Effective January 1, 2012, the non-capital component of the rate for specialty facilities shall be the rates in effect for such facilities on January 1, 2009, as adjusted for inflation and rate appeals in accordance with Attachment 4.19-D. Such rates of payment in effect January 1, 2009, for AIDS facilities or discrete AIDS units within facilities shall be reduced by the AIDS occupancy factor.

- 1) For new specialty facilities without a January 1, 2009, rate but with a rate prior to April 1, 2009, the operating portion of the January 1, 2012, rate will be the rate in effect on the date of opening.
- 2) For new specialty facilities without a January 1, 2009, rate that open between April 1, 2009, and July 7, 2011, the operating portion of January 1, 2012, rate will be the rate in effect July 7, 2011.
- 3) For new specialty facilities without a January 1, 2009, rate that open subsequent to July 7, 2011, the operating portion of the January 1, 2012, rate will be calculated as follows:
  - i) The initial rate will be calculated using budgeted costs prepared by the facility and approved by the Department and will become effective on the date of opening.
  - ii) The facility will file a cost report for the first twelve-month period that the specialty unit or specialty facility, as applicable, achieves 90% occupancy. The rate will become effective the first day of the twelve-month report. A facility that does not achieve 90% or greater occupancy for any year within five calendar years from the date of commencing operation shall be recalculated using the facility's most recently available reported allowable costs divided by patient days imputed at 90% occupancy. The recalculated rates of payment are required to be effective January first of the sixth calendar year following the date the facility commenced operations.
- 4) There will be no case mix adjustments to specialty rates.

- b) For purposes of calculating the direct and indirect price component of the rates, peer group shall mean:
- 1) all non-specialty facilities (NSF)
  - 2) all non-specialty hospital-based facilities and non-specialty freestanding facilities with certified bed capacities of 300 beds or more (NSHB/NS300+)
  - 3) non-specialty freestanding facilities with certified bed capacities of less than 300 beds (NS300-)

f) The direct component of the price shall be adjusted by a wage equalization factor (WEF). The WEF adjustment shall be calculated using cost and statistical data reported in each facility's 2009 certified cost report ((RHCF-4), or extracted from a hospital-based facility's 2009 certified cost report (RHCF-2) and the institutional cost report of its related hospital as applicable) as extracted by the Commissioner on October 31, 2011, after first deducting costs attributable to specialty units and the hospital, for the 2009 calendar year. 1) The facility-specific direct WEF shall be calculated as follows:

$$\frac{1}{((\text{Facility-Specific Wage Ratio} / \text{Wage Index}) + (\text{Facility-Specific Non-Wage Ratio}))}$$

i) The Facility-Specific Wage Ratio shall be calculated by dividing facility-specific total salaries and fringes related to direct cost centers for nursing administration (013), activities program (014), social services (021), transportation (022), physical therapy (039), occupational therapy (040), speech/hearing therapy (041), pharmacy (042), central service supply (043), and residential health care facility (051) by total direct operating expenses from such cost centers.

iii) The Facility-Specific Non-Wage Ratio shall be calculated by subtracting from 1 the Facility-Specific Wage Ratio.

The minutes from the federal time study are multiplied by the NY average dollar per hour to determine the fiscal resources need to care for that patient type. This amount shall be multiplied by the number of patients in that RUG. RUG weights shall be assigned based on the distance from the statewide average. The RUGS III weights shall be increased by the following amounts for the following categories of residents:
- i) thirty minutes of certified nurse aide time for the impaired cognition A category,

- i) For NSHB/NS300+ the case mix adjustment shall be calculated by dividing the Medicaid-only case mix derived from data for January 2011 for each such facility by the all-payer case mix for the base year 2007. The all-payer case mix for base year 2007 shall be a blend of:
    - (a) 50% of the case mix for all non-specialty facilities, and
    - (b) 50% of the case mix for all non-specialty hospital-based facilities and non-specialty freestanding facilities with certified bed capacities of 300 beds or more; or
  - ii) For NS300- the case mix adjustment shall be calculated by dividing the Medicaid-only case mix derived from data for January 2011 for each such facility by the all-payer case mix for the base year 2007. The all-payer case mix for base year 2007 shall be a blend of:

i) The indirect component of the price shall be adjusted by a wage equalization factor (WEF). The WEF adjustment shall be calculated using cost and statistical data reported by each facility's 2009 certified cost report ((RHCF-4), or extracted from a hospital-based facility's 2009 certified cost report (RHCF-2) and the institutional cost report of its related hospital as applicable) as extracted by the Commissioner on October 31, 2011 after first deducting costs attributable to specialty units and the hospital. The WEF adjustment shall consist of 50% of a facility-specific indirect WEF and 50% of a regional indirect WEF.

1) The facility-specific indirect WEF shall be calculated as follows:

$$\frac{1}{((\text{Facility-Specific Wage Ratio} / \text{Wage Index}) + (\text{Facility-Specific Non-Wage Ratio}))}$$

i) The Facility-Specific Wage Ratio shall be calculated by dividing facility-specific total salaries and fringes related to indirect cost centers for fiscal services (004), administrative services (005), plant operation and maintenance (006), grounds (007), security (008), laundry and linen (009), housekeeping (010), patient food service (011), cafeteria (012), non physician education (015), medical education (016), housing (018) and medical records (019), by total indirect operating expenses from such cost centers.

ii) The Wage Index shall be calculated by dividing facility-specific labor costs per hour by labor costs per hour for RNs, LPNs, aides and orderlies, therapists and therapist aides for all facilities from cost centers physical therapy (039), occupational therapy (040), speech/hearing therapy (041) and residential health care facility (051).

iii) The Facility-Specific Non-Wage Ratio shall be calculated by subtracting from 1 the Facility-Specific Wage Ratio.

- ii) The Wage Index shall be calculated by dividing labor costs per hour in the Region by labor costs per hour for RNs, LPNs, aides and orderlies, therapists and therapist aides for all facilities from cost centers physical therapy (039), occupational therapy (040), speech/hearing therapy (041) and residential health care facility (051).
- iii) The Regional Non-Wage Ratio shall be calculated by subtracting from 1 the Regional Wage Ratio.
