RE: SPA #17-0054
Non-Institutional Services

Dear Mr. Melendez:

The State requests approval of the enclosed amendment #17-0054 to the Title XIX (Medicaid) State Plan for non-institutional services to be effective July 1, 2017 (Appendix I). This amendment is being submitted based on State regulation. A summary of the plan amendment is provided in Appendix II.

The State of New York reimburses these services through the use of rates that are consistent with and promote efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area as required by §1902(a)(30) of the Social Security Act and 42 CFR §447.204.

Copies of pertinent sections of State regulations are enclosed for your information (Appendix III). A copy of the public notice of this plan amendment, which was given in the New York State Register on June 28, 2017, is also enclosed for your information (Appendix IV). In addition, responses to the five standard funding questions are also enclosed (Appendix V).

If you have any questions regarding this State Plan Amendment submission, please do not hesitate to contact John E. Ulberg, Jr., Medicaid Chief Financial Officer, Division of Finance and Rate Setting, Office of Health Insurance Programs at (518) 474-6350.

Sincerely,

Jason A. Helgerson
Medicaid Director
Office of Health Insurance Programs

Reimbursement Methodology

I. The initial calculation of the APG relative weights were developed using line level charges from 2005 New York Medicaid hospital claims converted to cost using the ratio of cost to charges methodology. The line level costs were brought up to the APG level to determine the average cost of each APG.

a. The APG relative weights shall be updated no less frequently than every [five] six years based on hospital claims data. These APG and weights are set as of September 1, 2009, and are effective for specified services on and after that date. A link to the list of APGs and their relative weights is available in the APG Reimbursement Methodology – Reimbursement Components section.

b. The APG relative weights shall be re-weighted prospectively. The initial re-weighting will be based on Medicaid claims data for hospitals from the December 1, 2008 through September 30, 2009 period. Subsequent re-weightings will be based on Medicaid hospital claims data from the most recent twelve month period and will be based on complete and accurate line level procedure and charge data and ratio of cost to charge data.

c. The Department shall correct material errors of any given APG relative weight. Such corrections shall make use of benchmarking data consisting of payment information from other payers (including Medicare) reimbursing comparable services. Corrections to material errors in individual APG relative weights shall be made on a prospective basis.

II. The case mix index is an expression of the average paid APG weight for a given peer group after consolidation, packaging, and discounting. Case mix indices shall be calculated by running applicable freestanding D&TC and ambulatory surgery center claims data through the latest version of the APG software to determine the average final APG weight of the visits. Outlier claims or claim lines may be excluded from this calculation to assure overall accuracy of the final case mix index. Recalculations of case mix indices for periods prior to January 1, 2010 will be based on freestanding D&TC and ambulatory surgery center Medicaid data for 2007. Such revisions for the period commencing January 1, 2010 will be based on such data from the January 1, 2009 through November 15, 2009 period. Subsequent recalculations will be based on freestanding D&TC and ambulatory surgery center Medicaid claims data from the most recent twelve month period.

Appendix II
2017 Title XIX State Plan
Third Quarter Amendment
Summary

SUMMARY
SPA #17-0054

This State Plan Amendment proposes to revise the Ambulatory Patient Group (APG) methodology for freestanding clinic and ambulatory surgery center services to reflect the recalculated weights with component updates to become effective July 1, 2017. The reweighting requirement using updated Medicaid claims data is being revised from no less frequently than every five years to no less frequently than every six years.

Appendix III
2017 Title XIX State Plan
Third Quarter Amendment
Authorizing Provisions

PHL §2807(2-a)(e):

(e) (i) notwithstanding any inconsistent provisions of this subdivision, the commissioner shall promulgate regulations establishing, subject to the approval of the state director of the budget, methodologies for determining rates of payment for the services described in this subdivision. Such regulations shall reflect utilization of the ambulatory patient group (APG) methodology, in which patients are grouped based on their diagnosis, the intensity of the services provided and the medical procedures performed, and with each APG assigned a weight reflecting the projected utilization of resources. Such regulations shall provide for the development of one or more base rates and the multiplication of such base rates by the assigned weight for each APG to establish the appropriate payment level for each such APG. Such regulations may also utilize bundling, packaging and discounting mechanisms.

