Effective April 1, 2014 and thereafter the State Developmental Centers and Community Based SOICFs/IID will be paid interim rates as described in subparagraph (4) which will be reconciled to the final reported allowable costs as described in subparagraph (5) in accordance with the principles set forth in this section.

**(1) General Requirements.**

- (i) The State will report costs in accordance with Generally Accepted Accounting principles in a complete Consolidated Fiscal Report (CFR) format.
- (ii) There will be one Statewide interim rate for all Developmental Centers and one Statewide interim rate for all Community Based SOICFs/IID.
- (iii) The State will make an adjustment to the rate resulting from any final audit findings or reviews.

**(2) Definitions applicable to this section.**

- (i) **Allowable Operating Costs** - Are all necessary and proper costs which are appropriate and helpful in developing and maintaining the operation of SOICFs/IID. Necessary and proper costs are costs which are common and accepted occurrences in the field of intermediate care facilities for the developmentally disabled. These costs will be determined in accordance with the cost principles described in the Medicare Provider Reimbursement Manual (HIM-15). This will include allowable program administration, direct care, support, clinical, fringe benefits, and indirect personal service/non-personal service.
- (ii) **Allowable Capital Costs** - Are all necessary capital costs incurred to provide covered services to beneficiaries determined in accordance with the cost principles described in the Medicare Provider Reimbursement Manual (HIM-15). This will include allowable lease/rental and ancillary payments; depreciation of equipment, vehicles, leasehold improvements and real property; financing expenditures associated with the purchase of equipment, vehicles and real property, and related expenditures and leasehold improvements.
- (iii) **Capital Costs** – Costs that are related to the acquisition and/or long-term use of land, buildings, construction, and equipment.
- (iv) **Consolidated Fiscal Report (CFR)** – is the reporting tool utilized by all government and non-government providers to communicate annual costs incurred as a result of operating OPWDD programs and services, along with related utilization and staffing statistics.
- (v) **Depreciation** – is the allowable cost based on historical costs and useful life of buildings, fixed equipment, capital improvements and/or acquisition of real property. The useful life shall be based on "The Estimated Useful Life of

Depreciable Hospital Assets (2008 edition)." The depreciation method used shall be straight-line method.

- (vi) **Facility** – the site or physical building where actual services are provided.
- (vii) **Financing Expenditures** – interest expense and fees charged for financing of costs related to the purchase/acquisition, alteration, construction, rehabilitation and/or renovation of real property.
- (viii) **Final Rate** – the reported allowable costs for the applicable rate year.
- (ix) **Individual** – a person who resides in a Developmental Center or a Community Based SOICFs/IID.
- (x) **Interim Rate** – is the most recently approved final rate trended to the applicable rate year.
- (xi) **Lease/Rental and Ancillary Payments** – a facility's annual rental payments for real property and ancillary outlays associated with the property, such as utilities and maintenance.
- (xii) **Operating Costs for Developmental Centers** – are all allowable operating costs with the exception of Tax Assessment and Capital. Developmental Center costs include any necessary transportation to and from physician, dentist, and other clinical services as well as any other transportation appropriate to the individual's participation in community based activities planned for or sponsored by the facility. Developmental Center costs do not include emergency/nonemergency ambulance services which were separately billed to Medicaid.
- (xiii) **Operating Costs for Community Based SOICFs/IID** – are all allowable operating costs with the exception of Tax Assessment, Day Services, and Capital.
- (xiv) **Rate Period** – is the annual time period that rates are effective. For Government Providers the time period is April 1<sup>st</sup> through March 31<sup>st</sup>.
- (xv) **Reimbursable Costs** – are the allowable costs reported in the rate period CFR.
- (xvi) **Tax Assessment** – is an assessment that is uniformly imposed on all SOICFs/IID services of all such providers and is included in the rate.
- (xvii) **Unit of Service** – is the unit of measure denoting lodging and services rendered to one individual between the census taking hours of the facility on two successive days. The day of admission but not the day of discharge will be counted as a unit of service. Also, one unit of service will be counted if the individual is discharged on the same day he/she is admitted, providing there was an expectation that the admission would have at least 24-hour duration. Reserved bed days under Attachment 4.19-C are included in the units of service.

**(3) Interim Rate Computation.**

- (i) Until such time that the actual costs for the period can be finalized, Developmental Centers and Community Based SOICFs/IID will be paid interim rates.
- (ii) The interim rate shall be the most recently completed and approved final statewide rate which will be trended to the rate period.

The trend factor used will be the applicable years from the Medical Care Services Index for the period April to April of each year from [www.BLS.gov/cpi](http://www.BLS.gov/cpi); Table 1 Consumer Price Index for All Urban Consumers (CPI-U); U.S. city average, by expenditure category and commodity and service group.

