

# SOCIAL CARE NETWORKS (VBP ROADMAP)

Previous VBP Roadmaps required Level 2 and above VBP arrangements to implement at least one intervention that addresses social care needs and incorporate Community Based Organizations (CBOs) in contracting. With the inception the 1115 Waiver and the formation of regional Social Care Networks (SCNs) beginning January 2025 this requirement is no longer mandatory. SCNs VBP arrangement requirements will be evaluated when SCN infrastructure is established and SCNs are able to perform as VBP Contractors.
