RE: TN 23-0009

Dear Medicaid Director:

The Centers for Medicare & Medicaid Services (CMS) has reviewed the proposed New York state plan amendment (SPA) to Attachment 4.19-A NY 23-0009, which was submitted to CMS on March 30, 2023. This plan amendment updates the inpatient psychiatric hospital statutorily required increases to the minimum wage for the Remainder of State region.

We reviewed your SPA submission for compliance with statutory requirements, including in sections 1902(a)(2), 1902(a)(13), 1902(a)(30), 1903 as it relates to the identification of an adequate source for the non-federal share of expenditures under the plan, as required by 1902(a)(2) of the Social Security Act and the applicable implementing Federal regulations.

Based upon the information provided by the state, we have approved the amendment with an effective date of January 1, 2023. We are enclosing the approved CMS-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact Kristina Mack at 617-565-1225 or via email at Kristina.Mack-Webb@cms.hhs.gov.

Sincerely,

A solid black rectangular box used to redact the signature of the sender.

1905(a)(16) Inpatient Psychiatric Hospital – PRTF

Adjustment for Minimum Wage Increases - Effective January 1, 2017, and every January 1, thereafter until the minimum wage reaches the state statutorily described per hour wage as shown below, a minimum wage add-on will be developed and applied to all Psychiatric Residential Treatment Facility rates.

Minimum Wage (MW) Region	12/31/2016	12/31/2017	12/31/2018	12/31/2019	12/31/2020	12/31/2021	12/31/2022
New York City	\$11.00	\$13.00	\$15.00	\$15.00	\$15.00	\$15.00	\$15.00
Nassau, Suffolk, & Westchester counties	\$10.00	\$11.00	\$12.00	\$13.00	\$14.00	\$15.00	\$15.00
Remainder of the State	\$9.70	\$10.40	\$11.10	\$11.80	\$12.50	\$13.20*	\$14.20**

*Effective January 1, 2022, the minimum wage value for the Remainder of the State will be \$13.20.

**Effective January 1, 2023, the minimum wage value for the Remainder of the State will be \$14.20.

The minimum wage adjustment will be developed and implemented as follows:

1. Minimum wage costs will mean the additional costs incurred beginning January 1, 2017, and thereafter, as a result of New York State statutory increases to minimum wages until all regions of the State reach \$15.00 per hour.
2. The 2017 facility specific minimum wage add-on will be developed based on collected survey data received and attested to by Psychiatric Residential Treatment Facility providers. If a facility does not submit a survey, the minimum wage add-on will be calculated based on the facility's Consolidated Fiscal Report (CFR) wage data from two years prior to the period being calculated. If a facility fails to submit both the attested survey and the CFR cost report, the facility's minimum wage add-on will not be calculated.
 - i. Minimum wage cost development based on survey data collected.
 - a. Survey data will be collected for facility specific wage data.
 - b. Facilities will report by wage bands, the total count of FTEs and total hours paid to all employees (contracted and non-contracted staff) earning less than the statutory minimum wage applicable for each region.
 - c. Facilities will report an average fringe benefit percentage for the employees directly affected by the minimum wage increase.
 - d. The minimum wage costs are calculated by multiplying the total hours paid by the difference between the statutory minimum wage and the midpoint of each wage band where the facility has reported total hours paid. To this result, the facility's average fringe benefit percentage is applied and added to the costs.
 - ii. Minimum wage cost development based on the CFR cost report data.
 - a. The average hourly wages of employees where the reported average hourly wage is below the regional statutory minimum wage are identified.
 - b. The total payroll hours of the employees identified are then multiplied by the regional statutory minimum wage resulting in a projected payroll. The actual payroll as reported in the cost report is then subtracted from the projected payroll resulting in the expected wage costs increase.
 - c. The facility's fringe benefit costs directly affected by the wage increase are identified, and the average fringe benefit percentage is calculated.
 - d. The fringe benefit percentage is applied to the increased wage costs and added resulting in the minimum wage costs.
