ROG: MT: SPA NY-16-0004

March 25, 2019

Donna Frescatore
Deputy Commissioner
Office of Health Insurance Programs
New York State Department of Health
One Commerce Plaza, Suite 1211
Albany, NY 12210.

Dear Ms. Frescatore:

This is to notify you that New York State Plan Amendment (SPA) #16-0004 has been approved for adoption into the State Medicaid Plan with an effective date of July 1, 2016. This SPA authorizes changes to the coverage and reimbursement of substance use disorder (SUD) treatment services under the rehabilitative services benefit. This SPA also authorizes coverage and reimbursement of SUD treatment services provided in residential settings with 16 or less beds under the rehabilitative services benefit.

Enclosed are copies of the approved SPA # 16-0004. If you have any questions or wish to discuss this SPA further, please contact Maria Tabakov. Ms. Tabakov may be reached at (212) 616-2503.

Sincerely,

Ricardo Holligan
Acting Deputy Director

13d. Rehabilitative Services

Other Diagnostic, Screening, Preventive, and Rehabilitative Services

1905(a)(13); 42 CFR 440.130(d)

The State provides coverage for Outpatient and Residential Addiction Rehabilitative Services as defined at 42 CFR 440.130(d) and in this section. The State assures that all rehabilitative services are provided to, or directed exclusively toward the treatment of, the Medicaid eligible individual in accordance with section 1902(a)(10)(A)(i) of the Act. The State assures that rehabilitative services do not include and FFP is not available for any of the following in accordance with section 1905(a)(13) of the Act.

- a. educational, vocational and job training services;
- b. room and board;
- c. habilitation services;
- d. services to inmates in public institutions as defined in 42 CFR §435.1010;
- e. services to individuals residing in institutions for mental diseases as described in 42 CFR§435.1010;
- f. recreational and social activities; and
- g. services that must be covered elsewhere in the state Medicaid plan.

Outpatient Addiction Rehabilitative Services

Outpatient addiction services include individual-centered activities consistent with the individual's assessed treatment needs with a rehabilitation and recovery focus designed to promote skills for coping with and managing symptoms and behaviors associated with substance use disorders. These activities are designed to help individuals achieve and maintain recovery from Addictions. Services should address an individual's major lifestyle, attitudinal, and behavioral problems that have the potential to undermine the goals of treatment. Face-to-face interventions may include other collateral supports beyond the individual or family/caregiver, as necessary.

Outpatient addiction services are delivered on an individual or group basis in a wide variety of settings including provider offices, in the community or in the individual's place of residence. These outpatient addiction services may be provided on site or on a mobile basis as defined by the New York State Office of Alcoholism and Substance Abuse Services (OASAS). Addiction services may not be provided in inpatient or outpatient hospital settings. The setting in which the service is provided will be determined by the identified goal to be achieved in the individual's written treatment plan.

Outpatient services are individualized interventions which may include more intensive treatment any time during the day or week, essential skill restoration and counseling services, and rehabilitation skill-building when the client has an inadequate social support system to provide the emotional and social support necessary for recovery, physical health care needs or substantial deficits in functional skills. Medication-assisted therapies (MAT) should only be utilized when a client has an established opiate or alcohol dependence condition that is clinically appropriate for MAT. Opioid treatment includes the dispensing of medication and all needed counseling services including a maintenance phase of treatment for as long as medically necessary. Reimbursement for the medication is covered under the Medicaid pharmacy benefit.

TN #16-0004

Approval Date 03.25.2019

Supersedes TN NEW

Effective Date 07.01.2016

**New York
3b-37(i)**

Provider Qualifications:

Services are provided by licensed and unlicensed professional staff, who are at least 18 years of age with a high school or equivalent diploma, according to their areas of competence as determined by degree, required levels of experience as defined by state law and regulations and OASAS approved guidelines and certifications. All outpatient Addiction agencies are licensed or certified under state law.

Licensed practitioners are licensed by the New York State Department of Education and include licensed master social workers (LMSWs), licensed clinical social workers (LCSWs), licensed mental health counselors (LMHCs), licensed marriage and family therapists (LMFTs), licensed psychoanalysts; registered nurses (RNs); licensed creative arts therapists, physician assistants (PAs), licensed practical nurses (LPNs); nurse practitioners (NPs); physicians and psychologists. Only physicians, Psychiatrists, nurse practitioners, physician assistants, and registered nurses may provide medication management functions as permitted under state law with any supervision required. All agencies with MAT interventions must comply with federal and state laws regarding controlled substance prescriber availability. Reimbursement for the medication is covered under the Medicaid pharmacy benefit.

