County EMS Plan Framework

Supporting Resource Documents

Attachment 3:

Municipality Data Collection

Comprehensive County Emergency Medical Services System Planning Framework

Pursuant to N.Y. Public Health Law § 3019

Document Use Guide

This attachment is intended to provide a resource document for municipalities to prepare metrics that will later be entered into the portal found on the EMS Forms page of the Department's website. These metrics should be utilized in the development of the County EMS Plan and help to answer several Core Planning Elements as well as supplement any Expanded Planning Elements.

Municipality Data Collection

1. Does the municipality contribute funding directly to EMS services?
2. Presence of a written agreement with municipality for primary EMS transport service(s)?
3. Municipal budget for EMS services in 2025
4. Are there other tax-funded entities that contributed funds to EMS services within the municipality?
 - ☐ Fire District
 - ☐ Ambulance District
 - ☐ Other Special Tax District
8. Who dispatches EMS services within your municipality?
9. Number of calls for EMS services within your municipality?
10. Number of calls processed for this municipality that underwent Emergency Medical Dispatch (EMD) process
11. Presence of tiered response dispatch protocols
12. Presence of real-time unit tracking (AVL)
13. Presence of CAD interoperability between PSAPs
