ACKNOWLEDGEMENTS

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer and Worker Protection (formerly the New York City Department of Consumer Affairs) and the youth who participated in the access compliance check surveillance program. For more than 24 years, these dedicated agencies and individuals have been the leaders in the State's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other State agencies and other programs within the Department of Health. The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco and vapor product use and trends among youth. The State Department of Taxation and Finance provided registration and revenue data. The New York State Division of Homeland Security and Emergency Services supplied data regarding tobacco related fires.

PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act (ATUPA) is to aid in reducing morbidity and mortality caused by tobacco and vapor product use by reducing children's access to tobacco and vapor products. It has been well documented that most smokers begin before they are 18 years old, and around 1,500 youth smoke their first cigarette each day in the U.S. Many people who start smoking as youth find it difficult to quit smoking during their lifetime. For more than 24 years, State and local enforcement officials have been focused on reducing youth access to tobacco and other restricted products and on improving retailer compliance with ATUPA.

ATUPA requires retailers to obtain proof that the person buying tobacco and other restricted products is of the State minimum sales age. ATUPA was amended in 2019, raising the State minimum sales age from 18 to 21 years of age, effective November 13, 2019. Retailers found in violation of this law are subject to fines and, in the case of repeated violations, also subject to the loss of their tobacco and vapor product licenses, as well as lottery licenses. The law also limits the location of vending machines, limits the venues in which free tobacco and vapor products can be distributed, and contains other provisions aimed at making tobacco and vapor products less accessible to youth, a significant component of the State's comprehensive anti-smoking and anti-vaping program.

This Annual Report is prepared by the Tobacco Enforcement Program, located in the New York State Department of Health (NYSDOH) Center for Environmental Health. The report covers the period April 1, 2020 to March 31, 2022 and includes the following information:

- Number of retailer compliance checks that were conducted;
- Name and address of retailers who violated ATUPA regulations and were penalized;
- New York State results of 2021 Youth Risk Behavior Survey (YRBS);
- Tobacco and vapor product sales data from the New York State Department of Taxation and Finance (DTF); and
- Tobacco related fire injury data from the Department of State's Fire Reporting System.

During the 2020 – 2022 program years, State and local enforcement officers conducted 34,709 inspections of tobacco and vapor product retailers to assess compliance with ATUPA. Of these inspections, more than 12,081 included unannounced compliance checks where youth attempted to purchase tobacco and other restricted products under the supervision of the enforcement officials. An additional 22,628 visits were made to determine compliance with NYSDOH requirements (i.e., signage, product location, package size, flavored vapor products, price reduction instruments, advertisement and paraphernalia displays, vending machine location and supervision, etc.), to educate retailers about the Public Health Law (PHL), to investigate complaints of PHL violations, and to evaluate DTF registration requirements. A total of 1,763 enforcement actions were taken for noncompliance with ATUPA and more than \$5.3 million in fines were assessed during this period.

In the last 24 program years, State grants totaling nearly \$113 million have been awarded to local enforcement officials to implement the Tobacco Enforcement Program. From September 1997 to March 2022, more than \$47 million in fines have been levied against 53,586 retailers for violating the ATUPA regulations. The DTF has suspended the registrations of 3,754 tobacco and vapor product retailers as a result of multiple enforcement actions for violating the ATUPA regulations. There were also 1,011 lottery agent licenses suspended by the State Gaming Commission for multiple violations of ATUPA regulations. Of the 812,049 compliance inspections that have taken place during the 24 years, 579,430 (71.35%) were conducted with the assistance of youth attempting to purchase tobacco and vapor products.

Program Overview

In March 2022, the NYSDOH completed its twenty-fourth year of implementing the statewide tobacco enforcement program. As part of the State's continued commitment to tobacco control efforts, \$4.7 million was awarded to local enforcement officers in 2020-2021 and 2021-2022 to enforce retail compliance with Article 13-F of the Public Health Law, also known as the ATUPA.

The tobacco enforcement program is part of the State's comprehensive commercial tobacco control initiative, the New York State Tobacco Control Program (TCP), administered by the Bureau of Tobacco Control (BTC) in NYSDOH. In 2020-2021, the TCP was funded through a state appropriation of \$39.7 million, and in 2021-2022, the TCP was funded through a State appropriation of \$39.8. In both years, the Centers for Disease Control and Prevention (CDC) provided federal grants of \$2.9 million to the program.