Any staff who is unlicensed and providing addiction services must be credentialed by OASAS as a credentialed alcoholism and substance abuse counselor (CASAC); a credentialed alcoholism and substance abuse counselor – trainee (CASAC-T); Certified Recovery Peer Advocate (CRPA); or be under the supervision of a qualified health professional (QHP).

State regulations require supervision of CASAC-T, Certified Recovery Peer Advocate and non-credentialed counselors by a QHP, meeting the supervisory standards established by OASAS. A QHP includes the following professionals who are currently licensed by the New York State Department of Education or credentialed by OASAS: Credentialed Alcoholism and Substance Abuse Counselor (CASAC); LMSW; LCSW; NP; occupational therapist (OT); physician; physician assistants; RN; psychologist; rehabilitation counselor certified by the Commission of Rehabilitation Counselor Certification; a therapeutic recreation specialist who holds a baccalaureate degree in a field allied to therapeutic recreation and, either before or after receiving such degree, has five years of full-time, paid work experience in an activities program in a health care setting or an equivalent combination of advanced training, specialized therapeutic recreation education and experience, or is a recreational therapist certified by the National Council on Therapeutic Recreation or the American Therapeutic Recreation Association; licensed marriage and family therapists (LMFTs); a licensed mental health counselor licensed by the New York State Education Department (Title VIII, Article 163); and a counselor certified by and currently registered as such with the National Board of Certified Counselors. The QHP provides clinical/administrative oversight and supervision of non-credentialed staff as permitted under the statutory and/or regulatory scopes of practice. All the stated above requirements for certified and credentialed practitioners are overseen and/or coordinated by OASAS.

CASAC must be at least 18 years of age; have earned at least a high school diploma or a General Equivalency Diploma (GED); and reside or work in New York State at least 51 percent of the period during which their application is being processed to be issued a credential. In addition, a CASAC must:

- (1) provide three references attesting to the attainment of specific competency and ethical conduct requirements;
- (2) document a minimum of 6,000 hours of supervised, full-time equivalent experience in an approved OASAS work setting or substitute a) a Master's Degree in a Human Services field for 4,000 hours experience; b) a Bachelor's Degree in a Human Services field for 2,000 hours experience; c) an Associate's Degree in a Human Services field for 1,000 hours experience;
- (3) meet minimum education and training requirements including a minimum of 350 hours which address the full range of knowledge, skills and professional techniques related to chemical dependence counseling; *Note: A formal internship or formal field placement may be claimed as work experience **OR** education and training, but not both. Work experience claimed may **not** include any experience gained as part of, or required under, participation as a patient in a formal alcoholism and/or substance abuse or problem gambling treatment/aftercare program and/or plan and*
- (4) pass the International Certification and Reciprocity Consortium (IC&RC) examination for Alcohol and Drug Counselors. The International Certification & Reciprocity Consortium (IC&RC) examination for Alcohol and Drug Counselors is comprised of 150 multiple-choice questions derived from the counselor tasks identified in the IC&RC Candidate Guide.

Credentialed Alcoholism and Substance Abuse Counselor (CASAC-T) Trainee must be at least 18 years of age; have earned at least a high school diploma or a General Equivalency Diploma (GED); and reside or work in New York State at least 51 percent of the period during which their application is being processed to be issued a credential. Applicants may be considered for a CASAC Trainee certificate upon satisfying a minimum of:

- 350 hours of the required education and training; OR
- 4,000 hours of appropriate work experience **and** the 85 clock hours in Section 1 of the education and training related to knowledge of alcoholism and substance abuse.

The CASAC Trainee certificate is effective from the date that any of the above eligibility requirements are approved until the end of the five-year period that the application is active. The CASAC Trainee certificate is not renewable. However, if the CASAC-T is an examination candidate when the CASAC Trainee certificate expires, a three year extension may be requested.

3b-37(iii)

Certified Recovery Peer Advocate (CRPA) as defined in the NYS OASAS regulations is:

- An individual who is supervised by a credentialed or licensed clinical staff member as identified in the patient's treatment/recovery plan working occur under the direction of a certified agency.
- CRPA is a self-identified consumer who is in recovery from mental illness and/or substance use disorder
- To be eligible for the CRPA, the applicant must:
 - Demonstrate they have completed appropriate education and training relevant to the performance domains identified in the Recovery Coach Job Task Analysis Report.
 - Hold a high school diploma or jurisdictionally certified high school equivalency.
 - 46 hours specific to the domains, with 10 hours each in the domains of Advocacy, Mentoring/Education, and Recovery/Wellness Support and 16 hours in the domain of Ethical Responsibility.
 - Complete 500 hours of volunteer or paid work experience specific to the PR domains.
 - Receive 25 hours of supervision specific to the domains. Supervision must be provided by an organization's documented and qualified supervisory staff per job description.
 - Pass the NYCB/IC&RC Peer Advocate Exam.
 - Complete 20 hours of continuing education earned every two years, including six hours in Ethics.

