**1905(a)(16) Inpatient Psychiatric Hospital – PRTF****B. PSYCHIATRIC RESIDENTIAL TREATMENT FACILITIES FOR CHILDREN AND YOUTH**

Medicaid rates for Psychiatric Residential Treatment Facilities for Children and Youth (“PRTFs”) are established prospectively, based upon actual costs and patient days as reported on cost reports for the fiscal year two years prior to the rate year. The PRTF fiscal year and rate year are for the twelve months July 1 through June 30. Alternate Cost Reports will be utilized to align with appealed rate periods until such time that the appealed information would be fully reflected in the facilities annual cost report. Actual patient days are subject to a maximum utilization of 96 percent and a minimum utilization of ~~90~~ 82 percent. The minimum utilization requirements will be waived by the Commissioner of the Office of Mental Health (OMH) if provider visit volume falls below ~~90~~ 82% due to public health, natural, or environmental emergencies, or in the case of suspended admissions resulting from an inability to maintain required operational standards. Such reduction in minimum utilization requirements will not be less than 50%.

**1. OPERATING COSTS**

Allowable operating costs are subject to the review and approval of the OMH and effective on or after July 1, 2022, will exclude eligible medically necessary early and periodic screening, diagnostic and treatment (EPSDT) services that are not otherwise included in the PRTF rate when those services are reflected in the youth's plan of care. EPSDT services not provided by the PRTF will be reimbursed directly to the provider of service using the Fee-for-Service Program for Institutional or Non-Institutional payment methods authorized under attachments 4-19-A and 4.19-B of the State Plan and administered by the New York Department of Health commencing on the date the child is determined to be Medicaid eligible. The cost of those EPSDT services provided to the child before the determination of Medicaid eligibility, will be the responsibility of the PRTF and considered an allowable cost in the development of the provider's reimbursement rate for Medicaid PRTF stays. The EPSDT services that are not included in the PRTF rate after Medicaid eligibility is determined, include but are not limited to:

- (i) Specialty physician and physician's assistant nursing services,
- (ii) Specialty services of Nurse Practitioners,
- (iii) Dental services,
- (iv) Eye and low vision services,
- (v) Audiology services,
- (vi) Laboratory and radiology services,
- (vii) Physical therapy services,
- (viii) Durable medical equipment,
- (ix) Prosthetics and orthotics,
- (x) Prescription and physician ordered non-prescription drugs and medical supplies,
- (xi) Inpatient hospital care,
- (xii) Outpatient hospital care,
- (xiii) Emergency room visits,
- (xiv) Urgent Care Center visits,
- (xv) Family planning and reproductive health care services and supplies,
- (xvi) Neuropsychological testing/evaluation services, and
- (xvii) Ambulance transportation services (emergency and non-emergency).

The Commissioner of the OMH may waive the exclusion of the above services from the PRTF rate based on a determination that there is inadequate availability of providers of such services accepting reimbursement under the Fee-for-Service Program.

On or after July 1, 2022, The State will increase the rates of payment to include necessary costs for additional staff to meet updated programmatic needs and standards, as approved by the OMH, which are not included in the historical cost reports utilized to develop the rates. The new costs to support additional staff, include the following:

- 5% increase to all provider-specific approved C/DC FTE levels for all PRTFs
- For PRTFs that have not had a staff plan increase or review since 7/1/2020, an additional 26% increase to all provider-specific approved FTE levels