- (iii) Generally, actual index values will be used for all intervening years between the base period and the rate period. However, because the index value for the last year immediately preceding the current rate period will not be available when the current rate is calculated, an average of the previous five years actual known indexes will be calculated and used as a proxy for that one year.

**(4) Final Rate Settlement.**

- (i) The Final Rate will equal the allowable costs reported and audited for a full 12-month rate period utilizing the following method:
  - (a) The Total Operating Cost CFR-1 Line 64 is adjusted by adding or subtracting Agency Administration Allocation CFR-1 Line 65 and Adjustments and Non-Allowable Costs CFR-1 Line 66.
  - (b) Capital Costs are calculated by adding the Total Equipment CFR-1 Line 48 and Total Property-Provider Paid CFR-1 Line 63 together.
  - (c) Day Services are a bottom line adjustment of the Total Adjusted Expenses found on DMH-1 Line 14 of the cost report for SOICF/IID residents attending State Operated and Voluntary Operated Day Habilitation.
    - (i) Effective April 1, 2016 and thereafter, Day Services billings will no longer be included in the rates and will be billed under separate rate codes. The costs are accounted for on DMH-1 as explained above, however, the billings will be accounted for under the separate rate codes.
  - (d) The results of paragraphs (4)(i)(a), (4)(i)(b) and (4)(i)(c) are added together to find the Total Costs not including SPA impact.

- (i) If there is a SPA impact for the period, it will be added or subtracted to the results of paragraph (4)(i)(d) to find the Total Costs with SPA impact.
- (e) The results of paragraph (4)(i)(d)(i) will be divided by the Units of Service from CFR-1 Line 13 to find the Final Rate.
- (ii) The Final Rate will be calculated and added to eMedNY for adjudication against Medicaid units billed.

[projected number of client days, shall be increased by the trend factor described in subdivision (g) and increased by an amount for education and related services in accordance with clause 4(ix)(f). In addition, if substantial, material changes that conform to the requirements of subdivision (h) are projected for the rate year these changes may be incorporated into the computation of the April 1 to March 31 period rate without an appeal being filed. OMRDD shall perform a rate year end volume variance adjustment to the April 1 to March 31 period rate for developmental centers by taking into account recalculated operating costs recalculated operating costs based upon a fixed to variable ratio of 64 percent fixed/36 percent variable, and actual client days.

- (ii) In addition, to encourage the closure of developmental centers, the commissioner will allow the net variable costs associated with the planned reduction of the developmental centers to become part of the operating costs of remaining like facilities. Net variable costs are total variable costs less the sum of that portion of the variable costs that become part of the operating costs of new state operated programs and services and the projected personal service attrition savings, as determined using historical attrition trends over the preceding three years, that occur at the developmental centers. The commissioner will allow reimbursement of these net variable costs as part of a plan to close the developmental centers. This incentive plan would provide for the reimbursement in total of net variable costs in the developmental centers without adjustment or offsets.
- (a) For each rate period, the net variable cost will be calculated based on the number of reduced beds planned for that rate period. 100 percent reimbursement of the net variable cost will be allowed for that rate period.
- (b) Under this incentive plan eligible costs will be limited to personal service costs including fringe benefits and overhead and other than personal service costs excluding capital costs.
- (c) To determine the capital cost portion of the rate, OMRDD shall review the component relating to capital costs for substantial material changes and if said changes conform to the requirements of paragraphs (f)(1) and (3) of this section and subdivision (j) General Rules for Capital Costs and Costs of Related Party Transactions, and subdivision (k) Glossary, make corresponding adjustments in computing the subsequent period rate.]

- [(vi) The computation of the rate resulting from the application of this paragraph can also be represented by the following formula:
- (a) trended reimbursable operating costs + untrended reimbursable operating costs + reimbursable capital costs = total reimbursable costs.
  - (b) total reimbursable costs / units of service = the rate.
- (vii) If OMRDD is unable to compute a rate for a newly certified facility, it may establish an interim rate which shall be the regional average for other facilities.
- (a) OMRDD shall replace the interim rate retroactively to the starting date of such interim rate by a rate developed from the initial budget report submitted by the facility.
  - (b) The rate developed from the initial budget report shall be subject to all the requirements of this section, and shall be effective for the remainder of the then current rate period.
- (viii) Since July 1, 1996, providers have been responsible for any necessary transportation to and from physician, dentist, and other clinical services, and any other transportation appropriate to the consumer's participation in community-based out of residence activities planned for or sponsored by the facility. Nothing herein shall be interpreted as precluding the accessing of separate Medicaid claiming for emergency/nonemergency ambulance services (as defined in 18 NYCRR 505.10) necessitated by the consumer's medical condition.
- (ix) (a) To encourage the closure of developmental centers, the commissioner will consider proposals to allow the variable costs associated with the closed facility or facilities to become part of the operating expenses of new or existing state operated under 31 bed facilities. The commissioner will allow a reasonable incentive plan for the reimbursement of the increased costs in the state operated under 31 bed facilities if it is coupled with the closure of a developmental center. An incentive plan would provide for the reimbursement in total of increased costs in the state operated under 31 bed facilities without adjustment or offsets.

