Quarterly Report - Implementation Plan for Mount Sinai PPS, LLC

Year and Quarter: DY2, Q2

Quarterly Report Status:  Adjudicated

Status By Section

Section	Description	Status
Section 01	Budget	 Completed
Section 02	Governance	 Completed
Section 03	Financial Stability	 Completed
Section 04	Cultural Competency & Health Literacy	 Completed
Section 05	IT Systems and Processes	 Completed
Section 06	Performance Reporting	 Completed
Section 07	Practitioner Engagement	 Completed
Section 08	Population Health Management	 Completed
Section 09	Clinical Integration	 Completed
Section 10	General Project Reporting	 Completed
Section 11	Workforce	 Completed

Status By Project

Project ID	Project Title	Status
2.a.i	Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management	 Completed
2.b.iv	Care transitions intervention model to reduce 30 day readmissions for chronic health conditions	 Completed
2.b.viii	Hospital-Home Care Collaboration Solutions	 Completed
2.c.i	Development of community-based health navigation services	 Completed
3.a.i	Integration of primary care and behavioral health services	 Completed
3.a.iii	Implementation of evidence-based medication adherence programs (MAP) in community based sites for behavioral health medication compliance	 Completed
3.b.i	Evidence-based strategies for disease management in high risk/affected populations (adult only)	 Completed
3.c.i	Evidence-based strategies for disease management in high risk/affected populations (adults only)	 Completed
4.b.ii	Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer)	 Completed
4.c.ii	Increase early access to, and retention in, HIV care	 Completed

Narrative Text :

Placeholder figures have been included as required by the implementation template; however the criteria for evaluating funds flow are in development based on provider roles and responsibilities in PPS-wide projects which is a work in progress. MS PPS is not comfortable with submitting formal projections at this time and committing to future payment allocations per type as we will be continuously refining provider incentives to ensure appropriate transition of DSRIP projects into sustainable outcomes. We would also note that according to the implementation plan, we are not required to finalize this work until DY1 Q3, and the list of project participants is now due to DOH in October 2015, which is a huge

✅ IPQR Module 1.5 - Prescribed Milestones

Instructions :

Please provide updates to baseline target dates and work breakdown tasks with target dates for required milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Complete funds flow budget and distribution plan and communicate with network	Completed	Funds Flow Budget and Distribution Plan, signed off by your Finance Committee, including details of your approach to funds flow on a whole-PPS and project-by-project basis; evidence of involvement of provider network in developing funds flow methodology.	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4	YES
Task Step 1. Finalize funds flow and distribution plan. Includes feedback from PPS providers who participate in various multi-disciplinary workgroups and committees.	Completed	Finance workgroup is responsible for assembling the final funds flow after receiving resource requirements from PPS work groups. The executive leadership group has been developing a number of options for funding distribution methodologies to PPS partners. It has been established that the funds will be distributed through performance-based contracts and will be strictly based on partner performance in completing defined milestones and meeting metrics. The finance workgroup is currently in process of narrowing down funding distribution options and data sources for identifying provider award per provider. The next step in the process is for the finance workgroup to review the available options and provide recommendations.	07/15/2015	09/30/2015	07/15/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2. Governance approval of funds flow, criteria for distribution of funds from each budget category and distribution plan	On Hold	Finance Committee and Board of Managers Approval. On Hold as it requires completion of previous step	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4	
Task Step 3. Communication of approved Funds Flow and Distribution Plan to PPS providers	On Hold	Funds Flow and Distribution Communication Packet. On Hold as it requires completion of previous step	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4

✔ IPQR Module 1.8 - PPS Budget - Non-Waiver Revenue (Quarterly)

Instructions :

Please include updates on non-waiver revenue budget items for this quarterly reporting period. Reported actual spending will be compared to baseline projections and deviations will be evaluated. Any explanations regarding deviations from baseline projections must be included within the textbox, not as narrative within uploaded documentation.

Narrative Text :

Different from the projected flow of funds by provider type for waiver revenue provided in DY1 Q1, MSPPS has more information on its network and the contracting strategy for our providers. As such, we can provide a more accurate projection for flow of funds by provider type for non-waiver revenue. Of note - as MSPPS has opted to flow funds to the top-level/parent organization, there are no substantial funds projected to flow to

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

individual PCPs and Non-PCPs.

Narrative Text :

The Additional Providers line in Module 1.10 appears to be adding incorrectly. The total that it states is \$25,647.99, but summing the totals provided to each of the Additional Partners adds to \$26,007.97. The difference of \$359.98 is exactly the difference in the totals between Modules 1.10 and 1.08.

Section 02 – Governance

✅ IPQR Module 2.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV

Milestone #5 Finalize community engagement plan, including communications with the public and non-provider organizations (e.g. schools, churches, homeless services, housing providers, law enforcement)	Completed	Community engagement plan, including plans for two-way communication with stakeholders.	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	NO
Task Step 1. Identify community resources and organizations participating in activities impacting population health	Completed	The PPS has identified over 73 partners that are also community-based organizations and represent the full spectrum of clinical and social services that are critical in supporting the Medicaid beneficiary population.	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task Step 2. Recruit participants from PPS who can support community engagement focusing on CBOs, MH, OASAS and BH	Completed	As noted above, Mount Sinai has recruited a robust membership for its cross-cutting Stakeholder Engagement Workgroup. 73 community-based organizations were invited to participate with 27 responding interest to join the committee. The first workgroup meeting will take place in August/September 2015	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task Step 3. Create a clear strategic community engagement plan	Completed	The Mount Sinai PPS, in conjunction with the Stakeholder Engagement Workgroup, is establishing a community engagement plan that will include, among other elements, the expectations for partner participation as DSRIP implementation continues, an internal plan for ongoing communications and regular opportunities for engagement with the PPS, clear roles and responsibilities for stakeholders and for the PPS, and a set of goals and milestones that will be achieved through the engagement process. It is our commitment that the PPS cannot be successful in achieving delivery system transformation without the robust participation and buy-in of our partners and stakeholders.	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task Step 4. Community Engagement Plan developed with input and representation of continuum of	Completed	The Stakeholder Engagement Workgroup will meet monthly to collaborate and work on key pieces of the community	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Finalize governance structure and sub-committee structure	Yes, M1 Ongoing Reporting
Establish a clinical governance structure, including clinical quality committees for each DSRIP project	Yes, M2 Ongoing Reporting
Finalize bylaws and policies or Committee Guidelines where applicable	
Establish governance structure reporting and monitoring processes	Yes, M4 ongoing reporting.
Finalize community engagement plan, including communications with the public and non-provider organizations (e.g. schools, churches, homeless services, housing providers, law enforcement)	Yes, M5 ongoing reporting.
Finalize partnership agreements or contracts with CBOs	
Finalize agency coordination plan aimed at engaging appropriate public sector agencies at state and local levels (e.g. local departments of health and mental hygiene, Social Services, Corrections, etc.)	The PPS plans to push out the planned milestone due date.
Finalize workforce communication and engagement plan	Yes, M8 ongoing reporting.
Inclusion of CBOs in PPS Implementation.	<p>Governance Milestone 9, has been successfully completed by the PPS. The PPS has distributed funds to all partners, including CBO's, with actual checks sent to partner accounts in April 2016 (DY2,Q1) and on a rolling basis. For the IA's reference, we have attached the CBO template. This indicates which of our CBO's have contracts with the PPS, and were eligible for funds. Additionally, a copy of an actual CBO contract has been uploaded here.</p> <p>Further, the MSPPS is working to continuously include CBO's in care delivery. CBO's have been included in our process mapping sessions to identify opportunities for engagement in the workflow. CBO representatives are present at all projects and committee meetings as active contributors. CBO's will continue to be considered for future opportunities to provide services or training to PPS partners, or patients by way of contractual agreements. An example to date includes the use of a CBO (Callen-Lorde), who provided a LGBT training session at the launch event of the CCHL Site Champion forum.</p>

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Current risks to achieving the above milestones include: financial fragility of many participating providers; the culture of competition rather than cooperation that exists among similar agencies and providers; the ability of the PPS to attain project goals within the proposed budget; the ability of partners to provide up front capital and investments to implement projects; potentially low distribution of DSRIP dollars at the individual provider level; and the lack of understanding DSRIP and impact of payment reform among provider participants. Other risks include ability to develop and share data in a meaningful way to support care coordination, the availability of HIE services by SHIN-NY, availability of capital dollars (including impact of the CRFP awards), and the ability of partners to participate in the planning process (many smaller partners have cited their lack of resources and ability to participate in multiple committees and work groups). The impact of these risk may result in provider partners dropping out of the PPS, not enough capital to launch projects at the partner level that may result in the need to find additional partners, and delaying the PPS's ability to meet DSRIP goals.

✔ IPQR Module 2.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Major dependencies include the ability to complete participating partner contracting, establishing the working relationships between the PPS and provider partners, ability of partners to launch projects and engage in project work groups, availability of HIE services by SHIN-NY to ensure data sharing infrastructure can be established, and the ability/authority of the PPS to implement monitoring and compliance programs and partner's response to those efforts. We anticipate the need for significant partner education and outreach, particularly at the individual community provider level. The primary interdependency is the participating provider contract that will link providers to the PPS and establish the working relationship between the PPS and its provider network. Integral to that network is an IT platform that is available to all PPS participants and establishes a framework for data exchange and management as well as reporting. The Workforce plan will be a key component of transformation for many providers as they move away from traditional facility based activities into community based activities. The PPS will need to have a plan and program in place to retrain a sufficient number of providers to work in community based settings providing case management and care coordination. Additionally, a robust PMO will be necessary to manage the data and report on the activities of each of the projects and the PPS as a whole.

✓ IPQR Module 2.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for the development of your governance structure and processes and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Lead Applicant Entity	Arthur Gianelli, Mount Sinai PPS LLC	By law and policy development, funding and staffing resources
PPS Governance and organization	Jill Huck/MS PPS LLC PMO Director	Establish LLC, PMO contract, provider participation agreements/contracts, compliance program
Financial Management and oversight	Finance Committee under co-chairs: Don Scanlon, Mount Sinai PPS LLC and Mark Pancirer, Amsterdam Nursing Home	Financial structure, and management of PPS, treasury and accounting, financial oversight of PPS participating providers
IT Development, information sharing and Implementation	IT Committee under co-chairs: Kumar Chatani, Mount Sinai PPS LLC and Barbara Hood, Ryan Center	IT platform, interconnectivity with PPS partners, data base management, performance reporting management
Clinical Quality	Clinical Committee under co-chairs: Theresa Soriano, Edwidge Thomas -Mount Sinai PPS LLC and Matthew Weissman, Community Healthcare Network NYC	Finalize metrics and milestones for each project, monitor quality of projects, review and approve all quality reports
Workforce Development	Workforce Committee under co-chairs: Jane Maksoud, Mount Sinai PPS LLC Health System and	Develop workforce strategy
Physician Organizations and large practices	All Med IPA	Board and Committee members
Key Advisors, Counselors, attorneys and consultants	Mount Sinai Attorneys, Harbage Consulting, PS PPS LLC PMO staff and COPE	Drafts governance documents, provider agreements, policies and procedures, etc.
Audit and Compliance Committee	Mount Sinai and Partners Compliance members	Oversee compliance to NYSDOH regulations and policies
Edwidge Thomas	Clinical Director of the MS PPS PMO	Oversees clinical quality, monitoring and reporting of all DSRIP Projects.

NYC Mayor's Office; Sarah Samis	Leadership Participant,	Involved in leadership committee

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 2.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

The shared IT infrastructure is key to the development of an integrated delivery system, the foundation of the PPS transformation. Development of the IT infrastructure and the process of linking providers to that system will be a major indicator of the success of the PPS in creating an integrated delivery system.

A crucial functionality of the overall IT strategy will be identifying risks. To do that, the PPS will use dashboards to monitor multiple dimensions of program performance and the ability to gauge progress against milestones for the appropriate allocation of financial and operational resources.

As such, the MS PPS IT infrastructure will allow for PPS-wide data sharing across all provider types through a combination of integration via the RHIO, a user portal for providers, or directly into the MS PPS HIE. The infrastructure to enable data sharing will allow the Board and committees the ability to query key performance indicators for the PPS, by partner type, project and key metrics, both defined by DSRIP and those defined as critical to performance management by each committee. The performance management capability will enable committee members to define key indicators, thresholds (goal charts) and frequency of data collection to monitor partner performance and stability. With relation to DSRIP performance, the MS PPS Rapid Cycle Evaluation (RCE) process will be driven by the data collected and informed by input from the committees and project leads, to ensure timely process improvement initiatives can be put into place to address areas of risk. While performance reporting will be largely informed by claims data, real time or near real-time data will be accessed and utilized for RCE activities and utilization management. This will enable timely feedback loops and course corrections so that improvements aren't limited to quarterly data feeds or otherwise historical data.

CBOs will also be able to engage and connect into the MS PPS IT platforms to share information and report on their performance. MS PPS will implement a data normalization service to consume non-standard data produced by existing CBO systems. CBOs will be able to connect into the care coordination and referrals management platforms between them and partnering organizations, as well as access to other IT services through the MS PPS user portal.

Additionally, the IT workstream overlaps with the work of the Governance workstream. Successful execution of IT policy and process tasks will inform the development of a comprehensive governance framework for the PPS that includes robust data governance components such as data access, data security, and other IT-related policy elements.

Finally, the successful realization of these deliverables will require the shared IT infrastructure to support specific governance milestones such as posting of minutes and agendas on provider and public portals, and soliciting feedback from stakeholders on PPS activities and decisions. These tools will allow the PPS to provide information and technical assistance across its network and service area, thus meeting governance-specific deliverables. In addition, a robust and shared IT infrastructure will minimized the risk for DSRIP under-performance and provide the PPS governing body with data and informatics required to support effective, strategic decision-making.

New York State Department Of Health Delivery System Reform Incentive Payment Project

Mount Sinai PPS, LLC (PPS ID:34)

✅ IPQR Module 2.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The governance workstream will be successful when the PPS governance structure is fully stood up with timely achievement and establishment of the governance structures. Leadership Committee is operating as the governing board of the PPS and has transitioned to be the Board Of Managers (BoM) in which they will function to approve budgets, distribute funds, contract for services with the PMO, oversee and monitor quality and compliance and foster outreach to providers and beneficiaries. The Leadership committee has transitioned to become the Board of Managers of the MS PPS LLC where the nomination and voting in of the BoM, development and adoption of the bylaws, policies and procedures for all the committees and sub committees along with the development and completion of partner agreements will assist in the operation of the MS PPS. Success will also be determined by the execution of the performance management systems including the data collection, analyses and reporting to support the decision making by the BoM. Having performance management systems ready to collect data and determine the status of each partner in the network will be important for monitoring and reporting of the deliverables set by the PPS.

✅ IPQR Module 3.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Finalize PPS finance structure, including reporting structure	Completed	This milestone must be completed by 12/31/2015. PPS finance structure chart / document, signed off by PPS Board.	06/01/2015	12/31/2015	06/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task Step 1. Establish process for nominating and electing finance committee members, to ensure representation from different provider types so that different views and perspectives are considered.	Completed	Finance committee has been formed and includes representation for different provider types across PPS's geographic region. Finance committee members are represent hospitals, primary care practices, community health centers, long-term care centers, home health agencies	06/01/2015	09/30/2015	06/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task Step 2. Establish Finance Work group to review and assimilate funds flow and other financing policies, procedures and issues.	Completed	Finance work group has been established to include representation from the partner organizations engaged in DSRIP efforts, Mt. Sinai Health System and the Project Management Office. Supported by a consulting team, below are the names of the finance workgroup members to date: Joe Gurracnio, Pat Semenza, Mark Pancirer, Brian McIndoe, Glenn Tolchin, Mike Bruno, Brendan Loughlin, Rachel Amalfitano, Frank Cino, Darrick Fuller, Peter R. Epps, Steve Maggio, Nina Bastian	06/01/2015	07/01/2015	06/01/2015	07/01/2015	09/30/2015	DY1 Q2	
Task Step 3. Finalize accounting GL structure for recognizing revenues and expenses and for completing DSRIP budgets.	Completed	Mt. Sinai Health System has elected two individuals to lead the accounting structure for DSRIP including budgeting and other functions.	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 4. Determine the finance function staffing and support services including accounting, financial reporting, budgeting, accounts payable,	Completed	The MS PPS team has identified staffing needs and costs in relation to carrying out the finance functions for DSRIP. The PMO office staff has also been identified as contributors to the centralized DSRIP efforts.	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3

and cash management.									
Task Step 5. Establish Funds Flow process that includes a mechanism for review and approval of payments to providers per the funds flow plan by the governance committees.	Completed	A model of funds flow has been developed that looks at performance payment to partners. The current work being conducted revolves around finalizing project participation per partner, partner list with appropriate service types. The model will be going through finance committee approval process once the input data are finalized. Meanwhile the committee will be approving the principles and thought process behind the funds flow mechanism.	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 6. Develop guiding principles for funds allocation to establish budget categories.	Completed	Step 6. Develop guiding principles for funds allocation to establish budget categories.	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Milestone #2 Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	Completed	This milestone must be completed by 3/31/2016. Network financial health current state assessment (to be performed at least annually). The PPS must: - identify those providers in their network that are financially fragile, including those that have qualified as IAAF providers; -- define their approach for monitoring those financially fragile providers, which must include an analysis of provider performance on the following financial indicators: days cash on hand, debt ratio, operating margin and current ratio; -- include any additional financial indicators that they deem necessary for monitoring the financial sustainability of their network providers	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4	YES
Task Step 1. Develop criteria for assessing financial health of PPS partners.	Completed	The finance work group has developed a draft process and guidelines for the next steps in assessing the financial health of PPS partners. A tentative timeline of all current PPS assessments has been designed to determine the best time frame during which the assessments will be disseminated out to the PPS and Financial Health Assessment is likely to be distributed during DY1 Q2 to allow enough time for completion.	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 2. Develop a process for quarterly submission of financial data/ratios by PPS providers that will require PPS providers to	Completed	A drat process has been drafted by the finance team to allow for quarterly submission of financial ratio data including definitions of ratios, examples and identifying technical support resources for questions and concerns by partners.	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3

✓ IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

"There may be challenges and risks in 5 key areas:

- 1) Risk/challenge: Being able to reliably receive quarterly results from providers to monitor financial health. There will be a large volume of materials coming in to review and MSPPS will need to create a standardized submission and review process.
 - a. Mitigation: Process must include conversations with, and obtain buy-in from, providers to understand why financials may be trending one way or another. There may be unique seasonality at a provider or changes to financial statements may be due to something other than DSRIP. Consider contract terms that permit penalties or sanctions for non-performing providers.
- 2) Risk/challenge: If a provider is experiencing revenue loss due to DSRIP project implementation, there exists a challenge to evaluate loss due to DSRIP quantified vs. loss due to other reasons and the level of due diligence necessary by MSPPS in evaluating requests for funding to cover revenue loss.
 - a. Mitigation: Develop a mechanism in evaluating budget vs. actual spending on DSRIP related work as part of assessing overall financial health of PPS partners.
- 3) Risk/Challenge: There is a need to establish confident estimates of future awards when making financial decisions such as adding PMO staff and setting annual budgets.
 - a. Mitigation: Work closely with MSPPS IT and Business Intelligence capabilities to continually assess progress against goals for estimating potential awards and progress.
- 4) Risk/Challenge: Ability to contract with MCOs and get 90% of payments under value-based payment methodologies.
 - a. Mitigation: Work in close collaboration with the State in incentivizing MCOs to negotiate and work with MSPPS.
- 5) Risk/Challenge: Performance is hard to define or isn't available initially so payments are based on missing or inaccurate data. In addition, accurate data is required for project attribution for initial valuation of provider commitments.
 - a. Mitigation: Evaluation mechanism to ensure speed and scale commitments are realistic and achievable) and accurate performance data with provider attribution so that performance can be measured efficiently and fairly.

✓ IPQR Module 3.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

"IT Systems: As part of developing data reporting mechanism to manage the provider data base and performance and process reporting, the finance team would need to ensure the appropriate measures are captured as part of the reporting process and appropriate analytics are built in

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

over time to allow for real-time dashboard reporting.

Workforce: As part of the workforce strategy budget, the finance workstream would need to consider the impact on the PPS and potential mitigation strategies (i.e. tapping into reserve funds to ensure this workstream is successful).

Governance: Finance Committee is part of the formal governance structure. A number of elements requiring integration are CBO contracting and evolving governance model.

Cultural Competency and Health Literacy: As part of the training or change management programs that the PPS sets out to achieve, integration around cost of those services and monitoring of them brings an essential collaborative opportunity between the two workstreams.

Performance Reporting: Financial health reporting protocols will need to be standard across the PPS in order for the lead organization to be able to make accurate assessment of the overall PPS health. The development of strategies to establish the appropriate reporting structure will be approved by the Finance Committee before being finalized.

Population Health Management: As part of performing provider contracts, outcome measures will drive the majority of the incentive payments earned in the last years of DSRIP. The strategy for population health management and roadmap development must align with the performance contracting process and principles.

Practitioner Engagement: as part of performing provider contracts, provider engagement early in the contracting process and throughout DSRIP period is key to ensure the contractual obligations are met."

