

**Check the
boxes
that apply
to you.**

- Have multiple sex partners?**
- Recently had a sexually transmitted infection?**
- Don't always use condoms?**

See back to learn more.

If you checked any of the boxes listed, PrEP may be right for you.

If taken as directed, PrEP is 99% effective in preventing you from getting HIV. To learn more, talk to the pharmacist or your health care provider or visit:

PrEPforsex.org

To find a local PrEP provider visit: www.health.ny.gov/PrEP