If the commissioner determines that the use of the APG methodology is not, or is not yet, appropriate or practical for specified services, the commissioner may utilize existing payment methodologies for such services or may promulgate regulations, and may promulgate emergency regulations, establishing alternative payment methodologies for such services.

(ii) Notwithstanding this subdivision and any other contrary provision of law, the commissioner may incorporate within the payment methodology described in subparagraph (i) of this paragraph payment for services provided by facilities pursuant to licensure under the mental hygiene law, provided, however, that such APG payment methodology may be phased into effect in accordance with a schedule or schedules as jointly determined by the commissioner, the commissioner of mental health, the commissioner of alcoholism and substance abuse services, and the commissioner of mental retardation and developmental disabilities.

(iii) Regulations issued pursuant to this paragraph may incorporate quality related measures limiting or excluding reimbursement related to potentially preventable conditions and complications; provided however, such quality related measures shall not include any preventable conditions and complications not identified for Medicare nonpayment or limited payment.

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for non-institutional services to revise provisions of the Ambulatory Patient Group (APG) reimbursement methodology on and after July 1, 2017. The following changes are proposed:

The Ambulatory Patient Group (APG) reimbursement methodology is revised to include recalculated weight and component updates that will become effective on and after July 1, 2017.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal year 2017/2018 is ($3.84) million.

The public is invited to review and comment on this proposed State Plan Amendment. Copies of which will be available for public review on the Department's website at http://www.health.ny.gov/regulations/state_plans/status.

Copies of the proposed State Plan Amendments will be on file in each local (county) social services district and available for public review.

For the New York City district, copies will be available at the following places:

New York County
250 Church Street
New York, New York 10018

Queens County, Queens Center
3220 Northern Boulevard
Long Island City, New York 11101

Kings County, Fulton Center

Brooklyn, New York 11201

Bronx County, Tremont Center
1916 Monterey Avenue
Bronx, New York 10457

Richmond County, Richmond Center
95 Central Avenue, St. George
Staten Island, New York 10301

For further information and to review and comment, please contact: Department of Health, Division of Finance and Rate Setting, Office of Health Insurance Programs, 99 Washington Ave., One Commerce Plaza, Suite 1432, Albany, NY 12210, (518) 408-6657, spa_inquiries@health.state.ny.us

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for non-institutional services to comply with enacted statutory provisions. The following changes are proposed:

Non-Institutional Services

Effective on or after July 1, 2017 in accordance with Sections 368-d and 368-e of the Social Services Law, the Department of Health proposes to a) increase interim encounter-based fee rates and b) to utilize certified public expenditures (CPEs) reimbursement methodology through June 30, 2020.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this initiative for state fiscal year 2017/2018 is $250 million.

The public is invited to review and comment on this proposed State Plan Amendment, a copy of which will be available for public review on the Department's website at http://www.health.ny.gov/regulations/state_plans/status. In addition, approved SPA's beginning in 2011, are also available for viewing on this website.

Copies of the proposed State Plan Amendments will be on file in each local (county) social services district and available for public review.

For the New York City district, copies will be available at the following places:

New York County
250 Church Street
New York, New York 10018

Queens County, Queens Center
3220 Northern Boulevard
Long Island City, New York 11101

Kings County, Fulton Center

Appendix V
2017 Title XIX State Plan
Third Quarter Amendment
Responses to Standard Funding Questions

NON-INSTITUTIONAL SERVICES
State Plan Amendment #17-0054

CMS Standard Funding Questions

The following questions are being asked and should be answered in relation to all payments made to all providers reimbursed pursuant to a methodology described in Attachment 4.19-B of this SPA. For SPAs that provide for changes to payments for clinic or outpatient hospital services or for enhanced or supplemental payments to physician or other practitioners, the questions must be answered for all payments made under the state plan for such service.