  - (iii) 50 percent reimbursement of the increased cost for the third full rate period.
  - (iv) 25 percent reimbursement of the increase cost for the fourth full rate period.
- (b) Costs to be eligible for this incentive plan will include but not be limited to direct care, support and clinical personal service and fringe benefit amounts for employees whose most recent prior employment was at a closed or scheduled to close developmental center.
- (i) In order to have the cost of former developmental center employees included in the incentive plan, the state operated facility applying for a rate adjustment must hire such employee within twelve months of the official closing date of the developmental center.
  - (ii) Salaries and fringe benefit amounts paid to eligible employees by the facility cannot exceed the average salary and fringe benefit amount paid to comparable employees currently on that facility's payroll.
- (c) Incentive plan applications from provider shall be made in writing to the commissioner.
- (i) The application shall identify the employees, their job titles, salary levels, date hired and B/DDSO.
- (x) To accelerate the closure and to encourage a reduction in the size of developmental centers, the commissioner will consider proposals to allow the variable costs associated with a developmental center to become part of the operating expenses of new and existing state operated under 31 bed facilities. The variable costs associated with the developmental center will be allowed for the transition which is the period beginning on the date an official announcement to close a facility or facilities and ending on the date of actual closure. Also variable costs associated with the planned conversion of beds which is at least 10 percent change in the facility census will be allowed. The commissioner will allow a reasonable incentive for the reimbursement of the increased costs in the state operated under 31 bed facilities during the transition and/or conversion period. An incentive plan would provide for the reimbursement in total of increased costs in the state operated under 31 bed facilities without adjustments or offsets.]

If during the conversion period, an official announcement of closure occurs, the reimbursement of increased costs may be considered under (c)(3)(ix)(a)(i).

[persons to and from an outpatient service certified pursuant to Article 28 of the Public Health Law for certain persons if:

- (a) in order to meet a person's active treatment needs the person's Individual Program Plan requires a day service (comprising regular attendance at a sheltered workshop or a day training service) in combination with visits to the outpatient service described above, and
  - (b) prior to July 1, 1996, transportation to and from the outpatient service was not included in the rate for the operator of the outpatient service, and
  - (c) prior to July 1, 1996, the rate approved by the local social services district was billed separately by a transportation vendor for transportation to and from the outpatient service, and
  - (d) the vendor ceased billing for transportation of persons residing in the facility to and from the outpatient service.
- (x) The transportation add-on shall be a reimbursable cost added to a facility's rate subject to the conditions set forth in subparagraph (ix) of this paragraph. The transportation add-on shall be calculated using payment/rate data based on local social service district approved Medicaid payment rates made to transportation vendors as of June 30, 1996. A weighted transportation average shall be calculated for each facility by dividing the aggregate transportation payments by the aggregate day service transportation round trips for all persons described in subparagraph (ix) of this paragraph.
- (a) The weighted transportation average for each facility shall be ranked among all day treatment facilities state wide pursuant to the methodology for calculating the transportation component add-on for day treatment facilities described in NYCRR Part 690 subclauses 690.7(e)(3)(vii)(a)(1) through and including (a)(3).
  - (b) The modified weighted transportation average shall be multiplied by the total to and from day service transportation units of service to determine reimbursable transportation costs.

[reimbursable operating costs (with the exception of education and related service costs, sheltered workshop services, day training services) included in the payment rate in effect on December 31, March 31, or June 30 of the immediately preceding rate period applicable to that facility. The dollars for sheltered workshop and day training services shall be revised based upon the number of individuals participating in the program. The reimbursable operating costs plus any revised sheltered work and day training costs will be increased by the trend factor described in subdivision (g) of this section and may be adjusted for appropriate appeals. Education and related services will be updated in accordance with clause (4)(ix)(f) of this subdivision. OMRDD will determine the capital cost portion of the subsequent period rate by reviewing the component relating to capital costs for substantial material changes. If such changes conform to the requirements of paragraphs (f)(1) and (3) of this section and subdivision (j) General Rules for Capital Costs and Costs of Related Party Transactions, and subdivision (k) Glossary, OMRDD will make corresponding adjustments in computing the subsequent period rate.