The TCP's strategic and comprehensive evidence-based, population-level, and policy-driven interventions strive to accelerate tobacco control and prevention in New York State, with a focus on communities disproportionately targeted by tobacco industry marketing, use, and related health consequences, including people with lower income, people of color, people who identify as LGBTQIA+, people with a disability, and people living with a mental illness and substance use disorders. The goals of the program are to prevent the initiation of tobacco and nicotine use, including the use of e-cigarettes and other vapor products, among youth and young adults, increase tobacco and nicotine cessation among adults and youth, and eliminate exposure to secondhand smoke and e-cigarette emissions.

The BTC funds and manages statewide and community programs to work towards achieving environmental change on the State and local levels and expand treatment for tobacco use disorder by medical and mental health care systems:

Statewide and local level actions are used to change the community environment to support and reinforce the State's tobacco-free and vape-free norm and denormalize tobacco and vapor product use through education and community and organizational mobilization. BTC funds the Advancing Tobacco-Free Communities (ATFC) program, which uses a bilateral approach of community engagement and youth action, the latter branded as Reality Check. Community engagement entails educating local community members, organizations, employers, decision-makers, and policymakers about the harms of tobacco and nicotine use and secondhand smoke exposure to change public opinion about tobacco and tobacco use. Grantees implement a coordinated set of evidence-based strategies to build public and organizational support to foster environments that demand policy change to reduce the impact of the tobacco industry's egregious tobacco and vapor product marketing on youth and populations of focus and eliminate secondhand smoke exposure where people live, learn, work, and play, including in multiunit dwellings and outdoor spaces. Reality Check is a youth-led, adult-supported movement that engages youth, ages 13 – 18, from diverse economic and cultural backgrounds to change community norms about tobacco and e-cigarette use. Reality Check works to achieve this goal through activities aimed at deglamorizing and denormalizing e-cigarette and tobacco use and by exposing the tobacco industry's manipulative and deceptive marketing practices. Youth engage in civic action, such as community education linked to social action, media advocacy, community and media events, and advocacy with organizational decision-makers, to advance tobacco-free and vape-free norms.

Health systems transformation strategies address treatment for tobacco use disorders from a health systems and organizational perspective. BTC funds Health Systems for a Tobacco-Free NY grantees to work with medical and mental health care system administrators to adopt and implement policies that increase the routine provision of evidence-based, guideline-concordant assessment and treatment for tobacco use disorder. The system transformation work prioritizes organizations that primarily serve communities disproportionately affected by tobacco use, including people with lower incomes, lower educational attainment and people living with mental illness and substance use disorders. Organizations establish a comprehensive standard of care that includes a tobacco-user identification system; provides adequate training, resources, and provider feedback; assigns dedicated staff to deliver treatment for tobacco use disorder; and promotes the use of tobacco cessation benefits among enrollees of Medicaid and other health care plans.

The New York State Smokers' Quitline and Quitsite have been an integral part of the TCP for over two decades and are funded by the BTC. The Quitline offers free and confidential expert quit coaching to New Yorkers, ages 13 and older, who use tobacco and vapor products and are contemplating cessation, ready to quit, have already quit, or have relapsed. Information and resources are available to all New Yorkers by phone, text, and online chat. The Quitline also provides free starter kits of nicotine replacement therapy to eligible New Yorkers who smoke or vape. In addition, the Quitline and Quitsite provide support to health care professionals with patient referral programs, e-newsletters, and other resources for both providers and their patients.

Drop the Vape is a free, confidential text messaging program, funded by the BTC, to help New York State youth and young adults quit vaping. This free, confidential text messaging program, designed by the Truth Initiative®, provides messaging created with input from teens, college students, and young adults who have attempted to, or successfully, quit vaping. New York State youth, ages 13-17, and young adults, ages 18-24, can text DropTheVape to 88709 to receive age-appropriate supportive and motivating text messages to support quit efforts. Drop the Vape also directs users to the New York State Quitline for additional support and services.

Mass-reach health communications aim to increase awareness of the dangers of using commercial tobacco, nicotine, and vapor products and exposure to secondhand smoke; motivate people who use tobacco and nicotine to quit; increase the delivery of treatment for tobacco use disorder; provide information about Medicaid smoking and vaping cessation benefits; prevent youth initiation to tobacco, nicotine, and e-cigarettes; expose pernicious tobacco industry propaganda; deglamorize and denormalize tobacco and vapor product use; and educate community members and decision-makers about tobacco control and prevention. Media campaigns aimed at promoting tobacco use cessation include emotionally evocative and graphic depictions of the negative consequences of tobacco use.