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Finance Workgroup	PPS Members	Develop guiding principles, define financial performance metrics, accounting processes; define reporting standards and requirements; and develop ongoing partner assessment processes
Compliance Committee	Frank Cino, Chair; PPS Members	Draft a compliance program and monitor performance
Accounting and Treasury Management Services	Mike Bruno, SVP Finance, Mount Sinai	Setup accounting services, GL chart of accounts, and treasury management services for the PPS
Consultants	COPE Health Solutions	Drive Finance Committee deliverables through proven DSRIP experience and project management support

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

✔ IPQR Module 3.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Art Gianelli	St. Lukes Roosevelt, President	Executive leader of Mount Sinai PPS
PMO	Obtain input regarding resource requirements, DSRIP operating plans, and work force requirements	Feedback and request for resources
Finance Leads	Obtain input regarding funds flow, financial sustainability requirements and MCO / risk based contracting strategy.	Feedback on allocation and request for resources
External Stakeholders		
Skilled Nursing/Housing/Rehabilitation	Rachel Amalfitano, CFO, Village Care	Participate in appropriate committees and provide generalized PPS feedback through townhall forum
Skilled Nursing/Nursing Home	Mark Pancirer, CFO, Amsterdam House	Participate in appropriate committees and provide generalized PPS feedback through townhall forum
Home Care	Glenn Tolchin, CFO, VNSNY	Participate in appropriate committees and provide generalized PPS feedback through townhall forum
Hospital	Joseph Guarracino, CFO, Brooklyn Hospital Center	Participate in appropriate committees and provide generalized PPS feedback through townhall forum
FQHC	Jose Virella, CFO, Ryan Center Health Network	Participate in appropriate committees and provide generalized PPS feedback through townhall forum

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 3.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

At its core, IT services will provide the clinical integration and pop health backbone for the PPS, enabling enhanced care coordination, utilization management and provider integration. This infrastructure design will inherently enable management of PPS and DSRIP project performance across the entire PPS and multiple partners. The partners will be able to collect and submit financial reports directly to the PPS Finance team using an electronic platform. These reports and data will enable PPS leadership and appropriate committees the ability to understand how DSRIP projects are impacting overall utilization, associated Medicaid payments and overhead costs; allowing for the identification of appropriate business and utilization management strategies to minimize any unintended consequences. While it is expected that some providers will experience decreased volume, the intent is to achieve this in an incremental and controlled manner, which will allow providers to adapt over time during DSRIP, adjust to new volumes and financial incentives, and re-align operating models.

MS PPS is also working to establish a customer-relations management tool in order to track all reporting functions of the PPS and all contracts. This will include the reporting of financial metrics on a quarterly basis. The data will be self-reported through easy-to use portal system. The PPS data warehouse containing information from RHIO, providers and payers will serve an essential purpose in evaluating value-based payment options as the PPS matures.

The design of centralized IT services' ultimate goal is to enable more cost-effective health care delivery and minimize duplication and waste through reduced variability in clinical processes and decision-making, ongoing process improvement, reduced avoidable acute care utilization and other high-cost services and expenses. This more cost-effective delivery model will decrease total per patient spending, increase tangible value to patients, providers and payers and ultimately enable the network to engage in shared savings and/or value-based payment models. These new payment models will better incentivize health care transformation and maintenance of cost-effective care delivery across the continuum of care. Decreased per patient costs will in turn generate sufficient operating revenue for partners to further invest in infrastructure development and population health initiatives.

✔ IPQR Module 3.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Once implementation plan is complete, the plan and progress against its milestones will be reviewed by Finance Committee every 3 months. Success will be measured by tracking results of each commitment in the plan.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

The success of Financial Sustainability Plan will be achieved through a number of key elements:

- Creating the funds flow principles, processes, and budgets for distribution of DSRIP funds to support implementation of the Financial Sustainability Plan.
- Evolving Governance structure and participation of key stakeholders and providers in the PPS service area.
- Focused integration of IT information and systems in order to enable accurate and timely information flow across PPS providers necessary for proactive performance monitoring. This information flow will include value-based payment measures.
- Regular review of the implementation plan milestones and progress towards meeting the requirements with a report out to the committee on identified areas of risk and potential mitigation strategies to address them.
- Strong PMO structure to facilitate effective implementation of the DSRIP projects.

✔ IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- Risk 1: Timeliness of retraining and redeploying the workforce.
Mitigation: assess needs of individual providers and provide support to assist provider in meeting project timeline. Determine ability of provider and where in the roll out process they would be.
- Risk 2: Do organizations have adequate coverage to pull employees into additional training?
Mitigation: work closely with union, identify funding for providers, and develop a broad base workforce via Workforce Committee strategies.
- Risk 3: Employee engagement.
Mitigation: assess providers internal activity of employee engagement. Develop resources and programs for PPS providers to assist them with their programs.
- Risk 4: Needs of the community exceed the ability of the current workforce.
Mitigation: Identify recruitment strategy for each project. Determine ability of providers to redeploy staff to different communities based on CC and HL.
- Risk 5: There is a strong co-dependency between the Clinical and Workforce Committees. The work task that the Clinical Committee creates must dictate the work structure the Workforce Committee supports in order for implementation to be successful. It is a potential risk, that with such a large undertaking, the work may become siloed within functional groups.
Mitigation: the MSPPS will coordinate cross-functional work-groups to ensure collaboration. This will also serve to make estimates more realistic, as workforce will not examine each clinical project in isolation, but rather as part of a larger system change.
- Risk 6: The future state analysis of the workforce is similarly dependent on the outcomes of the Clinical Committee work.
Mitigation: Workforce and Clinical leadership will work together to ensure necessary information is provided to the committees in order to achieve milestones.
- Risk 7: The MSPPS anticipates significant competition for talent in certain roles with other PPSs as the DSRIP initiative moves forward.
Mitigation: The MSPPS plans on collaborating with other PPSs as well as key stakeholders and educational institutions to reduce potential difficulties.
- Risk 8: The MSPPS clinical work will need to scale faster than the training initiatives can support. Once training needs have been identified, curriculum may need to be developed, and the training itself may take time to be done effectively.
Mitigation: The MSPPS will work with training providers to ensure we can scale appropriately, as well as collaborate internally to address clinical needs with the resources available.
- Risk 9: Each partner and employees at each partner will join the PPS at differing levels of education, experience, and baseline knowledge.
Mitigation: The training strategy will take into account these different levels in designing training initiatives and timeline.
- Risk 10: Preliminary discussions with some of our community-based providers suggest that there may be regulatory issues that impact staffing, roles, and capacity of their work forces.
Mitigation: The PPS will work with its partners and NYS to identify and implement solutions to such issues.
- Risk 11: The MSPPS may also face a risk of exposing confidential information as a result of sharing data across the various partners.
Mitigation: There will be strict controls put in place as part of the assessment steps of implementation plan so as to minimize this risk.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✓ IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Successful planning and implementation of a cultural competency and health literacy strategy and a meaningful training program rests on several closely tied work streams with the PPS leadership, members and other technical committees. Clinical and Workforce committees, in collaboration with stakeholder unions and community advisers must assess existing curricula and develop one standardized training curriculum for multiple disciplines and workforce levels endorsed by the PPS provider organizations. Excellent provider and partner engagement to educate them about the strong linkage between poor cultural competency/health literacy and health outcomes, and the effectiveness of "universal precautions" (Step 1a – milestone 1) will be necessary to achieve buy-in for the importance of training of workforce and modification of current verbal and written communication. Adequate funds must be allocated to the development of these curricular programs and to the creation of different modes of training and evaluation depending on level or workforce and roles. This necessitates working with the IT committee to plan feasible curricular activities and develop a common training platform or alternate strategy that can be tracked within the individual organizations and by PPS leadership.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 4.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Clinical Committee Co-Chair	Theresa Soriano, Mount Sinai Health System	Provide input to shape policies and procedures.
Clinical Committee Co-Chair	Matt Weissman, Community Healthcare Network	Provide input to shape policies and procedures.
Clinical Director	Edwidge Thomas, Mount Sinai PPS	Provide input to shape policies and procedures.
IT Committee Co-Chair	Kumar Chatani, Mount Sinai Health System	Provide input to shape policies and procedures.
IT Committee Co-Chair	Barbara Hood, Ryan Center	Provide input to shape policies and procedures.
Workforce Committee Co-Chair	Jane Maksoud, Mount Sinai Health System	Approve policies and procedures; lead and maintain oversight of committee activities and projects.
Workforce Committee Co-Chair Cultural Competence / Health Literacy Workgroup Co-Chair	Linda Reid, VNSNY	Approve policies and procedures; lead and maintain oversight of committee activities and projects.
Workforce and Clinical Committees	PPS Members	Assess and define the current and future states of the workforce; conduct a gap and benefits/compensation analysis; create a transition roadmap and training strategy.
Workforce Project Team	Workforce Committee representative members, including partner and union representation	Complete implementation plan steps; make recommendations to the committee for review and approval.
Workforce Project Management	Daniel Liss, Mount Sinai Health System; MSPPS PMO Members	Drive completion of Implementation Plan deliverables; manage community and stakeholder engagement.
Consultants	Undetermined	Help prepare workforce and training analyses and materials.
Cultural Competence / Health Literacy Workgroup Co-Chair	Emma Sollars, Mount Sinai Health System	Approve policies and procedures; lead and maintain oversight of committee activities and projects.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✓ IPQR Module 4.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Mount Sinai Health System	Lead Applicant	Leadership; operation of centralized functions.
Clinical, Finance, and IT Committees	Key partners in developing workforce goals	Collaborate with Workforce Committee to determine needs, funding, and reporting mechanisms.
Mount Sinai Department of Social Work Services	Cultural Competence and Health Literacy Workgroup Co-Chair - Emma Sollars, Program Coordinator, Training and Education	Leadership.
External Stakeholders		
VNSNY	Workforce Committee Co-chair Partner / Cultural Competence and Health Literacy Workgroup Co-Chair - Linda Reid, Director, Workforce Planning & Diversity	Leadership.
Other MSPPS Partners	Partners in PPS	Participate in Workforce Committee.
Labor Management Project (1199)	Partners in PPS - Michael Shay, Labor Management Consultant	Participate in Workforce Committee; will play prominent role in the coordination of training and other workforce efforts.
NYSNA - TBD as needs are determined.	Partners in PPS	Participate in Workforce Committee
Community Healthcare Network (CHN)	Partners in PPS - Emily Briglia, Health Literacy Program Manager	Provide input and expertise in strategy including training.
City Health Works	Partners in PPS - Jamillah Hoy-Rosas, Director of Health Coaching and Clinical Partnerships	Provide input and expertise in strategy including training and patient education.
NYCDOHMH	Local Collaborator - - TBD as needs are determined.	Provide input and expertise in strategy including training.
NY Legal Assistance Group	Partners in PPS - Beth Breslin, Policy Associate	Provide input and expertise in strategy including patients rights and training.
Other, non-MSPPS, organizations and PPSs	External Stakeholder - TBD as needs are determined.	Potentially collaborate with Workforce Committee and MSPPS on joint activities.
Managed Care Organizations and other Payers	Partners in PPS and external stakeholders - TBD as needs are determined.	Provide input and expertise in strategy including training.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 4.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

The development of a shared IT infrastructure will support the implementation of the MS PPS cultural competency/health literacy strategy by providing a means for the distribution of consistent, culturally competent materials and training for patients and providers, and by establishing Health Information Exchange (HIE) between the health system and culturally competent Community Based Organizations (CBOs).

A central component of the MS PPS strategic plan, as it relates to cultural competency, is the provision of a myriad of training activities, including foundational instruction on the relationship between culture, stigma and health for the frontline and patient-interacting workforce. This training will be implemented via a core function of the MS PPS IT infrastructure- the Learning Management System (LMS). LMS will allow the PPS to deliver and track cultural competence training across all participating PPS providers and monitor both deficits and improvements, over time.

Simultaneously, the PPS will use elements of its shared IT infrastructure to develop and deliver culturally appropriate information and education to its patient population, taking into account patient health literacy. The IT tool which supports this charge is the Patient Portal, which includes virtual support to assist in completing referrals for clinical and non-clinical services, after-hours care (triage)/warm-line and general PPS-level customer services.

Finally, the IT infrastructure will include flat file/CBO data conversion implementation that will allow culturally competent CBOs participating in the PPS to exchange data and track outcomes, particularly around the provision of services impacting the social determinants of health.

✔ IPQR Module 4.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Staff Training: 1. Percentage of staff members that complete training modules within identified time period. 2. Percentage of staff members that score within target % range (to be identified) on post training competency evaluation. 3. Percentage of staff that receive meets or exceeds expectations on performance appraisals in these topic areas.

Patient Population: 1. Percentage of identified patients that have improved compliance (identify target %) with attending medical appointments (primary care, specialty). 2. Percentage of identified patients that have improved adherence with medication regimen (identify target %). 3. Percentage of identified patients that have reduced unnecessary medical utilization (emergency department visits and hospitalizations).

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	The PPS conducted a comprehensive survey of partners in the network to acquire information on their IT capabilities, EHR use, connectivity and other subjects. The PPS has involved Healthix in gathering information about partner RHIO connectivity and continues to work with Healthix for progress in this area. DY2 Q2 Remediation Note: An updated copy of the IT Committee's "Meeting Schedule Template," which captures meetings that were held throughout DY2 Q2, has been uploaded to the milestone. Additionally, documents listing the meeting schedules for the IT Committee in both 2015 and 2016 have been uploaded to the milestone.
Develop an IT Change Management Strategy.	
Develop roadmap to achieving clinical data sharing and interoperable systems across PPS network	Step 6 is no longer applicable since the Data Sharing Strategy was changed to route connections and data through Healthix.

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✓ IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

<p>Risk 1: PPS partners not fully comprehending the IT requirements Mitigation Strategy: Engage in comprehensive community-based partner education through workshops, web-based learning tools and 1:1 interaction at partner sites; development of education materials by provider type to clearly state expectations and requirements.</p> <p>Risk 2: Partners inability to achieve meaningful adoption of IT capabilities to connect to centralized IT services and engage in data sharing Mitigation Strategy: PPS has planned for provision of technical assistance with relation to EHR adoption and PCMH certification. PPS will establish incremental IT adoption milestones and site visits to ensure progress towards defined requirements and performance objectives. Financial incentives will be put into place to encourage IT adoption by partners with DSRIP dollars.</p> <p>Risk 3: Breadth of EHRs and electronic platforms currently in use may pose significant barrier and/or cost for development of interfaces by vendors for HIE connectivity Mitigation Strategy: PPS IT committee will conduct a deeper assessment to better understand vendors within PPS, work to negotiate interfaces for top volume platforms first; as well as work with partners without IT platforms to adopt software from a select set of vendors.</p> <p>Risk 4: Consent process may inhibit ability to access and share pertinent patient data Mitigation Strategy: Continue to coordinate with GNYHA, other PPSs, RHIOs and stakeholders to drive policy change and consent education for patients through providers to continually improve level of consent and mitigate policy barriers.</p> <p>Risk 5: As with any collaborative, stakeholders may not reach consensus on strategic, business or governance decisions in a timely manner Mitigation Strategy: Implementation plan will carefully map out deliverable/decision points and risks of indecision will be raised immediately to PPS leadership for arbitration; PPS will leverage State guidance on key business and technical decisions where appropriate.</p> <p>Risk 6: RHIO and SHIN NY implementation and upgrade timelines may be delayed or may experience unforeseen barriers, which may cause any intended functionality to be implemented by the PPS that depends on these core infrastructure components to be delayed. Mitigation Strategy: MS PPS will work closely with RHIO partners and with NYSDOH to continuously gauge performance benchmarks as set by SHIN NY for RHIO system upgrades, and by NYSDOH for core functionality components of the MAPP. The PPS will be specifically including a RHIO gap analysis as part of the current state IT assessment in DY1 to help mitigate this risk. Additionally, MS PPS and RHIO will have overlap with Boards of both organizations to promote alignment.</p> <p>Risk 7: Funding challenge to attain resources to help realize IT strategy and investments Mitigation Strategy: MS PPS has already submitted a capital request to help fund the IT needs for the PPS. Partners have also been encouraged to apply for a capital request, which many have done. Additionally, the PPS is providing information for alternative funding sources, such as PCIP, for partners to connect with.</p> <p>Risk 8: Assure data security is upheld across all partners Mitigation Strategy: MS PPS will develop data security protocols and policies that will be vetted through compliance to ensure patient data remains protected while data sharing is promoted to help us achieve DSRIP milestones.</p>

✓ IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The IT Systems and Processes developed by the MS PPS are highly interdependent with other organizational workstreams:

Workforce: The proposed IT infrastructure will support workforce transformation through the inclusion of a Learning Management System that will allow the PPS to deploy and track workforce training and understanding of PPS-developed project-driven protocols.

Governance and Financial Sustainability: The proposed IT infrastructure will support PPS governance and financial sustainability by providing the governing board with timely access to clinical, financial and provider-related information, that they might make informed and accurate decisions.

Cultural Competence and Health Literacy: The proposed IT infrastructure will support cultural competence and health literacy by providing a means for the distribution of consistent, culturally competent materials and training for patients and providers, and by establishing Health Information Exchange (HIE) between the health system and culturally competent Community Based Organizations (CBOs).

Performance Reporting: The proposed IT infrastructure will put in place the IT systems necessary to gather, store and analyze information across all PPS providers to facilitate efficient and valid performance reporting.

Practitioner Engagement: The proposed IT infrastructure will support practitioner engagement through implementation of the MS PPS User Portal, offering wide-spread access to the MS PPS data warehouse, including analytic functionality, dashboards, care management tools, Learning Management System modules and DSRIP performance reporting support.

Population Health Management: The proposed IT infrastructure will support population health management through the deployment of a centralized data warehouse and associated analytic platforms that will include critical functions, such as clinical decision support, population health metrics, predictive analytics, reporting and registries for care management, and utilization management

Clinical Integration: The proposed IT infrastructure will support clinical integration through the wide-spread achievement of data exchange and interoperability.

Financial Sustainability: Capability to monitor and track PPS partner performance metrics will depend on the financial sustainability of the PPS overall, in order to provide the needed centralized infrastructure for performance reporting.

Funds Flow: The availability of DSRIP funds to support the centralized infrastructure that will be necessary in order to support all DSRIP projects and the ability to achieve metrics and milestones.

