

Ride Restrained

Gather round ladies and gentlemen
Hop right up into your booster seats

All you kids out there who are up to 4'9" tall
And weighing in at 80 pounds or under
C'mon y'all gotta be good role models, you see
For the future booster users of the world
Y'all gotta set a good example c'mon and

CHORUS:

You got to ride restrained in your booster seat
Ride restrained--it's the safest way to be
Ride restrained in your booster seat
'Cause booster seats ain't baby seats
They're big kids' seats, baby
Booster seats, they'll lift you up
So you'll fit in properly
Booster seats ain't baby seats
They're big kids' seats, baby
Booster seats, they'll lift you up
So you can look out the window and see

Now when we say the word restrained, we mean
to keep under control (Oh, Yeah) that's restrained.

It's always been clear to me
That riding in the back seat is the safest place to be
And it makes the whole world
A whole lot easier to see
Just hop right up, sit right back
Strap the seatbelt across your chest and lap
Enjoy the ride, enjoy the view
You made the right choice
When y'all chose to

CHORUS:

Ride restrained in your booster seat
Ride restrained--it's the safest way to be
Ride restrained in your booster seat
'Cause booster seats ain't baby seats
They're big kids' seats, baby
Booster seats, they'll lift you up
So you fit in properly

'Cause booster seats ain't baby seats
They're big kids' seats, baby
Booster seats, they'll lift you up
So you can look out the window and see