  - (b)  $\text{total reimbursable costs} / \text{units of service} = \text{the rate.}$
- (iii) For a newly certified facility which begins to provide services that fall within a subsequent period, the initial rate shall be calculated as though it were a base period rate.

**(d) Cost category screens and reimbursement for under thirty-one bed facilities.**

In order to determine the reimbursable operating costs to be included in the rate calculation, the following screens (i.e., the maximum amount that will be allowed for a specific item or group of items) will be used. The regional screens corresponding to the actual geographic location of the facility will be applied.

  - (c) For facilities without a screen as determined in clauses (a) and (b) of this subparagraph, operated by a provider which operates other OMRDD certified residential programs, an agency administrative percentage based on the current reimbursement of the other OMRDD certified residential programs shall be applied.
  - (d) For facilities without a screen as determined in clauses (a) – (c) of this subparagraph, operated by a provider which does not operate any other OMRDD certified residential programs, a regional average administrative percentage based on the current reimbursement of facilities operated by other providers shall be applied.
  - (e) For facilities without a screen value as determined per clause (a) of this subparagraph, the administrative screen value shall be equal to the percentages derived from clause (b), (c), or (d) of this paragraph times the reimbursable operating costs other than administration. The term disability increment shall mean the process of developing facility specific direct care FTEs based upon aggregate consumer disability characteristics as described in 14 NYCRR subdivision 690.7(g) and reported on the Developmental Disabilities Profile (DDP). The disability increment methodology will only be calculated if at least 50 percent of the DDP scores are available. If less than 50 percent of the DDP scores are]

**(1) Direct care, mid-level supervision, and clinical personal service cost category screens:**

- (i) For every new rate cycle, OMRDD shall develop values by applying a maximum statewide salary amount to a facility's applicable consumer specific staffing standards. Refer to paragraphs (5)-(8) of this subdivision.
- (ii) These standards shall reflect the severity of disabilities of the population residing at the facility as determined by the procedures outlined in paragraphs (5)-(7) of this subdivision; the number of beds in the facility; whether or not a facility provides on site day program services; and the persons the facility provides services to (i.e., adults, children or both).
- (iii) For any facility which elected to participate in the salary enhancement plan as evidenced by adoption of a resolution of its governing body, effective on the later of October 1, 1987, or the date of adoption of such resolution, the direct care/support reimbursement will be adjusted to reflect the obligation to pay salary levels established by adoption of the resolution referred to in this subclause. In absence of such an election, the standard shall be determined by the facility's actual salary amount based upon the budget or cost report used to establish the rate being adjusted or calculated.

**(3) Fringe benefit cost category screens:**

For every rate cycle after April 1, 1984, this percentage shall be the lower of the previous rate cycle's cost-based fringe benefit percentage plus one percent or a new percentage computed in accordance with the immediately preceding sentence. If a facility's previous rate is based upon a budget, it is not subject to the aforementioned one-percent fringe benefit limitation.
- (ii) To determine the fringe benefit component of the rate, the facility-specific fringe benefit percentage shall be multiplied by the total reimbursable personal service dollars exclusive of contracted personal services.
- (iii) For newly certified facilities, the fringe benefit percentage allowed shall not exceed the average allowed for existing facilities (regardless of size) currently operated by the provider. If there are no existing facilities, then the fringe benefit percentage allowed shall not exceed the fringe benefit percentage of any other programs operated by the provider. If the provider does not operate any other programs, then the fringe benefit percentage allowed shall not exceed the regional average for other facilities.
- (iv) Any increase in the fringe benefit percentage due to Federal or State laws, rules or regulations shall not be subject to the percent increase limitation described in subparagraph (i) of this paragraph.
- (v) If a newly certified facility whose base period rate was determined from total reimbursable budget costs, submits a cost report for the subsequent period in accordance with 14 NYCRR subpart 635-4, a new fringe benefit percentage shall be computed by dividing these costs by the total personal service costs (exclusive of contracted services) as submitted in the new cost report. The provider shall not be required to fund depreciation attributable to the provider's equity in such real property. The provider may expend the funds in such account, including accrued interest, to retire all or a portion of the indebtedness attributable to such real property, or for building improvements and/or fixed equipment necessary to the facility.