All providers listed may provide any component of the outpatient Addiction services consistent with State law and practice act with three exceptions: Certified Recovery Peer Advocates can only perform peer supports, service planning, care coordination, and assistance in a crisis intervention; unlicensed and/or uncredentialed professionals may assist with the performance of any activity listed here so long as supervised as noted above; and all agencies with MAT interventions must comply with federal and state laws regarding controlled substance prescriber availability.

Service Limitations:

Services must be medically necessary and must be recommended by a licensed practitioner or physician, who is acting within the scope of his/her professional license and applicable state law (Licensed practitioners include licensed by the New York State Department of Education, licensed master social worker (LMSW), licensed clinical social worker (LCSW), licensed mental health counselor (LMHC), licensed marriage and family therapists (LMFTs), licensed psychoanalysts; licensed creative arts therapists, physician assistants, nurse practitioners (NPs); physicians and psychologists), to promote the maximum reduction of symptoms and/or restoration of an individual to his/her best age-appropriate functional level according to an individualized treatment plan. No more than one medication management may be billed per day.

Components include:

- **Assessment** - The purpose of the assessment is to provide sufficient information for problem identification, Addiction treatment or referral for the beneficiary to gain access to other needed Medicaid Addiction or mental health services.

- **Service Planning** - Clinical treatment plan development –The treatment plan for Medicaid Addiction and mental health services must be patient-centered and developed in collaboration with the patient and patients family/collaterals, where appropriate.
- **Counseling/Therapy** - Counseling/Therapy to address a beneficiary’s major lifestyle, attitudinal, and behavioral problems. Counseling/Therapy includes highly structured psychosocial therapy to address issues that have the potential to undermine the goals of treatment; skill development for coping with and managing symptoms and behaviors associated with Addiction, such as the participant’s perspective and lack of impulse control or signs and symptoms of withdrawal. Collateral contact is permitted as needed to address the therapeutic goals of the Medicaid beneficiary receiving treatment. The following activities are excluded: financial management, supportive housing, supportive employment services, and basic skill acquisition services that are habilitative in nature.
- **Medication Management** – Psychotropic and other medication management as permitted under State Law. Medication Assisted Therapies (MAT) when medically necessary, including the direct administration of medication.
- **Care Coordination** - Care coordination includes: 1) Consultation to assist with the individual’s needs and service planning for Medicaid behavioral health services. 2) Referral and linkage to other Medicaid behavioral health services to avoid more restrictive levels of treatment.
- **Peer/Family Peer Support** - Peer counseling to address a beneficiary’s major lifestyle, attitudinal, and behavioral problems. Peer counseling includes highly structured psychosocial therapy to address issues that have the potential to undermine the goals of treatment; skill development for coping with and managing symptoms and behaviors.
- **Crisis Intervention** – Assist the individual with effectively responding to or avoiding identified persecutors or triggers that would risk their remaining in the community location or that result in functional impairments, including assisting the individual and family members or other collaterals with identifying a potential psychiatric or personal crisis, developing a crisis management plan, and/or, as appropriate, seeking other supports to restore stability and functioning.

13d. Rehabilitative Services

Residential Addiction Rehabilitative Services

Residential addiction services include individual centered residential treatment consistent with the individual's assessed treatment needs, with a rehabilitation and recovery focus designed to promote skills for coping with and managing substance use disorder symptoms and behaviors. These services are designed to help individuals achieve changes in their substance use disorder behaviors. Services should address an individual's major lifestyle, attitudinal, and behavioral problems that have the potential to undermine the goals of treatment. Residential services are delivered on an individual or group basis in a wide variety of settings including treatment in residential settings of 16 beds or less designed to help individuals achieve changes in their substance use disorder behaviors. Face-to-face interventions may include other collateral supports beyond the individual or family/caregiver, as necessary.