✔ IPQR Module 5.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Provision of centralized IT services to fulfill 2.a.i and other project core IT requirements	Kumar Chatani, CIO, Mount Sinai Health System and IT Committee; Greg Fortin, Isabella Nursing Home; Richard Pineda, Amsterdam Nursing Home; Warriia Esmond, Settlement Health; Kate Nixon, Visiting Nurse Service of New York; Mitze Amoroso, ArchCare; Miguel Mendez, Housing Works; Daniel Lowy, Argus Community, Inc.; Bill Moran, The Brooklyn Hospital Center; Richard Clarkson, Callen-Lorde Community Health Center; Ricardo Santiago, Village Center for Care d/b/a VillageCare; Vivek Sawhney, YAI; Kathy Cresswell, Institute of Family Health; Patricia Marthone, 1199 SEIU UHWE; Michael Buckner, Bailey House; Barbara Hood, William F. Ryan Community Health Network; Crystal Jordan, Harlem United; Deborah Witham, VIP Community Services; Edwin Young, MD, Mount Sinai; Kash Patel, Sr. Director of Innovation & Analytics, Mount Sinai	Design, plan and implementation of IT infrastructure to achieve: bidirectional data sharing, HIE connectivity, alerts, messaging, care coordination, PCMH level III and adoption of MU II eligible EHRs
Inform clinical requirements and data needs for UM, performance management and RCE	Theresa Soriano, MD, MPH, Mount Sinai, Matthew Weissman, MD, MBA, FAAP, Community Health Network, and CMO Edwidge Thomas, Clinical Director of DSRIP PMO, Mount Sinai	Coordinate with IT committee to ensure clinical data needs for reporting, RCE, UM and quality management are understood and included within IT strategy and proposed solutions; including RHIO data capture. Inform workflow needs and how data integration will impact care delivery and coordination.
Ensure alignment of strategy with long-term vision, business priorities and DSRIP objectives	Jill Huck, Director and Edwidge Thomas, Clinical Director of Mount Sinai DSRIP PMO and the MS PPS Board of Managers : Art Gianelli*, MS Health System; Arthur Klein, MS Health System; Brad Beckstrom, MS Health System; Brian Mcindoe, William Ryan Center; Caryn Scwab, MS Health System;	Strategic oversight and alignment across workstreams, PPS and DSRIP projects Arbitrate priorities for strategic success and resource allocations (in coordination with recommendations and guidance of CFO and Finance committee)

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
	Don Scanlon, MS Health System; Donna Colonna, CBC and SUS/Palladia; Ed Lucy, MS Health System; Frank Cino, MS Health System; Gary Burke, MS Health System; Hany Abdelaal, VNS of New York; James Ferris, NYSNA; Jane Maksoud, MS Health System; Jay Gormley, Metropolitan Jewish Health System; Jim Davis, Amsterdam House ; Joan Clark-Carney, Brooklyn Hospital Center; Kelly Cassano, MS Health System; Kumar Chatani, MS; Mali Trilla*, Settlement Health; Neil Calman, IFH; Peter Scaminaci, Phoenix House New York; Richard Park, City MD; Rizwan Hameed, All Medical IPA; Roy Cohen, MS; Sabina Lim, MS Health System; Saily Cabral, SEIU 1199; Scott La Rue, Arch Care; Sharen Duke, AIDS Service Center; Theresa Soriano, MS	
Provision of IT and data governance for PPS partners, RHIOs and coordination with State entities and MCOs for data exchange, analytics, reporting, etc.	CIO Kumar Chatani, CIO, Mount Sinai Health System and IT Committee (see names above)	Data governance model and data use agreement(s) by provider type Minimum Data Set requirements by provider type HIPAA and IS compliance policies, training and infrastructure Data and user access management & audits Vendor selection and management
Provide feedback on overall IT strategy in its ability to meet DSRIP and PPS requirements for data sharing and project requirement.	IT Committee (see names above)	Feedback on IT strategy from partner organizations to ensure that the strategy takes all partner, DSRIP, and PPS needs into consideration to ensure that requirements and milestones can be met in a timely manner. Partners will also provide feedback throughout the implementation phase to ensure all issues and challenges are addressed to minimize risks/impact.
Provide consistent, impartial and balanced leadership for PPS IT strategy and infrastructure needs	Kumar Chatani, CIO, Mount Sinai Health System and IT Committee (see names above)	IT leadership on behalf of MS PPS partners to ensure IT strategy, investments and services/ infrastructure meet the needs of the PPS, address critical gaps and enable ongoing rapid cycle evaluation and performance management

✔ IPQR Module 5.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Barbara Hood, CIO, William F. Ryan Community Health Network & Kumar Chatani, CIO, Mount Sinai Health System	Responsible for representation of PPS partner interests/needs	Ongoing coordination and strategy alignment across PPS to ensure data sharing and care coordination for significant proportion of PPS members; Responsible for development of implementation plan with input from committee members
MS PPS Committees and workgroups	PPS partner representation and project managers/ leads	Coordination with IT committee and representation of PPS partners to inform IT needs for projects and network performance; ensure IT strategy reflects and address the collective partner needs and will enable improve care delivery to address CNA
External Stakeholders		
MS PPS IT Committee members: Greg Fortin, Isabella Nursing Home; Richard Pineda, Amsterdam Nursing Home; Warria Esmond, Settlement Health; Kate Nixon, VNS of New York; Mitze Amoroso, ArchCare; Miguel Mendez, Housing Works; Daniel Lowy, Argus Community, Inc.; Bill Moran, The Brooklyn Hospital Center; Richard Clarkson, Callen-Lorde Community Health Center; Ricardo Santiago, Village Center for Care d/b/a VillageCare; Vivek Sawhney, YAI; Kathy Cresswell, Institute of Family Health; et al.	Representation of PPS provider types	Represent various partner types for 2ai and PPS to ensure diversity of partner needs, roles and capabilities are represented in planning, governance and implementation
Local RHIOs Leadership: Tom Check and Jason Thaw of Healthix; additionally, Interboro RHIO and Bronx RHIO.	RHIO leadership within region	Responsible for coordination with MS PPS IT leadership for deployment of IT strategy; delivery of HIE connectivity, and select functionality (e.g. DIRECT messaging); ensuring cross-RHIO/PPS connectivity via SHIN-NY; provision of consent management and integration with statewide MPI and data sharing initiatives
PPS Partners: (In first wave) Greg Fortin, Isabella	Performing partners and coordinating providers	Responsible for informing IT needs of PPS, being responsive to

✔ IPQR Module 5.7 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The IT work stream leadership will develop a comprehensive implementation plan, supplemented by GANTT chart outlining quarterly milestones based on performance requirements (DSRIP) and implementation milestones for the PPS IT strategy. The implementation plan will provide a measurable guide for progress that will be regularly shared with Leadership and collaborating committees to ensure provision of deliverables, services and functionality in line with PPS scale and speed, and overall PPS IT requirements. The IT team will also work to identify a set of internal metrics that will define success beyond meeting the milestones required by the state to ensure high quality of service that meets the PPSs DSRIP needs. In addition to IT implementation progress tracking and management, the committee will engage in PPS partner feedback requests through surveys and discussion forums to ensure solutions and services continually meet partner needs, expectations and deliver value.

✔ IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk 1: There is currently lack of definition on the performance monitoring and reporting infrastructure that will be provided by NYSDOH via the MAPP relative to what will be provided by PPSs themselves.
Mitigation Strategy: Close collaboration and transparency with NYSDOH, including participation in DSRIP CIO forum.

Risk 2: Defining performance metrics in multi-stakeholder environments often takes significant time and effort.
Mitigation: Develop initial set of measures with input from NYSDOH and experts in the field, with stakeholder input throughout the process.

Risk 3: Some MS PPS members may not want their performance outcomes to be evaluated or compared with their competitors' performance.
Mitigation: Develop a communications strategy to address these concerns.

Risk 4: Risks resulting from the integration of a broad network of providers into a new network with contracting dollars linked to performance, including some competing provider organizations and others with no experience in collaborative care models.
Mitigation: Implement transparent governance and oversight of performance monitoring and outcomes-based payment processes. Define processes and expectations well in advance of implementing collaborative care practices and the underlying IT infrastructure.

Risk 5: Risk that technology vendors will not deliver services enabling the detailed performance and financial monitoring demanded by the PPS.
Mitigation: Engage in a thorough and standardized procurement process for IT vendors, beginning with detailed definition of requirements. Include detailed requirements in procurement documents, and provide training to proposal evaluation committees so that they fully understand requirement details to optimize their decision-making process. Apply vendor contracting and management best practices.

Risk 6: Workforce(s) inexperienced in performance management and reporting systems.
Mitigation: staff to required level at the PPS, including education and training staff; provide "high-touch" education and training to PPS participants; develop accessible resources and toolkits; elicit participant concerns early and often, listen to them in a sincere manner, and address them with respect without deviating from the overall goals of the program.

Risk 7: Operating in multiple markets within NYC exposes the PPS to several performance monitoring and reporting risks.
Mitigation: Because our attributed patient population will cut across market segments, our analytic tools will enable tracking of outcomes and performance among specific cohorts that the PPS and PPS members can define according to multiple such as geography, health condition, provider affiliation, RHIO affiliation, etc. While we will pursue broad outcome improvement initiatives across the PPS, we will utilize more granular segmentation of patients for interventions appropriate to specific market segments and populations.

Risk 8: partners who are participating in multiple PPSs
Mitigation: The PPS will collaborate with multiple PPSs to develop reporting measures, roll-out plan, and implementation to reduce risk of duplication and conflicting reporting processes

Risk 9: Partners may experience constraints on resources and conflicting reporting requirements from participation in multiple programs
Mitigation: The PPS will develop reporting structure in alignment with existing program requirements where ever possible. For instance, the PPS will develop reporting tools for MU in alignment with MU requirements to reduce duplication of reports. Additionally, the PPS will consolidate reports where ever possible to reduce resource constraints and work with other reporting distribution channels to align communications on those measures.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✅ IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Performance reporting will require close coordination with other committees and leadership to ensure all key metrics and indicators are effectively tracked, captured, reported and maintained in a central data repository. Each respective committee, e.g. workforce, finance, IT, etc. will define key indicators, thresholds for performance (e.g. max and min) for performance monitoring. Monitoring and reporting will support PPS governance, rapid cycle evaluation and partner funds flow distribution in alignment with performance-based contract requirements and expectations. Careful coordination will be required with project leads and committees to determine these indicators are the best, most efficient means for standardized, consistent data collection and reporting. Additionally, the PPS will have to carefully communicate with other committees and partners to ensure performance reporting plan, requirements, and training are consistent and efficient. Successful PPS reporting will require the development of a CRM tool that will enable easy tracking of partner performance and deployment of PPS governance and provider dashboards. In addition, the Performance reporting will coordinate with NYSDOH to ensure alignment and fulfillment of reporting requirements.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 6.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Oversight and accountability for delivery of performance reporting capability.	MS PPS Leadership; CIO; IT Committee	Performance reporting infrastructure (design, planning and implementation). Coordination with NYDOH, PPS partners and other sources for data collection. Development of dashboards to enable performance management and rapid cycle evaluation. Management and oversight of performance reporting and data collection staff and project leads, including engagement of committees and governance leads to inform process.
Responsible for informing development of performance tools, monitoring performance of partners and PPS, informing process improvement and corrective action.	Leadership, Finance Committee, IT Committee, Clinical Committee	Inform identification of key indicators and operational, clinical, financial, quality and other performance metrics. Responsible for informing development of dashboards, performance thresholds, reviewing data/reports and making recommendations to Governing Board on necessary actions.
Responsible for determining appropriate actions to ensure PPS performance based on available information.	Governing Board	Responsible for reviewing dashboards and performance recommendations from leadership and committees and making decisions for PPS to ensure necessary process improvements, corrective actions, etc.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✓ IPQR Module 6.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
PPS Partners	Submit data and review dashboards.	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format.
PMO	Project Management office for the Mount Sinai PPS.	Tracks and reports performance and data throughout the PPS and to the state. Executes projects from implementation plan to ensure the success of DSRIP.
IT Committee	Design and build of performance reporting infrastructure.	Design and build infrastructure for performance reporting including the capacity to capture and store critical data, connectivity with partners and any necessary analytics support
Clinical Committee	Governance of performance reporting and partner engagement.	Develop and implement governance structure for reporting, monitoring projects from implementation plan to ensure the success of DSRIP.
MSHP	Collaborate with IT committee on performance reporting.	Will support IT in developing performance reporting platforms and dashboards.
External Stakeholders		
NYSDOH	Provision of statewide/PPS dashboards and performance data	Provide data, including claims data, consolidated reports and web-based dashboards for PPSs for performance management; provide templates for DSRIP performance reporting; provide common operational definitions for metrics and milestones and reporting requirements; provide guidance on performance improvement opportunities and evidence-based guidance and PPS benchmark data.
Patients, Advocates and Caregivers (consumers)	Member Satisfaction and loyalty	Provide direct and indirect feedback to FLPPS. Direct feedback through patient satisfaction surveys, HCAHPS, CAHPS, etc. as well as indirect feedback through utilization patterns - preferred providers will have higher demand. Planning process will include engagement of consumer input in design of services, user engagement/activation tools and marketing, outreach and education.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
MCOs	Provision of claims data, benchmark data and support in development of population health analytic tools	Coordinate with PPS in provision of claims data and benchmark data to support performance management; potential for contract negotiation based on improved total cost management.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 6.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

The MS PPS data infrastructure will enable performance monitoring and reporting in several ways: (1) Interoperability between systems including RHIO infrastructure will create a robust pool of data for analysis and reporting; (2) the MS PPS data analytics platform will enable performance tracking from the provider to the PPS level, and tracking of outcomes for specific population cohorts; (3) care management teams will proactively engage prioritized patient cohorts; and (4) reporting tools and dashboards informed by DSRIP metrics will produce reports for internal stakeholders, NYSDOH, and external stakeholders.

✔ IPQR Module 6.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Success will be defined by developing a set of measures that will consider the progress in planning, design and deployment of the performance reporting processes, tools and centralized dashboard with user access. Performance reporting will likely begin as a more manual process, with increasing automation, queries, user features and data points over time. The IT Committee, in coordination with other Committees such as Clinical, PMO, Provider Relations Team and PPS leadership will define the requirements and milestones for performance reporting capabilities and timeline, in line with State provided reporting tools, data and timelines. In addition, the PMO will track the number of engaged partners in the training program for performance monitoring and clinical quality by partners. It will be critical to have a high success rate of partner participation by those who adhere to the training protocol and report improvement in their practice. The PPS will continue to develop a robust system to track the set of metrics during Rapid Cycle evaluation with our partners.

practitioners that includes materials and strategies for targeting: 1) large practitioner organizations in each of the Domains; 2) smaller practitioner organizations, particularly those needing additional support around IT; and 3) different provider types and practice levels.									
Task Step 3: Develop plan to define metrics to track and measure success of trainings for each group above (Step 2)	Completed	PPS training/education plan with metrics for success of each group	11/30/2015	09/30/2016	11/30/2015	09/30/2016	09/30/2016	DY2 Q2	
Task Step 4. Solicit practitioner feedback to improve and refine training, educational plans, materials, and metrics to track.	In Progress	Summary report of practitioner feedback	09/01/2015	09/30/2016	09/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task Step 5. Develop toolkit materials to educate practitioners about the DSRIP program and PPS projects, as well as outreach and education plan to reach practitioners. Materials will be targeted at types of practitioners and by DSRIP project topics. For example, educational materials on evidence-based goals for at home patient care will be distributed to non-physician dominated groups to ensure home agencies are aligned with goals of patient care.	Completed	PPS practitioner education/training toolkit	12/01/2015	09/30/2016	12/01/2015	09/30/2016	09/30/2016	DY2 Q2	
Task Step 6. Develop formal provider retention policies that are standardized with discrete goals, and which can be supported by the training programs.	In Progress	Board-approved practitioner retention policies	12/01/2015	09/30/2016	12/01/2015	12/31/2016	12/31/2016	DY2 Q3

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Major risks include the availability of funding to carry out the major changes associated with DSRIP and the Mt. Sinai PPS. Each provider needs an assessment as to the information technology, workforce, and data reporting capabilities to ensure smaller providers are not left behind in achieving goals. This assessment should start using key early adopters, who can serve as role models and champions for the PPS, but will need expansion. The ease of use of the IT selected software package will have a large impact on the ability to aggregate data and share findings with individual groups of providers. Each domain's educational goals and performance improvement benchmarks will require identifying the large stakeholders for the initial round of education. Survey utilization can confirm the education progress and alignment of goals.

✔ IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

IT, Clinical Integration, and Workforce will be critical for practitioner engagement. Many practitioners will need significant support from the PPS in implementing standardized IT systems to allow for communication and data flow across the PPS, as well as workforce development and deployment to support the DSRIP transformation initiatives as well as data collection. The better the PPS can clearly communicate to practitioners about all relevant aspects of PPS implementation, the more effectively practitioners can be engaged in the process.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 7.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Director of PMO	Jill Huck, MS	General oversight & management
Head of Network Development	Arthur Klein, MS	Strategic oversight and input
Network Development & Strategy	Ben Kornitzer, MS	Strategic oversight and input, provider engagement
Network Development & Strategy	Brent Stackhouse	Strategic oversight and input, provider engagement
IPA Management	Ed Lucy	Strategic oversight and input, IPA engagement
Head of Population Health & MSO Development	Niyum Gandhi	Strategic oversight and input, population health and MSO support
MSO Operations	Theresa Dolan	MSO operations & support
Clinical Committee Co-chair	Theresa Soriano	Clinical operations oversight and strategy
Clinical Committee Co-chair	Matt Weissman, Community Healthcare Network	Clinical operations oversight and strategy
Behavioral Health Expert, Leadership Committee	Sabina Lim	Behavioral health specific strategy
PMO Medical Director	Edwidge Thomas	Clinical operations oversight and strategy
Community Affairs Director	Brad Beckstrom	Community Affairs

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 7.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Network Practitioners	Target of engagement activities	Attend training sessions; report to relevant Practitioner Champions
Workforce Committee Members	Oversight of all training strategies, including practitioner education / training described above	Input into practitioner education / training plan
Clinical Committee Members	Governance committee on which practitioner Champions sit	Monitor levels of practitioner engagement; forum for decision making about any changes to the practitioner engagement plan
IT Committee Members	Oversight of IT/data sharing strategies	Oversight and protocols related to HIE & data sharing to support population health
MSO Leadership	Provide supportive services	Supportive services as needed based on site specific needs
External Stakeholders		
PPS partner organizations Settlement Health - Warriia Esmond, CMO Community Healthcare Network - Matthew Weissman, CMO William F. Ryan Center - Jonathan Swartz, CMO Brooklyn Hospital Center - Joshua Rosenberg	Provide expertise and guidance with their successful engagement training program	Input into practitioner education / training plan
Payers	Provide expertise and guidance with their successful engagement training program	Input into practitioner education / training plan

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 7.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The proposed deployment of a shared IT infrastructure will support PPS Practitioner Engagement, particularly through implementation of the MS PPS User Portal. This tool is a web-based portal that will allow access to the MS PPS data warehouse, including analytic functionality, dashboards, care management tools, Learning Management System modules and DSRIP performance reporting support. The goal of the portal is to improve communication between providers and patients and allow for timely access to health information to support chronic disease self-management and population health management while minimally impacting existing provider workflows by ideally provisioning a single point of access.

In addition, the MS PPS proposed IT infrastructure will deliver efficiency, interoperability and high value solutions to participating providers, facilitating practitioner engagement through provision of tools that support better time management and overall provider satisfaction.

✔ IPQR Module 7.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Practitioners will be given multiple opportunities to contribute to the leadership structure of the PPS. The continuation of town halls combined with smaller meetings at provider locations will ensure practitioner concerns are taken seriously by PPS leadership and that communication can flow both to and from practitioners. Formal roles should be created to ensure providers have an opportunity to grow within the PPS as their contributions increase. The PPS will create dashboards enabling comparison between both similar geographic locations and sized organizations in the PPS. Quality control surveys will help assess the quality of education, define success of education and training plan, and inform any changes needed in how the PPS is interacting with practitioners.

IPQR Module 7.9 - IA Monitoring

Mount Sinai PPS, LLC (PPS ID:34)

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
experienced PPS partners will develop plan for assessing practices and begin providing technical assistance for 2014 PCMH Level 3 certification (Milestone 5). This includes identifying PCMH Level 3 requirements by provider type and developing a strategy on how the PPS works with those providers to meet these requirements.		certification							
Milestone #2 Finalize PPS-wide bed reduction plan.	In Progress	PPS Bed Reduction plan, signed off by PPS Board. This should set out your plan for bed reductions across your network, including behavioral health units/facilities, in line with planned reductions in avoidable admissions and the shift of activity from inpatient to outpatient settings.	06/01/2015	03/31/2017	06/01/2015	03/31/2017	03/31/2017	DY2 Q4	NO
Task Step 1. Establish Bed Complement and Utilization Workgroup. This workgroup will consist of partners/stakeholders who are impacted by bed reduction . The group will be responsible for creating a model and methodology for determining the number of beds that can be reduced. Additionally, this group will oversee monitoring and reporting on reductions in avoidable hospital use, as well as modeling the impact of all DSRIP projects on bed utilization.	Completed	1. Identify workgroup members, meeting schedule, concrete goals with more refined timelines of completion of goals	06/01/2015	12/31/2015	06/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task Step 2. Assessment Phase: 1. Inventory number of beds by type, location and occupancy rate to develop both site-based and overall PPS bed count and occupancy rates by bed type 2. Obtain patient days and LOS data by MSDRGs for baseline bed occupancy type by diagnosis, to determine both site-based and overall PPS occupancy rates by MSDRG 3. Determine the baseline/starting point for where all partners who are affected.	On Hold	1. Complete report of all described data elements for each site for entire PPS 2. High level summary report of data collection and reporting requirements across the PPS 3. Preliminary report of data analysis	06/01/2015	09/30/2016	04/01/2015	03/31/2020	03/31/2020	DY5 Q4

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
4. Determine data collection and reporting requirements necessary across the PPS to be able to analyze and review on defined frequency bed utilization data 5. Review Community Needs Assessment and other community health related data for any geographic variability in health conditions that may impact bed utilization									
Task Step 3. Preliminary Data Analysis Phase 1. Analyze data from assessment phase and identify any additional data needs and/or planning steps to consider in formulating bed plan	Completed	1. Complete report of all described data elements for each site for entire PPS 2. High level summary report of data collection and reporting requirements across the PPS 3. Preliminary report of data analysis	06/01/2015	09/30/2016	06/01/2015	09/30/2016	09/30/2016	DY2 Q2	
Task Step 4. Forecasting Phase: Develop a model and methodology to forecast impacts of all DSRIP projects on avoidable hospital use and utilization based on targeted reduction of avoidable hospitalizations by DSRIP years. Model/Methodology may include contributing variables such as: 1. DRGs most impacted by DSRIP projects; 2. Bed types most likely affected by DSRIP projects; 3. Conditions driving potentially preventable hospitalizations and re-admissions; 4. Specific community health needs/conditions that may affect bed complement and bed utilization both related to and independent of DSRIP projects 5. Contingency planning for unexpected mass health crises	On Hold	Draft written model and methodology	06/01/2015	09/30/2016	04/01/2015	03/31/2020	03/31/2020	DY5 Q4	
Task Step 5. Workforce Impact: Assess employees impacted by bed reduction with workforce and type of training that will need to occur	In Progress	Report of workforce impact	09/01/2015	09/30/2016	09/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task	Completed	Preliminary report of IT infrastructure and platform	09/01/2015	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Step 6. Data Collection and Analysis IT Platform-Phase 1: Identify IT tools, data collection, and data reporting framework to obtain regular and accurate service utilization data across the PPS									
Task Step 7. Vetting of Draft Model and Methodologies: Share model and methodologies with partners via PPS Governance Structure regarding approach to bed reduction for feedback, revision, to further inform forecasting	In Progress	Governance Structure Minutes	09/01/2015	09/30/2016	09/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task Step 8. Establish high-level forecasts of the following (this forecast capacity model will be updated on a regular basis throughout the 5 years) a. Reduced avoidable hospital use over time by bed type (and diagnoses if possible) b. Changes in inpatient capacity, by bed type c. Resulting changes in required community / outpatient capacity	In Progress	Draft forecasts with data elements as described	09/01/2015	09/30/2016	09/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task Step 9. Draft Bed Capacity Change Plan: 1. Providers impacted by forecast capacity change to determine their own 'first draft' capacity change plan, to be consolidate into a PPS-wde capacity change plan. 2. Bed Complement and Utilization Workgroup to develop first draft capacity change plans and vet through PPS Governance Structure.	In Progress	Draft written Bed Capacity Change Plan	09/01/2015	09/30/2016	09/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task Step 10. Data Collection and Analysis IT Platform--Phase 2: Finalize IT tools and infrastructure necessary for seamless updates and reporting of forecasts	In Progress	Final summary re: IT platform	09/01/2015	12/31/2016	09/01/2015	12/31/2016	12/31/2016	DY2 Q3	
Task Step 11. Final Bed Capacity Plan: Finalize and publish final capacity change / bed reduction	In Progress	Final written plan	09/01/2015	03/31/2017	09/01/2015	03/31/2017	03/31/2017	DY2 Q4