Paid media campaigns amplify messages about the harms of tobacco and nicotine use and information about quit assistance and are placed on television, radio, digitally, and social media, and in print, and out-of-home advertising. Campaigns aim to reach and motivate people who use tobacco and nicotine to speak with their health care providers for quit assistance and provide contact information for the New York State Smokers' Quitline. Some media campaigns are geared toward health care professionals to increase awareness about their role as providers of treatment for tobacco use disorder and to increase their knowledge about and use of Medicaid smoking and vaping cessation benefits.

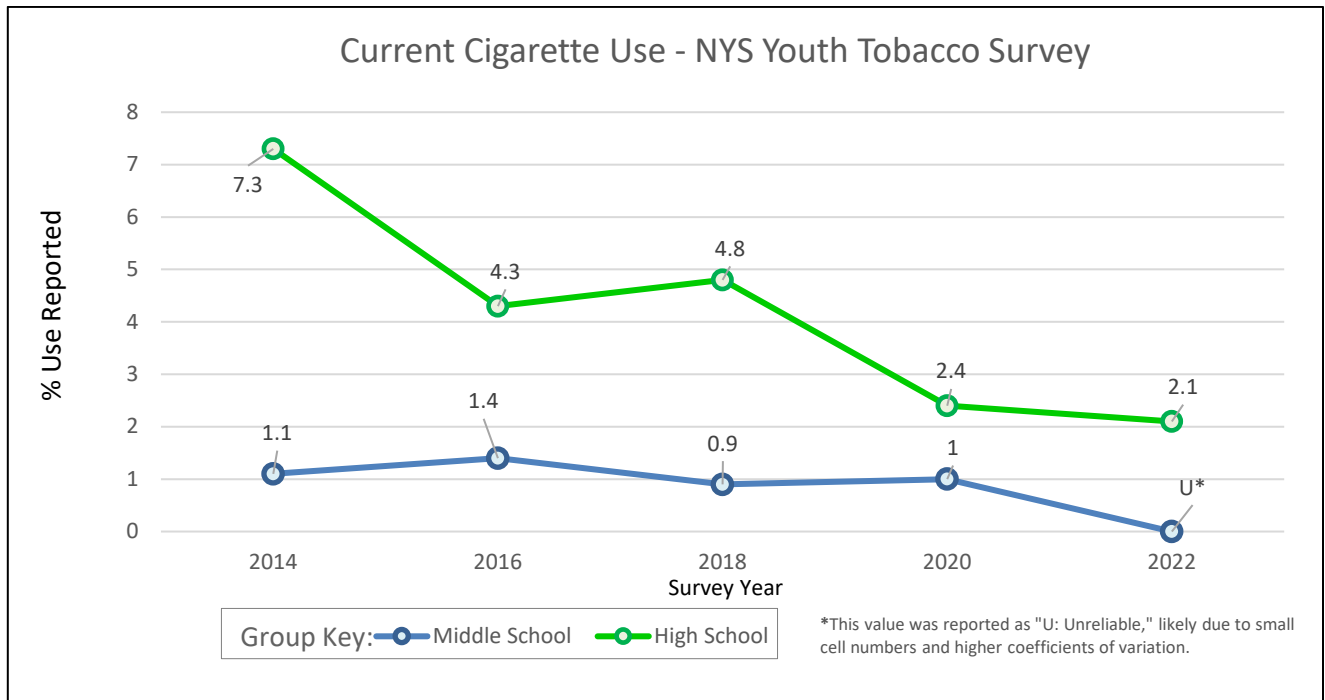

In addition, grantees, Reality Check youth, and mobilized community members and leaders garner earned (i.e., free) media via press releases, opinion pieces, letters to the editor, and hosted events to draw attention to the problems of tobacco and e-cigarette use, tobacco industry marketing, youth