Provider Qualifications:

Services are provided by licensed and unlicensed professional staff, who are at least 18 years of age with a high school or equivalent diploma, according to their areas of competence as determined by degree, required levels of experience as defined by state law and regulations and departmentally approved guidelines and certifications. All residential agencies are certified under state law. Non-credentialed counselors must be at least 18 years of age with a high school or equivalent diploma. Licensed practitioners are licensed by the New York State Department of Education and include licensed master social workers (LMSWs), licensed clinical social workers (LCSWs), licensed mental health counselors (LMHCs), licensed marriage and family therapists (LMFTs), licensed psychoanalysts; registered nurses (RNs); licensed practical nurses (LPNs); nurse practitioners (NPs); medical doctors (MDs and DOs) and psychologists. Any staff who is unlicensed and providing addiction services must be credentialed by OASAS as a CASAC or a CASAC-T; Certified Recovery Peer Advocate; or be under the supervision of a QHP. State regulations require supervision of CASAC-T, Certified Recovery Peer Advocate, and non-credentialed counselors by a QHP meeting the supervisory standards established by OASAS.

A QHP includes the following professionals who are licensed by the New York State Department of Education or credentialed by OASAS: CASAC; LMSW; LCSW; NP; OT; physician (MD); physician assistants (PA); RN; psychologist; rehabilitation counselor certified by the Commission of Rehabilitation Counselor Certification; a therapeutic recreation specialist who holds a baccalaureate degree in a field allied to therapeutic recreation and, either before or after receiving such degree, has five years of full-time, paid work experience; licensed marriage and family therapists (LMFTs); and a licensed mental health counselor (Title VIII, Article 163); and a counselor certified by and currently registered as such with the National Board of Certified Counselors. The QHP provides clinical/administrative oversight and supervision of non-credentialed staff as permitted under the statutory and/or regulatory scopes of practice. All the stated requirements above are overseen and/or coordinated by the Office of Alcoholism and Substance Abuse Services (OASAS).

Only physicians, Psychiatrists, nurse practitioners, physician assistants, and registered nurses may perform medication management as permitted under state law with any supervision as required. All agencies with MAT interventions must comply with federal and state laws regarding controlled substance prescriber availability.

13d. Rehabilitative Services

Other Diagnostic, Screening, Preventive, and Rehabilitative Services

1905(a)(13); 42 CFR 440.130(d)

The State provides coverage for Outpatient and Residential Addiction Rehabilitative Services as defined at 42 CFR 440.130(d) and in this section. The State assures that all rehabilitative services are provided to, or directed exclusively toward the treatment of, the Medicaid eligible individual in accordance with section 1902(a)(10)(A)(i) of the Act. The State assures that rehabilitative services do not include and FFP is not available for any of the following in accordance with section 1905(a)(13) of the Act.

- a. educational, vocational and job training services;
- b. room and board;
- c. habilitation services;
- d. services to inmates in public institutions as defined in 42 CFR §435.1010;
- e. services to individuals residing in institutions for mental diseases as described in 42 CFR§435.1010;
- f. recreational and social activities; and
- g. services that must be covered elsewhere in the state Medicaid plan.

Outpatient Addiction Rehabilitative Services

Outpatient addiction services include individual-centered activities consistent with the individual's assessed treatment needs with a rehabilitation and recovery focus designed to promote skills for coping with and managing symptoms and behaviors associated with substance use disorders. These activities are designed to help individuals achieve and maintain recovery from Addictions. Services should address an individual's major lifestyle, attitudinal, and behavioral problems that have the potential to undermine the goals of treatment. Face-to-face interventions may include other collateral supports beyond the individual or family/caregiver, as necessary.

Outpatient addiction services are delivered on an individual or group basis in a wide variety of settings including provider offices, in the community or in the individual's place of residence. These outpatient addiction services may be provided on site or on a mobile basis as defined by the New York State Office of Alcoholism and Substance Abuse Services (OASAS). Addiction services may not be provided in inpatient or outpatient hospital settings. The setting in which the service is provided will be determined by the identified goal to be achieved in the individual's written treatment plan.

Outpatient services are individualized interventions which may include more intensive treatment any time during the day or week, essential skill restoration and counseling services, and rehabilitation skill-building when the client has an inadequate social support system to provide the emotional and social support necessary for recovery, physical health care needs or substantial deficits in functional skills. Medication-assisted therapies (MAT) should only be utilized when a client has an established opiate or alcohol dependence condition that is clinically appropriate for MAT. Opioid treatment includes the dispensing of medication and all needed counseling services including a maintenance phase of treatment for as long as medically necessary. Reimbursement for the medication is covered under the Medicaid pharmacy benefit.

All agencies with MAT interventions must comply with federal and state laws regarding controlled substance prescriber availability. Reimbursement for the medication is covered under the Medicaid pharmacy benefit.

Any staff who is unlicensed and providing addiction services must be credentialed by OASAS as a credentialed alcoholism and substance abuse counselor (CASAC); a credentialed alcoholism and substance abuse counselor – trainee (CASAC-T); Certified Recovery Peer Advocate (CRPA); or be under the supervision of a qualified health professional (QHP).