1. **Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by States for services under the approved State plan. Do providers receive and retain the total Medicaid expenditures claimed by the State (includes normal per diem, supplemental, enhanced payments, other) or is any portion of the payments returned to the State, local governmental entity, or any other intermediary organization? If providers are required to return any portion of payments, please provide a full description of the repayment process. Include in your response a full description of the methodology for the return of any of the payments, a complete listing of providers that return a portion of their payments, the amount or percentage of payments that are returned and the disposition and use of the funds once they are returned to the State (i.e., general fund, medical services account, etc.).**

   Response: Providers do retain the payments made pursuant to this amendment. However, this requirement in no way prohibits the public provider, including county providers, from reimbursing the sponsoring local government for appropriate expenses incurred by the local government on behalf of the public provider. The State does not regulate the financial relationships that exist between public health care providers and their sponsoring governments, which are extremely varied and complex. Local governments may provide direct and/or indirect monetary subsidies to their public providers to cover on-going unreimbursed operational expenses and assure achievement of their mission as primary safety net providers. Examples of appropriate expenses may include payments to the local government which include reimbursement for debt service paid on a provider's behalf, reimbursement for Medicare Part B premiums paid for a provider's retirees, reimbursement for contractually required health benefit fund payments made on a provider's behalf, and payment for overhead expenses as allocated per federal Office of Management and Budget Circular A-87 regarding Cost Principles for State, Local, and Indian Tribal Governments. The existence of such transfers should in no way negate the legitimacy of these facilities' Medicaid payments or result in reduced Medicaid federal financial participation for the State. This position was further supported by CMS in review and approval of SPA 07-07C when an on-site audit of these transactions for New York City's Health and Hospitals Corporation was completed with satisfactory results.

2. **Section 1902(a)(2) provides that the lack of adequate funds from local sources will not result in lowering the amount, duration, scope, or quality of care and services available under the plan. Please describe how the state share of each type of Medicaid payment (normal per diem, supplemental, enhanced, other) is funded. Please describe whether the state share is from appropriations from the legislature to the Medicaid agency, through intergovernmental transfer agreements (IGTs), certified public expenditures (CPEs), provider taxes, or any other mechanism used by the state to provide state share. Note that, if the appropriation is not to the Medicaid agency, the source of the state share would necessarily be derived through either through an IGT or CPE. In this case, please identify the agency to which the funds are appropriated. Please provide an estimate of total expenditure and State share amounts for each type of Medicaid payment. If any of the non-federal share is being provided using IGTs or CPEs, please fully describe the matching arrangement including when the state agency receives the transferred amounts from the local governmental entity transferring the funds. If CPEs are used, please describe the methodology used by the state to verify that the total expenditures being certified are eligible for Federal matching funds in accordance with 42 CFR 433.51(b). For any payment funded by CPEs or IGTs, please provide the following:**
   - **(i) a complete list of the names of entities transferring or certifying funds;**
   - **(ii) the operational nature of the entity (state, county, city, other);**
   - **(iii) the total amounts transferred or certified by each entity;**
   - **(iv) clarify whether the certifying or transferring entity has general taxing authority: and,**
   - **(v) whether the certifying or transferring entity received appropriations (identify level of appropriations).**

   Response: Payments made to service providers under the provisions of this SPA are funded through a budget appropriation received by the State agency that oversees medical assistance (Medicaid), which is the Department of Health.

   The source of the appropriation is the Medicaid General Fund Local Assistance Account, which is part of the Global Cap. The Global Cap is funded by General Fund and HCRA resources.

   There are no additional provider taxes levied and no existing taxes have been modified.

3. **Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan. If supplemental or enhanced payments are made, please provide the total amount for each type of supplemental or enhanced payment made to each provider type.**

Response: The payments authorized for this provision are not supplemental or enhanced payments.

4. **For clinic or outpatient hospital services please provide a detailed description of the methodology used by the state to estimate the upper payment limit (UPL) for each class of providers (State owned or operated, non-state government owned or operated, and privately owned or operated). Please provide a current (i.e., applicable to the current rate year) UPL demonstration.**

   Response: Based on an agreement between CMS and the State, no UPL implications will apply to clinic SPAs between the years of 2012 and 2017. In the event the State corrects the delineated deficiencies (as stated in the November 23rd letter Deputy Commissioner Helgerson) prior to 2018, the State may submit an earlier UPL to CMS for review and approval. If such a UPL is submitted for approval, it is understood that the UPL implications will be reinstated for SPAs within that UPL year.