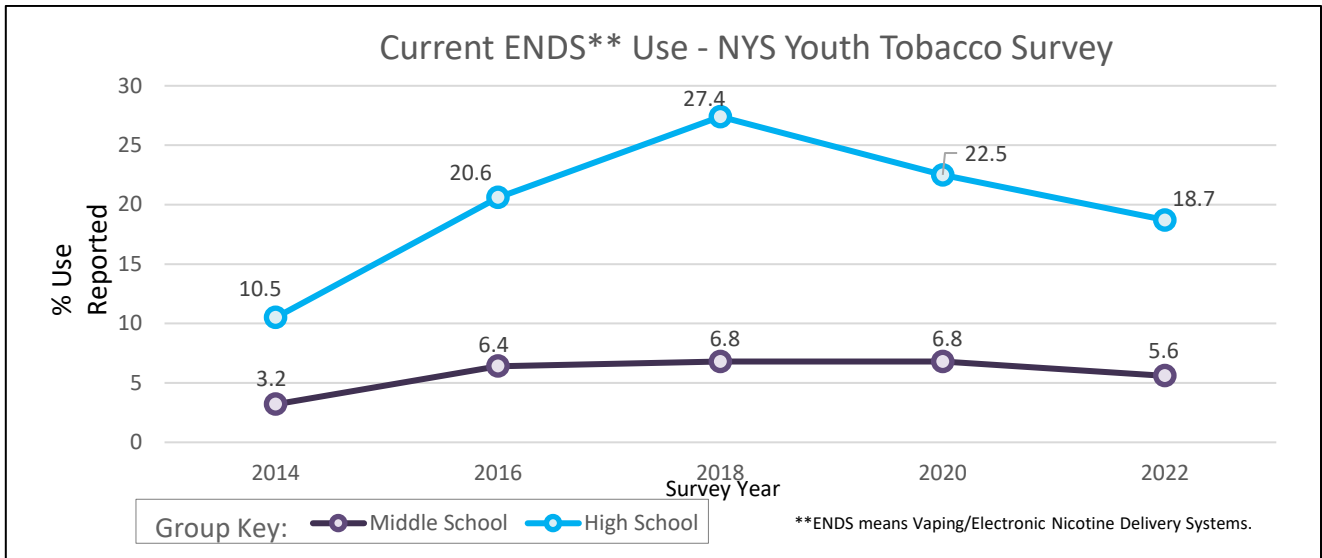

initiation, and secondhand smoke exposure to increase support for policy change that supports the State’s tobacco-free, vape-free norm.

Surveillance and evaluation activities ensure that the TCP uses effective and proven strategies to obtain the goal of a tobacco-free, vape-free New York State. Activities monitor program progress and impact; provide technical assistance and guidance; and manage the effective and efficient investment of state and federal tobacco control funding. Evaluation and survey data from media studies, surveys, and observational projects contribute to the ongoing improvement of the TCP, help focus key messaging, and determine the effective use of media. The TCP contributes to the science of tobacco control through a variety of data collection activities related to program initiatives and the wide dissemination of program findings.

Number of tobacco and vapor product users, and trends among youth

New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco and vapor product use and related behaviors and attitudes for students from grades 6 to 12. The survey includes questions about tobacco and vapor use, exposure to environmental tobacco smoke, minors' ability to purchase or otherwise obtain tobacco and vapor products, knowledge and attitudes about tobacco and vapor products, and familiarity with pro-tobacco/vapor product and anti-tobacco/vapor product media messages. A total of 55 public and parochial schools agreed to participate in the survey, with a total of 4,600 students completing the survey in 2022. The results of the survey are applicable to New York State youth attending middle school or high school. There has been a significant downward trend in the use of cigarettes by high school and middle school students since 2000. Additional data from the 2022 New York State Youth Tobacco Survey are found in Appendix 4.