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✓ IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

- Risk 1: Inadequate patient and community engagement.
Mitigation: MSPPS will hold introductory and recurring community-based forums starting early in DY1 to educate and gather feedback from stakeholders about local DSRIP project implementation and the goal of an IDS. The PPS PMO will create a patient advisory board which will meet regularly to inform PPS governance of reactions and response to project and IDS implementation.
- Risk 2: Inadequate PPS Provider engagement may result in continued disjointed care.
Mitigation: Our PPS will create regional "hubs" to tailor and implement PPS projects relevant to specific communities' and populations' clinical and social service needs, engaging local providers and service organizations to provide core project services. We are implementing a PPS Stakeholder Engagement Committee to proactively gather feedback on operational planning and future decisions across PPS domains. Workforce and Clinical technical committees are collaborating on a centralized training program for all provider types to deliver culturally sensitive and competent service that promote health literacy and address social determinants of health specific to our projects' target populations. Through MSHP, we will provide support for performance tracking and management, IT implementation, PCMH certification, and care management training or staff recruitment so partners with less infrastructure can achieve required DSRIP goals while also meeting other internal priorities.
- Risk 3: Challenges in workforce recruitment, training, and collaboration with labor groups to adequately meet demand.
Mitigation: We will leverage and establish relationships with labor groups (e.g. SEIU, NYSNA) and training/advocacy organizations (e.g. PHI) to communicate DSRIP project plans, identify training needs and develop re/training programs that optimize workforce knowledge and skills in the successful delivery of DSRIP program services. We will work with recruitment agencies, health worker training programs and professional schools of social work, nursing, behavioral and health sciences to educate trainees about career opportunities in an integrated delivery system, and hold regular recruitment events.
- Risk 4: Inability to secure adequate resources to support population health infrastructure for all partners.
Mitigation: We will leverage existing IT, clinical and care management resources, including PPS partners and Mount Sinai's population health infrastructure, MSHP, to provide the IDS's foundation. The IT, Clinical and Finance committees are meeting to ensure responsible decision-making regarding (1) adequate flow of funds to carry out initiatives at every site; (2) selection of the appropriate applications for a common IT platform that can accommodate existing HIE, EMRs and other application; (3) planning for ultimate financial sustainability of individual projects; and (4) engaging with MCOs to gradually but aggressively shift contracts from fee for service to fully risk-based as groups within the PPS are able.

✓ IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

The success of the clinical projects relies on the ability to establish a shared IT platform to communicate and share clinical and care management data across PPS providers, and between PPSs. Likewise, engagement, training, performance feedback and incentivization of workforce to operate as a clinically integrated system will be integral to the effective implementation of clinical projects. Ongoing, timely analysis of patient-level data will facilitate identification of subgroups that require intervention, in order to achieve the goal of optimizing population health management and reducing disparities. Transparent and adequate financial models that support the IDS as well as the PPS projects, and successful development of relationships that result in risk-based contracts with payers, will determine long-term sustainability of the IDS and its providers.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 8.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PMO Director	Jill Huck	Administrative oversight of PPS
PMO Medical Director	Edwidge Thomas	Clinical oversight of PPS projects
PMO Associate Directors	Nina Bastian	Assist PMO Director in oversight of PPS activities
Leadership Committee	PPS members	Provide guidance and feedback on population health management system implementation
Clinical Committee	PPS members	Develop, implement and modify PPS clinical projects
Finance Committee	PPS members	Oversee and manage PPS financial operations; guiding processes towards value-based payer contracts and provider compensation models
Workforce Committee	PPS members	Lead PPS workforce assessment and needs for each project; design and implementation of training programs for PPS; collaborate on value-based compensation and benefits model
IT Committee	PPS members	Lead PPS IT systems assessment, design and implementation
Mount Sinai Health Partners (Population Health Managed Services Organization)	N/A	Provide data, IT, clinical integration, care management, and contracting support for PPS and/or partners

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✓ IPQR Module 8.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Mount Sinai Health System	Lead applicant	Lead all PPS partners in clinical integration efforts to adequately deliver population-based health services
Mount Sinai Health Partners (Population Health MSO)	Support role as above	Provide data, IT, clinical integration, care management, and contracting support for PPS and/or partners
External Stakeholders		
PPS partners	Service providers	Collaborate within PPS to implement clinical projects and redesign organizations to deliver care as an IDS
FQHC partners	Service providers	Collaborate within PPS to implement clinical projects and redesign organizations to deliver care as an IDS
Hospital partners	Service providers	Collaborate within PPS to implement clinical projects and redesign organizations to deliver care as an IDS
LTC/SNF partners	Service providers	Collaborate within PPS to implement clinical projects and redesign organizations to deliver care as an IDS
CHHA partners	Service providers	Collaborate within PPS to implement clinical projects and redesign organizations to deliver care as an IDS
Other PPSs	Serving overlapping populations/geographies	Collaborate with each other in learning sessions; align clinical projects and/or infrastructural processes
NYCDOHMH	Local collaborator	Convene HIV providers in common clinical project (4.c.ii)
Managed Care Organizations	Long-term sustainability of PPSs as provider entities	Work with PPSs to engage in value-based contracts which incorporate both clinical and non-clinical services

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 8.7 - IT Expectations

Instructions :

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

There are a number of population health management solutions implemented by The Mount Sinai Health System (MSHS) that will be leveraged for the MS PPS, under DSRIP, including a robust care management program for individuals living with HIV, an advanced multidisciplinary adolescent health program and a home-based primary and palliative care program, all of which rely on an existing IT infrastructure.

MS PPS will leverage and grow these capabilities through the deployment of a centralized data warehouse and associated analytic platforms that will include critical functions, such as clinical decision support, population health metrics, predictive analytics, reporting and registries for care management, and utilization management. Together with the HIE for all providers and programs, these tools will be used to measure population health status and to prioritize the deployment of high value interventions to improve outcomes.

✔ IPQR Module 8.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The PMO will be responsible for overseeing and tracking progress of the various Committees' responsibilities and deliverables towards development of a Population Health Management infrastructure. The PMO will track and report process and clinical outcomes on a monthly basis for high-priority projects, and meet at least monthly to update and receive updates from Clinical, IT, Finance, Workforce and Leadership Committees to ensure specific goals are being met within the proper timeline.

Section 09 – Clinical Integration

✅ IPQR Module 9.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Perform a clinical integration 'needs assessment'.	In Progress	Clinical integration 'needs assessment' document, signed off by the Clinical Quality Committee, including: -- Mapping the providers in the network and their requirements for clinical integration (including clinical providers, care management and other providers impacting on social determinants of health) -- Identifying key data points for shared access and the key interfaces that will have an impact on clinical integration -- Identify other potential mechanisms to be used for driving clinical integration	06/01/2015	12/31/2016	06/01/2015	12/31/2016	12/31/2016	DY2 Q3	NO
Task STEP 1: Develop/Draft a plan for how we will conduct a clinical integration needs assessment including components not limited to: carrying out, measuring and reporting common evidence-based protocols and quality metrics, communication between providers across care settings, facilitation of care coordination by employing information technology solutions, and implementation of high-quality clinical programs for targeted populations.	Completed	Draft written work plan detailing action items for development of clinical integration needs assessment	06/01/2015	06/30/2016	06/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task STEP 2: Develop/Draft process metrics to track progress and success of plan.	Completed	Documentation of process metrics and process of tracking success	06/01/2015	06/30/2016	06/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task STEP 3: Have draft reviewed by appropriate committees for input and submit to Leadership	Completed	Documentation of review, meeting review minutes	06/01/2015	06/30/2016	06/01/2015	06/30/2016	06/30/2016	DY2 Q1

✓ IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- Risk 1: PPS partners not fully comprehending the IT requirements
Mitigation Strategy: Engage in comprehensive community-based partner education through workshops, web-based learning tools and 1:1 interaction at partner sites; development of education materials by provider type to clearly state expectations and requirements.
- Risk 2: Partners inability to achieve meaningful adoption of IT capabilities to connect to centralized IT services and engage in data sharing
Mitigation Strategy: PPS has planned for provision of technical assistance with relation to EHR adoption and PCMH certification. PPS will establish incremental IT adoption milestones and site visits to ensure progress towards defined requirements and performance objectives. Financial incentives will be put into place to encourage IT adoption by partners with DSRIP dollars.
- Risk 3: Breadth of EHRs and electronic platforms currently in use may pose significant barrier and/or cost for development of interfaces by vendors for HIE connectivity
Mitigation Strategy: PPS IT committee will conduct a deeper assessment to better understand vendors within PPS, work to negotiate interfaces for top volume platforms first; as well as work with partners without IT platforms to adopt software from a select set of vendors.
- Risk 4: Consent process may inhibit ability to access and share pertinent patient data
Mitigation Strategy: Continue to coordinate with GNYHA, other PPSs, RHIOs and stakeholders to drive policy change and consent education for patients through providers to continually improve level of consent and mitigate policy barriers.
- Risk 5: As with any collaborative, stakeholders may not reach consensus on strategic, business or governance decisions in a timely manner
Mitigation Strategy: Implementation plan will carefully map out deliverable/decision points and risks of indecision will be raised immediately to PPS leadership for arbitration; PPS will leverage State guidance on key business and technical decisions where appropriate.
- Risk 6: Funding challenge to attain resources to help realize IT strategy and investments
Mitigation Strategy: MS PPS has already submitted a capital request to help fund the IT needs for the PPS. Partners have also been encouraged to apply for a capital request, which many have done. Additionally, the PPS is providing information for alternative funding sources, such as PCIP, for partners to connect with.
- Risk 7: Partners fail to respond to the needs assessment
Mitigation Strategy: MSPPS will reach out to each provider individually to ensure a response
- Risk 8: Partners do not commit to the new trainings for clinical integration and coordination.
Mitigation Strategy: MSPPS will conduct extensive outreach to all partners to determine if the universal MSPPS training process is application or if modifications would serve the partner and community better.

✓ IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Clinical integration will require regular collaboration between all committees within the PPS as well as the other work groups created to address implementation planning. IT systems will need to collaborate with Clinical to ensure that universal consent is recognized through the PPS, provider engagement will be critical to ensure that all providers are able to communicate seamlessly when integrating health care delivery. Cultural competency will need to work with Workforce as well as Clinical to ensure that the right training are being provided by and provided to the right individuals.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 9.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Clinical Committee Co-Chair	Dr. Theresa Soriano	Clinical Committee Co-Chair
Leadership Committee	Ed Lucy	Leadership Committee
MSO	Theresa Dolan	MSO
IT Committee Co-Chair	Kumar Chatani	IT Committee Co-Chair
Workforce Committee Co-Chair	Jane Maksoud	Workforce Committee Co-Chair
Clinical Director of PMO	Edwidge Thomas	Clinical Director of PMO

Mount Sinai PPS, LLC (PPS ID:34)

✓ IPQR Module 9.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Clinical Committee Members	Data providers and assessments	Provide feedback for the needs assessment and implement strategy
Finance Committee	Data providers and assessments	Provide feedback for the needs assessment and implement strategy
IT Committee	Data providers and assessments	Provide feedback for the needs assessment and implement strategy
External Stakeholders		
PAYERS Healthfirst - Dr. Susan Beane, Medical Director	Partner in creating an integrated health care delivery system	Provide feedback for the needs assessment and implement strategy
CBO's ArchCare - Mitze Amoroso, CIO Housing Works - Miguel Mendez, CTO VIP Community Services - Deborah With, Chief Program Officer	Partner in creating an integrated health care delivery system	Responsible for participating in the needs assessment and implementing the clinical implementation strategy
Clinics Settlement Health - Warriia Esmond, CMO Institute of Family Health - Kathy Cresswell, CIO William F. Ryan Community Health Center - Barbara Hood, CIO Community Healthcare Network - Jason Pomaski, CIO Callen-Lorde Community Health Center - Richard Clarkson, CIO	Partner in creating an integrated health care delivery system	Seeing MSPPS attributed lives before they are admitted through the ER
RHIOS	Facilitating data connectivity	facilitating data connectivity
Patient Advocates	Representation of patients	Participate in the needs assessment of providers and potential training protocols
IT Departments are represented by the CIO/CTOs from our partnering organizations	Support the assessment and strategy	actually implement the needs assessment and strategy, conduct surveys
Clinical and Non Clinical Providers Isabella Nursing Home - Greg Fortin, CIO	Treat patients	implement the strategy

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
City Health Works - Aaron Baum, Director of Technology		

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 9.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Clinical integration is the ultimate goal of the MS PPS IT infrastructure, particularly through the widespread achievement of data exchange and interoperability. The PPS Health Information Exchange (HIE), as defined under the proposed architectural model, will build upon the PPS's robust network of Electronic Health Records systems and allow for the bidirectional sharing of information of clinical, behavioral and social determinants of health data across systems, providers and partners. This information will facilitate widespread integration, including data-supported care management and transitions of care. In addition, the MS PPS will deploy specific interfaces and enhancements that support clinical integration including: (1) RHIO interfaces that that allows partners to access a longitudinal patient record through RHIO-supported "subscription" services and to engage in direct messaging across systems; (2) CBO data conversion tools that allow community-based partners to exchange data and track outcomes as well as to produce standardized health data elements; and (3) Closed-loop referral management and tracking tools which will better enable consultation between PCP and Specialty providers. Interfaces to the PPS' RHIO partners will additionally allow for data contained and collected within the PPS, such as data from CBOs, to be accessible to the RHIOs, expanding their role as community clinical integrators.

✔ IPQR Module 9.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Initially, the Clinical Committee will develop the metrics that define success of clinical integration specific to this PPS. Then, progress reporting will be a collaborative process between IT and Clinical committee. Both committees will work together to develop a work plan and a set of metrics to define success. The PPS will accurately and timely submit quarterly reports which will detail the progress the MS PPS has accomplished over each time period. Once the state issues initial benchmarks, the MS PPS will ensure that the needs assessment and the clinical integration strategy are tailored to measure those benchmarks moving forward. To that end, IT will provide a measurement tool to track patient outcomes and present in a dashboard. The IT work stream leadership will develop a comprehensive implementation plan, supplemented by GANTT chart outlining quarterly milestones based on performance requirements (DSRIP) and implementation milestones for the PPS IT strategy. The implementation plan will provide a measurable guide for progress that will be regularly shared with Leadership and collaborating committees to ensure provision of deliverables, services and functionality in line with PPS scale and speed, and overall PPS IT requirements. In addition to IT implementation progress tracking and management, the committee will engage in PPS partner feedback requests through surveys and discussion forums to ensure solutions and services continually meet partner needs, expectations and deliver value.

IPQR Module 9.9 - IA Monitoring:

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Instructions :

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Section 10 – General Project Reporting

IPQR Module 10.1 - Overall approach to implementation

Instructions :

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

MSPPS approach to implementation of its ten DSRIP projects is a delegated governance structure forming an LLC. All partners have a responsibility to the PPS. The PPS lead will facilitate decision making in conjunction with all partners. Also, establishment up of MSPPS Project Management Office will be critical to completing the milestones/metrics of DSRIP.

The PPS will have a strong focus on meaningful education, training of best practices and communication throughout the process. As expected of the clinical quality committee, standardization of clinical and operating processes and methodology will be a goal of the overall PPS with MS PMO support.

Using a delegated model, transitioning from Leadership committee to the Board of Managers of Mount Sinai PPS, LLC, 29 voting members have been selected reflective of the continuum of care and are geographically representative of the PPS. To ensure the Mount Sinai PPS provider network becomes increasingly integrated, it will be necessary for providers and clinicians to be educated on: (a) what these DSRIP-driven changes mean for their practice and how they will be affected at each step of implementation; and (b) what their role, expectations, and obligations are. Education and provider inclusion will be one of the key roles of our Clinical Quality Committee and its sub-committees for each project. Provider education is also a two-way process and MSPPS intends to work with the State to be involved in both the project breakthrough series and the annual learning collaborative conferences to maximize the impact of our DSRIP.

MSPPS invested in training, education and consistent bidirectional communication that is transparent across the PPS. Mount Sinai has been strong in its' stakeholder engagement and community outreach. The approach taken has been inclusive of all partners using weekly meetings, newsletters, webinars, strong notifications and communications to partners, town halls and ongoing opportunities for collaboration from our partners. PPS wide deliverables such as bed reductions have pulled in stakeholders who will be affected by the decrease in the number of staffed bed units. In planning for the bed reduction we included partners from the Brooklyn Hospital Center, Mount Sinai hospitals, SNFs and Board of Managers in helping with the overall plan of the bed reduction deliverable.

Mount Sinai PPS is also working towards adapting project plans, evaluating and improving the plan through a continuous quality improvement cycle. This approach was meant to ensure the PMO is constantly tracking the best practices and methodologies that will work in keeping partners accountable. In addition, the MSPPS is working to develop a CRM inclusive of its' network partners contacts and information for feasible and easy to reach of partners within a centralized area. The process of standardizing clinical and operational protocols is likely to be the most difficult task facing the Mount Sinai PMO. It is not just about aligning systems, but also achieving a common language between providers, a common method of performance measurement for the PPS, and a common culture focused on patient outcomes – all of which will underpin the transition to VBP.

The following initiatives are central to our drive for increasing standardization across our network:

- Development of shared IT infrastructure and data sharing, ensuring that patient information is seamlessly and securely transferred.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

- Care transitions strategy and the buy-in to this strategy from practitioners throughout the network.
- The sharing of best practice and performance information, through the network of project clinical committees
- Hiring, training, and redeployment of staff that will happen as part of our workforce transition strategy

✔ IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

Instructions :

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

The Mount Sinai PPS is one of the largest PPS provider network in the DSRIP program. With 10 Projects, interdependencies between projects and between cross-cutting PPS-development initiatives will be inevitable requiring synergy between all projects. Because partners may be in multiple projects, implementation of the 10 DSRIP projects will require surveying to compliment the deliverables that are overlapping and interdependent of each other. Development of current and future state gap analysis, use of tools to find overlapping milestones and metrics, in addition development of a metrics manual to understand the similarities and differences of each project will be imperative in our approach of complementary projects. Additionally, for different projects with similar goals and project requirements, a framework will be developed to capture the overlap of the providers. This framework will entail geomapping and a network analysis of our partners to determine which providers share which projects, their locations and their levels of overlap.

For example, managing transitions of care more effectively will be a central part of multiple projects and without a proactive approach to our Care Transitions Strategy there is a risk that different protocols will be developed at different sites or in different projects. Many projects also share same or similar project requirements. Taking that into account, we have taken a robust approach to predicting, planning for, and managing the overlap between project requirements. For those project requirements that are most pervasive, we have set up cross-functional work groups tasked with driving consistent, coordinated implementation. For example, achieving PCMH 2014 Level 3 certification will be a priority for many providers and will be an important success factor in many projects. We have therefore set up a dedicated PCMH Certification Team that will be responsible for all relevant providers meeting this project requirement according to the timetable set out in our project speed of implementation forecasts. We will set up task teams for the following most overlapping requirements to track:

- Use of EHRs to track all patients engaged in projects;
- Ensure that all PPS safety net providers are actively sharing EHR systems with local HIE/RHIO/SHIN-NY and sharing health information among clinical partners by the end of Demonstration Year (DY) 3;
- Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards by the end of DY 3; and
- Establish agreements with the Medicaid MCOs serving the affected population to provide coverage for the service array under a specific project.

We believe this is a starting point for identifying the clinical, financial, administrative, or technological initiatives that will be most important for the successful delivery of our DSRIP projects. Most likely our approach will change accordingly as we determine what works best for our network and how to assess it accordingly. All projects will be managed and directed by the Mount Sinai PPS PMO.