State regulations require supervision of CASAC-T, Certified Recovery Peer Advocate and non-credentialed counselors by a QHP, meeting the supervisory standards established by OASAS. A QHP includes the following professionals who are currently licensed by the New York State Department of Education or credentialed by OASAS: Credentialed Alcoholism and Substance Abuse Counselor (CASAC); LMSW; LCSW; NP; occupational therapist (OT); physician; physician assistants; RN; psychologist; rehabilitation counselor certified by the Commission of Rehabilitation Counselor Certification; a therapeutic recreation specialist who holds a baccalaureate degree in a field allied to therapeutic recreation and, either before or after receiving such degree, has five years of full-time, paid work experience in an activities program in a health care setting or an equivalent combination of advanced training, specialized therapeutic recreation education and experience, or is a recreational therapist certified by the National Council on Therapeutic Recreation or the American Therapeutic Recreation Association; licensed marriage and family therapists (LMFTs); a licensed mental health counselor licensed by the New York State Education Department (Title VIII, Article 163); and a counselor certified by and currently registered as such with the National Board of Certified Counselors. The QHP provides clinical/administrative oversight and supervision of non-credentialed staff as permitted under the statutory and/or regulatory scopes of practice. All the stated above requirements for certified and credentialed practitioners are overseen and/or coordinated by OASAS.

CASAC must be at least 18 years of age; have earned at least a high school diploma or a General Equivalency Diploma (GED); and reside or work in New York State at least 51 percent of the period during which their application is being processed to be issued a credential. In addition, a CASAC must:

- (1) provide three references attesting to the attainment of specific competency and ethical conduct requirements;
- (2) document a minimum of 6,000 hours of supervised, full-time equivalent experience in an approved OASAS work setting or substitute a) a Master's Degree in a Human Services field for 4,000 hours experience; b) a Bachelor's Degree in a Human Services field for 2,000 hours experience; c) an Associate's Degree in a Human Services field for 1,000 hours experience;
- (3) meet minimum education and training requirements including a minimum of 350 hours which address the full range of knowledge, skills and professional techniques related to chemical dependence counseling; *Note: A formal internship or formal field placement may be claimed as work experience **OR** education and training, but not both. Work experience claimed may **not** include any experience gained as part of, or required under, participation as a patient in a formal alcoholism and/or substance abuse or problem gambling treatment/aftercare program and/or plan and*
- (4) pass the International Certification and Reciprocity Consortium (IC&RC) examination for Alcohol and Drug Counselors. The International Certification & Reciprocity Consortium (IC&RC) examination for Alcohol and Drug Counselors is comprised of 150 multiple-choice questions derived from the counselor tasks identified in the IC&RC Candidate Guide.

Credentialed Alcoholism and Substance Abuse Counselor (CASAC-T) Trainee must be at least 18 years of age; have earned at least a high school diploma or a General Equivalency Diploma (GED); and reside or work in New York State at least 51 percent of the period during which their application is being processed to be issued a credential. Applicants may be considered for a CASAC Trainee certificate upon satisfying a minimum of:

- 350 hours of the required education and training; OR
- 4,000 hours of appropriate work experience **and** the 85 clock hours in Section 1 of the education and training related to knowledge of alcoholism and substance abuse.

The CASAC Trainee certificate is effective from the date that any of the above eligibility requirements are approved until the end of the five-year period that the application is active. The CASAC Trainee certificate is not renewable. However, if the CASAC-T is an examination candidate when the CASAC Trainee certificate expires, a three year extension may be requested.

Certified Recovery Peer Advocate (CPRA) as defined in the NYS OASAS regulations is:

- An individual who is supervised by a credentialed or licensed clinical staff member as identified in the patient's treatment/recovery plan working occur under the direction of a certified agency.
- CRPA is a self-identified consumer who is in recovery from mental illness and/or substance use disorder
- To be eligible for the CRPA, the applicant must:
 - Demonstrate they have completed appropriate education and training relevant to the performance domains identified in the Recovery Coach Job Task Analysis Report.
 - Hold a high school diploma or jurisdictionally certified high school equivalency.
 - 46 hours specific to the domains, with 10 hours each in the domains of Advocacy, Mentoring/Education, and Recovery/Wellness Support and 16 hours in the domain of Ethical Responsibility.
 - Complete 500 hours of volunteer or paid work experience specific to the PR domains.
 - Receive 25 hours of supervision specific to the domains. Supervision must be provided by an organization's documented and qualified supervisory staff per job description.
 - Pass the NYCB/IC&RC Peer Advocate Exam.
 - Complete 20 hours of continuing education earned every two years, including six hours in Ethics.