However, costs incurred during the period from the first admission to the effective date of the initial provider agreement shall not be considered as start-up costs.
  - (a) OMRDD may, at the discretion of the commissioner, reimburse a provider for all allowable start-up costs incurred in the preparation of the provider during that six-month period prior to the date of the first consumer admission. A provider may apply to the commissioner for an extension of the six-month reimbursable start-up period, provided that the provider can demonstrate why such an extension is necessary. - (xxi) **Projected Units of Service-Community SOICF/DDs** – is determined by multiplying the certified capacity on March 31 immediately prior to the rate period by the number of calendar days in the rate period by the historic utilization factor.
- (xxii) **Rate Period** – is the annual time period that rates are effective, i.e. April 1<sup>st</sup> through March 31<sup>st</sup>.
- (xxiii) **Rate Cycle** – the rate cycle is a 24 month period that consists of two rate periods beginning on April 1<sup>st</sup> of each year.
- (xxiv) **Reimbursable Costs** – are the allowable costs calculated from the base period CFR.
- (xxv) **Staffing Ratio** – is the calculated ratio between individuals and staff in the base period CFR.

- [(xxvii) **Trend Factor** – is a percentage applied to all applicable operating costs that represent inflations in the costs of goods and services as described in (m)(5).
- (xxviii) **Unit of Service** – is the unit of measure denoting lodging and services rendered to one individual between the census taking hours of the facility on two successive days. The day of admission but not the day of discharge will be counted as a unit of service. Also, one unit of service will be counted if the individual is discharged on the same day he/she is admitted, providing there was an expectation that the admission would have at least 24-hour duration. Reserved bed days under Attachment 4.19-C are included in the units of service.

**(3) Computation of Rates (General).**

- (i) There will be one Statewide rate for all Developmental Centers and one Statewide rate for all Community-based SOICF/DDs.
- (ii) New York State will make an adjustment to the rate resulting from any final audit findings or reviews.
- (iii) Developmental Center costs include any necessary transportation to and from physician, dentist, and other clinical services as well as any other transportation appropriate to the Individual's participation in community-based activities planned for or sponsored by the facility. Developmental Center costs do not include emergency/nonemergency ambulance services which were separately billed to Medicaid.
- (iv) The rate for the initial period will be computed on the basis of a full 12-month base period CFR, adjusted in accordance with (m)(3)(ii). If a facility closes or is no longer used as an ICF/DD during or subsequent to the base year, all costs and statistics for that facility will be removed from the base period before calculating the initial period rate. The computation of the base period staffing ratio using the end of year census/certified capacity is effective for the first rate cycle. The State will submit a State Plan Amendment to establish the staffing ratio that will be effective for the 2015-17 rate cycle.
- (v) For a Community-based SOICF/DD that has been in operation less than four full years as the start of the initial period, the initial period rate will be the Statewide rate for Community- Based SOICF/DDs in effect during such initial period, and the subsequent period rate will be the Statewide rate for Community-Based SOICF/DDs in effect during such subsequent period, until the beginning of the next rate cycle.

**(4) Reimbursable Costs for the Initial Period of the 24-month Rate Cycle.**

- (i) Program Administration Reimbursement is the Administration directly related to the provision of the service.

A per person average staffing ratio will be calculated using the direct personal service from the base period CFR-4. The total Program Administration FTE's (full time equivalents) is divided by the ending census (Developmental Centers)/certified capacity (Community-based SOICF/DD) from the base period CFR which will result in a Program Administration staffing ratio.

- (b) The Program Administration staffing ratio is then multiplied by the census (Developmental Centers)/certified capacity (Community-based SOICF/DDs) of the March 31st date immediately prior to the beginning of the rate period. The product of this calculation is the total number of Program Administration FTE's.
- (c) The calculated average Program Administration salary is then multiplied by the calculated Program Administration FTE's. The product of this calculation is the total Program Administration salary cost.
- (d) The result of paragraph (4)(i)(c) is then trended in accordance with paragraph (5) of this section, then divided by the total projected units of service on March 31st immediately prior to the beginning of the rate period to arrive at the Program Administration salary cost per diem.

**(ii) Direct Care Reimbursement.**

A per person average staffing ratio will be calculated using the direct personal service from the base period CFR-4. The total Direct Care FTE's is divided by the ending census (Developmental Centers)/certified capacity (Community-based SOICF/DDs) from the base period CFR which will result in a Direct Care staffing ratio.

- (a) An average Direct Care salary is calculated by dividing the direct personal service from the base period CFR-4 total annual salary of all Direct Care employees by the total Direct Care FTE's.
- (b) The Direct Care staffing ratio is multiplied by the census (Developmental Centers)/certified capacity (Community-based SOICF/DDs) of the March 31st date immediately prior to the beginning of the rate period. The product of this calculation is the total number of Direct Care FTE's.