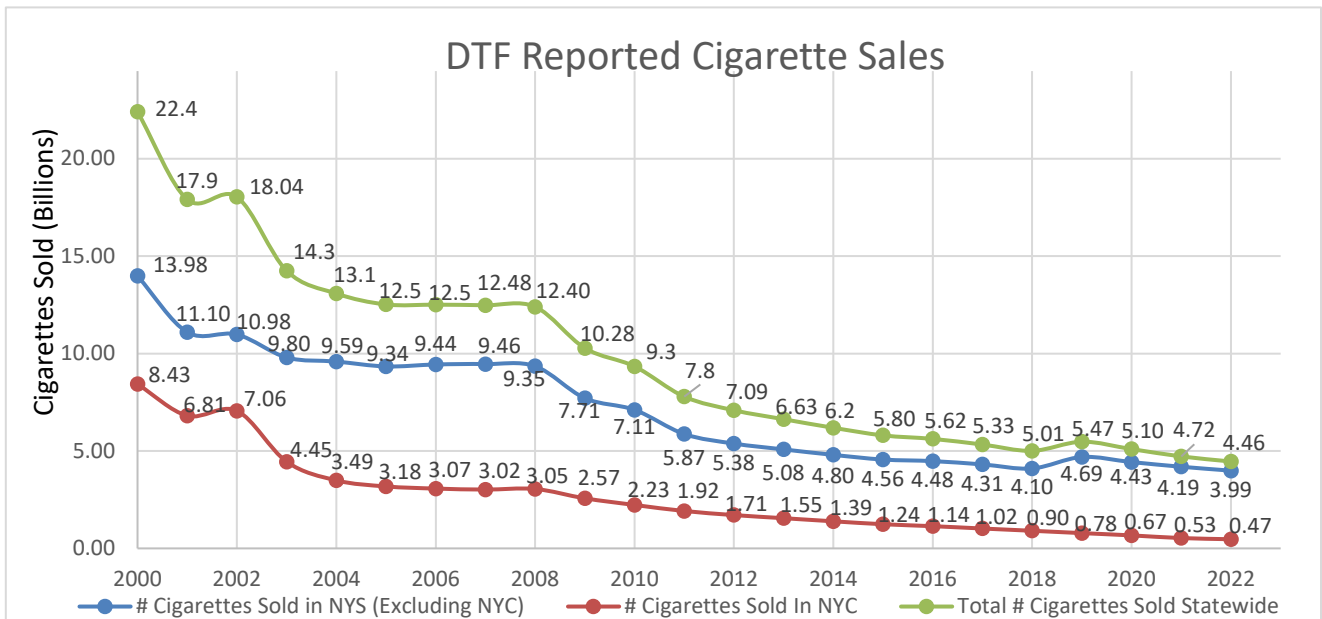

Survey of attitudes and behaviors regarding tobacco use among youth²

The New York State Education Department conducts a CDC funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State schools. The survey contains several questions on youth tobacco and vapor product use and is conducted every two years. For each survey, a new sample of schools and students is selected; student participation is voluntary. New York State data from the YRBS for years 2015, 2017, 2019, and 2021 are included in Appendix 3.

²Data reported by the New York State and New York City Education Departments to the CDC. Additional results are available at: <https://www.cdc.gov/healthyouth/data/yrbs/results.htm>

