RE: SPA #26-0046

Dear Director McMillion:

A copy of pertinent sections of enacted legislation is enclosed for your information (Appendix III). A copy of the public notice of this plan amendment, which was given in the *New York State Register* on June 24, 2026, is also enclosed for your information (Appendix IV). In addition, responses to the five standard funding questions are also enclosed (Appendix V).

If you have any questions regarding this State Plan Amendment submission, please do not hesitate to contact Regina Deyette, Medicaid State Plan Coordinator, Division of Finance and Rate Setting, Office of Health Insurance Programs at (518) 473-3658.

Appendix III
2026 Title XIX State Plan
Third Quarter Amendment
Authorizing Provisions

SPA 26-0046

PHL §2807(2-a)(e):

(e) (i) notwithstanding any inconsistent provisions of this subdivision, the commissioner shall promulgate regulations establishing, subject to the approval of the state director of the budget, methodologies for determining rates of payment for the services described in this subdivision. Such regulations shall reflect utilization of the ambulatory patient group (APG) methodology, in which patients are grouped based on their diagnosis, the intensity of the services provided and the medical procedures performed, and with each APG assigned a weight reflecting the projected utilization of resources. Such regulations shall provide for the development of one or more base rates and the multiplication of such base rates by the assigned weight for each APG to establish the appropriate payment level for each such APG. Such regulations may also utilize bundling, packaging and discounting mechanisms.

If the commissioner determines that the use of the APG methodology is not, or is not yet, appropriate or practical for specified services, the commissioner may utilize existing payment methodologies for such services or may promulgate regulations, and may promulgate emergency regulations, establishing alternative payment methodologies for such services.

(ii) Notwithstanding this subdivision and any other contrary provision of law, the commissioner may incorporate within the payment methodology described in subparagraph (i) of this paragraph payment for services provided by facilities pursuant to licensure under the mental hygiene law, provided, however, that such APG payment methodology may be phased into effect in accordance with a schedule or schedules as jointly determined by the commissioner, the commissioner of mental health, the commissioner of alcoholism and substance abuse services, and the commissioner of mental retardation and developmental disabilities.

(iii) Regulations issued pursuant to this paragraph may incorporate quality related measures limiting or excluding reimbursement related to potentially preventable conditions and complications; provided however, such quality related measures shall not include any preventable conditions and complications not identified for Medicare nonpayment or limited payment.

Regulation: 10 NYCRR 86-8.11: <https://regs.health.ny.gov/content/section-86-811-system-updating-and-incorporation-reference>

PHL §2807(2-a)(f)(ii)(C):

(f)(i) The commissioner shall periodically measure the utilization and intensity of services provided to medical assistance recipients in ambulatory settings. Such analysis shall include, but not be limited to: measurement of the shift of surgical procedures from the inpatient hospital setting to the ambulatory setting including measurement of the impact of any such shift on quality of care and outcomes; changes in the utilization and intensity of services provided in the outpatient hospital department and in diagnostic and treatment centers; and the change in the utilization and intensity of services provided in the emergency department.

(ii) notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, for periods on and after January first, two thousand nine, the following services provided by general hospital outpatient departments and diagnostic and treatment centers shall be reimbursed with rates of payment based entirely upon the ambulatory patient group methodology as described in paragraph (e) of this subdivision, provided, however, that the commissioner may utilize existing payment methodologies or may promulgate regulations establishing alternative payment methodologies for one or more of the services specified in this subparagraph, effective for periods on and after March first, two thousand nine:

(A) services provided in accordance with the provisions of paragraphs (q), (r), and (ll) of subdivision two of section three hundred sixty-five-a of the social services law; and

(B) all services, but only with regard to additional payment amounts, as determined in accordance with regulations issued in accordance with paragraph (e) of this subdivision, for the provision of such services during times outside the facility's normal hours of operation, as determined in accordance with criteria set forth in such regulations; and

(C) services provided by licensed social workers, licensed mental health counselors, and licensed marriage and family therapists, in accordance with licensing criteria set forth in applicable regulations; and

(D) individual psychotherapy services provided by licensed social workers, in accordance with licensing criteria set forth in applicable regulations, at diagnostic and treatment centers that provided, billed for, and received payment for these services between January first, two thousand seven and December thirty-first, two thousand seven;