All providers listed may provide any component of the outpatient Addiction services consistent with State law and practice act with three exceptions: Certified Recovery Peer Advocates can only perform peer supports, service planning, care coordination, and assistance in a crisis intervention; unlicensed and/or uncredentialed professionals may assist with the performance of any activity listed here so long as supervised as noted above; and all agencies with MAT interventions must comply with federal and state laws regarding controlled substance prescriber availability.

Service Limitations:

Services must be medically necessary and must be recommended by a licensed practitioner or physician, who is acting within the scope of his/her professional license and applicable state law (Licensed practitioners include licensed by the New York State Department of Education, licensed master social worker (LMSW), licensed clinical social worker (LCSW), licensed mental health counselor (LMHC), licensed marriage and family therapists (LMFTs), licensed psychoanalysts; licensed creative arts therapists, physician assistants, nurse practitioners (NPs); physicians and psychologists), to promote the maximum reduction of symptoms and/or restoration of an individual to his/her best age-appropriate functional level according to an individualized treatment plan. No more than one medication management may be billed per day.

Components include:

- **Assessment** - The purpose of the assessment is to provide sufficient information for problem identification, Addiction treatment or referral for the beneficiary to gain access to other needed Medicaid Addiction or mental health services.

- **Service Planning** - Clinical treatment plan development –The treatment plan for Medicaid Addiction and mental health services must be patient-centered and developed in collaboration with the patient and patients family/collaterals, where appropriate.
- **Counseling/Therapy** - Counseling/Therapy to address a beneficiary’s major lifestyle, attitudinal, and behavioral problems. Counseling/Therapy includes highly structured psychosocial therapy to address issues that have the potential to undermine the goals of treatment; skill development for coping with and managing symptoms and behaviors associated with Addiction, such as the participant’s perspective and lack of impulse control or signs and symptoms of withdrawal. Collateral contact is permitted as needed to address the therapeutic goals of the Medicaid beneficiary receiving treatment. The following activities are excluded: financial management, supportive housing, supportive employment services, and basic skill acquisition services that are habilitative in nature.
- **Medication Management** – Psychotropic and other medication management as permitted under State Law. Medication Assisted Therapies (MAT) when medically necessary, including the direct administration of medication.
- **Care Coordination** - Care coordination includes: 1) Consultation to assist with the individual’s needs and service planning for Medicaid behavioral health services. 2) Referral and linkage to other Medicaid behavioral health services to avoid more restrictive levels of treatment.
- **Peer/Family Peer Support** - Peer counseling to address a beneficiary’s major lifestyle, attitudinal, and behavioral problems. Peer counseling includes highly structured psychosocial therapy to address issues that have the potential to undermine the goals of treatment; skill development for coping with and managing symptoms and behaviors.
- **Crisis Intervention** – Assist the individual with effectively responding to or avoiding identified persecutors or triggers that would risk their remaining in the community location or that result in functional impairments, including assisting the individual and family members or other collaterals with identifying a potential psychiatric or personal crisis, developing a crisis management plan, and/or, as appropriate, seeking other supports to restore stability and functioning.

13d. Rehabilitative Services

Residential Addiction Rehabilitative Services

Residential addiction services include individual centered residential treatment consistent with the individual's assessed treatment needs, with a rehabilitation and recovery focus designed to promote skills for coping with and managing substance use disorder symptoms and behaviors. These services are designed to help individuals achieve changes in their substance use disorder behaviors. Services should address an individual's major lifestyle, attitudinal, and behavioral problems that have the potential to undermine the goals of treatment. Residential services are delivered on an individual or group basis in a wide variety of settings including treatment in residential settings of 16 beds or less designed to help individuals achieve changes in their substance use disorder behaviors. Face-to-face interventions may include other collateral supports beyond the individual or family/caregiver, as necessary.

Provider Qualifications:

Services are provided by licensed and unlicensed professional staff, who are at least 18 years of age with a high school or equivalent diploma, according to their areas of competence as determined by degree, required levels of experience as defined by state law and regulations and departmentally approved guidelines and certifications. All residential agencies are certified under state law. Non-credentialed counselors must be at least 18 years of age with a high school or equivalent diploma. Licensed practitioners are licensed by the New York State Department of Education and include licensed master social workers (LMSWs), licensed clinical social workers (LCSWs), licensed mental health counselors (LMHCs), licensed marriage and family therapists (LMFTs), licensed psychoanalysts; registered nurses (RNs); licensed practical nurses (LPNs); nurse practitioners (NPs); medical doctors (MDs and DOs) and psychologists. Any staff who is unlicensed and providing addiction services must be credentialed by OASAS as a CASAC or a CASAC-T; Certified Recovery Peer Advocate; or be under the supervision of a QHP. State regulations require supervision of CASAC-T, Certified Recovery Peer Advocate, and non-credentialed counselors by a QHP meeting the supervisory standards established by OASAS.