5. **Does any governmental provider receive payments that in the aggregate (normal per diem, supplemental, enhanced, other) exceed their reasonable costs of providing services? If payments exceed the cost of services, do you recoup the excess and return the Federal share of the excess to CMS on the quarterly expenditure report?**

   Response: The rate methodology included in the State Plan for freestanding diagnostic and treatment and ambulatory surgery center services is based upon the Ambulatory Patient Group (APG) system with the exception of Federally Qualified Health Centers who have the option to opt into the APG system or remain on the Prospective Payment Methodology (PPS) as approved by CMS in SPA 01-03. We are unaware of any requirement under current federal law or regulation that limits individual providers' payments to their actual costs.

ACA Assurances:

1. **Maintenance of Effort (MOE). Under section 1902(gg) of the Social Security Act (the Act), as amended by the Affordable Care Act, as a condition of receiving any Federal payments under the Medicaid program during the MOE period indicated below, the State shall not have in effect any eligibility standards, methodologies, or procedures in its Medicaid program which are more restrictive than such eligibility provisions as in effect in its Medicaid program on March 10, 2010.**

   MOE Period.
   - **Begins on: March 10, 2010, and**
   - **Ends on: The date the Secretary of the Federal Department of Health and Human Services determines an Exchange established by a State under the provisions of section 1311 of the Affordable Care Act is fully operational.**

Response: This SPA complies with the conditions of the MOE provision of section 1902(gg) of the Act for continued funding under the Medicaid program.

2. **Section 1905(y) and (z) of the Act provides for increased FMAPs for expenditures made on or after January 1, 2014 for individuals determined eligible under section 1902(a)(10)(A)(i)(VIII) of the Act. Under section 1905(cc) of the Act, the increased FMAP under sections 1905(y) and (z) would not be available for States that require local political subdivisions to contribute amounts toward the non-Federal share of the State's expenditures at a greater percentage than would have been required on December 31, 2009.**

   Prior to January 1, 2014 States may potentially require contributions by local political subdivisions toward the non-Federal share of the States' expenditures at percentages greater than were required on December 31, 2009. However, because of the provisions of section 1905(cc) of the Act, it is important to determine and document/flag any SPAs/State plans which have such greater percentages prior to the January 1, 2014 date in order to anticipate potential violations and/or appropriate corrective actions by the States and the Federal government.

   Response: This SPA would [ ] / would not [✓] violate these provisions, if they remained in effect on or after January 1, 2014.

3. **Please indicate whether the State is currently in conformance with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.**

   Response: The State does comply with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.

Tribal Assurance:

Section 1902(a)(73) of the Social Security Act the Act requires a State in which one or more Indian Health Programs or Urban Indian Organizations furnish health care services to establish a process for the State Medicaid agency to seek advice on a regular ongoing basis from designees of Indian health programs whether operated by the Indian Health Service HIS Tribes or Tribal organizations under the Indian Self Determination and Education Assistance Act ISDEAA or Urban Indian Organizations under the Indian Health Care Improvement Act.

IHCIA Section 2107(e)(I) of the Act was also amended to apply these requirements to the Children's Health Insurance Program CHIP. Consultation is required concerning Medicaid and CHIP matters having a direct impact on Indian health programs and Urban Indian organizations.

a) **Please describe the process the State uses to seek advice on a regular ongoing basis from federally recognized tribes Indian Health Programs and Urban Indian Organizations on matters related to Medicaid and CHIP programs and for consultation on State Plan**

Amendments waiver proposals waiver extensions waiver amendments waiver renewals and proposals for demonstration projects prior to submission to CMS.

b) **Please include information about the frequency inclusiveness and process for seeking such advice.**

c) **Please describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment when it occurred and who was involved.**

Response: Tribal consultation was performed in accordance with the State's tribal consultation policy as approved in SPA 11-06, and documentation of such is included with this submission. To date, no feedback has been received from any tribal representative in response to the proposed change in this SPA.