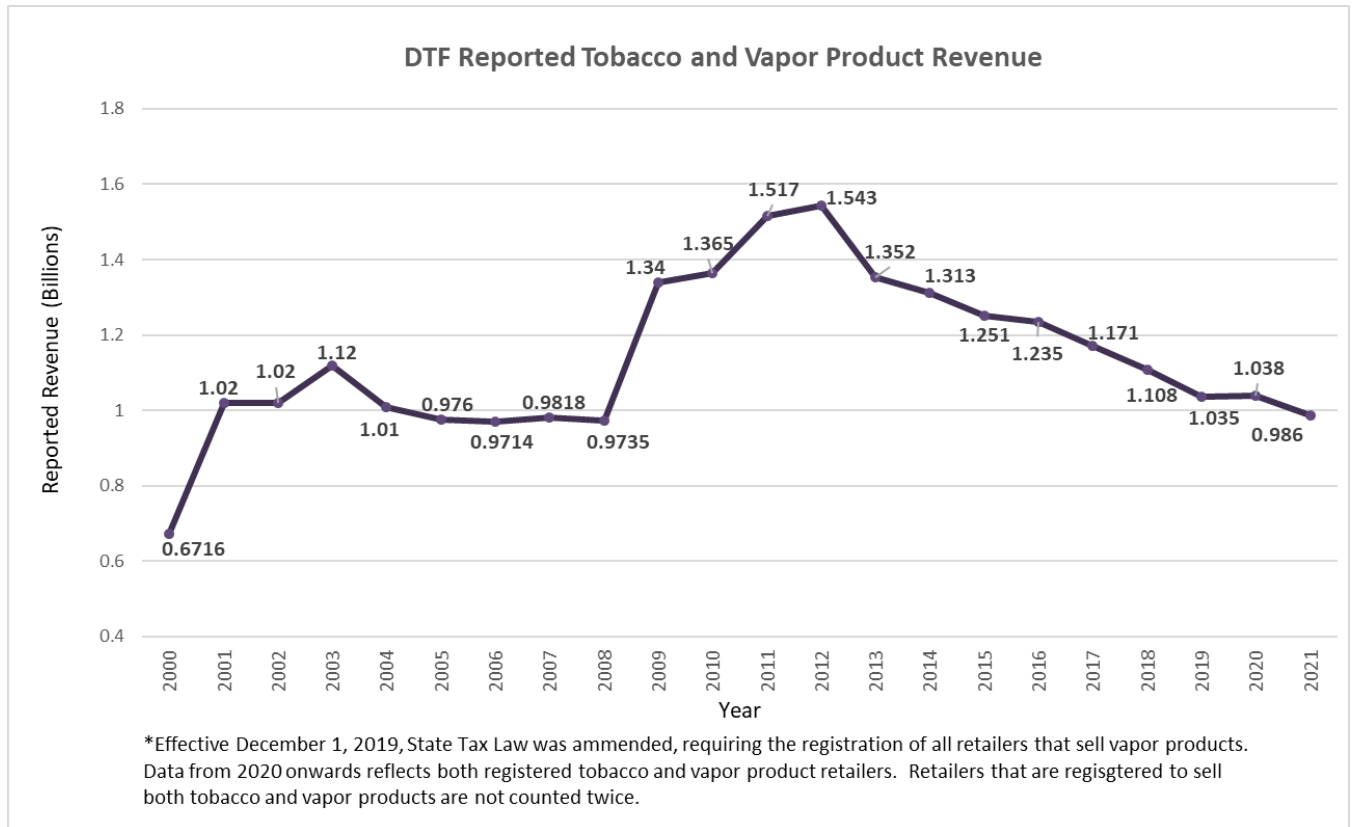

DTF reported number of cigarettes sold

DTF reported that approximately 8.18 billion cigarettes were sold in New York State during the two-year period from April 1, 2020 to March 31, 2022. Of this number, approximately 1 billion were sold in New York City.

DTF reported tax revenue collected

Excluding local sales tax, the tax revenue collected by DTF from the sale of cigarettes, tobacco, and vapor products for the period April 1, 2020 to March 31, 2022 totaled approximately \$2.02 billion from retailer licensure, vending machine registrations, and the excise tax. Retail licensure and vending machine registrations yielded approximately \$71.98 million in this time period. The excise tax on cigarettes yielded approximately \$1.79 billion and taxes on other tobacco and vapor products yielded approximately \$162.47 million in the same time period.