A QHP includes the following professionals who are licensed by the New York State Department of Education or credentialed by OASAS: CASAC; LMSW; LCSW; NP; OT; physician (MD); physician assistants (PA); RN; psychologist; rehabilitation counselor certified by the Commission of Rehabilitation Counselor Certification; a therapeutic recreation specialist who holds a baccalaureate degree in a field allied to therapeutic recreation and, either before or after receiving such degree, has five years of full-time, paid work experience; licensed marriage and family therapists (LMFTs); and a licensed mental health counselor (Title VIII, Article 163); and a counselor certified by and currently registered as such with the National Board of Certified Counselors. The QHP provides clinical/administrative oversight and supervision of non-credentialed staff as permitted under the statutory and/or regulatory scopes of practice. All the stated requirements above are overseen and/or coordinated by the Office of Alcoholism and Substance Abuse Services (OASAS).

Only physicians, Psychiatrists, nurse practitioners, physician assistants, and registered nurses may perform medication management as permitted under state law with any supervision as required. All agencies with MAT interventions must comply with federal and state laws regarding controlled substance prescriber availability.

direct patient care responsibility. The Commissioner is authorized to audit each provider to ensure compliance with this purpose and shall recoup all funds determined to have been used for purposes other than recruitment and retention of non-supervisory workers or workers with direct patient care responsibility. Payments made pursuant to this section shall not be subject to subsequent adjustment or reconciliation. All government and non-government owned or operated providers are eligible for this adjustment pursuant to the same uniformly applied methodology.

Type of Service

For persons residing in nursing facilities who have elected hospice care, the Medicaid State agency will pay the hospice an amount sufficient to cover room and board as defined in Section 1905 (o) of the Social Security Act.

Special Needs Patients

Enhanced Medicaid rates for services to special need hospice patients are established for routine home care, continuous home care and general inpatient care using the following methodology: Use the percentages for each service component as promulgated by the CMS in the routine home care, continuous home care and general inpatient care rates, to determine service component dollar values; use documented cost data which supports specific service component enhancement to calculate amount to be added to rate as an enhancement; apportion each rate into its respective labor and non-labor component using the Medicare prescribed labor to non-labor ratios; adjust labor component of each enhanced rate to account for regional differences in wages using Medicare hospice wage indices; add adjusted labor component to the non-labor component to arrive at the regional enhanced rates.

[Rehabilitative Services

The New York State Office of Alcoholism and Substance Abuse Services establishes rates of reimbursement for the provision of rehabilitative services to persons in freestanding chemical dependence residential facilities. Allowable base year costs are determined by the application of principles developed for determining reasonable cost payments under the Medicare program. To be allowable, costs must be reasonable and relate to patient care. Allowable costs may not include costs for services, which have not been approved by the Commissioner. Total allowable costs are classified as either treatment related costs or room and board related costs. Utilizing only allowable treatment related costs; a provider-specific Medicaid treatment rate shall be established. The treatment rate shall consist of an operating and a capital component.]

Rehabilitative Services - Addiction Services

Addiction Residential Services

The New York State Office of Alcoholism and Substance Abuse Services establishes rates of reimbursement for the provision of rehabilitative services to persons in non-hospital freestanding residential addiction facilities under part 818. Allowable base year treatment costs are determined by application of principles developed for determining reasonable cost payments for direct and indirect costs consistent with 2 CFR 200 and 45 CFR 75. Utilizing only allowable treatment related costs; a provider-specific Medicaid treatment rate shall be established. Room and board related costs are not Medicaid reimbursable. All rates are published on the State website at:

<https://www.oasas.ny.gov/manicare/documents/IPRArt32.xlsx>

Reimbursement for all other non-hospital freestanding residential addiction facilities under Part 820 are paid based upon a Medicaid fee schedule established by the State of New York. The State developed fee schedule is the same for both governmental and private individual providers. The agency's fee schedule rate was set as of July 1, 2016 and is effective for services provided on or after that date. All rates are published on the State website at:

<https://www.oasas.ny.gov/manicare/ResidentialAddictionServicesPart820.cfm>

The fee development methodology will build residential fees considering each component of provider costs as outlined below. These reimbursement methodologies will produce rates sufficient to enlist enough providers so that services under the plan are available to beneficiaries at least to the extent that these services are available to the general population, as required by 42 CFR 447.204. These rates comply with the requirements of Section 1902(a)(3) of the Social Security Act and 42 CFR 447 .200, regarding payments and consistent with economy, efficiency, and quality of care. Provider enrollment and retention will be reviewed periodically to ensure that access to care and adequacy of payments are maintained. The Medicaid fee schedule will be equal to or less than the maximum allowable under the same Medicare rate. where there is a comparable Medicare rate. Room and board costs are not included in the Medicaid fee schedule.