✔ IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects

Instructions :

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Mount Sinai Health Partners (Population Health MSO)	Population Health MSO	Provide data, IT, clinical integration, care management, and contracting support for PPS and partners
MS PPS PMO	Overarching project management office	<p>PMO will be responsible for delivering quarterly reports to DOH</p> <p>project leadership teams will report into PMO</p> <p>PMO will manage any major risks that are escalated from Project leadership teams</p> <p>PMO will be responsible for driving the implementation of those projects requirements identified as the most pervasive</p> <p>PMO will monitor the implementation of cross-PPS organizational development initiatives, such as IT infrastructure development and workforce transformation</p> <p>PMO will be the link between the Project leadership teams and the Mount Sinai Finance Committee, the Mount Sinai Workforce Committee, the Mount Sinai IT Committee and the Mount Sinai Compliance Committee"</p>
Mount Sinai PPS Clinical Quality Committee	Oversight of the clinical quality committees for individual projects and project work groups	<p>"MS Clinical Quality committee will ensure project-specific clinical quality committees are effectively driving improvements in clinical outcomes and improved clinical integration;</p> <p>Project-specific clinical quality committees will escalate any major quality issues / risks to the MS PPS</p> <p>MS Clinical Quality committee will ensure any overlap between project-specific clinical quality committees is managed (for example, where there is considerable overlap between two of our projects, we may consider merging the two clinical quality committees)</p> <p>MS Clinical quality committee will oversee and sign off the performance metrics for each of the DSRIP projects</p> <p>MS Clinical quality committee will be educating and sharing with network providers on the details of project implementations</p>
External Stakeholders

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
PPS partners	Participants in clinical projects	Implement integration initiatives and clinical project(s) at respective sites
SEIU/1199	Union representation for certain workforce	Participate in determining training needs, hiring and recruitment processing, outcomes-based compensation plans for workforce
NYSNA	Union representation for certain workforce	Participate in determining training needs, hiring and recruitment processing, outcomes-based compensation plans for workforce
Managed Care Organizations	Payers	Engage in meaningful relationships with PPS to provide and share data, develop value-based contracts with PPS entity, and/or eventual contracting body
Other PPSs	Potential collaborators on projects	Align common projects and/or clinical integration processes to optimize project and provider reach and effectiveness, and patient experience

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 10.5 - IT Requirements

Instructions :

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

Two central themes that carry through the MS PPS DSRIP project selection are improved transitions of care between settings and improved disease management. The proposed IT infrastructure will support these objectives in a number of ways. First, a central component of the MS PPS IT infrastructure is the significant expansion of the organizations HIE capabilities. Once fully realized, HIE will allow for the real-time sharing of information on clinical, behavioral and social determinants of health across all participating providers and CBOs -- ensuring that all relevant information is available at the site of care, and that data follows care transitions. A second feature of the MS PPS IT infrastructure that will be imperative for successful project implementation is the development of a data warehouse. This and the associated analytic platforms will drive PPS capabilities to leverage clinical and claims data to drive projects associated with population health improvement as well as care coordination and management activities. Additional tools that will be centrally implemented to specifically target improved care coordination and management will allow for the deployment of disease management platforms, patient monitoring techniques, care alerts, automated data transmission triggers, sharing of and collaboration around patient care plans, referral management and tracking, and development of robust and dynamic patient registries. Additional key IT infrastructure improvements that will be important to overall project success include implementation of a flat file/CBO data conversion process, which more fully links community-based interventions to the PPS, to be integrated, monitored and evaluated by the health system, and a Learning Management System (LMS) which will support the widespread deployment of project-related protocols and procedures.

To meet the requirements for population health analytics and sophisticated care management in an integrated network, MS PPS will develop a data warehouse populated with data from the RHIO, PPS partners and other relevant sources. Population health, risk monitoring, and care management applications deployed as a part of the central MS PPS infrastructure will utilize the data in this warehouse. These services will be accessed through a user portal in one consolidated location to minimize disruption for PPS partners in their workflows as they work to enhance care coordination, and actively participate and realize value from these central PPS components. Finally, in order to monitor overall program performance, MS PPS will develop business intelligence tools including a participant data management system, performance dashboards and measures tracking, and a robust DSRIP reporting system, which include a centralized customer relationship management (CRM) service to track partners' progress and drive partner engagement.

✔ IPQR Module 10.6 - Performance Monitoring

Instructions :

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

The Mount Sinai PPS will be using the outcome measures and actively engaged patient definitions provided by the state as a benchmark of achievement to meet the quality performance that it has set each DSRIP Quarter. A system will be created to monitor the quality performance of each project by partner to meet metrics within the committed time frame and total set number of patients. This system will require a robust Health

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

informations exchange technology that pulls the data from all of our partners and RHIOs. Additionally, ongoing data reports will be provided to the MS PPS to get an idea of where the PPS is regarding the specific projects and any outstanding deliverables that need to be met. We will also ensure to track our patient population's improved health and review how this effects hospitalizations with regards to where this will fit. The PPS will also work on incentivizing to partners when meeting the milestones and metrics through bonus payments. Performance reporting and monitoring will be expected by all partners to complete and be successful. With the MS PPS PMO, each project manager as assigned from the MS PPS Project Management Office will oversee the projects and the deliverables where they will maintain the relationship with our partners to ensure quality measurements and maintenance of an ongoing reporting system. System informatics and data analytic tools will be used by the DSRIP MS PMO office to secure seamless information transfer. Additonally, a stakeholder engagement group will assist in securing partner buy in for projects and understanding the reporting of information to the PMO office.

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 10.7 - Community Engagement

Instructions :

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

For CBOs in our PPS, we will be entering into the same partner agreement as our other partners and we will evaluate if we need additional CBO engagement throughout DSRIP. We will make a concerted effort to reach out to CBOs, making sure to engage a diverse array of CBOs including Legal Services and God's Love We Deliver. As DSRIP rolls along, we will continue to engage the CBOs in our PPS network by providing opportunities to participate in the governance structure, and to build upon the services they provide to ensure our PPS meets all milestones and metrics. Additionally, as part of our Stakeholder engagement cross functional workgroup, we will be working on engaging the CBOs more by having a partner CBO lead these efforts. Our Project Advisory Committee will also consist of community board members and some Medicaid beneficiaries to guide the DSRIP projects and contribute to the success.

The risks we see associated with our aforementioned approach is how we will get buy-in from our CBOs and community board. We also are concerned in the level of understanding each partner CBO and community board will have regarding DSRIP. We anticipate a significant amount of partner engagement and stakeholder engagement will be needed to make this successful.

Section 11 – Workforce

✅ IPQR Module 11.1 - Workforce Strategy Spending (Baseline)

Instructions :

Please include details on expected workforce spending on a semi-annual basis. Funds may be shifted from one funding type category to another within the workforce strategy spending table, as long as the PPS adheres to their overall spend commitments. However, the PPS may apply a 25% discount factor to the DY1 Workforce Strategy Spend target. If the PPS applies this discount in DY1, the PPS will be expected to reallocate those funds appropriately in DY2-4 to fully meet their DY1-4 total commitment.

Funding Type	Year/Quarter										Total Spending(\$)
	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)	DY2(Q1/Q2)(\$)	DY2(Q3/Q4)(\$)	DY3(Q1/Q2)(\$)	DY3(Q3/Q4)(\$)	DY4(Q1/Q2)(\$)	DY4(Q3/Q4)(\$)	DY5(Q1/Q2)(\$)	DY5(Q3/Q4)(\$)

✓ IPQR Module 11.2 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Please note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Define target workforce state (in line with DSRIP program's goals).	Completed	Finalized PPS target workforce state, signed off by PPS workforce governance body.	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1	NO
Task Step 1. Formalize and redefine the scope of the Workforce Committee (with representation from diverse PPS partners and other stakeholders, as needed to ensure appropriate expertise) to execute the research and analysis activities laid out in the Implementation Plan. Additional sub-committees and cross-functional groups will be created on an as needed basis to acomodate the need for more global collaboration. Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Define target workforce state (in line with DSRIP program's goals).	Please find attached the response to the IA formal comments regarding the approval of Milestone 1 in DY2Q1.
Create a workforce transition roadmap for achieving defined target workforce state.	Please find attached the Workforce Transition Roadmap, approved by the Workforce Committee 10.13.16. Attached: Transition Roadmap document, Meeting Notes with document approval, Meeting Schedule Template.
Perform detailed gap analysis between current state assessment of workforce and projected future state.	Please find attached the response to the IA formal comments regarding the approval of Milestone 3 in DY2Q1.
Produce a compensation and benefit analysis, covering impacts on both retrained and redeployed staff, as well as new hires, particularly focusing on full and partial placements.	
Develop training strategy.	Please find attached the Workforce Training Strategy, approved by the Workforce Committee 10.13.16. Attached: Training Strategy document and Meeting Notes with document approval.

✔ IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- There is a strong co-dependency between the Clinical Committee and the Workforce Committee. The work task that the Clinical Committee creates must dictate the work structure the Workforce Committee supports in order for implementation to be successful. It is a potential risk, that with such a large undertaking, the work may become siloed within functional groups. To mitigate this risk, the MSPPS will coordinate cross-functional workgroups to ensure collaboration. This will also serve to make estimates more realistic, as workforce will not examine each clinical project in isolation, but rather as part of a larger system change.
- The future state analysis of the workforce is similarly dependent on the outcomes of the Clinical Committee work. Workforce and Clinical leadership will work together to ensure necessary information is provided to the committees in order to achieve milestones.
- The MSPPS anticipates significant competition for talent in certain roles with other PPSs as the DSRIP initiative moves forward. The MSPPS plans on collaborating with other PPSs as well as key stakeholders and educational institutions to reduce potential difficulties.
- An additional concern is that the MSPPS clinical work will need to scale faster than the training initiatives can support. Once training needs have been identified, curriculum may need to be developed, and the training itself may take time to be done effectively. The MSPPS will work with training providers to ensure we can scale appropriately, as well as collaborate internally to address clinical needs with the resources available.
- Each partner and employees at each partner will join the PPS at differing levels of education, experience, and baseline knowledge. The training strategy will take into account these different levels in designing training initiatives and timelines.

- Preliminary discussions with some of our community-based providers suggest that there may be regulatory issues impact staffing, roles, and capacity of their workforces. The PPS will work with its partners and NYS to identify and implement solutions to such issues.
- The MSPPS may also face a risk of exposing confidential information as a result of sharing data across the various partners. There will be strict controls put in place as part of the assessment steps of implementation plan so as to minimize this risk.

✔ IPQR Module 11.5 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The success of the MSPPS Workforce Committee hinges on several key interdependencies. The analysis and actualization of the changes in workforce due to DSRIP depend heavily on the work of the Clinical Committee. The transformation of the delivery system and the work tasks that will be done must determine the structure of the workforce deployed in order to ensure success. Similarly, this delivery system change will require financial resources to adequately staff the transformational effort, and support recruitment, redeploying, and retraining costs. The Workforce Committee will also contribute information to inform the decisions of that transformation, and jointly the two committees will inform budgetary

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

decisions made at the Finance and Leadership Committee levels. The Workforce Committee is also dependent on the IT Committee and IT initiatives to support the deployment of assessment and training tools, which is further described in the IT Expectations section below.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 11.6 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Workforce Committee Co-Chair	Jane Maksoud, Mount Sinai Health System	Approve policies and procedures; lead and maintain oversight of committee activities and projects
Workforce Committee Co-Chair	Linda Reid, VNSNY	Approve policies and procedures; lead and maintain oversight of committee activities and projects
Workforce Committee	PPS Members, including partner and union representation	Complete implementation plan steps; Assess and define the current and future states of the workforce; conduct a gap and benefits/compensation analysis; create a transition roadmap and training strategy
Workforce Project Management	Daniel Liss, Mount Sinai Health System; MSPPS PMO Members	Drive completion of Implementation Plan deliverables; manage community and stakeholder engagement.
Consultants	Undetermined	Help prepare workforce and training analyses and materials.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 11.7 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved in your workforce transformation plans, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Mount Sinai Health System	Lead Applicant	Leadership; operation of centralized functions
Clinical, Finance, and IT Committees	Key partners in developing workforce goals	Collaborate with Workforce Committee to determine needs, funding, and reporting mechanisms
External Stakeholders		
VNSNY	Workforce Committee Co-chair Partner	Leadership
Other MSPPS Partners	Partners in PPS	Participate in Workforce Committee
1199 SEIU	Partners in PPS	Participate in Workforce Committee; will play prominent role in the coordination of training and other workforce efforts
NYSNA	Partners in PPS	Participate in Workforce Committee
Other, non-MSPPS, organizations and PPSs	External Stakeholder	Potentially collaborate with Workforce Committee and MSPPS on joint activities

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 11.8 - IT Expectations

Instructions :

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

The IT infrastructure proposed by MS PPS will be an important tool as the PPS drives workforce transformation. First and foremost, included within the MS PPS IT infrastructure is a Learning Management System (LMS) which will allow the PPS to deploy and track workforce training initiatives, including PPS-developed project-driven protocols. As key priority of the MS PPS, this system will be used to support the advancement of front line staff and team-based care. Furthermore, under the auspice of Rapid Cycle Evaluation, the LMS will allow the PPS to facilitate the learning of processes and competencies in a consistent and standardized manner, particularly as performance improvement opportunities are identified.

An additional piece of the IT infrastructure that will support workforce transformation is the MS PPS User Portal. This web-based tool will provide a one-stop-shop for all PPS-related health information and analytic support, including a PPS level performance management and monitoring function, which will be linked to a Customer Relationship Management (CRM) database for provider and performance queries. This tool will support PPS workforce transformation by ensuring high levels of transparency and relevant benchmarking to analyze the impact of workforce-related interventions and guide provider and partner improvement, all accessible in a consolidated fashion in order to improve efficiency and reduce workflow impacts.

✔ IPQR Module 11.9 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The Workforce Committee and Workforce Project Group, as a governance structure, will drive to the completion of each step listed above to ensure the successful completion of each Workforce Milestone. As a general overview, the committee will first develop its structure and assess the tools it will use during DY1, Q1. The committee will then deploy those tools, aggregate results, and report back on the completion of each milestone in DY1, Q1 and Q2. In addition to the individual milestones, the outcome of the DY1 effort will include baseline workforce transition process measures and numerical commitments. There will be a Project Management function that will be responsible for coordinating milestone outcomes, pulling together supporting documentation, and submitting them back to the state for review.

✔ IPQR Module 11.11 - Workforce Strategy Spending (Quarterly):

Instructions :

Please include details on workforce spending for DY2. The workforce spending actuals should reflect only what was spent during the relevant quarters and is not cumulative across semi-annual periods. The PPS can shift funding across categories; e.g., from Retraining to New Hires. Please note that the "Cumulative Percent of Commitments Expended through Current DSRIP Year (DY2)" section is calculated based on the total yearly commitments.

Benchmarks	
Year	Amount(\$)
Total Cumulative Spending Commitment through Current DSRIP Year(DY2)	3,056,250.00

Funding Type	Workforce Spending Actuals		Cumulative Spending to Date (DY1-DY5)(\$)	Cumulative Percent of Commitments Expended through Current DSRIP Year (DY2)
	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)		
Retraining	105,781.30	0.00	105,781.30	7.11%
Redeployment	50,000.00	0.00	50,000.00	6.45%
New Hires	48,216.45	0.00	48,216.45	10.02%
Other	471,704.63	0.00	471,704.63	150.95%
Total Expenditures	675,702.38	0.00	675,702.38	22.11%

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management

✓ IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

<p>Risk 1: Inadequate patient and community engagement about DSRIP and IDS Mitigation: MSPPS will hold recurring community-based forums to educate and gather feedback from stakeholders about DSRIP project implementation and the IDS. The PPS PMO will create a "patient/community advisory board" which will meet regularly to inform PPS governance of reactions and response to project and IDS implementation. For high-priority communities, staff will be engaged to ensure open and tailored communication and engagement with patients and the community.</p> <p>Risk 2: Inadequate PPS Provider engagement in development of IDS. Mitigation: The PPS will create regional "hubs" to outreach, tailor and implement projects relevant to specific communities' clinical and social service needs, supporting local providers and CBOs to provide services. We are implementing a PPS Stakeholder Committee to gather feedback on operational planning and future decisions across PPS domains. Workforce and Clinical committees are collaborating on a centralized training program to deliver culturally sensitive and competent services that promote health literacy and address social determinants of health specific to the target populations.</p> <p>Risk 3: Difficulty establishing constructive partnerships with MCOs that may hinder timely value-based contracts . Mitigation: We will establish regular meetings between MCOs and PPS leadership, leveraging existing MCO relationships with Mount Sinai and other PPS partners (including affiliated lead Health Homes), to discuss performance metrics and move towards value-based programs among select PPS partners. To educate and engage PPS partners, we will plan training modules in collaboration with payers to understand and operationalize value-based reimbursement.</p> <p>Risk 4 Challenges in workforce recruitment, training, and collaboration with labor groups to successfully implement IDS projects. Mitigation: We will leverage and create collaborative relationships with labor groups (e.g. SEIU, NYSNA) and training/advocacy organizations (e.g. PHI) to communicate DSRIP project plans, identify training needs and develop re/training programs that optimize workforce knowledge and skills in the successful delivery of DSRIP program services. We will work with recruitment agencies, health worker training programs and professional schools of social work, nursing, behavioral and health sciences to educate trainees about career opportunities and hold regular recruitment events.</p> <p>Risk 5: Inability to secure adequate resources to support IDS infrastructure development . Mitigation: We will leverage existing IT, clinical and care management resources, including PPS partners and Mount Sinai's population health infrastructure, MSHP, to provide the IDS's foundation. The IT, Clinical and Finance committees are meeting to ensure responsible decision-making regarding (1) adequate flow of funds to carry out initiatives at every site; (2) selection of the appropriate applications for a common IT platform that can accommodate existing HIE, EMRs and other application; (3) planning for ultimate financial sustainability of individual projects; and (4) engaging with MCOs to gradually but aggressively shift contracts from fee for service to fully risk-based as groups within the PPS are able.</p>
--

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Risk 6: Inability to achieve successful collaboration and coordination with other PPSs . Mitigation: We have begun to establish relationships with other PPSs (e.g. Bronx Lebanon Hospital Center, Bronx Partners PPS) and plan outreach to other PPSs with overlapping service areas (e.g. HHC) to share best practices, and collaborate on interoperability plans. We will participate in regional and state-wide learning collaborative, using lessons learned from these activities to modify and improve our PPS.

✅ IPQR Module 2.a.i.2 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	DY4 Q2	Project	N/A	In Progress	04/01/2015	09/30/2018	04/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.		Project		In Progress	04/01/2016	09/30/2018	04/01/2016	09/30/2018	09/30/2018	DY4 Q2
Task Step 1. Create PPS operational infrastructure (PMO) that includes central and regional Stakeholder Engagement teams to promote partner education and engagement in IDSD		Project		Completed	04/01/2015	09/30/2016	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 2. Inventory all providers and social service agencies in PPS by provider type, services delivered, geography served and distribute across regional teams to identify and address gaps		Project		Completed	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 3. Identify all managed Medicaid payers in PPS footprint, and establish regular working meetings and learning forums between MCOs and PPS partners		Project		Completed	04/01/2015	09/30/2016	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 4. Set up regular sessions to convene regional providers, social service agencies and payers for PPS update and feedback Town Halls and Networking events		Project		Completed	10/01/2015	12/31/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 5. Establish regular reporting and updating of partner participation, supporting current partners and/or onboarding of new partners as deemed necessary by PPS governance or project needs.		Project		Completed	10/01/2015	06/30/2017	10/01/2015	09/30/2016	09/30/2016	DY2 Q2

would need to be precisely qualified and measurable. This will result in pilot compensation models for the PPS										
Task Step 5. Engage and train PPS providers on definitions and agree to standardizations across PPS providers.		Project		In Progress	01/01/2016	09/30/2016	01/01/2016	12/31/2016	12/31/2016	DY2 Q3
Task Step 6. Pilot and evaluate performance-based compensation models among select providers/organizations, representing all provider types in PPS		Project		In Progress	01/01/2017	12/31/2017	01/01/2017	12/31/2017	12/31/2017	DY3 Q3
Task Step 7. Finalize adoption of compensation models that incentivizes and compensates each type of PPS provider based on performance and outcomes		Project		In Progress	01/01/2018	09/30/2018	01/01/2018	09/30/2018	09/30/2018	DY4 Q2
Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.	DY4 Q2	Project	N/A	In Progress	04/01/2015	09/30/2018	04/01/2015	09/30/2018	09/30/2018	DY4 Q2
Task Community health workers and community-based organizations utilized in IDS for outreach and navigation activities.		Project		In Progress	04/01/2016	09/30/2018	04/01/2016	09/30/2018	09/30/2018	DY4 Q2
Task Step 1. Hold introductory and recurring PPS-led patient-engagement and educational events in which PPS leadership and local clinical and service providers educate community about the PPS programs, population health and DSRIP goals to develop an IDS. During and following these events, the PPS will gather baseline and follow-up attendance, attendee knowledge about current patient/community understanding of clinical integration, participation in projects.		Project		Completed	04/01/2015	09/30/2016	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 2. Establish patient advisory board whose role in PPS governance will be to monitor and advise on outreach, navigation activities and the progress that the PPS makes in engaging patients in IDS.		Project		Completed	04/01/2015	09/30/2016	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 3. Launch online and/or print resources for patients to educate about DSRIP as well as specific clinical and care management programs, including the local organizations which will be providing services. Track utilization of online site, as well		Project		Completed	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1

care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	
Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	
Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	
Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	
Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	
Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.	
Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	
Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	
Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.