**(iii) Support Reimbursement.**

A per person average staffing ratio will be calculated using the direct personal service from the base period CFR-4. **(iv) Clinical Reimbursement.**

A per person average Clinical staffing ratio will be calculated using the direct personal service from the base period CFR-4. The total Clinical FTE's is divided by the ending census (Developmental Centers)/certified capacity (Community-based SOICF/DDs) from the base period CFR which will result in the Clinical staffing ratio.

- (a) An average Clinical salary is calculated by dividing the direct personal service from the base period CFR-4 total annual salary of all Clinical employees by the total Clinical FTE's.
- (b) The Clinical staffing ratio is multiplied by the census (Developmental Centers)/certified capacity (Community-based SOICF/DDs) of the March 31st date immediately prior to the beginning of the rate period. The product of this calculation is the total number of Clinical FTE's.
- (c) The calculated average salary is then multiplied by the calculated Clinical FTE's. The product of this calculation is the total Clinical salary cost.
- (d) The result of Paragraph (4)(iv)(c) is trended in accordance with Paragraph (5) of this section, then divided by the total projected units of service on March 31st immediately prior to the beginning of the rate period to arrive at the Clinical salary cost per diem.

**(v) Fringe Benefits** are calculated by multiplying the sum of trended allowable Personal Service dollars calculated in (m)(4)(i) through (m)(4)(iv) by the budgeted fringe factor of 55.48%. The result is divided by the total projected units of service as on March 31st immediately prior to the beginning of the rate period to arrive at the fringe per diem. Fringe benefit related accruals will also be included. Accruals are calculated as change between the end of the current benefit period and the next benefit period, for this period the accrual would be .25%. The computation of the base year fringe benefits is effective for the first rate cycle. The State will submit a State Plan Amendment to establish the fringe benefits factor that will be effective for the 2015-17 rate cycles.

**(vi) Indirect Personal Service and Non-Personal Service Costs** are calculated as follows:

- (a) The Total Personal Service dollars from the base period CFR-1 less the total Direct Personal Service dollars from the base period CFR-4 results in the Indirect Personal Service dollars.]

- [(b) The Indirect Personal Service amount is then multiplied by the fringe benefit percentage.
- (c) The Indirect Personal Service dollars with associated fringe is added to Non-Personal Service dollars from the base period CFR. The product is Total Indirect Personal Service dollars and Non-Personal Service dollars.
- (d) Total Indirect Personal Service and Non-Personal Service dollars are divided by the ending census/capacity on the base period CFR resulting in a per-person annual Non-Personal Service dollar amount.
- (e) The per-person annual Non-Personal Service amount is multiplied by the beginning census/certified capacity, giving the annual Indirect Non-Personal Service dollars.
- (f) The result of paragraph (4)(vi)(e) is trended in accordance with Paragraph (5) of this section, then divided by the total projected units of service on March 31st immediately prior to the beginning of the rate period to arrive at the Indirect Non-Personal Service cost per diem.
- (vii) Sum products of paragraphs (4)(i)(d), (4)(ii)(d), (4)(iii)(d), (4)(iv)(d), (4)(v), and (4)(vi)(f) of this section to arrive at the total trended operating cost per diem.

**(5) Trend Factors.**

- (i) The trend factor used will be the applicable years from the Medical Care Services Index for the period April to April of each year from [www.BLS.gov/cpi](http://www.BLS.gov/cpi); Table 1 Consumer Price Index for All Urban Consumers (CPI-U); U.S. city average, by expenditure category and commodity and service group.
- (ii) Generally, actual index values will be used for all intervening years between the base period and the rate period. However, because the index value for the last year immediately preceding the current rate period will not be available when the current rate is calculated, an average of the previous five years actual known indexes will be calculated and used as a proxy for that one year.
- (iii) A compounded trend factor will be calculated in order to bring base period costs to the appropriate rate period.

**(6) Day Service add-on for Community-based SOICF/DDs.** To reimburse Community-based SOICF/DDs that obtain day services from State and Voluntary providers, the State will calculate an interim amount that will approximate the costs Community-based SOICF/DDs will incur to obtain these services for the individuals they serve, and this interim amount will be reconciled to the actual rate year costs incurred. The interim amount included in the rate will be calculated as stated below:

- (i) The Day Services from the base period CFR will be added to an approximate payment to be made to the day services providers for the individuals residing in Community-based SOICF/DDs and attending Day Services.]