Program Purpose

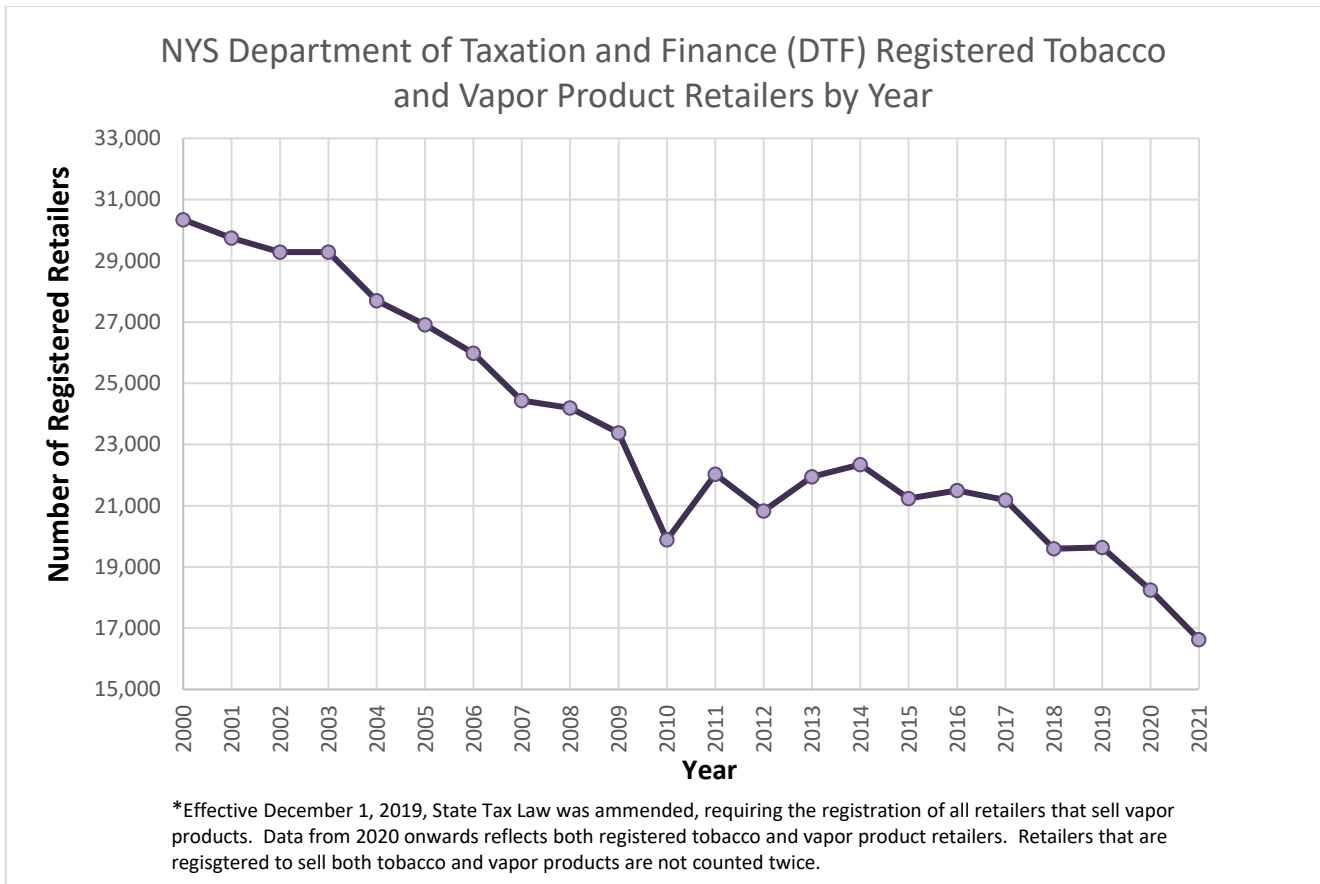

The goal of the Tobacco Enforcement Program is to lower the prevalence of tobacco and vapor product use among youth, by reducing product sales and preventing their use by this population. Specifically, the program seeks to improve tobacco and vapor retailer compliance with ATUPA.

Status and Accomplishments

Reported number of registered tobacco and vapor product retailers

DTF reports the total number of registered tobacco and vapor retailers in New York State, including the total number of registered vending machines. A total of 18,253 tobacco and vapor retailers were registered as of July 2020, and a total of 16,632 were registered as of July 2021.

Number of DTF registered Tobacco and Vapor Product Retailers

Reported number of registered vending machines

The total number of vending machines registered in New York State by DTF was 50 in 2020 and 48 in 2021. This is down from 807 registered in 2010 and considerably lower than the 4,434 registered in 2000.

The Family Smoking Prevention and Tobacco Control Act (Tobacco Control Act; Public Law 111-31; 123 Stat. 1776) was enacted on June 22, 2009, amending the Federal Food, Drug, and Cosmetic Act and providing the U.S. Food & Drug Administration (FDA) with the authority to regulate tobacco products. Effective June 22, 2010, vending machines are only permitted in facilities where no one younger than 18 (now 21) years of age is present or permitted to enter at any time.

Number and type of compliance checks conducted

State and local enforcement officers conducted 34,709 compliance inspections during the time period April 1, 2020 to March 31, 2022. Of these, 12,081 were compliance checks where youth attempted to purchase tobacco and vapor products, and other restricted products. Additional visits were made to determine compliance with NYSDOH requirements (i.e., signage, product location, package size, flavored vapor products, price reduction instruments, advertisement and paraphernalia displays, vending machine location and supervision, etc.), to educate retailers about the Public Health Law (PHL), to investigate complaints of PHL violations, and to evaluate compliance with DTF registration requirements.

During this reporting period, many State and local enforcement officers were redeployed to Covid-19 response activities. This significantly impacted the number of compliance checks performed during this time period. Appendix 1 reflects a county-by-county listing of compliance investigations. Appendix 1-A reflects a county-by-county 5-year summary of the sale to minor violation rate.

Number of complaints filed against tobacco and vapor product retailers

During the time period April 1, 2020 to March 31, 2022, a total of 142 inspections were conducted in response to 115 complaints received concerning potential ATUPA violations. Included in Appendix 1 is a county-by-county breakdown of this data.

Retailers reported by local enforcement officers to have paid fines or were otherwise penalized

During the time period April 1, 2020 to March 31, 2022, State and local enforcement officers initiated 1,763 enforcement actions for ATUPA violations, for which more than \$5,257,449 in fines were assessed. The names and addresses of penalized tobacco and vapor retailers are listed by county in Appendix 2.

Funding disbursement

Appendix 5 lists the funding amounts distributed to 35 county health departments and the New York City Department of Health and Mental Hygiene and the New York City Department of Consumer and Worker Protection to conduct youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with DTF to sell tobacco and vapor products within the local health department's jurisdiction. Nine NYSDOH district offices conducted compliance checks in the 22 upstate counties that do not, or did not elect to, conduct comprehensive enforcement activities in their counties.

Enforcement

During the time period April 1, 2020 to March 31, 2022, a total of 1,996 vendors were reported to DTF for lack of required registration to sell tobacco or vapor products. As a result, DTF verified the status of the facilities, directed unregistered retailers to obtain a registration, and initiated enforcement measures in accordance with the Tax Law.