Project 2.b.iv – Care transitions intervention model to reduce 30 day readmissions for chronic health conditions

✓ IPQR Module 2.b.iv.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1. One risk to implementation is inappropriate identification and engagement of the target population. To mitigate risk, we will:
 - (a) Base patient identification off the PACT model, whose data validates using patient utilization history of 1 in 30 days or 2 in 6 months. (b) Leverage PACT model: recruit staff, train and empower them to interact with patients and their caregivers to establish trust using previously implemented curricula and role modeling (c) Update and use PACT screening tool to identify high risk populations and key causes of readmission (housing, income instability, lack of transportation), (d) Encourage FACE TO FACE interaction between patients and care coordinators, (e) Assure all patients have PCP and follow-up appointment with PCP and subspecialist (if needed), (f) Recruit staff from local neighborhoods who can be matched with patients both culturally and by language
 - (g) Assure that patients with behavioral health or substance abuse needs are reconnected to behavioral health providers and/or referred to the appropriate providers (h) Analyze data to predict who will be best served with these interventions and which engagement strategy may work best, (i) Inform relevant doctor at time of admission (as opposed to time of discharge) if patient is currently undergoing treatment with a PCP.
2. Patients might not accept post acute intervention if they are not approached in a sensitive, patient-focused manner to assure engagement. To mitigate risk, we will:
 - (a) Recruit staff from within communities, being mindful of economic, ethnic, linguistic, and cultural identities (b) Train staff on appropriate patient engagement to reduce likelihood of unintentional alienation of patients and enhance staff's capacity for implementing empathic work (c) Train staff on a suite of tools for effective clinical assessment and intervention (d) Train staff to identify social determinants of readmission (e) Use Motivational Interviewing tactics, assessment of readiness and confidence rulers as indicators and social problem solving styles to inform approach (f) Educate/Empower family/caregivers on how to assist/support patient.
3. Possible risk that we will not be able to ensure access to medical and social services appropriately for patients upon discharge. To mitigate risk, we will:
 - (a) Train staff to educate patients and identify challenges to achieving appropriate post-discharge follow-up (b) Establish early contact with PCP to arrange timely follow-up of post discharge needs, medication reconciliation and other clinical needs during this vulnerable time (c) Establish linkage to appropriate primary care (if without PCP), correct care coordination site and/or behavioral health/substance abuse services. (d) Establish linkage to proper social and legal services depending on patient's needs. (e) Create streamlined communication protocols between PACT SWs and outpatient providers
4. Partners involved in the project may fail to properly communicate in the time following discharge. To mitigate risk, we will:
 - (a) Create standardized process to communicate between organizations regarding patients engaged in the project for days/weeks following discharge. (b) Engage our partner organizations early in the development of project staff training. (c) Develop a mechanism to provide feedback to PPS regarding challenges (d) Develop an interim plan prior to IT solution/supporting infrastructure and a back-up plan for communication exchange of this interim plan (e) Develop monitoring/evaluation process for interim and long-term solutions re: standardized process
5. PPS does not properly address patient coverage issues, which are important to getting patients services necessary to avoid readmission. To mitigate risk, we will:
 - (a) Develop a pre-discharge assessment for any missing entitlement and include it in patient's care plan

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 2.b.iv.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.	<p>Step 1: Pushed due date out to DY2 Q3 owing to continued efforts to engage MCOs to participate in project workgroup. Working with 2ai on MCO engagement. Currently engaging Mount Sinai Health Home to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.</p> <p>Step 2: Pushed due date out to DY2 Q3 owing to Milestone 2, Step 1. Working with 2ai to engage Health Homes and examine roles and responsibilities.</p> <p>Step 3: Pushed due date out to DY2 Q3 owing to Milestone 2, Step 1. Working with 2ai to engage MCOs and collaborate and leverage existing resources.</p> <p>Step 4: Pushed due date out to DY2 Q3 owing to Milestone 2, Step 1. Working with 2ai to engage MCOs and examine disease management protocols.</p> <p>Step 5: Pushed due date out to DY2 Q3 owing to Milestone 2, Step 1. Working with 2ai to engage MCOs for their active participation in this step.</p> <p>Step 8: Pushed due date out to DY2 Q3 owing to Milestone 2, Step 1. Working with 2ai to engage MCOs.</p> <p>Step 11: Complete. Determined patient consent process with project workgroup - also incorporating State DoH HH enrollment consent form/process</p> <p>Step 14: Complete. Determined protocol and documentation required, compiling best practices reference document, as determined by project workgroup.</p> <p>Step 15: Pushed due date out to DY2 Q3 owing to Milestone 2, Step 1 - continued attempts to engage MCOs in project workgroup efforts. Also work being done with IT to address access.</p>
Ensure required social services participate in the project.	Step 5: Pushed due date out to DY2 Q4. IT working to build this capability through use of RHIO and Patient 360, and DSRIP Command Center
Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.	<p>Step 2: Pushed due date out to DY2 Q4. IT working to build this capability through use of and connectivity to RHIO</p> <p>Step 3: Project team looking at protocols already in place and leveraging health home partners, PPS work force, project workgroup, and hospitals to achieve this.</p> <p>Step 4: Pushed due date out to DY2 Q4. Unable to conduct post-testing until early notification system is in place.</p> <p>Step 9: Pushed due date out to DY2 Q4. Requires finalization and approval of hospital-wide discharge planning protocols. Working with Health Homes and 2ci and Workforce to achieve this step.</p>
Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.	
Ensure that a 30-day transition of care period is established.	<p>Step 1: Complete. Care managers being recruited in communities to enroll patients into health homes at community level, and to coordinate their care (in conjunction with project 2ci efforts), including cultural and linguistic needs</p> <p>Step 2: This is being completed in collaboration with 2ci. A care transitions period is also being addressed in the 2biv Care Transitions Intervention</p> <p>Step 3: Command Center is established. Expansion to 24 hour is in progress.</p>
Use EHRs and other technical platforms to track all patients engaged in the project.	Step 2: Pushed due date out to DY2 Q4. IT working to build this into Mount Sinai's care Management Platform. Interim dashboards have been created for 2biv to look at readmission data. This interim solution is in collaboration with the existing Mount Sinai data analysis resources.

Project 2.b.viii – Hospital-Home Care Collaboration Solutions

✓ IPQR Module 2.b.viii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1. Caregiver unavailable or unidentified at the time of patient discharge. To mitigate risk, will (a) Assess level of caregiver support per patient upon admission (b) Link caregivers to supportive services (c) Employ language concordant care coordination staff and recruit staff from neighborhoods we serve to optimize community engagement.
2. Without a shared EHR system, there is risk of ineffective communication between hospital and home-care services, leading to disruption in care coordination. To mitigate this risk, will (a) Integrate HIT/EHRs to facilitate health information exchange between hospitals and SNFs/home care agencies.
3. If we do not address and document advance directives goals of care and patient/caregiver preferences at each transition, we risk fragmenting care. To mitigate risk, will
 - (a) Leverage existing RN home services and care coordination, primary care and/or sub-specialty care services to increase goals of care training
 - (b) Increase home and office-based palliative care consultations for chronically ill (c) Educate staff about Medical Orders for Life Sustaining Treatment (MOLST) (d) Work to communicate these wishes throughout patients' care pathways, within and outside our PPS
4. Collaboration with multiple experts and disciplines can lead to disagreements and delay completion of evidence-based care pathways. To mitigate risk, will
 - (a) Establish clear protocols and evidence-based guidelines for co-morbid patients (b) Develop a learning collaborative, training guides, and opportunities for providers from various settings to meet face-to face (c) Identify and appoint a "Lead" and create an escalation process; the escalation pathways are stratified on actual/potential domains (clinical, medical, psycho-social, behavioral, finance)
5. Patients may not have strong links to health care sites, particularly when patients leave facility AMA, "early dismissal". To mitigate risk, will
 - (a) Trigger a process for activation of Rapid Response Team (RRT) for such conditions; targeted skill set, explore possibility of Mobile RRT in community
6. Lack of integrated health IT infrastructure, need for expanded telemedicine services, and parsimony resource allocation and sharing. To mitigate risk,
 - (a) Significant investments to be made in shared HIT infrastructure, functioning HIE, and telemedicine services, requiring innovative payment models (b) Early and continued engagement with MCOs and policy/regulatory changes will facilitate integration and collaboration among competitive parties (c) Stratification method will be needed based on established criteria for assigned resources up to and including diffusion of care and intervention mapping
7. Regulations impacting provider-to-provider hospital-home care. To mitigate risk, will
 - (a) Work with DOH to seek regulatory relief if regulatory barriers are identified
8. Patients may be faced with psycho-social strain (unstable housing, limited access to phone). To mitigate risk,
 - (a) Rapid Response Team (RRT) will assess patients for psycho-social strain and refer to Health Home, NORC program, Senior Center or other CBO to address these.
9. May be difficult to engage CHHAs, SNFs and patients with INTERACT-like principles. To mitigate risk, will train all providers through validated methodology (motivational interviewing, patient centered assessments, etc.) to deal with culturally diverse patients with poor health literacy. Our PPS partners have experience with this and will share best practices to improve engagement and retention with INTERACT principles.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

10. Another potential risk is some Home Care agencies might become overburdened trying to meet the requirements of this project (resulting in lower performance). To mitigate risk, we will assess staffing, financial or compliance challenges on ongoing basis and support partners to improve quality

✔ IPQR Module 2.b.viii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	19,000

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4

Task PPS has developed and implemented interventions aimed at avoiding eventual hospital transfer and has trained staff on use of interventions in alignment with the PPS strategic plan to monitor critically ill patients and avoid hospital readmission.		Provider	Safety Net Hospital	In Progress	10/01/2015	03/31/2017	10/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Step 1: Collect care pathways currently used by partnering providers		Project		Completed	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 2: Select care pathways to be used PPS-wide		Project		In Progress	10/01/2015	09/30/2016	10/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task Step 3: Engage physicians and other care givers on care pathways		Project		In Progress	10/01/2015	09/30/2016	10/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task Step 4: Determine standardized interventions for early identified instability		Project		Completed	12/31/2015	06/30/2016	12/31/2015	06/30/2016	06/30/2016	DY2 Q1
Task Step 5: Identify obstacles for implementation		Project		In Progress	12/31/2015	12/31/2016	12/31/2015	12/31/2016	12/31/2016	DY2 Q3
Task Step 6: Monitor providers' compliance with selected care pathways		Project		In Progress	12/31/2015	03/31/2017	12/31/2015	03/31/2017	03/31/2017	DY2 Q4
Task Step 7: Implement ongoing assessment for high risk patients		Project		In Progress	12/31/2015	03/31/2017	12/31/2015	03/31/2017	03/31/2017	DY2 Q4
Task Step 8: Implement integrated care team to divert hospitalization working with care coordination cross functional group		Project		In Progress	10/01/2016	03/31/2017	10/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task Step 9: Conduct provider training on interventions		Project		In Progress	12/31/2015	09/30/2016	12/31/2015	03/31/2017	03/31/2017	DY2 Q4
Milestone #4 Educate all staff on care pathways and INTERACT-like principles.	DY2 Q4	Project	N/A	In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Training program for all home care staff established, which encompasses care pathways and INTERACT-like principles.		Provider	Home Care Facilities	In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Step 1: Research INTERACT-like training resources and cost		Project		Completed	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 2: Identify first phase of INTERACT-like tools to implement across agencies		Project		Completed	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 3: Determine agencies and number of staff requiring training		Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task		Project		Completed	10/01/2015	09/30/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2

Mount Sinai PPS, LLC (PPS ID:34)

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
INTERACT-like coaching program has been established for all home care and Rapid Response Team staff.										
Task Step 1: Identify agency representatives participating in INTERACT-like trainings who will be designated as "INTERACT Champion"		Project		Completed	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 2: Establish annual continuing education program		Project		In Progress	10/01/2015	09/30/2016	10/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task Step 3: Establish discussion groups to share best practices		Project		Completed	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1
Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.	DY2 Q4	Project	N/A	In Progress	10/01/2015	03/31/2017	10/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Patients and families educated and involved in planning of care using INTERACT-like principles.		Project		In Progress	10/01/2015	03/31/2017	10/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Step 1: Create a hand over tool to next level of care which indicates the teaching initiated in hospital and what needs to be continued.		Project		Completed	10/01/2015	09/30/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task Step 2: Determine method for assessing patient/CG knowledge base and health literacy		Project		Completed	01/01/2016	06/30/2016	01/01/2016	06/30/2016	06/30/2016	DY2 Q1
Task Step 3: Develop a variation of teaching methods		Project		In Progress	01/01/2016	09/30/2016	01/01/2016	12/31/2016	12/31/2016	DY2 Q3
Task Step 4: Create patient/CG educational & training materials that is patient-centered and includes patient's goals of care		Project		In Progress	01/01/2016	09/30/2016	01/01/2016	12/31/2016	12/31/2016	DY2 Q3
Task Step 5: Decide on critical learning needs prior to discharge		Project		Completed	01/01/2016	06/30/2016	01/01/2016	06/30/2016	06/30/2016	DY2 Q1
Task Step 6: Determine method for integrating Patient/CG education into the patient health record		Project		In Progress	03/31/2016	09/30/2016	03/31/2016	03/31/2017	03/31/2017	DY2 Q4
Milestone #8 Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.	DY3 Q2	Project	N/A	In Progress	10/01/2015	09/30/2017	10/01/2015	09/30/2017	09/30/2017	DY3 Q2
Task All relevant services (physical, behavioral, pharmacological) integrated into care and medication management model.		Project		In Progress	10/01/2015	09/30/2017	10/01/2015	09/30/2017	09/30/2017	DY3 Q2

Assemble Rapid Response Teams (hospital/home care) to facilitate patient discharge to home and assure needed home care services are in place, including, if appropriate, hospice.	

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Ensure home care staff have knowledge and skills to identify and respond to patient risks for readmission, as well as to support evidence-based medicine and chronic care management.	<p>Step 3: Pushed back to DY2 Q4 - Requires PPS-wide development of care model prior. Variability in partner maturity to meet this milestone and step. Working with them to establish minimum best practices.</p> <p>Step 4: Pushed back to DY2 Q4. Variation in work flow across partners. Many have established competency testing procedures. Working on training staff in INTERACT principles before testing competency.</p> <p>Step 5: Pushed back to DY2 Q4. In process of receiving monthly readmission reports from hospital - working to include numbers from home care providers</p> <p>Step 8: Pushed back to DY2 Q3 - in process of aligning work with applicable efforts of disease-specific projects</p> <p>Step 9: Pushed back to DY2 Q3 - partners currently developing plans with project MD Champion to implement INTERACT-like principles</p>
Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	<p>Step 2: Pushed back to DY2 Q3 - Working with partners to implement INTERACT principles before we can review care pathways being implemented. Collaborating with partners to select the care pathways to be used.</p> <p>Step 3: Pushed back to DY2 Q3 in order to match Milestone 3, Step 2's timeline.</p> <p>Step 9: Pushed back to DY2 Q4 - allow time between specifying care pathways interventions and training</p>
Educate all staff on care pathways and INTERACT-like principles.	Step 4: Complete. Trainings to be conducted as needed, determined by principles partners need to be trained in
Develop Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	<p>Step 4: Pushed back to DY2 Q4 - discussing possibility of integrating way to identify patients into hospital EMR. Advised on advance directives on both hospital and home care side if they do not have any.</p> <p>Step 6: Pushed back to DY2 Q3 Putting together manual with Advanced Care Planning tools using INTERACT tools and developing a process for training with Workforce.</p>
Create coaching program to facilitate and support implementation.	Step 2: Pushed back to DY2 Q3 - each home care agency must determine this individually, needs to be determined what organizations utilize coaching programs
Educate patient and family/caretakers, to facilitate participation in planning of care.	<p>Step 1: Complete. Developed recommendations for teaching initiated to patients in hospital, and what needs to be continued</p> <p>Step 3: Pushed back to DY2 Q3 - possibilities provided in document mentioned for Milestone 7, Step 1 - however, partners may utilize own teaching processes. Best practices by partners are being compiled into PPS minimum requirements. In progress.</p> <p>Step 4: Pushed back to DY2 Q3 - has not yet been developed with workgroup</p> <p>Step 6: Pushed back to DY2 Q4 - Working with IT to integrate into EMR</p>
Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.	
Utilize telehealth/telemedicine to enhance hospital-home care collaborations.	<p>Step 1: Complete. Collected and Developed criteria necessary for telehealth solution to include</p> <p>Step 2: Pushed back to DY2 Q4 as project is not prepared to explore telehealth - researched one telehealth option, further research needed. To be done with IT assistance</p> <p>Step 3: Pushed back to DY2 Q4 - pending Milestone 9, Step 2</p>

Mount Sinai PPS, LLC (PPS ID:34)

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Utilize interoperable EHR to enhance communication and avoid medication errors and/or duplicative services.	<p>Step 1: Pushed back to DY2 Q3 - IT requires more time, working on assessing feasibility and platform for interoperability</p> <p>Step 2: Pushed back to DY2 Q3 - IT requires more time, working on assessing feasibility internally and across partner platforms</p>
Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	<p>Step 1: Complete. Developed RN Champions within key partner organizations - working with project MD Champion to advance project goals within organizations</p> <p>Step 6: Pushed back to DY2 Q4 - Working with 2ai to engage MCOs in project efforts; been unable to collect HEDIS measures at this time; working with IT and PMO analytics teams.</p> <p>Step 7: Pushed back to DY2 Q3 - Not be able to obtain these reports and identify improvement areas. Internal HCAPS surveys have not yet been disseminated to partners.</p> <p>Step 9: Pushed back to DY2 Q4 - have not developed process by which to do root cause analysis</p> <p>Step 10: Pushed back to DY2 Q3 - still in the initial stages of receiving data to use toward quality improvement initiatives</p> <p>Step 11: Pushed back to DY2 Q4 - pending Milestone 11, Step 11</p>
Use EHRs and other technical platforms to track all patients engaged in the project.	Step 1: Pushed back to DY2 Q3 - INTERACT training recently completed, working with trained partners to develop internal training processes, staff training figures, and outcome data

Project 2.c.i – Development of community-based health navigation services

✓ IPQR Module 2.c.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

<p>Associated Risk: Workforce Development Part of the diminished capacity is the difficulty in hiring staff into a program without a standardized means of timely reimbursement.</p> <p>Risk Mitigation: The financial and workforce investment in this project will be clearly defined. Our path to achieving more clarity involves close collaboration with the financial and workforce development entities to understand any potential burdens that fall outside of the scope of our expectations and strategize avenues for successfully managing those burdens.</p> <p>Associated Risk: Minimal supervisory structure</p> <p>Risk Mitigation: Through this project, part of the staff will include licensed clinical SWs and RNs to provide support in a standardized manner to the community navigation staff. The hub of resources will also be helpful for consultations.</p> <p>Associated Risk: Lack of IT infrastructure</p> <p>Risk Mitigation: Use of the MAPP portal will allow for some of the tracking mentioned. Partners in this project will need to be well versed in MAPP through various roll out phases. Additionally, infrastructure will be created through collaboration with IT development entities for the project and current HH dashboards and partner care coordination platforms will be leveraged.</p> <p>Associated Risk: Potential duplication of services</p> <p>Risk Mitigation: Policies and best practices will be developed to facilitate warm handoffs to various members of a patient's care team. These policies and and best practices will be created through collaboration with other DSRIP projects and current programs (i.e. Health Homes, transitional care).</p> <p>Associated Risk: Low Patient Compliance</p> <p>Risk Mitigation: Investment in collaboration with workforce development to ensure that patient navigators are adequately trained and equipped to ameliorate patient ambivalence and compliance barriers.</p> <p>Associated Risk: Inadequate Supply of Resources, i.e. Housing and Transportation</p>
--

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Risk Mitigation: The PPS will employ experts in each area of need to assist patients in navigating and accessing the resources. The resource hub and resource guide will include details re: wait times, languages spoken, and services provided to help patients better access appropriate resources that are not limited.

Associated Risk: Difficulty determining the need for longitudinal vs. short-term services, caseload sizes, and patient graduation

Risk Mitigation: Needs assessments, clinical pathways, and associated policies and workflows for patients will be created so that the patient is matched with the right level of care needed.

Associated Risk: The assumptions for community navigators number

"Table #1 - This number reflects the individual community-based navigators that we have committed to this project. This number reflects community-based navigators specific to this particular project only..."

Risk Mitigation: The initial assumption is not accurate. We're also sharing resources with lead HHs and community based organizations providing HH services. We will integrate Care coordination models to include community navigators as a shared resource and will be able to include those who provide services in other projects ie 2ai etc. This will enable us to reach the 250 goal by DY4.