- (ii) The Day Services reconciliation to final rate - New York State will pay for SOICF Day Services at the same rate established by OWPDD under the comprehensive home and community based services waiver for the day habilitation program operated by the same provider and in the same location as such day services. Subsequent to the rate period OPWDD will determine the actual billings for day services for each individual and reconcile the interim amount in (II) to the amount of actual billings.
- (7) **Tax Assessment costs** in the amount of a 5.5 percent assessment uniformly imposed on all SOICF/DD services of all such providers will be included in the rate.
- (8) **Capital Add-on Cost.**
- (i) The Capital add-on will be calculated using the Base Period CFR.
- (ii) Capital costs are calculated by adding Base Period CFR Total Equipment and Total Property-Provider Paid.
- (iii) The result of paragraph (8)(ii) of this section is divided by total projected units of service on March 31<sup>st</sup> immediately prior to beginning of rate period to arrive at the Capital cost per diem.
- (9) **Total Per Diem** will be the sum products of paragraphs (4)(vii), (6)(ii), (7), and (8)(iii) of this section.
- (10) **Computation of the Subsequent Period Rate.**
- (i) The reimbursable costs contained in the subsequent period rate will be computed as follows:
- (a) New York State will update the census (Developmental Center) and certified capacity (Community-based SOICF/DDs) based on the number of individuals in the facility as of March 31<sup>st</sup> of the immediately preceding rate period. Once these updates have been made OPWDD will increase the costs by the trend factor as described in Paragraph (5) of this section.
- (b) An adjustment will be made to reflect the capital in the CFR three years prior to the rate period. The first full year after an Institution is closed OPWDD will remove all related capital.
- (ii) The computation of the subsequent period rate can also be represented by the following formula:
- Trended Reimbursable Operating costs + Trended Adjusted Day Service costs + Adjusted Reimbursable Capital costs+ Tax Assessment = Total Reimbursable Costs.

The cost report period and rate period for Region II is January 1<sup>st</sup> to December 31<sup>st</sup>. A provider located in Region II may request to report on the Region I period.

iii. **Region III:**

A facility which is located in any other county in New York State, not specified in Region I or Region II.

**Unit of Service** – A unit of service is equal to one day that an individual resides in an ICF/DD. Maximum units of service are equal to the certified capacity times the number of days in the rate period.

**(2) General Overview of the Methodology:**

- i. The methodology first de-trends costs from the re-based period to the base period using the trend factors in paragraph (6)(i)(a); compares these amounts to screen values as described in paragraph (3) to determine the lower of cost or screen; compares these results to the costs as of June 30, 2011, as per paragraph (4); establishes reimbursable operating costs; then trends those costs up to the rate period; and incorporates costs for Day Service, Capital and a Provider Assessment. The methodology results in one per diem rate for each provider operating one or more ICF/DDs.
- ii. **Provider Rate** = (Reimbursable Operating Costs + Day Services + Efficiency Adjustments + Capital + Provider Assessment) / Maximum Units of Service

(c) **Reimbursable PS Support Costs** are the lesser of:

1. PS Support Costs, as reported on the re-based CFR, Personal Services Schedule, de-trended to the base period; or
2. Screen values as described in paragraph (3)(v)(a).

vi. **Fringe Benefit Percentage and Reimbursable Costs**

(a) For each facility, a **Fringe Benefit Percentage** is calculated by dividing the sum of the PS Direct Care, PS Clinical, and PS Support fringe benefits costs, as reported on the re-based CFR de-trended; plus the addition of certain facility specific reimbursable fringe costs incurred subsequent to the re-based CFR, de-trended; by the sum of the PS Direct Care, PS Clinical, and PS Support costs (exclusive of contracted Personal Service) as reported on the re-based CFR, de-trended.

The facility-specific reimbursable fringe costs incurred subsequent to the re-based CFR (HCA IV-VI) are listed in the Supplemental Detail Schedule in Appendix A.

Fringe Benefit % = (de-trended PS Direct Care + PS Clinical + PS Support fringe benefits costs + certain facility specific reimbursable fringe costs incurred subsequent to the re-based CFR) divided by (de-trended total PS Direct Care + PS Clinical + PS Support costs, exclusive of contracted Personal Service).

(b) **Reimbursable Fringe Benefit Costs** are calculated by multiplying the facility-specific fringe benefit percentage, as described in paragraph (3)(vi)(a), by the total PS Direct Care, PS Clinical, and PS Support reimbursable costs, exclusive of contracted Personal Service.]

[vii. Utilities Reimbursable Costs

- (a) **Reimbursable Utility Costs** will be equal to the sum of all utilities costs reported on the re-based CFR, Program/Site Data Schedule, de-trended.
- (b) All utilities costs are pass-through costs and will not be subjected to a screen value.

