This State Plan Amendment proposes to adjust Assertive Community Treatment reimbursement rates to account for changes in Bureau of Labor Statistic reference salaries to maintain provider sustainability and access to services.

**New York

1905(a)(13) Other diagnostic, screening, preventive, and rehabilitative services

13d. Rehabilitative Services

Assertive Community Treatment (ACT) Reimbursement

ACT services are reimbursed regional monthly fees per individual for ACT teams corresponding to the number of individuals served, as defined in the fee schedule. Except as otherwise noted in the plan, monthly fees are the same for both governmental and non-governmental providers of ACT services. The agency's fee schedule rate is adjusted, ~~including changes for the statutory minimum wage increase,~~ as of July ~~April~~-1, 2026, and such rate is effective for services provided on or after that date. All rates are published at the following link:

https://www.omh.ny.gov/omhweb/medicaid_reimbursement/excel/act.xlsx

Monthly fees are based on projected costs necessary to operate an ACT team of each size and are calculated by dividing allowable projected annual costs by 12 months and by team size. Such monthly fee is then adjusted by a factor to account for fluctuations in case load or when the provider cannot submit full or partial month claims because the minimum contact threshold cannot be met. No costs for room and board are included when calculating ACT reimbursement rates.

ACT services are reimbursed either the full or partial/stepdown fee based on the number of discrete contacts of at least 15 minutes in duration in which ACT services are provided during a month. Providers may not bill more than one monthly fee for the same individual in the same month.

ACT services are reimbursed the full fee for a minimum of six contacts per month, at least three of which must be face-to-face with the individual. ACT services are reimbursed the partial/stepdown fee for a minimum of two and fewer than six contacts per month, of which two must be face-to-face with the individual. ACT services are also reimbursed the partial/stepdown fee for a maximum of five months for a minimum of two contacts per month for individuals admitted to a general hospital for the entire month, however the full fee may be reimbursed in the month of the individual's admission or discharge if the provider meets the minimum of six contacts per month, of which up to two contacts may be provided while the individual was in the hospital. For purposes of this provision, an inpatient admission is considered continuous if the individual is readmitted within 10 days of discharge.