✔ IPQR Module 2.c.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

✔ IPQR Module 2.c.i.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.	DY3 Q4	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Community-based health navigation services established.		Project		In Progress	07/01/2015	03/31/2018	07/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Step 1. Finalize a plan to hire additional staff to assist in execution.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task Step 2. Identify key elements of community-based health navigation		Project		Completed	06/12/2015	12/31/2015	06/12/2015	12/31/2015	12/31/2015	DY1 Q3
Task Step 3. Outline/ Diagram PPS care coordination. Actively participate in Care Coordination Cross Functional Workgroup sessions		Project		In Progress	06/12/2015	03/31/2018	06/12/2015	03/31/2018	03/31/2018	DY3 Q4
Task Step 4. Leverage Care Coordination Cross Functional Workgroup's resources		Project		In Progress	06/12/2015	03/31/2018	06/12/2015	03/31/2018	03/31/2018	DY3 Q4
Task Step 5. Collaborate with CCCFW to develop CCCFW processes, workflows, and protocols as they relate to the CCCFW Charter (Care Coordination documents have been uploaded to the Clinical Integration Section 09-> MAPP Module 9.1 • Prescribed Milestones #2-" Develop a Clinical Integration strategy." ; In order to achieve milestones for this project project 2ci will collaborate and has been involved in CCCFW. Page 2 of CCCFW charter, deliverables 1-9 will help project team to meet this milestone)		Project		In Progress	06/12/2015	03/31/2018	06/12/2015	03/31/2018	03/31/2018	DY3 Q4
Task Step 6. Identify services needed using CNA		Project		In Progress	06/12/2015	03/31/2018	06/12/2015	03/31/2018	03/31/2018	DY3 Q4
Task Step 7. Identify sites and agencies and Health Homes already doing community-based health navigation		Project		In Progress	06/30/2015	03/31/2018	06/30/2015	03/31/2018	03/31/2018	DY3 Q4

Milestone Name	Narrative Text
Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.	
Develop a community care resource guide to assist the community resources and ensure compliance with protocols, under direction from a collaborating program oversight group of medical/behavioral health, community nursing, and social support services providers.	
Recruit for community navigators, ideally spearheaded by residents in the targeted area to ensure community familiarity.	
Resource appropriately for the community navigators, evaluating placement and service type.	
Provide community navigators with access to non-clinical resources, such as transportation and housing services.	
Establish case loads and discharge processes to ensure efficiency in the system for community navigators who are following patients longitudinally.	
Market the availability of community-based navigation services.	
Use EHRs and other technical platforms to track all patients engaged in the project.

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Project 3.a.i – Integration of primary care and behavioral health services

✓ IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

A key challenge will be developing competent clinical workforce for this project. The primary risk is direct negative impact to patient engagement and care. We will address this by a multi-pronged approach: 1) In-depth and diverse methods of training which will draw from internal PPS expertise, external organizations, and utilizing "train the trainer" techniques. Focused curricula will include basic concepts of integrated and collaborative care; various roles in integrated care settings (i.e., collaborative supervising psychiatrist for IMPACT; Depression Care Managers); core clinical trainings (i.e., motivational interviewing; screening questionnaires); working with patients with behavioral health conditions (for Model B physical health practitioners). We will also work with the selected primary PPS workforce training vendor, local educational institutions, as well as nationally available training (i.e., the AIMS Center) to create comprehensive training modules for all disciplines in all three models. Trainings will occur via multiple venues, including formal in-services, hands-on workshops, grand rounds, staff meetings, web-based training modules, as well as individual supervision. 2) Ensure potential future workforce members receive training and clinical exposure to integrated care settings. We hope to include trainees from multiple clinical disciplines at sites across the PPS, and they will be included in trainings as appropriate. This will also help develop a pool of trained potential workforce members in later years of DSRIP, and ensure the foundations for this new clinical field of integrated care.

A second major challenge is creating standardized operational models and workflows at each site to minimize practice variation. Risks with not implementing standardized models include significant impact on outcomes, risk of inefficiencies, and lower quality of care. We are developing standardized models and protocols of care for each clinical model, with detailed clinical and administrative workflows and implementation checklists. We will also work closely with the PPS IT to maximize automation and standardization of clinical documentation, handoffs, and notifications. The standardization will be based on available evidence and best practices, as well as allow for some flexibility due to the variety of different sites and phases of operational readiness for integrated care across sites. In addition, as one of the four PPS's involved in the KPMG Target Operating Model development for 3ai, we are using this platform to further refine models and workflows for our PPS, as well as contribute to the standardization of this level of care for other PPS's.

Another related challenge is the variation in sites of not only EHR availability, but the readiness of their EHRs to incorporate both physical health and behavioral health clinical documentation. IT clinical documentation integration will be key to minimize the risks of separate or "opaque" documentation systems between physical and behavioral health, which can have significant safety and quality impact. Some CBOs have limited EHRs which may not easily be able to incorporate physical health documentation modules. We will work closely with the PPS IT to evaluate all partner IT capabilities, and implement any and all solutions with minimal workarounds.

A final challenge will be adequate and appropriate clinical space for integrated care. Inadequate space and patient care room conditions may cause long wait times for appointments and patients dissatisfied with the care setting, leading to missed appointments and disengagement from treatment. Creative scheduling, room shares, modest expansions, and other innovative solutions will be employed. Privacy and confidentiality safeguards will be in place at the patient, provider, facility, and EHR levels.

✔ IPQR Module 3.a.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Co-locate behavioral health services at primary care practice sites. All participating eligible primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	
Develop collaborative evidence-based standards of care including medication management and care engagement process.	
Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Co-locate primary care services at behavioral health sites.	
Develop collaborative evidence-based standards of care including medication management and care engagement process.	
Conduct preventive care screenings, including physical and behavioral health screenings.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Implement IMPACT Model at Primary Care Sites.	
Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.	
Employ a trained Depression Care Manager meeting requirements of the IMPACT model.	
Designate a Psychiatrist meeting requirements of the IMPACT Model.	
Measure outcomes as required in the IMPACT Model.	
Provide "stepped care" as required by the IMPACT Model.	
Use EHRs or other technical platforms to track all patients engaged in this project.

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Project 3.a.iii – Implementation of evidence-based medication adherence programs (MAP) in community based sites for behavioral health medication compliance

✓ IPQR Module 3.a.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The foremost project risk pertains to the identified vulnerabilities and needs of the target population itself. Adherence to medication treatment specifically and both behavioral and physical health treatment generally comprise final common pathway problems and primary targets for project intervention.

Challenge 1: Development of a scalable evidence-based adherence intervention targeting both behavioral health and physical health medications and related clinical encounters aligned with provider mandates. Strategy: Expand/adapt existing evidence based strategies for the behavioral health population, including both behavioral and physical health medications and related clinical engagement supported by tailored technologies, including a mobile platform to support extra-mural engagement and deployment, integrated into established workflows.

Challenge 2: Implement a scalable standardized adherence intervention across Manhattan, Brooklyn and Queens and diverse professional and non-professional staff. Strategy: Interventions and related training will be piloted with discrete staff and patient cohorts then replicated with project partners supported by standardized training protocols. Each site will develop self-sustaining autonomy and network integration.

Challenge 3: Complex impediments to the progressive engagement and activation of a culturally diverse, vulnerable population with prevalent multiple morbidities, social, financial, and housing problems, and family stressors. Engaging this population requires a highly committed culturally fluent staff familiar with population challenges. Strategy: A robust, established PPS apparatus for workforce recruitment, training and supervision, employing an assembled workforce of care coordinators, care navigators and peers will be oriented to population needs and 3a.iii project interventions supported by a mobile technology platform. A major focus will be consumer education and health literacy in which peers may play an exceptional role. Education and treatment materials will be provided in multiple languages.

Challenge 4: Assuring staff competency and adherence to prescribed interventions, related reporting, including measures of intervention efficacy. Strategy: Across the PPS, each practice setting and node will report ongoing assessment of staff adherence to the prescribed interventions and discrete performance metrics and outcomes using an integrated/mobile technology platform.

Challenge 5: Other IT integration including data capture from pharmacy and other resource utilization both within and outside the PPS, including emergency services and hospitalization. Strategy: The project specific technology platform will integrate other data resources including regional and health information exchanges, and PSYCKES. Work related to the primary pilot, currently underway, is expected to produce viable scalable solutions to such integration then available to project partners.

Challenge 6: Duplication of PPS services, which could complicate and impede the delivery of organized, efficient services. Strategy: Coordination at both the PPS and project level, through use of the MRT Innovation eXchange (MIX) idea bank as well as other direct collaborative initiatives, including sharing standardized approaches and protocols, experience and data, and collaborate on project development when possible.

Challenge 7: Ensuring access to mobile technologies. Strategy: Access to mobile technologies and multiple points of access is a key project component of this project. When direct consumer access is not possible, case managers/care coordinators and peers may utilize other project funded mobile technologies (laptop/pad devices) to implement the adherence model.

✔ IPQR Module 3.a.iii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	45,000

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4
PPS Reported	Baseline Commitment	4,000	6,000	9,000	12,000
	Quarterly Update	1,803	5,153	0	0
	Percent(%) of Commitment	45.08%	85.88%	0.00%	0.00%
IA Approved	Quarterly Update	0	3,350	0	0
	Percent(%) of Commitment	0.00%	55.83%	0.00%	0.00%

⚠ Warning: PPS Reported - Please note that your patients engaged to date (5,153) does not meet your committed amount (6,000) for 'DY2,Q2'

Narrative Text :

For PPS to provide additional context regarding progress and/or updates to IA.

The PPS partners engaged 787 patients that are listed in the uploaded patient registry. In addition, two Substance Use Disorder treatment partners provided attestations that they engaged 17 patients and 2,546 patients.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

787 + 17 + 2,546 = 3,350 total patients engaged in DY2, Q2.

Module Review Status

Review Status	IA Formal Comments
Fail	The PPS failed to meet at least 80% of its actively engaged commitments for DY2 Q2. Furthermore, the documentation submitted does not support the reported actively engaged totals.

Project 3.b.i – Evidence-based strategies for disease management in high risk/affected populations (adult only)

✓ IPQR Module 3.b.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Many of the major risks within 3.b.i stem from a few underpinning topics: The difficulty of clinical workflow adjustments, patient engagement, and IT Integration dependencies

Due to the number and complexity of Clinical workflow adjustments, we need to pay particular attention when implementing changes to the workflow. For example, in order to be successful when implementing workflow changes, the CVD working group, and in coordination with the diabetes working group, we will develop practical CV disease screening and management protocols which can be implemented across the PPS. In another example, when the PPS implements the 5 A's for Tobacco control, the CVD workgroup will work with care teams to train office staff to initiate the 5 A's during the initial work-up of the patient, with completion of the 5 A's to be left up to the provider. With this change, the burden of completing the 5 A's will no longer exclusively fall on the provider. This is a practical workflow adjustment

There are several risks surrounding patient engagement and IT Integration. Typically, patients with elevated blood pressure but no formal diagnosis of hypertension will go undetected and untreated. To address this risk, the CVD Workgroup will work with IT to develop site reports of patients with elevated office blood pressure both with and without a formal diagnosis of hypertension. This strategy of leveraging IT to flag patients will be used across the project to mitigate risk. In another risk, the PPS may be unable to engage all participating providers in the 5 A's tobacco control program. To mitigate this risk, the CVD workgroup will work with IT to develop a hard-stop in EHR's to ensure the 5 A's are addressed prior to signing and locking a note.

Risk: Low patient compliance with lifestyle recommendations is a real and potential risk related to the implementation of this project.

Mitigation Strategy: To address these concerns, the PPS will ensure that its treatment protocols and lifestyle interventions are simple, efficacious and cost-effective. Furthermore, through the use of health coaches and care management teams, the PPS will ensure that engaged patients are actively participating and following up on recommendations for lifestyle modification.

Risk: Due to the varying levels of readiness of PPS members for PCMH Level 3 recognition, there is a risk that not all providers will meet this deliverable.

Mitigation Strategy: Through regular PPS meetings and monthly reports, providers not achieving PCMH level 3 will be identified and targeted for additional support to ensure adherence with DSRIP implementation plans. Additionally, the Clinical Committee is creating a task force/focus group specific to bringing providers to PCMH Level 3. These initiatives will mitigate the implementation risk.

Risk: Due to the nature of organizational change, there is a risk that providers will fail to adopt new clinical protocols and guidelines that the PPS adopts.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Mitigation Strategy: If participating providers are struggling to adopt new clinical guidelines, need assistance with implementing clinical guidelines, or simply fail to comply with clinical guidelines, the PPS will identify these providers as outliers, and ensure that adequate resources are allocated for additional support, guidance and/or oversight. Additionally, the PPS will develop templates that can be adopted to varying levels of organizational maturity. This will allow for flexible adoption.

✔ IPQR Module 3.b.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	23,080

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4
PPS Reported	Baseline Commitment	1,650	3,462	5,500	9,232
	Quarterly Update	1,522	3,078	0	0

workgroup(s) to ensure both the PCMH and DSRIP workflows on Self-management goals align.										
Task Step 3. Engage IT to build self-management goal templates into EMR. Explore hard stops, alerts, and flags to ask the clinician to complete the self-management goal. IT will also create reports to identify organizations with low rates of self-management goals		Project		In Progress	10/31/2015	09/30/2016	10/31/2015	12/31/2016	12/31/2016	DY2 Q3
Task Step 4. Create documentation for self-management goals such as a self-management checklist, which patients can complete in the waiting room.		Project		Completed	03/31/2016	06/30/2016	03/31/2016	06/30/2016	06/30/2016	DY2 Q1
Task Step 5. Education and train clinicians to review the patient's self management goal throughout the care of the patient. This will ensure compliance with the self-management goal.		Project		In Progress	03/31/2016	12/31/2016	03/31/2016	12/31/2016	12/31/2016	DY2 Q3
Task Step 6. Engage Workforce to train on self-management goal documenting. This may include online trainings and leveraging PCMH trainings to incorporate the self management goal into the training. The training will also educate the providers on the importance of patient engagement in their care.		Project		In Progress	03/31/2016	03/31/2017	03/31/2016	03/31/2017	03/31/2017	DY2 Q4
Task Step 7. Train providers on self management goal documenting.		Project		In Progress	03/31/2016	03/31/2018	03/31/2016	03/31/2018	03/31/2018	DY3 Q4
Task Step 8. Assess training efficacy through surveys.		Project		In Progress	03/31/2016	03/31/2018	03/31/2016	03/31/2018	03/31/2018	DY3 Q4
Task Step 9. Perform continuous quality improvement of process by using the IT data and improve accordingly.		Project		In Progress	03/31/2016	03/31/2018	03/31/2016	03/31/2018	03/31/2018	DY3 Q4
Milestone #13 Follow up with referrals to community based programs to document participation and behavioral and health status changes.	DY3 Q4	Project	N/A	In Progress	10/01/2015	03/31/2018	10/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS has developed referral and follow-up process and adheres to process.		Project		In Progress	11/01/2015	03/31/2018	11/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS provides periodic training to staff on warm referral and follow-up process.		Project		In Progress	11/01/2015	03/31/2018	11/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Agreements are in place with community-based organizations and process is in place to facilitate feedback to and from		Project		In Progress	11/01/2015	03/31/2018	11/01/2015	03/31/2018	03/31/2018	DY3 Q4

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	
Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	
Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	
Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.	
Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	
Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.	
Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.	
Prescribe once-daily regimens or fixed-dose combination pills when appropriate.	
Document patient driven self-management goals in the medical record and review with patients at each visit.	
Follow up with referrals to community based programs to document participation and behavioral and health status changes.	
Develop and implement protocols for home blood pressure monitoring with follow up support.	
Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.	
Facilitate referrals to NYS Smoker's Quitline.	
Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases.	
Adopt strategies from the Million Hearts Campaign.	
Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.

Project 3.c.i – Evidence-based strategies for disease management in high risk/affected populations (adults only)

✓ IPQR Module 3.c.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The Diabetes Management project has a number of risks documented below with an associated mitigation plan:

Risk: Linguistic, cultural diversity, as well as variation in learning and literacy levels: Vulnerable populations face greater barriers in self-management of health and navigating services due to low/no literacy, language barriers, poverty and other factors. In some clinical environments, patients do not have a consistent point of contact with a clinician educator to support better self-management, answer questions and help coordinate with external services. This is disruptive to the patient experience and thus challenges the likelihood that the patient will make and maintain behavior changes.

Mitigation strategy:

1. Locally hired Health Coaches will follow patients longitudinally across settings while keeping the full care team abreast of developments in the individual's self-management, self-monitoring, urgent medical needs, and psycho-social challenges. The Health Coach can serve as a central, trusted point of contact to the health system, community resources / health homes, etc. to develop greater trust between patient and caregivers in larger care team.
2. Because the Coaches are hired from the neighborhood they serve, they serve as ambassadors to clinics to help with translation during clinic visits, culturally appropriate education and social support.
- 3) Large number of staff that needs to be trained: will be mitigated by HR processes in place to recruit adequate number of suitable trainers

Risk: Resource Utilization: Using too many resources (particularly through the time of providers) on patients; overlapping use of resources.

Mitigation: Create tiered risk profiling tool to provide varying levels of intensity of support to patients with varying levels of medical, social, behavioral and economic risk profiles.

Risk: Quality monitoring and Flexible adaptation: Coordinating across sectors while maintaining quality: Expanding these specific programs in a standardized way while maintaining quality of care will require a strong data collection and a continuous quality improvement component aiming at coordination between the various layers/components of the overall program.

Mitigation strategies:

1. Conduct assessments at each primary care site to determine existing care team structures, staffing roles, and approaches used to provide disease prevention and management coaching and care coordination.
2. Create blueprint for Care Coordination Teams and care processes that should apply across sites, with a framework to enable flexible adaptation of features to small and large sites. Include steps to ensure the blueprint is culturally appropriate for the context / neighborhood that each clinic serves.

Mount Sinai PPS, LLC (PPS ID:34)

✔ IPQR Module 3.c.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

Milestone Name	Narrative Text
Develop care coordination teams (including diabetes educators, nursing staff, behavioral health providers, pharmacy, community health workers, and Health Home care managers) to improve health literacy, patient self-efficacy, and patient self-management.	
Develop "hot spotting" strategies, in concert with Health Homes, to implement programs such as the Stanford Model for chronic diseases in high risk neighborhoods.	
Ensure coordination with the Medicaid Managed Care organizations serving the target population.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3 for EHR systems used by participating safety net providers.

Project 4.b.ii – Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer)

✓ IPQR Module 4.b.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: Important to this project are patient engagement, patient education and self-management skills which lead to compliance of services. Challenges include difficulty in navigating the system, language barriers, lack of education of preventive services, access and availability to services (see #3), and lack of culturally appropriate education materials. Mitigation: Our patient and community interventions will use culturally appropriate traditional and nontraditional media and communications to build awareness of disease prevention through seminars. We will assess and improve our trust and engagement with patients in the community through culturally appropriate training programs for staff and providers by: improving cultural competency, increasing health literacy, use of motivational interviewing and patient empowerment through shared decision making.

Risk: Our patient population lives in health professional shortage areas. Complaints include long appointment wait times, languages barriers, difficulty navigating the health delivery system, lack of transportation to services and affordable care (see #5). There is a high no show rate of this population. There is difficulty tracking referrals, diagnostic test results and confirming diagnostic test results and specialist reports sent to the primary care physicians.

Mitigation: In DY1 we will assess our current workflows on care coordination to identify gaps. For PCMH accredited practices with gaps in care coordination we will use the IHI PDSA cycle to make rapid progress including IT infrastructure and staff changes. We will assess our current workflows on access and availability, phone triage, diagnostic test tracking including receipt of completed reports, referral tracking including the receipt of completed specialist reports and referrals to community based programs.

Risk: We will increase specific preventive services in concert with the New York State Prevention Agenda. Challenges include lack of continuity of care and patient engagement, difficulty in the access and availability to services, unaffordable preventive services, provider beliefs about screening, limited physician time during office visit, lack of reminders in the EMR for preventive services, difficulty getting timely completed reports of diagnostic tests, limited workforce for outreach, lack of patient education of preventive services and lack of a registry of patients who need screening.

Mitigation: Over the past 3 years, the Mount Sinai St. Luke's/Roosevelt (MSLR) and Mount Sinai Beth Israel (MSBI) hospitals have performed in the top 10 of 30 hospitals in the Healthfirst HEDIS/QARR quality incentive programs. They built systems outside the office visit using a team of patient navigators, nurses and a data analyst. This team has been successful at improving quality improvement scores for these hospitals and will be able to provide technical support to designated or newly hired staff at other practices. In DY1, we plan to collect baseline data on our screening rates of colorectal, breast cancer, cervical/chlamydia screening and preventive visits for children aged 3-6 and adolescents. We will build a registry of patients who qualify for the various preventive screenings and visits. The teams from MSLR and MSBI will share best practices with other hospitals by providing technical support through, webinars, seminars and designating clinical leads at each site to champion the PDSA cycles needed to systematically address and improve preventive screening services and/or connection to specialized disease management programs. In DY1, we will educate primary care providers on high-risk populations to screen for Hepatitis C. We will increase community awareness of Hepatitis C transmission, screening and treatment by providing culturally appropriate educational seminars through traditional and nontraditional media.

