

Prostate Cancer Comparative Outcomes of New Conceptual Paradigms for Treatment (PC-Concept)

PC Concept Study

What is the study about?

The study looked at quality of life in prostate cancer patients. The goal was to learn about a person's quality of life before and after different treatments for prostate cancer.

Who is eligible to participate?

People diagnosed with prostate cancer between late 2020 and 2022. Must have been diagnosed at specific hospitals in Southern California or New York State.

Partner institutions:

Weill Cornell, Kansas University Medical Center, University of Southern California

More Information:

If you have questions about the research, please contact us at the New York State Cancer Registry at (518) 474-2255 or email PC-Concept@health.ny.gov.