During compliance checks conducted from April 1, 2020 to March 31, 2022, youth purchased tobacco and vapor products and other restricted products 1,840 times, and 1,763 non-compliant retailers were fined a total of \$5,257,449 for ATUPA violations. Fines collected in this time period totaled \$1,519,283.35.

During the reporting period from April 1, 2020 to March 31, 2022, a total of 140 retailer registrations to sell tobacco and vapor products were suspended by DTF. Of this total, 88 were suspended for six months for multiple sale to youth violations, 44 were suspended for one year for multiple sale to youth or other ATUPA violations, and 8 were permanently revoked for continuing to sell tobacco and vapor products while under suspension. During the same reporting period, 28 lottery agent licenses were suspended by the State Gaming Commission for multiple sale-to-minor violations.

³ The tobacco enforcement program year began following the State Fiscal Year (SFY) in 2012. The program followed the Federal fiscal year prior to this.

⁴ Effective December 1, 2019 State Tax Law was amended, requiring retailers that sell vapor products to be registered. The vapor product retailer information within said registry is shared with the Department of Health, allowing for the performance of checks that evaluate compliance with ATUPA. Vapor Product registrations can be suspended for continued noncompliance.

ATUPA Non-Compliance Rate

The tobacco retailer non-compliance rate for FFY 1998 & 1999 is based on the number of enforcement actions for illegal sales to minors; the 2000-forward rate is based on the actual number of sales to minors.
 * The FFY 2011 contract period covers the 18 months from October 1, 2010 to March 31, 2012.
 ** The tobacco enforcement program year from April 1, 2012 forward follows the State Fiscal Year (SFY). The program followed the Federal fiscal year prior to this.

Challenges and Recommendations

In 1998 the State Tobacco Enforcement Program began enforcing ATUPA, pursuant to Public Health Law Article 13-F. A key tool used in assessing program success is the Retailer Non-Compliance Rate (i.e., # of inspections that result in a minor purchasing a restricted product divided by the # of minor purchase attempts performed, by program year). For 21 program years, the non-compliance rate trended downward and stabilized as tobacco retailers became familiar with ATUPA restrictions and their need to comply with them.

ATUPA was amended in November of 2019, raising the minimum sales age from 18 to 21. Additionally, in December of 2019, the Tax law was amended to require retailers that sell vapor products be registered in the same way as retailers that sell tobacco products are required to be registered. As a result, these retailers became subject to the same compliance inspections as tobacco retailers. At this time, the Retailer Non-Compliance Rate began to significantly reverse. It is probable that both amendments contributed to this increase.

Increased retailer non-compliance requires a significant increase in program effort: enforcement action to penalize the retailers and gain their compliance and an additional inspection of these retailers to verify compliance is achieved and maintained (both enforcement and additional inspections are required under ATUPA when inspections result in a sale). Increased enforcement actions and inspections significantly increases the demand on staff that coordinate and carry out

the inspections, as well as the additional staff needed to coordinate and carry out enforcement actions. Additional funding is necessary to ensure the State Tobacco Enforcement Program can continue to meet its obligations under ATUPA and to ensure resources are adequate to gain retailer compliance and decrease the noncompliance rate.

Appendix Four
 2022 NYS Youth Tobacco Survey
 Middle and High School Students - Ever and Current Use of Tobacco Products

APPENDIX FOUR										
2022 New York State Youth Tobacco Survey										
Middle and High School Students - Ever and Current Use of Tobacco Products										
	Cigarettes		Cigars		Smokeless		ENDS³		Hookah⁴	
	%	± C.I.*	%	± C.I.*	%	± C.I.*	%	± C.I.*	%	± C.I.*
Middle School										
Ever Use	2.7	0.85	1.4	0.55	0.9	0.55	13.3	2.3	2.6	1.25
Current Use	U	-	U	-	U	-	5.6	1.2	0.8	0.3
High School										
Ever Use	10.7	2.65	8.7	1.8	3.2	1.65	34.8	4.25	5.7	1.55
Current Use	2.1	0.95	1.1	0.4	U	-	18.7	2.8	1.3	0.5

*Plus or minus the confidence interval (C.I.) of 95%.

³ENDS (Electronic Nicotine Delivery Systems,) also called electronic cigarettes, are battery powered

⁴The term Hookah refers to a single or multi-stemmed water pipe used for smoking.

U: This value was reported as "U: Unreliable," likely due to small cell numbers and higher coefficients of variation.
