. The Provider Relations team will engage community partners in planning for PPS wide COPD prevention and management activities.	In Progress	insert progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1b. The 4bii Project Team, Project Management Office, Providers Relations team, and CCN Communications team will work collaboratively with tobacco free coalitions to establish consistent messaging for smoking cessation for patients and smoke free environments for facilities participating in the project. This will include COPD specific materials and disease management materials in related agendas with focused review on at least an annual basis for QA/QI opportunities.	In Progress	insert progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1c. Educate COPD patients and smokers about	In Progress	insert progress	04/01/2015	03/31/2017	03/31/2017	DY2 Q4

available options for Chronic Disease Self Management (CDSMP) evidence based interventions.						
Milestone Milestone 2 - Establish PPS wide COPD screening protocols and clinical practice guidelines.	In Progress	Establish PPS wide COPD screening protocols and clinical practice guidelines.	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 2a. Engage clinical and community based providers in the establishment of PPS wide screening protocols and clinical practice guidelines for COPD in conjunction with the Clinical Governance Committee and, more specifically, the Disease Management Subcommittees within each Regional Performance Unit (RPU). Established protocols, particularly GOLD Standards, will be taken into consideration as PPS wide protocols are adopted and/or developed by the Clinical Governance Committee and Board of Directors. Review and alteration to said protocols will occur annually at a minimum for effectiveness and relevance.	In Progress	insert progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 2b. The 4bii project team will pursue the standardized utilization of the 5As (Ask, Assess, Advise, Assist, and Arrange) for tobacco cessation and appropriate referrals to NYS Quit line. The PMO and the IT & Data Governance Committee will work in conjunction to locate the 5As within providers' EMRs and implement strategies to fill identified gaps. Smoking history, willingness to self-manage goals, and other pertinent clinical interventions will be sought to be included in EMR.	In Progress	insert progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 2c. As part of the engagement of clinical and community based partners, the PPS will include a focused effort for increased adult	In Progress	insert progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

immunization rates (influenza, pneumococcal, pertussis). Measured and monitored success of this effort to be measured by reported numbers provided by NYS DOH.						
Milestone Milestone 3 - Increase pulmonary function testing (PFT)for COPD at risk adults.	In Progress	Increase pulmonary function testing (PFT)for COPD at risk adults.	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 3a. The IT & Data Governance Committee work group will establish a PPS wide approach for provider alerts of patients requiring PFT screening in conjunction with the Clinical Governance Committee and, more specifically, the Disease Management Subcommittees within each Regional Performance Unit (RPU). Patients will be assessed for their COPD-related health conditions, risk stratified via screening protocols and guidelines (i.e. GOLD Standards and/or PAM Survey), and then receive appropriate health management interventions. This framework will be reviewed, altered if need be, and approved by the Disease Management Subcommittee to then be fully adopted by the Clinical Governance Committee annually at a minimum.	In Progress	insert progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 3b. Utilize the population health management screening model to identify opportunities for distribution of patient reminders PFT screening needed, as applicable, such as text message reminders for spirometry in the office or pulmonary function screening.	In Progress	insert progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Milestone Milestone 4 - Improve adherence to timely follow up of abnormal PFT screening results.	In Progress	Improve adherence to timely follow up of abnormal PFT screening results.	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 4a. The IT & Data Governance Committee will establish a PPS wide approach for provider alerts to conduct follow up appointments with	In Progress	insert progress	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

Attestation

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Southern Tier Rural Integrated Performing Provider System, Inc. ', that all information provided on this Quarterly report is true and accurate to the best of my knowledge.
