

# Driving Impact: Social Care Networks

With the nation's largest integrated Social Care Networks, New York State is leading the way — pioneering an innovative model for funding, coordinating, and delivering evidence-based services to meet Medicaid members' health-related social needs (HRSNs).

## Access to new services

Housing supports

Food and nutrition  
assistance

Transportation

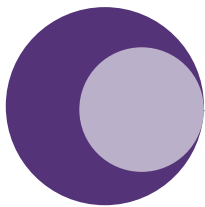

Enhanced Care  
Management

Navigation to new and existing local, state, and federal programs

## Building community networks

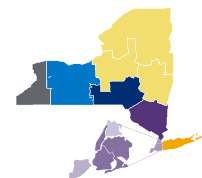

**1100+**  
organizations provide  
screening, navigation, and  
enhanced HRSN services

Of those,  
**435**  
providers offer  
at least **2 or**  
**more** services

**500+**  
community-based  
organizations (CBOs)  
received capacity  
funding to expand  
services

Services are  
available in every  
county of the state

## Reaching Medicaid members

Nearly  
**300,000**  
members have been  
screened

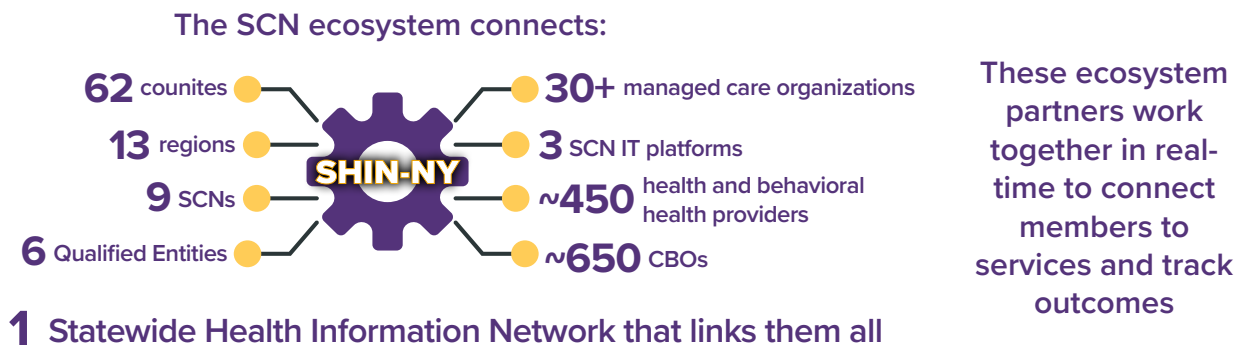

**2X**

growth in weekly  
screening rates from  
June-August 2025

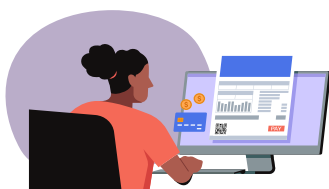

**1500+**  
social care navigators  
connecting members to  
services

## Connecting systems

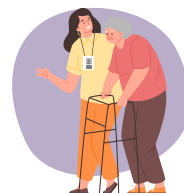

## Member voices

“I reached out after finding out about this program through my health insurance. I’m now getting help covering my light bill. The process was simple and manageable. It’s given me space to focus on my family and other responsibilities.” *New York City*

“I became homeless. When I told the navigator my situation, they helped me get into a place. The program did my deposit and first month rent. I was so grateful.” *North Country*

“I didn’t know about this program until it was mentioned by my doctor, and it has been very helpful with food and support for me finding work ... it really has made a difference.” *Staten Island*

“After working with the SCN, I was connected to enhanced housing services and now have a safe home for my granddaughter and me.” *Long Island*