A unit of service is defined according to the Healthcare Common Procedure Coding System approved code set per the national correct coding initiative unless otherwise specified.

Rehabilitative Services (42 CFR 440.130(d): OASAS outpatient community-based addiction services

OASAS will establish regional fee schedules which recognize regional cost differences for outpatient community-based addiction rehabilitative services. All fees are subject to approval by the Division of the Budget. Outpatient community-based addiction providers are certified by OASAS pursuant to New York State Mental Hygiene Law Article 32 and not operated by a hospital.

Definitions

Except for the definitions below, the list of definitions in the APG System: Freestanding Clinics section will apply to the methodology for OASAS outpatient community-based addiction rehabilitative services.

- Peer groups and Regions - There are 6 OASAS Community-based addiction rehabilitative services peer groups. The peer groups are divided into two regions, downstate and upstate. The downstate region includes the following counties: New York, Kings, Queens, Richmond, Bronx, Nassau, Suffolk, Westchester, Rockland, Putnam, Dutchess and Orange. The upstate region includes all other counties in the rest of the State. The peer groups are as follows: Upstate outpatient addiction agencies; Downstate outpatient addiction agencies; Upstate outpatient rehabilitation agencies; Downstate outpatient rehabilitation agencies; Upstate opioid treatment agencies; Downstate opioid treatment agencies. This information is also on the OASAS website at:

<http://www.oasas.ny.gov/admin/hcf/FFS/RegionAPGBaseRate.cfm>

Providers with sites located in different regions receive reimbursement based on the region where the services are provided.

New providers of OASAS outpatient community-based addiction rehabilitative services will be paid the same as other providers in their peer group.

Units of Service – A unit for outpatient community-based addiction rehabilitative services providers is equal to a service provided to an individual on a single day. An individual may have multiple services in a single day. Providers will not be reimbursed for two of the same services a day (e.g. two individual sessions, two group sessions) or more than two different services provided in a single visit date except for medication administration, medication management, complex care management, collateral visit, and peer support services. Multiple services (where permitted) in each visit will be discounted by 10%. The single unit must include: the discrete visit dates and the multiple CPT or HCPCS codes for services that are delivered on the individual days within the period. Qualified OTPs will receive a 10% add-on for delivery of enhanced services. Qualified outpatient community-based addiction rehabilitative services providers will receive a 50% add-on for services delivered by a certified peer.

Effective Date 07.01.2016

**New York
10(a.3)**

Reimbursement Methodology

Beginning in July 2016, the fee development methodology will be based on the case mix index for similar New York services. The calculation of the case mix index will be used in the periodic determination of the base rates to assure that prospective aggregate disbursements remain within available resources. The initial base rates were based on 2008 Medicaid claims data for OASAS providers. The initial update was based on claims data from 2010 for OASAS providers. Beginning in July 2016, the base rates will be updated at least every two years based on Medicaid claims from the most recent 12-month period, which is complete and accurate billing data. Community-based addiction rehabilitative services will not receive a capital add-on. The total volume of service type multiplied by the service weight and added to the other aggregated volume per service weight will determine initial case mix. Thereafter, case mix will continue to be determined by actual volume of reported services to yield the actual case mix ratio. A link to the base rates in effect can be found at:

https://www.oasas.ny.gov/manicare/SUDOP_OTP.cfm

Payment will be determined by multiplying a dollar base rates (varies by peer group) by the weight for each procedure. The weight is a numeric value that reflects the relative expected resource utilization for each procedure as compared to the expected resource utilization for all other procedures. Procedure weights are the same for all outpatient community-based addiction rehabilitative services regardless of peer group. The same weights will be applied to Addiction Rehabilitation Services and OASAS clinics operation under Mental Hygiene Law Article 32 and not operated by a hospital.

Peer Group Base Rates for outpatient community-based addiction rehabilitative services provided by OASAS licensed outpatient community-based addiction rehabilitation agencies and opioid treatment agencies.