PPS Defined Milestones Narrative Text

Milestone Name	Narrative Text
1. Convene a Learning Collaborative on Colorectal Cancer, Cervical cancer, Breast Cancer and Chlamydia screening	
2. Establish a shared work plan and timeline for project implementation	<p>The shared work plan for Project 4.b.ii. is the implementation project plan here. The project leadership and work group memberships have been established, as well as means to update membership on an ongoing basis. The group presented its work to the MS DSRIP Clinical Quality Committee in August of 2016 with approval to move forward with its approach to the work plan. The project meetings are held and scheduled for ongoing recurrence. The work group will continue to modify the remaining milestones and tasks accordingly throughout the DSRIP years.</p> <p>DY2 Q2 Remediation Note: The contact list and attendance roster show the PPS has held regular project meetings and includes members of the project leadership. Minutes are evidence of the review and approval of the implementation plan submitted to the State and also illustrate the strategy and approach of using payer data to monitor QI and set as a baseline. Each individual partner and partner sites have implemented their own Clinical Quality Improvement pilot projects. These projects are reported back using the Plan, Do, Study, Act (PDSA) worksheet adopted by the 4bii workgroup, successes and challenges are also shared. The pilot projects are intended to address barriers clinicians encounter for increasing preventive screening rates. Sample pilots include the verification of patients' telephone number during a visit check-in process. During outreach, the main reason for the inability to schedule appointment for missed services is invalid patient contact numbers. Another pilot is on re-educating staff to store colorectal screening results in appropriate EMR location improving the rates of accessing results, therefore reducing the number of redundant screenings and increases access for other patients.</p>
3. Schedule a Speaker Series to inform providers on national best

PPS Defined Milestones Narrative Text

Milestone Name	Narrative Text
practices, payment and care delivery for selected diseases (Colorectal Cancer, Cervical cancer, Breast Cancer and Chlamydia screening)	
4. Increase specific Preventive services: Colorectal Cancer, Cervical cancer, Breast Cancer and Chlamydia screening	
5. Increase Hep C screening and Management	
6. Enhance patient engagement, patient education, self-management and compliance to preventive services	
7. Developing best practice for coordinating with other PPS's using the MIX	<p>The intention of this Milestone was to utilize a forum to communicate with other NY PPS's regarding best practices. In fall of 2015, accounts were created on the MIX for all 4.b.ii. members at that time. The MIX website was transitioned to LinkedIn several months ago. The project work group developed a project specific page, joined the NYS DSRIP page, and will continue to track and monitor for postings. We will coordinate with other PPS's as appropriate. Task 4 "Develop and implement webinars for the project work group based on topics that come out of the MIX around best practices" has been placed on hold. This task is not relevant to completion of the milestone, as the workforce committee for MS PPS helps develop training for PPS members and due to the multitude of other forums from which to draw material around best practices. At this time, we consider this milestone complete and will monitor LinkedIn through the remainder of the DSRIP years.</p>
8. Establishing Quality Improvement (QI) Teams to manage implementation pieces that require technical support	
9. Increasing access and availability to services

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Project 4.c.ii – Increase early access to, and retention in, HIV care

✔ IPQR Module 4.c.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1. Individuals may not feel welcomed by providers/healthcare centers. There may also be continued resistance from some providers who inappropriately perceive they have sufficient knowledge to provide quality PEP, PrEp and/or primary care. We will work with other PPS organizations that have experience with outreach, community engagement programs that attract targeted populations, and peer education models. We will increase cultural competency training for medical providers and health services staff and use the participation of members of the target populations in the development and distribution of educational and promotional materials.
2. Funds and resources must be aligned to support needed 4cii services. Resources will be aligned to support services; Funds appropriated based on need to ensure desired outcomes. Patients will be screened for insurance eligibility and enrollment into exchange or other coverage. Uninsured partners linked to enrollers and patient assistance programs. Provide Technical Assistance to implement Sexually Transmitted Infection rapid testing through stand-alone services. Training provided on increasing 3rd party billing revenues.
3. Clinical providers and CBOs work in silos, hindering collaboration and integration. Share/align information/message among CBOs, private sector, RHIOs, and HEALTHX using open forums (MRT Exchange), best practices and resources/tools. Establish relationships with training centers and other grant funded projects. Cross collaborate with city-wide PPSs and other PPS projects to increase resource and funding opportunities; as well as increase the menu of service options for providers.
4. Currently there is no standardized certification criteria and no funding stream for peer health navigators. Create and resource peer credentialing that is integrated into DSRIP care teams, providing health education; case finding; enrollment; referral follow-up; escorts to appointments; adherence support.
5. Current HIV practitioners are aging and retiring. Young physicians replacing them generally lack the knowledge necessary to treat the disease. There is also a lack of incentives to treat HIV patients. Create HIV and cultural competency trainings for providers, using a Model of assessment, training, and ongoing implementation. Use existing training resources from CBOs, NYS, and NYC DOH. Promote NYSDOH SNP standards for HIV PCP credentialing for all MCO plans. Incorporate HIV continuum of care and treatment cascades in PPS activities and provide technical assistance for utilizing data such as VL and adherence monitoring. Trainings will incorporate information on End of AIDS campaign. Require all providers to achieve standard certifications attained via state and AAHIVM.
6. Enhance IT capacity to increase the quality of HIV care: Limited IT expertise and use of tech tools across PPS. Use capital requests for user friendly, integrated system and capacity building (equipment/staff training) for all PPS partners. Develop IT training programs for patients i.e. education on accessing charts on their smartphones/computers. Staff training will provide IT skills, tech support and incentives to use new technology.
7. Create safe environment for HIV community. Move to strength based approach in one-to-one interactions, group settings and marketing. Adapt language to create positive engagement and response. Develop materials for both individual and group interventions to address prevention, empowerment, disclosure, and assertiveness in negotiating with providers, at a minimum. Train providers about communication to increase patient's comfort and security to improve visit engagement and treatment discussion. Use peer educators to teach, encourage and empower patients.

Attestation

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Mount Sinai PPS, LLC ', that all information provided on this Quarterly report is true and accurate to the best of my knowledge, and that, following initial submission in the current quarterly reporting period as defined by NY DOH, changes made to this report were pursuant only to documented instructions or documented approval of changes from DOH or DSRIP Independent Assessor.

Primary Lead PPS Provider:	MOUNT SINAI HOSPITAL
Secondary Lead PPS Provider:	
Lead Representative:	Jill Huck

Section	Module Name / Milestone #	Review Status	
Section 01	Module 1.1 - PPS Budget - Waiver Revenue (Baseline) - READ ONLY	Pass & Ongoing	
	Module 1.2 - PPS Budget - Waiver Revenue (Quarterly)	Pass & Ongoing	
	Module 1.3 - PPS Flow of Funds - Waiver Revenue (Baseline) - READ ONLY	Pass & Ongoing	
	Module 1.4 - PPS Flow of Funds - Waiver Revenue (Quarterly)	Pass & Ongoing	
	Module 1.5 - Prescribed Milestones		
	Milestone #1 Complete funds flow budget and distribution plan and communicate with network	Pass & Complete	
	Module 1.7 - PPS Budget - Non-Waiver Revenue (Baseline)	Pass & Ongoing	
	Module 1.8 - PPS Budget - Non-Waiver Revenue (Quarterly)	Pass & Ongoing	
	Module 1.9 - PPS Flow of Funds - Non-Waiver Revenue (Baseline)	Pass & Ongoing	
	Module 1.10 - PPS Flow of Funds - Non-Waiver Revenue (Quarterly)	Pass & Ongoing	
Section 02	Module 2.1 - Prescribed Milestones		
	Milestone #1 Finalize governance structure and sub-committee structure	Pass & Complete	
	Milestone #2 Establish a clinical governance structure, including clinical quality committees for each DSRIP project	Pass & Complete	
	Milestone #3 Finalize bylaws and policies or Committee Guidelines where applicable	Pass & Complete	
	Milestone #4 Establish governance structure reporting and monitoring processes	Pass & Complete	
	Milestone #5 Finalize community engagement plan, including communications with the public and non-provider organizations (e.g. schools, churches, homeless services, housing providers, law enforcement)	Pass & Complete	
	Milestone #6 Finalize partnership agreements or contracts with CBOs	Pass & Complete	
	Milestone #7 Finalize agency coordination plan aimed at engaging appropriate public sector agencies at state and local levels (e.g. local departments of health and mental hygiene, Social Services, Corrections, etc.)	Pass & Ongoing	
	Milestone #8 Finalize workforce communication and engagement plan	Pass & Complete	
Milestone #9 Inclusion of CBOs in PPS Implementation.	Pass & Complete		
Section 03	Module 3.1 - Prescribed Milestones		
	Milestone #1 Finalize PPS finance structure, including reporting structure	Pass & Complete	
	Milestone #2 Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	Pass & Complete	

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Section	Module Name / Milestone #	Review Status	
	Milestone #3 Finalize Compliance Plan consistent with New York State Social Services Law 363-d	Pass & Complete	
	Milestone #4 Develop detailed baseline assessment of revenue linked to value based payment, preferred compensation modalities for different provider types and functions, and MCO strategy for the PPS and for facilitating network partner engagement with the MCOs.	Pass & Ongoing	
	Milestone #5 Finalize a plan towards achieving 80% value-based payments across network by year 5 of the waiver at the latest, including efforts to educate PPS network partners on VBP, organizational models to support VBP contracting such as ACOs and IPAs, and to facilitate network partner engagement with MCOs.	Pass & Ongoing	
	Milestone #6 ≥10% of total MCO-PPS payments (in terms of total dollars) captured in at least Level 1 VBPs	Pass & Ongoing	
	Milestone #7 ≥50% of total MCO-PPS payments (in terms of total dollars) captured in at least Level 1 VBPs, and ≥ 8%* (blended for 15% target for fully capitated plans (MLTC and SNPS) and 5% target for not fully capitated plans) of total MCO payments captured in VBPs has to be in Level 2 VBPs or higher	Pass & Ongoing	
	Milestone #8 ≥80% of total MCO payments (in terms of total dollars) captured in at least Level 1 VBPs, and ≥ 20%* (blended for 35% target for fully capitated plans (MLTC and SNPS) and 15% target for not fully capitated plans) of total MCO payments captured in VBPs has to be in Level 2 VBPs or higher	Pass & Ongoing	
Section 04	Module 4.1 - Prescribed Milestones		
	Milestone #1 Finalize cultural competency / health literacy strategy.	Pass & Complete	
	Milestone #2 Develop a training strategy focused on addressing the drivers of health disparities (beyond the availability of language-appropriate material).	Pass & Complete	
Section 05	Module 5.1 - Prescribed Milestones		
	Milestone #1 Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	Pass & Complete	
	Milestone #2 Develop an IT Change Management Strategy.	Pass & Ongoing	
	Milestone #3 Develop roadmap to achieving clinical data sharing and interoperable systems across PPS network	Pass & Ongoing	
	Milestone #4 Develop a specific plan for engaging attributed members in Qualifying Entities	Pass & Ongoing	
	Milestone #5 Develop a data security and confidentiality plan.	Pass & Complete	
Section 06	Module 6.1 - Prescribed Milestones		
	Milestone #1 Establish reporting structure for PPS-wide performance reporting and communication.	Pass & Ongoing	
	Milestone #2 Develop training program for organizations and individuals throughout the network, focused on clinical quality and performance reporting.	Pass & Ongoing	
Section 07	Module 7.1 - Prescribed Milestones		
	Milestone #1 Develop Practitioners communication and engagement plan.	Pass & Ongoing	

**New York State Department Of Health

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Section	Module Name / Milestone #	Review Status	
	Milestone #2 Develop training / education plan targeting practioners and other professional groups, designed to educate them about the DSRIP program and your PPS-specific quality improvement agenda.	Pass & Ongoing	
Section 08	Module 8.1 - Prescribed Milestones		
	Milestone #1 Develop population health management roadmap.	Pass & Ongoing	
	Milestone #2 Finalize PPS-wide bed reduction plan.	Pass & Ongoing	
Section 09	Module 9.1 - Prescribed Milestones		
	Milestone #1 Perform a clinical integration 'needs assessment'.	Pass & Ongoing	
	Milestone #2 Develop a Clinical Integration strategy.	Pass & Ongoing	
Section 11	Module 11.1 - Workforce Strategy Spending (Baseline)	Pass & Complete	
	Module 11.2 - Prescribed Milestones		
	Milestone #1 Define target workforce state (in line with DSRIP program's goals).	Pass & Ongoing	
	Milestone #2 Create a workforce transition roadmap for achieving defined target workforce state.	Pass & Ongoing	
	Milestone #3 Perform detailed gap analysis between current state assessment of workforce and projected future state.	Pass & Ongoing	
	Milestone #4 Produce a compensation and benefit analysis, covering impacts on both retrained and redeployed staff, as well as new hires, particularly focusing on full and partial placements.	Pass & Complete	
	Milestone #5 Develop training strategy.	Pass (with Exception) & Ongoing	
	Module 11.10 - Staff Impact	Pass & Ongoing	
	Module 11.11 - Workforce Strategy Spending (Quarterly)	Pass & Ongoing	

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Project ID	Module Name / Milestone #	Review Status	
2.a.i	Module 2.a.i.2 - Prescribed Milestones		
	Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	Pass & Ongoing	
	Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	Pass & Ongoing	
	Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	Pass & Ongoing	
	Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	Pass & Ongoing	
	Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Ongoing	
	Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	Pass & Ongoing	
	Milestone #8 Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.	Pass & Ongoing	
	Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	Pass & Ongoing	
	Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	Pass & Ongoing	
Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.	Pass & Ongoing		
2.b.iv	Module 2.b.iv.2 - Patient Engagement Speed	Fail	
	Module 2.b.iv.3 - Prescribed Milestones		
	Milestone #1 Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.	Pass & Ongoing	
	Milestone #2 Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.	Pass & Ongoing	
	Milestone #3 Ensure required social services participate in the project.	Pass & Ongoing	

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Project ID	Module Name / Milestone #	Review Status	
	Milestone #4 Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.	Pass & Ongoing	
	Milestone #5 Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.	Pass & Ongoing	
	Milestone #6 Ensure that a 30-day transition of care period is established.	Pass & Ongoing	
	Milestone #7 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
2.b.viii	Module 2.b.viii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.viii.3 - Prescribed Milestones		
	Milestone #1 Assemble Rapid Response Teams (hospital/home care) to facilitate patient discharge to home and assure needed home care services are in place, including, if appropriate, hospice.	Pass & Ongoing	
	Milestone #2 Ensure home care staff have knowledge and skills to identify and respond to patient risks for readmission, as well as to support evidence-based medicine and chronic care management.	Pass & Ongoing	
	Milestone #3 Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	Pass & Ongoing	
	Milestone #4 Educate all staff on care pathways and INTERACT-like principles.	Pass & Ongoing	
	Milestone #5 Develop Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	Pass & Ongoing	
	Milestone #6 Create coaching program to facilitate and support implementation.	Pass & Ongoing	
	Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.	Pass & Ongoing	
	Milestone #8 Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.	Pass & Ongoing	
	Milestone #9 Utilize telehealth/telemedicine to enhance hospital-home care collaborations.	Pass & Ongoing	
	Milestone #10 Utilize interoperable EHR to enhance communication and avoid medication errors and/or duplicative services.	Pass & Ongoing	
	Milestone #11 Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	Pass & Ongoing	
Milestone #12 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing		
2.c.i	Module 2.c.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.c.i.3 - Prescribed Milestones		
	Milestone #1 Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.	Pass & Ongoing	
	Milestone #2 Develop a community care resource guide to assist the community resources and ensure compliance with protocols, under direction from a collaborating program oversight group of medical/behavioral health, community nursing, and social support services providers.	Pass & Ongoing	

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Mount Sinai PPS, LLC (PPS ID:34)

Project ID	Module Name / Milestone #	Review Status	
	Milestone #3 Recruit for community navigators, ideally spearheaded by residents in the targeted area to ensure community familiarity.	Pass & Ongoing	
	Milestone #4 Resource appropriately for the community navigators, evaluating placement and service type.	Pass & Ongoing	
	Milestone #5 Provide community navigators with access to non-clinical resources, such as transportation and housing services.	Pass & Ongoing	
	Milestone #6 Establish case loads and discharge processes to ensure efficiency in the system for community navigators who are following patients longitudinally.	Pass & Ongoing	
	Milestone #7 Market the availability of community-based navigation services.	Pass & Ongoing	
	Milestone #8 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
3.a.i	Module 3.a.i.2 - Patient Engagement Speed	Pass & Ongoing	 
	Module 3.a.i.3 - Prescribed Milestones		
	Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating eligible primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	Pass & Ongoing	
	Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.	Pass & Ongoing	
	Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	Pass & Ongoing	
	Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #5 Co-locate primary care services at behavioral health sites.	Pass & Ongoing	
	Milestone #6 Develop collaborative evidence-based standards of care including medication management and care engagement process.	Pass & Ongoing	
	Milestone #7 Conduct preventive care screenings, including physical and behavioral health screenings.	Pass & Ongoing	
	Milestone #8 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #9 Implement IMPACT Model at Primary Care Sites.	Pass & Ongoing	
	Milestone #10 Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.	Pass & Ongoing	
	Milestone #11 Employ a trained Depression Care Manager meeting requirements of the IMPACT model.	Pass & Ongoing	
	Milestone #12 Designate a Psychiatrist meeting requirements of the IMPACT Model.	Pass & Ongoing	
	Milestone #13 Measure outcomes as required in the IMPACT Model.	Pass & Ongoing	
Milestone #14 Provide "stepped care" as required by the IMPACT Model.	Pass & Ongoing		
Milestone #15 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing

	Module 3.a.iii.3 - Prescribed Milestones		
	Milestone #1 Develop a medication adherence program to improve behavioral health medication adherence through culturally-competent health literacy initiatives including methods based on the Fund for Public Health NY's Medication Adherence Project (MAP).	Pass & Ongoing	
	Milestone #2 Form care teams including practitioners, care managers including Health Home care managers, social workers and pharmacists who are engaged with the behavioral health population.	Pass & Ongoing	
	Milestone #3 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #4 Coordinate with Medicaid Managed Care Plans to improve medication adherence.	Pass & Ongoing	
3.b.i	Module 3.b.i.2 - Patient Engagement Speed	Fail	
	Module 3.b.i.3 - Prescribed Milestones		
	Milestone #1 Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	Pass & Ongoing	
	Milestone #2 Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	Pass & Ongoing	
	Milestone #3 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or ACPM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #5 Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	Pass & Ongoing	
	Milestone #6 Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	Pass & Ongoing	
	Milestone #7 Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.	Pass & Ongoing	
	Milestone #8 Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	Pass & Ongoing	
	Milestone #9 Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.	Pass & Ongoing	
	Milestone #10 Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.	Pass & Ongoing	
	Milestone #11 Prescribe once-daily regimens or fixed-dose combination pills when appropriate.	Pass & Ongoing	
Milestone #12 Document patient driven self-management goals in the medical record and review with patients at each visit.	Pass & Ongoing		
Milestone #13 Follow up with referrals to community based programs to document participation and behavioral and health	Pass & Ongoing

	status changes.		
	Milestone #14 Develop and implement protocols for home blood pressure monitoring with follow up support.	Pass & Ongoing	
	Milestone #15 Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.	Pass & Ongoing	
	Milestone #16 Facilitate referrals to NYS Smoker's Quitline.	Pass & Ongoing	
	Milestone #17 Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases.	Pass & Ongoing	
	Milestone #18 Adopt strategies from the Million Hearts Campaign.	Pass & Ongoing	
	Milestone #19 Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.	Pass & Ongoing	
	Milestone #20 Engage a majority (at least 80%) of primary care providers in this project.	Pass & Ongoing	
3.c.i	Module 3.c.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.c.i.3 - Prescribed Milestones		
	Milestone #1 Implement evidence-based best practices for disease management, specific to diabetes, in community and ambulatory care settings.	Pass & Ongoing	
	Milestone #2 Engage at least 80% of primary care providers within the PPS in the implementation of disease management evidence-based best practices.	Pass & Ongoing	
	Milestone #3 Develop care coordination teams (including diabetes educators, nursing staff, behavioral health providers, pharmacy, community health workers, and Health Home care managers) to improve health literacy, patient self-efficacy, and patient self-management.	Pass & Ongoing	
	Milestone #4 Develop "hot spotting" strategies, in concert with Health Homes, to implement programs such as the Stanford Model for chronic diseases in high risk neighborhoods.	Pass & Ongoing	
	Milestone #5 Ensure coordination with the Medicaid Managed Care organizations serving the target population.	Pass & Ongoing	
	Milestone #6 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #7 Meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3 for EHR systems used by participating safety net providers.	Pass & Ongoing	
4.b.ii	Module 4.b.ii.2 - PPS Defined Milestones	Pass & Complete	
4.c.ii	Module 4.c.ii.2 - PPS Defined Milestones	Pass & Ongoing

Additional Project Scale Commitments

Instructions:

Please indicate the scale of the categories below that meet all of the project requirements committed to in the Project Plan Application. Documentation must be submitted in Excel format in the quarter when the PPS provider speed commitments for a particular project are due. This documentation should include the target category(e.g. Medical Villages, Emergency Departments with Care Triage, Community-based navigators, etc.), the project ID(e.g. 2.a.iv,2.a.v,3.a.ii, etc.), and the name of the providers/entities/individuals associated with this project, if applicable.
