## Public Health Reporting ListSERV: 02/27/2017

EHR Incentive Program Public Health  
Reporting Objective

### New Registry Available for Eligible Hospitals Inside the 5 Boroughs of NYC

Eligible Hospitals (EHs) inside the five boroughs of NYC may now report to the Electronic Case Reporting (ECR) Registry, with the NYC Department of Health and Mental Hygiene (NYC DOHMH). EHs who wish to report to the registry should update their registration of intent and choose "Yes", they intend to submit electronic data to the "Electronic Case Reporting" registry in the Meaningful Use Registration for Public Health (MURPH) System.

Active engagement with the [ECR Registry](#) can count as meeting the Specialized Registry Reporting Measure for Meaningful Use Modified Stage 2 of the EHR Incentive Programs.

### Review or Submit the Public Health Reporting Registration of Intent for 2017

We highly encourage all providers who have previously registered intent for the Public Health Reporting Objective to review their registration and make any necessary updates. Providers who have not yet submitted a registration should keep in mind that the registration of intent must be completed within 60 days of the start of their chosen EHR Reporting Period.

The registration of intent is completed in the Meaningful Use Registration for Public Health (MURPH) System, which is hosted on the NYSDOH [Health Commerce System \(HCS\)](#). Please note that only one registration must be submitted and providers should update any existing registration, rather than submitting a new one. Please see the registration guides for additional information on creating a new or modifying an existing registration.

#### Resources

The purpose of this ListSERV is to offer providers, vendors, and other subscribers the opportunity to receive notifications regarding the EHR Incentive Program Public Health Reporting Objective. These email notifications are provided as a free service to subscribers and the notifications will contain information on the Medicare and Medicaid EHR Incentive Programs. This includes information on updates, changes, and initiatives that may impact the provider community.

This notification serves as an informational reference for providers participating in the NY Medicaid or Medicare EHR Incentive Programs. Although reasonable effort has been made to ensure the accuracy of the information within this document at the time of posting, it is the responsibility of each provider to comply with the current policies and requirements of the program.
