

Uterine Cancer Diagnosis Experience Survey Study

Diagnosis Experience Survey

By helping us understand your diagnosis experience,
we hope to improve care for future patients.

What is the study about?

This study looked at uterine cancer in Black and White women. The goal was to learn about potential risk factors and barriers to uterine cancer detection and care.

Who is eligible to participate?

Non-Hispanic Black and Non-Hispanic White women, ages 18 or older, who live in New York. Must have been newly diagnosed with uterine cancer.

Partner institutions:

Yale University School of Medicine, Emory University, Columbia University

More Information:

If you have any questions about the New York State Cancer Registry, please call us at (518) 474-2255. For questions about the research, please contact the study team at Yale University at 203-737-6254.