- (4) **Comparison of Costs** – The rationale of the cost comparison is to prevent providers from experiencing decreases exceeding 10% of the June 30, 2011 costs or increases above their June 30, 2011 costs. If the re-based costs fall within 90% - 100% of the June 30, 2011 costs, OPWDD will proceed calculating the provider rate using the re-based costs. The methodology for the comparison of costs is as follows:

The sum of each provider's re-based, de-trended, reimbursable operating costs as described in paragraphs (3)(i)(b), (3)(ii)(c), (3)(ii)(d), (3)(iii)(c), (3)(iv)(d), (3)(v)(c), (3)(vi)(b), and (3)(vii)(a) of this section less the efficiency adjustment are compared to the reimbursable operating costs in the provider's rates less the efficiency adjustment as of June 30, 2011. As a result of this comparison, one of these conditions will prevail in calculating the provider rate:

- i. If the re-based, de-trended, reimbursable operating costs are *between* 90% and 100% of the June 30, 2011 de-trended reimbursable operating costs, the re-based, de-trended, reimbursable operating costs prevail in calculating the provider rate;
- ii. If the re-based, de-trended reimbursable operating costs fall *below* 90% of the June 30, 2011 de-trended reimbursable operating costs, an adjustment will be made to bring the provider's re-based, de-trended reimbursable operating costs up to 90% of the provider's June 30, 2011 de-trended reimbursable operating costs, and prevail in calculating the provider rate; or
- iii. If the re-based de-trended reimbursable operating costs are *higher than* the June 30, 2011 de-trended reimbursable operating costs, then the June 30, 2011 de-trended reimbursable operating costs will prevail, less the administrative 15% reduction, in calculating the provider rate.

- (5) **Day Services** – ICF/DD s are reimbursed for individuals who participate in day service programs/activities provided by State and voluntary providers.]

**(6) Trend Factors**

- (i) Once the reimbursable costs for all of the appropriate cost component categories have been established as per paragraphs (4)(i), (4)(ii), or (4)(iii) of this section, each cost component category is then trended up to the rate period.

- (7) Capital** – The rate will include capital if the provider has been approved for capital reimbursement. Providers requesting the incorporation of property reimbursement in an ICF/DD rate must get the reimbursement level prior approved by OPWDD. Providers are reimbursed for capital according to depreciation, amortization, lease and capital indebtedness schedules that are developed as part of an OPWDD prior property approval process. OPWDD’s prior property review process includes an assessment that assets and leases are within fair market value and that capital interest costs are at market rates. Property reimbursement schedules, developed as part of the prior approval process, delineate by rate period the exact amount of approved capital reimbursement including the expiration date for that reimbursement. Useful asset lives utilized in the depreciation and amortization schedules are in accordance with the Provider Reimbursement Manual (PRM-15).]

[The facility-specific property reimbursement levels are listed in the Supplemental Detail Schedule in Appendix A.

In addition to the capital reimbursement described above, allowable equipment and vehicle related costs will be updated annually based on the costs reported on the CFR from two years prior. (e.g., the January 1, 2012 cost update will be based on the January 1, 2010 through December 31, 2010 CFR.)

- (8) **Provider Assessment** –The provider assessment on ICF/IID services rendered to Medicaid recipients shall be considered an allowable cost and reimbursed through Medicaid service rates of payment.
- (9) **Existing Facilities** - Rates for ICF/DDs that are not newly certified facilities will be calculated in accordance with paragraphs (3), (4), (5), (6), (7), (8), and (11) of this section.

**Newly Certified Facilities** – For newly certified facilities, OPWDD will request a budget from the provider. A desk audit process will compare budgeted average salaries, OTPS, Administration and Fringe with those reimbursed in other ICF/DDs operated by the provider. If the provider does not operate other ICF/DDs, OPWDD will desk audit against regional ICF/DD averages. The budgeted dollars for all of the cost component categories are subject to the screen values as per paragraph (3) of this section. Rates for newly certified facilities will continue to be calculated as described in paragraphs (5), (6), (7), (8), and (11) of this section.

- (10) **Computation of the Provider Rate** – The provider rate will be the sum of the trended cost component categories of the provider's facility rates, aggregated as one provider agency rate, as described in paragraph (4), with the addition of the provider assessment, as described in paragraph (8), divided by the maximum units of service.
- (11) **Rate Appeals** - A provider may appeal for an adjustment to its rate that would result in an annual increase of \$5,000 or more in the provider's allowable costs and that is needed because of bed vacancies. The appeal request must be made within one year of the close of the rate period in which the bed vacancies occurred. OPWDD will only grant the appeal if the provider has demonstrated that the vacancies were unavoidable. No amount granted on appeal will exceed the provider's ICF/DD program loss.
- (12) **Adjustments** - A provider may request a rate revision based on rate computation errors by notifying OPWDD either within 90 days of the provider receiving the rate or within 90 days of the beginning of the period in question, whichever is later. Adjustments to rates will be limited to those adjustments which will result in an annual increase or]
